Trademarks Journal

2020-10-07 — Vol. 67 No. 3441

Trademarks Journal

Vol. 67 No. 3441

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

APPLICANT AND AGENT DETAILS**Applicant**

Pebble Bed Modular Reactor SOC Ltd.
Building G, Lyttelton Office Park
1 Shelanti Avenue, Centurion
Gauteng, 0046
SOUTH AFRICA

Agent

GOWLING WLG (CANADA) LLP
550 BARRARD STREET, SUITE 2300,
VANCOUVER, BRITISH COLUMBIA, V6C2B5

TRADEMARK DETAILS**DAMD****Trademark Type**

Standard Characters

Goods**Class 01**

(1) chemicals for nuclear reactors, namely, uranium, uranium oxide, oxide, plutonium, plutonium oxide, thorium, thorium oxide, strontium; nuclear fuel and processing materials for use as fuel in nuclear power reactors; chemical additives for fuel

Class 04

(2) fuels, namely, crude oil, diesel oil, petroleum ether, petroleum (raw and refined); natural and synthetic fuel gas, coal, coke, coal naphtha and coal tar oil, and synthetic fuels for domestic and industrial heating applications

Class 09

(3) electronic nuclear reactor control systems, namely, computer hardware, software, and programmable systems for monitoring, controlling, and protecting functions in nuclear reactors; digital control systems for shutting down nuclear reactors when predefined set-points of physical parameters are reached; digital control systems for receiving input signals from sensors measuring physical variables of nuclear reactors and for generating output signals for actuators controlling nuclear reactors; radiation safety control systems in nuclear power plants

Services**Class 35**

(1) retail sale of specialist software packages as design support tools

Class 37

(2) specialized, research, consultancy, advisory and expert services for the installation, construction and operation of nuclear reactor plants and nuclear power installations; engineering services, namely, installation of nuclear reactor management systems

Class 38

(3) providing online access to third parties of specialized software as design support tools

Class 40

(4) Production of nuclear energy and electricity; nuclear fuel production and uranium-based nuclear fuel conversion and processing; processing, reprocessing, isotopic separation, recycling and conversion services for fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; chemical treatment, namely, the treatment of nuclear reactor generators and components; decontamination of equipment exposed to radiation; preparing and treatment of fuels in the nuclear field

Class 41

(5) education and training services, namely, those relating to the nuclear power and electricity industry in the field of operating a nuclear power plant

Class 42

(6) specialized, research, consultancy, advisory and expert services for the design of nuclear reactor plants and nuclear power installations; engineering services, namely, nuclear reactor and power plant engineering services, nuclear reactor project management services, design and development of nuclear reactor management systems, information technology consulting services in the field of nuclear reactors, computer programming services; scientific, technological and industrial research relating to nuclear reactors, nuclear power stations, nuclear fuel and materials; analysis, assessment, monitoring and measuring services in the field of nuclear reactor plants, power stations; testing nuclear materials for use in nuclear power stations, prospecting and exploiting fuel resources;

Design
Position

Visual Representation

Trademark Description

The trademark consists of the position of a design applied to a three-dimensional object, as shown in the visual representation. The design consists of a sleeve with circular holes arranged in a repeating stacked polka dot design applied to the surface of the three-dimensional object. The three dimensional object shown in dashed outline does not form part of the trademark but is included merely to show the position of a sign.

Services

Class 35

(1) maintenance of asset registers for others; business management advisory and consultancy services including in relation to occupational health and safety; risk management consultancy services in the field of occupational health and safety; risk and compliance auditing of facilities; procurement services, namely procurement of contracts for others; placement of staff; business management advisory services including business opportunity analysis and project identification services; consultancy services, namely, business document management; risk management consultancy services, namely, project and contract risk management services; supply of environmental and oceanographic monitoring systems; business project management services, namely, project scheduling and project planning services; contract management services, namely, services relating to negotiations of contracts, procurement of contracts and procurement services for others, namely, procurement in the form of purchasing equipment, subcontractors and other contractors; procurement services in the field of construction, namely, purchasing construction services in the field of building, civil, and civil engineering construction; Information technology services, namely, procurement services, namely, procurement of contracts and procurement services for others, namely, procurement in the form of purchasing equipment, subcontractors, and other contractors; business consulting services in the field of information technology, namely, in the field of the use, operation, installation, configuration, analysis, integration, application, development, programming, support, maintenance, repair, networking, virtualization and security of computers, computer hardware, computer networks (namely, private, international, local, wide area, and global computer networks), computer networking hardware, databases, websites and computer software (namely, application software, business software, business intelligence software, cloud computing software, data analysis software, database software and operating

systems software for computers, servers, websites, databases and mobile devices, namely, mobile phones, smart phones and tablets);

Class 36

(2) asset management services, namely, property management and financial management in the sectors of hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure; asset management, namely, risk management services relating to risks and technology in the sectors of hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure, and technology management services in the sectors of hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure; financial and insurance risk management and advisory services: environmental and carbon brokerage services; carbon trading services;

Class 37

(3) construction management services; construction project management of mechanical, process, instrument, railway, water, power systems, environmental, coastal, maritime, pipeline, fire and safety, electrical, structural, civil engineering and capital works projects; engineering construction services, namely structural, civil, process mechanical, electrical, environmental, maintenance, instrumentation, railway, coastal, maritime, pipeline, fire and safety engineering services; inspection of construction plans; construction supervision, namely, on-site construction supervision of structural and civil engineering works; supervision of construction contracts; construction services, namely building, civil, and civil engineering construction services; advisory services relating to construction; supervision and management of demolition of buildings and constructions; information and advisory services in the field of demolition of buildings and constructions; geological and geophysical mapping and interpretation services, namely, advice for drilling exploration and appraisals of wells; installation and maintenance of computer communications networks and computer equipment; installation and maintenance of environmental and oceanographic computer monitoring systems;

Class 40

(4) operation and maintenance of energy production facilities for use in the fields of hydrocarbons, renewable energy and emerging technologies, namely, hydro, solar, wind, bio-energy, geothermal, tidal, coal-fired and gas fired technologies, and nuclear power; supervision and management of decontamination of hazardous materials; destruction of waste; supervision and management of waste removal and storage including waste recycling; treatment of waste water, decontamination of hazardous materials, waste recycling;

Class 41

(5) conducting of educational courses and training, namely, educational courses and training in the field of engineering, occupational health and safety;

Class 42

(6) water quality control services; carbon offsetting services; information and advisory services in the field of carbon offsetting services; advisory services in the field of engineering project safety; technical advice in the field of occupational health and safety; provision of information in the field of information technology, namely, in the field of the use, operation, installation, configuration, analysis, integration, application, development, programming, support, maintenance, repair, networking, virtualization and security of computers, computer hardware, computer networks (namely, private, international, local, wide area, and global computer networks), computer networking hardware, databases, websites and computer software (namely, application software,

