Trade-marks Journal

2019-04-03 — Vol. 66 No. 3362

Trade-marks Journal

Vol. 66 No. 3362

General Information

The *Trade-marks Journal* is published every week in compliance with [Rule 15 of the Trade-marks Regulations](#). The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see [section 38 of the *Trade-marks Act*](#) for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Sound Mark

[Listen to sound file](#)

Trademark Description

The mark is a sound. The mark is in the key of G-major, and begins with a synthesized bell sound playing a D4 dotted quarter note, followed by a D5 eighth note that is tied to a D5 quarter note, then an E5 quarter note that is tied to an E5 eighth note, and finally a B4 quarter note. The synthesized bell is played in a staccato manner. As the sound begins, synthesized strings playing a G5 chord slowly fade in, and last the duration. A snap sound occurs at the same moment the final B4 quarter note is played, and is preceded by the sound of a short reverse echo of the snap.

SERVICES

Class 38

Communication services, namely, providing telephone communication and internet telephony services; providing telephone communication services that provide a group of specialized telephone services with custom calling features and telephone calling plans; electronic voice messaging, namely, the recording and subsequent transmission of voice messages by telephone; providing multiple user dial-up, high-speed and dedicated access to the internet; electronic transmission in the nature of telephone communication, namely mobile telephony, video telephony, internet telephony and telephone messaging services via telephones, cellular telephones, document data transfer and the global computer network of messages, data, images, voice, video-on-demand and streaming of audio and video via such telephones, cellular telephones, document

data transfer and global computer network featuring music, business, entertainment, sports, communication, legal, weather, news, vehicles, property ownership, politics, lifestyle, and celebrities; streaming and transmission of wireless communication of voice, voice messaging, wireless voicemail and wireless communication data, all in the nature of telephone communication of internet telephony and of wireless digital messaging services; high-speed access services and wireless access services to the internet; transmission of television broadcast signals and programs services over the Internet; communication services, namely providing mobile telephony and internet telephony by providing voice and data networking services, digital and analog networking and private and secure electronic communication over a private or public computer network, all for the transmission of voice and data; teleconferencing, videoconferencing and web conferencing services; cellular and mobile telephone communication services; telephone communication consultation services, namely consulting in the field of the use of telephone communication and communications networks; voice over internet protocol (VOIP) services; telephone communication consultation services in the field of data, voice and video communication networks.

CLAIMS

CIRCUIT-TEST

Goods

(1) Electronic instruments and components, namely, cooling fans and cooling fan accessories for computers and electronics listed herein namely internal cooling fans, cooling fan filter kits composed primarily of filters and cooling fan guard grills;

(2) Electronic instruments and components, namely, educational kits, power supplies and adapters, prototyping products audio/video accessories, electronic components and parts, tools and soldering products and wire and cable management products, electrical products, computer accessories and data networking products, rack equipment and security and automation products, namely, (i) soldering equipment and accessories, namely, hard and soft solder and metal tool cases boxes, (ii) power tools and soldering equipment and accessories, namely, electric soldering irons, electric soldering apparatus, soldering kits composed primarily of electric soldering irons, electric soldering apparatus, metal working screwdrivers, cutters, pliers and crimpers, tool cases for electric soldering irons, metal working screwdrivers, cutters, pliers and crimpers, electric soldering apparatus consisting of desoldering stations and soldering equipment and accessories, namely, magnifying lamps, (iii) electrical products, namely, electric jacks, power transformers and travel converters, namely, adapter plugs, voltage converters and radio frequency generators for supplying radio-frequency energy, (iv) power supplies namely electrical power adapters, battery chargers for electrical equipment and electronics listed herein, electrical bench power supplies for work benches, electric converters, high-frequency switching power supplies and sinewave inverters for power supply, (v) prototyping supplements products, namely, optical breadboard wiring kits consisting of solderable breadboards, solderless breadboards, printed circuit boards, jumpers cables and jumper wires, (vi) audio and video accessories, namely, audio mixers, switch boxes, mobile phone connectors for vehicles, electrical and power cables, cable connectors and electrical power connectors and electrical power adapters for electronics, cables and network adapters for computers, audio and video cables, FM radio transmitters, high definition multimedia interface electrical and power cables, electrical signal splitters for electronic apparatus and electronic switches for audio and video signals (vii) wire and cable management supplies, namely, electric cables on a roll [electric] and ducting for electric cables, (viii) electrical products, namely, power cables, fuse clips and panel-mounted fuse holders for use with electronic glass and ceramic fuses and cables, (ix) data networking products, namely, data processing couplers, electric networking cables, patch panels for housing electrical connectors and electrical switches, surface mounts specially adapted for electrical receptacles, modular electrical plugs, telephone connectors, auxiliary telephone cables, telephone power adapters, wall plate mounting, namely,

