2020-06-10 — Vol. 67 No. 3424

# Trademarks Journal

## Vol. 67 No. 3424

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

#### Class 07

(1) Machines and machine tools for treatment of materials and for manufacturing, namely, press dies for metal forming, mechanical presses for metalworking, industrial machine presses, metalworking machine tools, bending machines for metalworking, cutting machines for metalworking, machine tools for the metalworking industry and parts, fittings and components therefor; machine coupling and transmission components, (except for land vehicles) and parts, fittings and components therefor; robots for use in industry and parts, fittings and components therefor; grippers as parts of machinery, namely, precision clamping machine tools, grippers for use in the precision clamping of work pieces, and precision clamping of work materials and parts, fittings and components therefor; centrifuges and parts, fittings and components therefor; furnace loading machines, namely, loading machines for industrial furnaces and parts, fittings and components therefor; metal production machines, namely, metal extrusion presses, metal forming machines and metal sawing machines and parts, fittings and components therefor; metalworking machines, namely, bending machines for metalworking, boring machines for metalworking, broaching machines for metalworking, cutting machines for metalworking and drilling machines for metalworking and parts, fittings and components therefor; sheet metal working machines, namely, sheet metal forming machines and parts, fittings and components therefor; embossing printing machines and parts, fittings and components therefor; modular tools for machinery, namely, turning tools for metal working and parts, fittings and components therefor; pneumatic tools [machines], namely, pneumatic transporters, pneumatic jacks, pneumatic pumps, and pneumatic hoists and parts, fittings and components therefor; guidance frameworks for machine tools, namely, cutting guides as parts of metalworking machine tools and parts, fittings and components therefor; hydraulic and pneumatic process control units and parts, fittings and components therefor; robot metal working presses and parts, fittings and components therefor; industrial squeezers, namely, metal extrusion presses and parts, fittings and components therefor; swaging machines and parts, fittings and components therefor; bending machines for metalworking and parts, fittings and components therefor; mechanical presses for metalworking and parts, fittings and components therefor; machine tools for cutting, drilling, grinding and surface treatment,

namely, for metalworking and parts, fittings and components therefor; plate shearing machines and parts, fittings and components therefor; punching machines, namely, punching presses for metal working and parts, fittings and components therefor; chisels for machines and parts, fittings and components therefor; power saws and parts, fittings and components therefor; metal sawing machines and parts, fittings and components therefor; conveyors and conveyors belts and parts, fittings and components therefor; powertrains, namely, transmissions for machines, and generic parts of machines, namely, transmission gears for industrial machines, bearings as parts of machines, and compressors as parts of machines, motors and engines and parts, fittings and components therefor; control mechanisms for machines, engines or motors, namely, pneumatic controls for machines, engines and motors and parts, fittings and components therefor; feeders [parts of machines], namely, feeders for separating, lubricating and positioning metal blanks and parts, fittings and components therefor; machine tool holders and parts, fittings and components therefor; vacuum control valves and parts, fittings and components therefor; safety couplings for machines and parts, fittings and components therefor; bearing brackets for machines and parts, fittings and components therefor;

### **Class 09**

(2) Cash registers, computers and parts, fittings and components therefor; automatic control apparatus, namely, industrial automation controls for use with machinery for metal forming, metal pressing, metalworking, carbon fiber reinforced plastic forming, glass fiber reinforced plastic forming and natural fiber forming and parts, fittings and components therefor; electric control apparatus, namely, control panels for operating machinery for metal forming, metal pressing, metalworking, carbon fiber reinforced plastic forming, glass fiber reinforced plastic forming and natural fiber forming and parts, fittings and components therefor; automatic vacuum control apparatus, namely, vacuum gauges and parts, fittings and components therefor; data processing equipment and accessories, namely, couplers for data processing and parts, fittings and components therefor; electrical and fibre optic couplings and parts, fittings and components therefor;

### **Class 11**

(3) Heat exchangers as parts of machines and parts, fittings and components therefor;

### **Services**

#### **Class 37**

(1) Installation, repair, maintenance and servicing of machines and machine tools for the metalworking industry;