business software, business intelligence software, cloud computing software, data analysis software, database software and operating systems software for computers, servers, websites, databases and mobile devices, namely, mobile phones, smart phones and tablets); Information technology services, namely, project management services in the fields of information technology, namely, in the field of the use, operation, installation, configuration, analysis, integration, application, development, programming, support, maintenance, repair, networking, virtualization and security of computers, computer hardware, computer networks (namely, private, international, local, wide area, and global computer networks), computer networking hardware, databases, websites and computer software (namely, application software, business software, business intelligence software, cloud computing software, data analysis software, database software and operating systems software for computers, servers, websites, databases and mobile devices, namely, mobile phones, smart phones and tablets); computer programming; engineering and engineering design services in the fields of hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure; engineering advice to the insurance and legal industry; research services, namely, technical and commercial due diligence services in the field of mining and exploration of hydrocarbons, minerals, metals, chemicals and construction of civil infrastructure, namely, transportation, water, energy and sewage infrastructure; conducting feasibility studies, namely, analysis and feasibility studies in the field of engineering feasibility studies and computer, computer software and design feasibility studies; analysis of the structural behaviour of buildings and building materials; industrial crash and impact simulations; industrial metal-forming and deforming simulations; industrial failure investigations; engineering project studies and engineering project management services; engineering design and drafting services, namely, drawing of plans for buildings and for infrastructure services and projects relating to civil engineering for transport, energy, utilities, water and social infrastructure; mediation services including industrial relations mediation services; architectural services including planning, design, project management and preparation of architectural reports services; certification services in the field of civil engineering, hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure; development, provision and support of software; advisory services in the field of occupational health and safety; quality control services, namely, the testing of water quality measurement systems, structures and processes in the fields of civil engineering, hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure; quality control services, namely, quality control and quality assurance of geotechnical investigations and civil engineering installations; design of computer communication networks and computer equipment; design of environmental and oceanographic monitoring systems; materials testing including corrosion testing; consultancy in the field of energy saving; environmental consultancy and advisory services, namely, environmental hazard assessment, testing and monitoring services, and environmental Impact statements and assessments; preparation of technical projects, technical research and consultancy services in the field of carbon offsetting; information and advisory services in the field of preparation of technical projects, technical research, and consultancy services in the field of carbon offsetting; research studies in the field of healthcare, namely, the management and treatment of illness and disease, medical and paramedical treatment, preventative medicine, medical clinics, medical counseling, medical laboratory services; project studies in the field of safety, namely, workplace safety, occupational health and safety, and building, construction, oil and gas safety;

Class 44

(7) risk management consultancy services in the field of occupational health and safety; provision of information and consultancy services in the field of healthcare, namely, the management and

treatment of illness and disease, preventative medicine, medical clinics, medical laboratory services;

Class 45

(8) evaluation and testing services in the field of workplace safety and construction safety; provision and coordination of expert witness services in the field of hydrocarbons, minerals and metals, chemicals and infrastructure, namely, transportation, water, energy and sewage infrastructure; inspection of buildings and workplaces in the infrastructure, civil engineering, mining and minerals, hydrocarbons sectors in relation to safety; fire safety consultancy services; information and consultancy services in the field of workplace safety, occupational health and safety, and building, construction, oil and gas safety;

Goods

Class 02

(1) Inks, toners and dyes for use with or on textiles and fabrics; Metallic inks; Inks, toners and dyes for use with or on textiles and fabrics; conductive inks

Class 09

(2) electrically conductive fibers, namely, metallized fibers for conducting electrical charges; electrically conductive flexible circuits of conductive fibers for use in the manufacture of surgical, medical, dental and veterinary apparatus and instruments, and, artificial limbs, eyes and teeth

(3) wearable electronics namely signal processors incorporating bioelectric sensor circuits and bioelectric sensors to be woven into textiles and clothing; electric or electronic sensors for bioelectric signal detection; protective sports helmets

Class 10

(4) orthopedic articles, namely, orthopedic belts, orthopedic braces, orthopedic footwear, orthopedic soles, orthopedic support bandages and orthopedic supports; suture materials, namely, sutures; electrically conductive flexible circuits for medical uses sold as a component of cardiac electrodes, heart pacemakers, cardiac probes, and electronic stimulator for nerve, skin and muscle; electrically conductive flexible circuits for medical uses incorporated as an integral component of heart monitors, pulse measuring devices, pulse rate monitors and respiration monitors; textile fabrics made from yarns or fibers coated with electrically conductive material and finely chopped or ground fibers coated with electrically conductive material for medical uses sold as a component of electric blankets for medical purposes and electric heating pads for medical purposes

(5) medical products, namely, biofeedback sensors; heart rate monitors; heart rate monitors for sports activities; medical apparatus and instruments for monitoring heart rate, namely, heart monitors; monitors to track and display the user's physical exertion; monitors to track and display the user's muscle movement; monitors to track and display the user's body positioning and skeletal alignment

Class 11

(6) electric heating pads and electric blankets comprised of knitted, woven, and non-woven fabrics coated with electrically conductive material, all not for medical purposes

Class 22

(7) textile fibers; Yarn fibers; Semi-synthetic fibers for textile use

Class 23

(8) metallic yarns and threads, for textile use

(9) semi-synthetic fiber thread and yarn, namely natural fiber yarn bonded with silver

Class 24

(10) knitted, woven, and non-woven fabrics coated with electrically conductive material for textile use; textile fabrics made from yarns or fibers coated with electrically conductive material and finely chopped or ground fibers coated with electrically conductive material for use in the manufacture of clothing, body monitoring devices and body worn communication systems

(11) semi-synthetic fiber fabrics; Synthetic fiber fabrics; fabrics for textile use; Fabrics for the manufacture of sensors; knitted fabrics; textile fabrics for the manufacture of clothing

Class 25

(12) clothing, namely, shirts, jackets, pants, shorts, athletic uniforms, undergarments, sports bras, socks, hosiery, gloves, footwear, namely, sneakers, shoes, boots and sandals and headwear, namely, hats and caps; Helmet liners; fabric sold as an integral component and liner of finished clothing items, namely, shirts, jackets, pants, shorts, athletic uniforms, undergarments, sports bras, socks, hosiery, gloves, footwear and headwear

Goods

Class 09

(1) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signaling, life-saving and teaching apparatus and instruments, namely, Satellite instruments for atmospheric sounding and Earth imaging; magnetic data carriers, namely, earth observation data archives and ground station designed for reception of radio waves from astronomical radio sources; computers; weather balloons; scientific apparatus and instruments for use in meteorology and climatology; satellites; satellite computers; satellite receivers; satellite equipment, namely, satellite aerials; satellite transmitters and satellite receivers; satellite antennas; satellite navigation equipment; satellites being target surveillance apparatus; satellites for scientific purposes; satellite for signal transmission; software for the analysis of satellite imagery; recorded computer programs for use in database management; downloadable computer programs for use in database management; stored programs in the nature of computer software for use in database management; saved computer operating programs; data processing equipment, namely computer hardware; distance measuring apparatus; downloadable electronic publications in the nature of annual reports; strategy reports in the field of meteorology; electronic devices, namely USB flash drives and hard disk drives, for storing data; prerecorded compact Discs and DVDs in the fields of meteorological, environmental and climatology information; computer terminals for data processing in the fields of meteorological, environmental and climatology information; remote control devices for satellites, namely remote controllers for satellites; image recognition software.

Class 16

(2) Paper; printed matter, namely, reports in the field meteorology, environmental monitoring and climatology; bookbinding material; photographs; printed instructional and teaching materials, namely books, brochures and magazines, in the field of meteorology; brochures about meteorology, environmental monitoring and climatology; booklets in the field of meteorology; printed forms; printed forms in the field of meteorology; printed business forms; printed magazines featuring meteorology, environmental monitoring and climatology; newspapers; printed reports featuring meteorology, environmental monitoring and climatology; drawings; atlases; books in the

field of meteorology; geographical maps; globes, namely, terrestrial globes; cards, namely, geographical cards, meteorological cards; printed schedules; almanacs; calendars; arithmetic table; printed advertising boards of paper; printed advertising boards of cardboard; stationery in the nature of document files.

Services

Class 35

(1) Business management; Business administration; Business organization services; Computerized file management; automated compilation and systematization of data in computer databases; Compilation of statistical data; Compilation and systematization of data in computer databases; Updating and maintenance of data in computer databases comprising meteorological, environmental and climatology information and data; compilation, updating and maintenance of data stored in computer databases comprising meteorological, environmental and climatology information and data.

