Trademarks Journal

2019-12-11 — Vol. 66 No. 3398

Trademarks Journal

Vol. 66 No. 3398

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Visual Representation

The logo for 'The Fab Four' features the word 'The' in a large, bold, black, sans-serif font. Below it, the words 'Fab Four' are written in a similar bold, black, sans-serif font, with 'Fab' and 'Four' connected by a small space. The 'F' in 'Four' is particularly large and stylized, overlapping the 'b' in 'Fab'.

Class 09

- (1) software, namely, software for controlling the printing of a computer
- (2) barcode readers and scanners, optical scanners, portable computer terminals, computer interface boards, personal digital assistants, hand held scanners, wireless local area network hardware, telephones and operating software, and parts and fittings for all of the aforesaid goods, power supplies for printers, power supplies for scanners, power supplies for computers, and housings for printers, housing for scanners, and housing for computers; bar code printers; printers for printing on plastic cards; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, and wristbands; computer programs for managing printer operation, maintenance and supplies replenishment; downloadable software for printers; computer software for driving printers to print labels; computer software for supply chain management; mobile and handheld printers for business forms; printers, namely, mobile printers; two-way radios; wireless Ethernet bridges; wireless local area network (WLAN) hardware equipment, namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, WLAN controllers, and WLAN antennas; blank plastic cards, namely, blank integrated circuit identification cards, excluding telephone calling cards, RFID tags; computer software and hardware used to transfer information wirelessly
- (3) radio frequency identification (RFID) smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; document printers; print engines and printer modules for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components
- (4) radio frequency identification (RFID) labels and tags
- (5) fixed and portable radio frequency identification computers and readers; computer software, namely, computer software for logistics, namely, software for tracking documents, packages and freight, and hardware for use with handheld computers, RFID readers; computer programs for operating printers

(6) computers, scanners, and optical character recognition computers for processing business forms; computer hardware and data management software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; fast communication cables for computers; fixed and portable radio frequency identification computers and readers; hand held scanners that automatically identify the presence of bar codes and radio frequency identification tags; handheld and integrated laser scanners; near field communication (NFC) technology-enabled devices, namely, printers; printers for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components; printer components, namely, printheads; radio frequency identification printing and encoding machines; computer software for assisting developers in creating program code for use in multiple application programs, namely, applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning computers for physical inventory control; software for designing identification cards; software to design labels and configure label printers; software for enabling a general-purpose computer to print and read bar codes; software to program and manage network printers; telemetry tag that transmits the location of objects such as vehicles, inventory, containers, equipment, and products and personnel; RFID cards, namely, plastic key cards and customer loyalty cards

(7) computer software and hardware for use with GPS-driven mapping and direction finding; computer software in the field of database management

(8) printer adaptors, adaptors for computers, adaptors for computer peripheral devices, chargers for printers, printer cradles and cases, printer station in the form of a mountable printer; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer cables; computer hardware and communications software for electronic file transfer, namely document data transfer and conversion from one computer format to another, allowing remote computer access, and remote network access, all in the fields of wide area and local area networks; computer hardware and handheld computers for end-to-end mobile computing systems for businesses; computer hardware and software for use in establishing, maintaining and managing wide area and local area computer networks and computer network connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects, namely, vehicles, inventory, containers, equipment or products, and personnel; computer hardware, namely, hand-held and portable computers; computer operating systems and portable radio receivers and transmitters; computers for mobile computing and mobile communication devices, namely, mobile phones and portable radios; computer operating programs and electronic program manuals all sold as a unit for use in the fields of software design and development, agriculture, sales training, environmental monitoring, order logging, computer storage, database management, spreadsheet analysis, word processing, repair and maintenance of computers, and quality control; computer software and electronic manuals sold as a unit for the management and control of manufacturing facilities, distribution centers, and warehouse inventory business operations; computer software for operating wireless local area networks; computer software to create and process business forms; computer communications protocol software for mobile computing; computer utility software and databases for use in diagnosis, repair, and configuration of computers; computer disc drives; electronic user manuals sold therewith; magnetic card and smart card reading computers; memory devices for computers, namely, memory boards and computer memory expansion modules; modems; portable and fixed radio frequency receivers and transmitters for bar code and radio frequency identification tag scanners, portable computers