surface mount junction boxes, electrical outlet wall plates, and electric connector inserts, namely, binding posts namely a connector consisting of a threaded screw to which bare wires are attached and held in place by a nut, blank inserts for wall plates, high definition multimedia interface feedthru inserts, fibre optic feedthru inserts, audio and video signal feedthru inserts, data processing couplers, USB feedthru inserts, punchdown jacks and self-crimping jacks, (x) rack equipment, namely, computer chassis boxes, patch panels for housing electrical connectors and electrical switches, and wall mounts specially adapted for patch panels for housing electrical connectors and electrical switches and (xi) security and automation equipment, namely, extension cables, electronic warning lights, electrical power switches, sirens, electrical power supplies for security systems and electrical power security automation equipment and alarm panels, all of the foregoing goods exclude electronic fitness devices and testing instruments and components specifically for circuits;

SERVICES

(1) Distribution of electronic instruments and components, namely, distribution of electronic instruments and components, namely, cooling fans and cooling fan accessories for computers and electronics listed herein namely internal cooling fans, cooling fan filter kits composed primarily of filters and cooling fan guard grills;

(2) Distribution of electronic instruments and components, namely, distribution of educational kits, power supplies and adapters, prototyping products audio/video accessories, electronic components and parts, tools and soldering products and wire and cable management products, electrical products, computer accessories and data networking products, rack equipment and security and automation products, namely, (i) soldering equipment and accessories, namely, hard and soft solder and metal tool cases boxes, (ii) power tools and soldering equipment and accessories, namely, electric soldering irons, electric soldering apparatus, soldering kits composed primarily of electric soldering irons, electric soldering apparatus, metal working screwdrivers, cutters, pliers and crimpers, tool cases for electric soldering irons, metal working screwdrivers, cutters, pliers and crimpers, electric soldering apparatus consisting of desoldering stations and soldering equipment and accessories, namely, magnifying lamps, (iii) electrical products, namely, electric jacks, power transformers and travel converters, namely, adapter plugs, voltage converters and radio frequency generators for supplying radio-frequency energy, (iv) power supplies namely electrical power adapters, battery chargers for electrical equipment and electronics listed herein, electrical bench power supplies for work benches, electric converters, high-frequency switching power supplies and sinewave inverters for power supply, (v) prototyping supplements products, namely, optical breadboard wiring kits consisting of solderable breadboards, solderless breadboards, printed circuit boards, jumpers cables and jumper wires, (vi) audio and video accessories, namely, audio mixers, switch boxes, mobile phone connectors for vehicles, electrical and power cables, cable connectors and electrical power connectors and electrical power adapters for electronics, cables and network adapters for computers, audio and video cables, FM radio transmitters, high definition multimedia interface electrical and power cables, electrical signal splitters for electronic apparatus and electronic switches for audio and video signals (vii) wire and cable management supplies, namely, electric cables on a roll [electric] and ducting for electric cables, (viii) electrical products, namely, power cables, fuse clips and panel-mounted fuse holders for use with electronic glass and ceramic fuses and cables, (ix) data networking products, namely, data processing couplers, electric networking cables, patch panels for housing electrical connectors and electrical switches, surface mounts specially adapted for electrical receptacles, modular electrical plugs, telephone connectors, auxiliary telephone cables, telephone power adapters, wall plate mounting, namely, surface mount junction boxes, electrical outlet wall plates,

