As a Canadian, I don't want foreign companies in our telecom sector.

A big concern for me being from rural Saskatchewan is that Canadians in these rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.

As well, since most telecom companies also provide broadcasting services, a foreign-owned company will definitely influence the content of its broadcasting service. I would rather a local, Canadian company be responsible for Canadian content. Already too many of our jobs are outsourced to other countries to save money and make greedy corporations richer. I do not wish to see this happen to our telecoms as well.

Sincerely,  
Chelsea Schmidt