for bar code and radio frequency identification tag scanners, operating software for portable and fixed radio frequency receivers and transmitters, operating software for bar code and radio frequency identification tag scanners; portable computers with auto identification functionality and operating software therefor; thermal printers; computer interface boards, computer cables, all sold as a unit; ultra wideband (UWB) radar systems comprising radar; ultra wideband communications systems comprised of hubs, sensors and readers of short range radio frequencies; ultra wideband tags for goods; wristband printers; identification labels and bands processable through printers such as laser printers and used by healthcare professionals; computer software and hardware that allow users to update, manage and configure computers, machines and equipment, namely computer hardware and software for setting up and configuring local area networks; computer software and hardware used to build logical workflow for printers, namely, computer software and hardware which allows a user to configure print processes and settings for an existing printer setup

(9) communication systems for providing wireless Internet connectivity, namely, a high speed transceiver, antenna, mounting hardware and software for monitoring and operating the systems; computer management software and hardware for operating and monitoring personal digital assistants, vehicle mounted computers, and electronic personal organizers

(10) client/server-based communications system comprised of server software and client-device software to allow users and devices to communicate with each other over wired or wireless networks by real time push to talk style voice over IP, text messaging, handwritten messaging, picture messaging with integrated editing capabilities, voice messaging, broadcast voice messaging, and e-mail; computer software and hardware for monitoring cellular phones and Voice over Internet Protocol (VoIP) communications; speech-directed computers and speech recognition software used for creating tickets on a computer, and collecting and verifying, personal identifying information; software and hardware for monitoring cellular phones and Voice over Internet Protocol (VoIP) communications for, dispatching and scheduling equipment maintenance, break-fix and repair; computer software and computer programs for enhancing and facilitating use and access to computer networks and telephone networks; computer software for assessing and protecting wireless and wired computer networks, servers, applications and desktops against attack, intrusion and misuse; computer software for assisting developers in creating program code for use in multiple application programs concerning printers, scanners, real-time location tracking systems; computer software for protecting data/information stored on and transmitted across wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer contact information, preferences and customer satisfaction information; computer software for mobile phones that allows users to browse and access commonly used applications; computer software that enables the wireless transfer of voice, images, sound recordings, printed text and data information, namely, video conferencing software; computer telephony software enabling telephone and communication through a wired and wireless computer networks; integrated voice and data enabled wide area wireless radio; 3D direct part marking imagers and digital cameras; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; pagers; pressure and temperature sensors; radar and radar detectors; radio transceivers and operating software therefor; software to design, configure, operate and trouble-shoot wireless communications systems; telecopier machines; computers for voice processing; digital dictation machines; digital answer telephone machines

Class 16

(11) label printing machines

(12) inked printing ribbons for label printing machines

(13) label stock, namely, labels, tags and tickets

(14) mobile and handheld printers for labels; printers, namely, label printers; labels made primarily of paper for printing; printable paper stock, namely, blank or partially printed labels, printing machine ribbons; printer supplies, namely, blank or partially printed labels (not of textile) and computer printer ribbons; transfer film; thermal paper; receipt paper; self-adhesive labels

(15) label printers

(16) paper laminate wristbands for use in the healthcare industry; self-adhering labels made of paper for use for patient identification and patient care in the health care industry

Class 20

(17) blank plastic cards, namely, blank non-magnetic plastic key cards

(18) self-adhering labels made of plastic film for use for patient identification and patient care in the health care industry

Services

Class 35

(1) providing business forms to dealerships, resellers and directly to customers; distributorship services in the field of business forms

(2) business consulting services in the field of computer-based printing, computer software and computer products, printers, data security, and business forms; physical inventory control services

(3) business consulting services to manufacturers and shipping terminal operators regarding productivity, efficiency, inventory control, operational procedures, and equipment purchases; computerized database management services; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies; information management services, namely, preparing invoices over computer networks, intranet, and Internet

(4) online retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software via the Internet and other computer and electronic communications networks; retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software for each of the foregoing

Class 36

(5) printer repair service plans

Class 37

(6) installation, maintenance and repair of electronic equipment, namely, WLAN access points, WLAN hubs, modems, and bar code data capture systems; label printer repair services