and electric connector inserts, namely, binding posts namely a connector consisting of a threaded screw to which bare wires are attached and held in place by a nut, blank inserts for wall plates, high definition multimedia interface feedthru inserts, fibre optic feedthru inserts, audio and video signal feedthru inserts, data processing couplers, USB feedthru inserts, punchdown jacks and self-crimping jacks, (x) rack equipment, namely, computer chassis boxes, patch panels for housing electrical connectors and electrical switches, and wall mounts specially adapted for patch panels for housing electrical connectors and electrical switches and (xi) security and automation equipment, namely, extension cables, electronic warning lights, electrical power switches, sirens, electrical power supplies for security systems and electrical power security automation equipment, alarm panels all of the foregoing services exclude electronic fitness devices and testing instruments and components specifically for circuits;

Colour Claim

Colour is claimed as a feature of the trademark. The CMYK colour chart colours are claimed as such: C60, M0, Y100, and K0.

Goods

(1) Mail processing machines, namely folding machines, inserting machines, spare parts and components thereof; letter sorting machines; bursters, namely paper processing machines for automatically separating computer documents on a continuous roll of paper; extractors, namely machines intended to open letters and automatically extract their contents.

(2) Postal scales, postage machines, bar code readers; recorded computer software for managing mailings, namely letters, dispatches, newspapers and parcels, applying postage and processing all corresponding documents; electronic apparatus and devices, namely computers and computer peripherals, namely printers, scanners, computer keyboards, computer mice, computer screens, portable telephones and tablets, used to generate, calculate, check, capture, store, convert, treat, collect, transmit, transfer or receive data, information, signals or messages regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods; countertop equipment for postage applications, namely postage monitoring apparatus specially designed to be placed on counters; electronic apparatus used to

check postage, namely the payment and recording of fees for postal and private shipping services, for letters and parcels, namely by means of remote control and downloading, via the Internet and intranet networks; electronic prepayment kiosks for applying postage to letters and parcels sent through private postal services and private carriers; computer software for the electronic processing of data used in the sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods in transit for delivery; electric apparatus, namely automatic mail and parcel dispensers; database management software; computer software for synchronizing data between portable computers and host computers and computer software for synchronizing data between handheld computers and host computers; operating system software; telecommunications software for the electronic transmission of documents and the transmission of facsimiles; computer software and apparatus for telecommunications, namely modems for connecting to computer networks, databases, global computer networks and the Internet; computer software for automating and managing operational processes for the sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods in transit for delivery; computer software for faxing, emailing, voice messaging, and Internet messaging; computer software for commercial use for the sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods in transit for delivery; computer hardware, namely computers, computer disc changers, computer peripherals, namely computer keyboards, computer interfaces, computer drives, namely bar code readers, QR code scanners, memory card readers, USB card readers, smart card readers, DVD players, optical disc players and computer mice; handheld computers; portable computers; downloadable computer software for the sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods in transit for delivery; image processing software and programs for portable telephones; downloadable electronic publications, namely brochures, electronic newsletters, magazines, books, newspapers and calendars, available online through databases and the Internet; pre-recorded computer data carriers, namely pre-recorded compact discs containing information and data regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods, pre-recorded laser discs containing information and data regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods, pre-recorded magnetic discs containing information and data regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods, pre-recorded digital discs containing information and data regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods, pre-recorded optical discs containing information and data regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods, pre-recorded floppy discs containing information and data regarding the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods; optical and magnetic data carriers, namely blank compact discs, hard drives, blank laser discs, blank magnetic discs, blank digital versatile discs, blank optical discs, blank floppy discs, memory cards and flash memory expansion modules; computer software platforms for the postage, sorting, tracing, tracking, location, shipping, transport, forwarding, storage, delivery and distribution of mail, parcels and goods; downloadable computer software for providing and monitoring information regarding the distribution and delivery of mail, parcels and goods, prepayment apparatus, namely electronic prepayment kiosks for applying postage to letters and parcels sent through private postal services and private carriers.

