Trademarks Journal

2020-04-01 — Vol. 67 No. 3414

Trademarks Journal

Vol. 67 No. 3414

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 09

(1) scientific, photographic, cinematographic, signalling and laboratory apparatus and instruments, namely, microscopes, pipettes, flasks, test tubes, cameras, photographic lenses, camera filters, photometers, slide plates, slide projectors, telescopes, eyeglasses and sunglasses, magnifying glasses, video viewers, namely, video monitors and video tape players, lamps, namely, flash lamps for photography, television screens, picture enlargers projectors, video tape recorders, electrical loadmeters, namely, ammeters, radar speed indicators signs, namely, speedometers, fuel level gauges, temperature gauges; apparatus for recording, transmission and reproduction of sound and images, namely, computers, computer screens, computer keyboards, printers, telephones, telecopiers, televisions; magnetic data carriers, namely, blank magnetic tape, recording discs, namely, blank floppy discs, blank audio compact discs, blank audio digital discs, blank compact discs, blank hard discs, blank laser discs, blank digital audio discs, blank digital versatile discs, prerecorded floppy disks and CD ROMS containing a catalogue of goods for sale in the field of electronic commerce in the field of retail department store and wholesale department store services, online trading in which seller posts products to be auctioned and bidding is done via the Internet, data management, namely, updating and maintenance of data in computer databases, telecommunications, namely, television and radio broadcasting, entertainment, namely, movies, television shows and music videos, education, namely, educational videos in the field of computers, finance, namely, financial planning, investment analysis, financial news and commentary to articles, charts, lists, diagrams, images, tables, editorials, calculations, price indices, historic data and financial data, insurance, property development, property management and computer technology information services, namely, educational videos in the field of computers; mechanisms for coin-operated vending machines; cash registers, calculators, electronic data processing equipment, namely, computers and printers for use with computers; computer programs for use in electronic commerce for processing electronic payments to and from others and authenticating the identity of payer; software for processing electronic bill payments and credit and debit card payments; authentication software for verification in the field of on-line payment and transfer of funds; on-line electronic publications, namely, books, directories, catalogues and information pamphlets downloadable from the Internet; on-line electronic

publications, namely, books, magazines, newsletters, journals, directories, catalogues and information pamphlets downloadable from a computer network; on-line electronic publications, namely, books, magazines, newsletters, journals, directories, catalogues and information pamphlets downloadable from a computer database; downloadable instant messaging software for electronically exchanging text messages, photographs, graphics, music, audio books, podcasts, voice messages via computer, mobile, wireless and telecommunications networks; file sharing software for electronically exchanging data, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips via computer, mobile, wireless and telecommunications networks; downloadable computer software in the form of an application software that allow users to access jointly- shared documents, data information, task lists, and participate in discussion forums in the field of electronic commerce in the field of retail department store and wholesale department store services, online trading, database management, telecommunications, namely, television and radio broadcasting, entertainment, namely movies, television shows and music videos, education, namely, educational videos in the field of computers, finance, insurance, property development, property management and technology information services, namely, educational videos in the field of computers for mobile devices and computers; mobile phone and computer communications software that allows electronic transmission of text, audio, video, images and graphics, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips via computer, mobile, wireless, and telecommunication networks, namely, radio, telephone, cable and satellite communication networks; computer software for image, graphics, and word processing; computer software for creating and editing music and user generated videos and movies; downloadable computer software to enable electronic transmission of information, documents, voice, and still images, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips to mobile phones and computers over the Internet; downloadable computer software which allows users to participate in web-based meetings and educational classes, with access to financial and commercial data in the field of electronic commerce in the field of retail department store services and online trading, text documents, photographic images and computer software applications for facilitating business transaction in the field of electronic commerce in the field of retail store services and online trading through a web browser; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; downloadable electronic publications, namely, newspaper and magazine articles, essays and academic papers, and instructional books, charts, diagrams and downloadable video files in the fields of telecommunications, namely, television and radio broadcasting, navigating the Internet, training, namely, arranging and conducting of online instructional courses, computer training, correspondence courses, conferences, workshops, seminars, webinars all in the field of finance and technology, namely, processing electronic transfer of funds to and from others, information technology, cloud computing, blockchain technology, identity authentication, biometrics authentication, data security, computer security; notebook computers; laptop computers; portable computers; handheld computers; personal digital assistants; personal media players, namely, portable and handheld audio and video players, namely, MP3 players, MP4 players, CD players, and DVD players; mobile telephones; smart phones; digital cameras; batteries and battery chargers for notebook computers, laptop computers, portable computers, personal digital assistants, personal media players, namely, portable and handheld audio and video players,

namely MP3 players, MP4 players, CD players, DVD players, mobile telephones, smart phones, and digital cameras; computer workstations, comprised of computer, monitor and printer; computer servers, network servers; computer and telecommunications networking hardware, namely, computer network adaptors, switches, routers and hubs; modems and communication cards and devices, namely, long distance calling cards, cell phone, telephones; laptop computer holders, namely, laptop carrying cases, sleeves for laptops, computer bags; fire extinguisher; computer hardware; computer firmware for controlling large overhead variable message signs on highways, computer firmware for database management, namely, assuring accuracy and stability of data information, namely, customer transaction records, membership records, product inventory records, customer preference, customer credit rating, sellers' credit rating, in the field of electronic commerce in the field of retail store and wholesale store services, online trading and database management, computer firmware for programming of function of hardware and network of computers and for remote monitoring of function of hardware and network of computers; E-commerce computer software to allow users to perform electronic payment transactions via a global computer network; compact discs containing music; digital music downloadable from the Internet; telecommunications apparatus, namely, network telephone, electronic facsimile machines, handheld computers, personal digital assistants and mobile phones; mouse mats; mobile phone handsets; mobile phone accessories, namely, cases, holders, handsfree headsets and chargers; downloadable computer games, pictures, photographs, motion pictures, movies and music for computers, handheld computers and mobile phones; alarm systems, namely, personal security alarms, burglar alarms, fire alarm systems; security cameras, namely, camcorders, cameras, closed circuit television cameras, digital cameras, infrared cameras; mobile radio and television broadcasting units, namely, receptors, antennas, radios and television sets; television broadcasting equipment, namely, transmitters, amplifiers, television cameras and monitors, camcorders, namely, video camera recorders and video teleprompters; cameras; video cameras; headphones; ear pieces, namely, earbuds, earsets and earphones; stereo and computer speakers; Global Positioning System (GPS) apparatus and equipment, namely, computer software, transmitters, receivers and hand held units, for automotive, aviation and marine uses and vehicle tracking; computer, electronic hand-held games and video games; liquid crystal displays for telecommunications and electronic equipment, namely, computer monitors, laptop computers, tablet computers, televisions, mobile phones, digital cameras; television set top box; remote controls, namely, remote controls for televisions, remote controls for home audio sets, remote controls for video players, namely, CD players, DVD players and MP4 players; spectacles and sunglasses; signboards, namely, luminous signs and neon signs; encoded credit, debit, cash and identification cards and magnetic credit, debit, cash and identification cards; automatic teller machines, cash dispensing machines for making change and for exchange of coins to cash; computer software applications, downloadable for image and graphic processing, audio processing, video processing, and word processing; electronic book readers; toner cartridges, unfilled, for printers and photocopiers; baby monitors; video baby monitors; lens hoods; tablet computers; encoded key cards, namely, encoded identity cards, identification cards with embedded chips, identification smart cards; 3D spectacles; memory cards for video game machines

Class 16

(2) newspapers; magazines; periodicals; journals; paper, namely, bond paper, printer paper, note paper, note book paper, craft paper, newsprint paper, cardboard; printed matter, namely, books, newspapers and magazines; bookbinding material, namely, cardboard, paper, leather and glue; photographs; stationery, namely, rulers, pens, pencils, erasers, highlighters, paper pads, paper clips, staplers and staples; adhesives for stationery and household purposes; artists' materials,

namely, paint sets, colouring pencils, art canvases, art canvas boards, art paper, artist easels and paint brushes; typewriters; chalk, chalkboards, flip charts, felt markers; plastic materials for packaging, namely, plastic bubble packs, plastic film for palletizing goods; printers' type; printing blocks; books, pamphlets, posters, printed cards, namely, greeting cards, business cards, place setting cards, index cards, circulars, catalogues, calendars, price tags, price labels; carry bags of paper, cardboard and plastic; printed telephone, facsimile, electronic mail and web site directories; plastic cards and paper cards in the form of debit cards, credit cards, charge cards and telephone cards other than encoded and magnetic cards; marketing and promotional materials, namely, brochures, flyers, coupons, pamphlets, banners of paper; computer user manuals; packaging materials, namely, paper boxes, paper wrapping, ribbons for wrapping; tissues, namely, facial tissue, toilet tissue, tissue paper; handkerchiefs made of paper; toy models and figurines made of paper; paper party bags; instructional and teaching material, namely, books and manuals containing topics of instruction in electronic commerce and online trading, namely conducting business on the Internet

Services

Class 35

(1) advertising, namely, direct mail advertising of wares and services of others, electronic billboard advertising of the wares and services of others, dissemination of advertising materials for others, updating of advertising materials for others, compilation of advertisements for the sale of goods and services of others for use as web pages on the Internet; business management; business administration; office functions, namely, bookkeeping services, computerized on-line ordering of office requisites, namely, envelopes, pens, erasers, notebooks, writing pads, adhesive tapes, calculators, packaging materials and folders, photocopy services; operation of consumer loyalty program; advertising services provided via the Internet, namely, promoting the goods of others by providing information regarding discounts and special offers for the goods of others; production of television and radio advertisements for others; accountancy; auctioneering; arranging and conducting consumer trade shows and fairs in the field of de-greasing preparations for household purposes, household detergents, electric fans for household purposes, electric water purifiers for household purposes, hair dryers for household purposes, personal stereos, mobile phones, tablets, laptops, gaming consoles, cameras, and electronics accessories, namely, cables, headphones, and chargers, exercise weights, personal exercise mats, dietary supplements for general health and well-being, beauty lotions, beauty masks, beauty creams for body care, beauty serums, household appliances, clothing, footwear, watches, fashion and jewelry, toys, books and automobiles; conducting public opinion polls; data processing, namely, collating, systematic ordering, updating and storage of data in a computer database in the field of business, e-commerce, marketing and advertising; provision of business marketing information of goods and services of others via local and global computer networks; advertising agency services; advertising services provided for others, namely, rental of advertising space on a web site on a global computer network, advertising via electronic media and via the Internet for others; database management; business management services in the field of information and data compiling and analyzing, management and compilation of computerised databases; business consulting services, namely, business administration consulting services, organization consulting in the field of electronic commerce in the field of retail store and wholesale store services, business organization consulting in the field of online trading in which seller posts products to be auctioned and bidding is done via the Internet and business acquisitions and mergers, business consulting in the field of business networking, business efficiency services, business management consulting services; business consulting services in the field of web based events, namely, teleconferencing, videoconferencing and meetings, training programs, learning programs, and seminars in the field

of electronic commerce, online trading in which seller posts products to be auctioned and bidding is done via the Internet, database management, telecommunications, namely, television and radio broadcasting, entertainment, namely, movies, television shows and music videos, education, namely, educational videos in the field of computers, finance, insurance, property development, property management and computer technology information; business management consultancy and advisory services in the fields of online collaboration and collaboration services that allow users to participate in collaboration platforms, namely, discussion forums and collaboration software for collaborating and sharing information in the field of commercial business management utilities namely jointly-shared documents, data information, task lists and participation in discussion forums and collaboration software; business marketing consultation services; project management consulting services in the field of development, set up, staging, production, recording, monitoring and follow-up for web based events, namely webinars, webcasts, podcasts, conferences, training programs, learning programs, and seminars in the field of electronic commerce in the field of retail store and wholesale store services, online trading in which seller posts products to be auctioned and bidding is done via the Internet, database management, telecommunications, namely, television and radio broadcasting, entertainment, namely, movies, television shows and music videos, education, namely, educational videos in the field of computers, finance, namely, financial planning, investment analysis, financial news and commentary to articles, charts, lists, diagrams, images, tables, editorials, calculations, price indices, historic data and financial data, insurance, property development, property management and computer technology information; market research; business consultancy services, namely, facilitating business transaction in the field of electronic commerce in the field of retail department store services and online trading in which seller posts products to be auctioned and bidding is done via the Internet via local and global computer networks by locating and providing product information and business referrals for the delivery of a wide variety of business and consumer products, namely, de-greasing preparations for household purposes, household detergents, electric fans for household purposes, electric water purifiers for household purposes, hair dryers for household purposes, personal stereos, mobile phones, tablets, laptops, gaming consoles, cameras, and electronics accessories, namely, cables, headphones, and chargers, exercise weights, personal exercise mats, dietary supplements for general health and well-being, beauty lotions, beauty masks, beauty creams for body care, beauty serums, household appliances, clothing, footwear, watches, fashion and jewelry, toys, books and automobiles; dissemination of business information services, via a website, in the field of advertising the goods and services of others via local and global computer networks; business consultancy services, namely, providing a web site on a global computer network by which third parties can buy and sell goods and services, determine the status of and fulfill trade leads and orders, enter into contracts and transact business; providing computerized online ordering services featuring clothing, footwear, food items, cosmetics, body care products, home entertainment electronics, computer hardware, computer software, toys and sporting goods; advertising of goods and services of others via local and global computer networks; international import and export agency services; providing and rental of advertising space on the Internet; online trading services, namely, electronic auctioneering ; online retail services of consumer products, namely, on-line sales of clothing, cosmetics, food and beverages, home entertainment electronics, housewares, computers, laptops, scanners and printers, small electric kitchen appliances, lingerie, photographic equipment, sporting goods and toys; providing a directory of third party web sites for the purchase of consumer goods and services; business consultancy services in the field of operating a website featuring an electronic marketplace for the buyers and sellers of goods and services; business assistance, namely, facilitating business transactions, namely, advertising by transmission of on-line publicity for third parties via an electronic marketplace for the buyers and sellers and goods and services via local and global computer networks; corporate management consultancy

services; marketing and promotion services, namely, development of marketing strategies and concepts for others; publication of publicity texts; advertising of vacant residential and commercial property for sale and rental for others; dissemination of advertising materials for others, updating of advertising materials for others, compilation of advertisements for the sale of goods and services of others for use as web pages on the Internet; telephone answering services; auctioneering provided on the Internet; personnel management; provision of sales, business, advertising and promotional information of the goods and services of others through a global computer network and via the Internet; operation of a general merchandise Internet website enabling customers to conveniently view and purchase the goods of others, namely, clothing, cosmetics, food and beverages, home entertainment electronics, house wares, computer wares and kitchen wares, lingerie, photographic equipment, sporting goods and toys; operation of a general merchandise Internet website and wholesale outlet enabling customers to conveniently view and purchase goods for sale at book stores, clothing stores, computer equipment stores, convenience stores, department stores, furniture stores, grocery stores, jewellery shops, toy stores and sporting goods stores; operation of a general merchandise Internet website enabling customers to conveniently view and purchase goods for sale at book stores, clothing stores, computer equipment stores, convenience stores, department stores, furniture stores, grocery stores, jewellery shops, toy stores and sporting goods stores from a general merchandise catalogue by mail order; operation of a general merchandise Internet website and retail outlet enabling customers to conveniently view and purchase goods for sale at book stores, clothing stores, computer equipment stores, convenience stores, department stores, furniture stores, grocery stores, jewellery shops, toy stores and sporting goods stores; retail and wholesale of bleaching preparations for laundry use, leather bleaching preparations, fabric softeners for laundry use, cleaning preparations, namely, dry-cleaning preparations, wallpaper cleaning preparations, windscreen cleaning liquids, cosmetic cleansing creams, polishing preparations, namely, polishing creams, polishing wax, scouring and abrasive preparations, namely, all-purpose scouring liquids, abrasives for re-surfacing materials before painting, abrasive cloth, shining preparations, namely, all-purpose scouring liquids, abrasives for re-surfacing materials before painting, abrasive cloth, polishing paper, glass cloth, glass paper, floor wax, shoe wax, polish for furniture and flooring, detergents other than for use in manufacturing operations and for medical purposes, namely, car wash detergents, detergents for machine dishwashing, canned pressurized air for cleaning and dusting purposes, color-removing preparations, varnishremoving preparations, air fragrancing preparations, joss sticks, soaps, medicated soap, perfumery, extracts of flowers for the manufacture of perfumes, essential oils, massage gels other than for medical purposes, sunscreen preparations, sun-tanning preparations, cosmetics, lipsticks, lipstick cases, cosmetic preparations for skin care, cosmetic preparations for slimming purposes, adhesives for cosmetic purposes, nail care preparations, make-up removing preparations, shampoos, dry shampoos, shampoos for pets, hair lotions, after-shave lotions, shaving preparations, dentifrices, dental bleaching gels, mouth washes not for medical purposes, hair spray, hair dyes, antiperspirants, deodorants for human beings and for animals, Pharmaceutical and veterinary preparations, namely, pharmaceutical anti-allergic preparations and substances, pharmaceutical preparations for the relief of pain, veterinary pharmaceutical preparations for the treatment of infectious diseases in poultry, vaccines, sunburn ointments, sanitary preparations for medical purposes, namely, hand sanitizers, antiseptics, disinfectant soaps, sterilized dressings, preparations of sterilizers for medical use, namely, hand sanitizers, solutions for contact lenses, panty liners, remedies, namely soaps, deodorizers and anti-perspirants for foot perspiration, dietetic food and substances adapted for medical and veterinary use, namely, yeast for pharmaceutical purposes, sugar for medical purposes, royal jelly dietary supplements, food for babies, dietary supplements for humans and animals, nutritional supplements, vitamin preparations, tanning pills, slimming pills, tobacco-free cigarettes for medical