#### **Class 42**

(2) Design and development of computer hardware and software; software development, programming and implementation; software creation; software design and development; computer software research; consultancy, maintenance and installation of computer software; science and technology services, namely, scientific research, analysis and testing in the field of metalworking; metallurgical testing; research in the field of machines and machine tools for metalworking and sheet metal working; research for metal, metalworking and sheet metal working; technological advisory services for machine engineering analysis; design of metalworking machines; design of metalworking presses and sheet metal working presses; design of metalworking tools and sheet metal working tools;

### **Claims**

Priority Filing Date: August 17, 2015, Country or Office: SWEDEN, Application No: 2015/05471 in association with the same kind of goods (1), (2) and in association with the same kind of services

#### Class 09

(1) ) computer programs, namely downloadable software used as mobile apps for purpose of recording the number of steps taken in walking, calorie, sleep quality, time, and testing the people's heart rate, and for the purpose of arranging and organizing social activities, parent-child games, and parent-child interaction activities; computer game software, namely downloadable computer games, downloadable electronic games, video games; data processing equipment, namely, electronic memory card readers; pedometers; counters used for recording the number of steps taken in walking, calorie, time and testing the people's heart rate; counters for use during sporting activities namely electronic step-counters, speed and distance monitors and recorders for use when walking, running and swimming; global positioning system (GPS) consisting of

computers, computer software, transmitters, receivers, and network interface devices; computer chips and electronic chips for the manufacture of integrated circuits, semiconductor chips and gaming chips; mobile phone compatible activity trackers in the form of wearable activity trackers for monitoring, tracking and analyzing fitness-related metrics of the wearer to provide health and activity feedback; downloadable computer software applications for purpose of recording the number of steps taken in walking, calorie, sleep quality and time, testing the people's heart rate; downloadable computer software applications for purpose of arranging and organization of social activities, parent-child games, and parent-child interaction activities; fire retardant clothing; sports helmets

### **Class 10**

(2) facial massagers and body massagers; soporific pillows for insomnia; furniture especially made for medical purposes; medical examination furniture; air cushions for medical purposes, namely, pressure relieving inflatable cushions; orthopedic articles, namely orthopedic belts, bone implants, bone screws, braces, corsets, footwear, suspenders; medical apparatus and instruments, namely surgical instruments for orthopedic surgery, medical apparatus for monitoring vital signs of patients, namely heart rate monitors, respiration monitors, blood pressure monitors; medical apparatus and instruments, namely sphygmomanometers, thermometers for medical purposes, 3D scanners for the human body for medical use, organ testing apparatus, blood testing apparatus, stethoscope for medical use; gloves for medical purposes; back supports for medical purposes, inversion table relieves pressure on the vertebra by allowing the user to hang upside-down through the use of gravity, abdominal belts for medical purposes; heart rate monitor bands; heart rate monitor watches; orthopedic footwear

### **Class 25**

(3) athletic clothing; beachwear; casual clothing; casual wear; children's clothing; baby clothes; outdoor winter clothing; rainwear; maternity clothes; clothes for fishing; golf wear; ski-wear; formal wear; bridal wear; undergarments; uniforms for medical personnel; athletic footwear; beach footwear; children's footwear; infant footwear; outdoor winter footwear; rain footwear; fishing footwear; golf footwear; ski footwear; evening footwear; bridal footwear; footwear for medical personnel; hats, caps, bandanas; hosiery; gloves [clothing]; neckties; scarves; belts [clothing]; shower caps; sleep masks

### **Class 28**

(4) juggling ball, sports balls, soccer balls, beach balls; weight lifting machines; dumbbells, barbells; fitness balls; machines for physical exercises, namely stationary bicycles, exercise skiing machines, stair-stepping machines, rowing machines and chest expanders; accessory for manually-operated exercise equipment, namely, elastic exercise bands and resistance machines for exercise; fitness cycle, running machine, climbing stairs machine, skiing machine, rowing boat machine and chest expander; elbow guards for sports use; knee guards for sports use; protective padding for playing sports

