Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [235]

I'm very much opposed to foreign ownership of our telco's. This is TERRIBLE just from a Internal Security stance. What one earth is our Government thinking!! This is crazy! Why don't we just go a little further and let any old International Entity own,run, repair our Military Communications as well.

You pass this and I will make it my person passion to make sure everyone i know doesn't vote conservative next election.

We don't need foreign companies in our telecom sector.

- * Prices of cell phone services won't be lower as they are already very competitive worldwide.
- * Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.
- * Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.
