# Trademarks Journal

## Vol. 66 No. 3393

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

#### Class 09

(1) Optical code readers, laser scanners, cameras, image sensors, namely linear image sensors and optical sensors, photosensors and computers used for automatic identification, data collection and industrial automation; Fixed, manual and portable instruments and apparatus for the automatic decoding and reading of coded information memorized on paper, electronic, optical and magnetic media and on body surfaces, namely, bar code readers, optical code readers, magnetic coded card readers, chip card readers, smart card readers, and radio frequency identification tag readers; data switches, namely, multiplexers for readers of coded information; Systems comprising coded information readers and decoders and transmitters and commutators of multiple data, namely, multiplexers, for the identification, movement and sorting of objects containing coded information; systems comprising coded information readers and decoders and transmitters and commutators of multiple data, namely, multiplexers, for the measurement and detection of objects in general; portable computer terminals with or without readers of coded information; computer terminals for the collection of data from coded information readers; electronic plasma visual display screens and computer monitors; Vision systems and instruments for the detection of images, namely, optical code readers, laser scanners, cameras, image sensors, namely linear image sensors and optical sensors and computers; Vision systems and instruments for object recognition, namely, optical code readers, laser scanners, cameras, image sensors, namely linear image sensors and optical sensors and computers; Vision system for automated industrial examination and process monitoring and control comprising image processor, cameras and digital camera lights; digital cameras; Package weighing systems comprised of electronic scales, microprocessors and computer programs for weight indication and electronic data storage; dimensioning system comprised of cameras, microprocessors and image analysis computer programs for calculating package volume; Package weighing systems comprised of electronic scales, microprocessors and software for weight indication and electronic data storage used separately and integrated into a larger system; Labeling systems comprised of computer controlled moveable label dispensers used separately and integrated into a large system; Weighing and labeling systems and equipment comprising optical code scanners, optical sensors, weigh scales, and label printers and label dispensers; Integrated systems comprised of automatic identification equipment, namely, optical code scanners, label printers and dispensers, tracking control hardware and control module,

namely, tachometers, sorting machines for identifying labels and optical codes and managing goods based on labels and optical codes, computer stations, computer printers and software for identifying labels and optical codes and managing goods based on labels and optical codes; Interface software for use with optical code readers, magnetic coded card readers, chip card readers, smart card readers, and radio frequency identification tag readers for identifying, tracking, sorting and distributing goods for others; Electronic controllers for controlling machines for identifying labels and optical codes and managing goods based on labels and optical codes; Photo-electric sensors, namely photosensors; Fiber optic sensors, glass and plastic fibers for use in fiber optics; forked sensors, namely, optical sensors for object detection or bar code label detection; optical sensors, namely, background elimination sensors; proximity sensors; optical sensors, namely, linear image sensors; temperature sensors; flame-proof optical sensors; optical sensors, namely, color sensors; optical sensors, namely, luminescence detectors; Heat sensors and heat resistance temperature sensors; industrial automation temperature controllers not for medical purposes; light reflectors other than lamp reflectors, namely, optical reflectors; laser beam reflectors, electromagnetic wave reflectors; Photo-electric sensors, namely motion sensors for detecting motions by forming photo-electric gates and light curtains; Lasers for use in security and not for medical use, namely for use in the formation of laser security gates for motion detection; Optical sensors for forming photoelectric and laser gates for motion detection for use in security; magnetic sensors, namely, proximity sensors; Ultrasonic sensors for detecting presence of objects behind barriers and walls; distance sensors; optical encoders; laser welding masks; laser welding transformers; lasers for controlling engraving machines; Laser cutting apparatus, other than for medical use, namely, lasers for use in industrial cutting applications; Parts for optical code readers, laser scanners, cameras, linear image sensors, optical sensors, computers, bar code readers, magnetic coded card readers, chip card readers, smart card readers, radio frequency identification tag reader, multiplexers for readers of coded information, portable computer terminals, electronic plasma visual display screens and computer monitors, electronic scales, microprocessors, label printers and dispensers, tachometers, sorting machines for identifying labels and optical codes and managing goods based on labels and optical codes, computer stations, computer printers, fiber optic sensors, proximity sensors, temperature sensors, distance sensors, industrial automation temperature controllers, optical reflectors, laser beam reflectors, electromagnetic wave reflectors, motion sensors, lasers for use in industrial cutting applications; computer programs for the reading, decoding and processing of coded information, for automatic identification, object recognition and for automatic inspection for industrial use, and instruction, installation, and maintenance manuals sold as a unit therewith; computer programs for optical character recognition; computer programs for controlling photoelectric sensors, heat regulators and security gates; computer programs for controlling laser welding apparatus, laser cutting apparatus, other than for medical use, and for controlling laser instruments, other than for medical use; computer programs used for encryption of data, signals, and images; computer programs for image processing; Computer programs for calculating volume and weight for freight packages; Self-diagnostic computer programs for diagnosing computer hardware problems and communicating problems with servers; Self-diagnostic computer programs for diagnosing problems with network and remotely identifying computer hardware and network problems; self-diagnostic computer programs for diagnosing computer software and hardware problems with terminals; Computer programs for controlling operating systems and user interfaces; computer programs for database management of data from data collection systems; Computer programs for providing feedback on and analyzing the operation and efficiency of optical code scanners, optical sensors, weigh scales, label printers, label dispensers, for automatic identification, data collection and industrial automation, and instruction, installation, and maintenance manuals, sold as a unit for use therewith; downloadable electronic magazines in the field of industrial automation; downloadable electronic instruction