(7) consultation relating to computer repair; consultancy services in the nature of advising and assisting with installation, modification and maintenance of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data

Class 38

(8) technical consulting in the field of telecommunications and Radio Frequency Identification systems (RFID)

(9) providing multiple user access to computer network that allows users to receive location based coordinates; wireless telecommunications services, namely, wireless data messaging services that allow a user to send and receive instant messages, electronic mail and data; computer services, namely, providing access to an interactive website in the field of product marking, tracking, and

computer printing technology on a global computer network, accessible via computer, land-line and wireless communications devices

(10) providing access to electronic databases, allowing the user to send and receive audio, text, digital images, videos, electronic game applications, and social media; wireless telephone services and global computer network services, namely providing user access to global computer networks

Class 39

(11) information management services, namely, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranet, and Internet

Class 42

(12) consultation and design services for computers in the field of GPS-driven mapping and direction finding; design and development of digital telecommunications infrastructure for public and private wireless communication networks; consultancy services for the design, selection, implementation, modification, maintenance and use of computer software systems

(13) computer programming and database design for others; computer services, namely, designing and implementing for others wireless local area networks and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer software design for others; computer software interface design for others; consultation and design services for computers in the field of mobile ticketing, break-fix and repair; consultation and design services relating to computers used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, storage and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; installation of computer software; installation of computer software for bar code scanners, mobile computing and mobile communication devices; non-downloadable software services (SAAS), namely, providing temporary use of non-downloadable software for real-time location systems for use in determining the physical location of a variety of objects, such as vehicles, inventory, containers, equipment and products, and personnel; computer software development services and computer consulting services for businesses; technical advice related to the installation of computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer diagnostic services; consultancy services in the nature of advising and assisting with the implementation, installation, configuration, modification and maintenance of computer software that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data, as well as advising and assisting with the implementation and configuration of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data; consulting with regard to computer systems, computer network connectivity, and software applications design and deployment; computer software services, namely, development, maintenance, repair, and installation of computer software, and troubleshooting of computer software problems; technical support services in the nature of diagnosing computer software problems; upgrade and updating of

computer software; authoring, design and customization of computer software and middleware; providing information in the field of computer software and middleware development via an on-line website; computer software consultation in the field of computer software and middleware; support services with regard to computer systems, computer network connectivity hardware and computer, namely, troubleshooting and diagnosing of problems; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in tracking and operating manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals and airports; technical consultation services in the field of bar code data capture systems, mobile computer and mobile communication devices, namely mobile phones, tablet computers and handheld computers, and computer software and hardware for each of the foregoing, namely installation of computer software for bar code data capture systems, and mobile computers; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); up-dating of computer software for bar code data capture systems

(14) basic and applied research in the fields of physics, chemistry, computer engineering, and information technology, namely logistics, and radio frequency telecommunications applied to object location and inventory tracking; consultation and design services relating to computers in the field of mobile customer relationship management; research and development of new products for others in the field of WLAN telecommunications infrastructure; service rendered by professionals for product support, namely, the provision of technical information and technical consultation in the area of computers and WLAN telecommunications infrastructure; remote management and hosting of computer applications for others

Class 39

(11) information management services, namely, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranet, and Internet

Class 42

(12) consultation and design services for computers in the field of GPS-driven mapping and direction finding; design and development of digital telecommunications infrastructure for public and private wireless communication networks; consultancy services for the design, selection, implementation, modification, maintenance and use of computer software systems

(13) computer programming and database design for others; computer services, namely, designing and implementing for others wireless local area networks and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer software design for others; computer software interface design for others; consultation and design services for computers in the field of mobile ticketing, break-fix and repair; consultation and design services relating to computers used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, storage and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; installation of computer software; installation of computer software for bar code scanners, mobile computing and mobile communication devices; non-downloadable software services (SAAS), namely, providing temporary use of non-downloadable software for real-time location systems for use in determining the physical location of a variety of objects, such as vehicles, inventory, containers, equipment and

