Trademarks Journal

2019-07-10 — Vol. 66 No. 3376

Trademarks Journal

Vol. 66 No. 3376

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 07

(1) Wind turbines; electrical equipment namely electrical generators, electric motors and drives, all used for influencing, operating, controlling, monitoring and checking of power supply systems, power supply networks, photovoltaic solar modules for production of electricity, photovoltaic installations, wind turbines; electrical equipment for generating, transmitting and distributing electrical power namely, electrical generators, electric motors and drives, all for use in ensuring and improving of the power quality of private, public and industrial customers; electrical equipment, namely, electrical generators, all for power factor correction by means of electric coils and electrical condensers and in uninterruptible power supply.

Class 09

(2) Power supply systems, namely systems for power generation, transmission and distribution comprising power supplies, power inverters, power cables, transmission lines, electrical switches, electrical transformers; solar modules, photovoltaic installations, namely, photovoltaic cells and modules, photovoltaic inverters, photovoltaic systems that convert sunlight into electric and thermal energy; transformers (electrical), generator transformers, distribution transformers, power transformers, regulating transformers, phase-shifting transformers, rectifier transformers; electrical coils, capacitors; accumulators; electrical power switching devices, namely off-circuit tap changers, on-load tap changers, circuit breakers, disconnectors; computers, computer hardware, measuring equipment, namely, instruments for measuring temperature, filling level, flow, acceleration, tension (mechanical), deformation, bending, elongation, shear, torsion, pressure, moisture, surface waves, radiation (electromagnetic), light, microwaves, current (electric), voltage (electric), energy (electric), power (electric), impedance (electric), power factor (electric), phase shift and dissolved gas analysis (dga), capacitance, reactive power, dissipation factor in the field of electrical engineering, power engineering, high voltage engineering; controlling equipment, namely, electric control switches for systems of power generation, transmission and distribution, electric control panels; electric current control panels; voltage and power control panels, cooling control panels, reactive power control panels; monitoring equipment, namely, electronic switches for monitoring unwanted gas production, energy consumption and excessive deviations in temperature, filling level, flow, acceleration, tension (mechanical), deformation, bending, elongation, shear, torsion,

pressure, moisture, surface waves, radiation (electromagnetic), light, microwaves, current (electric), voltage (electric), energy (electric), power (electric), impedance (electric), power factor (electric), phase shift and dissolved gas analysis (dga), capacitance, reactive power, dissipation factor; technical and electrical installations and equipment for conducting, distributing, switching, converting, storing, influencing and controlling of electricity, namely electrical power distribution blocks for generating, transmitting and distributing electrical power; power supply networks in the nature of electric power networks for transmission and distribution of electricity by electric utilities; computer software for conducting, distributing, switching, converting, storing, influencing and controlling of electricity; electrical equipment namely electrical transformers, electric coils, capacitors, accumulators, electrical power switching devices, namely off-circuit tap changers and on-load tap changers, electrical sensors, all used for influencing, operating, controlling, monitoring and checking of power supply systems, power supply networks, photovoltaic solar modules for production of electricity, photovoltaic installations, wind turbines; computer software for influencing, operating, controlling, monitoring and checking technical and electrical installations, equipment and devices, namely systems for generating, transmitting and distributing electrical power, power networks, photovoltaic solar modules for production of electricity, photovoltaic installations, wind turbines, electrical transformers, electrical generators, electric coils, electrical reactors, electrical switchgear, electrical bushings, electrical cooling systems, capacitors, accumulators, electrical power switching devices, namely off-circuit tap changers and on-load tap changers and electrical sensors, electric motors and drives; electrical equipment for generating, transmitting and distributing electrical power namely, photovoltaic solar modules, electrical transformers, electrical bushings, electrical cooling systems, electric coils, electrical reactors, capacitors, accumulators, electrical power switching devices, namely off-circuit tap changers and on-load tap changers and electric sensors, all for use in ensuring and improving of the power quality of private, public and industrial customers; computer software for ensuring and improving of the power quality of public, private and industrial power supply systems and electricity grids; electrical equipment, namely, power supply connectors, photovoltaic solar modules, electrical transformers, electric coils, capacitors, accumulators, electrical power switching devices, namely off-circuit tap changers and on-load tap changers and electric sensors, all for power factor correction by means of electric coils and electrical condensers and in uninterruptible power supply; computer software for power factor correction by means of electric coils and electrical condensers and in uninterruptible power supply; sensors for temperature, filling level, flow, acceleration, tension (mechanical), deformation, bending, elongation, shear, torsion, pressure, moisture, surface waves, radiation (electromagnetic), light, microwaves, current (electric), voltage (electric), energy (electric), power (electric), impedance (electric), power factor (electric), phase shift and dissolved gas analysis; computer hardware and computer software for controlling the generation, transmission and distribution of electrical power.

Goods

Class 01

(1) adhesives used in industry (without silicone-based adhesives), and thinners therefor and adhesive substances for use in industrial processes, namely, for flooring, walls and ceilings, connecting foam assemblies, mattresses and upholstery, furniture, footwear and leather, metal packaging industry, consumer packaging industry, plastic, cardboard and paper packaging industries, industrial packaging industries, cement manufactured products, automotive, aviation and boat transportation industries, the construction industry, synthetic resin adhesives for industrial purposes, and the components supplying industry, namely, flat roofing and building insulation; plastics in the form of powders, pastes, liquids, emulsions, dispersions or granules, all for industrial use

(2) resin dispersions for improving fluid mortars and fillers; adhesives for insulating materials; soluble glass, namely, cast resin for priming, repairing and bonding flooring, sprinkling sand for sprinkling reaction primers and reaction adhesives for use in flooring, and concrete repair primer; adhesives for footwear, cement for footwear, chemical sprays for expanding footwear, dressing and finishing preparations for restoring shoe leather

(3) casting resins

Class 16

(4) adhesive tape for packaging, adhesive paper, printed adhesive labels, adhesives for artists, holders for adhesive tape, adhesives for office use, adhesive strips for binding, adhesive strips for packaging, pastes for stationary

