Trade-marks Journal

Vol. 66 No. 3366

General Information

The *Trade-marks Journal* is published every week in compliance with [Rule 15 of the Trade-marks Regulations](#). The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see [section 38 of the *Trade-marks Act*](#) for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(2) Light emitting diode (LED) and ultraviolet light for lighting, incorporated into medical instruments; phototherapeutic apparatus for medical purposes, namely, a LED (light-emitting diode) light source for medical and aesthetic skin treatments; ultraviolet light for medical purposes

Class 11

(3) Installations, apparatus and instruments for lighting, heating, steam generating, cooking, refrigerating, freezing, drying, ventilating, water supply, water treatment and sanitary purposes, namely, street lamps, neon lamps, discharge lamps and their fittings, incandescent lamps and their fittings, LED lamps, mercury lamps, aquarium lamps, spotlights, arc lamps, infrared lamp, flashlights, floodlights, fluorescent lamps, pocket search lamps, lamp shades, electric lamps, lamp armatures, lighting fixtures; retrofit light bulbs; bike lights; electric lamps; humidifying and dehumidifying installations, apparatus and instruments, namely, humidifiers and dehumidifiers; apparatus and instruments for air conditioning, namely, air conditioners, evaporative air coolers and room air cleaning units, air cleaners, air filters for air conditioning units, air purifying units and humidifiers; apparatus for lighting, namely, electric lamps, lighting fixtures and lighting installations, namely lighting tracks and tubes; lighting fixtures, components of lighting fixtures, namely, electric lighting fixtures; LED light bulbs; flashlights; lights for electric signs; electric lighting fixtures; lighting fixtures fitted with LED light-emitting diodes (LEDs) and parts and fittings thereof; automotive lighting and headlights; lighting fixtures for use in display, automotive, commercial, industrial, residential, and architectural accent lighting applications; ultraviolet lamps that simulate daylight; ultraviolet ray lamps that simulate daylight; ultraviolet light emitting diodes (LEDs) and

ultraviolet lamps not for medical purposes, namely, for use in disinfection of water, surfaces, air and food and curing food; ultraviolet light for industrial lighting fixtures used in agriculture, laboratory research, biotechnology, medicine, food curing, water and air environmental protection, sanitation and sterilization

Class 16

(4) Paper; cardboard; printed matter, namely, paper signs, books, curricula, newsletters, informational cards and brochures in the field of information for or relating to driver assistance, driver safety, LEDs, lighting installations and light diagnostics; newspapers, periodicals, books, catalogues, brochures, folders, posters, diaries, newsletters, printed publications and magazines in the field of driver assistance, driver safety, LEDs, lighting installations and light diagnostics; bookbinding material; photographs; stationery, namely, writing paper; pencils; pens; plastic bags and film for packaging; adhesives materials for stationery and household purposes; artists' materials, namely, paint brushes; typewriters and office requisites, except furniture, namely stationery agendas, stationery binders, stationery labels, pens, rulers, compasses, scissors, paper cutters, glue sticks, notepapers, ink, correcting fluids, checkbooks, passport holders, clips, writing board, stapler, paper hole punches, staple removers, paper cutter, jackets for papers, writing cases, pen container; letter openers; instructional and teaching material, namely manuals to facilitate the operation of the aforesaid goods

SERVICES

Class 35

(1) Retail services regarding lighting systems, displays and lamps and LEDS for industrial, household, medical and automotive use, audio-visual equipment, monitoring apparatus and recording apparatus for driver assistance and driver safety, air conditioning and purifying apparatus, business management, business administration

Class 37

(2) Building construction; repair and installation services regarding lighting systems, displays and lamps and LEDS for industrial, household, medical and automotive use, audio-visual equipment, monitoring apparatus and recording apparatus for driver assistance and driver safety, air conditioning and purifying apparatus

Class 42

(3) Scientific and technological services, namely, research and design in the field of driver assistance, driver safety, LEDs, lamps, lighting installations and light diagnostics; industrial analysis and research services in the fields of lamps, batteries, magnets, CDs and DVDs, display tubes, lenses, PolyLEDs, LCDs, substrate coatings, glass, ceramics, polymers, solvents, building exterior surfaces, chemical gases, clean room air units, and research services in the field of mechanical, electronic and non-electronic microsystems and nanotechnology, and electrical and computer engineering know-how providing computer system integration and turn-key solutions in the fields of lamps, batteries, magnets, CDs and DVDs, display tubes, lenses, PolyLEDs, LCDs, substrate coatings, glass, ceramics, polymers, solvents, building exterior surfaces, chemical gases and clean room air units, industrial analysis and research services namely, research in the field of environmental protection, industrial research services in the field of medical equipment, aeronautics, design and development of computer hardware and software; design and development of computer hardware and software; online technological consulting services for computers and mobile devices and providing mobile software that enables users of computers and

mobile devices to share information and images in the field of driver assistance, driver safety, LEDs, lighting installations and light diagnostics, to form virtual communities, to engage in social networking, to monitor babies and infants

Goods

Class 01

(1) chemical additives for use in the chemical industry, namely, the manufacture of food, fertilizers.