(3) Equipment, apparatus, and devices for processing mail, namely postage meters, postage bases and heads, spare parts and components for postage meters, letter openers, postal

machines for post offices, namely distribution machines for postal applications, countertop equipment for postage applications, namely postage meters specially designed to be placed on counters; letter sorting machines, addressing and bar-coding equipment for mail applications, namely addressing and encoding machines; print matter, namely brochures, magazines, books, newspapers, calendars and posters; envelopes; non-fabric labels; wrapping paper; address plates; address stamps; sealing machines for the office; manuals; booklets; bags, namely envelopes and pouches made of paper or plastics for packaging.

(4) Furniture, namely office furniture specially adapted for holding mail processing equipment, apparatus and devices.

SERVICES

(1) Computer-assisted postage services, mail postage services via the Internet, selection and processing of individual and business addresses via computer networks, assistance and consulting services in the field of mail management, business management assistance and consulting services in the fields of logistics, transport and the forwarding of goods, parcels and letters; document reproduction services; development of statistics; assistance to businesses in the optimization of parcel and mail shipping rates and in the management of their expenses, said services available online; computer file management; collection of data in a central file, namely analysis, gathering, systematization, management, processing and storage of computerized data in a central file, said services available online; assistance provided to companies in the management of their cover and parcel shipping, said services available online; administrative organization for the transport, delivery, distribution, sorting, forwarding and storage of goods and parcels; retail and wholesale of postal scales, postage monitoring apparatus, bar code readers, computer software, machines for processing mail (folding machines, inserters), machines for sorting letters, envelopes, wrapping paper, bags (envelopes, pouches) made of paper or plastics for packaging.

(2) Financial services, namely financial management, financial account management services for the remote postage of letters and parcels; postal credit recharging services; services for processing letter and package postage fee transfers and withdrawals; rental of equipment, machines, apparatus and devices in relation to the processing, transport and delivery of mail; rental of plants, workshops, offices and rooms for the processing, transport and delivery of mail; financial portfolio management services, namely management of financial assets (securities, stocks, bonds), real estate management services; provision for others of personnel to perform mail processing operations; customs brokerage.

(3) Installation, maintenance and repair services for all machinery, equipment, apparatus and devices related to mail processing.

(4) Telecommunication services, namely transmission of electronic messages, data and information related to the processing, logistics and transport of goods, parcels and mail via satellite, wireless telephony, telephone lines, cable networks, cellular telephony, wide area network and facsimile, telecommunication services via computer network, namely transmission of electronic messages, data and information related to the processing, logistics and transport of goods, parcels and mail by means of computer networks, services for providing access to computer telecommunications networks, namely communication services by means of computers linked to a global telematic network (the Internet) and a private- and reserved-access network (intranet), provision of means of accessing a server for services in the fields of the processing, logistics and transport of goods, parcels and mail; communication through computer terminals, namely communication through computers linked to a global telematic network (the Internet) and a private- or reserved-access network (intranet), services for providing means of accessing a server

for services in the fields of the sorting, tracing, tracking, location, shipping, forwarding, storage, delivery and transport of goods, parcels and mail; services for electronic mail, electronic messaging and the transmission of information regarding the processing, logistics and transport of goods, parcels and mail by electronic means, namely through global telecommunication networks (the Internet), private-access telecommunications networks and reserved telecommunications networks (intranet); transmission of information related to the processing, logistics and transport of goods, parcels and mail, via satellite, wireless telephony, telephone lines, cable networks, cellular telephony, wide area network, facsimile and by access code to computer databases and computer and telematic database server centres; transmission and emission of electronic data related to the processing, logistics and transport of goods, parcels and mail, of sounds, images and signals via satellite, wireless telephony, telephone lines, cable networks, cellular telephony, wide area network, facsimile and the Internet; supply, namely transmission of information regarding the transport of letters and parcels via satellite, wireless telephony, telephone lines, cable networks, cellular telephony, wide area network, facsimile and the Internet.