manuals and electronic instruction manuals recorded on computer media, used for optical code readers, scanners, cameras, image sensors, scales, printers, label applicators, photo-electric sensors and computers used for automatic identification, data collection and industrial automation.

### **Class 16**

(2) Instruction manuals; Manuals, namely manuals for installation and maintenance of computer programs, equipment, apparatus and systems for automatic identification, data collection, industrial automation and parts therefor; education manuals; Instruction manuals, manuals, namely, manuals for installation and maintenance of photoelectric sensors and security gates and parts thereof; Manuals, namely, manuals for installation and maintenance of laser welding apparatus, lasers for controlling engraving machines, laser cutting apparatus and laser instruments, other than for medical use, namely, lasers for use in industrial cutting applications; Documentation and printed matter for promotion and customer information on equipment, apparatus and systems for automatic identification, data collection, industrial automation, namely brochures, pamphlets, posters, books and periodicals.

### **Services**

#### **Class 37**

(1) Installation, repair and maintenance services for optical code readers, laser scanners, cameras, linear image sensors, optical sensors, computers, bar code readers, magnetic coded card readers, chip card readers, smart card readers, radio frequency identification tag readers, multiplexers for readers of coded information, portable computer terminals, electronic plasma visual display screens and computer monitors, electronic scales, microprocessors, label printers and dispensers, tachometers, sorting machines for identifying labels and optical codes and managing goods based on labels and optical codes, computer stations, computer printers, fiber optic sensors, proximity sensors, temperature sensors, distance sensors, industrial automation temperature controllers, optical reflectors, laser beam reflectors, electromagnetic wave reflectors, motion sensors, lasers for use in industrial cutting applications; Installation and maintenance services for photo-electric sensors and security gates; installation, repair and maintenance services for laser welding apparatus, lasers for controlling engraving machines, laser cutting apparatus, other than for medical use, laser instruments, other than for medical use.

#### **Class 42**

(2) Design of computer programs; design of image processing programs; Computer systems design, namely for warehousing services and for identifying, tracking, managing and distributing of goods for others; Consultancy in the field of computer programs, computer hardware and collection data in the field of inventory control and tracking; Installation, repair and maintenance services for computer programs.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trade-mark. In the upper left section, the background is red and the flame and stars are yellow. In the upper right section, the background is yellow and the Korean characters are black. The bird design in the upper left and right sections is white with a yellow beak, a red and yellow skirt, and a grey head covering with a red and yellow protrusion. In the bottom section of the mark, the background is black, the words SAM YANG are brown, the Korean characters in the upper line are yellow, and the Korean characters in the lower line are red on a white background.