### **Services**

#### **Class 35**

(1) advertising, namely advertising agency, advertising the wares and services of others by electronic billboard; advertising the goods and services of others via electronic media and specifically the internet; business management assistance; business management consultancy; business management advisory services relating to licensing of the goods and services of others; import-export agencies; promoting the goods and services of others through advertisements on Internet websites; advertising the goods and services of others through all public communication

means; promoting the goods and services of others by distributing coupons; promoting the goods and services of others by providing hyperlinks to websites of others; distribution of advertising materials for others; compilation of information into computer databases; systemization of information into computer databases; retail and wholesale services for pharmaceutical, veterinary and sanitary preparations and medical supplies; providing a searchable online advertising guide featuring the goods and services of other on-line vendors on the internet

### **Class 38**

(2) electronic exchange of messages using chat lines, chatrooms and Internet forums; transmission of greeting cards online; wireless digital messaging services; providing on-line chat rooms and electronic bulletin boards for transmission of messages among computer users; providing an interactive online forum for people concerning health and general well-being; providing access to health information databases; providing user access to global computer networks; television broadcasting; broadcasting of radio programs; providing on-line chat rooms for social networking

### **Class 41**

(3) teaching in the field of computer, music, dancing, physical fitness training, operation and management of enterprises; organization of education and entertainment competitions in the field of soccer, football, hockey, tennis, gymnastics, marathon running, swimming, martial arts, and calligraphy, boxing, chess, beauty, and parenting; arranging and conducting of educational conferences in the field of health management; providing on-line electronic publications, not downloadable namely, e-books, newspapers, magazines as well as streaming of television shows and movies via the Internet; game services provided on-line from a computer network; providing on-line music, not downloadable; providing on-line videos, not downloadable; mobile library services; arranging and organization of parent-child activities, namely organizing parent-child gardening classes, parent-child baking classes, parent-child playdough playing classes and parent-child DIY activities, namely, arts and crafts; providing and rental sports equipment, namely fitness cycle, running machine, climbing stairs machine, skiing machine, rowing boat machine and chest expander

### **Class 42**

(4) research and development of new products for others; conducting feasibility studies; computer programming; computer software design; updating of computer software; consultancy in the design and development of computer hardware; rental of computer software; maintenance of computer software; website design consultancy; technical support services in the form of troubleshooting of computer hardware and software problems; computer system analysis; computer system design; creating and maintaining web sites for others; computer program data conversion from one media to another

### Goods

#### Class 01

(1) Chemical diagnostic reagents for use in scientific tests and experiments for scientific research purposes; chemical diagnostic reagents for use in automated test systems for medical and veterinary testing purposes; chemical diagnostic reagents for use in automated test systems for use in scientific tests and experiments for scientific research purposes; reagents for analytical tests on samples for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence; reagents for industrial use, namely, synthesising DNA, RNA and other nucleic acids; reagents for use in scientific tests, namely, the sequencing of DNA, RNA and other nucleic acids; reagents for laboratory tests for medical and veterinary purposes; reagents for laboratory tests for scientific research purposes; reagents for use in testing and analysing test samples in the fields of molecular biology, biotechnology, microbiology, and bacteriology; reagents for nucleic acid amplification; reagents for use in forensic analysis; reagents for blood grouping; reagents for use in environmental testing and environmental analysis; reagents for testing water and biological fluids, namely, blood, saliva, urine, interstitial fluid, serum, plasma, semen, tears, bile fluid, spinal fluid, and amniotic fluid ; reagents for testing aqueous media for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; deoxyribonucleic acid, single stranded and double stranded deoxyribonucleic acid; ribonucleic acid; peptide nucleic acids; locked nucleic acids; nucleic acids; oligonucleotides; oligosaccharides; proteins for use in analytical tests for scientific testing and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence; peptides for industrial purposes, scientific purposes and scientific research purposes; chemicals, enzymes and reagents for use in genome, DNA, RNA and nucleic acid synthesis; endonucleases, polymerases, ligases, glycosylases; nucleotides, pyrimidines, purines; amino acids; saccharides; reagents for use in nucleic acid characterisation and nucleic acid sequencing; reagents for protein identification and analysis; chemicals for use in tests to detect diseases in plant life; reagents for formation of amphipathic membranes; buffer solutions, aqueous solvents, non-aqueous solvents, non-aqueous media and surfactants, all for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA

and other nucleic acids; isopropanol; ethanol; phenol; silicone oils; silicone fluids; enzymes for use in analytical chemistry, biochemistry, biology, biotechnology, bacteriology, genomics and the sequencing of DNA, RNA and other nucleic acids; chaotropic agents, namely, guanidine-HCl and guanidinium thiocyanate for use in scientific tests and experiments for scientific research purposes; chaotropic agents, namely, guanidine-HCl and guanidinium thiocyanate for use in diagnostic tests for medical and veterinary purposes.

### **Class 05**

(2) Reagents for use in blood grouping, molecular biology, bacteriological, biotechnology and microbiological analysis, namely, reagents for formation of amphipathic membranes, buffer solutions, non-aqueous solvents, surfactants; reagents for medical and veterinary diagnosis and medical and veterinary research; reagents for laboratory tests for medical and veterinary purposes; nucleic acid amplification reagents for veterinary, medical, medical research and forensic use; reagents for immunoassay analysers; reagents for testing aqueous media for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; reagents for testing for susceptibility to allergies; reagents for use in nucleic acid characterisation and nucleic acid sequencing; reagents for protein identification and analysis; reagents for formation of amphipathic membranes; silicone oils.

### **Class 09**

(3) Computer software for the analysis of scientific and medical data in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, national security and military defence obtained from scientific tests and experiments; computer operating software; computers, mobile phones, tablet computers; sensors used in electronic scientific equipment for detecting, manipulating and analysing biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; micro-array chips; apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, namely, automated instruments for detecting the presence, properties and identity of analytes comprising of cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits) and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes, optical and electrochemical analysis, medical diagnosis, measurement of ions; scientific apparatus and instruments for sequencing DNA, RNA, proteins and polynucleic acids; scientific apparatus and laboratory devices for the scientific analysis of polynucleic acid sequences; apparatus and instruments for the analysis of nucleic and polynucleic acids, namely, microarrays, and silicon chip based arrays for scientific and research purposes; apparatus and instruments for the analysis of proteins, namely, microarrays, and silicon chip based arrays for scientific and research purposes; apparatus and instruments for analysis of genetic information, genomic information and proteomic information, namely, automated instruments for detecting the presence, properties and identity of analytes comprising of cartridges, microarrays, silicon chip based arrays, ASICS (application specific integrated circuits) and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis; computer hardware for the analysis and recordal of scientific data; portable computer hardware; electronic display interfaces, namely, monitors for the display of information obtained from scientific equipment; silicon chips; DNA chips; analyte detector chips; biosensor chips; apparatus and instruments for use in laboratory analysis, namely, empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid and liquid form samples for scientific and research testing; computer docking stations.

**Class 10**

(4) Diagnostic and analytical apparatus for medical and veterinary purposes, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; portable diagnostic and analytical apparatus for medical and veterinary purposes, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; blood testing apparatus for chemical, biochemical and biological analysis of blood samples; cartridges for test samples, for medical purposes; reaction units containing chemical reagents, for medical and veterinary testing purposes.