purposes, medical plasters, dental plasters, materials for dressings, surgical tissues, surgical implants containing living tissues, material for stopping teeth, teeth filling material, dental wax, mouthwashes for medical purposes, disinfectants, preparations for destroying vermin, fungicides, herbicides, rat poison, repellents for dogs, telephones, mobile phone handsets, mobile phone accessories, electronic and telecommunications goods, namely, home entertainment electronics, computers, laptops, printers, computer hardware and computer software, batteries, battery chargers, apparatus and instruments for recording, receiving, transmitting and reproducing data, information, pictures, images and sound, namely, audio recording units, music recording units, namely, sound and video recording and playback machines, telephone recording units, cameras, video cameras, web cameras, microphones, precious metals, jewellery, surgical, medical, dental and veterinary apparatus and instruments, namely, x-ray, ultrasound, wound suction apparatus and instruments, obstetric apparatus, namely ultrasonic medical diagnostic apparatus, X-ray apparatus for medical purposes, hot air therapeutic apparatus for pressotherapy and compression therapy, electric blankets for medical purposes, apparatus for taking blood, apparatus for taking blood samples, blood collection tubes, blood drawing apparatus, blood glucose meters, blood glucose test strips, devices for measuring blood sugar, hearing aids for the deaf, hearing protection headsets, massage apparatus, namely, handheld body massagers, massage beds, massage chairs, air pillows for medical purposes, air cushions for medical purposes, physical exercise apparatus, namely, exercise benches and exercise balls for medical purposes, vaporizers for medical purposes, fumigation apparatus for medical purposes, namely, fumigators, masks, filters, hydrostatic beds, air cleaning units, thermal packs for first aid purposes, armchairs for medical and dental purposes, artificial limbs, eyes and teeth, orthopedic articles, namely orthopedic footwear, corsets, braces and belts, suture materials, supportive bandages, surgical implants made of artificial materials, babies' bottles, tongue scrapers, X-ray photographs for medical purposes, precious stones, printed matter, namely, books, magazines and newspapers, stationery, magnetically and non-magnetically encoded identity cards, furniture, picture frames, household and kitchen utensils, glassware, porcelain and earthenware, textiles, clothing, footwear, headgear, laces and embroidery, buttons, ribbons, pins and needles, artificial flowers, carpets, rugs, games and electronic toys, chemicals used in photography and agriculture, paints, varnishes and lacquers, personal hygiene products, namely, menstruation tampons, hair and body lotions, lubricants, fuels, candles, ironmongery and small items of metal hardware, namely, hardware nails, hardware springs, metal hardware for luggage, machines, namely, food vending machines, plastics molding machines, wood drilling machines, vacuum packing machines, carpet cleaning machines, machine tools, namely, metalworking tools, gardening tools, hand-operated tools, hand held cutting tools, hand tools, power tools, cutlery, razors and hand tools, computers, calculators, spectacles and sun glasses, surgical instruments, medical instruments for general examination and cutting tissue, apparatus for lighting, namely, lamps, chandeliers, heating, namely, electric heaters, steam generating and cooking, namely, stoves, ovens, toaster ovens, rice cookers, slow cookers, refrigerating, namely, refrigerators, electric coolers, drying, namely, clothes dryers, ventilating, namely, ventilation fans, water supply and sanitary purposes, namely, garbage containers, toilets, motor vehicles, firearms, fireworks, silverware, horological and chronometric instruments, namely, clocks, watches, musical instruments, magazine, business cards, greeting cards, paper and cardboard products, namely, advertising signs of paper, boxes of paper and cardboard, paper bags, bottle envelopes of paper and cardboard, cardboard coasters, picture, typewriters and, packaging materials, namely, plastic bags for packaging, containers of cardboard for packaging, rubber and plastics for manufacture use, namely, foam rubber, plastic in bars, blocks, pellets, rods, sheets, tubes and extruded form for general industrial and manufacturing use, packing and insulating materials, namely, insulating tape and band, insulating paper, leather and imitations of leather and goods made from these materials, namely, handbags, purses,

wallets, leather holders, bags, luggage, umbrellas, mirrors, ropes, string, nets, tents, yarns and threads for textile use, coat hangers, place mats, dressmaker's articles, bed and table covers, playthings, namely, toys and sporting articles, foodstuffs and beverages, meat, fish, poultry, preserved, dried and cooked fruits and vegetables, jams and fruits sauces, eggs, milk and milk products, edible oils and fats, coffee, tea, cocoa, sugar, rice, flour, bread and cakes, condiments, fresh fruit and vegetables, beer, mineral water, fruit juices and drinks, alcoholic beverages, floral products, namely, artificial and dried flowers, tobacco, smokers' articles, namely, ashtrays for smokers made of precious metals, machines allowing smokers to make cigarettes by themselves, oral vaporizers for smokers, cigarette lighters, lighter flints, books of cigarette papers, cigarette cases and matches; purchasing agents, mediation of agreements for others for the sale and purchase of goods and services, mediation of contracts for purchase and sale of products, procurement of contracts for the purchase and sale of goods of others; providing computerized online ordering services, namely, clothing, footwear, food items, cosmetics, body care products, home entertainment electronics, computer hardware, computer software, toys and sporting goods; department store retailing services; supermarket retailing services; secretarial services; provision of business statistical information, namely, marketing survey services for others; organisation of exhibitions for commercial and advertising purposes, namely, organizing exhibits where third parties sell and advertise their goods and services; business assistance services namely, compilation of customer mailing lists; business administration services for the processing of sales made on the Internet; personnel placement; import-export Page 7 of 16 clearance agencies, import-export agency services; arranging for subscriptions for newspapers; document reproduction; transcribing text messages and text documents, audio, namely, voicemail messages and video content, namely, recordings of television shows and movies and stenography services; customer relationship management, namely, managing and analyzing customer interactions and customer data throughout the customer lifecycle, for the purpose of improving business relationships with customers, assisting in customer retention and driving sales growth; business management services in the field of electronic commerce; business management and administration consultancy services for sponsorship programmes, namely, corporate sponsorship programs for charities; accounting services; rental of display stands; providing an online commercial information directory on the Internet; search engine optimization; web site traffic optimization; pay per click advertising of the goods and services of others on websites; commercial intermediation services; business management for freelance service providers; negotiation and conclusion of commercial transactions for third parties; updating and maintenance of data in computer databases; business project management services for construction projects; providing business information via a web site on commodity sale; providing business information via a web site in the field of business marketing, consumer demographics, statistical information services, and e-commerce, namely, operation and management of online retail stores and wholesale stores; charitable services, namely organizing and conducting volunteer programmes and community service projects; providing computer links via a website to third party web sites in the field of electronic commerce in the nature of retail store and wholesale store services to facilitate e-commerce and real world business transactions; providing computer links to third party web sites to facilitate e-commerce and real world business transactions; consultancy, information and advisory services in the field of business management and e-commerce in the field of retail store and wholesale store services; promoting the sale of goods and services through promotional contests and the distribution of related printed material; consultancy services in the field of advice in the nature of secure transmission of data and information in the field of business and e-commerce, namely, e-mail messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips, via radio,

telephone lines, satellite, cable network and wide area network

Class 36

(2) insurance; financial affairs, namely, financial analysis, financial analysis consultation services, financial appraisals, financial investment services, namely, capital investment services, financial investment brokerage, fund investments, investment management, investment risk assessment, financial planning services; monetary affairs, namely, foreign currency exchange services; real estate affairs, namely, real estate brokerage services, real estate management services; financial transactions clearing services via a global computer network; online financial services, namely, debt settlement and providing electronic processing of credit card transactions and electronic payments via a global computer network; credit card services, processing and transmission of bills and payments thereof, and providing insurance for financial transactions for purchases; electronic funds transfer services; transmission of funds by electronic means for others; electronic bill payments for others via the internet; financial services in the nature of billing and payment processing services; renting and leasing of real estate; real estate appraisal; real estate valuation, real estate financing, real estate investment; real estate brokerage services; real estate agency services; actuarial services; real estate management and consultancy services; rent collection; rental of offices; rental of apartments and flats; provision of financial information, namely, financial investment counselling, financial analysis, stock exchange information services and financial forecasting via the Internet; safety deposit box services; issuing of travelers' checks; providing advice on capital investments; financial evaluation for insurance purposes; financial evaluation in the field of real estate; financial and asset management services; financial services provided by telecommunication means, namely, financial exchange of data, namely, price indices, transaction settlement rates, financial margin rates, currency exchange rates, person-to-person bill payments, person-to-business bill payments, business-to-person bill payments, business-to-business bill payments, bill payment, namely, remittance processing, electronic funds transfers, electronic bill payment services and money transfer services, mobile bill payment services, bill payment services via cellular phones, debit card payment services, electronic bill payment, electronic processing and transmission of bill payment data, electronic funds transfer, automated debit and credit transactions between financial institutions and their customers; financial consultancy and advisory services in the field of credit and debit control, investments, grants, financing of loans, commodities, gold, mutual funds, the purchase of new homes and condominiums, currency exchange and travelers cheques; securities brokerage services; stock exchange quotation services; stocks and bonds brokerage, financial analysis; debit card services, charge card services and cheque verification services; savings account and financial investment brokerage services; financial clearinghouse services; credit verification of individuals and companies via global computer information network; credit risk management consulting services; electronic purchase payment and electronic bill payment services; financial accounts management services; issuance of stored-value cards, namely, gift cards, charge cards and debit cards; telephone credit cards services; information services and commentary to articles, charts, lists, diagrams, images, tables, editorials, calculations, price indices, historic data and financial data all in the field of finance and insurance, namely, financial planning, investment analysis, financial news in the field of financial planning, investment analysis, financial news provided online from a computer database and the Internet; agency for collection of gas and electricity fees; antique appraisal; art appraisal; jewelry appraisal; used car appraisal; providing business information in the field of taxes; charitable fund raising; collection and organization of donations for charitable purposes; rental of paper money and coin counting and processing machines; rental of cash dispensers and automated-teller machines; online bill and fee payment services; safe deposit services; arranging finance for construction projects; online trading services, namely, financial appraisals relating to electronic

auctioneering; providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; providing access to a computer database to allow users to perform online, mobile and contactless transactions with retailers, merchants and vendors via the Internet and mobile networks in the field of retail and wholesale services and online trading in which seller posts products to be auctioned and bidding is done via the Internet on the global computer network

Class 38

(3) telecommunications services, namely, data transmission services over radio frequencies, wireless telephone networks, cable networks, computer networks, wide area networks, and the Internet, for the transmission of data, namely, music, motion pictures, animated movies, television shows, cartoons, musical videos, music concerts, musical shows, news and sports events and streaming of video, voice and audio recordings, namely, music, motion pictures, animated movies, television shows, cartoons, musical videos, music concerts, musical shows, news and sports events; providing web-based multimedia teleconferencing, videoconferencing, and online meeting services that allow simultaneous and asynchronous viewing, sharing, editing, and discussion of documents, text data, and images by participants via a web browser; providing customers with online access to online reports regarding the performance, effectiveness, and status of webbased software applications, teleconferences, videoconferences and meetings; operation of a website providing users with secure remote access to private computer networks; operating a website to allow users to collaborate with others by allowing users to access computer software applications, which allow users to participate in web-based meetings and classes, and computer file management platforms, jointly-shared documents and data, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips, task lists, and discussion forums; providing an online database of information in the field of Internet broadcasting complaint submission procedures and platforms; facsimile transmission; electronic message sending, receiving and forwarding services, namely, sending, receiving and forwarding e-mails and text messages; paging services; rental of modems; data communication services by electronic means, namely, electronic mail services; rental of telecommunication equipment, namely, telephones, audio handsets, namely, hands free kits for phones and walkie-talkies; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; hosting a website providing electronic exchange of voice, data, audio, video, text and graphics, namely mail messages, still picture and moving picture information, namely, photographs and movies, accessible via computer and telecommunication networks, namely, radio broadcasting, telephone, cable and satellite communication networks; instant messaging services, namely, voice messaging services, text messaging services, wireless digital messaging services; mobile phone communication services; transmission and delivery of text messages, e-mails, photographs, emojis, Gifs, music, music videos, movies, films, television programs, news programs and sports programs via computer and telecommunication networks, namely, radio broadcasting, telephone, cable and satellite communication networks; transmission, broadcast and reception of text messages, e-mail, photographs, music, movies, films, television programs, music videos, news programs, and sports programs in compressed and uncompressed form, and in real and delayed time via a website; electronic text and voice messaging, and telephone conferencing via computers and computer networks, cable network, cellular networks and internet servers; video conferencing services; operation of electronic bulletin board on a website that enables users to perform a real-time interactive talk between a computer terminal and an electronic bulletin board containing still picture and moving picture information, namely photographs, movies, emojis, Gifs and voice information,

namely recorded fictional characters for social networking purposes on topics of general interest; providing electronic bulletin boards and message boards for transmission of messages for social networking purposes on topics of general interest; providing online chat rooms for registered users for transmission of messages concerning collegiate life, classified, virtual community and social networking; television broadcasting services; broadcasting of radio and television programmes; music broadcasting via radio, television and the internet; operation of a webserver for transmission of music, films, interactive computer game programmes, music videos, electronic computer games via a website; transmission of information in the field of on-line shopping and general retail services via radio, telephone lines, satellite, cable network and wide area network; video-on-demand transmission services; news agency services; operation of a website providing user access to a computer database containing electronic publications, namely, books, magazines, newsletters, journals, directories, catalogues and information pamphlets, bulletin boards for the posting and transmission of messages among and between computer users concerning products, services and business opportunities for business networking purposes, computer database and information in the field of electronic commerce in the field of retail store and wholesale store services and online trading in which seller posts products to be auctioned and bidding is done via the Internet accessible via computer; operation of chat rooms for social networking purposes on topics of general interest, namely, chat room services; multiple user access to global computer information networks for the transfer and dissemination of information in the field of electronic commerce and online trading; providing access to a website on a global computer network by which third parties buy and sell goods and services, place and fulfill orders, and conduct business transactions in the field of electronic commerce in the field of retail store and wholesale store services; providing access to an interactive website via a global computer network for third parties to post information in the field of electronic commerce in the nature of retail store and wholesale store services and online trading in which seller posts products to be auctioned and bidding is done via the Internet, respond to requests and place and fulfill orders for products, services and business opportunities for business networking purposes; cellular text messaging services; transmission of digital information, namely, customer transaction records, membership records, product inventory records, customer preference, customer credit rating, sellers' credit rating over the Internet, telephone networks, cellular networks, and computer networks for assisting strategic planning services in the field of business management and e-commerce in the field of retail store and wholesale store services; transmission of information, namely, e-mail messages, text messages, photographs, graphics, emojis, Gifs, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips through video communication systems via a website; web video conferencing services; operation of virtual chatrooms via text messaging; providing electronic bulletin boards for the posting and transmission of messages among and between computer users concerning products, services and business leads and opportunities for social and business networking purposes; providing an online interactive bulletin board for the posting, promoting the goods and services of others, sale and resale of items via a global computer network; providing electronic mail and electronic mail forwarding services; providing computer access and leasing access time to online interactive bulletin boards and databases in the field of electronic commerce in the field of retail store and wholesale store services and online trading in which seller posts products to be auctioned and bidding is done via the Internet; providing access to a web site on a global computer network by which third parties buy and sell goods and services, place and fulfill orders, and conduct business transactions in the field of electronic commerce in the field of retail store and wholesale store services; providing access via a website to electronic bulletin boards for the posting and transmission of messages among and between computer users concerning products, services and business opportunities for

business networking purposes; providing access to electronic calendar, address book and electronic notebook, via local and global computer networks; providing direct connection services to the Internet via telephone lines, satellite, cable network and wide area network between computer users for exchanging data, namely, emails, short video clips, and text messages; operation of a website that provides streaming of digital recorded music, not downloadable, from the Internet; operation of a website that provides non-downloadable MP3 digital music streaming; streaming of audio sound recordings, namely, music

Class 39

(4) transport, namely, transportation services of passenger and consumer goods by rail, air, truck and ship; GPS navigation services; packaging of articles for transportation and warehouse storage of a wide range of consumer of goods; Travel booking services, namely, booking passenger travel by air and rail, and booking vacation travel packages and cruises; transportation information, namely, providing a website in the areas of travel; ship brokerage; car transport, namely, hired car transport, taxi transport; air transport, namely, air charter services, air transportation of passengers and freight, helicopter transport; vehicle rental; delivery of messages by courier; travel reservation, namely, making reservations and booking of seats for travel and rental car reservation; transmission of oil and gas through pipelines; delivery of goods by mail order; courier services; transport services, namely, logistic management services in the field of transport of goods for others by truck, rail and air; car rental services; car parking lot services; yacht and boat chartering services; travel arrangement; Booking of seats for travel and travel information services; travel arrangement, namely arranging travel tours, booking seats for travel and travel information services provided on-line from a computer database and the Internet; provision of information in the field of travel and tourism through the Internet; merchandise packaging for others; providing road and traffic information, chauffeur services; loading and unloading of cargo; freight brokerage; junk removal services; brokerage services for rental, leasing, selling, purchasing of ships and boats; chartering of ships and boats; salvage and refloating of ships and boats; air piloting, namely, passenger air transport, transportation of goods, passengers and travellers by air; public utility services in the form of natural gas distribution and supply; public utility services in the form of electricity distribution and supply; public utility services in the form of heat distribution and supply; public utility services in the form of water distribution and supply; boat and ship mooring facility services; rental of warehouses; airport services in the nature of providing flying areas, namely, providing access to airstrips, landing strips, runways, aircraft hangers, and airspace; managing and operating toll road; rental and leasing of wheelchairs; management of parking lots; rental and leasing of airplanes; rental and leasing of storage containers; rental and leasing of bicycles; rental and leasing of cars; rental and leasing of ships and boats; rental and leasing of non-motorized vehicles, namely, bicycles, tricycles, skateboards, push scooters; rental and leasing of mechanical parking meters; rental and leasing of transportation pallets; rental and leasing of packaging and wrapping machines; rental and leasing of refrigerator; collection of domestic waste and trash; collection of industrial waste and trash; import and export cargo handling services; rental of navigational systems, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; providing driving directions for travel purposes

Class 41

(5) education services, namely, providing seminars and conferences in the field of business management and e-commerce in the field of retail store and wholesale store services; providing of training, namely, arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars, webinars in the field of business management and e-commerce in the field of retail store and wholesale store services;

entertainment in the form of air shows, dance performance and circus performance; booking seats for shows and sports events; administration of cultural and educational exchange programs; providing information in the field of sporting and cultural events, namely, baseball games, soccer matches, tennis tournaments, basketball games, golf tournaments, swimming competitions, community festivals, wine festivals, dance performances, music festivals and art exhibitions; publication of texts, namely, articles and academic papers, books and journals; publication of diagrams, namely, charts and graphs, and photographs; publication of newspapers, magazines and periodicals; education, training and instruction services, namely, online courses and webinars, in the fields of operation of telecommunications equipment, namely, satellite, wireless computer network, telephone, cable network, cellular network, radio and television broadcasting, operation of computers, operation of computer programs for using the internet and the worldwide web, web site design, electronic-commerce, namely, conducting electronic business transaction in the field of retail store and wholesale store services via the Internet, business management and advertising; educational services, namely, development of courses and examinations to provide qualifications in the field of computer programming; provision of information in the fields of yoga, fun fair, social dance, baseball, soccer, tennis, basketball, golf, swimming, community social events, wine festivals, dance performances, music festivals and art exhibitions; providing on-line electronic publications not downloadable namely, publishing of an electronic newsletter; arranging, organizing, hosting and conducting singing competitions; arranging, organizing, hosting and conducting musical concerts; arranging, organizing, hosting and conducting game shows and quests, namely role playing games; entertainment ticket agency services; providing information in the field of entertainment, namely, television shows, movies, musical concerts and videos, theatre productions and comedy shows and in the field of education, namely, online courses and webinars in the field of business management, electronic commerce in the field of retail store and wholesale store services, computer information security, computer data security and intellectual property, provided online from a computer database and the Internet; premium and pay television programming services and television programming services; entertainment and education services, namely, production and broadcasting of non-downloadable audio and voice recordings, namely, non-downloadable digital audio recordings featuring music, news and sports webcasts, digital music, live and recorded audio and voice recordings, namely, non-downloadable digital audio recordings featuring music, news and sports webcasts, and non-downloadable video recordings, namely, non-downloadable digital video recordings featuring music, movies, news and sports webcasts, music videos, photographic images and television shows for broadcasting on the Internet, digital wireless and wired boxes; production of television and radio programmes for entertainment, and educational purposes, and documentary and news programmes for broadcasting on the Internet; news reporters' services; provision of information in the field of current news events and breaking news provided by satellite television transmission and the Internet; production of radio programs; film production; preparation and production of television programmes; providing a web site featuring on-line computer games; provision of health club, sports arena facilities and gymnasium facilities; entertainment in the form of live performances by a musical band; operation of discotheque, entertainment in the form of fashion shows and night club services; arranging, conducting and provision of conferences, conventions, congresses, seminars and training workshops in the fields of finance, namely, financial planning, investment analysis, financial news and commentary to articles, charts, lists, diagrams, images, tables, editorials, calculations, price indices, historic data and financial data, real estate, electronic commerce in the field of retail store and wholesale store services, online trading services in which seller posts products to be auctioned and bidding is done via the Internet, computer hardware and software, and telecommunications, namely, satellite, wireless computer networks, telephone communications, cable network and cellular network; art exhibition services for cultural purposes;

online training courses in the field of occupational health and safety; training in the field of standards and practices to assure compliance with environmental regulations; provision of cigar classes, wine tasting classes; instructional services in the field of operation of audiovisual equipment, which is used for the production of broadcasting radio and television programs; providing audio and visual recording studios; providing sports facilities, namely, basketball courts, tennis courts, swimming pools, gymnastic rooms; providing theatre facilities for movies, shows, plays, and music; providing classroom facilities for educational training; theatrical booking agencies; rental and leasing of motion pictures, cine-films; rental and leasing of musical instruments; rental and leasing of television programmes; rental and leasing of television sets; lending libraries; archive library services; film subtitling services; sign language interpretation services; providing video games, computer games, still images, namely, photographs, streaming of audio sound recordings, namely, internet radio, podcasts, video, namely, streaming movies and television programs through local area networks, global computer networks and the Internet; providing online computer games; rental of pre-recorded video tapes; rental and leasing of video game machines; lending of arcade game equipment; rental of artwork; photographic services, namely, photographer; translation; language interpretation; education courses in the field of risk management services; news reporting; lottery services; operation of a website that provides non-downloadable streaming of video, namely, movies, television shows, music videos, news and sports webcasts; tutoring; art gallery services, namely, arranging and conducting art shows for cultural purposes; art gallery services in the field of fine arts leasing, namely, rental of artwork, rental of paintings and calligraphic works; rental and leasing of non-motorized vehicles, namely, skates