(5) Transport, delivery, distribution and forwarding of goods, mail and parcels by air, by land and by water; packaging and storage of goods, mail and parcels; organization of the transport of goods, parcels and mail by air, by land and by water; charter services, namely aircraft chartering; leasing services and chartering services for vehicles, namely chartering of cars; chartering of storage bins; air chartering services, chartering of ships and buses; rental of transportation vehicles; sorting and storage of goods, mail and parcels; services involving the delivery, namely by air, by land and by water, to the addressee, an outlet or intermediary point of mailing, following receipt of an order, computerized or not, for the benefit of the suppliers of goods and of their customers, of individuals and communities, in particular through the Internet, via satellite, wireless telephony, telephone lines, cable networks, cellular telephony, wide area network and facsimile; information related to the transport of goods, parcels and mail; storage of electronically stored documents or data carriers; freight and transport brokerage; assistance to businesses in the management of their cover and parcel shipping services, such services available online; rental with or without agreement to sell all equipment, machines, apparatus and devices related to the treatment, transport and delivery of mail, namely folding machines, inserters, letter sorting machines, bursters, namely paper processing machines for automatically separating computer documents on a continuous roll of paper, extractors, namely machines for opening letters and automatically withdrawing their contents, postal scales, postage monitoring apparatus, bar code readers, countertop equipment for postage applications, namely postage monitoring apparatus specially designed to be placed on counters, electronic apparatus used to check postage, namely the payment and recording of fees for postal and private shipping services, for letters and parcels, electronic prepayment kiosks for applying postage to letters and parcels sent through private postal services and private carriers, electric apparatus and automatic dispensers for mail and parcels, postage meters, letter openers, postal machines for post offices, letter sorting machines, machines for addressing and encoding mail and parcels, sealing machines for the office, furniture, namely office furniture specially adapted to hold equipment, apparatus and devices for processing mail; in-transit tracking of shipments by electronically determining the destination of products and goods, in particular documents, packages and parcels; rental of storage containers.

(6) Design and development of computer software, maintenance of computer software, research and technical expertise services in the field of mail and parcel processing techniques, consulting and assistance services for the installation, maintenance and updating of computer software systems for the electronic processing of data for the tracing, tracking and location of parcels, mail and pallets during their processing, transport and delivery, consulting services for the installation of computer software systems for the electronic processing of data for the tracing and location of

parcels, mail and pallets during their transport and delivery; conversion of data and documents from physical to electronic media.

(7) Production of videos available online through databases and the Internet.

- Cows, calves
- Heads of animals of series IV, with horns

- Fish, animals of fish-like form
 - Animals of division 3.9 stylized
 - Rabbits, hares
 - Heads of animals of series V
 - Animals of series V stylized
-

Trademark Description

The design has been separated into a grid and numbered for an easier description of the various aspects of the design (the grid and numbers do not form part of the design and are used purely for explanatory purposes). The design of the mark separates itself into the main trademark (numbered 1 in the attached tiff) and the designs that will be associated with the various products of the company (numbered 2 through 11). Any combination of the design numbers 1 through 11 will be used to represent the company and the company's product. Design number 1 represents the logo of the company and will be used to recognize the company (the design is a drawing of a bold letter 'W' which will be used with and without the words 'West Coast Smokery' and the words 'Real Food'). The words 'West Coast Smokery' and 'Real Food' will also be used to represent the company and the company's products. Design number 2 is a drawing of a deer which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 3 is a drawing of a turkey which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 4 is a drawing of a pig which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 5 is a drawing of a duck which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 6 is a drawing of a goat which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 7 is a drawing of a lamb which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 8 is a drawing of a chicken which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 9 is a drawing of a cow which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 10 is a drawing of a fish which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products. Design number 11 is a drawing of a rabbit which will be used in conjunction with any designs 1 through 11 to represent the company and the company's products.

