Trade-marks Journal

2019-02-06 — Vol. 66 No. 3354

Trade-marks Journal

Vol. 66 No. 3354

General Information

The *Trade-marks Journal* is published every week in compliance with [Rule 15 of the Trade-marks Regulations](#). The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see [section 38 of the *Trade-marks Act*](#) for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Image Description (Vienna)

- Rectangles
- Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
- Quadrilateral figures with one or more convex or concave sides -- Note: Not including elongated surfaces with one or more convex or concave sides (25.3.1).
- One quadrilateral
- Quadrilaterals containing one or more letters
- Mathematical signs
- Symbol of infinity
- Paper in rolls, wallpaper, other papers and documents -- Note: Including toilet paper and paper towels.
- Blue
- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trademark. The trademark consists of the word McLaren in blue and two stylized infinity symbol shapes. The left section of the upper infinity symbol is blue, the middle section of the upper infinity symbol is dark blue and the right section of the upper infinity symbol is light blue. The left section of the lower infinity symbol is light grey, the middle section of the lower infinity symbol is dark grey and the right section of the lower infinity symbol is grey. The faint rectangular background shading surrounding the two infinity symbols does not form a part of the trade-mark.

SERVICES

Class 44

Health care services, namely preventive medicine services including measurement, testing and counseling processes and procedures for the purpose of identification of risk factors that could

impact the current and future physical and mental health of the patients and community members, with following services including medical, psychological and pharmacological management of any conditions, transitory or chronic, identified through medical and behavioral screenings; Psychological testing services, namely personality testing, cognitive and social functioning testing, achievement and aptitude testing, neurological testing and intellectual assessment.

Goods

Class 01

(1) Industrial chemicals for use in the manufacture of pharmaceuticals, pharmaceutical preparations, dietary supplements for human consumption, dietary supplements for animal consumption, dietetic foods and beverages, namely, additives, colorants, emulsifiers and preservatives; Amino acids for use in the manufacture of dietary supplements and foods; Bacteriological culture mediums other than for medical or veterinary purposes, namely, for agricultural purposes; cell culture medium for research and scientific purposes other than for medical or veterinary purposes, namely, for agricultural purposes; Plant growth regulating preparations; Artificial sweeteners [chemical preparations]

Class 05

(2) Pharmaceuticals, namely, diagnostic reagents for medical diagnostic use for humans and animals, vitamin preparations, pharmaceuticals for the supportive care in the treatment of cancer or malignant tumors, pharmaceuticals for the treatment of cancer or malignant tumors, pain, hematological disorders, renal diseases, endocrine diseases, namely growth and thyroid disorders, adrenal gland diseases, endocrine gland neoplasm, diabetes mellitus, dwarfism, female athlete triad syndrome, gonadal disorders, lipid disorders, parathyroid diseases, and pituitary diseases, immunity disorders, namely, autoimmune diseases, immunologic deficiency syndromes, erythroblastosis fetalis, glomerulonephritis, graft-versus-host disease, hypersensitivity, Immune reconstitution inflammatory syndrome, immunoproliferative disorders, thrombocytopenic purpura, and transfusion reaction, neurological, psychiatric and other central nervous system disorders, namely, central nervous system infections, brain diseases, ocular motility disorders, spinal cord diseases, anxiety, mood disorders, schizophrenia, cognitive and bipolar disorders, epilepsy, Alzheimer's disease, prion disease, cerebral palsy, Parkinson's disease, multiple sclerosis, depression, central nervous system infections, encephalomyelitis, hyperekplexia, meningitis, movement disorders, sleep and wakefulness disorders, infectious diseases, namely, respiratory infections, eye infections, topical infections, and brain infections, parasitic diseases, nutritional diseases, namely, mineral and vitamin deficiency, obesity, metabolic syndrome and under nutrition, malnutrition, overnutrition, wasting syndrome, infant nutrition disorders, and child nutrition disorders, metabolic diseases, namely, diabetes, hypoglycemia, gout, osteoarthritis, muscular dystrophy, anemia, acid-base imbalance, metabolic bone disease, metabolic brain disease,

