Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [330]

We don't need foreign companies in our telecom sector.

Our providence and it's people are very proud and happy to support our telco and if things were to change, then there would alot of unhappy Saskatchewanians.

- * Prices of cell phone services won't be lower as they are already very competitive worldwide.
- * Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.
- * Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.

Garry Aveyard
