Gazette Notice DGTP-003-07:

Proposed Spectrum Utilization policy, Technical and Licensing Requirements to Introduce Dedicated Short-range Communications-based Intelligent Transportation Systems Applications in the Band 5850-5925 MHz

DENSO CORPORATION is very pleased to submit its views to Industry Canada on Proposed Spectrum Utilization policy, Technical and Licensing Requirements to Introduce Dedicated Short-range Communications-based Intelligent Transportation Systems Applications in the Band 5850-5925 MHz, in response to Gazette Notice DGTP-003-07 released on 23 March 2007.

DENSO has been providing vehicle components to the Canadian market and are developing radio devices to be used for DSRC.

DENSO supports the proposed technical requirements as they are expected to be harmonized with that of FCC.

Sincerely,

Kazuo Sakakibara

Senior Manager