calcium metabolism disorders, DNA repair-deficiency disorders, glucose metabolism disorders, hyperlactatemia, iron metabolism disorders, lipid metabolism disorders, malabsorption syndromes, metabolic syndrome X, inborn error of metabolism, mitochondrial diseases, phosphorus metabolism disorders, porphyrias, proteostasis deficiencies, metabolic skin disease, and water-electrolyte imbalance, congenital malformations, traumatic injury, namely, traumatic brain injury and traumatic pain injury, eye diseases, ear diseases, circulatory system diseases, namely, hypertension, atherosclerosis, aneurysms, thrombosis, arhythmias, coronary artery diseases, and heart failure, diseases of the respiratory system, digestive system diseases, namely, Crohn disease, celiac disease, biliary tract diseases, digestive system abnormality, digestive system fistula, digestive system neoplasms, gastrointestinal diseases, Irritable Bowl dysfunction, liver diseases, pancreatic diseases, peritoneal diseases, and Ulcerative Colitis, skin diseases, namely, skin pigmentation diseases, dermatitis, eczema, psoriasis, exanthema, erythema, dermatomyositis, keratosis, lipomatosis, panniculitis, prurigo, pruritus, pyoderma, scalp dermatoses, sebaceous gland diseases, skin abnormalities, and sweat gland diseases, diseases of the musculoskeletal system, namely, inflammatory muscle diseases and disorders, carpal tunnel syndrome, epicondylitis and tendonitis, bone diseases, cartilage diseases, fasciitis, foot deformities, hand deformities, jaw diseases, joint diseases, muscular diseases, musculoskeletal abnormalities, and rheumatic diseases, diseases of the genitourinary system, namely, infertility, sexually transmitted diseases, incontinence, sexual dysfunction, urological diseases, and inflammatory pelvic diseases; cells for medical purposes; bacteriological culture mediums for medical and veterinary purposes; cell culture mediums for medical and veterinary purposes; reagent paper for medical purposes; gauze for dressings; empty capsules for pharmaceuticals; absorbent cotton; adhesive plasters; bandages for dressings; lacteal flour for babies; dietary supplements for general health and well-being; dietetic beverages adapted for medical purposes, namely, juice drinks, jelly drinks and milk; dietetic foods adapted for medical purposes, namely, crackers, candy, jelly, granule and swallowing assisting food; beverages for babies adapted for medical purposes; food for babies; dietary supplements for general health and well-being of animals; sanitary masks for medical purposes

Class 10

(3) Apparatus for use in medical analysis, namely, apparatus for analysis of biological materials for medical purposes, apparatus for analysis of chemicals for medical purposes, apparatus for analysis of drugs, apparatus for analysis of drug metabolites, medical diagnostic instruments for the analysis of body fluids; Medical apparatus, namely, injection syringes for pharmaceuticals, injection needles for medical purposes, medical apparatus for facilitating the inhalation of pharmaceutical preparations, defibrillators, medical apparatus for treating respiratory conditions, namely, respiratory aspirators and distress monitors, infusion device for administering drugs, namely, infusion pumps for delivering measured amounts of solutions into the bloodstream over time, blood transfusion apparatus, blood component separation apparatus for medical purposes, diagnostic apparatus for detecting cancer, diagnostic apparatus for detecting infection, diagnostic apparatus for detecting the disease state of human illnesses, containers and trays specially designed for transporting and holding pharmaceuticals, high frequency electromagnetic therapy apparatus, low frequency electric therapy apparatus, short wave therapy machines and apparatus, static electric therapy apparatus, ultraviolet radiator units for therapeutic purposes, infrared radiator units for therapeutic purposes, mercury arc lamp units for therapeutic purposes, carbon arc lamp units for therapeutic purposes, massage apparatus for medical purposes, namely, electric massagers for the treatment of muscle disorders, back pain and joint pain; Medical instruments, namely, for use in injection for administering drugs, infusion for administering drugs, inhalation for administering drugs, transfusion, separation of blood component for medical purposes, diagnosis

for detecting cancer, diagnosis for detecting infection, diagnosis for detecting the disease state of human illnesses, transporting and holding pharmaceuticals, analysis of biological materials for medical purposes, analysis of chemicals for medical purposes, analysis of drugs, analysis of drug metabolites, analysis of body fluids, surgical apparatus, namely, for use in open heart surgery for monitoring oxygen gas analysis and vital sign, open abdominal surgery for monitoring oxygen gas analysis and vital sign, open chest surgery for monitoring oxygen gas analysis and vital sign; Surgical apparatus, namely, for use in open heart surgery for monitoring oxygen gas analysis and vital sign, open abdominal surgery for monitoring oxygen gas analysis and vital sign, open chest surgery for monitoring oxygen gas analysis and vital sign; Surgical instruments; Gloves for medical purposes

SERVICES

Class 40

(1) Custom manufacture of pharmaceuticals; Extraction, production and synthesis of pharmaceuticals for others; Custom manufacture of industrial chemicals; Custom manufacture of medical apparatus and medical instruments; Manufacture of antibody-producing cells for others

Class 42

(2) Pharmaceutical research; Research of chemicals; Analysis of chemicals; Testing, inspection or research of pharmaceuticals; Testing, inspection or research of chemicals; Testing, inspection or research of cosmetics; Testing, inspection or research of foodstuff; Providing technical advice relating to chemical research; Providing technical advice relating to pharmaceutical development; Providing technical advice relating to chemical development; Rental of laboratory apparatus; Rental of laboratory instruments