Class 17

(5) container seals, namely, adhesive sealants, sealing compounds for container lids for use in the metal packaging industry, adhesive container sealants, non-adhesive container sealants, seals for non-metallic bottle closures, seals for metallic bottle closures, seals for metallic closures for containers, sealing compounds and latexes for cans, bottles and rigid containers, for metal, plastic, cardboard and paper containers; container coatings made of plastic or rubber for use in the metal packaging industry, consumer packaging industry, industrial packaging industry, plastic, cardboard, paper packaging industry; caulking materials and rubber, namely, liquid rubber, foam

rubber, natural rubber, synthetic rubber and silicone rubber; containers made of rubber and synthetic rubber-like substances for packaging goods; sealant materials, namely, sealants for installing, levelling and repairing flooring; packaging materials and insulation materials, namely, sound dampening mats, underlays and sheets for carpet and flooring, decoupling mats and sheets for flooring, sealing material for waterproofing flooring, metal reinforcement materials for building; sealing compounds with an artificial resin base for use in the consumer packaging, metal packaging, plastic, cardboard and paper packaging and industrial packaging industries; jointing compounds, namely, jointing cement, sealant compounds for joints, pipe joint compounds, and expansion joint fillers

(6) cast resin for sealing cracks

Class 19

(7) cement, namely, cement mixes, roofing cements, filling cement, cement blocks, cement paving tiles, cement used for levelling and repairing flooring; mortar mix; mixtures for flooring, namely, primers, concrete, cast resin, screeds and adhesives for levelling, preparing, and fixing flooring; ready-to-process building materials containing cement binding agents and plaster binding agents for use in smoothing, levelling and balancing surfaces prior to installing flooring, and thin bedding mortar

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, purple, pink, blue, and green are claimed as a feature of the mark. The mark consists of three, three-dimensional squares with rounded edges, stacked at an angle with the bottom square in dark blue, the middle square in purple, and the top square featuring a multi-color design. The top square contains white, purple, pink, blue, and green overlapping waveform images set on a dark purple and dark blue background. The color gray appears in the outline of the image and represents outlining and is not claimed as a feature of the mark.

Class 09

Data processing equipment, namely computer central processing units; computers; computer hardware; computer software for use in connecting people, services and devices to the Internet for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; computer software, recorded for use in connecting people, services and machines to the Internet for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; downloadable computer software applications, for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; mobile application software, downloadable, for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; computer software and hardware for providing wireless connectivity for the internet of things in the field of surface finishing industry; computer software platforms for developing, integrating and managing Internet of Things (IoT) devices, systems and applications in the field of surface finishing industry; software application platform featuring software for connecting people, services and devices to the Internet for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; software

application platform featuring software for connecting people, services and devices to the Internet for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; downloadable computer software capable of being accessed and downloaded online via global computer information networks and from a website on the internet for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; computer software for analyzing and processing data in the field of surface finishing industry; computer software for database management; computer application software for cloud computing services for providing access to electronically transmitted measuring and control data in the field of surface finishing industry over computer networks; computer software applications for use with mobile devices for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; downloadable mobile application software to enable exchanging and collecting electric data through wireless communication between electric abrasion machines and mobile devices; computer software and telecommunications apparatus, namely radio transmitters and radio receivers to enable connection to databases and the Internet; wireless communication apparatus, namely radio transmitters and radio receivers; data communications receivers, namely radio receivers; remote monitoring apparatus, namely telecommunications hardware and software for monitoring and alerting remote thermal, humidity, speed, vibration, velocity, motion and timing sensors status via the Internet in the field of surface finishing industry; sensors and detectors, namely sensors for measuring size, distance, and chemical properties; electrical current sensors; motion sensors; thermal sensors; timing sensors; speed indicators; velocity sensors; vibration sensors; wireless controllers to remotely monitor and control the function and status of electrical, electronic, and mechanical devices or systems in the field of surface finishing industry; electronic databases in the field of surface finishing industry; telecommunications networks comprising satellite, radio transmitters, network operating system software, computers, computer network hubs and switches for connecting people, services and devices to the Internet in the field of surface finishing industry; computer networks comprising computer operating software, computers and computer peripheral devices, namely computer display monitors, computer mouse, computer keyboards, computer printers, computer speakers, microphones, computer scanners, bar code readers, digital cameras and web cameras; data terminals, namely computer terminals, smart terminals and interactive touch screen terminals; computer interface boards; computer network servers; data exchange units, namely electric data exchangers for the computer-to-computer exchange of follow-up and tracking data in a standard electronic format in the field of surface finishing; data storage devices, namely USB flash drives, blank smart cards and labels with integrated radio frequency identification [RFID] chips

Services

Class 42

Scientific and technological services and research and design relating thereto, namely scientific research and design of new products for others in the field of surface finishing industry; Industrial analysis and research services in the field of cloud computing, machine-to-machine technology, embedded systems comprising integrated software as part of the embedded hardware system, and the Internet of Things (IoT); Design and development of computer hardware and software; computer system design; database design and development; design of products and projects, namely product development services and project management services in relation to Internet of things (IoT) in the field of surface finishing industry; installation of computer software; maintenance of computer software; computer programming; computer systems integration services; monitoring of computer systems by remote access; software as a service (SaaS), featuring software for

connecting people, services and devices to the Internet for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines for use in the field of surface finishing industry; software as a service (SaaS) featuring computer software for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; platform as a services (PaaS) featuring computer software platforms for use in database management; platform as a services (PaaS), featuring computer software platforms featuring software for connecting people, services and devices to the Internet for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; platform as a services (PaaS), featuring computer software platforms to enable exchanging and data collecting through wireless communication between electric abrasion machines and mobile devices; platform as a services (PaaS), featuring computer software platforms for use in remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; Backend as a service (BaaS), namely providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data and for use in remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; computer software integration; electronic data storage in the field of surface finishing industry; electronic data storage and data back-up services in the field of surface finishing industry; computer services concerning electronic data storage, namely providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data; hosting computer databases; server hosting; cloud computing featuring software for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; rental of web servers; technological consultancy and engineering services in the fields of cloud computing, machine-to-machine technology, embedded systems comprising integrated software as part of the embedded hardware system, and the Internet of Things (IoT); Information technology [IT] consultancy in the field of surface finishing industry