Class 42

(6) design and development of computer hardware and software; software as a service (SaaS) provider, namely, computer software applications for others to perform electronic business transactions via a global computer network in the field of electronic commerce software for retail store services, wholesale store services and online trading services in which seller posts products to be auctioned and bidding is done via the Internet, SaaS provider for technical support services in the form of troubleshooting of computer hardware and software, and troubleshooting of telecommunications, namely, satellite network, wireless computer network, telephone communications network, cable network and cellular network, electronic billing and payment processing services, providing virtual computer systems and virtual computer environments through cloud computing, namely, virtual computer systems and virtual computer environments for managing cloud computer systems and applications for others, for cloud design and architecture maintenance and software for cloud storage and network management, all of the above in the field of finance and technology, namely, processing transfer of funds to and from others, information technology, cloud computing, blockchain technology, identity authentication, biometrics authentication, data security, computer security; computer services, namely, design and development of computer systems for transmitting information, data, documents, and images over the Internet; application service provider (ASP) services, namely, hosting computer software applications of others for use in electronic commerce in the field of retail store and wholesale store services; application service provider (ASP) services providing software in the fields of web-based conferencing, audio conferencing, electronic wireless digital messaging services, document collaboration, namely, operating a website to allow users to collaborate with others by allowing users to access jointly-shared documents, and video conferencing, and voice and call processing; providing online non-downloadable software which allows multiple software applications to communicate with each other in the field of electronic commerce in the field of retail store and wholesale store services; technical support services in the form of troubleshooting of computer

hardware and software problems provided online, by email and by telephone; computer services, namely, creating an on-line community for registered users to participate in discussions, get feedback from their peers, form virtual communities to engage in social networking in the field of travel and leisure activities, and exchange documents; providing assistance in the field of computer hardware and computer software provided to Internet users by means of a support hotline; computer services, namely, creating computer network-based indexes of information and sites and tracking of commercial and financial information in the field of electronic commerce in the field of retail department store and wholesale department store services on computer networks; providing Internet search engines; design of computers, notebook computers, laptop computers, portable computers and handheld computers; design and development of personal digital assistants and personal media players, namely, portable and handheld audio and video players, namely, MP3 players, MP4 players, CD players, and DVD players; design of mobile telephones and smart phones; design of digital cameras; computer programming; computer systems integration services; computer system analysis services; computer programming in to the field of the defence against virus; design, maintenance and updating of computer system software; computer software design; computer hardware system design; computer software system design; design and development of webpages; hosting internet sites for others; hosting computer application software for searching and retrieving information from databases and computer networks in the field of ecommerce businesses; providing technical information in the field of computer software, computer hardware and computer programming at the specific request of end-users by means of telephone and global computer network; computer services, namely, customized searching of computer databases and websites; computer programming, coding and decoding; conversion of physical data and documents into electronic media format; material testing and evaluation services; architectural design services; interior designs of buildings, offices and apartments; providing online computer information services in the field of financial investments, capital, financial and securities markets which operate on global computer networks and providing on-line information in the field of finance and technology, namely, processing electronic transfer of funds to and from others, information technology, cloud computing, blockchain technology, identity authentication, biometrics authentication, data security, computer security; network information services, namely, providing information in the field of computers and networks in the field of business and e-commerce; Design and development of computer security risk management programs; computer security information, namely computer network security services, computer security consultancy, and testing services; quality certification services, namely, quality certification in the field of computer and data security; consultancy in the field of computer data security; authentication services namely, quality certification in the field of computer and data security; consultancy services in the field of security for telecommunications, namely, computers and computer networks; technology consulting services in the field of securing telecommunications networks, namely, satellite networks, wireless computer networks, telephone communications networks, cable networks and cellular networks; providing information in the fields of Internet, world wide web, computerized communication network security and the secure transmission of data and information, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips, via radio, telephone lines, satellite, cable network and wide area network; consulting services in the fields of navigating the Internet, world wide web and computerized communication network security services, information security services, namely, remote monitoring of systems against security threats; authentication services for computer security; on-line authentication of electronic signatures; off-site data backup, namely, cloud computing provider services for general storage of data; electronic data storage for archiving business, corporate and personal records;

providing information on computer hardware and programming via a web site; cartography services; operation of a website providing virtual computer systems and virtual computer environments through cloud computing for database management, data analysis in the field of electronic commerce relating to retail department store services and online trading in which seller posts products to be auctioned and bidding is done via the Internet, document management, document analysis, project management, project planning, budget management; cloud computing consisting of software for database management, data analysis in the field of electronic commerce in the field of retail department store services and online trading in which seller posts products to be auctioned and bidding is done via the Internet, document management, document analysis, project management, project planning, budget management; rental of entertainment software; electronic storage of data and documents, namely, cloud computing provider services for general storage of data; rental of entertainment software, namely, video games; nursing services, home healthcare services, psychotherapy services; computerized communication network security services in the nature of providing private and secure real time electronic exchange of messages via chat lines, chatrooms and Internet forums over a computer network

Class 45

(7) personal and social services rendered by others to meet the needs of individuals, namely, babysitting, home sitting, social and personal networking and introduction services; providing information in field of social work services, namely, the coordination and organization of legal services, foster care services, and bereavement counselling services; dating services; legal services; domain name registration services; security guard services; bodyguard services; rental of clothing; providing protection services through electric central stations for intruders, burglar and fire protection systems; intruder and burglar alarms monitoring services, fire and flood detecting device monitoring services and alarm monitoring services; licensing of digital data, namely, photographs, movies, television shows, music videos, music and text, namely, articles and academic papers, books and journals; creation, compilation and maintenance of a register of domain names; baggage inspection for security purposes; personal background investigation services; monitoring of home security systems for the protection of property and individuals; funeral services; private investigation services; licensing of music recordings

Goods

Class 01

(1) Chemicals used in industry and in science, namely, dust absorbing, wetting and binding chemicals, for use in machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, of paper, cardboard, corrugated board and plastic and parts and fittings therefor; antistatic preparations, not for household purposes, namely, antistatic chemicals for use in machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, of paper, cardboard, corrugated board and plastic; adhesives (gluing substances) used in the packaging manufacturing industry, namely glues for folding-gluing and converting machines, equipment and devices for use in the packaging manufacturing industry

Class 02

(2) Paints, inks for printing machines, equipment, units, devices and heads, particularly inks for machines for digital printing, rotary printing, flexographic printing, central impression flexographic printing, rotogravure printing, offset printing, typographical printing; protective varnishes for printing, lacquers for coating papers, colorants for use in the manufacture of paper and printing ink; mordants, precoating substances for substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic

Class 03

(3) Washing preparations for washing inks in printing machines, namely, washing powder and liquids; cleaning, polishing, removing grease and abrasive preparations, namely, all-purpose cleaning preparations, general use abrasives, all-purpose scouring liquids and gels; industrial detergent, industrial soaps, canned pressurized air for cleaning and dusting, towels impregnated with detergent for cleaning

Class 04

(4) Industrial oils and greases; all-purpose lubricants; industrial lubricants; dust absorbing, wetting and binding compositions for use in the packaging manufacturing industry; dust binding compositions for sweeping

Class 07

(5) Machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry; packaging machines, packaging equipment and packaging devices for forming and printing, in particular cutting, creasing, embossing, stamping, hot and cold stamping, plating a coloured film, hot and cold gilding, embossing and folding-gluing inline, laminating, litho-laminating, rotary printing presses, machines for flexographic printing, central impression flexo printing, rotogravure printing, offset printing, typographical printing, digital printing, flexo printing and flat bed die-cutting inline, flexo printing and foldinggluing inline, flexo printing and rotary die-cutting inline, gravure printing and folding-gluing inline of substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic for the packaging manufacturing industry; machine for loading, infeed, multiple inserting, feeding, positioning, conveying, stacking, and delivering, systems for separating, delivering, handling, packing and conveying out of machine, of substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, piles and reels of the aforesaid substrates, of converted, printed, printed and folded-glued substrates, for the packaging manufacturing industry; parts and fittings for the aforesaid machines, equipment and devices, namely, machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, of paper, cardboard, corrugated, board, plastic, and plastic films; printing cylinder, rollers, flexible relief plates and printing plates, machines for preparing and processing of printing cylinders, rollers, flexible relief plates and printing plates, devices for mounting of printing flexible relief plates and plates on printing cylinders, for the packaging manufacturing industry; constituent pieces and spare parts for the aforesaid machines, equipments and devices, namely, machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, of paper, cardboard, corrugated, board, plastic, and plastic films; electrical cleaning apparatuses and machines and dust sucking installations, namely, vacuum cleaners, cyclone dust collectors, motorized abrasive cleaning apparatuses, namely, power scrubbers, dust sucking installations for cleaning the aforesaid machines, equipments and devices, namely, machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, of paper, cardboard, corrugated, board, plastic, and plastic films

Class 09

(6) Computer, computer central processing units, electronic circuit board, printed circuit board, computer chip and software for inputting, entering, recording, reproduction, storing, processing, transmission, displaying of data for checking, controlling, measuring, programming, adjusting, presetting, quality control, for monitoring of production parameters, performances and stops management, for checking of register of printings, cuts, creases and embossing, for measuring and adjusting the colour composition of printings, for measuring and adjusting the ink supply, namely digital cameras for detecting, registering and positioning, for machines, equipments and devices for processing and printing substrates more particularly sheets, plate elements, blanks, webs, of paper, cardboard, corrugated board, plastic, and plastic films for the packaging manufacturing industry

Services

Class 35

(1) Retail sales, by mail order and internet of machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry and parts, spare parts and fittings of the aforesaid goods; preparation services of maintenance contracts for the aforesaid machines, equipment and devices, namely, mediation of contracts for purchase and sale of products

Class 37

(2) Customer assistance services, namely installation, cleaning, maintenance, settings optimization, remote monitoring of the operation in the framework of the cleaning, maintenance, and settings, repair services, mounting and installing of spare parts for machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry

Class 41

(3) Theoretical and practical instruction in operating machines for the packaging manufacturing industry, editing teaching materials, publishing teaching materials, preparing audio-visual presentations for users of machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic for the packaging manufacturing industry

Class 42

(4) Maintenance, consultancy, repair and providing quality assurance of computer software, conducting technical consultancy and advice in the field of construction for machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, of plastic, and plastic film for the packaging manufacturing industry

Trademark Description

This mark consists of a design and the positioning of a sign. The two-dimensional design is comprised of three horizontal stripes, black, red, and then gray, running from the nose to the tail of an airplane along the mid-line of the aircraft fuselage. The stripes broaden and rise as they move to the end of the tail. The threedimensional object shown in dotted outline does not form part of the mark and serves only to show the positioning and placement of the mark.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of three horizontal stripes, with the top stripe in black, the middle stripe in red, and the bottom stripe in gray, and with all stripes running from the nose to the tail of an airplane along the midline of the aircraft fuselage. The colours black, red and gray are claimed as features of the mark.

Services

Class 35

(1) Aircraft business management services, namely, managing and arranging aircraft operations and aircraft crew scheduling for others.

Class 36

(2) Offering aircraft fractional ownership programs for others.

Class 39

(3) Aircraft chartering services; flight planning services; and fractional aircraft services for passengers, namely, furnishing jet air transportation for passengers; passenger jet air transportation services.

Goods

Class 09

Personnel locator computer hardware and software; combat simulators for training purposes; training systems for aircraft, vehicles, weapons and personnel in live, constructive and virtual environments consisting of transceivers, lasers not for medical use, GPS technology in the nature of a global positioning system, data link technology in the nature of electronic and optical communications instruments and components, namely, optical data links consisting of laser transmitters, sensors, receivers and circuits used to collect and transfer real time data, electronic encryption units, radio frequency identification tag readers, wireless communication transponders and radio receivers; computer hardware, electronic display interfaces, namely, laptops and computer monitors; computer software for tracking people and vehicles, collecting, recording and replaying instrumentation data coming from GPS and radio in the field of military training, providing automated processing and analysis of instrumentation data coming from GPS and radio in the field of military training, computer networking, monitoring hit/miss notifications and scoring the outcome of weapons engagements and simulations of kinetic and non-kinetic threat weapons systems; electronic apparatus, namely, receivers and transmitters, namely, beacons for tracking people and vehicles, collecting, recording and replaying instrumentation data coming from GPS and radio in the field of military training, providing automated processing and analysis of instrumentation data coming from GPS and radio in the field of military training, networking and monitoring hit/miss notifications and scoring the outcome of weapons engagements and simulations of kinetic and non-kinetic threat weapons systems; computer peripheral equipment, namely, keyboards, mouse, card readers, monitors, cable reels and cables for tracking people and vehicles, collecting, recording and replaying instrumentation data coming from GPS and radio in the field of military training, providing automated processing and analysis of instrumentation data coming from GPS and radio in the field of military training, computer networking, monitoring hit/miss notifications and scoring the outcome of weapons engagements and simulations of kinetic and non-kinetic threat weapons systems, all of the foregoing for education, training development, management support, and operations and maintenance support; communication and electronic products comprising radios and optical data links consisting of laser transmitters, sensors, receivers and circuits for transferring radar, video, and other information obtained via sensors, for use in intelligence-gathering, surveillance, search-and-rescue operations, air traffic control, military communication

markets, and civil communication markets; radios; radio, electronic optical and mobile data transmitters, namely, laser transmitters that are modulated with any desired digital data; radio receivers, filters, and exciters; high power amplifiers, antennas, direction-finding transponders and radio receivers, computers, computer display screens and monitors and software to transmit, network, detect, intercept, analyze, distribute and process intelligence and communications signals; computer hardware for military surveillance; computer hardware, transponders and radio receivers used for electronic communications in the military field; transponders and radio receivers for use with shelters and unmanned aerial vehicles; computer hardware and software for the delivery of air-to-air, air-to-ground, air-to-water, ground-to-ground and ground-to-water missiles; computer hardware and software for the simulation of, and real time dissemination and display of the delivery of surveillance apparatus and explosives; computer gaming software for use in connection with military training and military exercises; virtual small arms training simulators; firearms training simulators.

Services

Class 35

(1) Business management, namely, providing operational services to others in the field of combat training systems; business management, namely, providing business assistance to enterprises in the field of operations and combat training systems; supply and commodity management services, namely, supply chain management services; business research and data analysis in the military field.

Class 37

(2) Repair and maintenance for others of combat training systems; computer hardware technical support services for the installation and maintenance of combat simulation training systems, weapons effects analysis systems, and weapons simulation systems; maintenance and installation of electronic component devices and computer networks that are used for combat training systems; maintenance and installation of electronic computer hardware components; computer hardware technical support services for the design, development, and operation of combat simulation training systems, weapons effects analysis systems, and weapons simulation systems, namely, troubleshooting in the nature of the repair of computer hardware; repair and maintenance for others of unmanned aerial vehicle systems and wheeled vehicles.

Class 39

(3) Providing electronic tracking of freight information to others for business administration purposes; tracking, locating and monitoring of vehicles, maritime vessels and aircraft services for commercial purposes.

Class 40

(4) Contract manufacturing of secure data links, power amplifiers, avionics systems, multiband communication tracking systems, and cross-domain hardware solutions, all for use in the field of combat training; contract manufacturing of personnel locator systems and maintenance trainers for combat systems and vehicles, all for use in the field of combat training; contract manufacturing of operational trainers for missiles, armored vehicles and naval applications, all for use in the field of combat training; contract manufacturing of navigational systems and search and rescue avionics, all for use in the field of combat training; custom manufacturing of military range instrumentation systems and laser-based training systems, all for use in the field of combat training; custom manufacturing of virtual tactical engagement simulation systems, fixed operation training centers, mobile operation training centers, and urban operation training centers, all for use in the field of combat training; custom manufacturing of common data link systems for naval applications,

unmanned aerial vehicles, and remote video terminals, all for use in the field of combat training; custom manufacturing of computer hardware for satellite technologies, computer hardware for global systems for mobile communications (GSM) technologies, and encrypted mesh network technologies, all for use in the field of combat training; custom manufacturing of specialized security and networking infrastructure, all for use in the field of combat training; contract manufacturing in the field of combat training systems; custom manufacture of combat training systems for others; manufacturing services for others in the field of combat training systems.

Class 41

(5) Educational services, namely, training related to the development and implementation of simulated combat training and consequence management exercises, namely, exercises related to responding to life threatening or destructive events; educational services, namely, conducting classes, seminars, conferences, and workshops all in the field of military operations, combat training, crisis management, and security and peacekeeping missions; educational services, namely conducting classes, seminars, conferences and workshops relating to the operation and maintenance of combat training systems; educational services, namely, combat mission rehearsal exercises; live, virtual, and constructive training in the field of military operations and combat training; leadership development training and programs in the field of military combat; educational services, namely, developing curriculum for others in the field of military operations and combat training; educational services, namely, training related to allied force modernization for combat, security and peacekeeping missions; educational services, namely, providing classes, seminars and workshops in the field of military combat, security and peacekeeping missions; developing combat training systems and learning methodologies for others.