Goods

(1) Adaptors, namely, printer adaptors, adaptors for computers, adaptors for computer peripheral devices; chargers, namely, chargers for printers; printer cradles and cases, printer station in the form of a mountable printer; barcode readers and scanners, optical scanners, portable computer terminals, computer interface boards, personal digital assistants, hand held scanners, wireless local area network hardware, telephones, and operating software, and parts and fittings for all of the aforesaid goods, and power supplies for printers, power supplies for scanners, power supplies for computers, and housings for printers, housings for scanners, housings for computers; barcode printers; bar code printing machines; printers for printing on plastic cards; client/server-based communications system comprised of server software and client-device software to allow users

and devices to communicate with each other over wired or wireless networks by real time push to talk style voice over IP, text messaging, handwritten messaging, picture messaging with integrated editing capabilities, voice messaging, broadcast voice messaging, and e-mail; fixed and portable radio frequency identification computers and readers; communication systems for providing wireless Internet connectivity, namely, a high speed transceiver, antenna, mounting hardware and software for monitoring and operating the systems; computer management software and hardware for operating and monitoring personal digital assistants, vehicle mounted computers, and electronic personal organizers; computer software and hardware for monitoring cellular phone devices and Voice over Internet Protocol (VoIP) communication; computer management software and hardware for use with GPS-driven mapping and direction finding; computer management software, namely, computer software for logistics, namely, software for tracking documents, packages and freight, and hardware for use with handheld computers, RFID readers, speech directed computers and speech recognition software used for creating tickets on a computer, and collecting and verifying personal identifying information; software and hardware for monitoring cellular phone devices and Voice over Internet Protocol (VoIP) communications for dispatching and scheduling, equipment maintenance, break-fix and repair; computer software for managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts;; computer application software for cellular and mobile phones for managing and operating printers, scanners, bar code readers, and mobile computers; computer cables; computer equipment, namely, scanners, printers, optical character recognition computers for processing business forms; computer hardware and communications software for electronic file transfer, namely document data transfer and conversion from one computer format to another, remote computer access, and remote network access, all in the fields of wide area and local area networks; computer hardware and data management software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer hardware and handheld computers for end-to-end mobile computing systems for businesses; computer hardware and software for use in establishing, maintaining and managing wide area and local area computer networks and computer network connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment or products, and personnel; computer hardware and software for identifying, locating and tracking assets, equipment and people; computer hardware and operating software for real-time location systems for use in the field of determining the physical location of a variety of objects, namely, vehicles, inventory, containers, equipment and products, and personnel; computer hardware, namely, handheld and portable computers; computer operating systems and portable radio receivers and transmitters; computers for mobile computing and mobile communication devices, namely, mobile phones and portable radios; computer programs and program manuals all sold as a unit for use in the fields of software design and development, finance, agriculture, sales training, advertising, environmental monitoring, order logging, computer storage, database management, spreadsheet analysis, word processing, repair and maintenance of computers, quality control; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, and wristbands; computer programs for managing printer operation, maintenance and supplies replenishment; computer programs for operating printers; computer software and computer programs for enhancing and facilitating use and access to computer networks and telephone networks; computer software and manuals sold as a unit for the management and control of manufacturing facilities, distribution centers and warehouse inventory business operations; computer software for assessing and protecting wireless and wired computer networks, servers,

applications and desktops against attack, intrusion and misuse; computer software for assisting developers in creating program code for use in multiple application programs; downloadable operating software for printers; computer software for driving printers to print labels; computer software for supply chain management; computer software for operating wireless local area networks; computer software for protecting data/information stored on and transmitted across wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer contact information, preferences and customer satisfaction information; computer software for the management and control of manufacturing facilities, distribution centers and warehouse inventory management operations; computer software in the field of database management; computer software offered for cellular and mobile phones that allows a user to browse and access commonly used applications; computer software to create and process business forms; computer communications protocol software for mobile computing; computer software that enables the wireless transfer of voice, images, sound recordings, printed text and data information, namely, video conferencing software; computer telephony software enabling telephone communication through wired and wireless computer networks; computer utility software and databases for use in diagnosis, repair, and configuration of computers; digital disc drives; downloadable electronic user manuals sold therewith; fast communication links for data transfer, namely, USB cables, fiber optic cables, parallel cables, serial cables, and DIN cables; fixed and portable radio frequency identification receivers and transmitters and readers; hand held scanners that automatically identify the presence of bar codes and radio frequency identification tags; handheld and integrated laser scanners; integrated voice and data enabled wide area wireless radio; 3D direct part marking imagers and digital cameras; magnetic card and smart card reading computers; memory devices, namely, blank flash memory cards; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; mobile or handheld printers for labels and business forms; modems; near field communication (NFC) technology-enabled devices, namely, printers; pagers; portable and fixed radio frequency receivers and transmitters for bar code and radio frequency identification tag scanners; portable computers for bar code and radio frequency identification tag scanners; operating software for portable and fixed radio frequency receives and transmitters; operating software for bar code and radio frequency identification tag scanners; portable computers with auto identification functionality and operating software therefore; pressure and temperature sensors; printers, namely, mobile printers and label printers; printers for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components; printer components, namely, printheads; thermal printers; radar and radar detectors; radio frequency identification printing and encoding machines; radio frequency identification, RFID, smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; radio transceivers and operating software therefore; computer interface boards, computer cables, all sold as a unit; computer software for assisting developers in creating program code for use in multiple application programs, namely, applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning computers for physical inventory control; software for designing identification cards; software to design labels and configure label printers; software for enabling a general-purpose computer to print and read bar codes; software to program and manage network printers; telecopier machines; telemetry tag that transmits the location of objects such as vehicles, inventory, containers, equipment, products and personnel; two-way radios; ultra wideband (UWB) radar systems comprising radar; ultra wideband communications systems comprised of hubs, sensors and readers of short range radio frequencies; ultra wideband for goods; computers for voice processing; digital dictation machines; digital answer telephone machines; wireless Ethernet