Class 09

(1) Games software, namely computer games; Games cartridges for use with electronic games apparatus; Video game discs; Computer software, namely computer video games; Computer databases, namely electronic databases containing information in the field of computer games; Computer joysticks; Audiovisual headsets for video games; Multifunction keyboards; blank Videotapes, Magnetic tapes, record disks, magnetic discs, DVDs, Floppy discs, Optical discs, Compact discs, Compact discs [read-only memory] and Videodiscs; Memory boards; USB flash drives [not pre-recorded]; Electronic publications recorded on computer media in the nature of magazines; Downloadable electronic publications in the nature of magazines; Spectacles [optics]; Sunglasses; Scuba goggles; Swim goggles; Covers for glasses; Spectacle chains; Eyeglass cords; Binoculars; Magnets, namely craft magnets, decorative magnets, erasing magnets, fridge magnets; Sound recording apparatus, namely audio cassette recorders, audio tape recorders, digital audio tape recorders; Apparatus for recording images, namely digital versatile disc recorders, video cassette recorders; Apparatus for transmission of sound, data or images, namely satellite dishes for satellite transmissions, facsimile transmission machines, cellular phone transmission towers; Dish aerials; Television decoders; High definition set-top boxes; TV sets;

Radios; Home cinema systems featuring home cinema projectors, home theater surround sound systems; Compact disc players; DVD players; MP3 players; Digital music players; Data processing equipment and accessories (electrical and mechanical), namely computers; Computer mouse; Mouse pads; Electronic navigation systems, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; Personal digital assistants; Video telephones; Cell phones; Point-to-point communications equipment, namely mobile phones, smart phones, telephone sets; Cell phone covers; Headsets for mobile telephones; Stands adapted for mobile phones; Display screen protector, namely display screen filters; Audio/visual and photographic devices, namely cameras [photography], Portable video cameras with built-in videocassette recorders, camcorders; Electronic magnetic recording media, namely encoded magnetic phone cards, Microchip cards, Magnetic credit cards, blank smart cards [integrated circuit cards]; Credit cards; Cash cards [encoded]; subscriber identification module (SIM) cards; Encoded reward cards, namely encoded gift cards; Protective helmets for sports; Helmets for motorcyclists; Encoded identification bracelets, magnetic

Class 18

(2) Leather, unworked or semi-worked; Imitation leather; Umbrellas; Bags for sports; All-purpose carrying bags; Travel baggage; Towelling bags; School book bags; Backpacks; Handbags; Briefcases [leather goods]; Beach bags; Garment bags for travel; Attache cases; Briefbags; Luggage tags; Straps for luggage; Carrying cases for documents; Cases of imitation leather, namely briefcases, attaché cases; Travelling sets [leatherware], namely travel bags, travel luggage and suitcases; Cosmetic cases sold empty; Keycases; Wallets; Small purses; Whips; Collars for animals, namely for pets

Class 25

(3) Clothing, namely athletic clothing, casual clothing, dress clothing, beachwear, sports clothing; Gym suits; Children's wear; Robes; Bathing suits; Belts [clothing]; Neckties; Foulards [clothing articles]; Underwear; Pajamas; Nightwear; Stockings; Shawls; Neck scarves [mufflers]; Gloves [clothing] Footwear, namely athletic footwear, beach footwear, casual footwear, evening footwear, sports footwear; Headgear, namely bandanas, hats, headbands, caps, visor caps

Class 28

(4) Games and toys, namely board games, parlor games, sportballs, balls for games, dolls, plush toys, toy vehicles, jigsaw puzzles, inflatable toys, playing cards; Gymnastic and sporting articles, namely football gloves, soccer ball, knee pads, Elbow guards [sports articles], Shoulder pads for sports use, Shin guards for soccer, Soccer goals; Table football tables; Soccer ball goal nets; Miniature replica football kits, namely football jerseys, helmets, trophies, footballs; Cases adapted for sporting articles, namely for archery arrows and bows, for fishing reels, for tennis balls, ski cases; Flying discs [toys]; Surfboards; Paper party hats; Kites; Roller skates; Scooters [toys]; Skateboards [recreational equipment]; Protectors for elbows for use when skateboarding [sports articles]; Athletic protective arm pads for skateboarding; Protectors for the knees for use when skateboarding [sports articles]; Athletic protective wrist pads for skateboarding; Game consoles; Hand held units for playing video games; Home video game machines; Video game joysticks; Video game apparatus, namely arcade video game machines, hand-held video game apparatus, video game consoles; Video output game machines for use with televisions

Class 09

(1) Interactive entertainment software, namely, computer and video games; computer games; video games; Downloadable, non-downloadable and pre-recorded application software featuring computer and video games; Downloadable, non-downloadable and pre-recorded application software featuring computer and video games for wireless devices, namely, smartphones, tablet computers, laptop computers and portable computer devices; Downloadable, non-downloadable and pre-recorded application software featuring computer and video games for hand held devices, namely, smartphones, tablet computers, laptop computers and portable computer devices; Computer programmes featuring computer and video games downloaded via the Internet; Downloadable, non-downloadable and pre-recorded computer programmes and software featuring computer and video games; software for playing videos and on-line games; Interactive entertainment software, namely, computer and video games; software for enabling video, computer and on-line games to be run on multiple platforms; downloadable software for developing, designing, modifying and customising video, computer and on-line games; computer games; video, and audio games; video tape recordings; digital video recordings; audio visual games on computer platforms.

(2) Downloadable electronic publications in the nature of books, magazines and guides in the field of computer and video games; downloadable screen-savers; downloadable wallpapers; electronic books

(3) Downloadable telephone ring tones; laptop sleeves; laptop covers; telephone covers; covers for PDAs; portable tablet computer sleeves; computer mice; computer mouse; mouse pads; mouse mats; keyboards; headphones; USB sticks.

Class 25

(4) Clothing, namely, sweatshirts, hooded sweatshirts, T-shirts, hats, caps, headgear, namely, hats and caps

(5) Clothing, namely, vests, trousers, shorts, bathrobes, wristbands; athletic footwear; beach footwear; casual footwear; children's footwear; boots, shoes, slippers, sandals, overboots, overshoes, galoshes; bags shaped to contain clothing used in sports; bags shaped to contain footwear used in sports.