products, and personnel; computer software development services and computer consulting services for businesses; technical advice related to the installation of computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer diagnostic services; consultancy services in the nature of advising and assisting with the implementation, installation, configuration, modification and maintenance of computer software that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data, as well as advising and assisting with the implementation and configuration of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data; consulting with regard to computer systems, computer network connectivity, and software applications design and deployment; computer software services, namely, development, maintenance, repair, and installation of computer software, and troubleshooting of computer software problems; technical support services in the nature of diagnosing computer software problems; upgrade and updating of computer software; authoring, design and customization of computer software and middleware; providing information in the field of computer software and middleware development via an on-line website; computer software consultation in the field of computer software and middleware; support services with regard to computer systems, computer network connectivity hardware and computer, namely, troubleshooting and diagnosing of problems; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in tracking and operating manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals and airports; technical consultation services in the field of bar code data capture systems, mobile computer and mobile communication devices, namely mobile phones, tablet computers and handheld computers, and computer software and hardware for each of the foregoing, namely installation of computer software for bar code data capture systems, and mobile computers; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); up-dating of computer software for bar code data capture systems

(14) basic and applied research in the fields of physics, chemistry, computer engineering, and information technology, namely logistics, and radio frequency telecommunications applied to object location and inventory tracking; consultation and design services relating to computers in the field of mobile customer relationship management; research and development of new products for others in the field of WLAN telecommunications infrastructure; service rendered by professionals for product support, namely, the provision of technical information and technical consultation in the area of computers and WLAN telecommunications infrastructure; remote management and hosting of computer applications for others

Goods

Class 09

- (1) software, namely, software for controlling the printing of a computer
- (2) barcode readers and scanners, optical scanners, portable computer terminals, computer interface boards, personal digital assistants, hand held scanners, wireless local area network hardware, telephones and operating software, and parts and fittings for all of the aforesaid goods, power supplies for printers, power supplies for scanners, power supplies for computers, and housings for printers, housing for scanners, and housing for computers; bar code printers; printers for printing on plastic cards; computer programs, namely, software for designing printing and creating bar code labels, tags tickets, cards, and wristbands; computer programs for managing printer operation, maintenance and supplies replenishment; downloadable software for printers; computer software for driving printers to print labels; computer software for supply chain management; mobile and handheld printers for business forms; printers, namely, mobile printers; two-way radios; wireless Ethernet bridges; wireless local area network (WLAN) hardware equipment, namely, computer parallel and serial ports, access points for connecting network computer users and computer network switches, WLAN controllers, and WLAN antennas; blank plastic cards, namely, blank integrated circuit identification cards, excluding telephone calling cards, RFID tags; computer software and hardware used to transfer information wirelessly
- (3) radio frequency identification (RFID) smart tags and labels featuring embedded microchips, integrated circuits, antennas and transponders for recording, receiving, storing, encoding, updating and transmitting data; document printers; print engines and printer modules for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components
- (4) radio frequency identification (RFID) labels and tags

(5) fixed and portable radio frequency identification computers and readers; computer software, namely, computer software for logistics, namely, software for tracking documents, packages and freight, and hardware for use with handheld computers, RFID readers; computer programs for operating printers

(6) computers, scanners, and optical character recognition computers for processing business forms; computer hardware and data management software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; fast communication cables for computers; fixed and portable radio frequency identification computers and readers; hand held scanners that automatically identify the presence of bar codes and radio frequency identification tags; handheld and integrated laser scanners; near field communication (NFC) technology-enabled devices, namely, printers; printers for testing RFID transponders, reading and writing RFID data, and creating encoded smart tags and labels by applying RFID components; printer components, namely, printheads; radio frequency identification printing and encoding machines; computer software for assisting developers in creating program code for use in multiple application programs, namely, applications for printing labels, receipts, cards, tags and business forms; software for reading bar codes, bar code readers, bar code scanning computers for physical inventory control; software for designing identification cards; software to design labels and configure label printers; software for enabling a general-purpose computer to print and read bar codes; software to program and manage network printers; telemetry tag that transmits the location of objects such as vehicles, inventory, containers, equipment, and products and personnel; RFID cards, namely, plastic key cards and customer loyalty cards

(7) computer software and hardware for use with GPS-driven mapping and direction finding; computer software in the field of database management