**Services****Class 35**

(1) Market analysis and studies; provision of marketing, business and commercial reports; business information services, namely analysis and evaluation of business information in the fields of genomics, protein analysis, molecular analysis, chemistry, biochemistry, biology, biotechnology, microbiology and bacteriology, medical research, medical testing and diagnosis, national security and military defence; retail services connected with the sale of software; retail services connected with the sale of computer operating software; retail services in the field of data analytic reports and marketing analysis services; retail sale of electronic sensing and measuring equipment, apparatus and instruments for the analysis and sequencing of DNA, RNA and other polynucleic acids for scientific research and testing purposes; retail sale of DNA sequencing equipment, apparatus and instruments; retail sale of medical and veterinary apparatus and instruments, namely, automated electronic devices for sequencing DNA, RNA and other nucleic acids for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; retail sale of reagents, buffer solutions, solvents, surfactants and oils for scientific, medical and veterinary purposes; retail services connected with the sale of chemicals and enzymes; retail services connected with the sale of chemicals and enzymes for scientific, medical and veterinary purposes; retail services connected with the sale of deoxyribonucleic acid, single stranded and double stranded deoxyribonucleic acid, ribonucleic acid, peptide nucleic acids, locked nucleic acids, nucleic acids, oligonucleotides, oligosaccharides, proteins and peptides; retail sale of laboratory instruments and machines.

**Class 42**

(2) Scientific and technological services and research and design relating thereto, namely, consultation, research and design services relating to automated systems and instruments for direct electrical detection and analysis of molecules for use in the field of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; industrial analysis and research services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; scientific research in the fields of biology, chemistry, biochemistry, bacteriology, medicine and veterinary science; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular analysis services; synthesis of chemical compounds, small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides; scientific research in the field of nanopore technology for medical and veterinary purposes; genome, DNA, RNA and nucleic acid,

oligosaccharide, protein and peptide synthesising services; chemical compound and small molecule synthesising services; DNA and RNA and polynucleic acid sequencing services; protein sequencing services; design and development of instruments and apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis; DNA and polynucleic acid testing services; genome sequencing services; analysis and evaluation of scientific and medical records obtained from sequencing DNA, RNA and other polynucleic acids; computerised analysis and evaluation of technical data, namely, the results of scientific tests and experiments; overseeing, monitoring and managing scientific and medical experiments and tests; overseeing, monitoring and managing the analysis and evaluation of scientific and medical data; design of scientific experiments; analysis of data generated by scientific and medical experiments and tests; biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis and evaluation services; DNA and RNA and polynucleic acid and protein sequencing, analysis and evaluation services; genome sequencing services and the analysis and evaluation of data resulting therefrom; provision of reports relating to scientific and medical experiments, the results of scientific and medical experiments and tests, the analysis and evaluation of scientific and medical data, and data generated by scientific and medical experiments and tests; research and development services in the fields of chemistry, biology, biotechnology, genomics, pharmaceutical development, medical research and nanotechnology; technical analysis and evaluation services in the fields of chemistry, biology, biotechnology, genomics, pharmaceutical development, medical research and nanotechnology; application service provider (ASP) services featuring computer software for use in the analysis of scientific and medical records obtained from sequencing DNA, RNA and other polynucleic acids and installed and downloaded onto medical image processors, computers, tablet computers and handheld mobile digital electronic devices.

### Certification Mark Standard

The certification mark, as used by authorized persons, certifies that the services with which it is used meet and follow rigorous and demanding eligibility and quality requirements established by the Academy of General Dentistry in the dental education field namely that the continuing education course is in compliance with strict published standards and criteria in the following fields : Administration, Fiscal Responsibility, Goals, Needs Assessment, Objectives, Admissions, Patient Protection, Instructors, Publicity, Evaluation, Course Records, Commercial or Promotional Conflict of Interest and Self-Instruction and Electronically Mediated Programs. The program is established to improve the educational quality of continuing dental education (CDE) programs through self-evaluation conducted by program providers in relation to the published standards and criteria, and /or through counsel and recommendations provided to program providers by the applicant. A copy of the Program Guidelines is available for the public within the Canadian Intellectual Property Office.

### Services

#### Class 41

Providing a continuing education program in the dental field to promote ongoing quality improvement in dental continuing education to dental health professionals.