Class 38

(2) Satellite broadcasting, namely satellite radio and television broadcasting in the fields of meteorology, environment and climate; satellite telecommunications services, namely, sound and image transmission via satellite; rental of satellite transmission capacity; operation of telecommunications satellites; telecommunications services for the operation of satellite-to-earth receiving antennas; telecommunication services for the operation of the earth-satellite television channels; telecommunications, namely, transmission of visual images and meteorological data by computer terminals, via telematics, satellites, radio, telegraphy, telephones; telecommunication services for providing online-information, namely, transmission of meteorological, environmental and climatological information by means of a global computer network; data communication services by means of e-mail; provision and rental of access time to databases; providing access to data or documents stored electronically in central files for remote access.

Class 39

(3) Physical storage of electronically stored data and documents; Positioning of live animals for conducting environmental consulting services.

Class 40

(4) Processing of aerial and satellite images; Photographic image processing.

Class 41

(5) Education, namely, massive open online courses (aka MOOCs) in the fields of meteorology, environmental studies, and climatology; training in the field of meteorology, environmental studies, and climatology; entertainment services in the nature of audio-visual videos in the fields of meteorology, environmental studies, and climatology; organization of educational competitions in the fields of meteorology, environmental studies, and climatology; educational services, namely, conducting seminars in the fields of meteorology, environmental studies, and climatology; organization of conferences in the fields of meteorology, environmental studies, and climatology for non-business and non-commercial purposes; organization of educational competitions and award ceremonies in the fields of meteorology, environmental studies, and climatology; organization of educational conventions and conferences in the fields of meteorology, environmental studies, and climatology; training services, namely, arranging, conducting and organizing workshops in the fields of meteorology, environmental studies, and climatology; arranging, conducting and organizing educational congresses in the fields of meteorology, environmental studies, and climatology; arranging, conducting and organizing educational symposia in the fields of meteorology, environmental studies, and climatology; arranging,

conducting and organizing educational conferences in the fields of meteorology, environmental studies, and climatology; arranging, conducting and organizing seminars in the fields of meteorology, environmental studies, and climatology, and in the field of meteorological, environmental and climatological information and data.

Class 42

(6) Design and development of computer hardware and software; Research on meteorology, environment and climate; Provision of meteorological information; namely prognosis regarding meteorology, environment and climate; Provision of information relating to meteorology, environment and climate; Provision of meteorological information in the nautical field; Computer programming; Analyzes the installation of computer systems; Advisory services relating to environmental and climate protection; Environmental consulting, namely resource management in terms of forest protection; geological prospecting; Research relating to geology, environment and climatology; Conducting scientific studies relating to geology, environment and climatology; Land surveying; Urban planning; Providing meteorological information; Development and research services regarding new products for others; data encryption and decryption; Conversion of document data between computer formats; Encryption of digital images.

Authorisation For Use

Consent from Heston Blumenthal is of record.

Goods

Class 03

(1) Grill degreaser, barbeque and grill cleaner.

Class 08

(2) Cutlery; fire tongs; barbeque knives.

Class 11

(3) Apparatus for lighting, namely indoor and outdoor lamps, electric lighting fixtures, and parts and accessories for the aforementioned; apparatus for heating, namely, gas fires, gas patio heaters, gas convection heaters, gas space heaters, gas radiant heaters for household purposes and electric heaters, electric patio heaters, electric radiant heaters for household purposes, electric space heaters, portable electric heaters, space heaters for household use, and parts and accessories for the aforementioned; apparatus for cooking namely, barbeques smokers, portable charcoal, propane and gas barbeques, gas and electric stoves, kitchen stoves, gas cooktops, electric cooktops, and parts and accessories for the aforementioned; mobile preparation kitchens, namely, mobile cabinets, storage and cutting areas for use with outdoor cooking and parts and accessories therefor; culinary and household apparatus and appliances in this class, namely range hoods, canopy range hoods, gas-powered griddles cooking appliance, charcoal roasters for household purposes, warming pans, and parts and accessories for the aforementioned; domestic heating apparatus, namely, gas fires, gas patio heaters, gas convection heaters, gas space heaters, gas radiant heaters for household purposes and electric heaters, electric patio heaters, electric radiant heaters for household purposes, electric space heaters, portable electric heaters, space heaters for household use, and parts and accessories for the aforementioned; ovens namely convention ovens, commercial cooking ovens for household purposes, gas cooking ovens for household purposes, electric cooking ovens for household purposes, baking ovens, barbeques, cookers, namely gas cookers, electric pressure cookers, outdoor cookers, slow cookers, steam

cookers, rotisseries, barbeque grills, cooking grills, electric indoor and outdoor grills, gas grills, charcoal grills, travel bags for barbeques and grills, hot plates, and stoves, and parts and accessories for the aforementioned; lava rocks for use in barbecue grills.

Class 21

(4) Household and kitchen utensils, namely rubber household gloves, barbecue mitts, kitchen mitts, Barbecue tongs, cooking utensils, Barbecue turners, cutting boards, pizza shovels, pizza pans; plastic and metal containers for kitchen and household use, namely, food storage containers, pail containers, garbage containers; cookware namely pots and pans and covers for pots and pans and food storage containers, thermal insulated containers for food and beverages, beverage containers (not of precious metal or coated therewith); crockery; drinking utensils namely cups, flasks, glasses; brushes (except paint brushes) namely basting brushes, culinary brushes for basting meat and vegetables, household and kitchen scrubbing brushes; articles for cleaning purposes namely scourers, sponges, cloths; beverage glassware, table glassware, painted glassware, dinnerware, tableware, namely plates, dishes, bowls; cooking pans, pots and pans, cookware; non-electric cooking pans, cookware and cooling utensils; roasting racks, warming racks, grill plates, drip trays; grill cleaning scrapers; salad tongs, serving tongs, meat tongs, kitchen tongs, spatulas for kitchen use; barbeque forks.

Services

Class 37

Installation, maintenance and repair of household apparatus and appliances, namely range hoods, canopy range hoods, cooking pans, gas-powered griddles cooking appliance, non-electric cooking pans, charcoal roasters for household purposes, warming pans, cookware and cooling utensils; installation, maintenance and repair of domestic heating apparatus, ovens, barbeques, cookers, rotisseries, grills, hot plates and stoves.

Goods

Class 01

(1) propagating and growing media for seeds and plants consisting wholly and principally of mineral fibres; fertilized preparations and bases of mineral wool for growing plants; boards of mineral wool for use in the culture of plants; growing substrates of stone wool fibres, namely, blocks and plugs for propagation; unprocessed artificial resins for use in composite rubber, thermoplastic and thermosetting plastic systems; unprocessed plastics; fire extinguishing compositions; tempering chemicals for use in metalworking and soldering; adhesives used in industry, namely adhesives containing stone wool fibres for use in the construction industry; chemical fibres for use in the manufacture of paints, especially for strengthening of coatings and paints

Class 17

(2) insulating materials of mineral wool; insulating building materials of mineral wool; insulating refractory materials; insulants in the form of strips, felt, mats, boards, slatted mats, shaped parts for insulation and sealing against heat, cold, fire, sound, vibrations, air, light and humidity, moisture, damp and vapour, including sound absorbing materials for acoustic regulation; acoustic and thermal insulation articles and materials; insulation and vapour barrier articles and materials, namely insulating vapour barrier membranes; stone wool insulation in the form of floor, wall and

roof coverings; mineral wool fibres in the form of matting for insulation; mineral wool fibres for insulation; processed mineral fibres for use in the manufacture of seals, sealants, fillers and gaskets; boards of extruded mineral wool, shells of mineral wool, blankets of mineral wool, mineral wool stucco and mineral wool felt, loose and semi-finished granulated mineral wool and loose and semi-finished mineral wool fibres for manufacture of reinforcing and filling materials for insulation; insulating mineral wool fibres for use in sealing and gasketing applications in the automotive and building industry; electrical insulating boards; friction materials, namely stone wool fibres having application in friction pads for disc brakes, brake linings, clutch facings and blocks all for use in commercial vehicles and trains; mineral wool boards for ventilated constructions, for façade cladding, roof detailing, soffits and fascias; building materials, namely soundproofing materials containing stone wool fibres for use in road and track constructions