bridges; wireless local area network hardware equipment, namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, WLAN controllers, and WLAN antennas; wristband printers; RFID cards, namely, plastic key cards and customer loyalty cards; downloadable customized forms for the operation and management of business activities; computer software and hardware that allows users to update, manage and configure computers, machines and equipment, namely computer hardware and software for setting up and configuring local area networks; computer software and hardware used to build logical workflow for printers, namely, computer software and hardware which allow a user to configure print processes and settings for an existing printer set-up; computer software and hardware used to transfer information wirelessly

(2) Paper and plastic printer labels; paper and plastic barcode printer labels; business forms; paper and plastic identification labels and bands processable through printers such as laser printers and used by healthcare professionals; printable paper stock, namely, blank or partially printed labels, printing machine ribbons; printed matter and printed publications, namely, brochures, instruction and user manuals, written presentations and training materials in the field of computer software, hardware, real time location systems, and printers; printer supplies, namely blank or partially printed labels not of textile and computer printer ribbons; self-adhering labels made of paper for use for patient identification and patient care in the health care industry; plastic cards imprinted with numbers used to track use of the card, namely encoded identity cards; laminated identification cards; transfer film, namely, stickers and transfers; tags, namely, paper and plastic identification tags; thermal paper; receipt paper; self-adhesive paper and plastic labels

(3) Paper laminate identification wristbands for use in the healthcare industry; self-adhering labels made of plastic for use for patient identification and patient care in the health care industry;

SERVICES

(1) Business consulting services in the field of computer-based printing, computer software and computer products, printers, data security, and business forms; business consulting services to manufacturers and shipping terminal operators regarding productivity, efficiency, inventory control, operational procedures, and equipment purchases; computerized database management services; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies; distributorship services in the field of business forms; information management services, namely, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranet, and internet; online retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software via the Internet and other computer and electronic communications networks; physical inventory control services; retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software for each of the foregoing

(2) Consultation relating to computer repair; installation, maintenance and repair of electronic equipment, namely, WLAN access points, WLAN hubs, modems, and bar code data capture systems; label printer repair services; consultancy services in the nature of advising and assisting with installation, modification and maintenance of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data.

(3) Providing access to electronic databases, allowing the user to send and receive audio, text, digital images, videos, electronic game applications, and social media; providing multiple user access to a computer network that allows users to receive location based coordinates; technical consulting in the field of telecommunications and Radio Frequency Identification systems (RFID);

wireless telecommunications services, namely, wireless data messaging services that allow a user to send and receive instant messages, electronic mail and data; wireless telephone services and global computer networks; provision of technical information and technical consultation in the area of WLAN telecommunications infrastructure.

(4) Custom manufacture for others of computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment or products, and personnel

(5) Educational services in the nature of conducting training in the field of computer software and hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment, namely, training in the usage, support and development of computer software and connected people, devices, machines and equipment, namely computer training; educational services in the nature of conferences in the field of computer and network hardware and software; on-line journals, namely, blogs featuring information and commentary in the field of computer and network software and hardware

(6) Basic and applied research in the fields of physics, chemistry, computer programming, information technology in the field of logistics and radio frequency telecommunications applied to object location and inventory tracking; computer programming and database design for others; computer services, namely, designing and implementing for others wireless local area networks, and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer services, namely, providing an interactive website in the field of product marking, tracking, and computer printing technology on a global computer network, accessible via computer, land-line and wireless communications devices; computer software design for others; computer software interface design for others; consultation and design services for computers in the field of GPS-driven mapping and direction finding; consultation and design services for computers in the field of mobile customer relationship management; consultation and design services for computers in the field of mobile ticketing, break-fix and repair; consultation and design services for computers used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, store and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; design and development of digital telecommunications infrastructure for public and private wireless communication networks; installation of computer software; installation of computer software for bar code scanners, mobile computing and mobile communication devices; non-downloadable software services, namely, providing temporary use of non-downloadable software for real-time location systems for use in the field of determining the physical location of a variety of objects such as vehicles, inventory, containers, equipment, products and personnel; printer service plans; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in tracking and operating manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals and airports; research and development of new products for others in the field of WLAN telecommunications infrastructure;

