Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [45]

We don't need foreign companies in our telecom sector. They're interests aren't in line with those of Canadians; they are interested in profits as most companies are but in this case the profits come at the expense of our culture. That is unacceptable and the very reason I believe we have the rules preventing foreign ownership.

- * Prices of cell phone services won't be lower as they are already very competitive worldwide.
- * Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.
- * Make a stand and a statement that you care about Canadian Culture by protecting it. Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.