Services

Class 41

(1) Online video gaming services; providing a web feature on-line computer games and information about computer games; providing on-line computer games; Entertainment, namely, provision of online computer and video games, demonstration and entertainment podcasts, all relating to computer and video games; game services provided via the internet, namely, providing on-line computer games; provision of games by means of local computer networks, global computer networks, the internet, cable or wire communications services and wireless telecommunications services, namely, providing online electronic games; Organising and production of entertainment and events, namely, competitions and entertainment exhibitions in the field of computer and video games; production, presentation and distribution of sound and video recordings; Conducting events relating to electronic games and internet games, namely, competitions and entertainment exhibitions in the field of computer and video games

(2) Information about online video gaming services; providing a web feature on-line computer games and information about computer games; providing on-line computer games; Consultancy regarding online video gaming services; providing a web feature on-line computer games and information about computer games; providing on-line computer games

(3) Entertainment, namely, television shows, non-downloadable television shows, downloadable television shows, all relating to computer and video games

Class 05

(1) pharmaceutical hormonal preparations, namely, hormone analogues for the treatment of diabetes, obesity and metabolic diseases and disorders, namely, weight loss, HIV and for the prevention of autoimmune diseases and disorders and anti-inflammatories; pharmaceutical preparations for the treatment of diabetes, obesity and metabolic diseases and disorders, namely, weight loss, HIV and for the prevention of autoimmune diseases and disorders and anti-inflammatories filled in drug delivery devices, namely implantable mini-pump drug delivery systems; pharmaceutical preparations for the treatment of diabetes, obesity and metabolic diseases and disorders, namely, weight loss, HIV and for the prevention of autoimmune diseases and disorders and anti-inflammatories; diagnostic preparations and reagents for clinical and medical laboratory use, all for in vivo use; medical apparatus in the nature of an implantable pump filled with pharmaceutical preparations and parts and fittings therefor for the treatment of diabetes, obesity and metabolic diseases and disorders, namely, weight loss, HIV and for the prevention of autoimmune diseases and disorders and anti-inflammatories.

Class 10

(2) Drug delivery systems and devices, namely, implantable osmotic mini-pumps and parts and fittings therefor; implantable osmotic mini-pump drug delivery systems for the continuous release of a therapeutic formulation for the treatment of diabetes and parts and fittings therefor; medical apparatus for the administration of pharmaceuticals, biopharmaceuticals, vaccines and other therapeutic formulations in the nature of an implantable pump and parts and fittings therefor; medical apparatus and instruments for implanting and removing subdermal drug delivery devices in the nature of surgical preparation instruments and supplies, namely trays, needles, swabs, anesthetic preparations, alcohol prep pads, gloves, skin adhesive, needles, bandages, wound closure strips, syringe, scalpel, gauze, placement tool, hemostat, and removal tool and parts and fittings therefor; medical apparatus for treatment of diabetes, obesity and metabolic diseases and disorders, namely, malfunctioning condition of the body's metabolism process, in the nature of an implantable pump and parts and fittings therefor

Services

Class 42

providing scientific, pharmaceutical and medical research and development services in the fields of diabetes, obesity, metabolic diseases and disorders, drug delivery technologies, administration of pharmaceuticals, pharmaceuticals, and clinical trials; design and testing services in the fields of pharmaceuticals, biopharmaceuticals, science, namely, pharmacology and biology, medicine and drug delivery systems; research and development of new clinical products, drugs, pharmaceuticals and drug delivery systems and devices; computational and experimental research and development activities directed towards the identification and optimization of compounds and the development of drugs and drug delivery systems; information and advisory services in the field of pharmaceuticals, pharmacology and biology, medicine and drug delivery technologies, namely, the provision of information in the field of pharmaceuticals, pharmacology and biology and drug delivery technologies on-line from a computer network and via the Internet and extranets; Research and development of pharmaceutical preparations, products and technology in the fields of diabetes, obesity, metabolic diseases and disorders, namely, malfunctioning condition of the body's metabolism process, drug delivery technologies, and administration of pharmaceuticals; providing medical and scientific research information in the fields of diabetes, obesity, metabolic diseases and disorders, namely, malfunctioning condition of the body's metabolism process, drug delivery technologies, administration of pharmaceuticals, pharmaceuticals, and clinical trials; medical research; design and testing of new products, technologies and therapies in the fields of diabetes, obesity, metabolic diseases and disorders, namely, malfunctioning condition of the body's metabolism process, drug delivery technologies, and administration of pharmaceuticals.

Goods

Class 01

(1) Preparations for feeding plants, improving the fertility of plants, fortifying plants, regulating the growth of plants and protecting plants against pathogens; artificial soil for growing plants; expanded clay for use as a hydroponic plant growing substrate; perlite and clay pellets for hydroponics and organic hydroponics; peat pots for horticulture; fertilizers, complex fertilizers, manures, mixed fertilizers, natural fertilizers, fertilizers for potting soils and earth, bone meal for use as a fertilizer, earth conditioners for agriculture, soil conditioners, organic fertilizers; water conditioner in the form of a liquid solution containing a blend of probiotic bacterial supplements, fulvic and humic acids, and an oxygen releaser for traditional, biological, hydroponic and aquaponic growing, for organic hydroponics, horticulture, silviculture and agriculture; microorganism cultures for accelerating the breakdown of organic matter in water found in growth containers; rooting gels; mycorrhiza and enzyme preparation, namely microscopic mushrooms for agriculture, enzyme preparations for agriculture, and enzyme substrates.

Class 09

(2) Automatic valves; digital acidity gauges; temperature sensors; thermal sensors; climate controllers made up of a horticultural controller, probes and sensors for controlling relative humidity, temperature, carbon dioxide, and light intensity and for controlling lighting systems, mist dispensers, fans and watering systems for sheltered-space growing in a controlled environment for traditional, organic, hydroponic and aquaponic growing, for organic hydroponics, horticulture, silviculture and agriculture; detectors and sensors for humidity, light intensity, carbon dioxide levels, fertilizer rates, water levels, oxygen levels, and ammonia rates for use in traditional, biological, hydroponic and aquaponic growing, for organic hydroponics, horticulture, silviculture and agriculture; mobile applications for managing irrigation and micro-farming systems; mobile applications for climate control for use in the field of traditional, biological, hydroponic and aquaponic growing, for organic hydroponics, horticulture, silviculture and agriculture.

Class 11

(3) Irrigation systems consisting of a horticultural controller, automatic valves, probes and sensors that control soil humidity, soil temperature, water temperature, water levels, acidity, fertilizer rates,

ammonia rates in the soil and oxygen levels in the water; irrigation sprinklers; agricultural irrigation and watering equipment; dripper irrigation systems; irrigation units for agriculture; remote-controlled valves for controlling water in irrigation sprinklers; LED lighting, namely LED lighting for horticulture.

Class 21

(4) Indoor terrariums for plants; germinators; biodegradable pots for planting seedlings and seeds; containers, namely plastic containers for growing plants; baskets, namely plastic and geotextile baskets for growing plants; plastic grids, namely planting grids; plastic and geotextile boxes for growing plants; propagation trays, namely plastic and geotextile trays for growing plants and plastic and geotextile trays for collecting water; vertical systems for green walls, traditional growing, organic growing, hydroponic and aquaponic growing, for organic hydroponics, horticulture, silviculture and agriculture, namely sphagnum, coconut fibre, clay pellets, peat, compost, clay, non-woven rot-resistant felt, nutrient salts, plastic and geotextile trays for water storage and collection, agricultural irrigation equipment.

