Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [110]

We don’t need foreign companies in our telecom sector.

* Prices of cell phone services won’t be lower as they are already very competitive worldwide.

* Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.

* Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.