(8) printer adaptors, adaptors for computers, adaptors for computer peripheral devices, chargers for printers, printer cradles and cases, printer station in the form of a mountable printer; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer cables; computer hardware and communications software for electronic file transfer, namely document data transfer and conversion from one computer format to another, allowing remote computer access, and remote network access, all in the fields of wide area and local area networks; computer hardware and handheld computers for end-to-end mobile computing systems for businesses; computer hardware and software for use in establishing, maintaining and managing wide area and local area computer networks and computer network connections, namely, global computer network connections; computer hardware and computer software real-time location system for use in the field of determining the physical location of a variety of objects, namely, vehicles, inventory, containers, equipment or products, and personnel; computer hardware, namely, hand-held and portable computers; computer operating systems and portable radio receivers and transmitters; computers for mobile computing and mobile communication devices, namely, mobile phones and portable radios; computer operating programs and electronic program manuals all sold as a unit for use in the fields of software design and development, agriculture, sales training, environmental monitoring, order logging, computer storage, database management, spreadsheet analysis, word processing, repair and maintenance of computers, and quality control; computer software and electronic manuals sold as a unit for the management and control of manufacturing facilities, distribution centers, and warehouse inventory business operations; computer software for operating wireless local area networks; computer software to create and process business forms; computer communications protocol software for mobile computing; computer utility software and databases for use in diagnosis, repair, and

configuration of computers; computer disc drives; electronic user manuals sold therewith; magnetic card and smart card reading computers; memory devices for computers, namely, memory boards and computer memory expansion modules; modems; portable and fixed radio frequency receivers and transmitters for bar code and radio frequency identification tag scanners, portable computers for bar code and radio frequency identification tag scanners, operating software for portable and fixed radio frequency receivers and transmitters, operating software for bar code and radio frequency identification tag scanners; portable computers with auto identification functionality and operating software therefor; thermal printers; computer interface boards, computer cables, all sold as a unit; ultra wideband (UWB) radar systems comprising radar; ultra wideband communications systems comprised of hubs, sensors and readers of short range radio frequencies; ultra wideband tags for goods; wristband printers; identification labels and bands processable through printers such as laser printers and used by healthcare professionals; computer software and hardware that allow users to update, manage and configure computers, machines and equipment, namely computer hardware and software for setting up and configuring local area networks; computer software and hardware used to build logical workflow for printers, namely, computer software and hardware which allows a user to configure print processes and settings for an existing printer setup

(9) communication systems for providing wireless Internet connectivity, namely, a high speed transceiver, antenna, mounting hardware and software for monitoring and operating the systems; computer management software and hardware for operating and monitoring personal digital assistants, vehicle mounted computers, and electronic personal organizers

(10) client/server-based communications system comprised of server software and client-device software to allow users and devices to communicate with each other over wired or wireless networks by real time push to talk style voice over IP, text messaging, handwritten messaging, picture messaging with integrated editing capabilities, voice messaging, broadcast voice messaging, and e-mail; computer software and hardware for monitoring cellular phones and Voice over Internet Protocol (VoIP) communications; speech-directed computers and speech recognition software used for creating tickets on a computer, and collecting and verifying, personal identifying information; software and hardware for monitoring cellular phones and Voice over Internet Protocol (VoIP) communications for, dispatching and scheduling equipment maintenance, break-fix and repair; computer software and computer programs for enhancing and facilitating use and access to computer networks and telephone networks; computer software for assessing and protecting wireless and wired computer networks, servers, applications and desktops against attack, intrusion and misuse; computer software for assisting developers in creating program code for use in multiple application programs concerning printers, scanners, real-time location tracking systems; computer software for protecting data/information stored on and transmitted across wireless and wired networks, servers, applications and desktops against attack, intrusion and misuse; computer software for recording, managing, retrieving and storing customer contact information, preferences and customer satisfaction information; computer software for mobile phones that allows users to browse and access commonly used applications; computer software that enables the wireless transfer of voice, images, sound recordings, printed text and data information, namely, video conferencing software; computer telephony software enabling telephone and communication through a wired and wireless computer networks; integrated voice and data enabled wide area wireless radio; 3D direct part marking imagers and digital cameras; mobile and fixed computers and monitors for end-to-end mobile computing systems for businesses; pagers; pressure and temperature sensors; radar and radar detectors; radio transceivers and operating software therefor; software to design, configure, operate and trouble-shoot wireless communications systems; telecopier machines; computers for voice processing; digital dictation machines; digital answer telephone machines