Services

Class 42

(1) Technical support services regarding the troubleshooting of mobile applications for managing irrigation, micro-farming and climate control systems.

Class 44

(2) Consulting regarding traditional, biological and hydroponic growing, organic hydroponics, horticulture, silviculture and agriculture.

(3) Consulting regarding aquaponic growing.

Class 09

Terminals for financial transactions, namely terminals for processing the activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading of stored value cards, gift cards, closed loop cards, transit system cards, prepaid debit cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Terminals for use with transit system stored value cards and passes, namely terminals for the activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading with additional rides and passes transit system cards and passes; Downloadable mobile software applications for activating, deactivating, managing, balance checking, processing electronic payments, reloading and adding value to stored value cards, gift cards, closed loop cards, transit system cards, prepaid debit cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Downloadable mobile software applications for use with transit system stored value cards, namely software for activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading with additional rides and passes transit system cards and passes;

Services

Class 36

(1) Issuing reloadable stored value cards, gift cards, closed loop cards, prepaid debit cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Processing third party direct deposits to add value to stored value cards, gift cards, prepaid debit cards, closed loop cards, transit system cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Currency exchange services, namely, acceptance of single or multiple currencies types to process electronic deposits to stored value cards, gift cards, prepaid debit cards, closed loop cards, transit system cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Transit system stored value card services, namely activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading with additional rides and passes transit system cards and passes; Stored value card services, namely, processing electronic payments made through stored value cards, gift cards, prepaid debit

cards, closed loop cards, transit system cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Stored value card services, namely, activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading of stored value cards, gift cards, closed loop cards, transit system cards, prepaid debit cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Stored value card services, namely, activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading of stored value cards, gift cards, closed loop cards, transit system cards, prepaid debit cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services using a computer-based network and via individual kiosks; Cash card services; Stored value card services; Prepaid purchase card services, namely processing electronic payments made through prepaid cards; Prepaid purchase card services, namely processing electronic financial transactions through issuing and reloading stored value cards provided through individual kiosks; Prepaid purchase card services, namely bill payment services provided through individual kiosks; Credit card and debit card services

Class 42

(2) Provision of online software for activating, deactivating, managing, balance checking, processing electronic payments, reloading and adding value to stored value cards, gift cards, prepaid debit cards, closed loop cards, transit system cards, prepaid cash cards, prepaid credit cards and other prepaid non-credit cards redeemable for goods and services; Provision of online software for use with transit system stored value cards, namely software for activation, deactivation, management, balance checking, processing electronic payments, adding value to and reloading with additional rides and passes transit system cards and passes

Goods

Class 09

(1) Computer software, namely, interactive computer software, application software, voice recognition software and voice-enabled software applications, for use in the fields of food preparation, nutrition, dieting and weight loss, mental health, wellness of the body and spirit and general wellbeing, stress management, breathing exercises, drug, alcohol, physical and mental rehabilitation and occupational therapy, physical disability, aged care and seniors community care, relaxation, physical fitness life coaching, nutritional, mental health and general wellness counselling, personal lifestyle assessments and relationship management, personal image development, occupational health and safety, pregnancy and parenting, meditation, exercise and physical fitness including stretch training, balance training, strength training, conditioning and guided exercise programs; computer software, including interactive computer software, for tracking, mapping, logging, recording and evaluation of nutrition, dieting, weight loss, physical health and mental health, wellness of the body and spirit and general wellbeing, breathing exercises, cognitive behaviour, health, drug, alcohol, physical and mental rehabilitation sleep, pregnancy, growth and development of babies, exercise and physical fitness, conditioning, posture, balance, strength, flexibility, alignment, fluidity, movement and heart rate; computer software applications for use with computers, laptops, smart phones, tablets, smart watches and smart glasses, namely, software for users to track, record, monitor, upload, download, share, post and otherwise provide activity data, namely, goals and progress in the areas of nutrition, dieting, weight loss, physical and mental health, wellness and wellbeing, breathing exercises, cognitive behaviour, health, drug, alcohol, physical and mental rehabilitation sleep, pregnancy, growth and development of babies, exercise and physical fitness, conditioning, posture, balance, strength, flexibility, alignment, fluidity, movement and heart rate; sensors, namely, motion and position sensors, monitors namely computer monitors and video monitors and displays, namely, flat panel

display screens and computer display screens, all for use in conjunction with computer programs relating to nutrition, dieting, weight loss, physical and mental health, wellness and wellbeing, breathing exercises, cognitive behaviour, health, drug, alcohol, physical and mental rehabilitation sleep, pregnancy, growth and development of babies, exercise and physical fitness, conditioning, posture, balance, strength, flexibility, alignment, fluidity, movement and heart rate, none being for medical purposes; wearable sensors that interact with devices to be worn in clothing, namely gloves and inner soles, which allow users to acquire, process, store, and transmit to the Internet interaction data of the user, namely stretching, muscle activity during workouts, skin hydration, time, date, heart rate, altitude, global positioning, direction, distance, speed, steps taken, calories burned, navigational information, changes in heart rate, activity level, hours slept, and quality of sleep; wireless communication devices for voice, data or image transmission, namely, personal digital assistants, smart phones, and personal computers; voice recognition software and voice-enabled software applications for tracking, mapping, logging, recording and evaluation of nutrition, dieting, weight loss, physical health and mental health, wellness of the body and spirit and general wellbeing, breathing exercises, cognitive behaviour, health, drug, alcohol, physical and mental rehabilitation, sleep, pregnancy, growth and development of babies, exercise and physical fitness, conditioning, posture, balance, strength, flexibility, alignment, fluidity, movement and heart rate; electronic books and training manuals for computer software in relation to the foregoing; downloadable electronic publications namely, electronic books and training manuals in relation to the foregoing;

Class 16

(2) Printed materials, namely, instructional, educational and teaching manuals and guides, books, booklets, posters and publications including in the areas of food, nutrition, cooking, recipes, dieting and weight loss, physical and mental health, healthcare, medicine, nursing, physiotherapy, chiropractic, alternative and allied healthcare, natural health and healing, wellness and wellbeing, stress management, breathing exercises, rehabilitation and occupational therapy, disability, aged care and community care, relaxation, life coaching, counselling, lifestyle and relationship management, personal development, occupational health and safety, pregnancy and parenting, growth and development of babies, meditation, sports training, sports science, biomechanics, teaching, education, self-directed learning, self-help, exercise and physical fitness including stretch training, balance training, strength training, conditioning and guided exercise programs;