service rendered by professionals for product support, namely, the provision of technical information and technical consultation in the area of computers; technical consultation services in the field of bar code data capture systems, mobile computer and mobile computers and computer software and hardware for each of the foregoing, namely installation of computer software for bar code data capture systems, and mobile computers; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); up-dating of computer software for bar code data capture systems; computer software development services and computer consulting services for businesses; consultancy services for the design, selection, implementation, modification, maintenance and use of computer software systems; technical advice related to the installation of computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer diagnostic services. consultancy services in the nature of advising and assisting with the implementation, installation, configuration, modification and maintenance of computer software that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data, as well as advising and assisting with the implementation and configuration of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data; consulting with regard to computer systems, computer network connectivity, and software applications design and deployment; computer software services, namely, development, maintenance, repair, and installation of computer software, and troubleshooting of computer software problems. technical support services in the nature of diagnosing computer software problems; upgrade and updating of computer software; authoring, design and customization of computer software and middleware; providing information in the field of computer software and middleware; computer software consultation in the field of computer software and middleware; support services with regard to computer systems, computer network connectivity hardware and computer, namely, troubleshooting and diagnosing of problems.

TRADEMARK

PARIVEDA SOLUTIONS

SERVICES

Class 35

(1) Business management consulting services, namely maximizing use of human capital and information technology to achieve business objectives; business management consulting services, namely, reviewing, advising on and implementing solutions to achieve corporate strategies and efficiently use human capital, computer and network infrastructure, software and digital assets; business consulting services in the field of information technology, namely, advising organizations on how best to use technology to achieve their business objectives and defining and implementing solutions to achieve those business objectives; business consultation services, namely, evaluation and optimization of business applications.

Class 42

(2) Consultation services, namely, software selection methodologies, software requirement definition, software application implementation and integration services; computer consultation services, namely, computer software design and computer software consulting.

CLAIMS

Used in CANADA since at least as early as October 2003 on services. Priority Filing Date: UNITED STATES OF AMERICA March 21, 2016, Application No: 86/946,749 in association with the same kind of services. Used in UNITED STATES OF AMERICA on services. Registered in or for UNITED STATES OF AMERICA on November 08, 2016 under No. 5,077,175 on services

Application Number 1,798,748 **Filing Date** 2016-09-02

TRADEMARK

Image Description (Vienna)

- Acrobats, athletes, dancers, jugglers, nude men, men practising sports (except 2.1.2, 2.1.12, 2.1.14, 2.1.20 and 2.1.21)
- Men stylized
- Several men
- Men seated, kneeling or lying down
- Clothing
- Belts, buckles for belts
- Ellipses
- One circle or ellipse
- Blue
- White, grey, silver
- Black

Colour Claim

Colour is claimed as a feature of the trade-mark. The design consists of a broken band, three figures and an ellipsis. The band around the three figures is blue. From left to right, the first figure is light grey, the middle figure is grey and the last figure is black. The lower body of the figure is also black. The ellipsis is blue.

Goods

Class 09

(1) Antennas, namely, microwave antennas, car antennas, radio antennas and antennas for global positioning system (GPS) receiver; radar displays; radar receivers; radar transmitters; radar systems, radar apparatus and radar installations, namely, radars; movement sensors, distance sensors and impact sensors; infrared sensors; sensors for measuring speed; electrical sensors and electronic sensors, namely, acceleration sensors, proximity sensors, motion sensors, optical sensors, pressure sensors and velocity sensors for use in vehicles; cameras; infrared cameras; infrared detectors for identifying heat signatures from objects in the path of a motor vehicle; motion detectors; speed detectors; software for operating vision and night vision systems, radar systems, seatbelt systems, airbag systems, anti-whiplash systems and pedestrian protection systems in vehicles; software for triggering vision, night vision and dynamic head light systems in vehicles; software for analysis and processing of information for testing and research of vehicle vision and vehicle night vision systems; software for triggering radar systems in vehicles; software for analysis and processing of information for testing and research of vehicle radar systems; software for triggering seatbelt systems in vehicles; software for analysis and processing of information for testing and research of vehicle seatbelt systems; software for triggering airbag systems in vehicles; software for analysis and processing of information for testing and research of vehicle airbag systems; software for triggering anti-whiplash systems in vehicles; software for analysis and processing of information for testing and research of vehicle anti-whiplash systems; software for triggering pedestrian protection systems in vehicles; software for analysis and processing of information for testing and research of vehicle pedestrian protection systems; software for triggering brakes in vehicles; software for analysis and processing of information for use in vehicle braking and vehicle braking systems; software for analysis and processing of information for testing and research of vehicle braking and vehicles braking systems; software for vehicle safety, namely, software for analysis and processing of information for use in vision and night vision systems, software for analysis and processing of information for use in radar systems, software for analysis and processing of information for use in seatbelt systems, software for analysis and processing of information for use in airbag systems, software for analysis and processing of information for use in anti-whiplash systems, software for analysis and processing of information for use in pedestrian protection systems and software for vehicle braking and vehicle braking systems, namely, computer software for processing digital images, digital signal processing, proximity sensors for crash detection and for the automated control of motor vehicles, namely, motor vehicle steering systems, motor vehicle braking systems, automobile radio systems; advanced driver assistance systems, namely, embedded computer hardware for automated control of motor vehicles, namely, motor vehicle steering systems, motor vehicle braking systems, automobile radio systems; advanced driver assistance systems, namely, evaluation kits comprised of global position system (GPS) consisting of computers, computer hardware, computer software, transmitters, receivers and network interface devices; embedded automotive hardware and software for monitoring, providing and analyzing position, and predictive position, direction and time information for vehicles; advanced driver assistance systems, namely, hardware and network interface software for communication between radio transmitters and receivers associated with vehicles and roadway infrastructure, namely, non-luminous metal beacon towers, beacon lights, radio transmission towers, radar detectors, radar receivers with amplifiers; computer hardware for analyzing signals from sensors and other generating devices, namely, radio transmitters and global positioning system transmitters within a vehicle and for determining actions needed, and what signals needs to be communicated to other vehicles and to radio transmitter and receiver associated with roadway infrastructure, namely, non-luminous metal beacon towers, beacon lights, radio transmission towers, radar detectors, radar receivers with amplifiers, receivers for receiving radio signals from other vehicles and roadway infrastructure, namely, non-luminous metal beacon towers, beacon lights, radio transmission towers, radar detectors, radar receivers with amplifiers;