### Foreign Character Translation

The translation provided by the applicant of the Korean word(s) SAM YANG is: The words SAM YANG translate as 'cultivating three things.' The Korean characters in the upper right section of the mark have no meaning in Korean. The Korean characters in the upper line of the bottom portion of the mark translate as 'fiery hot.' The Korean characters in the lower line of the bottom portion of the mark translate as 'fire chicken' (a coined term) and 'stir fried noodles.'

### Foreign Character Transliteration

The transliteration provided by the applicant of the Korean character(s) is: The Korean characters in the upper right section of the mark transliterate as 'Hwa Dak Hwa Dak.' The Korean characters in the upper line of the bottom portion of the mark transliterate as 'Hwa Geun Han Mae Woon Mat.' The Korean characters in the lower line of the bottom portion of the mark transliterate as 'Buldak bokkeummyeon.'

Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely, computers, computer hardware, computer software for design, development, programming, execution and maintenance of computer applications in power plants, nuclear plants, ABWR (advanced boiling water reactor) plants, chemical plants, metal processing plants, water treatment plants, manufacturing plants, medical systems and transportation systems, motor vehicles and rolling stock, parts and fittings for the aforesaid goods; computerised control systems consisting of programmable controllers, remote controllers, electronic controllers, electromechanical controls for use in safety access and security critical processes in power plants, nuclear plants, ABWR (advanced boiling water reactor) plants, chemical plants, metal processing plants, water treatment plants, manufacturing plants, medical systems and transportation systems, motor vehicles and rolling stock, parts and fittings for the aforesaid goods; instrumentation and control systems consisting of computers, data (temperature, pressure) collection, sensors, programmable controllers and remote controls to ensure safety and security critical processes in power plants, nuclear plants, ABWR (advanced boiling water reactor) plants, chemical plants, metal processing plants, water treatment plants, manufacturing plants, medical systems and transportation systems, motor vehicles and rolling stock, parts and fittings for the aforesaid goods; reactor protection systems and neutron monitoring systems consisting of sensors, programmable controllers, actuators and security alarms for ABWR (advanced boiling water reactor) plants, parts and fittings for the aforesaid goods.

### Services

#### Class 37

(1) Building construction, installation, maintenance and repair of computer hardware, installation, maintenance and repair services of programmable controllers, remote controllers, electronic controllers, electromechanical controls for use in safety access and security critical processes in power plants, nuclear plants, ABWR (advanced boiling water reactor) plants, chemical plants, metal processing plants, water treatment plants, manufacturing plants, medical systems and

transportation systems, motor vehicles and rolling stock, installation, maintenance and repair services of computers, data collection, namely, temperature and pressure, sensors, programmable controllers, remote controls to ensure safety and security critical processes in power plants, nuclear plants, ABWR (advanced boiling water reactor) plants, chemical plants, metal processing plants, water treatment plants, manufacturing plants, medical systems and transportation systems, motor vehicles and rolling stock, installation, maintenance and repair services related to reactor protection systems and neutron monitoring systems for ABWR (advanced boiling water reactor) plants, advisory and consultancy services related to the aforesaid services.