Services

Class 41

(1) Education services, training programs, seminars and workshops in the areas of food preparation, nutrition, dieting and weight loss, mental health, emotional health, medicine nursing, physiotherapy, chiropractic, alternative and allied healthcare, natural health awareness and physical, emotional and mental healing, wellness of the body and spirit and general wellbeing, stress management, breathing exercises, health, drug, alcohol, physical and mental rehabilitation and occupational therapy, physical disability, aged care and senior community care, relaxation, physical fitness, life coaching, nutritional, mental health and general wellness counselling, personal lifestyle assessments and relationship management, personal image development, occupational health and safety, pregnancy and parenting, growth and development of babies, meditation, sports training in the field of fitness, sports science, biomechanics, exercise and physical fitness including stretch training, balance training, strength training and conditioning; health programs in the area of nutrition and physical fitness training programs; fitness and exercise monitoring and assessment services; providing information and advice in the fields of fitness and exercise; providing information on fitness and exercise via a website; providing information, advice and online

electronic publications in the areas of books, booklets, posters and publications in the areas of food, nutrition, cooking, recipes, dieting and weight loss, physical and mental health, healthcare

Class 42

(2) Provision of online non-downloadable software in the fields of food preparation, nutrition, dieting and weight loss, mental health, wellness of the body and spirit and general wellbeing, stress management, breathing exercises, rehabilitation and occupational therapy, disability, aged care and senior community care, relaxation, physical fitness life coaching, nutritional, mental health and general wellness counselling, personal lifestyle and relationship management, personal image development, occupational health and safety, pregnancy and parenting, meditation, exercise and physical fitness, namely, stretch training, balance training, strength training, conditioning and guided exercise programs; provision of online non-downloadable software for tracking, mapping, logging, recording and evaluation of nutrition, dieting, weight loss, physical health and mental health, wellness of the body and spirit and general wellbeing, breathing exercises, cognitive behaviour, health, drug, alcohol, physical and mental rehabilitation, sleep, pregnancy, growth and development of babies, exercise and physical fitness, conditioning, posture, balance, strength, flexibility, alignment, fluidity, movement and heart rate; design and development of computer hardware and software in the fields of food preparation, nutrition, dieting and weight loss, physical and mental health, healthcare, wellness and wellbeing, stress management, breathing exercises, rehabilitation and occupational therapy, disability, aged care and senior community care, relaxation, life coaching, counselling, lifestyle and relationship management, personal development, occupational health and safety, pregnancy and parenting, meditation, exercise and physical fitness, stretch training, balance training, strength training, conditioning and guided exercise programs for tracking, mapping, logging, recording and evaluation of nutrition, dieting, weight loss, physical and mental health, wellness and wellbeing, breathing exercises, behaviour, rehabilitation, sleep, pregnancy, growth and development of babies, exercise and physical fitness, conditioning, posture, balance, strength, flexibility, alignment, fluidity, movement and heart rate;

Class 44

(3) providing advice, consultancy and information in relation to mental health, medical and psychological wellness, nutrition, drug, alcohol, physical and mental rehabilitation, lifestyle counseling in the psychological areas, occupational health and safety (therapeutic and rehabilitation services), and aged care; mental health and wellness monitoring and assessment services;

Class 35

(1) Compilation, systemization, collection, statistical analysis and reporting for business purposes of information pertaining to industrial, commercial and residential building, facility and plant control, automation and optimization systems

Class 37

(2) Installation, maintenance and repair of electrical and electronic operation control systems, and of business automation and optimization system hardware, for industrial, commercial and residential buildings, facilities and plants; Installation, maintenance and repair of industrial, commercial and residential building, facility and plant computer hardware and its components for environmental control systems, namely heating, air conditioning, ventilation, refrigeration, moisture and gas detection, building temperature and humidity, fire and smoke detectors, sprinkler and water flow, emergency evacuation voice communication and lighting systems, video surveillance, on-site personnel tracking, energy usage, display monitors for external threat detection, building

access control, and asset management systems; Installation, maintenance and repair of industrial, commercial and residential building, facility, and plant hardware and its components for the on-site and remote monitoring, control, operation, automation, interaction and optimization of electrical and electronic controls and control systems, systems for heating, air conditioning, ventilation and refrigeration, systems to record energy use, allocation, maintenance, efficiency and stabilization, systems for lighting, sound, systems for emergency voice communication, luminescent display panels, audio and video emergency broadcast systems, battery and storage cell electrical charging systems, energy metering and payment systems, systems for fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, for security access and alarms systems, closed-circuit television (CCTV) surveillance systems, personnel tracking systems, light and motion detection systems, moisture detection systems, environmental hazard detection systems, external threat detection and safety systems, gas detection, alarm and containment systems, asset management systems and systems for fault detection

Class 38

(3) Transmission of messages, information and data analytics via a global computer network to aid in building, facility and plant process decision making concerning building, facility and plant process controls, building automation and optimization, performance of building, facility and plant systems namely for building, facility and plant environment, building security, video surveillance, external threat detection and building access control, tracking of on-site personnel for emergency evacuation, fire safety containing sprinkler and water flow information, energy usage, lighting systems, sound speaker systems, display panels and asset management systems

Class 41

(4) Training services to provide practical skills and mechanical training for heating, ventilation and air conditioning systems; training services in the fields of building, facility and plant automation and optimization of building, facility and plant controls to use energy more efficiently; providing continuing education training in the field of heating, ventilation, air conditioning, as well as building, facility and plant automation and optimization to use energy more efficiently.

Class 42

(5) Engineering and technical design review namely constructability analysis, integrated technology automation and optimization for the development and integration of building, facility and plant control process systems and software; Technical consultation in the field of design and development of computer hardware, computer software, and computerized peripherals and systems used for building, facility and plant process controls, building access controls, and for building, facility and plant automation and optimization systems; Computer services, namely, building, facility and plant controls, access control system performance auditing by electronically gathering, analyzing and formatting this information to report to others, and building, facility and plant, automation and optimization system performance auditing to ensure proper functioning by electronically gathering, analyzing and formatting this information to report to others; Providing temporary use of online, non-downloadable computer applications and computer software for use in database management and coordinated control of energy management systems and security systems for building, facility, and plant process control systems, access control systems, and building, facility and plant automation and optimization systems; Technical customer support services namely, 24/7 help desk services for IT infrastructure, operating systems and database systems in the fields of building, facility, and plant process controls, access control systems, and building, facility and plant control, automation and optimization software and systems.