Class 42

(6) Military technical research and development for others in the field of technical warfare communications; engineering and design services in the fields of automatic revenue collection systems, surveying and electronic measuring, communications systems, namely, technical warfare communications systems, computer networks, satellite communications and radio communications systems, flight collision warning systems, and electronic tracking systems for others; custom software design for others; engineering technical support services and software technical support services all for the design, development, installation, and maintenance of computer software for combat simulation training systems, weapons effects analysis systems, and weapons simulation systems, namely troubleshooting of computer software problems; consultation and advice related to allied force modernization for combat, security and peacekeeping missions, namely, consultation and advice regarding the design and development of modern vehicles and computer systems for combat, security and peacekeeping missions; computer hardware technical support services for the design, development, and operation of combat simulation training systems, weapons effects analysis systems, and weapons simulation systems, namely troubleshooting in the nature of diagnosing computer hardware problems; computer software installation and maintenance; planning, design and management of information technology systems, namely, computer hardware and software, for use in the military field; open source data mining, namely, data analysis through the use of open source computer software in order to discover and extract data patterns, for use in the military field; custom software design for others; engineering and design services in the fields of surveying and electronic measuring, communication systems, namely, technical warfare communications systems, computer networks, satellite communications and radio communications systems, flight collision warning systems, and electronic tracking systems for others; military technical research and development for others in the field of technical warfare communications; engineering and software technical support services for the design, development, installation, and maintenance of computer software for combat simulation training

systems, weapons effects analysis systems, and weapons simulation systems; consultation and advice related to allied force modernization for combat, security and peacekeeping missions, namely, consultation and advice regarding the design and development of modern vehicles and computer systems for combat, security and peacekeeping missions.

Class 45

(7) Security consultation and security advice related to the development and implementation of simulated combat training and consequence management exercises, namely, exercises related to responding to life threatening or destructive events; security consultancy in the military field; security services, namely, providing security assessments for governmental agencies; consulting services in the field of national security, national and military intelligence; security services, namely, port and water vulnerability assessment services; regulatory compliance consulting in the field of port security; surveillance services in the field of national security, national and military intelligence; personnel screening; security consultation and security advice related to allied force modernization for combat, security and peacekeeping missions.

Claims

Priority Filing Date: January 04, 2016, Country or Office: UNITED STATES OF AMERICA, Application No: 86/864,801 in association with the same kind of goods and in association with the same kind of services (1), (2), (4), (5), (6), (7)

Application Number 1,782,314
Language of Application English

Filing Date 2016-05-13

Foreign Character Translation

The translation provided by the applicant of the Chinese word(s) BAO and JIAN refers to BAO the left side and right side Chinese characters as "to keep" and the middle Chinese character is "healthy" or "strong". However, the applicant endows the trademark as a whole with the meaning of 'keeping you healthy and protecting your body by improving the immune system'.

Foreign Character Transliteration

The transliteration provided by the applicant of the Chinese character(s) is BAO (left side and right side Chinese characters) and JIAN (middle Chinese character).

Goods

Class 03

(1) Skin care preparations

Class 05

(2) Herbal teas to aid digestion; herb teas for general health and well-being; herb teas for slimming purpose; Dietary supplements for promoting weight loss; Dietary supplements for general health and well-being; Nutritional supplements for general health and well-being; Herbal supplements for general health and wellbeing; Vitamin supplements; Baby food; Diet pills and capsules; Mineral supplements; Dietary fibre as a food additive; Dietetic foods, namely, Pasta; Crackers adapted for medical use; Health food supplements for general health and well-being; Dietary fiber to aid digestion; Nutritional food additives for medical purposes in the nature of natural food extracts derived from vegetables; Cod liver oil; Medicinal drinks, namely Chinese medicinal herbs based

drinks for general health and well-being; Starches for dietetic and pharmaceutical purposes namely resistant starches obtained from whole grains, potato, corn, fruits, vegetables and beans with functions of stimulating blood flow to the colon, increasing nutrient circulation, inhibiting the growth of pathogenic bacteria, helping people absorb minerals, preventing people from absorbing toxic and carcinogenic compounds, helping people lower blood cholesterol and fats, and decreasing the production of new fat cells, helping people control weight and medicinal starches which are used as excipients, namely, disintegrants, an agent of dilution and binder for production of pharmaceutical preparation for general health and well-being in form of tablet, paste, liquid and capsule, and resistant starches obtained from whole grains, potato, corn, fruits, vegetables and beans for general health and well-being; Asthmatic tea; Black tea, citron tea, fruit teas, ginger tea, ginseng tea, green tea, herbal teas, iced tea and instant tea for general health and well-being; By-products of the processing of cereal for dietetic and medical purposes, namely, wheat bran, rice bran and bean dregs for promoting intestine movement, facilitating excretion and digestion, prevention and treatment of diabetes, and wheat bran, rice bran and bean dregs for general health and well-being; Slimming pills; Antioxidant pills; Slimming tea for medical purposes; Dietetic sugar for medical use; dietetic sugar substitutes for medical use; Albumin dietary supplements; Flaxseed dietary supplements; Flaxseed oil dietary supplements; Wheat germ dietary supplements; Royal jelly dietary supplements; Propolis dietary supplements; Pollen dietary supplements; Enzyme dietary supplements; Glucose dietary supplements; Lecithin dietary supplements; Alginate dietary supplements; Casein dietary supplements; Protein dietary supplements; Depuratives; Dietary supplements for animals for general health and well-being; Pesticides; Antisepsis paper, namely, antiseptic wipes; Health care bag for medical use to remove blood stasis, relieve rigidity of muscles and activate collaterals, reduce swelling and alleviate pain; Rubber for dental purposes; Diapers for pets; Medicinal herbs for general health and well-being; Dried goji berry (wolfberry) for use of adjusting the body's immunological function, suppressing tumor growth and somatic mutagenesis, promoting hemopoietic function, postponing senility, lowering blood fat and resisting fatty liver, regulating blood sugar and blood fat; Medicines, namely herbal tonics for general health and well-being

Class 30

(3) Dried herbs for food purposes

Goods

Class 06

(1) Common metals and their alloys; metal building materials namely, sheet metal, steel rods, tubes, bars and hexagonals, stainless steel rods, tubes and bars, aluminum angles, channels and tees and aluminum tubes; materials of metal for railway tracks; non-electric cables and wires of common metal namely wire rope, non-electrical guy wire, non-electrical lifting cables; ironmongery namely, small items of metal hardware in the nature of screws, nuts, bolts, hinges, handles, locks, padlocks, and angle brackets; pipes and tubes of metal namely pipes of metal for liquid and gas transfer; safes; goods of common metal not included in other classes namely, steel safes and cash boxes; iron, tin and lead ores; aluminium alloys, foil and siding; thin bands of metal namely hose clip bands, mounting bands, bands of metal for tying-up purposes, common metal bands for the identification of cables; bolts of metal, boxes, namely metal cash boxes, metal lock boxes, metal strong boxes; shelf brackets, clips for cables and pipes, castors and chains; copper wire; metal door fittings; metal door closers; ducts for ventilating and air conditioning installations; ducts for central heating installations; metal elbows for pipes; eyebolts; metal fittings for furniture; metal grills, metal hinges, wall hooks of metal for pipes, metal junctions for pipes, metal knobs, ladders of metal, metal latches, locks cylinders for doors and cabinets; nuts of metal, padlocks, cotter pins, rivets namely rivets of metal, ropes of metal, strongboxes, screws, sheets mounting plates and

blanking plates; non-luminous and non-mechanical metal signboards; slings of metal for handling loads; solder namely soft solder, hard solder, gold solder and silver solder; metal hardware namely springs; steel wire; toolboxes; metal valves not being parts of machines; metal washers used for shake proof, locking, insulative, spacing and repair; cable glands; cable ties; heatsinks for use in machines; metal storage reels for garden hoses and electrical lights; metal cable reels; fastening devices namely collars of metal for fastening pipes, push-on fasteners, quarter turn fasteners, bed of nails clips, door fasteners of metal, fasteners of metal for windows; metal cabinets, cases, boxes, bins, trays, drawers, racks, shelves, frames and containers, all for storage; securing devices namely metal masonry plugs, plugs, picture hooks, tie downs and reusable aluminum labels with hook and loop backing for temporary attachment; brass studding brackets; metal clips for masonry anchors and channel supports; metal rods.

Class 07

(2) Machines and machine tools, namely motors and engines other than for land vehicles and machine coupling and transmission components other than for land vehicles; anti-friction bearings; ball bearings namely angular contact ball bearings, deep groove ball bearings, linear ball bearings, miniature ball bearings, radial ball bearings, self-aligning ball bearings, thrust ball bearings; ball rings for bearings; bearing brackets for machines, bearings for transmission shafts and belts for machines; bearings namely bearings as machine parts, engine bearings, machine bearings; belts; bending machines for metalworking; blades and chucks for power tools; machine parts, namely, blade holders and brushes; cleaning machines for ultrasonic component cleaning and high pressure water washing for equipment, vehicles and structures; clutches for industrial machinery; compressors namely, compressors for air tools and air conditioning compressors; pneumatic controls for machines namely pneumatic instrumentation and switches, pneumatic cylinders and actuators, pneumatic counters, pneumatic logic controllers, pneumatic timers, pneumatic control valves for machines; machines couplings other than for land vehicles; cutting machines for cables, pipes, plastics, stone, wood or ceramic; stepper motors and DC motors other than for land vehicles; cylinders for industrial machinery ; power drill chucks and bits for power drills; drilling machines, namely metal drilling machines, wood drilling machines, masonry drilling machines, stone drilling machines, ceramics drilling machines; drills; driving chains, namely drive chains for machines; filters namely filters for air tools, particulate filters for liquids; reduction gears other than for land vehicles, namely transmission gears for machines, step up gears for machine and reducing gears for machines; generators of electricity; glue guns; grinding machines for cutting metal and stone, removing burrs and over castings, sharpening of tools, and polishing metals, plastics and stone; guards namely, protective guards for machinery; power tool accessories, namely, cutting guides for machines; pneumatic hammers; hoists namely electric and pneumatic hoists, hydraulic hoists; holding devices for machine tools in the nature of metal clamps used for holding piece parts on machine tool tables; hydraulic controls for machines, motor and engines; power jacks; labellers namely label printing machines; pneumatic air preparation equipment, namely, airline filters, lubricators, and regulators, all being parts of machines; milling machines; electric motors for compressors, pumps, presses, conveyers, power tools, and automated production machines; pneumatic cylinders; pneumatic hammers; presses for printing and plastic moulding; pressure reducers, pressure regulators, and pressure valves as part of machines; pulleys, pumps, micropumps, and roller bearings for machines; power saw blades; saws, namely jig saws, power saws, saw machines, circular saws, chain saws, self-oiling bearings as parts of machines; shaft couplings for machines; shock absorber for machines; silencers for motors and engines; spray guns for paint; tapping bits for machines; electric welding machines; anti-vibration mountings for machines; compressed air operated hand tools in the nature of drills, linishers, grinders, jigsaws, and disc saws; electrically operated hand held tools in the nature of drills,

linishers, grinders, jigsaws, and disc saws; blow guns; drills; hand-held, power driven grinders; riveters; sanders; needle scalers; cutters for machines, namely cutters being hand-tools and cutters for machine tools; planers; polishers for contacts; power tools, namely routers; wire wrapping tools; lead screws for machines; milling bits for machines; reamers for machines being machine tools; power operated tools in the nature of drills, linishers, grinders, jigsaws, and disc saws; power tools, namely, hammer drills, strippers for insulation removal from electrical wires, and paint and polish removal; sanding machines; heat guns; vacuum cleaners.

Class 08

(3) Hand tools namely saws, screw drivers, pliers, cutters, shears, spanners, adjustable wrenches, socket sets, and hexagonal keys; side arms not including firearms, namely, agricultural hand tools for vegetation clearing, namely, hatchets and multi-function hand tools comprised of various cutting blades, screw driver bits and pliers; razors; hand tools, namely abrading tools; bits for manual and hand drills; blades for cutting electrical insulation, removing burrs, clearing vegetation, and cutting wood and plastic; hand tools namely breast drills, center punches, chisels, clamps, cutting blow pipes, cutting tools, dies, drills, files, forks, frames for handsaws, garden tools; hand tools, namely gimlets; grindstones; hand operated guns for the extrusion of mastics; hammers; hand drills; knives; mallets; mortice chisels; nail extractors; needle files; numbering punches; penknives; pin punches; pincers; hand tools, namely planes; pliers; punch pliers; numbering punches; riveters; saw blades for hand saws; saw holders; saws, namely hand saws; scissors; hand tools, namely scrapers; screwdrivers; secateurs; sharpening stones; shear blades; shears; shovels; soldering irons; spades; spanners; spatulas; squares; tap wrenches; taps being hand tools; tongs; trowels; tube cutters; tweezers; vices; non-electric welding machines; wrenches; auger bits for hand tools; bit brace; cable tie tools; countersinks; crimp tools; crowbars; de-solder tools; die stocks; drill bits, namely bits for hand tools; grease guns; hand tools, namely hand pumps; hex keys; insertion tools in the nature of tools specifically designed for the insertion of an otherwise easily damaged component such as an electrical connector, crimp or mechanical fixing; nut spinners; nut splitters; pipe benders; ratchet handles; hand-held reamers; needle threaders; rivet extractors; socket tools; driver sets comprised of various sized sockets, handles, and extension bars; hand tools, namely suction lifters; tank cutters; taper leads; torque drivers; torque wrenches; wire strippers; ratchet ring spanners; tool cases; nipple kits in the nature of connection points allowing the controlled removal or addition of materials to a sealed system such as removing (bleeding) air or addition lubricant and greases; hand-operated wire wrappers; hand instruments namely hand tools; punch pin sets featuring nail and pin punches; hand-held termination tools in the nature of crimping tools for creating electrical and mechanical connectors or terminations which require specific actions such as uniform pressure and travel; hand tools namely crimping tools; hole cutters; wire cutters; pipe cutters; cutters for sheet metal and plastic, ball drivers, hand tool kits comprised of saws, screw drivers, pliers, cutters for small diameter wire and cable and sheet materials, shears, spanners, adjustable wrenches, socket sets, and hexagonal key; tool boxes; measuring tape; tachometers; non-electric soldering irons; screw drivers.

Class 09

(4) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision) apparatus and instruments; life-saving and teaching apparatus and instruments namely drench showers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity namely electrical components in the nature of electric contactors, circuit breakers, motor starters for vehicles, distribution boxes for electrical power, chargers, emergency PSU's, and switch disconnectors; apparatus for recording, transmission or reproduction of sound or images, namely speakers, attenuators, amplifiers,

projectors, megaphones, mixers, PA systems, microphones; recording discs, namely blank CD-ROMS for sound or video recording, blank recordable optical discs, blank recordable compact disc, blank recordable DVDs and other digital recording media, namely USB flash drives; cash registers, calculator, computers; computer software for design of electrical and mechanical systems, managing productivity, machinery and peripheral control, and record keeping and archiving; fire extinguishers; alarms for emergency evacuation, indicating attention or action needed, and message delivery and annunciation; ammeters; amplifiers, namely sound amplifiers, signal amplifiers, power amplifiers, fibre optic amplifiers; bar-code reader; batteries for pocket lamps; batteries, namely general purpose batteries, electrical storage batteries, lithium secondary batteries, nickel-cadmium storage batteries, rechargeable general purpose batteries, non-rechargeable general purpose batteries, general purpose alkaline batteries; battery chargers, namely solar battery chargers, USB based chargers, battery chargers for cell phones, mobile phone chargers, automotive battery chargers, lead acid battery chargers, solar battery chargers, microchip battery charger, power tool battery chargers, battery chargers for AAA, AA, C, D and 9 volt batteries, electric cables; callipers for measurement of size and distance; cameras; capacitors; electric circuit closers; circuit breakers; clothing for protection against accidents, irradiation and fire; compact discs read only memory, namely compact discs featuring audio and video recordings on the subject of training and education of industrial processes and requirements, compact discs for storing digital information on the subject of machinery control and programming; computer peripheral devices, namely keyboard, mouse, printer, scanner, monitor, touch screen, cameras, storage devices, namely USB flash drives, RAM (random access memory) cards, blank CD-ROMs, subscriber identification module (SIM) card, blank DVDs, external hard drives, hard disk drives, secure digital cards, computer memory modules solid state drives, compact RAM (random access memory) cards, secure digital (SD) memory cards; computer keyboards; electricity conduits; electric connectors, contacts and control panels; insulated copper wire; copying apparatus and machines, namely photo-copying machines; counters for distance measuring, tote and strike counters, and reciprocating machinery counters; current rectifiers; blank magnetic and optical data carriers; optical data media, namely blank optical discs, optical disc drives; detectors for carbon monoxide, VOC volatile organic compounds, environmental monitoring, dosimeters, and exhaust gas analyzers; digital plotters; regulators for lighting dimmers; electricity distribution boxes; electricity distribution boards; dosage dispensers, namely machines for dispensing pre-determined dosages of medication; electric alarm bells; facsimile machines; filters for respiratory masks; blank floppy computer discs; frequency meters; electric fuses; fuel gauges for heating systems; gloves for protection against accidents; heat regulating apparatus in the nature of thermostats for water filled radiators, industrial process controllers with PID control, and bimetallic switches both fixed and variable; identification sheaths for electric wires; indicators lights; electrical inductors; integrated circuits; interfaces for computers; inverters for power supply; junction sleeves for electric cables; knee pads for workers; lasers for presentation aids, range finding for electronic distance measurement, aim of thermal equipment, data transmission, and beam interruption for presence detection; optical lenses; electric locks for doors, premises, property or safes; loudspeakers; luminous beacons; magnetic tapes for use in data backup systems; magnets for industrial purposes; magnifying glasses; measuring instruments, namely instruments for measuring linear dimensions; electric measuring devices for measuring repetitive and batch linear dimensions; mechanisms for counting apparatus namely, stroke counters, mechanical distance measurement, and turns counters; electrical terminal blocks and strips; scientific measuring instruments, namely conductivity meters; electric actuators; electric motor and speed controllers; servo motors; anemometers; thermohygrometers; screwdown electric outlet covers; testers for voltage measurement and continuity and electrical phase orientation; protective work gloves; electrical foot switches, namely switches intended for operation by a foot or combination of feet; motor run/start