Class 19

(3) ceiling panels of mineral fibres; wall, floor and ceiling panels, all made of mineral wool and fibres; building materials, namely anti-vibration materials containing stone wool fibres for use in road and track constructions; fences of stone wool; processed mineral fibres for use in the manufacture of cements and plaster for building purposes; processed mineral fibres for use in the manufacture of asphalt sealants and of sealants for driveways and roofing

Goods

Class 29

(1) Albumen for food, Alimentary preserves made of fish, Bean curd, Canned beans, Canned fish, Canned fruits, Canned meat, Canned milk, Canned poultry, Canned pulses, Canned soups, Canned tomatoes, Canned vegetables, Chilled foods consisting predominantly of fish, Chilled meals made from fish, Chili, Chili con carne, Cooked meals consisting principally of fish, Cooked meals consisting principally of seafood, Cooked shellfish, Deep frozen fish, Dehydrated beef extract, Dried fish, Edible fish oil, Edible seaweed, Edible shellfish, Egg white solids, Egg yolk solids, Egg-based dips, Fish namely not live, Fish balls, Fish cakes, Fish crackers, Fish eggs for human consumption, Fish extracts, Fish fillets, Fish fingers, Fish in olive oil, Fish jellies, Fish mousses, Fish paste, Fish sausages, Fish sticks, Fish with chips, Fish preserved, Fish tinned, Fluid egg, Fluid egg-yolk, Fluid white of egg, Food pastes made from fish, Food pastes made from meat, Food pastes made from poultry, Fresh fish namely not live, Frozen cooked fish, Frozen fish, Frozen seafood, Garlic namely preserved, Garlic butter, Garlic margarine, Garlic preserves, Ginger jam, Goose liver pate, Jellies for food, Liquid egg yolks, Liver, Liver pastes, Liver pate, Meat paste, Mushrooms preserved, Olive oil, Olive oil dip, Olive oil for food, Olive paste, Olives preserved, Pastes containing fish, Pickled fish, Preparations for making soup, Prepared fish-based dishes, Prepared foods consisting principally of fish, Prepared meals consisting principally of fish,

Prepared meals consisting principally of seafood, Preserved fish, Preserved meats, Preserved mushrooms, Preserved prepared meat, Preserved sausages, Preserved seafood, processed seafood namely canned abalone, canned lobster, canned sea cucumber and canned scallops, Rape oil for food, Roast beef flavoured extract, Salt water fish, Salted fish, Savoury butters, Sea-cucumbers namely not live, Seafood namely not live, Seafood extender, Seafood extracts, Seafood jellies, Seafood jerky, Seafood-based dips, Seaweed extracts for food, Sesame oil, Shellfish namely not live, Smoked fish, Smoked mackerel, Smoked meats, Smoked prepared meat, Smoked salmon, Smoked sausages, Soup cubes, Soup mixes, Soup pastes, Soup powders, Soup preparations, Soya bean curd, Soya bean milk, Soya bean milk in liquid and solid form, Soya bean oil for food, Soya bean protein, Soya oil for food, Squid namely preserved, Steaks of fish, Stem ginger, Suet for food, Tinned fish, Truffles preserved, Tuna fish, Vegetable oil for food, Vegetable soup preparations, Whole egg solids.

Class 30

(2) Barbecue sauce, Bean meal, Biological honey for human consumption, Canned spaghetti in tomato sauce, Chocolate flavoured coatings, Chocolate sauce, Dried sauce in powder form, Egg pies, Egg roll cookies, Condiments namely fish sauce, Abalone Sauce and Abalone Flavoured Sauce, Flavoured coffee, Flavoured popcorn, Flavoured rices, Flavourings made from fish, Garlic puree, Ginger bread, Ginger puree, Honey, Horseradish sauce, Hot chilli bean paste, Ketchup sauce, Malt extract for food, Natural honey, Pasta sauce, Pesto sauce, Pies containing fish, Preservatives for food namely salt, Salt for flavouring food, Sambal sauce namely ground red pepper sauce, Sandwiches containing fish fillet, Sauce mixes, Sauce powders, fish sauce, Savoury pastries, Sea salt for cooking, Sea salt for preserving foodstuffs, Sea water namely for cooking, Seasoning marinade, Seasoning mixes, Soy sauce, Soya sauce, Sushi, Sweet and sour sauce, Tartar sauce, Tomato sauce, Egg custards, Egg rolls.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of stylized letters for the word 'mixer'; the letters 'm', 'i' and the left side of the 'x' are white and the right side of the 'x' and the 'e' and 'r' are blue. The shaded rectangular carrier represents background only and is not part of the mark.

Goods

Class 09

(1) Computer hardware; computer software for live streaming of video games, and sharing of visual images, music, movies and animations; computer software for assisting developers in creating computer programs for live streaming of video games, and sharing of visual images, music, movies and animations; computer software for electronic mail, instant messaging, electronic exchange of messages via chat rooms; computer software for providing online social media networking services; computer software to allow users to purchase downloadable movies, television programs, music, sports games, computer games, video games, computer graphics, news podcasts, news webcasts, news weblogs, radio podcasts, ring tones and wallpaper for mobiles phones, smart phones and hand-held computers, electronic publications in the nature of magazines, books, newsletters and newspapers, via a global computer network; computer software to allow subscribers the ability to upload movies, television programs, music, sports games, computer games, video games, computer graphics, news podcasts, news webcasts, news weblogs, radio podcasts, ring tones and wallpaper for mobiles phones, smart phones and hand-held computers, electronic publications in the nature of magazines, books, newsletters and

newspapers via a global computer network; computer software for assisting developers in creating application programs for interactive streaming of digital media content, namely movies, television programs, sports games, computer games, video games, news podcasts, news webcasts, news weblogs, radio podcasts; software that enables users to designate specific content for future viewing; software for viewing television programs; mobile phones, smart phones, hand-held computers, tablet computers for streaming of music, movies, video recordings featuring video game play; computer games; electronic games; video games; computer software for organizing and storing digital content, namely video games, music, photos, videos, text; computer software for accessing, browsing and searching online databases; software for filtering internet searches; software, namely, parental control software for use in restricting access to online videos and games; downloadable music; downloadable video recordings featuring movies, animated cartoons; downloadable music files; downloadable movies and documentaries; downloadable movies; electronic publications of user manuals; software that allows gamers to live broadcast their games from a gaming console, and to watch games being played by others.

Class 28

(2) Game consoles and controllers.

Services

Class 35

(1) Advertising the goods and services of others; retail store services featuring video games; online retail store services featuring video games; retail store services featuring hardware and software for playing video games, and video recordings of video games; online retail store services for the sale of interactive multimedia computer games, video games, virtual reality games, headsets for use by members of an online community in connection with a designated website featuring streaming video games and related content; promoting the goods and services of others by arranging for sponsors to affiliate their good and services with video games; administration and coordination of team leagues in the field of video gaming; administering and coordinating opportunities for recreational video game playing for individuals who wish to participate in video game team leagues; providing a searchable website, portal, forum, application, and database where advertisers, marketers, and content providers can reach, engage, and interact with online users for the purposes of promotion or advertising; promoting the goods and services of others through placing advertising in conjunction with gaming; design of advertisements and advertising material for others.