Class 45

(6) Monitoring security alarm systems for building, facility and plant automation and optimization systems; Monitoring building, facility and plant environmental safety systems, namely security alarm systems, fire, sprinkler, and water flow systems, video surveillance systems, tracking of on-site personnel for security purposes, energy usage from security purposes, light, sound and motion detection, external threat detection, emergency voice communication systems, building access control and monitoring asset management systems for security purposes; Monitoring of security alarm computer systems through building, facility and plant environment control systems, safety, security, fire, sprinkler, water flow, video surveillance, on-site personnel tracking and emergency broadcast systems, energy, lighting, sound, display panels, external threat detection, access control, and asset management systems.

Colour Claim

Colour is claimed as a feature of the trademark. The trade-mark is composed of a circle and square design and the name of Bank of China, Toronto Branch in Chinese and English. The logo portion of the trademark, i.e. the circle and square design is red in color. The name portion of the trademark in Chinese characters and Bank of China, Toronto Branch is black in color. These two colors are characteristics of the trademark.

Foreign Character Translation

As provided by the applicant, the translation provided by the applicant of the Chinese characters is 'BANK OF CHINA, TORONTO BRANCH'.

Foreign Character Transliteration

As provided by the applicant, the transliteration provided by the applicant of the nine Chinese characters is as follows: the two first Chinese characters for the word CHINA are pronounced as 'ZHONG GUO' in Chinese; the two second Chinese characters for the word 'BANK' are pronounced as 'YIN HANG' in Chinese; the three third Chinese characters for the word 'TORONTO' are pronounced as 'DUO LUN DUO'; and the last two Chinese characters for the word 'BRANCH' are pronounced as 'FEN HANG' in Chinese.

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours blue, black, white, gold, orange and green are claimed as features of the trademark. The background of the label is blue. The words 'EXTRA HYDRATING' are black and appear on an oval gold background. The words 'beauty pure and simple' are black. The letters 'ogx' are primarily black but a green swish extends across the 'g' and the 'x', forming part of the 'x'. The letters 'ogx' and the words 'beauty pure and simple' appear on a gold rectangular background. Two orange leaf designs appear on the gold rectangle, one on each side of the composite of 'ogx' and 'beauty pure and simple'. The words 'radiant glow +' and 'of' are white. The words 'argan oil' and 'morocco' are blue.

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours blue, black, white, gold and light gold are claimed as features of the trademark. The top portion of the background of the label is gold, fading to a light gold which in turn fades into a blue background. The blue background occupies approximately 80% of the label. The words 'EXTRA STRENGTH/EXTRA FORT' are black and appear on an oval gold background. The letters 'ogx' and the words 'beauty pure and simple' are black and appear on a gold rectangular background. Two shadow leaf designs appear on the gold rectangle, one on each side of the composite of 'ogx' and 'beauty pure and simple'. The words 'refresh & revitalize + argan oil of morocco' are white.

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours blue, silver, orange, black, green and gold are claimed as a feature of the trademark. The background of the label is blue. The words 'renewing' and 'of' are silver. The words 'argan oil' and 'morocco' are black. The letters 'ogx' are primarily black but a green swish extends across the 'g' and the 'x', forming part of the 'x'. The words 'beauty pure and simple' are black. The letters 'ogx' and the words 'beauty pure and simple' appear on a gold background. The gold background is approximately trapezoidal in shape. The top and bottom lines of the trapezoid are parallel to each other but the left and right lines of the trapezoid curve inwardly in a downward direction. Two orange leaf designs appear on the gold background, one on each side of the composite of 'ogx' and 'beauty pure and simple'. The red outline does not form part of the trademark but only serves to show the shape of the label.

Wine vinegar

Territory

The production area for Vinagre de Jerez comprises the land located in the municipalities of Jerez de la Frontera, El Puerto de Santa María, Sanlúcar de Barrameda, Trebujena, Chipiona, Rota, Puerto Real and Chiclana de la Frontera, and in the provinces of Cádiz, Lebrija and Seville, located to the east of 5° 49' West and to the south of 36° 58' North.

Qualification

Protected under Regulation (UE) No. 1308/2013 of the European Parliament and the Council of 17th December 2013. The specificity of the production area of Vinagre de Jerez is based on historical, natural and human reasons. (a) Historical factors Wine growing and wine and vinegar production have been part of the backbone of the Jerez district for thousands of years, dating back to Phoenician times. The geographical location of the Jerez area, near to important commercial ports such as Cadiz and Seville, with great historical significance, ensured that the local wines and vinegars were frequently included in the cargo of ships sailing for the Americas or for markets in the north of Europe, and further ensured that for the ageing of wines and vinegars the containers that were used were made overseas, from oak from the New World. Likewise, the system of Criaderas y Soleras, a traditional aspect of Jerez wine growing, has a clear historical origin that dates back to the 17th century and to the need to satisfy the demand of the markets for wines and vinegars of consistent quality, that do not depend on the vicissitudes of every harvest. (b) Natural factors The production area is characterised by flat or gently undulating land, with slopes of between 10% and 15%, where the prevalent soil type is known as albariza, a soft, white, loam soil

with a large capacity for retaining moisture. Its main components are calcium carbonate, clay and silica. The climate is warm, with minimum temperatures in winter around 5°C and maximum temperatures in summer around 35°C. The production area enjoys more than 300 days of sunshine per year and an average annual rainfall of approximately 600 litres per square metre, with the bulk of precipitation occurring in November, December and March. In any case, this factor must be considered in combination with the area's characteristic albariza soil, with its capacity to retain moisture and prevent evapo-transpiration. Lastly, it is worth noting the important climactic influence of the region's prevailing winds: the Levanter, which comes from the interior of the country and is hot and dry, and the Poniente, which comes from the Ocean bringing a high degree of humidity and acts as an important moderating factor, especially in summer. (c) Human factors