capacitors for use on industrial motors and motor controllers; electric meters; micrometers; microphones; microprocessors; microscopes; mirror optics namely signal mirror; modems; computer monitors; data processing mouse equipment namely computer mice; blank optical discs; optical fibers; oscillographs; electrical plugs, sockets and other contacts, namely fibre optic couplers, plugs and sockets, and data transmission connectors; electric connections, namely electric connectors; pressure gauges; printed circuits; printers for use with computers; slide or photograph projection apparatus and screens; protective helmets for workers; recorded computer software for control of industrial equipment, productivity and record keeping and business management; regulating apparatus, namely pressure regulators for the control and flow rate of air for pneumatic tools; electric relays and resistances; respirators, other than for artificial respiration, namely respirators for filtering air; rulers namely, steel graduated rulers, flexible metal rulers, folding rulers, and measuring rulers; scales; scanners; semiconductors; smoke detectors; spectacles; spirit levels; electrical switches; telephone apparatus, namely cellular telephones and mobile telephones; telephone bells, telephone extension ringers, telephone plugs, telephone converters, telephone adapters, telephone connectors, telephone jacks, telephone couplers; temperature indicators, namely temperature gauges; testing apparatus for liquid pH, liquid turbidity, temperature, voltage and frequency measurement, sound levels, light levels, and gas monitoring; thermometers for non-contact monitoring of equipment, heating and ventilation monitor and control, and regulation of heating and chilling systems; thermostats; time switches; time recording apparatus, namely hour counters, time clocks, timers, timer circuits; transformers, namely power transformers, audio transformers, voltage transformers, electric transformer, current transformers; transistors; transmitters of electronic signals; blank video tapes; volt meters; weighing apparatus and instruments, namely weighing scales, weighing meters; calibrating devices in the nature of weights for weighing scales; welding apparatus, namely masks and helmets; access control and alarm monitoring systems; accessories for electric conduits, namely, covers, joints, access points and terminators; timing dials; diodes; digital disc drives; electrical power supply, namely distribution boxes for electrical power, electrical power connectors, electrical power distribution blocks, electric power supply units; protective ear covering shields for the protection of hearing; filters for the blocking and control of dangerous voltages and signals; headphones; light emitting diodes; monitors for closed circuit television; oscillators; potentiometers; printed circuit boards; residual current detectors; safety goggles; safety harnesses; safety footwear in the nature of protective industrial shoes; solenoids namely linear solenoids, rotary solenoids, tubular solenoids, AC laminated solenoid, DC frame solenoid; voltage surge suppressors; telephone answering machines; thermocouples; radio and television ; sound amplifiers; tape recorders; communication, radar and photographic apparatus and instruments, namely GPS, GSM and PMR radios; electrical and electronic control apparatus and instruments, namely timers, contactors, relays, circuit breakers and switch disconnectors; electrical and electronic apparatus and instruments, namely bench power supplies, mixed signal generators, oscilloscopes, laboratory test equipment, namely , function generators; control cabinets, casings, cases, boxes and housings, all adapted for use with electrical, electronic and scientific apparatus, instruments or components; calculators; electronic control gear and switch gear for industrial process control, motor controllers and electrical protection of industrial and office premises; data communications and networking apparatus and instruments, namely GSM modules, network data switches, network hubs, broadband modems, data converters; optoelectronic apparatus and indicators, namely indicator lamps, indicator LEDs, alpha numeric displays, LDR light dependent resistor, and LDD light dependent diodes; panel meters, namely an electronic instrument that displays an input signal in either a digital or analog form; power supplies namely power banks, bench power supplies, uninterruptible power supplies, voltage stabilizing power supply, high-frequency switching power supplies; process control apparatus in the nature of solenoid controllers for process valves,

temperature control software, multi-function calibrators, PC data acquisition, Ethernet switches, signal conditioners, flow controllers, emergency stop switches and buttons; electric resistors, sensors and transducers; audio and visual apparatus and instruments, namely, presentation aids in the nature of pointers and hand controllers, public address systems, electrical warning annunciators, fire alarms, and burglar alarms; shielding apparatus in the nature of electrical shielding spacers for cables and cable assemblies; telecommunication apparatus and instruments, namely test handsets, telephone line testers, filters, switch boards, broadband modems, GSM modules, and auto dialers; time switches; inductive ferrite cores; electrical test apparatus in the nature of electrical eddy current test equipment; laboratory apparatus and instruments for measuring quantities and masses, controlled temperatures, electric stirrers, measurement of electrical voltage and frequency, sound levels, light levels, gas monitoring, and electrical signal detection and identification; monitoring apparatus in the nature of monitors for detecting radiation and personal exposure levels; digital multimeters; signal generators in the nature of waveform generators; timers namely digital timers, hour meters, desktop timers, contactor timers; protective clothing, namely goggles and eye wear, hard hats and helmets, repertory masks and air filters, protective overalls, coats, high visibility clothing in the nature of jackets, vests and overalls, gloves and gauntlets, knee pads for workers, protective shoes and boots.

Class 11

(5) Apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes in the nature of cisterns, sinks and toilets; air purifying apparatus and machines, namely air purifying units; air conditioning apparatus, namely electrical control systems for heating and air conditioning systems; fans, namely plate fans; filters for air conditioning; hand dryer apparatus for washrooms; heat exchangers; electric heating, namely cartridge heaters for production processes, space heaters for heating buildings and large areas, drum and liquid heaters, hot air heaters for manufacturing processes, and radiative heaters for manufacturing processes and curing; heating elements; electric heating apparatus, namely electric space heaters, components heaters, water heaters, and air heaters, nozzle heaters, cartridge heaters and drum and band heaters for ingredient preparation; hotplates; immersion heaters; ionization apparatus for the treatment of air; electric lamps; lighting apparatus and installations for office and workshop, machine and equipment illumination, etching and photography, warning and hazard avoidance, emergency office and workshop illumination, and vehicle and equipment indicators; light bulbs for vehicles; pipes; showers; taps, namely faucet taps, mixer taps for water pipes, tap water faucets, taps being hand tools, taps for casks of metal, taps for use with machine tools; electric torches for lighting; water purification apparatus, namely tap-water purifying apparatus, water purification machines for domestic use, ultraviolet light (UV) water purification device; water heaters; decorative lighting in the nature of illuminated buttons; lamps, namely electric lamps, uv lamps; lights for use in vehicles, electrical equipment fixed installation panel indicators, curing of varnishes and paints and photographic developing; torches for soldering, brazing, heat treatment, namely, heat shrink tubing, heat sealing packaging; light bulbs; ceiling light fittings; heaters, namely, electric water heaters for beverages and electric water heaters for washing and sanitation; lamp holders; oil filled radiators; LED light arm; filters, namely filters for air conditioning and ventilation filters.

Class 20

(6) Plastic hinges; plastic rivets.

Services

Class 35

Wholesale and retail distributorship services of the aforementioned goods, namely common metals and their alloys, metal building materials namely, sheet metal, steel rods, tubes, bars and hexagonals, stainless steel rods, tubes and bars, aluminum angles, channels and tees and aluminum tubes, materials of metal for railway tracks, non-electric cables and wires of common metal, ironmongery namely, small items of metal hardware in the nature of screws, nuts, bolts, hinges, handles, locks, padlocks, and angle brackets, pipes and tubes of metal, safes, goods of common metal not included in other classes namely, steel safes and cash boxes, iron, tin and lead ores, aluminium alloys, foil and siding, thin, bands of metal, bolts of metal, boxes, namely metal cash boxes, metal lock boxes, metal strong boxes, shelf brackets, clips for cables and pipes, castors and chains, copper wire, metal door fittings, metal door closers, ducts for ventilating and air conditioning installations, ducts for central heating installations, metal elbows for pipes, eyebolts, metal fittings for furniture, metal grills, metal and plastic hinges, wall hooks of metal for pipes, metal junctions for pipes, metal knobs, ladders of metal, metal latches, locks cylinders for doors and cabinets, nuts of metal, padlocks, cotter pins, rivets namely plastic rivets and rivets of metal, ropes of metal, strongboxes, screws, sheets mounting plates and blanking plates, non-luminous and non-mechanical metal signboards and, signs, slings of metal for handling loads, solder namely soft solder, hard solder, gold solder and silver solder, metal hardware namely springs, steel wire, toolboxes, metal valves not being parts of machines, metal washers used for shake proof, locking, insulative, spacing and repair, cable glands, cable ties, heatsinks for use in machines, metal storage reels for garden hoses and electrical lights, metal cable reels, fastening devices, metal cabinets, cases, boxes, bins, trays, drawers, racks, shelves, frames and containers, all for storage, securing devices namely metal masonry plugs, plugs, picture hooks, tie downs and reusable aluminum labels with hook and loop backing for temporary attachment, brass studding brackets, metal clips for masonry anchors and channel supports, metal rods, machines and machine tools, namely motors and engines other than for land vehicles and machine coupling and transmission components other than for land vehicles, antifriction bearings, ball bearings, ball rings for bearings, bearing brackets for machines, bearings for transmission shafts and belts for machines, bearings, belts, bending machines for metalworking, blades and chucks for power tools, machine parts, namely, blade holders and brushes, cleaning machines for ultrasonic component cleaning and high pressure water washing for equipment, vehicles and structures, clutches for industrial machinery, compressors namely, compressors for air tools and air conditioning compressors, pneumatic controls for machines, machines couplings other than for land vehicles, cutting machines for cables, pipes, plastics, stone, wood or ceramic, stepper motors and DC motors other than for land vehicles, cylinders for industrial machinery, power drill chucks and bits for power drills, drilling machines, namely metal drilling machines, wood drilling machines, masonry drilling machines, stone drilling machines, ceramics drilling machines, drills, driving chains, namely drive chains for machines, filters namely filters for air tools, air conditioning and ventilation filters, particulate filters for liquids, reduction gears other than for land vehicles, namely transmission gears for machines, step up gears for machine and reducing gears for machines, generators of electricity, glue guns, grinding machines for cutting metal and stone, removing burrs and over castings, sharpening of tools, and polishing metals, plastics and stone, grindstones, guards namely, protective guards for machinery, power tool accessories, namely, cutting guides for machines, pneumatic hammers, hoists namely electric and pneumatic hoists, hydraulic hoists, holding devices for machine tools in the nature of metal clamps used for holding piece parts on machine tool tables, hydraulic controls for machines, motor and engines, power jacks, labellers namely label printing machines, pneumatic air preparation equipment, namely, airline filters, lubricators, and regulators, all being parts of machines, milling machines, electric motors for compressors, pumps, presses, conveyers, power tools, and automated production machines, pneumatic cylinders, pneumatic hammers, presses for printing and plastic moulding, pressure

reducers, pressure regulators, and pressure valves as part of machines, pulleys, pumps, micropumps, and roller bearings for machines, power saw blades, saws, namely jig saws, power saws, saw machines, circular saws, chain saws, hand saws, self-oiling bearings as parts of machines, shaft couplings for machines, shock absorber for machines, silencers for motors and engines, spray guns for paint, tapping bits for machines, electric welding machines, anti-vibration mountings for machines, compressed air operated hand tools in the nature of drills, linishers, grinders, jigsaws, and disc saws, electrically operated hand held tools in the nature of drills, linishers, grinders, jigsaws, and disc saws, blow guns, drills, hand-held, power driven grinders, riveters, sanders, needle scalers, screwdrivers, wrenches, cutters for machines, namely cutters being hand-tools and cutters for machine tools, planers, polishers for contacts, power tools, namely routers, wire wrapping tools, wrenches, lead screws for machines, milling bits for machines, reamers for machines being machine tools, power operated tools in the nature of drills, linishers, grinders, jigsaws, and disc saws, power tools, namely, hammer drills, strippers for insulation removal from electrical wires, and paint and polish removal, sanding machines, heat guns, hand tools namely saws, screw drivers, pliers, cutters, shears, spanners, adjustable wrenches, socket sets, and hexagonal keys, side arms not including firearms, namely, agricultural hand tools for vegetation clearing, namely, hatchets and multi-function hand tools comprised of various cutting blades, screw driver bits and pliers, razors, hand tools, namely abrading tools, bits for manual and hand drills, blades for cutting electrical insulation, removing burrs, clearing vegetation, and cutting wood and plastic, hand tools namely breast drills, center punches, chisels, clamps, cutting blow pipes, cutting tools, dies, drills, files, forks, frames for handsaws, garden tools, hand tools, namely gimlets, grindstones, hand operated guns for the extrusion of mastics, hammers, hand drills, knives, mallets, mortice chisels, nail extractors, needle files, numbering punches, penknives, pin punches, pincers, hand tools, namely planes, pliers, punch pliers, numbering punches, riveters, saw blades for hand saws, saw holders, saws, namely hand saws, scissors, hand tools, namely scrapers, screwdrivers, secateurs, sharpening stones, shear blades, shears, shovels, soldering irons, spades, spanners, spatulas, squares, tap wrenches, taps being hand tools, tongs, trowels, tube cutters, tweezers, vices, non-electric welding machines, wrenches, auger bits for hand tools, bit brace, cable tie tools, countersinks, crimp tools, crowbars, de-solder tools, die stocks, drill bits, namely bits for hand tools, grease guns, hand tools, namely hand pumps, hex keys, insertion tools in the nature of tools specifically designed for the insertion of an otherwise easily damaged component such as an electrical connector, crimp or mechanical fixing, nut spinners, nut splitters, pipe benders, ratchet handles, hand-held reamers, needle threaders, rivet extractors, socket tools, driver sets comprised of various sized sockets, handles, and extension bars, hand tools, namely suction lifters, tank cutters, taper leads, torque drivers, torque wrenches, wire strippers, ratchet ring spanners, tool cases, nipple kits in the nature of connection points allowing the controlled removal or addition of materials to a sealed system such as removing (bleeding) air or addition lubricant and greases, hand-operated wire wrappers, hand instruments namely hand tools, punch pin sets featuring nail and pin punches, hand-held termination tools in the nature of crimping tools for creating electrical and mechanical connectors or terminations which require specific actions such as uniform pressure and travel, hand tools namely crimping tools, hole cutters, wire cutters, pipe cutters, cutters for sheet metal and plastic, ball drivers, hand tool kits comprised of saws, screw drivers, pliers, cutters for small diameter wire and cable and sheet materials, shears, spanners, adjustable wrenches, socket sets, and hexagonal key, tool boxes, measuring tape, tachometers, non-electric soldering irons, scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments namely drench showers, apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity namely electrical components in the nature of electric

contactors, circuit breakers, motor starters for vehicles, distribution boxes for electrical power, chargers, emergency PSU's, and switch disconnectors, apparatus for recording, transmission or reproduction of sound or images, namely speakers, attenuators, amplifiers, projectors, megaphones, mixers, PA systems, microphones, recording discs, namely blank CD-ROMS for sound or video recording, blank recordable optical discs, blank recordable compact disc, blank recordable DVDs and other digital recording media, namely USB flash drives, cash registers, calculator, computers, computer software for design of electrical and mechanical systems, managing productivity, machinery and peripheral control, and record keeping and archiving, fire extinguishers, alarms for emergency evacuation, indicating attention or action needed, and message delivery and annunciation, ammeters, amplifiers, namely sound amplifiers, signal amplifiers, power amplifiers, fibre optic amplifiers, barcode reader, batteries for pocket lamps, batteries, namely general purpose batteries, electrical storage batteries, lithium secondary batteries, nickel-cadmium storage batteries, rechargeable general purpose batteries, non-rechargeable general purpose batteries, general purpose alkaline batteries, battery chargers, namely solar battery chargers, USB based chargers, battery chargers for cell phones, mobile phone chargers, automotive battery chargers, lead acid battery chargers, solar battery chargers, microchip battery charger, power tool battery chargers, battery chargers for AAA, AA, C, D and 9 volt batteries, electric cables, callipers for measurement of size and distance, cameras, capacitors, electric circuit closers, circuit breakers, clothing for protection against accidents, irradiation and fire, compact discs read only memory, namely compact discs featuring audio and video recordings on the subject of training and education of industrial processes and requirements, compact discs for storing digital information on the subject of machinery control and programming, computer peripheral devices, namely keyboard, mouse, printer, scanner, monitor, touch screen, cameras, storage devices, namely USB flash drives, RAM (random access memory) cards, blank CDROMs, subscriber identification module (SIM) card, blank DVDs, external hard drives, hard disk drives, secure digital cards, computer memory modules solid state drives, compact flash cards, computer memory, namely blank flash memory cards, blank secure digital (SD) memory cards, RAM (random access memory) cards, secure digital (SD) memory cards, computer keyboards, electricity conduits, electric connectors, contacts and control panels, insulated copper wire, copying apparatus and machines, namely photo-copying machines, counters for distance measuring, tote and strike counters, and reciprocating machinery counters, current rectifiers, blank magnetic and optical data carriers, optical data media, namely blank optical discs, optical disc drives, detectors for carbon monoxide, VOC volatile organic compounds, environmental monitoring, dosimeters, and exhaust gas analyzers, digital plotters, regulators for lighting dimmers, electricity distribution boxes, electricity distribution boards, dosage dispensers, namely machines for dispensing pre-determined dosages of medication, electric alarm bells, facsimile machines, filters for respiratory masks, blank floppy computer discs, frequency meters, electric fuses, fuel gauges for heating systems, gloves for protection against accidents, heat regulating apparatus in the nature of thermostats for water filled radiators, industrial process controllers with PID control, and bimetallic switches both fixed and variable, identification sheaths for electric wires, indicators lights, electrical inductors, integrated circuits, interfaces for computers, inverters for power supply, junction sleeves for electric cables, knee pads for workers, lasers for presentation aids, range finding for electronic distance measurement, aim of thermal equipment, data transmission, and beam interruption for presence detection, optical lenses, electric locks for doors, premises, property or safes, loudspeakers, luminous beacons, magnetic tapes for use in data backup systems, magnets for industrial purposes, magnifying glasses, measuring instruments, namely instruments for measuring linear dimensions, electric measuring devices for measuring repetitive and batch linear dimensions, mechanisms for counting apparatus namely, stroke counters, mechanical distance measurement, and turns counters, electrical terminal blocks and strips,

scientific measuring instruments, namely conductivity meters, electric actuators, electric motor and speed controllers, servo motors, anemometers, thermohygrometers, screwdown electric outlet covers, testers for voltage measurement and continuity and electrical phase orientation, protective work gloves, electrical foot switches, namely switches intended for operation by a foot or combination of feet, motor run/start capacitors for use on industrial motors and motor controllers, electric meters, micrometers, microphones, microprocessors, microscopes, mirror optics namely signal mirror, modems, computer monitors, data processing mouse equipment namely computer mice, blank optical discs, optical fibers, oscillographs, electrical plugs, sockets and other contacts, namely fibre optic couplers, plugs and sockets, and data transmission connectors, electric connections, namely electric connectors, pressure gauges, printed circuits, printers for use with computers, slide or photograph projection apparatus and screens, protective helmets for workers, recorded computer software for control of industrial equipment, productivity and record keeping and business management, regulating apparatus, namely pressure regulators for the control and flow rate of air for pneumatic tools, electric relays and resistances, respirators, other than for artificial respiration, namely respirators for filtering air, rulers namely, steel graduated rulers, flexible metal rulers, folding rulers, and measuring rulers, scales, scanners, semiconductors, smoke detectors, spectacles, spirit levels, electrical switches, telephone apparatus, namely cellular telephones and mobile telephones, telephone bells, telephone extension ringers, telephone plugs, telephone converters, telephone adapters, telephone connectors, telephone jacks, telepone couplers, temperature indicators, namely temperature gauges, testing apparatus for liquid pH, liquid turbidity, temperature, voltage and frequency measurement, sound levels, light levels, and gas monitoring, thermometers for non-contact monitoring of equipment, heating and ventilation monitor and control, and regulation of heating and chilling systems, thermostats, time switches, time recording apparatus, namely hour counters, time clocks, timers, timer circuits, transformers, namely power transformers, audio transformers, voltage transformers, electric transformer, current transformers, transistors, transmitters of electronic signals, vacuum cleaners, blank video tapes, volt meters, weighing apparatus and instruments, namely weighing scales, weighing meters, calibrating devices in the nature of weights for weighing scales, welding apparatus, namely masks and helmets, access control and alarm monitoring systems, accessories for electric conduits, namely, covers, joints, access points and terminators, timing dials, diodes, digital disc drives, electrical power supply, namely distribution boxes for electrical power, electrical power connectors, electrical power distribution blocks, electric power supply units, protective ear covering shields for the protection of hearing, filters for the blocking and control of dangerous voltages and signals, headphones, light emitting diodes, monitors for closed circuit television, oscillators, potentiometers, printed circuit boards, residual current detectors, safety goggles, safety harnesses, safety footwear in the nature of protective industrial shoes, solenoids, voltage surge suppressors, telephone answering machines, thermocouples, radio and television , sound amplifiers, tape recorders, communication, radar and photographic apparatus and instruments, namely GPS, GSM and PMR radios, electrical and electronic control apparatus and instruments, namely timers, contactors, relays, circuit breakers and switch disconnectors, electrical and electronic apparatus and instruments, namely variable power supplies, mixed signal generators, oscilloscopes, laboratory test equipment, namely , function generators, control cabinets, casings, cases, boxes and housings, all adapted for use with electrical, electronic and scientific apparatus, instruments or components, calculators, electronic control gear and switch gear for industrial process control, motor controllers and electrical protection of industrial and office premises, data communications and networking apparatus and instruments, namely GSM modules, network data switches, network hubs, broadband modems, data converters, optoelectronic apparatus and indicators, namely indicator lamps, indicator LEDs, alpha numeric displays, LDR light dependent resistor, and LDD light dependent diodes, panel meters, namely an electronic instrument that displays an input