computer modules and software for analyzing signals from sensors and other generating devices, namely, radio transmitters and global positioning system transmitters within a vehicle and for determining actions needed, and what signals needs to be communicated to other vehicles and to roadway infrastructure, namely, non-luminous metal beacon towers, beacon lights, radio transmission towers, radar detectors, radar receivers with amplifiers, receivers for receiving communication signals from other vehicles and roadway infrastructure, namely, non-luminous metal beacon towers, beacon lights, radio transmission towers, radar detectors, radar receivers with amplifiers; computer modules and software for analyzing received signals and for determining actions needed to be taken by actuating systems within the vehicle, namely, warning systems and other information display systems in the nature of braking systems, speed reduction systems, head light dipping functions, namely, emergency warning lights, vehicle breakdown warning lamps, computer display screens and audible emergency warnings and vehicle breakdown warnings; advanced driver assistance systems, namely, hardware and software for vehicle to roadway infrastructure communication, comprised of radio transmitters, receivers and software for sending and receiving vehicle and driver identification information to restricted roads and lanes, toll stations, gates and garage doors.

Class 12

(2) Braking systems for vehicles; brakes for vehicles; brakes for emergency braking of vehicles; parts for braking systems for vehicles; brake components for vehicles; vehicle brake parts made of materials having frictional properties; vehicle brake pads; vehicle brake plates; brake segments for vehicles.

Class 13

(3) Pyrotechnic actuators for use in connection with vehicle braking and vehicle braking systems; pyrotechnic gas generators , namely, pyrotechnic gas generators and pyrotechnic feeders for such generators, pyrotechnic gas generators for vehicle safety in the nature of pyrotechnic gas generators for use in connection with seat belt retractors, pyrotechnic gas generators for use in connection with airbags, pyrotechnic gas generators for use in connection with vehicle safety actuators, namely, hood lifters and cutters, pyrotechnic gas generators for actively pressurizing and /or expanding structural parts or components of a vehicle.

SERVICES

Class 42

Research, development and design services relating to vehicle safety, vehicle braking and vehicle braking systems, systems for assisting and alerting vehicle drivers, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; testing and inspection of vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; analysis of vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; preparation and provision of reports concerning vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; information, advisory and consultancy services relating to vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles,

airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; safety technological services relating to vehicle braking and vehicle braking systems, vision and night vision systems for vehicles, radar systems for vehicles, seatbelt systems for vehicles, airbag systems for vehicles, anti-whiplash systems for vehicles and pedestrian protection systems for vehicles; research, development and design services relating to advanced driver assistance systems, namely, embedded automotive hardware and software for monitoring, providing and analyzing position, and predictive position, direction and time information for vehicles; research, development and design services relating to advanced driver assistance systems, namely, hardware and software for communication between radio transmitters and receivers associated with vehicles and roadway infrastructure, namely, non-luminous metal beacon towers, beacon lights, radio transmission towers, radar detectors, radar receivers with amplifiers.