Auregen BioTherapeutics

Goods

Class 01

(1) Stem cells for research purposes, stem cells for scientific purposes, stem cells for research and scientific purposes, hydrogel polymer coatings, lactic acid polymers, aqueous linear polymer gels, photo curable compositions comprising polymers, chemicals for use in polymerisations, engineered biological tissues and tissue arrays, namely, human and animal organ, connective, epithelial, muscular, and nervous tissues and tissue arrays, for use in scientific and medical research, biologically compatible materials, namely, hydrogels used to create polymeric networks used in the manufacture of living tissue, chemical products for the purification of proteins for in-vitro use, all the aforementioned for in vivo use in the fields of therapeutic and aesthetic treatments

Class 05

(2) Pharmaceutical preparations namely pharmaceutical preparations for the treatment of bone fractures, pharmaceutical preparations for the treatment of diseases, disorders and infections affecting bone, skin and cartilage, pharmaceutical preparations for the treatment of the musculoskeletal system, connective tissue diseases, bone diseases, spinal diseases, back pain, fractures, sprains, cartilage injuries and cartilage deformation, preparations based on cellulose nano-fibrils for use in the 3d bio-printing of tissues and organs, tissue-regenerative pharmaceutical preparations, biological implants for skin and cartilage, biological tissue for implantation, autologous cells for medical use, human allograft tissue, implants of living tissues for guided tissue regeneration, implantable materials namely cytocompatible polymers for use in guided tissue regeneration, skin grafts, surgical implants comprised of living tissues, surgical implants grown from stem cells [living tissues], transdermal patches for use to create skin for prosthetic limbs and for skin grafts, living tissues for transplants, antibodies for use to create skin for prosthetic limbs and for skin grafts, stem cells for medical purposes, engineered biological tissues and organs, namely, human and animal cardiovascular, pulmonary, digestive, hepatobiliary, urological, renal, endocrine, connective, epithelial, muscular, and nervous tissue and organs, for medical purposes, biological molecules, namely peptides, proteins, lipids and carbohydrates, to assist in the development of tissue, hemostatic gel matrix preparations for treating wound, natural biomaterials, namely bone-derived graft materials, for augmentation of bone, blood and tissue for medical purposes, processed human donor skin for the replacement of soft tissue, pharmaceutical preparations for gene therapy, cell therapy, tissue regeneration, tissue repair, tissue treatment, whether relating to human and animal tissue, pharmaceutical preparations for the treatment of

bone diseases, for cartilaginous diseases, for vascular diseases, for neuronal degeneration, for degeneration of tendons and ligaments, for retinal degeneration, for renal degeneration, degeneration of soft tissue, for diseases with abnormal cell proliferation, biomaterials for bone filling, biomaterials for filling cartilage, stem cells for medical use, surgical cloths for wound protection, surgical implants grown from stem cells, biological tissue cultures for medical use, all the aforementioned for in vivo use in the fields of therapeutic and aesthetic treatments

Class 07

(3) Three-dimensional [3D] printers (3D printers); three-dimensional [3D] bioprinters (3D bioprinters); machines, namely, three dimensional (3D) bioprinter for the manufacturing of living tissues; machines, namely, three dimensional (3D) bioprinter for the printing of living tissues; cartridges for containing printing material; cartridges for containing bioprinting material; printing cartridges for containing biomaterial; printing cartridges for containing bioink

Class 09

(4) Laboratory incubators for fabrication of three-dimensional tissues and organs, biochips sensors for the production of three-dimensional tissues and organs, bioreactor for cell culturin, bioreactors for laboratory use, bioreactors for research use, cell culture apparatus for laboratory use, namely, cell culture dishes, tissue culture flasks, image scanners, 3D scanners for laboratory use and laboratory instruments for use in research on biomaterials adapted and used for printing three-dimensional objects for the creation of prosthetic limbs and grafts, LED microscopes, print heads for inkjet printers, scientific research and laboratory apparatus namely laboratory incubators, laboratory robots and instruments for research on biomaterials adapted and used for printing three-dimensional objects for the creation of prosthetic limbs and grafts in the field of cytology, laboratory apparatus namely laboratory incubators, laboratory robots and instruments for research on biomaterials adapted and used for printing three-dimensional objects for the creation of prosthetic limbs and grafts for use in biopharmaceutical discovery and development, all the aforementioned for in vivo use in the fields of therapeutic and aesthetic treatments