Class 38

(2) Streaming of audio and video, namely, video games, music, movies, news via the Internet; streaming of videos featuring video games via the Internet; streaming of video games, music, movies via the Internet; video on demand transmission services; providing access to digital media content via a global computer network, namely downloadable movies, television programs, music, sports games, computer games, video games, computer graphics, news podcasts, news webcasts, news weblogs, radio podcasts, ring tones and wallpaper for mobiles phones, smart phones and hand-held computers, electronic publications in the nature of magazines, books, newsletters and newspapers on the Internet; providing a website for live streaming of video recordings of video games, music, movies and animations; online forums for transmission of messages among computer users; providing internet chat rooms; electronic mail and instant messaging services; electronic transmission of voice, sound, visual images and electronic messages by telecommunications networks, wireless communication networks, the Internet, information services networks and data networks; broadcasting and streaming of music and movies via the Internet; electronic transmission of news via the Internet; cloud computing providing

online access to computer systems and computer environments; cloud computing providing online access to computer systems, graphics processing units (GPUs), and computer environments; providing access to a website featuring an online community for users to participate in discussions, obtain feedback, and form virtual communities to engage in social networking; providing access to an Internet website portal for engaging in social networking.

Class 41

(3) Entertainment services in the nature of online video games; entertainment services in the nature of live video game streaming; entertainment services in the nature of providing movies, films, television programs, video games, not downloadable, via video-on-demand services; entertainment services, namely, providing online videos featuring video games being played by others; entertainment services, namely, live performances by musical groups; entertainment services, namely, live performances by video game players; providing entertainment and news information related to video games, music, videos, movies and animation via a website; providing information and news relating to gaming and music; online blog featuring articles on video games; arranging and conducting competitions for video game players; entertainment services, namely, providing non-downloadable prerecorded music, information in the field of music, and commentary and articles about music, all via a global computer network; providing online non-downloadable videos featuring music; live music concerts; music production and publishing; entertainment services, namely, organizing and producing video game and music events; organizing, conducting and operating video game tournaments; organizing video gaming leagues; organization of gaming competitions, namely, organizing electronic, computer and video game competitions; providing online news, information and commentary in the fields of e-sports, video gaming, video games and video game players; entertainment services, namely, providing on-line video games via social networks; providing enhancements within online video games, namely, enhanced levels of game play; publishing video games; organizing educational and entertainment conferences for software developers in the field of software development and gaming; organizing conferences in the field of video gaming; education and training services in the field of software development; publishing of books, electronic books, magazines, periodicals, literary works, visual images, sound, music, and movies; publishing of online works of others featuring user-generated text, audio, video, and graphics; providing online publications in the nature of books, magazines, periodicals, journals, blogs and articles; entertainment services, namely, providing online non-downloadable music tailored to viewer's programming preferences; arranging contests and sweepstakes in the field of video games; entertainment services, namely, providing non-downloadable movies and documentaries; providing entertainment and news information in the field of video games; providing an online website portal for consumers to play online computer games and electronic games and share game enhancements and game strategies; providing educational training, namely, online tutorials in the field of video gaming and video games; providing an Internet website portal featuring content in the field of video games and video game players; providing information in the field of video games, namely video recordings of video games, music, movies and animation via a website.

Class 42

(4) Design and development of computer hardware and software; providing interactive sites that enable online users to create personal profiles; providing online non-downloadable software in the field of live video game streaming; software as a service (SAAS) provider in the field of live streaming of video games; providing online non-downloadable software in the field of video on demand; software as a service (SAAS) provider in the field of video on demand; services for storage of electronic media, namely visual images, text files, sound, music and movies; providing temporary use of online non-downloadable software and software as a service featuring software

for live streaming of video games, and sharing of visual images, music, movies and animations; providing temporary use of online non-downloadable software and software as a service featuring software for electronic mail, instant messaging, online chat rooms and social networking; providing temporary use of online non-downloadable software and software as a service featuring software for purchasing and subscribing to digital content, namely video games, music, videos; providing temporary use of online non-downloadable software and software as a service featuring software for developing and publishing applications for live streaming of video games in which viewers can participate in gameplay; providing temporary use of online non-downloadable software and software as a service featuring software for management and storage of digital media, namely video games, music, videos, movies; computer software consulting services in the field of video game technology and graphics software; computer programming services; providing temporary use of non-downloadable computer and video games; platform as a service (PaaS) featuring computer software platforms for video game and graphic design; computer services, namely, cloud hosting provider services; design and development of computer hardware, software and peripherals for others; Application service provider (ASP), namely, hosting computer software applications of others; hosting of third party digital content in the nature of photos, videos, music, text, images, software, downloadable applications for mobile phones, smart phones and hand-held computers, games, web sites on the internet; computer hardware, software, application, and network consulting services; digital and electronic file data transfer from one computer format to another; provision of Internet and computer network search engines; graphic design services; software as a service (SAAS) provider in the field of software for creating blogs, websites, web pages, computer games, video games for third parties, subscribing to news and sports podcasts, webcasts, weblogs, and one-time purchases; software maintenance, installation and update services; providing software in which users can interact through social games for recreational purposes.

Class 45

(5) Online social networking services; online social networking services, namely, facilitating social introductions or interactions among individuals; social networking services in the fields of entertainment, gaming and application development; providing information about social networks where users participate in online gaming, online video games and online video gaming applications; providing information, news, commentary in the field of social networking.

Goods

Class 05

(1) Medical marijuana, cannabis, cannabis oils, and cannabis derivatives, namely cannabis capsules, cannabis sprays, edible oils, edible butters and hashes, resins, concentrates, and oils, hashes and waxes for smoking, all for the temporary relief of seizures, for the treatment and relief of nausea caused by chemotherapy, muscle spasms caused by multiple sclerosis, nerve pain, loss of appetite, anxiety, stress, fatigue, pain, nausea, vomiting, muscle tension, muscle spasms, tension, epilepsy, glaucoma, multiple sclerosis, arthritis, Parkinson's disease, cancer, gastrointestinal illness, spinal cord injury, anxiety, bi-polar disorder, depression, insomnia, autoimmune disorders, to provide mood enhancement and an improved sense of well-being

Class 09

(2) Electronic publications, namely newsletters, brochures, reports and guides in the field of medical marijuana, cannabis and cannabis oils

Class 10

(3) Bags and cases specially adapted for holding or carrying medical marijuana, cannabis and cannabis oils and accessories

Class 16

(4) Printed publications, namely newsletters, brochures, reports and guides in the field of medical marijuana, cannabis and cannabis oils

Class 25

(5) Clothing, namely casual shirts, t-shirts, sweaters, hats

Services

Class 35

(1) Sales of medical marijuana, cannabis, cannabis oils and cannabis derivatives; sales of consumable products and accessories, namely, pipes, cigarette rolling papers, water pipes, grinders, vaporizers and scales

Class 38

(2) Operation of an online bulletin board for publishing of information about benefits of medical cannabis and marijuana, research related to medical and cannabis and for users to provide commentary about the content or about subjects relating thereto; Operation of an online bulletin board for registered users to participate in discussions, provide and obtain feedback from other registered users, form virtual communities, and engage in social networking in the field of medical marijuana; Providing access to a website providing information about benefits of medical cannabis and marijuana and research related to medical cannabis and marijuana; Providing access to a website providing information featuring the ratings, reviews and recommendations on medical marijuana and cannabis products for commercial purposes posted by users; Providing access to a website providing information in the field of medical marijuana, and regarding indications and effects of particular cannabis strains

Class 41

(3) Educational services and patient educational services, namely, audio, visual and print materials, seminars, workshops, classes and training sessions all in the field of medical marijuana and cannabis

Class 44

(4) providing medical information in the field of medical marijuana; operation of a wellness centre for medical marijuana patients providing physician referral services, medical marijuana counselling services and educational services in the field of medical marijuana; Consulting services in the field of medical use of cannabis;