signal in either a digital or analog form, power supplies, process control apparatus in the nature of industrial process control software, electric resistors, sensors and transducers, audio and visual apparatus and instruments, namely, presentation aids in the nature of pointers and hand controllers, public address systems, electrical warning annunciators, fire alarms, and burglar alarms, shielding apparatus in the nature of electrical shielding spacers for cables and cable assemblies, telecommunication apparatus and instruments, namely test handsets, telephone line testers, filters, switch boards, broadband modems, GSM modules, and auto dialers, time switches, inductive ferrite cores, electrical test apparatus in the nature of electrical eddy current test equipment, laboratory apparatus and instruments for measuring quantities and masses, controlled temperatures, electric stirrers, measurement of electrical voltage and frequency, sound levels, light levels, gas monitoring, and electrical signal detection and identification, monitoring apparatus in the nature of monitors for detecting radiation and personal exposure levels, digital multimeters, signal generators in the nature of waveform generators, timers, protective clothing, namely goggles and eye wear, hard hats and helmets, repertory masks and air filters, protective overalls, coats, high visibility clothing in the nature of jackets, vests and overalls, gloves and gauntlets, knee pads for workers, protective shoes and boots, apparatus for lighting, heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes in the nature of cisterns, sinks and toilets, air purifying apparatus and machines, namely air purifying units, air conditioning apparatus, namely electrical control systems for heating and air conditioning systems, fans, namely plate fans, filters for air conditioning, hand dryer apparatus for washrooms, heat exchangers, electric heating, namely cartridge heaters for production processes, space heaters for heating buildings and large areas, drum and liquid heaters, hot air heaters for manufacturing processes, and radiative heaters for manufacturing processes and curing, heating elements, heating elements, electric heating apparatus, namely electric space heaters, components heaters, water heaters, and air heaters, nozzle heaters, cartridge heaters and drum and band heaters for ingredient preparation, hotplates, immersion heaters, ionization apparatus for the treatment of air, electric lamps, lighting apparatus and installations for office and workshop, machine and equipment illumination, etching and photography, warning and hazard avoidance, emergency office and workshop illumination, and vehicle and equipment indicators, light bulbs for vehicles, pipes, showers, taps, namely faucet taps, mixer taps for water pipes, tap water faucets, taps being hand tools, taps for casks of metal, taps for use with machine tools, electric torches for lighting, water purification apparatus, namely tap-water purifying apparatus, water purification machines for domestic use, ultraviolet light (UV) water purification device, water heaters, decorative lighting in the nature of illuminated buttons, lamps, namely electric lamps, uv lamps, lights for use in vehicles, electrical equipment fixed installation panel indicators, curing of varnishes and paints and photographic developing, torches for soldering, brazing, heat treatment, namely, heat shrink tubing, heat sealing packaging, light bulbs, ceiling light fittings, heaters, namely, electric water heaters for beverages and electric water heaters for washing and sanitation, lamp holders, oil filled radiators, LED light arm.

Goods

Class 09

Computer software, hardware and apparatus for use in the broadcasting industry that configures, monitors and controls media processing and media distribution devices, namely, cameras, switchers, and intelligent video digital recorders; software for control of videotape recorders; Software for branding video content; Redundant power supplies; Television, video and audio signal processing, switching and generating equipment, namely, switchers and mounting frames; Apparatus and instruments for generating, switching, editing and routing television, video, and audio signals, namely, cameras and switchers; Servers, namely, media servers, video servers, and broadcasting servers; Media storage devices, namely, media servers, namely, computer servers and network servers, digital media recorders, namely, digital voice recorders and digital video recorders, removable media disk drives, namely, computer disk drives, optical disk drives, floppy disk drives, USB flash drives, and flash memory card readers, and blank optical and blank digital versatile disks; computers, special effects generators, audio and video mixers, audio and video switchers, and high frame rate video recorders for generating, controlling, and reproducing video special effects for television, video production, and the movies; Software in the field of post-production, namely, video editing software, software for generating computer graphics, software for creating digital video effects, 3D modeling software, compositing software, animation software and color grading software; Computer software used for management, control, monitoring, measurement, automation, switching, branding, keying, synchronization, conversion, distribution and processing of video, audio and data signals for television, radio, and internet; Robotic camera interfaces; Playout servers; Playout computer hardware appliances, namely, computer hardware for telecommunications, communications servers, namely, broadcasting servers, computer servers and network servers, computing equipment, namely, local area network adapters, cards, repeaters, station adapters, gateway modules and access points, antennas, lightning arresters, converter cables, antenna cables, jumper cables, amplifiers, converter desktop computers, and portable computers; Playout automation systems, namely, computer hardware, computer software, and computer network servers for automating broadcasting operations; Video and audio compression equipment, namely, audio compressors, decompressors, and codecs; Analog video and audio signal decoders; Digital video signal de-serializers; Remote video monitoring system

consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; Video camera interface boards; Computer software programs designed for preparation of closed captions and subtitles on DVDs and videotapes; VGA scan converters; Post-production equipment and apparatus, namely, digital video and digital voice recorders, audio and video cassette recorders, audio and video tape recorders, optical disc recorders; Apparatus and instruments for generating, switching, editing and routing television, video, and audio signals, namely, intelligent video digital recorders; Media asset management computer hardware; Computer software, namely, electronic databases for storing, accessing, searching, indexing, and managing digital media assets, namely, photos, images, animations, presentations, spreadsheets, digital documents, electronic mails, videos and websites, video transcoders, multi-image display processors, equipment and software for the control and monitoring of radio and television production facilities, video, audio, and data signals for television, radio, and internet, synchronizers for aligning video and audio recordings, subtitling and captioning, video and audio descriptions for the visually impaired and hearing impaired, audience interaction data processing, teletext, and test pattern generators; Television and video transmission automation systems comprised of video hardware and computer hardware and software for automating television and video transmissions; Software for creating digital video effects; Television facilities system management software for connecting and controlling broadcast equipment, namely, routers, production switchers, multi-viewers, and signal test and measurement equipment, interfacing modules, processors, namely, color correctors, encoders, production switchers and audio mixers, and routers on a local area network (LAN), wide area networks (WAN) and on the internet; Software for control of routers; Computer software for controlling and monitoring television, video and audio signal processing, switching and generating equipment; Computer software used for the control and monitoring of television and telecommunication infrastructures, namely, content distribution networks, multiplatform video distribution services, cable and satellite broadcasters; computer software to control the distribution of video, audio and data signals for television, radio, and internet; Computer hardware and computer software that enable interactive television programming, allowing the television viewer to have an interactive viewing experience; Computer hardware and computer software for creating, previewing, approving, rendering, displaying, and transmitting graphics as part of a television program; Video processor for multi-image and signal monitoring; Video display processor with multiple video, audio and data inputs and outputs; Computer software and electronic equipment for monitoring and signal measurement of video and audio signals for television, radio, and internet; Master control switching and channel branding video processors and computer hardware; computer software for operating master control switching and channel branding video processors for use in television programming; Computer software, hardware and apparatus for use in the broadcasting industry that configures, monitors and controls media processing and media distribution devices, namely, routers, multi-viewers, multiplexers, and demultiplexers; Master control systems for use in television broadcasting comprised of video processors, audio processors, serial ports, Ethernet ports, file servers, production switchers, routing switchers, control console, and control panels; Emergency backup switchers; Television, video and audio signal processing, switching and generating equipment, namely, frame synchronizers, audio synchronizers, audio delays audio embedders/de-embedders, audio processors, sync inserters, time code inserters, video and audio distribution and processing amplifiers, clock system drivers, multiplexers, embedders, deembedders, demultiplexers, routers, switching routers, remote control panels; Apparatus and instruments for generating, switching, editing and routing television, video, and audio signals, namely, routers, multiplexers, demultiplexers; Computer hardware, television hardware, video hardware, and audio hardware in the nature of rack frames, processing modules, and control panels; Television, video and audio broadcasting equipment and software, namely, frames, control panels, amplifiers, encoders,

decoders, converters, embedders, deembedders, serializers, upconverters, downconverters, video encoders and decoders, HDTV upconverters, HDTV downconverters, signal processors, audio processors, sync generators and inserters, and routers; Miniature broadcast interfaces; Camera back interfaces; Camera interfaces; Video transport equipment, namely, fiber optic cable signal converters, fiber optic cable signal transceivers, fiber optic cable signal transmitters, fiber optic cable signal receivers, fiber optic cable signal multiplexers; Fiber optic and electronic cable assemblies; Graphics workflow computer hardware and software, namely, logo inserters, logo inserter software, and downstream keyers; Television, video and audio equipment, namely, video to display interfaces, video converters, aspect ratio converters, audio converters, audio embedders, audio deembedders, video embedders, video deembedders, fiber optic cable signal converters and broadcast test signal generators, mounting frames and power supplies, multiplexers and demultiplexers, routers, mounting frames for broadcast hardware and power supplies, remote control panels, and computer software for controlling and monitoring the aforesaid goods; Television, video and audio signal processing, switching and generating equipment, namely, frame synchronizers, audio synchronizers, audio signal delay processing equipment, logo generators, time code generators and inserters, video and audio distribution and processing amplifiers, analog to digital converters, digital to analog converters, color encoders and decoders, clock system drivers, clock displays; Video and audio noise reducers; Video conversion cards; Coaxial and fiber optic cable interfaces; Test and reference generators; Video, audio and data signal format converters; Converters of standard television and video signals to and from high definition formats; Aspect ratio converters; Closed caption and other ancillary data processing equipment, namely, closed captioning data inserters, processors and deleters, vertical interval processors, adders and deleters, and ancillary data processors, adders and deleters; Telecommunication infrastructure, namely, mounting racks, reels for fiber optic cables; Fiber optic cables; Telecommunications equipment, namely, fiber optic transceivers, transmitters, and receivers; Computer software programs designed to prepare and transmit closed captions and subtitles over satellite and cable network television; Computer software for preparing closed captions and subtitles.

Services

Class 37

(1) Installation, repair and maintenance of computer hardware.

Class 42

(2) Design and development of computer hardware, television hardware, video hardware, audio hardware, and broadcasting equipment; Computer software design, consultancy, and development services; Installation, maintenance, and repair services, all relating to computer software; Software as a service (SaaS) services related to software used with professional video server platforms, namely, software for broadcast automation, media management, media workflow, media production, digital asset management, content editing, and content layout.

Goods

Class 07

(1) Machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry and tools for the aforesaid machines, equipment and devices; machines and equipment for converting, and printing, especially for cutting, creasing, embossing, stamping, hot and cold stamping, plating a coloured film, hot and cold gilding, embossing and folding-gluing inline, laminating, litholaminating, rotary printing presses, machines for flexographic printing, Central Impression flexographic printing, rotogravure printing, offset printing, typographical printing, digital printing, flexo printing and flat bed die-cutting inline, flexo printing and folding-gluing inline, flexo printing and rotary die-cutting inline, gravure printing and folding-gluing inline of substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packing manufacturing industry; industrial machinery for machine loading, infeed, multiple inserting, unwinding, splicing, feeding, positioning, conveying, stacking, and delivering of substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packaging

manufacturing industry; industrial machinery for separating, delivering, rewinding, handling, packing and conveying out of machinery for printing and processing substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packaging manufacturing industry, piles and reels of the aforesaid substrates, of converted, printed and folded-glued substrates, positioning motors for the aforesaid machines, equipment and devices; printing cylinder [parts of machines], rollers [parts of machines], flexible relief plates and printing plates, machines for preparing and processing of printing cylinders, rollers, flexible relief plates and printing plates, devices for mounting of printing flexible relief plates and printing plates on printing cylinders and tools for the aforesaid machines, equipment and devices, constituent pieces and spare parts for the aforesaid machines, equipment and devices, for the packaging manufacturing industry

Class 09

(2) Computer, computer central processing units, electronic circuit board, printed circuit board, computer chip and software for inputting, entering, recording, reproduction, storing, processing and transmitting of data in connection with checking, controlling, measuring, programming, adjusting, pre-setting, quality control, for monitoring of production parameters, performances and stops management, for checking of register of printings, cuts, creases and embossing, for measuring and adjusting the colour composition of printings, for measuring and adjusting the ink supply, for preprint and postprint image analysing and processing, namely, detectors, and digital cameras for detecting, registering, and positioning, for machines, equipment and devices for processing and printing substrates in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry; control devices for machines, equipment and systems, namely, electrical control panels, electrical control systems for substrate printing and processing machinery, electric installations for the remote control of substrate printing and processing machinery.

Class 16

(3) Paper, cardboard and goods made from these materials, namely advertising cards, advertising banners made of paper; printed matter, namely, books, magazines, pamphlets, brochures, newspapers; printed instructional and teaching material, namely, books, pamphlets, brochures, in the field of the packaging manufacturing industry; catalogues, calendars; prospectuses, leaflets, flyers, boxes of cardboard and paper, bags [envelopes, pouches] of paper and plastics, for packaging, manuals, magazines, newsletters, newspapers, periodicals, graphic prints, graphic representations, posters, plastic films for packaging.

Services

Class 35

(1) Retail sales services, by mail order, internet, of machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry; sales demonstration of machines for converting and printing, especially, folding-gluing, printing cutting and folding-gluing inline, of substrates, in particular sheets, plate elements, blanks, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry

Class 37

(2) Customer assistance services, namely services for installation, cleaning, maintenance, settings optimization, repair, mounting of spare parts for machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry.

Class 41

(3) Theoretical and practical instruction in operating machines for the packaging manufacturing industry, editing teaching materials, publishing teaching materials, arranging and conducting of colloquiums, conferences, or congresses, for users of machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic for the packaging manufacturing industry.

Class 07

(1) machines and equipment for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry and tools for the aforesaid machines, equipment and devices; machines and equipment for converting, and printing, especially for cutting, creasing, embossing, stamping, hot and cold stamping, plating a coloured film, hot and cold gilding, embossing and folding-gluing inline, laminating, litho-laminating, Central Impression flexographic printing, rotogravure printing, offset printing, typographical printing, digital printing, flexo printing and flat bed die-cutting inline, flexo printing and folding-gluing inline, flexo printing and rotary die-cutting inline, gravure printing and folding-gluing inline of substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packing manufacturing industry; rotary printing presses, machines for flexographic printing and tools for the aforesaid machines, equipment and devices for the packing manufacturing industry; industrial machinery for machine loading, infeed, multiple inserting, unwinding, splicing, feeding, positioning, conveying, stacking, and delivering of substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packaging manufacturing industry; industrial machinery for separating, delivering, rewinding, handling, packing and conveying out of machinery for printing and processing substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packaging manufacturing industry, piles and reels of the aforesaid substrates, of converted, printed and folded-glued substrates, positioning motors for the aforesaid machines, equipment and devices; parts of machines, namely, printing cylinders and rollers, flexible relief plates and printing plates, machines for preparing and processing of printing

cylinders, rollers, flexible relief plates and printing plates, machines for mounting of printing flexible relief plates and plates on printing cylinders and tools for the aforesaid machines, equipment and devices, constituent pieces and spare parts for the aforesaid machines, equipment and devices, tools for the aforesaid machines, equipment and devices, for the packaging manufacturing industry

Class 09

(2) electronic apparatuses, instruments and devices, namely, computers and software for inputting, entering, recording, reproduction, storing, processing and transmitting of data in connection with checking, controlling, measuring, programming, adjusting, pre-setting, quality control, for monitoring of production parameters, performances and stops management, for checking of register of printings, cuts, creases and embossing, for measuring and adjusting the colour composition of printings, for measuring and adjusting the ink supply, for preprint and postprint image analysing and processing, namely detectors, and digital cameras for detecting, registering, and positioning, for machines, equipment and devices for processing and printing substrates more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry; control devices for machines, equipment and systems, namely, electrical control panels, electrical control systems for substrate printing and processing machinery, electric installations for the remote control of substrate printing and processing machinery

Class 16

(3) paper, cardboard and goods made from these materials, namely advertising cards; printed matter, namely, books, magazines, pamphlets, brochures, newspapers; printed instructional and teaching material, namely, books, pamphlets, brochures, in the field of the packaging manufacturing industry; catalogues, calendars; prospectuses, leaflets, flyers, boxes of cardboard and paper, bags [envelopes, pouches] of paper and plastics, for packaging, manuals, magazines, newsletters, newspapers, periodicals, graphic prints, posters

Services

Class 35

(1) retail sales services, by mail order, internet of machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry; commercial analysis, namely, business management analysis, cost analyses, market analysis

Class 37

(2) customer assistance services, namely services for installation, cleaning, maintenance, settings optimization, repair, mounting of spare parts for machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry

Class 41

(3) theoretical and practical instruction in operating machines for the packaging manufacturing industry, editing printed teaching materials in the field of the packaging manufacturing industry, publishing teaching materials, arranging and conducting of colloquiums, conferences, or congresses, for users of machines, equipment and devices for processing and printing substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic for the packaging manufacturing industry

Colour Claim

Colour is claimed as a feature of the trademark. The Applicant claims the colours blue, light blue, pink and white as a feature of the trademark. The trademark consists of two concentric circles with an oval superimposed on them. The outer circle is navy blue and light blue where it coincides with the oval, the inner circle is pink and light blue wherein coincides with the oval.