Class 06

(2) pressure vessels

Class 07

(3) machines and machine tools, namely, filter machines for production and processing of fertilizers, urea, urea derivatives and industrial chemicals, separating machines for the chemical industry, namely, gas separators, liquid separators and solid separators, centrifuges, coating machines for applying chemical coatings to commercial products and packaging, waste processing machines, namely, waste compacting and recycling crushing machines, machines for the production of materials, namely, machines for the processing of raw materials for extracting urea and industrial chemicals; machine tools, tools and parts thereof, namely, filters and filter components for use in the production of fertilizers, urea, urea derivatives and industrial chemical; ejectors, namely, chemical process ejectors and industrial process ejectors, namely, pumps and compressors as parts of chemical and industrial process lines, pumps and compressors for the chemical industry and industrial processing industry, kinetic energy pumps and compressors used

in chemical and industrial processes; granulators, namely, granulators in the nature of granulating machines used in the chemical and industrial processing; gas compressors, vacuum pumps, gas turbine engines for generators, turbine generators, processors for rubber, namely, rubber forming and rubber mixing machines, plastic processors, pelletizers, mixers, extrusion machines for plastic, injection molding machines, industrial robots for handling material, pelletizing industrial robots, processing equipment for solid waste, namely, waste compacting machines, waste crushing machines and waste processing machines, all aforesaid goods for use in the chemical industry, specifically excluding valves for use in supplying purified water and chemical during the manufacturing process of semiconductor materials, chemical and medicinal products and pneumatic and hydraulic pumps and valves for use in supplying purified water and chemicals during the manufacturing process of semiconductor materials, chemicals and medicinal products

Class 09

(4) software, namely, software for control, optimization, analysis, and monitoring of machines in chemical plants.

Class 11

(5) apparatus for heating, steam generating, cooking, refrigerating, drying, ventilating and water supply and sanitary purposes for use in the chemical industry, namely, heating systems composed of shell and tube heat exchangers and plate-type heat exchangers and separators for the cleaning and purification of gases and liquids, steam generating installations, refrigerators, cookers, namely, industrial cooking ovens, industrial boilers, dryers for fertilizers and urea, ventilators for chemical processes and industrial processes; chemical reactors, namely, chemical reactors for heating and cooling; gas scrubbers; air scrubbers; anti-splash tap nozzles; chemical evaporators for chemical processing; parts of the aforementioned goods, namely, filters and filter components for: apparatus for heating, steam generating, cooking, refrigerating, drying, ventilating and water supply and sanitary purposes for use in the chemical industry, namely, heating systems composed of shell and tube heat exchangers and plate-type heat exchangers and separators for the cleaning and purification of gases and liquids, steam generating installations, refrigerators, cookers, namely, industrial cooking ovens, industrial boilers, dryers for fertilizers and urea, ventilators for chemical processes and industrial processes, chemical reactors, namely, chemical reactors for heating and cooling, gas scrubbers, air scrubbers, and anti-splash tap nozzles, all for use in the chemical industry; condensing installations, namely, pool condensers; heat exchangers

SERVICES**Class 35**

(1) business organization advisory services in the field of setting up of chemical plants; advice on business organization and business economics in the field of chemical plants and installations; managing business conference centers for others; business data analysis for business operations of chemical plants and installations and business advisory services in the field of collecting, processing and editing of data for the chemical industry, namely: collecting, processing and editing of business, economic and technical data for the chemical industry; business management advice services relating to the management of databases, updating and maintenance of databases and processing of business, economic and technical data for the benefit of the chemical industry

Class 39

(2) physical storage of electronically-stored business, economic and technical data for the chemical industry

Class 41

(3) providing technical training and courses in the field of chemical plants management

Class 42

(4) supervision of building work in the field of the construction of chemical plants and installations; technological advice and information in the field of engineering featuring construction of chemical plants; the technical evaluation of chemical plants and installations, parts thereof and control systems therefor; technical planning and advisory services relating to the design of chemical plants; engineering services related to the technical operation of chemical plants and installations and advisory services related thereto; technical advisory services for the automation of chemical plants; simulation of chemical, physical processes for the purpose of optimization of the engineering design of chemical plants, and the design of equipment systems for these simulations namely the design of computer hardware and software for the simulation of chemical, physical processes for the purpose of optimization of the engineering design of chemical plants; development of software for the chemical industry and the processing industry and for the simulation of processes for the benefit of education and industry; analysis of business, economic and technical data for the technical business operations of chemical plants; electronic storage of business, economic and technical data for the chemical industry; technical advisory services and maintenance of software for the chemical industry; technical development of software and databases for the chemical industry; updating and maintenance of software for the chemical industry and advisory services related hereto

Class 45

(5) licensing of industrial property rights in particular in the field of chemical plants

Trademark Description

The trademark consists of the colour black as applied to the whole of the visible surface of the particular bottle as shown in the drawing and the colour red as applied to the top visible surface of the particular cork as shown in the drawing delineated in grey shading. The trademark also consists of a two-dimensional label as applied to the middle of the bottle as shown in the drawing. The words TIA MARIA are shown horizontally across the top of the label. Above the words TIA MARIA is a stylized crown with two small friezes. The words DARK LIQUEUR appear beneath the words TIA MARIA. A decorative coat of arms consisting of a gold shield with a red cross containing six gold dots appears in the lower portion of the label. The shield is partially framed in a collection of leaves. A banner appears below the shield and leaves and contains the inscription "CARIBBEAN XVII RECIPE". The word SINCE appears to the left of the decorative coat of arms and the number 1947 appears to the right of the decorative coat of arms. The three-dimensional bottle in dotted outline does not form part of the mark only insofar as it applies to the two-dimensional label.

Colour Claim

Colour is claimed as a feature of the trademark. The colours black, red, white and gold are claimed as a feature of the trademark only insofar as they appear on the two dimensional label. In particular, the two dimensional label consists of the colours black and red. The upper portion of the label is shown in black. The lower left portion of the label consists of a partial rectangle shown in red and a triangle shown in red with black horizontal stripes. The upper black portion of the label

contains the words TIA MARIA in white. Above the words TIA MARIA is a stylized crown and two small friezes shown in gold. The words DARK LIQUEUR appear beneath the words TIA MARIA in gold. The decorative coat of arms is shown in gold and red with the word SINCE in gold on the left and the number 1947 in gold on the right. A single gold band appears at the bottom of the label.
