Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [202]

We don't need foreign companies in our telecom sector.

- \* Prices of cell phone services won't be lower as they are already very competitive worldwide.
- \* Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.
- \* Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.
- \* Being a Canadian, paying taxes, looking out for our best interests should be a priority. But is it? If you sell our company to foreign firms you would be letting alot of Canadians down. Alot of time and hard work have gone into make this company what it is today and now you just want to throw it all away. How much more of a profit do you need before the government would be satisfied?