#### **Class 42**

(2) Scientific and technological services in the field of nuclear plants and research in the field of nuclear plants safety, and computer hardware and software design, industrial analysis and research services in the field of nuclear plants; design and development of computer hardware and software; computer programming; installation, maintenance and repair of computer software, computer software and hardware consultancy services, design, drawing for the compilation of web sites, creating, maintaining and hosting the web sites of others, design services namely, design of computer hardware and software, programming services related to computerised control systems, distributed control systems, instrumentation and control systems, controllers, safety controllers and functional safety controllers, programming services related to computerised control systems, distributed control systems, instrumentation and control systems, controllers, safety controllers and functional safety controllers all for use in safety or security critical processes or plants including power generation plants and nuclear power generation plants; programming services related to reactor protection systems and neutron monitoring systems for ABWR (advanced boiling water reactor) plants, installation, maintenance and repair of computer software for use in computerised control systems, distributed control systems, instrumentation and control systems, controllers, safety controllers and functional safety controllers; installation, maintenance and repair of computer software for use in computerised control systems, distributed control systems, instrumentation and control systems, controllers, safety controllers and functional safety controllers for use in safety or security critical processes or plants including power generation plants and nuclear power generation plants, installation, maintenance and repair of computer software for use in reactor protection systems and neutron monitoring systems for ABWR (advanced boiling water reactor) plants, advisory and consultancy services related to the aforesaid services.

Software for real estate document search and retrieval; software for accessing real property information and data; software in the field of flood zone maps and determinations; Software for real estate map and image search; Software for providing real property information, ownership and property information and data on comparables, maps, valuation and pricing data, mortgage marketing, loan recording information and lender market share information and digitized images of real property and maps; software for providing automated valuation models for real estate appraisals in the fields of mortgage lending and investing; software enabling users to view real estate transaction data; software for transmitting, uploading and viewing ordering information for appraisals, automated valuation models (AVMs), flood determinations, compliance products, and title and closing documents and for transmitting, uploading, viewing and storing client information and loan data; software for use as an automated valuation model for real estate property assessment which produces real property valuation reports to others based on use of the automated valuation model; software for use as an automated valuation model for real estate property assessment and creation of real property valuation reports for others; software in the field of real estate information to host software that collects, edits, organizes, modifies, bookmarks, transmits, stores and shares data and information, that creates searchable and extractable databases of information and data and that permits access to information directories; software for mortgage professionals that allows users to capture, upload, review, manage, and share documents, data and information; software for use in database management in the field of mortgage underwriting; software for accessing real property information from multiple data sources and viewing images thereof; software for providing predictive analytics for property valuation; software for distributing and managing real estate property information; software for real estate document tracking; software for mortgage loan portfolio analysis; software for open lien searches; mobile application software for real estate document search and retrieval; software for accessing real property information and data; software in the field of flood zone maps and determinations; mobile application software for real estate map and image search; mobile application software for providing real property information, ownership and property information and data on comparables, maps, valuation and pricing data, mortgage marketing, loan recording information and lender market share information and digitized images of real property and maps; mobile application

software for providing automated valuation models; mobile application software enabling users to view real estate transaction data providers for use by real estate and financial services professionals; mobile application software for transmitting, uploading and viewing ordering information for appraisals, automated valuation models (AVMs), flood determinations, compliance products, and title and closing documents and for transmitting, uploading, viewing and storing client information and loan data; mobile application software programs for use as an automated valuation model for real estate property assessment which produces real property valuation reports to others based on use of the automated valuation model; mobile application software programs for use as an automated valuation model for real estate property assessment and creation of real property valuation reports for others; mobile application software programs in the field of real estate information to host software that collects, edits, organizes, modifies, bookmarks, transmits, stores and shares data and information, that creates searchable and extractable databases of information and data and that permits access to information directories; mobile application software programs that allows users to capture, upload, review, manage, and share documents, data and information; mobile application software programs for use in database management in the field of mortgage underwriting; mobile application software programs for accessing real property information from multiple data sources and viewing images thereof; mobile application software programs for providing predictive analytics for property valuation; mobile application software programs for distributing and managing real estate property information; mobile application software programs for real estate document tracking; mobile application software programs for mortgage loan portfolio analysis; mobile application software programs for open lien searches

## **Services**

### **Class 35**

(1) Providing a database featuring real property tax information; Providing an online searchable database featuring real estate tax assessment information; real estate title transfer and recordation services; providing business market information for use by others to evaluate the market conditions of residential areas, namely, providing market information relating to historical, current and forecasted inventory levels, delinquencies, foreclosures, real estate owned (REO) properties and property values; providing computerized online searchable databases over a global computer network featuring real property tax information, amounts due and status; Providing an online searchable database featuring real estate tax information, namely, real estate property tax payment tracking services to assure compliance with tax laws; providing information in the field of real property, namely, real property tax informational data compiled from public records.