Class 10

(5) Surgical, medical, dental apparatus and instruments namely phototherapeutic apparatus for medical purposes, medical x-ray apparatus, medical and surgical knives and cutters for cutting human and animal tissue and organs, medical instruments for cutting tissue, orthopedic articles namely orthopedic braces, orthopedic belts, orthopedic corsets, orthopedic bone implants, orthopedic bone screws, artificial limbs, artificial implants namely intravascular implant medical devices made of artificial material, medical, surgical and orthopedic implants made of artificial materials, osseous implants made of artificial materials, spinal implants made of artificial materials, cartilage implants made of artificial materials, bone substitutes for surgical use, fluid injectors for medical purposes, trocars, artificial tissue replacement for restoring, maintaining and improving the function of diseased and damaged human and animal tissue (tissue engineering), synthetic implants and transplants and modified implants and transplants, tissue, cells and molecules for replacing and for supporting the function of missing and damaged body parts, synthetic hard and soft tissue, in particular synthetic bone for transplantation purposes, synthetic bone replacement, cartilage replacement, vessel replacement, tissue replacement and fatty tissue replacement, modified implants and transplants with endogenous material, tissue, cells and molecules for replacing and for supporting the function of missing and damaged body parts, all the aforementioned for in vivo use in the fields of therapeutic and aesthetic treatments

SERVICES

Class 40

(1) 3D printing services; renting of 3D printers; creation of customised three-dimensional shaped parts using rapid prototyping equipment; 3D bioprinting; bioprinting

Class 42

(2) Technical research in the fields of biomimetics, biomaterials, material adaptation, 3d bioprinting and tissue engineering, research and development of medical devices, research in the field of nanotechnology and nanomaterials, synthetic biology research, robotics research, bioengineering research, nanotherapeutics research, 3d bioprinting research, tissue engineering research, scientific and medical research and development in the field of bio-printing, research and development of 3D technology and processes, development of rapid prototyping equipment, technical consultancy relating to rapid prototyping, scientific research consulting in the fields of three-dimensional printing, scientific services relating to the isolation and cultivation of human tissues and cells, scientific and medical research and development in the field of tissue manufacturing, development and culture of artificial tissues and cells (tissue engineering), tissue engineering services, industrial analysis and research services in the field of tissue engineering, research in the fields of regenerative biotherapies, genomics, biotechnology, chemicals and pharmaceuticals, research and testing services in the fields of regenerative biotherapies, genomics, biotechnology, chemicals and pharmaceuticals, research and development of new products for others in the fields of regenerative biotherapies, genomics, biotechnology, chemicals and pharmaceuticals, design and development of computer hardware and software, all the aforementioned for in vivo use in the fields of therapeutic and aesthetic treatments

Class 44

(3) Medical services, namely in the field of gene and cellular immunotherapies and transplantation, monitoring and reporting services, medical treatment services, consulting services in the fields of medical treatment and medicines, human cell and tissue banking services, collection and preservation of human blood and cells for medical use, all the aforementioned for in vivo use in the fields of therapeutic and aesthetic treatments

 - Black
 - White, grey, silver
 - Red, pink, orange
-

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the depiction of a man holding a plunger standing to the left of the words 'PLUMBERS911'. The man has brown hair and eyebrows; tan skin; blue eyes with black and white accents; and white teeth. The man is wearing a blue hat with a red bill; a blue shirt with light blue zig-zags across the front, and a red collar and red cuffs on the sleeves; dark blue pants with light blue highlighting on the edges; a brown belt with gray buckle; red gloves; and black shoes. The man is holding a plunger with a brown handle and red cup and flange. The entire man is outlined in black. The word PLUMBERS is in blue at the bottom of the letters and light blue at the top (drawn as if the blue at the bottom is water in a tank), except the 'M' which is in red, and '911' in red; the stem of the number '9' forming a pipe which forms the letter 'M' in the word 'PLUMBERS' and ends in a red spigot out of which a blue drop of water is descending. The wording 'Emergency Plumbing Service 1-Click Away' appears in white inside of a dark blue rectangle under the 'PLUMBERS911' portion of the mark.

SERVICES

Class 35

(1) Providing referral services in the field of plumbing by telephone and through a website.

Class 37

(2) Plumbing services.