Goods

Class 09

Scientific, nautical, surveying, electric, photographic, cinematographic, optical, weighing, measuring apparatus and instruments, namely cameras, camera batteries, camera battery chargers, camera flashes; instruments and apparatus for reproducing sound and/or video and/or transmitting sound and/or video information and images, namely sound amplifiers, sound mixers, DVD recorders and players, mp3 and mp4 players; radio and television apparatus and instruments, all for reception and transmission, namely radio receivers and transmitters, portable radios, television sets; radio and television aerials; magnetic tapes, namely pre-recorded audiotapes and videotapes containing music and movies; magnetic data carriers, namely pre-recorded mp3 files, mp4 files, CDs and DVDs containing music and movies; pre-recorded compact discs, cassettes, cartridges and video discs containing music and movies; downloadable video games; racks and cases, all adapted to hold recordings or to hold tapes; exposed cinematographic and photographic films; photographic slide transparencies; calculators; downloadable electronic games; mp3 players; electronic amusement apparatus, namely video game consoles, coin-operated amusement machines; computer software, namely computer video games, computer hardware, computer firmware for remote monitoring of hardware; data-bearing record carriers for computers, namely blank smart cards, encoded identity cards; computer video games; coin operated entertainment apparatus and instruments, namely coin-operated amusement machines; pre-recorded CD-ROMs containing video games; sunglasses, spectacle frames, lenses, contact lenses; protective clothing, namely fire protective clothing, motorcyclist clothing, radiation protective clothing; batteries, namely camera batteries, cellular phone batteries, general purpose batteries, watch batteries; battery chargers for cameras and cellular phones; electrical or electronic apparatus and instruments, all for processing, logging, storing, transmission, reception, display and /or printout of data, namely computers and smart phones; electrical or electronic apparatus and instruments, all for management and/or performance analysis of telecommunications and data communications networks and circuits, namely computers and smart phones; electrical or electronic apparatus and instruments, all for transmitting, displaying, receiving, storing and searching electronic information, namely computers and smart phones; electrical or electronic apparatus and instruments, all for interrogating answering machines and/or accessing telephone services, namely computers and smart phones; electrical and electronic apparatus, instruments, circuits and components, all for use with computers, data processing apparatus and/or with communications networks and/or installations, namely smart phones; photographic,

cinematographic or video equipment, namely cameras, camcorders, camera adapters, video receivers; combined telephone, games, mp3 and camera equipment, namely smart phones; binoculars; cameras, camcorders; computers, computer printers, computer keyboards; computer peripherals, namely computer printers, scanners, mice, webcams; telecommunication apparatus and instruments, namely computers and network routers; cases for telephones and mobile telephones; pagers, telephones, mobile telephones; headphones; modems; photocopiers; alarms; fire-extinguishing apparatus, namely fire extinguishers, parts and fittings for all the aforesaid goods; sound, text and/or graphics delivered in electronic form, namely pre-recorded mp3 files containing music; information provided in electronic form, namely electronic newsletters.

SERVICES

Class 35

(1) Advertising the goods and services of others; business management; business administration; office functions namely word processing, typing and photocopying services; employment agencies; employment recruitment services; commercial information agency services, namely advise and information concerning commercial business management; provision of business information in the field of social media; compilation of statistics into computer databases; rental of advertising space; accounting services; market research studies; opinion polling; demonstration of goods, namely demonstration of computers and smart phones; dissemination of advertising matter for others; business management consultancy services; publicity agency services; telephone voice message transcription services; sales promotion for others, namely developing promotional campaigns for others; word processing services; telephone answering for unavailable subscribers; business enquiries, namely business auditing; professional business consultancy; data search, namely market research services; the bringing together, for the benefit of others, of tapes, records, compact discs, videos discs, digital video discs, all for recording, reproduction and transmitting sound, or pre-recorded video discs featuring music and movies, CD roms, video games, telephones, computers, mobile phones, mobile phone accessories, photographic equipment, cinematographic apparatus, data processing equipment and computers, computer software, radio and television receivers, CD music recording and DVD recordings containing movies and television shows, downloadable electronic games, electronic game consoles, computer video games, tapes, cases, bags, holdalls, packaging containers of plastic and cardboard, parts and fittings for the aforesaid goods, jewellery, watches and key rings, printed matter, photographs, posters, calendars, magazines, printed publications, mugs, clothing, footwear and headgear, handheld video and computer games and cuddly toys, enabling customers to conveniently view and purchase those goods through physical retail outlets and/or Internet sites.

Class 36

(2) Insurance; financial affairs and monetary affairs, namely financial analysis and research services, financial asset management, financial credit scoring services, financial investment brokerage, money transfer; real estate brokerage services; insurance services for mobile telephones; arranging financial and sponsorship of television programs and films; financial services relating to the funding of broadcasting; financial services related to the subsidising of broadcasting, television programme and film production through on-air advertising, programme sponsorship, the sale of programme content, merchandising, subscription fees; financial information and advice relating to tariffs, namely price comparison services; information and advice relating to credit and insurance; financial payment services, namely bill payment services; payment processing services, namely electronic processing of bill payment data; electronic payment

services, namely electronic bill payment services; automated payment services, namely automated bill payment services; payment collection agencies; processing of payment transactions via the Internet; money transfer services; electronic funds transfer services.

