Subject: Opening Canada's Doors to Foreign Investment in Telecommunications: Options for Reform [131]

We don't need foreign companies in our telecom sector.

- * Prices of cell phone services won't be lower as they are already very competitive worldwide.
- * Canadians in rural and remote communities may suffer from poor service and no access to high-speed Internet as there is no profit to be made there by foreign companies.
- * Our culture is at risk because most telecom companies also provide broadcasting services. If such a company falls into foreign hands, it will definitely influence the content of its broadcasting service. Foreign ownership of telecom is a direct threat to our cultural identity.

Don't be selling out control of our own country to foreign entities who don't care about our best interests.

And remember this: You are barely holding on to power with a minority government now, you can be voted out if you pursue this idea.