(1) Kits for the expression, amplification, purification and analysis of biological samples, said kits consisting primarily of the following: proteins, nucleic acids, cells, gels, probes, buffers, stains and associated reagents; biochemical reagents, namely cell culture media components, supplements, and additives; biochemicals for scientific and research use, namely monoclonal antibodies, polyclonal antibodies, purified recombinant proteins, purified natural proteins fetal bovine serum; cell growth supplements, namely, biochemicals for affinity purification, biochemicals for western immuno blotting, biochemicals for immunocyto chemistry; blood plasma products, namely blood-typing reagents and diagnostic test kit control materials and immune globulins; protein and protein products (raw material) used in the manufacturing process of biopharmaceuticals; cell culture media preparations, namely biological tissue cultures except for medical or veterinary use; anorganic salts, namely carbonate, acetate, hydroxide, chloride and hydroxidcarbonate; polyoles, namely sorbitol, xylitol, mannitol, and lactitol, all for use in the pharmaceutical and food industry; fats and sugars used in the manufacture of pharmaceuticals; biochemical preparations derived from blood serum used as growth promoters in tissue cultures and microbiological media; blood serum fraction used in in vitro biological research for modifying surfaces of red and white blood cells; chemicals for clinical or medical laboratory use, medical research use, and scientific research, namely, reagents for analysis, quality control, sample preparation, sample digestion and extraction; chemicals as raw materials and additives for the synthesis of organic compounds; chemical, biochemical and biological reagents; peptides and nucleic acids for use in gene expression technology, biological, genetic, chemical and scientific research and development

#### Class 03

(2) Cleaning, polishing, scouring and abrasive preparations, namely, all-purpose cleaning preparations

#### Class 05

(3) Cell culture media, serum, antigens, antiserum, chemiluminescent substances for serological diagnostics; pharmaceutical products and substances; biopharmaceuticals; proteins, protein reagents and protein based ingredients for medical, pharmaceutical and veterinary use; protein

supplements; protein for use as ingredients for nutritional purposes in the food and pharmaceutical industry; cell culture media, namely biological tissue cultures adapted for medical use; excipients for pharmaceutical purposes; preparations derived from serum used as growth promoters in tissue culture and microbiological media; diagnostic preparations for medical purposes; pharmaceutical preparations for use in industry and science, namely medical diagnostic reagents for analysis, quality control and for sample preparation, sample digestion and extraction

#### **Class 07**

(4) Mixers, namely, disposable industrial mixer for mixing liquids in the pharmaceutical and chemical industries; filling machines, namely, disposable filling assemblies and liquid filtration manifolds; power-operated hand-held crimping tool for sealing and cutting tubing

#### **Class 09**

(5) Disposable manufacturing apparatus and instruments, namely disposable industrial bioreactors for growing cells in the pharmaceutical and chemical industries; laboratory filters, namely tangential flow filter apparatus machines for preparation of biological samples; laboratory filters, namely liquid filtration, purification and concentration machines for, ultrapure solvent or water based pharmaceutical preparations; Scientific, laboratory and measuring apparatus and instruments, namely laboratory filters for liquids, housing for laboratory filters for liquids, and instruments for detection of filter condition, namely filter integrity testers; analysers and analysis apparatus, namely sensors for detection of temperature, oxygen, pH levels and other parameters in the nature of carbon dioxide; laboratory filters, namely liquid and gas purification filters; filter holders and housings for liquid and gas purification filters for laboratory purposes; ion exchange apparatus and instruments, namely liquid and gas purification filters for laboratory purposes; pressure sensors; ultrafiltration filters, namely liquid filters for laboratory purposes; kits for analysis, determination and identification of biological and chemical molecules and species comprising reaction containers in the nature of beakers, reagents, and instructions; ultrafiltration membranes, namely scientific apparatus in the nature of cellulose mixed ester membranes and thermoplastic membranes for use in the science and research industry; fluorescence, electrochemiluminescence and bioluminescence system comprising detectors for indicating the presence of one of fluorescence, electrochemiluminescence and bioluminescence signals, an image device in the nature of a camera or microscope to show the detected signal, a filter for capturing the contamination from the liquid to be detected and reagents to label the contamination for detection and imaging by the system for detecting contamination in liquids; apparatus for performing chromatographic separations and parts thereof, namely chromatography columns for laboratory use and control systems for liquid filtration machines for laboratory purposes; purification units, apparatus, instruments and cartridges for laboratory use, namely laboratory apparatus in the form of liquid and gas filters; adsorptive separation devices, namely laboratory filters having one or more chemical or charged entities for the absorption of impurities; computer software for management of biopharmaceutical purification processes; temperature sensors and other sensors for temperature, oxygen, pH and other parameters in the nature of carbon dioxide; pH electrodes for laboratory research; membrane filters for laboratory or scientific use; laboratory filters, namely membranes used in dialysis, reverse osmosis and ultrafiltration for laboratory or scientific use; laboratory filters, namely liquid filtration, purification and concentration devices for laboratory use; bioreactors for cell culturing for industrial use; parts and fittings for all the aforesaid goods, namely liquid dispense nozzles in the nature of automatic liquid dispense nozzles, liquid tubes in the nature of laboratory storage tubes, laboratory test tubes, liquid pumps in the nature of pumps for laboratory testing purposes; steel pressure rated dispensing units designed for storing and dispensing laboratory chemicals, high purity solvents, volatile liquids and volatile air-sensitive liquids; polymerase chain reaction (PCR) kits

