Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [128]

Okay, enough with selling off Canada to foreign interests! Haven't you guys in Ottawa got something better to do, like looking after Canadians? Get with the program please! Or go home and let someone who really cares about Canada take charge. We don't need foreign companies in our telecom sector.

- * Prices of cell phone services won't be lower as they are already very competitive worldwide.
- * Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.
- * Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.