Goods

Class 08

(1) Network infrastructure installation tools, namely, cable preparation tools for preparing telecommunication cables for connector attachment in the nature of hand tools for stripping and crimping telecommunication cables; fiber installation tools and accessories, namely, hand tools for splicing, terminating and connecting fiber optic cables and connectors; raceway installation tools, namely, hand tools for drilling, cutting and connecting telecommunication cable management raceways; wireless installation hand tools, namely, hand tools for stripping and crimping network and telecommunication cables; Cable termination and cable connection tools, namely, hand tools for cutting, stripping, terminating, crimping and connecting telecommunication cables

Class 09

(2) Structural support equipment, namely, portable metal structures with flexible covers for computer hardware for telecommunications equipment, namely portable mobile metal cabinets specially adapted to protect steel and metal infrastructure components for use in wireless communications, namely, support brackets and clamps specially adapted for installing and supporting antennas, antenna mounts, cable support components in the nature of universal sector frames, monopole T-frame kits, universal pipe mount kits, cable ladders, water tower mount kits namely mounting brackets and platforms for antennas and cables, rooftop mount kits namely mounting brackets and platforms for antennas and cables, microwave dish mounts, and microwave antenna ice shields, hoisting grips of metal for telecommunications cables namely wire and cable hoists for pulling and guiding cables and metal support clamps namely cable clamps of metal; steel and metal infrastructure components for use in wireless communications, namely, support brackets and clamps specially adapted for installing and supporting antennas, antenna mounts, cable support components in the nature of universal sector frames, monopole T-frame kits, universal pipe mount kits, cable ladders, water tower mount kits namely mounting brackets and platforms for antennas and cables, rooftop mount kits namely mounting brackets and platforms for antennas and cables, microwave dish mounts, and microwave antenna ice shields; hoisting grips of metal for telecommunications cables namely wire and cable hoists for pulling and guiding cables and metal support clamps namely cable clamps of metal; antennas, namely, base station antennas, dual-polarized antennas, remote electrical tilt antennas, point to point antennas,

microwave antennas, radio frequency antennas, and broadband antennas; radiating radio frequency telecommunication cables; base station and in-building wireless equipment, namely, indoor antennas, distributed antennas, fiber-based distributed antennas, and radio-over-fiber distributed antennas; wireless radio transmitters, and radio receivers, radio transceivers, sound amplifiers and digital signal processors for repeating, reshaping and reformatting data signals; control and diagnostic systems for wireless telecommunications base station antennas, namely, handheld remote electrical downtilt diagnostic electric controllers; Cable Assemblies, namely, copper telecommunications cable assemblies namely wire harnesses, fiber optic cable assemblies, pre-terminated fiber-optic cables, and pre-terminated RF jumper cables namely radio frequency amplifiers; Cable Routing and Management Equipment, namely, horizontal and vertical cable manager racks for supporting, organizing and protecting multiple telecommunication cables, fiber optic cable raceways, cable runway racks for supporting, organizing and protecting multiple telecommunication cables, and shelving mounting racks for telecommunications hardware; communications cable accessories, namely, surge protectors and cable pathway plastic conduits for holding coaxial cables, fiber optic cables, twisted pair cables and hybrids thereof; metal cabinets specially adapted to protect telecommunications cables and metal cabinets for supporting, organizing and protecting horizontal and vertical telecommunication cables; optical cable parts, namely, fiber optic cable outlets, and fiber optic cable termination units; blank fiber optic storage devices, namely, storage racks for storing fiber optic cables; communications cables, namely, coaxial cables, fiber optic cables, twisted pair copper telecommunication cables, hybrid fiber optic cables, patch telecommunication cables namely cable connectors, and jumper cables; electrical transmission lines used for wireless applications namely electrical cables for electrical signal transmission systems; remote electrical tilt cables for feeding data and power to RET system components; communications cable connectors for coaxial, fiber optic and twisted pair cables and hybrids thereof; electrical and fiber optic connector plugs; fiber-optic closures and terminals in the nature of fiber-optic cable junction box housings and telecommunication cable connecting blocks for connecting the terminal ends of cables; plug adaptors; coaxial and fiber-optic cable taps; communications and data cable connector accessories, namely, protective weatherproofing silicone rubber molded boot sheaths designed to seal and protect electrical, RF, and fiber optic cable connections; telecommunication wall jacks, namely fiber optic wall outlets for terminating and connecting fiber optic cables; Radio Access Network products, namely, distributed antenna systems consisting of radio-frequency antennas, RF repeater systems consisting of repeaters for cellular radio communication, small RF cells, and associated software for powering, managing, designing and testing these systems; wireless distribution system for transmitting electrical signals comprising waveguide transmission lines, elliptical waveguide transmission lines, rigid and flexible waveguide transmission lines, and elliptical waveguide cables for electrical signal transmission systems; portable reading apparatus for radio frequency identification (RFID), namely, RFID readers; cased or framed control apparatus consisting of system electrical controllers, logic analyzers, and gateways mounted on electrical switch plates and frames that unite and group data to communicate with software, namely electrical control systems for computer hardware for telecommunications; portable communication and power modules, namely, integrated circuit modules for the operation of a data communication system within a fiberglass hub and enabling communication via wireless connection with software and mobile devices; products for radio frequency identification (RFID), namely, labels in the nature of radio frequency identification tags, RFID readers, and handheld RFID readers; apparatus for monitoring, measuring, testing and controlling electrical signals, namely Computer systems software for processing communications signals associated with geolocation devices namely computer software for global positioning systems, managing and controlling telecommunications equipment and systems from remote locations and evaluating wireless voice and data transmissions namely

computer software for controlling and operating computer hardware for telecommunications; software for use in designing, installing, operating, optimizing and maintaining telecommunications equipment, namely computer software for controlling and operating computer hardware for telecommunications; data transmission apparatus in the field of telecommunication transmission, namely digital optical transmission apparatus for transmission of telecommunications data and, apparatus for transmission of sound and images namely optical electronic communications equipment, namely, optical amplifiers, optical transmitters, optical electronic components in the nature of optical cables, optical data links, namely fibre-optic light and image conduits, and optical transceivers; computers for use in the field of telecommunication transmission, namely computer hardware for telecommunications; computer software for managing, monitoring, visualizing and optimizing data center infrastructure and its performance and for centralized control and management of computing and network devices distributed throughout an organization providing networking and storage services namely computer software for controlling and operating computer hardware for telecommunications; signal splitters, including fiber-optic signal splitters, namely coaxial cables and fibreoptic cables; optical couplers namely outside plant optical coupler; RF signal splitters, terminations in the nature of electrical cable connectors, and electrical signal attenuators; optical filters and electronic combiners for connecting antennas and receivers namely fibre-optic cable connectors; multiplexers; tower mounted amplifiers namely signal amplifiers; drop amplifiers; electrical termination blocks; RF conditioning products for outdoor cell sites, namely, radio-frequency controlled GPS, radio, satellite and optical transmitters; distribution enclosures, namely, electrical distribution boxes; copper splice closures, namely, splices for electrical transmission lines; fiber splice enclosures namely, splices for fiber optic transmission lines; FTTA enclosures, namely, junction boxes; FTTA shelves, namely, mounting racks for fiber optic junction boxes; fiber-optic panels and cassettes, namely, fiber-optic control panels for connecting multiple data and fiber optic devices and copper panels and cassettes, namely, copper telecommunications signal control panels for connecting multiple data and electrical devices namely outdoor cell sites, namely, radio-frequency controlled GPS, radio, satellite and optical transmitters; mounting racks and cabinets for telecommunications hardware, namely fiber-optic mounting racks and panels for telecommunication hardware; telecommunication fiber optic and copper telecommunications control patch panels for housing patch telecommunication cables, namely fiber optic and copper telecommunication cable distribution boxes; battery cases for storing back-up batteries; metal cabinets specially adapted to protect telecommunications equipment in the nature of power supplies and metal cabinets to protect electronic equipment for telecommunications systems; DC-DC power convertors for use with patch panels in communications and data infrastructure network systems; power supply converters for use with antennas and transceivers, namely electronic power converters; telecommunications apparatus and instruments, namely, mechanical splices for fibre-optic and copper telecommunications transmission lines, tool-less splices for fibre-optic telecommunications transmission lines, modular building termination fibre-optic electrical blocks, namely fiber management hardware in the nature of fiber optic cable raceways, fiber optic distribution frames, namely, fiber optic distribution boxes; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electrical or optical signals, namely, telecommunications equipment in the nature of fiber optic splice closures, fiber optic splice cable housings, copper telecommunications cable housings, fiber optic splice cable distribution boxes, copper telecommunications cable distribution boxes, fiber management hardware in the nature of fiber optic cable raceways, fiber optic cable distribution frame housings, copper telecommunications cable distribution frame housings, fiber optic cable connectors, copper telecommunications cable connectors, fiber optic cable plugs, copper telecommunications cable plugs, fiber optic cable adapters, copper telecommunications cable adapters, fiber optic splices for optical transmission lines, fiber optic splice trays in the nature of fiber optic splice closures, and