**Class 10**

(6) Filters for medical purposes, namely, filters for bacteriological and viral purposes in the nature of syringe filters

**Class 11**

(7) Filters for water purifiers; filter cartridges for water purification devices; disposable filtration and purification apparatus and instruments, namely filters and purifiers for removing contaminants from liquid in the nature of water; Machines for purifying water; machine tools for purifying water; purifying machines for removing contaminants from water; filter cartridges for water purification; apparatus for ventilating, water supply and sanitary purposes, namely devices for removing contaminants from water and air, namely water and air filters for domestic use; purification units for industrial use, namely water and air purification units; purification units for industrial use for removing contaminants from water and air, namely water and air purification units; filters, namely water and air filters for domestic use; filter cartridges for water filters; housings and holders specially adapted for water filters; apparatus and instruments for filtration, namely water and air filters for domestic use; tangential flow fluid filtration system comprising water filters; liquid treatment equipment in the nature of liquid treatment apparatus, namely clarification machines for use in treatment of liquids in the nature of water and laboratory water; apparatus used in dialysis, reverse osmosis and ultrafiltration for industrial use, namely water treatment equipment in the nature of reverse osmosis units; water and air conditioning units; parts and fittings for all the aforesaid goods, namely water filtration equipment in the nature of cartridge filtration units; water and air filters for domestic use, water and air filter cartridges, water and air filter housings, all for the filtration of goods by capture and adsorption of contamination particles from fluids; membrane filter cartridges for the separation of biomolecules in biopharmaceutical production; filters for removing contaminants from water and air for domestic use

**Services****Class 42**

Pharmaceutical and biological research services namely, antisera services, including, immunogen preparation, immunization and production, antibody characterization, antibody purification, antibody packaging, hybridoma development and selection, custom tissue culture services, immunoassay development and testing, immunogenicity and vivarium services; custom antibody production; custom production of cell cultures and biological products; research and development and process design in the fields of human and animal pharmaceutical and biotechnology drug development and manufacture; design and implementation and validation and training services related to the establishment and operation of a pharmaceutical and biotechnology drug production process such as process development, process scale-up, process equipment and device selection, procurement, installation, validation, operator training and process operation; scientific and technological services, namely, research and design in the pharmaceutical, chemical and food industry; industrial analysis and research services for the pharmaceutical, chemical and food industry

### Trademark Type

Standard Characters

### Goods

#### Class 09

Electronic publications downloadable from the internet, namely, reports and newsletters on the subject of information technology, namely development, maintenance and use of computer systems, software, and networks for the processing and distribution of data

### Services

#### Class 35

(1) Distributorship services and computerized on-line retail store services featuring computer hardware and software, and computer components and computer accessories, namely servers, bridge/routers, hubs, workstations, laptop computers, monitors, computer cabinets and computer peripherals; domestic and international price comparison services, namely, pricing computer hardware and software, computer components and computer accessories and supplies for others; domestic and international procurement services, namely, purchasing computer hardware and software, and computer components and computer accessories, namely servers, bridge/routers, hubs, workstations, laptop computers, monitors, computer cabinets and computer peripherals for others