Class 38

(3) Telecommunications services, namely fixed and mobile telephone services, local and long distance telephone services, telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; broadcasting, namely radio and television broadcasting services, Internet radio broadcasting services; television and radio broadcasting; communications by satellite, namely satellite television and radio broadcasting; transmission of voice, data, images, audio, video, and information via telephone, television, radio or the Internet, namely electronic mail services, voicemail services; facsimile transmission; personal communications services, namely text messaging services; pager services; broadcasting services, namely broadcasting of television and radio programs; transmission or broadcast of news, music via telephone, television, radio, satellite or the Internet; message transmission services, namely text messaging services, e-mail services; teleconferencing services; electronic bulletin board services, namely operation of an electronic bulletin board containing information in the field of music; news agency services; rental of telecommunications equipment, namely computers and network routers; telecommunications routing and junction services, namely telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes.

Class 41

(4) Education, namely education courses in the field of the travel industry; provision of training for arranging travel tours; entertainment in the form of live musical concerts, live comedy shows, magic shows and movie theaters; sporting and cultural activities, namely, reservation and sale of tickets for shows, cinema, concerts, theatre, and sports events; theatre productions; production of television and radio programs; providing academic mentoring, education and training, namely language training services, computer training, education courses in the field of the travel industry; organisation of sporting events and leisure activities, namely, ball game tournaments and competitions, gymnastics competitions, art exhibitions; book publishing; publication of electronic books; games and electronic games publishing; rental of audio cassette and CD players, video cameras, cameras, photographic equipment, camcorders, lighting fixtures, movies and CD music recordings; news reporters services; lending library services; information regarding education, entertainment, sporting or cultural activities, namely providing a website featuring information in the field of television shows and movies, providing a website portal featuring links to concert ticket information; presentation of live performances, namely live musical concerts and live comedy shows; recording studio services; amusement arcade services; production of films; arranging and conducting workshops in the field of the travel industry; arranging and conducting competitions, namely ball game tournaments and competitions, gymnastics competitions.

Class 42

(5) Scientific and technological services and research and design relating thereto, namely providing scientific information in the field of climate change and global warming; industrial analysis and research services, namely greenhouse gas emission measuring and analysis; design and development of computer hardware and software; computer programming and computer design services; weather forecasting; hosting websites for others; artwork design.

- Inscriptions in Chinese, Japanese or Korean characters
- Red, pink, orange

Colour Claim

Colour is claimed as a feature of the trademark. The Applicant claims the colour red in the mark for the cartoon figure's hair ties, chopsticks, shirt and bowl. The red colour claim also applies to the crescent to the right of the drum design element containing the Chinese characters.

Foreign Character Translation

As provided by the applicant, the Chinese characters on the drum design translates into 'big drum' in English and the Chinese characters above the words 'DAGU RICE NOODLE' translates into 'big drum rice noodle' in English.

Foreign Character Transliteration

As provided by the applicant, the transliteration of the characters on the drum is 'dà gu' and the transliteration of the characters above the English text is 'dà gu mi xiàn'.

WIRED CERTIFIED

Image Description (Vienna)

- Houses, skyscrapers
- Urban houses, skyscrapers
- Surfaces or backgrounds covered with lines or bands
- Surfaces or backgrounds covered with straight lines or bands
- Circles
- Two circles, two ellipses, one inside the other
- Circles or ellipses containing other figurative elements
- Circles or ellipses containing one or more other geometrical figures -- Note: Including circles or ellipses containing bent or straight lines (except 26.1.10).
- Circles or ellipses containing one or more letters

Certification Mark Text

The certification mark, as used by persons authorized by the Applicant, certifies that a building has met the quality standards for internet connectivity, network infrastructure, and technology as required and published by the Applicant. Specifically, the certification mark certifies that a building, if occupied, has the following attributes: - At least 1 high speed internet service providers with either fibre or fixed wireless as a transmission medium - Protected and secure dedicated telecom rooms to minimize interruptions - A single secure riser that traverses the building to support

resiliency. For buildings which are new developments or undergoing redevelopment, the certification mark certifies that a building has the following attributes: - A protected and designated telecom room to minimize interruptions - At least two 4-inch conduits for cabling entering from the street - A single secure riser that traverses the entire building to support resiliency. The full copy of the standards as set forth and updated from time to time by the Applicant, may be accessed at 494 Broadway, 3rd Floor, NY, NY, Monday - Friday from 9am - 5pm, or by email request sent to info@wiredscore.com.

SERVICES

Internet connectivity, network infrastructure and information technology services in commercial, real estate and other building structures, namely, assessment of the number and quality of the Internet service provider (ISP) cabling and services, building telecommunications facilities, and preparedness of legal agreements between ISPs and building ownership, and business consultancy relating to the design and development of telecommunication facilities in buildings