fiber optic splice cassettes; fiber storage baskets, namely, mounting racks for computer hardware for telecommunications; cable and wiring face plate covers for walls, namely, telecommunications cable face plate covers for telecommunication cables and wiring, surface mount zone electrical distribution boxes, and wall switch plate covers

Services

Class 37

(1) Repair, maintenance, and installation of telecommunications and radio frequency related products, equipment, devices and components, namely, wireless radio transmitters, and radio receivers, radio transceivers, sound amplifiers and digital signal processors and cellular telephone hubs

Class 42

(2) Technical support services, namely, troubleshooting in the nature of diagnosing performance of telecommunication equipment namely wireless radio transmitters, and radio receivers, radio transceivers, sound amplifiers and digital signal processors signals and cellular telephone hubs; development, maintenance and updating of telecommunications and radio frequency software systems and networks, namely design and development of computer software for telecommunications equipment; design and development of telecommunications networks, namely wireless radio transmitters, and radio receivers, radio transceivers, sound amplifiers and digital signal processors signals and cellular telephone hubs; data automation and collection service using proprietary software to evaluate, analyze and collect service data, namely collection of market research information; data and voice encryption services; product testing in the field of telecommunications equipment namely, wireless radio transmitters, and radio receivers, radio transceivers, sound amplifiers and digital signal processors signals and cellular telephone hubs; application service provider, namely, providing, hosting, managing, developing, and maintaining applications, software, websites, and databases in the field of wireless communication and mobile information access, namely software as a service (SAAS) provider in the field of telecommunication equipment namely wireless radio transmitters, and radio receivers, radio transceivers, sound amplifiers and digital signal processors signals and cellular telephone hubs

Goods

Class 01

(1) Plant nutrients and supplements.

Class 03

(2) Cannabis infused lotions, balms, oils and creams, for administration of marihuana and cannabis by application to the skin.

Class 05

(3) Medical marihuana and cannabis, cannabidiol and tetrahydrocannabinol for medical purposes, and marihuana and cannabis derivatives for medical purposes, namely resins, hashes, waxes, tinctures, salves, pastes, and powders and concentrated cannabis hashes, pastes, butters, oils, taffies, shatters, waxes, resins, and powders; Fish feed nutrients and supplements; Equipment and products for administering marihuana and cannabis, namely buccal sprays and gel caps; transdermal patches for administration of marihuana and cannabis by application to the skin.

Class 11

(4) Aquaponic units for indoor and outdoor plant and fish production; Aquaponic filtration equipment.

Class 16

(5) Printed publications on the subject of marihuana and cannabis.

Class 25

(6) Hats, shirts, sweaters.

Class 29

(7) Edible oil, namely marihuana and cannabis oil; edible oils and butters.

Class 30

(8) Marihuana and cannabis edibles, namely cakes, cookies, cereal bars, brownies, muffins, cupcakes, confectionery, candies, biscuits, and cannabis infused beverages namely tea, and cannabis infused carbonated and noncarbonated beverages.

Class 31

(9) Marihuana and cannabis seeds for planting; live marihuana and cannabis plants.

Class 34

(10) Dried marihuana and cannabis; cannabis oil for oral vaporizers for smoking and electronic cigarettes; marihuana and cannabis derivatives, namely resins, hashes, waxes, tinctures, salves, pastes, and powders and concentrated cannabis hashes, pastes, butters, oils, taffies, shatters, waxes, resins, and powders; equipment and products for administering marihuana and cannabis, namely hand pipes, water pipes, hookahs, nebulizers, atomizers; oral vaporizers for smoking marihuana and cannabis.

Services**Class 35**

(1) Sale of: medical marihuana and cannabis, marihuana and cannabis, marihuana and cannabis derivatives, marihuana and cannabis seeds and plants, dried marihuana and cannabis, marihuana and cannabis oil, marihuana and cannabis edibles, printed publications on the subject of marihuana and cannabis, and equipment and products for administering marihuana and cannabis, namely hand pipes, water pipes, hookahs, nebulizers, atomizers, buccal sprays, gel caps, cannabis infused lotions, balms, oils and creams, and transdermal patches and oral vaporizers for smoking. Sale of aquaponic units and equipment; Business management in the fields of aquaponic systems, energy systems for aquaponic production, sustainable aquaculture, and energy efficiency.

Class 39

(2) Distribution and transportation of marihuana and cannabis, by truck, air and courier.

Class 40

(3) Processing of marihuana and cannabis to provide various marihuana and cannabis derivatives and edible products for sale to wholesale and retail customers.

Class 41

(4) Educational services on the topic of marihuana and cannabis; Training in the use and operation of aquaponic systems.

Class 42

(5) Consulting in the field of energy efficiency; Providing information pertaining to aquaponic systems and sustainable aquaculture; Research and development of aquaponic systems and sustainable aquaculture systems. Technical support in the use and operation of aquaponic systems.

Class 44

(6) Cultivation and breeding of marihuana and cannabis; Providing information about marihuana and cannabis; Consulting in the fields of aquaponic systems, energy systems for aquaponic production, and sustainable aquaculture.

Class 45

(7) Licensing of aquaponic technology.

Colour Claim

Colour is claimed as a feature of the trade-mark. The trademark is formed by three ovals with pointed ends. The ovals are blue, green, and black.