### **Class 36**

(2) Providing real estate information via a global computer network; providing information in the field of real estate, namely, real property sales data compiled from public records, real property characteristics data and real property sales and mortgage history; providing an on-line electronic database on global computer networks in the field of real property information, namely, ownership and property information and data on comparables, maps, valuation and pricing data, loan recording information and lender market share information and digitized images of real property and maps; providing an on-line computer database in the field of real estate through search and data retrieval software for accessing and downloading real property information from multiple data sources; Providing an on-line searchable database featuring information on real estate, namely, the delivery of property ownership reports, legal and vesting reports, real estate document images, automated valuation models and flood reports; Providing an on-line searchable database featuring information on real property valuations and real property appraisals; Providing an on-line

searchable database featuring information on real property flood zone determinations; providing computerized online searchable databases over a global computer network featuring digitized images of real property documents in the field of real estate information in the nature of portfolio analysis and trends; financial analysis services, namely, providing an on-line searchable database featuring financial information in the field of real estate public property records for portfolio analysis and trend analysis; Providing an online website that allows the submission of documents for recordation, namely, a public document filing service in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; providing an on-line electronic database on global computer networks in the field of real property sales and marketing; Providing an online searchable database featuring information in the field of real estate, namely, real estate document images and real property data elements for business transaction purposes.

### **Class 38**

(3) Providing an on-line website that allows the electronic delivery of title documents in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing.

### **Class 42**

(4) Providing a secured-access website featuring technology that enables users to upload, view, copy, print, download, share and manage access to documents and information in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Providing an online computer website featuring technology that enables users to search, share and manage mortgage documents and records; Providing on-line non-downloadable computer software for real estate document search and retrieval; Providing on-line non-downloadable computer software for accessing real property information and data; Providing on-line non-downloadable computer software for use in accessing, viewing, downloading, and printing information and documents in the field of flood zone maps and determinations; Providing on-line non-downloadable computer software for use in accessing, viewing, downloading, and printing information and documents in the field of digitized images of real property and maps; Providing on-line non-downloadable computer software for use in accessing, viewing, downloading, and printing information and documents in the field of real property information, ownership and property information and data on comparables, maps, valuation and pricing data, mortgage marketing, loan recording information and lender market share information and digitized images of real property and maps; Providing on-line non-downloadable computer software that provides automated valuation models for real estate appraisals in the fields of mortgage lending and investing; Providing on-line non-downloadable computer software enabling users to view data from web-based real estate transaction data providers for use by real estate and financial services professionals; Providing on-line non-downloadable computer software for transmitting, uploading and viewing ordering information for appraisals, automated valuation models (AVMs), flood determinations, compliance products, and title and closing documents in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; providing on-line non-downloadable computer software for transmitting, uploading, viewing and storing client information and loan data in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Providing temporary use of on-line non-downloadable software programs for use as an automated valuation model for real estate property assessment which produces real property valuation reports to others based on use of the automated valuation model; Providing temporary use of on-line non-downloadable software programs for use as an automated valuation model for real estate property assessment and creation of real property valuation reports for others; Providing temporary use of on-line non-downloadable software programs in the field of real estate information to host software that