Goods

Class 09

Surveillance cameras; surveillance videos provided on CD-ROMs and DVDs; wireless security cameras and video surveillance systems; computer application software to remotely monitor homes and sites using surveillance cameras and videos; software for use in recording, viewing, storing, sharing and analyzing online audio and video, namely digital sound recordings, audio clips, video clips and video recordings, for use in the fields of safety and security surveillance; motion sensors, temperature sensors, thermal sensors; electronic sensors for motion, humidity, temperature, and light; computer hardware for IP video surveillance; infrared cameras; video cameras; video surveillance monitoring and security systems comprised of security cameras, home and office security cameras; computer software applications for smartphones for receiving, sending and displaying control and image data, namely photographs and video clips, using network communication protocols, for use in the fields of safety and security surveillance; video cameras with wireless transmission capacity; computer security software used to manage, monitor and operate security systems, cameras, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal security alarms, smoke and gas alarms, home surveillance systems,

lighting controls; alarm systems, namely, burglar alarms, gas alarms, security and fire alarms, vehicle alarms; cameras; computer hardware and computer software for the remote monitoring of geographic sites, namely residences and businesses; computer software and hardware for storing, retrieving, displaying, manipulating, transmitting, reproducing, encrypting and compressing images and data, namely photographs and videos, for use in the fields of safety and security surveillance; electronic intrusion detectors; computer security software; computer hardware, communications hardware, namely cameras and burglar alarms, and computer software, all for use in residences and businesses for management, automation and monitoring of electronic sensors of physical activity, physical premises security systems; wireless local area networking transmitters and receivers, namely wireless radio transmitters; audio and video recording apparatus, namely DVD recorders

Services

Class 40

(2) Photographic image processing; processing and development of digital video images.

Class 42

(1) Online non-downloadable software that allows users to remotely view, monitor, program, operate and control camera systems; processing security video data, namely, interpreting security video recordings via non-downloadable software to identify specific segments containing predefined events; security software as a service (SAAS) for recording, viewing, storing, sharing and analyzing online audio recordings, video recordings and temperature readings retrieved from home security systems; hosting a security software application that enables users to transfer control audio recordings, video recordings, temperature recordings and photographs using computer network communication protocols; design and development of computer hardware and software; computer programming; installation, maintenance and repair of computer software; application service provider (ASP) services, namely hosting of software applications that allow users to remotely view, monitor, program, operate and control security camera systems; computer infrastructure as a service (IAAS) featuring computer software for processing and interpreting of home security video recordings and identifying segments that contain predefined security events; design of computer network systems; remote monitoring and management of computer networks and camera systems; computer software design services; remote hosting of video clips, photographs, databases, websites and software applications of others; installation, configuration, and operation of computer software platforms for processing and transmitting control and image data, namely video recordings and photographs; advisory and consultancy services relating to the aforesaid services, namely computer systems remote monitoring services, security technology, software installation and computer design services

Class 45

(3) Advisory and consultancy in the field of remote monitoring of home security camera systems; remote monitoring of home security systems; remote monitoring of fire, burglar and security alarms; technical services, namely, providing remote management of security camera systems.

(1) machines, equipment for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry and tools for the aforesaid machines, equipment and devices; machines, equipment for converting, and printing, especially for cutting, creasing, embossing, stamping, hot and cold stamping, plating a coloured film, hot and cold gilding, embossing and folding-gluing inline, laminating, litho-laminating, flexographic printing, central impression flexographic printing, industrial rotogravure printing, offset printing, typographical printing, digital printing, flexo printing and flat bed die-cutting inline, flexo printing and foldinggluing inline, flexo printing and rotary die-cutting inline, rotogravure printing and folding-gluing inline of substrates, in particular sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packing manufacturing industry; industrial machinery for machine loading, infeed, multiple inserting, unwinding, splicing, positioning, conveying, stacking, and delivering of substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packaging manufacturing industry; industrial machinery for separating, delivering, rewinding, handling, packing and conveying out of machinery for printing and processing of substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic and tools for the aforesaid machines, equipment and devices for the packaging manufacturing industry, piles and reels of the aforesaid substrates, of converted, printed and folded-glued substrates, positioning motors for the aforesaid machines, equipment and devices; printing cylinder, rollers, flexible relief plates and printing plates, machines for preparing and processing of printing cylinders, rollers, flexible relief plates and printing plates, machines for mounting of printing flexible relief plates and plates on printing cylinders and tools for the aforesaid machines, equipment and devices, constituent pieces and spare parts for the aforesaid machines, equipment and devices, tools for the aforesaid machines, equipment and devices, for the packaging manufacturing industry

Class 09

(2) electronic apparatuses, instruments, devices, namely, computers, and software, for inputting, entering, recording, reproduction, storing, processing and transmitting of data in connection with checking, controlling, measuring, programming, adjusting, pre-setting, quality control, monitoring of production parameters, managing performances and stops, checking of register of printings, cuts, creases and embossing, measuring and adjusting the colour composition of printings, measuring and adjusting the ink supply, for preprint and postprint image analysing and processing, namely detectors, and digital cameras, for detecting, registering, and positioning, for machines, equipment and devices for processing and printing substrates, more particularly sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry, software for the aforesaid machines, equipment and devices

Class 16

(3) paper, cardboard and goods made from these materials, namely advertising cards; printed matter, namely, books, magazines, pamphlets, brochures, newspapers; printed instructional and teaching material, namely, books, pamphlets, brochures, in the field of the packaging manufacturing industry; catalogues, calendars; prospectuses, flyers, boxes of cardboard and paper, bags [envelopes, pouches] of paper and plastics, for packaging, manuals, magazines, newsletters, newspapers, periodicals, graphic drawings, posters

Services

Class 35

(1) retail sales services, by mail order, internet of machines, equipment and devices for processing and printing substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry; commercial analysis, namely, business management analysis, cost analyses, market analysis

Class 37

(2) customer assistance services, namely services for installation, cleaning, maintenance, mounting of spare parts for machines, equipment and devices for processing and printing substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic, for the packaging manufacturing industry

Class 41

(3) theoretical and practical instruction in operating machines, editing printed teaching materials in the field of the packaging manufacturing industry, publishing teaching materials, arranging and conducting of colloquiums, conferences, or congresses, for users of machines, equipment and devices, for processing and printing substrates, namely, sheets, plate elements, blanks, webs, films, of paper, cardboard, corrugated board, plastic for the packaging manufacturing industry

Colour Claim

Colour is claimed as a feature of the mark. The colors orange and black are claimed as a feature of the mark. The mark consists of the wording "BRITISH STEEL" in black color; to the left of the wording appears a design of an orange triangle with rounded corners above two parallel orange quadrilaterals with rounded corners oriented diagonally to the wording.

Goods

Class 01

(1) Chemicals for use in the production and treatment of metals; the aforesaid goods all manufactured in the United Kingdom

Class 06

(2) Common metals and their alloys; wrought and semi-wrought common metals; metal building materials, namely metal beams, girders, columns, joists, flooring, cladding, walls and roofing, sections, profiles, bulb flats, mesh, flooring, fasteners, screws, nails, bolts, pins, rivets, studs, and tie rods; noise reduction metal rails, metal conductor rails, heat treated metal rails, grooved metal rails, coated metal rails, metal rails for bridges and cranes; metal pipes for liquid and gas transfer, metal plating, metal strips, metal sheets, metal wire, metal cables, high tensile metal cables and metal tubes or extruded forms for general industrial and manufacturing use, metal sleeper plates, metal sleepers, metal fishplates for railway tracks, metal base plates and sections, metal pipes split horizontally into two sections which can be clamped together, used for building purposes, scaffolds, drill pipes and high pressure vessels, metal pipes that split from a singular channel into multiple channels used for building purposes, scaffolds, drill pipes and high pressure vessels;

brazing alloys; unwrought or semi-unwrought iron and steel products, namely shaft guides, sections, channels, angles, profiles, cathode bars, fences, gates, garden furniture, hand railing, ornamental ironwork, iron and steel sheets, strips, plates, bars, billets, rods, wires, train rails, train tracks, tracks of metal for rail vehicles, barrier railings and rail fastenings; machine components for the processing of metal, machine components for excavators, fork lift trucks, cranes, machines for drilling metal, rock and wood, concrete mixing machines and road paving machines, land motor vehicle components of semi-wrought iron or steel, being couplings, wheels, machine belts, pumps, motors, valves, brakes, screws, clamps, latches, universal joints, pins, levers, grips, handles, hinges, catches, rods, nuts, washers, bolts, springs and exhaust pipes; metallic moulds for metal casting, water-cooled copper moulds; cladding of metal for construction and building; metal lintels and roofing; metal rails; railway points and sleepers of metal; reinforcing materials of metal for building; reinforcing materials of metal for concrete; sheet piles and shutters of metal; shuttering of metal for concrete; metal hardware springs; and metal cans; the aforesaid goods all manufactured in the United Kingdom

Class 07

(3) Converters for production of metals, namely furnaces for making iron into steel and arc furnaces; electric welding apparatus, namely electric arc welding machines; converters for steelworks, namely furnaces and machinery for removal of impurities from metals by oxidation and furnaces into which liquid iron is added; crank shafts and cases; drill bits for rock drilling; filtering machines, namely machines that remove impurities and separate these from molten metal; handling machines namely, machines for handling metal rods, sheets and strips; metal drawing machines; pistons for cylinders; drill presses; steel presses; rolling mills and rolling mill cylinders; the aforesaid goods all manufactured in the United Kingdom

Class 09

(4) Measuring weighing, detecting and recording instruments and apparatus, namely thermometers, timers, weighing scales; computer operating programs and computer software in the field of engineering and in relation to steel production; computer peripheral devices, namely, computer display screens, computer mouse, computer monitors, computer scanners, computer printers, computer keyboards; distance measuring equipment, namely, laser distance measurers; face shields for industrial use; furnaces for laboratory experiments; flow meters, frequency meters, gas meters; photovoltaic cells and protection devices, namely circuit breakers for photovoltaic systems; apparel and equipment for personal use against accidents, namely helmets, heavy duty footwear and overalls; the aforesaid goods all manufactured in the United Kingdom

Class 16

(5) Printed matter, namely manuals, information pamphlets, brochures in the field of construction; printed publications in the field of construction; printed reports, not included in other classes; all in relation to the production, marketing, advertising and distribution of common metals and their alloys and education and consultancy services in respect of common metals and their alloys; the aforesaid goods all manufactured in the United Kingdom

Class 19

(6) Refractory materials, namely refractory linings for furnaces; non-metallic railway sleepers and foundry moulds; the aforesaid goods all manufactured in the United Kingdom

Services

Class 39

(1) Transportation of goods by road and rail, packaging of articles for transportation, and rental of storage containers, warehouse storage services, storage of metal goods; the aforesaid services all originating from the United Kingdom

Class 40

(2) Treatment of materials, namely metal casting, cutting, profiling, tempering and rolling of metals; metal casting, cutting, profiling and tempering; millwork services; coating and profiling of metal strip and sheet; the aforesaid services all originating from the United Kingdom

Class 09

(1) Computer hardware and computer software for medical purposes namely, for collecting, analyzing and reporting medical data and patient information to aid clinicians in treatment, therapy, and improving patient care, for cardio-pulmonary exercise testing, and for sleep diagnostics; Computer software for medical diagnosis, management and organization of medical patient data, medical workflow management, communication between patients and healthcare providers, storage and management of medical data; Computer software to monitor and process arterial oxygen saturation and adjust the level of inspired oxygen; online non-downloadable software for collecting, analyzing and reporting medical data and patient information to aid clinicians in treatment, therapy, and improving patient care; online non-downloadable software for cardio-pulmonary exercise testing; online non-downloadable software for sleep diagnostics; online non-downloadable software for medical diagnosis, management and organization of patient data, workflow management, communication between patients and healthcare providers, stored data processing and data management; online non-downloadable software to monitor and process arterial oxygen saturation and adjust the level of inspired oxygen; Cardio-pulmonary resuscitation mannequins

Class 10

(2) Medical apparatus and instruments for use in respiratory diagnostics and therapy, and component parts therefor; Medical apparatus and instruments for use in anesthesia delivery and in patient monitoring during anesthesia delivery, post-surgery, and during respiratory diagnostics and therapy and component parts therefor; Medical consumables for use in respiratory diagnostics and therapy, patient monitoring during anesthesia delivery, post-surgery, and during respiratory diagnostics and therapy, and anesthesia delivery namely cannulas, patient circuits, catheters, suction catheters, filters, for use in respiratory diagnostics and therapy, patient monitoring, and anesthesia delivery; Medical products for use in respiratory diagnostics and therapy, anesthesia delivery, and patient monitoring during anesthesia delivery, post-surgery, and during respiratory diagnostics and therapy, namely, respiratory sensors, sensors for monitoring oxygen and gas flow and pressure, and temperature sensors; Medical ventilators and parts and accessories therefor;

Control systems for medical ventilators comprising computer-controlled, electromechanical components for use in operating medical ventilators comprising primarily control panels, monitors, valves, transducers, vital signs sensors, gas composition and flow sensors and controls, temperature sensors and controls, pressure sensors and controls; Medical ventilators for pediatric and neonatal patients; Medical respirators and parts and accessories therefor; Nebulizers for respiratory therapy; Medical and veterinary apparatus for patient ventilation, artificial respiration, and resuscitation namely ventilators, masks, cannulas, automatic resuscitators, emergency hand resuscitators, manual resuscitators, nebulizers, suction catheters, suction machines, vacuum regulators, airway adapters, respiratory circuits, air/oxygen/gas blenders, oxygen sensors, oxygen analyzers, CO₂ monitors, spirometers, positive expiratory pressure (PEP) apparatus, positive airway pressure (PAP) apparatus, arterial blood gas samplers, tubing and connectors; Medical apparatus and instruments for monitoring oxymetry, gas analysis, vital signs, blood properties and respiratory events in medical and veterinary patients; component parts for use with medical and veterinary apparatus for patient monitoring, namely leads, cables connectors and conductors for connecting a patient to monitors, alarms, analyzer, displays, acquisition modules, recorders, transmitters and memories of and for physiological data; Fluid warmers for use in intravenous administration of medical fluids; medical spirometers; Plethysmographs; Humidifiers for medical use; Cardiopulmonary monitors for use in medical applications to monitor and display cardiopulmonary conditions of patients; Surgical drapes; Electrocardiographic electrodes; Tracheal catheters; Esophageal catheters; Airway adaptors for respiratory ventilation systems; Breathing apparatus for gas inhalation and nebulization, cardiopulmonary therapy, resuscitation and anesthesia and chemotherapy; Anesthesia breathing circuits namely tubing and masks for use in the assistance of facilitation of patient breathing and administration of anesthetics in medical applications; Medical exercise and cardiopulmonary function testing equipment namely ECGs, ergometers, metabolic carts, blood pressure monitors, pulse oximeters, pulmonary function systems, diagnostic devices for use in cardiopulmonary exercise testing, pulmonary function analysis, respiratory mechanics assessment, and nutritional assessment of human patients; anaesthesia and oxygen delivery apparatus and component parts therefor; Medical sensors for measuring and monitoring arterial oxygen saturation in a patient and automatically adjusting delivered oxygen; Gas sensors for detecting and measuring the concentration of nitric oxide, nitrogen dioxide, carbon monoxide, carbon dioxide, hydrogen and oxygen for medical purposes; Breathing apparatus for aiding, controlling and monitoring the respiration of infants; Respiratory masks for medical purposes; Breathing circuits namely, tubing, bags, filters, gas elbows, valves and masks for use in assisting and facilitating patient breathing, anesthesia delivery, and in medical applications; Portable respirators and air compressors; Automatic resuscitators; Emergency hand resuscitators; Manual resuscitators; Blood pressure cuffs; Pressure infusers for use with respiratory equipment; Laryngoscopes; Laryngoscope handles and blades; Anesthesia systems comprised of flexible hoses, breathing bags and a Y-elbow; Medical respiratory instruments, namely tracheotomy tubes, endotracheal adapters, intubation adapters, suction catheters and component parts therefor; Devices for precise mixing of compressed air and oxygen namely combination oxygen blenders and monitors and component parts therefor; Warming units for warming and humidifying medical gases namely gas conditioning equipment to warm or humidifying medical gas for use in respiratory applications; Medical oxygen tubing; Tongue positioning mouthpiece; Mouth filter for exhaled breath for medical use; Medical apparatus, namely, continuous positive airway pressure (CPAP) devices; Medical diagnostic instrument systems for evaluation of patient sleep respiratory disorders and other physical characteristics during sleep consisting of electronic receivers, sensors, data processors and data storage devices along with display screens to permit user interface and data display; Arterial blood gas sampling kits comprising needles, sheaths and clips; Respiratory gas blenders

Goods

Class 09

(1) Electrical signaling, measuring, counting, recording, monitoring, open and closed-loop control and switching devices, electrical devices for input, processing, transmission, storage and output of data namely digital signal processors, electrical signal attenuators, radio receivers and radio signal tuners, level measuring machines for surveying, electromagnetic measuring detectors, computer network hubs, switches and routers, ethernet switches, high-frequency switching power supplies, optical switches, power switches, electrical controllers for traffic lights, electrical power distribution blocks, electrical relays and transformers, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; data processing programs namely computer programs and software for image processing, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; airport docking systems, consisting of a laser scanner, lcd display modules, an operator control panel with programming and diagnostic capabilities, lcd screen, serial port, maintenance software and optional backup power supply, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; modems, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; optical data media namely pre-recorded optical discs featuring airport traffic safety data, optical data media, namely blank optical discs, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and

display systems; navigational instruments namely navigation apparatus for vehicles in the form of on-board computers, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; anemometers for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; temperature indicators namely sensors for determining temperature, temperature sensors and gauges, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; radiotelegraphy sets for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; transmitters of electronic signals, namely emergency signal transmitters, signal processors, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; satellite navigational apparatus namely car navigation computers, global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; blank optical discs, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems, pre-recorded optical discs featuring airport traffic safety data, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; downloadable electronic publications namely books, articles, periodic featuring airport traffic safety data, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; nautical apparatus and instruments, namely underwater housings for cameras; data processing equipment namely mouse, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; downloadable computer programs for processing air traffic control data, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; radar apparatus namely radar receivers and detectors, radar, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; computer hardware namely monitors, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; measuring instruments namely measuring tapes, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; electronic notice boards for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; mathematical instruments namely calculators for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; distance recording apparatus namely measuring tapes for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; measuring instruments in the nature of logs namely computer hardware and software for measuring flight patterns, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; integrated circuits namely chips for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; computer laptops for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; integrated circuits for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; blank floppy disks for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; interfaces boards and cards for computers for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; electric display apparatus namely computer monitors for airports and ground traffic systems namely luminous, mechanical

and digital traffic signs, lights, boards and display systems; electricity connectors for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; board computers and computers for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; simulators for the steering and control of vehicles for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; electrical connecting parts for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; data processing apparatus namely computers, computer hardware, for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; electrical apparatus for commutation namely commutators for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; processors namely central processing units for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; directional compasses for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; magnetic encoders namely electronic encryption units for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; data processing equipment namely optical scanners, airport security scanners, 3D scanners, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; mechanical signs for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; projection apparatus namely video projectors for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; observation instruments namely infrared detectors for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; computer programs for monitoring air traffic for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; testing apparatus not for medical purposes namely handled scanners for detecting airfield ground lighting components either based on GPS coordinates and tagged RFID tags, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; automatic steering apparatus namely electronic notice boards for vehicles for airports and ground traffic systems; mouse mats namely mousepads for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; blank magnetic data carriers namely blank magnetic discs and tapes, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; recorded computer programs for processing air traffic control data for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; computer peripheral devices namely computer display screens, computer keyboards, computer mice, computer printers, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; telecommunication transmitters namely radio receivers and transmitters, satellite transmitters, telephone transmitters, television transmitters, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; surveying apparatus and instruments namely fixed and mobile photometric measurement equipment namely sensors used to measure the photometric characteristics and performance of airport ground lights, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; apparatus namely telegraphs for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; meteorological instruments for airports and ground traffic systems namely luminous, mechanical and digital traffic

signs, lights, boards and display systems; pre-recorded audio-video compact discs featuring flight safety training for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; electric regulating apparatus namely voltage regulators for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; projection screens for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; data processing equipment namely readers namely optical character readers, optical disk readers, chip card readers, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; printed circuits for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; time recording apparatus namely chronographs for use as specialized time recording apparatus, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; speed indicators namely laser speed detectors, accelerometers, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; navigation apparatus for vehicles namely car navigation computers, directional compasses, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; electro-dynamic apparatus for the remote control of signals namely luminous, mechanical and digital traffic signs, lights, boards and display systems namely digital signage display panels, for airports and ground traffic systems; speed checking apparatus for vehicles namely radar detectors for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; blank smart cards namely blank cards with integrated circuits for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; luminous signs for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; microprocessors for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; mileage recorders for vehicles for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; computer programs for processing air traffic control data for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; pre-recorded CD-ROMS featuring airport traffic safety for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; memories for data processing equipment namely flash memory cards, memory boards, digital camera memory cards, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; recorded operating system programs for computers for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; computer hardware for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems

Class 11

(2) lamps namely street lamps for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems, and lighting fixtures for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; airport runway lighting

(3) Lamps namely street lamps for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems, lighting fixtures for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems, and distribution equipment therefore namely integrated light control and

monitoring systems for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems; airport runway lighting and monitoring system for the supervision and control of airport craft airport operation which is comprised of a light monitoring and switch unit, a sensor interface unit, a series circuit filter, a series circuit modem and an industrial personal computer, all aforesaid goods for airports and ground traffic systems namely luminous, mechanical and digital traffic signs, lights, boards and display systems

Colour Claim

Colour is claimed as a feature of the trade-mark. The trade-mark is a two-dimensional label containing the letters N and E and the word LIVE. The letter N is capitalized and brown in colour. The letter E is in uppercase and red in colour. The word LIVE is in lowercase and coloured in white on a red-coloured square background where the top-left and bottom-right corners are rounded. A maple leaf, coloured in white, is positioned above the letter I in the word LIVE, and three arcs, coloured in white, are positioned diagonally above the maple leaf.