Goods

Class 09

Semiconductor substrates for opto-electronics, micro-electronics, and micro-engineering, namely, chips, integrated circuits, transistors, capacitors, filters, oscillators, switches, resistors, amplifiers, and memories; semi-conductor wafers; semi-conductors; silicon wafers and semiconductors for integrated circuits and transfer of layers; semiconductor wafers for light-emitting diodes, radio frequency (RF) components and for power components; substrates for micro-electronics, opto-electronics, micro-engineering, light-emitting diodes, micro-systems, photovoltaics, integrated optical guides, sensors, integrated circuits, radio frequency (RF) and power components, namely, chips, integrated circuits, transistors, capacitors, connectors, filters, oscillators, switches, resistors, amplifiers, and memories

Services

Class 40

(1) Treatment of materials by means of annealing, thermal annealing, rapid thermal annealing, laser annealing, oxidation, implantation, porosification, grinding, deposition, epitaxy, and bonding of material surfaces namely metal surfaces, silicon wafers, semiconductors, piezoelectric materials, mineral insulating oxides and diamond; treatment of substrates namely metals, semiconductors, piezoelectric materials, mineral insulating oxides and diamond, by means of polishing, grinding, cleaning, laser irradiation, plasma treatment, amorphization, re-crystallization, etching, chemical etching, plasma etching, carbonization, smoothing by means of plasma, cleaning or thermal treatment, plasma activation, and hydrophilization for micro-electronics, opto-electronics, piezoelectric, photovoltaics, microsystems and radio frequency (RF) components; treatment of semiconductor wafers and semiconductors by means of laser beams, plasma, anneal, and cleaning; polishing of semiconductor wafers, transfer of layers of crystalline materials by report on a wafer, semiconductors and components of semiconductors on all media namely wafers, substrates used in micro-electronic, circuit boards, semiconductor chips, devices; treatment of silicon wafers and semiconductors by means of laser beams, plasma, anneal, and cleaning; polishing of silicon wafers and semiconductors, transfer of layers of materials by report namely by exfoliation on a wafer

Class 42

(2) Scientific, technological, technical and industrial research in the field of material science for microelectronics, opto-electronics, piezo electronics and micro-engineering, photovoltaics, microsystems and radio frequency (RF) components provided by engineers; testing of materials; laboratory work for others, namely, materials testing and scientific research and development in the field of material science; research and development of new products for others; scientific research and development in the field of wafers and semiconductors for opto-electronic and piezo electronics components, photovoltaics, radio frequency (RF) components, power components, micro-engineering, and micro-systems; scientific research and development in the field of silicon wafers and semiconductors for integrated circuits and derived activities namely research and development in the field of electronic components namely semi-conductor chips, semiconductor wafers, semi-conductors, electronic chips for the manufacture of integrated circuits; scientific research and development in the field of the transfer of micro-electronic circuits and micro-systems on all media engineering and engineering services in the field of semiconductor wafers and semiconductors for micro-electronic, opto-electronic, piezo-electronic radio frequency (RF), micro-mechanical, photovoltaic components, memories, power components; engineering and engineering services in the field of silicon wafers, semiconductors for integrated circuits and derived activities namely research and development in the field of electronic components namely semi-conductor chips, semi-conductor wafers, semi-conductors, electronic chips for the manufacture of integrated circuits and research and development in the field of transfer of micro-electronic and opto-electronic circuits and micro-systems on all types of media namely semi-conductor chips, semi-conductor wafers, semi-conductors, electronic chips, circuit boards for the manufacture of integrated circuits; research for the development of new products in the field of semiconductor wafers for the manufacture of electronic devices, for the manufacture of transistors, memories, diodes, photodiodes, light-emitting diodes, photodiode detectors, radio frequency (RF) components and micro-systems; assistance and technical support, namely, technical advice in the field of development of new products in the field of semiconductor wafers for the manufacture of electronic devices, for the manufacture of transistors, diodes, photodiodes, light-emitting diodes, photodiode detectors, radio frequency (RF) components and micro-systems

Colour Claim

Colour is claimed as a feature of the trademark. The 11-point maple leaf and the word 'Ongweoweh' are dark red (PANTONE* R:112 G:22 B:33). The portions of the stylized Native American head consisting of the outline of the head, the ear pieces, the eyes, the shading under the anatomical left eye, the nose, the anatomical left nostril, the anatomical right cheek, the mouth, and the lower portions of the head feathers are also in dark red (PANTONE* R:112 G:22 B:33). The remaining parts of the stylized Native American head and head feathers are yellow gold (PANTONE* PMS 124c). The words 'Pallet Solutions' are dark gold (PANTONE* R:160 G:105 B:18). *PANTONE is a registered trademark.

Disclaimer

The applicant disclaims the right to the exclusive use of the 11-point maple leaf.

Foreign Character Translation

As provided by the applicant, the word 'Ongweoweh' is derived from an Iroquois word which loosely translates to 'the original people'.

Colour Claim

Colour is claimed as a feature of the trademark. The letters F, R, T, I and S and the bottom segment of the stylized letter O, comprising a solid curved line, are dark blue (Pantone* 661 C). The top segment of the stylized letter O, comprising a series of rays arranged in a curved line, are gold (Pantone* 7408 C). The colours dark blue and gold are claimed as a feature of the trademark. *Pantone is a registered trademark.

Goods

Class 04

(1) Natural gas; compressed natural gas; liquefied natural gas.

Class 06

(2) Natural gas and propane gas equipment and accessories, namely, metal pipes for liquid and gas transfer, metal valves for water and gas pipes, fittings of metal for pipes.

Class 07

(3) Natural gas and propane gas equipment and accessories, namely, gas compressors.

Class 09

(4) Electricity meters; gas meters; natural gas and propane gas equipment and accessories, namely, pressure gauges, flow gauges.

Class 11

(5) Natural gas and propane gas equipment and accessories, namely, filters for residential and industrial furnaces.

Class 17

(6) Natural gas and propane gas equipment and accessories, namely, flexible plastic pipes for conveying natural gas.

Services

Class 35

(1) Retail and wholesale sale of natural gas, liquefied natural gas, renewable natural gas, compressed natural gas and electricity; energy monitoring and reporting services, namely, providing consumption, emission, performance and cost information to consumers with respect to natural gas and other fuels; Utility company management services, namely, procuring energy supplies, reporting and business consulting to utility companies; Connection of customers seeking natural gas products and services with contractors; promotion of energy efficiency and conservation rebate programs for use by customers of natural gas products and services; Business consulting and advisory services in the field of energy efficiency; consultation in the field of energy efficiency, namely, providing recommendations on availability of rebates for energy-saving improvements to homes and businesses; business consulting services in the fields of energy measurement to improve energy efficiency; providing on-line information in the field of renewable energy usage management.

Class 36

(2) Energy brokerage services, namely securing and/or buying natural gas on behalf of consumers; financing of eligible natural gas appliances; Providing cash rebates to homeowners for purchasing home sealing services and energy-saving appliances, heating and cooling equipment and components therefor, and to business owners for purchasing energy-saving heating equipment, cooling equipment and components therefor, as part of a program to reduce energy usage.

Class 37

(3) Natural gas extraction; Vehicle refueling services with compressed natural gas and liquefied natural gas; installation, operation and servicing of pipes, valves, meters, compressors and other means for supplying natural gas and propane gas to residential, commercial and industrial users.

Class 38

(4) Providing access to a website about electric and gas utilities.

Class 39

(5) Transmission and distribution of natural gas, liquefied natural gas, renewable natural gas, compressed natural gas and electricity; Transmission of natural gas through pipelines; loading and handling of liquefied natural gas; compression and transportation by pipeline of natural gas to consumers, namely commercial and non-commercial users; providing information concerning the electric services industry over a global computer network.

Class 40

(6) Generation of natural gas, liquefied natural gas, renewable natural gas, compressed natural gas and electricity; natural gas liquefaction services.

Class 41

(7) Entertainment and educational services in the field of cooking shows for television broadcasts and also broadcast via a global communications network.

Class 42

(8) Metrology services for gas meters and electricity meters, namely: remanufacturing, calibration, verification and testing of meters; meter maintenance and support services and consultation

services respectively in the field of meters and measurement instrumentation, namely that are used in association with meters to standardize gas variables such as pressure and temperature; meter fleet management and meter proving equipment management; providing testing facilities and technical assistance for the testing of gas and electric measurement devices including gas meters and electric meters; development, delivery and management of power and thermal energy supplies from alternative energy sources, namely geoexchange plants, biomass fuel plants, and biomethane plants, and from district energy systems comprising any one or more of the foregoing plants for providing energy to buildings in a community; conducting on-site energy usage audits.

Class 45

(9) Providing on-line safety information in the field of safe use of electricity.