collects, edits, organizes, modifies, bookmarks, transmits, and shares data and information, that creates searchable and extractable databases of information and data and that permits access to information directories that may be downloaded from a global computer network; Providing temporary use of on-line non-downloadable software programs that allows users to capture, review, manage, and share documents, data and information in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Providing temporary use of on-line non-downloadable software programs for use in database management in the field of mortgage underwriting; Providing temporary use of on-line non-downloadable software programs for accessing real property information from multiple data sources and viewing images thereof; Providing temporary use of on-line non-downloadable software programs for providing predictive analytics for property valuation; Providing temporary use of on-line non-downloadable software programs for distributing and managing real estate property information; Providing temporary use of on-line non-downloadable software programs for real estate document tracking; Providing temporary use of on-line non-downloadable software programs for mortgage loan portfolio analysis; Providing temporary use of on-line non-downloadable software programs for open lien searches; Software as a service (SAAS) services featuring software for real estate document search and retrieval; Software as a service (SAAS) services featuring software for accessing real property information and data; Software as a service (SAAS) services featuring software in the field of flood zone maps and determinations; Software as a service (SAAS) services featuring software for use in accessing, viewing, downloading, and printing information and documents in the field of digitized images of real property and maps; Software as a service (SAAS) services featuring software for use in accessing, viewing, downloading, and printing information and documents in the field of real property information, ownership and property information and data on comparables, maps, valuation and pricing data, marketing, loan recording information and lender market share information and digitized images of real property and maps; Software as a service (SAAS) services featuring software for transmitting, uploading and viewing ordering information for appraisals, automated valuation models (AVMs), flood determinations, compliance products, and title and closing documents in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; software as a service (SAAS) services featuring software for transmitting, uploading, viewing and storing client information and loan data in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Software as a service (SAAS) services featuring software for use as an automated valuation model for real estate property assessment which produces real property valuation reports to others based on use of the automated valuation model; Software as a service (SAAS) services featuring software for use as an automated valuation model for real estate property assessment and creation of real property valuation reports for others; Software as a service (SAAS) services featuring software for accessing real property information, information on property titles and real estate settlements, property ownership, real property tax information, amounts due and status, title chains, detailed parcel history chains, transfer and finance transaction histories, property titles, title plants, real property information, real property characteristic information, owner names, property encumbrances and digitized images of real property documents; Software-as-a-service provider (SaaS) in the field of real estate information to host software that collects, edits, organizes, modifies, bookmarks, transmits, and shares data and information, that creates searchable and extractable databases of information and data and that permits access to information directories that may be downloaded from a global computer network in the field of real estate information; Software as a service (SAAS) services featuring software that allows users to capture, review, manage, and share documents, data and information in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Software as a service (SAAS) services featuring software for use