#### Class 36

(2) Financial services, namely, financing services in the field of computer hardware, software, server, networks, and work stations; underwriting warranty programs in the field of computer hardware, software, servers, networks, and work stations; warranty claims administration services, namely, processing warranty claims for computer hardware, software, servers, networks and work stations

#### Class 39

(3) Physical storage of electronically-stored data

#### Class 41

(4) Providing on-line non downloadable electronic publications, namely, reports and newsletters on the subject of information technology, namely development, maintenance and use of computer systems, software, and networks for the processing and distribution of data

**Class 42**

(5) Computer programming services; design, development, deployment, implementation, analysis, integration, and management of computer software for others; installation, modification, maintenance, and repair of computer software; customization of software design and computer programming services for others in the field of computer software and hardware configuration management; managed information technology services and operations for others, namely, remote and on-site management of virtual computing systems and virtual computing environments both consisting of machine monitors, hardware platforms and computer operating systems, networking resources namely combining hardware network systems and software network systems, software applications and computer network storage services of others; application service provider services, namely, hosting computer software applications of others; providing temporary use of nondownloadable computer software for managing, testing, and using multiple operating systems; providing temporary use of nondownloadable computer software for managing virtual computer machine monitors, hardware platforms and computer operating systems, hardware network systems and software network systems and general computer data storage; providing temporary use of nondownloadable computer software for creating and maintaining scalable cloud computing machine monitors, hardware platforms and computer operating systems; leasing and rental of computer software; technical support services, namely, trouble shooting of computer software and computer hardware problems; consulting services in the field of virtual infrastructure and virtual cloud computing environments both consisting of machine monitors, hardware platforms and computer operating systems; computer systems integration services; technical consulting services namely providing internet-facing and enterprise datacenter architecture creation and optimization advice, solutions and implementation strategies, public and private cloud computing solutions transformation strategies and solutions for general storage of data and moving business workloads to a cloud environment, and evaluation and implementation of Internet technology for business enterprises to access cloud computing infrastructures, as well as cloud software operation, access, and security software application services; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing environment transformation strategies and solutions for general storage of data and moving business workloads to a cloud environment, business enterprise software application systems and networking systems; computer consultation in the field of computer hardware, software, server, network and workstation analyses for performance, access, configuration, compatibility, and connectivity; leasing of computers; leasing of computer components and computer accessories, namely, computer servers, bridge/routers, hubs, workstations, laptop computers, monitors, computer cabinets and computer peripherals namely CD-ROM components, keyboards and keyboard trays, computer mice and computer mice trays, mouse pads, wired and wireless headsets, proximity contact PKI chips, computer tablets, printers, computer cables, computer routers, scanners, internal and external hard drives, internal and external floppy drives, computer memory and network storage systems, computer power supplies, modems, computer speakers, microphones, computer sound cards, computer joysticks, multimedia cards, computer video cards, computer memory expansion cards and computer card readers, headphone jacks, computer jacks and computer ports; remote computer back-up services; consolidation of computer data, namely, electronic manipulation of dispersed data to centralized servers to facilitate efficient data back-up and archiving

**Class 45**

(6) Licensing of computer software

## TRADEMARK DETAILS

### Trademark Type

Position

### Visual Representation

### Trademark Description

The trademark consists of a two dimensional image on a three dimensional wrapper encasing two balls. The wrapper and balls are shown in broken lines and do not form part of the trademark itself and are there to indicate placement of the mark. The mark consists of two panda eyes, a nose, a mouth, two panda ears, a horizontal stripe, two panda feet and two panda hands, one of which is holding a chocolate bar bearing the word "JOYCO" on it. There is also a vertical rectangular shape that contains a heart, an "&" and a "smiley faced" sun from top to bottom. The positioning of the said two dimensional image as a sign forms part of the mark, so that when superimposed upon the said balls it gives the appearance of a panda bear.

### Goods