The criaderas y solera system, that is prevalent in the ageing of Vinagre de Jerez, is a traditional maturing system in the production area, as is the use of the bota, a traditional barrel made of oak from the Americas and intensely impregnated with the flavour of the wine. Architecture also plays an important role in the special nature of the vinegars of the Designation of Origin 'Vinagre de Jerez'. The cellars used for ageing vinegar tend to have gabled roofs and high ceilings, which help to ensure a large volume of air inside, which lessens the effects of temperature variations outside. The walls tend to be thick enough to provide insulation and the windows are high in order to allow air to circulate to take advantage of the fresh night breezes of the Poniente, while avoiding light falling directly on the barrels. All the orographical, soil and climate characteristics mentioned above give the grapes of the production area distinctive characteristics that define many of the specificities of the suitable wines and, in turn, of Vinagre de Jerez. The influence of natural factors on the suitable wines obtained from the varieties of grape used (palomino, muscatel, and pedro ximénez) is decisive. In hot regions like the production area of Vinagre de Jerez, grapes ripen very quickly and their juice, which is very sweet, tends to have relatively low acidity values. The total incidence of light in the production area during the active period for wine growing is particularly high, which allows the fruit to develop and ripen well. Furthermore, the production area is characterised by the dryness of its summers, coinciding with the period between ripening and the harvest, and the prevalence of the Levanter, which is extremely hot and dry. In this context, the Poniente, arriving from the Atlantic Ocean, with its distinctive thermal character, brings frequent night breezes in summer, which produce intense showers, compensating the water deficit that may be exacerbated by the area's strong sun. The albariza soil also plays a decisive role in this regard, since its capacity to retain moisture ensures that water reserves are available in the subsoil. Furthermore, the characteristics due to the cultures of yeast that have been selected since time immemorial and linked to the environmental conditions of the area are of great importance. The metabolisation of the alcohols and poly-alcohols of the wine by the alcohol-producing yeast which occur in the area known as the 'Marco de Jerez' results in a conjunction of secondary elements and an alteration of the primary components of the wine: a reduction in the glycerine content and an increase in the acetaldehyde content and in the products of esterification. In turn, the resulting acetaldehydes give rise to acetoin, which in the presence of higher alcohols gives Vinagre de Jerez its characteristic aroma. The presence of a considerable quantity of alcohol is also of enormous importance for the quality and personality of Vinagre de Jerez, because it gives rise to esterified compounds (essentially ethyl acetate) that structure the vinegar, giving it greater complexity and balancing the first aromas of the acidification. Maturing in oak barrels and the particular microclimatic conditions of the cellars moreover ensure that the vinegar acquires some very particular characteristics during the maturing process. The type of barrel used has a capacity for micro-oxygenation which is ideal for the slow development of the vinegars and allows the gradual release of components during ageing, which help to stabilise the colouring substances, form polymer groups and give the characteristic tones between amber and mahogany, the notes of vanilla and the aromas of white coffee and high roast coffee. Furthermore, the hemicellulose of the

wood allows the water content to be gradually lost through evaporation, which increases the dry matter, mineral salt and vinegar ash content. The criaderas y soleras system, being the commonest maturing system in the area, favours a significant homogenisation of the vinegars by moderating the effects of the various añadas. Lastly, the architectural structure of the cellars of the Jerez area, by maintaining the microclimate conditions, not only facilitates the slow oxygenation of the vinegars, but also keeps the barrels in perfect condition, which enables the maturing of 'Vinagre de Jerez'.

3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 33, 34, 38, 39, 40, 44 and 45 of area n. 9, and parcels n. 8, 13, 20, 21, 22, 23, 24, 25, 26, 27, 28, 35, 36, 37, 38, 39, 41, 42, 43, 44, 48, 49, 50, 51, 52, 53, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65 and 72 of area n. 10.

Qualification

Protected under PDO-ES-A1560, Article 107 of Regulation (EU) No. 1308/2013. Wines from the Priorat region are recognizable from the way that the different grape varieties have adapted to the harsh landscape of the region. Vine cultivation is distributed at altitudes ranging from 100 meters above sea level in the lower parts of the districts of Bellmunt del Priorat and el Molar, up to 750 meters in the highlands of La Morera de Montsant and Porrera. The winegrowing is characterised by slopes that have a gradient of more than 15% in most cases although some wine estates reach 60%. The tortuous geography of this area means that many vineyards are worked as "costers" (Catalan word meaning steep slope) which are so steep that in some areas terraces have been built. Some of these terraces are so narrow that there is only space for two rows of vines, meaning that the vineyard cannot be worked with farm machinery. The resulting landscape, which these vineyards provide us with are one of the defining characteristics of the Priorat, giving it a distinctive personality. Born of the soil and the region's specific climate, vines planted here tend to suffer and as a result harvest yields are very low - at less than 1 kg per plant on average. This however means that the wines produced in this area have a very unique personality. The harvest period tends to last a long time: it starts around the middle of September in Bellmunt and El Lloar and continues until the end of October or the beginning of November in Porrera and La Morera de Montsant. The long fermentation period of very ripe grapes enables winemakers to obtain a series of very rich components from each grape, facilitating a very comprehensive skin maceration period. This limited terroir, is formed by materials of the Palaeozoic era, mainly Devonian, Carboniferous shale (formed between 416 and 318 million years ago), therefore the oldest that can be found in Catalonia today. The soils are shallow, usually from a single horizon and immediately below (about 10-15 cm) is the bedrock. They have a low organic content matter and are formed mostly by the disintegration of the slate, which is called llicorella, and are laminated and broken rocks of a dark copper colour between which the roots of the vines dig deep in search of moisture, water and nutrients. It is these soils which are recognised as giving Priorat wines their greatest virtues. The relative isolation with respect to the influence of the sea and, at the same time, the protection offered by the sierra de Montsant from the cold northerly winds, give the area of the DOQ Priorat unique climatic conditions. These are marked especially by the remarkable thermal changes between day and night. So, in the summer months you can achieve minimal temperatures of 12 degrees, while the maximum can be up to 40 degrees, although the rocky surface of the earth can get much higher values. The average annual temperature ranges between 14 and 12 degrees, from the lowest area to the foot of Montsant. The recommended and permitted varieties of the DOQ Priorat are the following: Recommended red varieties: Grenache, Carignan. Permitted red varieties: Hairy Grenache, Tempranillo, Piquepoul, Cabernet Sauvignon, Cabernet Franc, Pinot Noir, Merlot and Syrah. White varieties: White Grenache, Macabeu, Pedro Ximénez, Chenin Blanc, Muscat of Alexandria, Muscat Blanc à Petits Grains, Xarello, Piquepoul. The most planted grape varieties in the Priorat are red ones. Carinyena (Carignan) and Garnatxa (Grenache) are the most important native varieties.