in database management in the field of mortgage underwriting; Software as a service (SAAS) services featuring software for accessing real property information from multiple data sources and viewing images thereof; Software as a service (SAAS) services featuring software for providing predictive analytics for property valuation; Software as a service (SAAS) services featuring software for distributing and managing real estate property information; Software as a service (SAAS) services featuring software for real estate document tracking; Software as a service (SAAS) services featuring software for mortgage loan portfolio analysis; Software as a service (SAAS) services featuring software for open lien searches; Providing temporary use of on-line non-downloadable cloud computing software for real estate document search and retrieval; Providing temporary use of on-line non-downloadable cloud computing software for accessing real property information and data; Providing temporary use of on-line non-downloadable cloud computing software in the field of flood zone maps and determinations; Providing temporary use of on-line nondownloadable cloud computing software for use in accessing, viewing, downloading, and printing information and documents in the field of digitized images of real property and maps; Providing temporary use of on-line non-downloadable cloud computing software for use in accessing, viewing, downloading, and printing information and documents in the field of real property information, ownership and property information and data on comparables, maps, valuation and pricing data, mortgage marketing, loan recording information and lender market share information and digitized images of real property and maps; Providing temporary use of on-line non-downloadable cloud computing software for transmitting, uploading and viewing ordering information for appraisals, automated valuation models (AVMs), flood determinations, compliance products, and title and closing documents in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; providing temporary use of on-line non-downloadable cloud computing software for transmitting, uploading, viewing and storing client information and loan data in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Providing temporary use of on-line non-downloadable cloud computing software for use as an automated valuation model for real estate property assessment which produces real property valuation reports to others based on use of the automated valuation model; Providing temporary use of on-line nondownloadable cloud computing software for use as an automated valuation model for real estate property assessment and creation of real property valuation reports for others; Providing temporary use of on-line non-downloadable cloud computing software for accessing real property information, information on property titles and real estate settlements, property ownership, real property tax information, amounts due and status, title chains, detailed parcel history chains, transfer and finance transaction histories, property titles, title plants, real property information, real property characteristic information, owner names, property encumbrances and digitized images of real property documents; Providing temporary use of on-line nondownloadable cloud computing software in the field of real estate information to host software that collects, edits, organizes, modifies, bookmarks, transmits, and shares data and information, that creates searchable and extractable databases of information and data and that permits access to information directories that may be downloaded from a global computer network; Providing temporary use of on-line non-downloadable cloud computing software that allows users to capture, review, manage, and share documents, data and information in the fields of real estate, real property, mortgages, mortgage underwriting, mortgage lending and mortgage investing; Providing temporary use of on-line non-downloadable cloud computing software for use in database management in the field of mortgage underwriting; Providing temporary use of on-line nondownloadable cloud computing software for accessing real property information from multiple data sources and viewing images thereof; Providing temporary use of on-line non-downloadable cloud computing software for providing predictive analytics for property valuation; Providing temporary use of on-line nondownloadable

cloud computing software for distributing and managing real estate property information; Providing temporary use of on-line non-downloadable cloud computing software for real estate document tracking; Providing temporary use of on-line non-downloadable cloud computing software for mortgage loan portfolio analysis; Providing temporary use of on-line non-downloadable cloud computing software for open lien searches; Providing temporary use of on-line non-downloadable cloud computing software for providing access to real estate information and real estate documents and allows users to create property profiles, property packages, farm packages, ownership and encumbrance reports, parcel maps and other real estate reports.

#### **Class 45**

(5) Providing computerized title databases over a global computer network featuring information in the field of real property title for use in conducting real property title searches and retrieving related documents in the fields of title insurance and title examination; providing computerized online searchable databases over a global computer network featuring real property title information, information on real property ownership as it relates to real property title, real property titles, title plants, and real property encumbrances and digitized images of real property documents in the field of title insurance, title examination, real estate portfolio analysis and trends, and real estate portfolio data and analytics; providing computerized online searchable databases over a global computer network featuring real property title information, title chains, detailed parcel history chains, property titles, title plants, title and ownership transfer and finance transaction histories, real property title information, real property characteristic information, real property owner names, and real property document images in the field of title insurance, title examination, and real estate title data and analytics; provision of safety information about the physical condition of real estate, namely, providing safety information regarding natural hazard, man-made hazard, environmental hazards and other hazardous conditions regarding real estate; providing an on-line searchable database featuring information in the field of real estate public property records in the field of title insurance, title examination, and real estate title data and analytics; providing real property transaction histories; Providing an online searchable database featuring title-related information in the field of real property, namely, the delivery of real property ownership reports, title plants, legal investigating reports, and title vesting reports; providing an on-line electronic database on global computer networks in the field of real property information, namely, title ownership.

**Public notices under section 9 of the *Trademarks Act***

---

Application Number 926,032

**PROHIBITED MARK DETAILS**

The Registrar hereby gives public notice under subparagraph 9(1)(n)(iii) of the Trademarks Act, of the adoption and use in Canada by Resort Municipality of Whistler of the mark shown here, as an official mark for goods and services.

**Description**

The colours green and blue are described as an element of the mark. The mark consists of a mountain design and the word WHISTLER in block letters below the mountain design. The mountain design has a fanciful letter "W" at the left side that is featured in green, and a fanciful inverted letter "V" at the right side that is featured in blue. The word WHISTLER is featured in blue.