Disclaimer

The right to the exclusive use of the eleven-point maple leaf is disclaimed apart from the trademark.

Colour Claim

Colour is claimed as a feature of the trademark. Black, grey and blue are claimed as features of the trademark. The mark consists of the words DELTADRONE, with DELTA in black and DRONE in grey, under which appears the words MINE CLOUD in blue. To the left of the words is a stylized cloud design composed of three clouds in different shades of blue. Each is shown on top of another, stacked in order of darkest to lightest starting from the back.

Goods

Class 09

(1) Computer software, namely computer operating system software, computer software for running development programs and application programs in a common development environment, computer software for assisting developers in creating program code for use in multiple application programs, computer-assisted design (CAD) software, computer operating programs, flight plan software; interfaces, namely network interface cards, computer interface cards; computer software for processing and transmitting data, documents, sounds and images, namely images and sounds collected by a drone, mission reports in the fields of mines, quarries and agriculture, via the Internet; database management software; data storage devices, namely blank CDs, blank DVDs, blank CD-ROMs, blank magnetic cards; apparatus for the recording, transmission, reproduction or processing of sound or images, namely audio amplifiers, signal amplifiers, radio antennas, satellite antennas, photographic cameras, cameras, projection screens, transceivers, computers, sound projectors, video projectors, video tape recorders, tape recorders, DVD players, CD players, computer screens, computer keyboards, printers, hi-fi sound systems, telephones, facsimile machines, televisions, radios, optical and sound amplifiers, MP3 players, microphones; observation instruments, namely cameras, radars, satellite positioning and guidance receivers,

directional compasses, compasses, barometers, electronic marine charts, electronic road maps, on-board computers for vehicle navigational assistance and geolocation, computer software for 3D mapping a site's surface; data processing equipment, namely image and word processing software, computers, printers, computer keyboards, computer screens, modems, facsimile machines, telephones, televisions, radios, computer software for creating and inserting meta tags into documents and information, data processing hardware; database and information storage apparatus, namely blank digital versatile discs (DVDs), blank USB keys, computers for use in data management, interface cards for data processing equipment in the form of integrated circuits.

Class 12

(2) Civilian drones, military drones, the aforementioned drones not being for the transport of passengers or goods.

Services

Class 38

(1) Data transmission and telecommunication services, namely transmission of emails; transmission of data, documents, sounds and images, namely images and sounds collected by a drone, mission reports, via the Internet, in the fields of mines, quarries and agriculture, through a dedicated, secure line; provision of user access to computer software and programs on data networks, namely provision of access to Internet platforms for sharing photographs taken by drones; provision of connections to electronic databases containing information related to mines, quarries and agriculture by means of telecommunications, namely via drone.

Class 42

(2) Software as a service (SaaS) in the field of customer relationship management; cloud computing, namely cloud computing providing database management software, cloud computing providing web hosting for video content, cloud computing providing photo sharing services; design, development and provision of access to drone operating software for accessing and using a cloud computing network; provision of computer programs on data networks, namely of computer software featuring information for the real-time monitoring of each stage of an air mission using drones, from creating the site to providing the deliverables to the client; server hosting; provision of cloud computing for data storage; design and development of computers and computer software; computer software development (design), installation, maintenance, updating and rental; computer programming; computer systems design; scientific and technological assessments and estimates provided by engineers, namely in relation to aeronautics, geology, geodesy, topography, hydrology, hydrogeology, agricultural and mining operations; scientific and technical research in the fields of aeronautics, geodesy, topography, computers, namely computer software for data transmission and processing.

Colour Claim

Colour is claimed as a feature of the trade-mark. The mark consists of four pink rectangles to form an asterisk shape. Each of the four rectangles intersect in their middle every 45 degrees. One rectangle is entirely horizontal, and another is entirely vertical. The other two lie at 45 degree angles. At every point of intersection, the pink color becomes darker, such that area where four rectangles intersect is darker shade of pink than the areas where only two rectangles intersect, and in turn the areas where two rectangles intersect are darker than areas of no intersection.

As provided by the Applicant, the English translation of 'OMBLIGO' in the mark is 'NAVEL'

Services

Class 36

(1) IT consultancy services, namely, providing fair market value estimates for used IT equipment for the purposes of asset tax calculations and resale consideration

Class 37

(2) Reconditioning and refurbishing of Information Technology (IT) equipment, namely, servers, switches, routers, desktop computers, laptop computers, mobile phones, and VoIP phones

Class 39

(3) Collection of Information Technology (IT) equipment for responsible recycling

Class 42

(4) Computer Services for data protection, namely, computer security service in the nature of hard drive erasure that protects computer data by removing all data and making it unrecoverable from personal and laptop computer systems and servers; IT Consulting Services, namely, computer security consultancy, computer network security services, computer diagnostic services, and helping clients make informed decisions about upgrading and replacing their IT hardware, namely, servers, switches, routers, desktop computers, laptop computers, mobile phones, and VoIP phones

Goods

Class 09

wire wrap screens for use as sand control devices in pipes in the oil, gas and energy industries; steam injection flow control joints for use in streamed distribution applications in the oil, gas and energy industries; inflow and outflow control joints for use in the streamed distribution applications in the oil, gas and energy industries; seamed slotted liner for use in wells in the oil, gas and energy industries; seamed slotted liner for sand control in wells manufactured according to specific reservoir sand distribution, to provide self-cleaning anti-plugging slot profiles which prevent pore throat and slot plugging; seamed slotted liner used in the oil, gas and energy industries to reduce slot plugging by providing anti-plugging mechanics to the surface of a previously slotted pipe; sand control devices for use in wells, namely seamed slotted liners; high performance slotted liner for use in wells; coated high performance slotted liner for use in wells in the oil, gas and energy industries; uncoated slotted liner for use in wells in the oil, gas and energy industries; high performance slotted liner in which machining ridges on the walls of the slot are minimized through high speed and low feed rate cutting; high performance slotted liner coated with a temperature, chemical and abrasion resistant coating resulting in a smooth slot surface and which results in minimized long term plugging as well as abrasion and temperature resistance; sand control devices for use in wells in the oil, gas and energy industries; sand control devices for thermal well completion in the oil, gas and energy industries

Services

Class 35

(1) operation of a business, namely the administration, management and coordination of enhanced oil recovery services; engineering services in the oil, gas and energy industries; commercialization of products, namely technology licensing, technology transfer services, licensing and assignment of intellectual property and know-how in the fields of oil, gas and energy;

Class 37

(2) providing sand control products namely, slotted liners and services in the oil, gas and energy industries; providing steam distribution products and services in the oil, gas and energy industries; providing manufacturing and machining services for sand control products in the oil, gas and

energy industries; sand control services in the fields of oil, gas and energy exploration and production; provision of slotted liner equipment to control sand in the in the oil, gas and energy industries; providing enhanced oil recovery services in the oil, gas and energy industries; building, construction and repair services in the oil, gas and energy industries, namely the construction, maintenance and repair of oil and gas wells and water wells; provision of slotted liners used to control sand in the oil, gas and energy industries;

Class 41

(3) educational and training services in the field of oil and gas engineering; educational services, namely conducting classes, seminars, conferences and workshops in the oil, gas and energy industries; providing information to third parties in the field of oil, gas and energy via a website;

Class 42

(4) oil and gas engineering services; oil and gas engineering services, namely mechanical engineering services, reservoir engineering services, geotechnical engineering services, petroleum engineering services, process engineering services, industrial engineering services, and field services; design, development, improvement, manufacturing, testing and implementation of new technology, products and processes for others in the oil, gas and energy industries; engineering design services provided to others in the oil, gas and energy industries; mechanical engineering services; oil and gas engineering design services provided to others; providing technical research services to others in the oil, gas and energy industries; development of new technology, products and processes primarily for use oil and gas drilling, well construction and sand control; research and development of new oil, gas and energy technology, products and processes for others; preparation of engineering reports and design drawings in the fields of oil, gas and energy; evaluation and assessment of new oil, gas and energy technology, products and processes in the oil, gas and energy industries; consultancy relating to reservoir engineering in the oil, gas and energy industries; providing production and manufacturing of specialized tools, namely sand control products for in situ downhole well completions, slotted liner, and well screens to third parties in the oil, gas and energy industries; providing maintenance and repair services, namely sand control products for in situ downhole well completions, slotted liner, and well screens to third parties in the oil, gas and energy industries; providing consulting services in the sand control industry; consulting in the field of well bore sand control; providing slot width modeling and testing services in the sand control industry; providing flow control testing services in the sand control industry; providing slot density testing and calculations in the sand control industry; providing sand control testing and analysis services with respect to finite elements and laser particle size; research and development services in the oil, gas and energy industries; sand control testing analysis and evaluation of tools and processes for in situ downhole well completions, slotted liner, and well screens to third parties in the oil, gas and energy industries; providing sand control design and review services, namely modeling of particle size distribution and flow testing services; providing sand control and core flow testing services in the oil, gas and energy industries; providing thermal technical design and review services, namely using simulation tools and models to analyze steam distribution; preparing and providing reports and recommendations for slot specifications required for effective sand control in the oil, gas and energy industries; developing slot width models in the oil, gas and energy industries; manufacture and design of slotted liners; reservoir engineering, consulting and testing services in the oil, gas and energy industries; manufacture and design of custom built tools for horizontal drilling; design and construction of custom horizontal completion tools; design, manufacture and installation of slotting equipment, namely slotted liner; steam distribution and sand control for enhanced oil recovery completion solutions within the oil, gas and energy industries; development of engineering models and programs designed to achieve optimal slot configuration and optimal steam distribution profiling in

oil, gas and energy industries; providing individualized sand control solutions to third parties based on semi-empirical modelling of particle size distribution and flow testing of the cores, calibrating proprietary models to accommodate for different types of sand that are specific to a particular reservoir; design, manufacturing testing and distribution of slotted liners

Visual Representation

The logo consists of the word 'explorer' in a blue, lowercase, sans-serif font. The letter 'l' is replaced by a vertical line that extends upwards and downwards. At the top of this line is a small circle, and at the bottom is a larger circle. Below 'explorer' is the word 'i air' in a light blue, lowercase, sans-serif font. The 'i' is positioned directly under the vertical line of 'explorer'.

Colour Claim

Colour is claimed as a feature of the trade-mark. The letters E; X; P; R; from the term 'explorer' are in blue. The term 'air' is in light blue. The vertical line used for the letter L in the term 'explorer' is in light blue. The letter O from the term 'explorer' and the bubble attached to it are in light blue, and the dot inside the letter O is in blue on a white background.

Goods

Class 07

(1) Engines, namely, engines for industrial machines, airplane engines, boat engines, engines for air cushion vehicles, jet engines; alternators for motor vehicles; generators for motor vehicles; three-phase generators for generating electrical energy in combustion and hybrid engines in land vehicles, boats, ships, aircrafts and stationary motors for industrial machinery and for electrical power generation; shut-off components for machines, namely electrical motors for automatically switching off and starting engines; systems for automatically switching off and starting of engines, namely electrical motors for automatically switching off and starting engines; electric generators for motors; drives for electric generators; starters for motors and engines and power generators

Class 09

(2) Apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely electric starter motors, electric generators, electrical machines and boost recuperation machines

Class 12

(3) Engines for land vehicles; motor vehicle engines; drive units for vehicles, namely electric drives for land vehicles and vessels in the form of boats and ships, aircrafts; electric motors for land vehicles and vessels in the form of boats and ships and aircrafts; gasoline and diesel engines for land vehicles and vessels in the forms of boats and ships; electric drives for vehicles; shut-off components for vehicles, namely electrical motors for automatically switching off and starting engines of land vehicles and vessels in the nature of boats and ships

Services

Class 35

(1) Wholesale, retail, mail order and online mail order services in the field of engines, namely, engines for industrial machines, airplane engines, boat engines, engines for air cushion vehicles, jet engines, alternators for motor vehicles, generators for motor vehicles, three-phase generators for generating electrical energy in combustion and hybrid engines in land vehicles, boats, ships, aircrafts and stationary motors for industrial machinery and for electrical power generation, shut-off components for machines, namely electrical motors for automatically switching off and starting engines, systems for automatically switching-off and starting of engines, namely electrical motors for automatically switching off and starting engines, electric generators for motors, drives for electric generators, starters for motors and engines and power generators, apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely electric starter motors, electric generators, electrical machines and boost recuperation machines, engines for land vehicles, motor vehicle engines, drive units for vehicles, namely electric drives for land vehicles and vessels in the form of boats and ships, aircrafts, electric motors for land vehicles and vessels in the form of boats and ships and aircrafts, gasoline and diesel engines for land vehicles and vessels in the forms of boats and ships, shut-off components for vehicles, namely electrical motors for automatically switching off and starting engines of land vehicles and vessels in the nature of boats and ships

Class 37

(2) Installation, maintenance, servicing and repair of engines, namely, engines for industrial machines, airplane engines, boat engines, engines for air cushion vehicles, jet engines, alternators for motor vehicles, generators for motor vehicles, three-phase generators for generating electrical energy in combustion and hybrid engines in land vehicles, boats, ships, aircrafts and stationary motors for industrial machinery and for electrical power generation, shut-off components for machines, namely electrical motors for automatically switching off and starting engines, systems for automatically switching-off and starting of engines, namely electrical motors for automatically switching off and starting engines, electric generators for motors, drives for electric generators, starters for motors and engines and power generators, apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely electric starter motors, electric generators, electrical machines and boost recuperation machines, engines for land vehicles, motor vehicle engines, drive units for vehicles, namely electric drives for land vehicles and vessels in the form of boats and ships, aircrafts, electric motors for land vehicles and vessels in the form of boats and ships and aircrafts, gasoline and diesel engines for land vehicles and vessels in the forms of boats and ships, electric drives for vehicles, shut-off components for vehicles, namely electrical motors for automatically switching off and starting engines of land vehicles and vessels in the nature of boats and ships; consultancy and provision of information on the installation, maintenance, servicing and repair of engines, namely, engines for industrial machines, airplane engines, boat engines, engines for air cushion vehicles, jet engines, alternators for motor vehicles, generators for motor vehicles, three-phase generators for generating electrical energy in combustion and hybrid engines in land vehicles, boats, ships, aircrafts and stationary

motors for industrial machinery and for electrical power generation, shut-off components for machines, namely electrical motors for automatically switching off and starting engines, systems for automatically switching-off and starting of engines, namely electrical motors for automatically switching off and starting engines (start/stop systems), electric generators sets for motors, drives for electric generators, electric drives for machines, starters for motors and engines and power generators, starters for machines and power generators, apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely electric starter motors, electric generators, electrical machines and boost recuperation machines apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, apparatus and equipment for recuperation and conversion of energy, engines for land vehicles, motor vehicle engines, drive units for vehicles, namely electric drives for land vehicles and vessels in the form of boats and ships, aircrafts, starters for vehicles, electric motors for land vehicles and vessels in the form of boats and ships and aircrafts vehicles, gasoline and diesel engines for land vehicles and vessels in the forms of boats and ships vehicles, electric drives for vehicles, shut-off components for vehicles, namely electrical motors for automatically switching off and starting engines of land vehicles and vessels in the nature of boats and ships

Class 42

(3) Scientific and technological services, namely, scientific research and design in the field of engines, namely, engines for industrial machines, airplane engines, boat engines, engines for air cushion vehicles, jet engines, alternators for motor vehicles, generators for motor vehicles, three-phase generators for generating electrical energy in combustion and hybrid engines in land vehicles, boats, ships, aircrafts and stationary motors for industrial machinery and for electrical power generation, shut-off components for machines, namely electrical motors for automatically switching off and starting engines, systems for automatically switching-off and starting of engines, namely electrical motors for automatically switching off and starting engines, electric generators for motors, drives for electric generators, starters for motors and engines and power generators, apparatus and instruments for conducting, switching, transforming, storing, regulating and controlling electricity, namely electric starter motors, electric generators, electrical machines and boost recuperation machines, engines for land vehicles, motor vehicle engines, drive units for vehicles, namely electric drives for land vehicles and vessels in the form of boats and ships, aircrafts, electric motors for land vehicles and vessels in the form of boats and ships and aircrafts, gasoline and diesel engines for land vehicles and vessels in the forms of boats and ships, electric drives for vehicles, shut-off components for vehicles, namely electrical motors for automatically switching off and starting engines of land vehicles and vessels in the nature of boats and ships; industrial analysis and research services, namely, testing, analysis, and evaluation of goods of others, namely, automotive parts to assure compliance with industry standards; technological consultancy in the field of automotive components; conducting technical tests, namely, product validation tests in the field of automotive parts; conducting industrial tests, namely, product quality tests in the field of automotive parts; conducting technical feasibility studies