Class 16

(11) label printing machines

(12) inked printing ribbons for label printing machines

(13) label stock, namely, labels, tags and tickets

(14) mobile and handheld printers for labels; printers, namely, label printers; labels made primarily of paper for printing; printable paper stock, namely, blank or partially printed labels, printing machine ribbons; printer supplies, namely, blank or partially printed labels (not of textile) and computer printer ribbons; transfer film; thermal paper; receipt paper; self-adhesive labels

(15) paper laminate wristbands for use in the healthcare industry; self-adhering labels made of paper for use for patient identification and patient care in the health care industry

Class 20

(16) blank plastic cards, namely, blank non-magnetic plastic key cards

(17) self-adhering labels made of plastic film for use for patient identification and patient care in the health care industry

Services**Class 35**

(1) providing business forms to dealerships, resellers and directly to customers; distributorship services in the field of business forms

(2) business consulting services in the field of computer-based printing, computer software and computer products, printers, data security, and business forms; physical inventory control services

(3) business consulting services to manufacturers and shipping terminal operators regarding productivity, efficiency, inventory control, operational procedures, and equipment purchases; computerized database management services; conducting dealer incentive award programs to promote the sale of printers, printer labels, and supplies; information management services, namely, preparing invoices over computer networks, intranet, and Internet

(4) online retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software via the Internet and other computer and electronic communications networks; retail store services featuring mobile phones, bar code data capture systems, mobile computing and computer hardware and software for each of the foregoing

Class 36

(5) printer repair service plans

Class 37

(6) installation, maintenance and repair of electronic equipment, namely, WLAN access points, WLAN hubs, modems, and bar code data capture systems; label printer repair services

(7) consultation relating to computer repair; consultancy services in the nature of advising and assisting with installation, modification and maintenance of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data

Class 38

(8) technical consulting in the field of telecommunications and Radio Frequency Identification systems (RFID)

(9) providing multiple user access to computer network that allows users to receive location based coordinates; wireless telecommunications services, namely, wireless data messaging services that

allow a user to send and receive instant messages, electronic mail and data; computer services, namely, providing access to an interactive website in the field of product marking, tracking, and computer printing technology on a global computer network, accessible via computer, land-line and wireless communications devices

(10) providing access to electronic databases, allowing the user to send and receive audio, text, digital images, videos, electronic game applications, and social media; wireless telephone services and global computer network services, namely providing user access to global computer networks

Class 39

(11) information management services, namely, preparing shipping documents and invoices, tracking documents, packages and freight over computer networks, intranet, and Internet

Class 42

(12) consultation and design services for computers in the field of GPS-driven mapping and direction finding; design and development of digital telecommunications infrastructure for public and private wireless communication networks; consultancy services for the design, selection, implementation, modification, maintenance and use of computer software systems

(13) computer programming and database design for others; computer services, namely, designing and implementing for others wireless local area networks and computer hardware and software systems for capturing, moving, and managing images, voice, sound recordings, printed text and data all captured from bar codes, radio frequency identification tags, and mobile computing and communication devices; computer software design for others; computer software interface design for others; consultation and design services for computers in the field of mobile ticketing, break-fix and repair; consultation and design services relating to computers used for transmitting, receiving, viewing, updating and managing data, inventory and material handling, storage and retrieval, shipping and receiving, ordering, picking and cycle counting of merchandise, asset management and tracking, personal identification collection and verification, speech recognition, dispatching and scheduling, general data collection and equipment maintenance; consulting services in the field of design, selection, implementation and use of computer hardware and software systems concerning bar code data capture systems, mobile computing and mobile communication devices for others; consulting services in the field of design, selection, implementation, and use of computer hardware and software systems for others; custom design and development of computer hardware, computer software; installation of computer software; installation of computer software for bar code scanners, mobile computing and mobile communication devices; non-downloadable software services (SAAS), namely, providing temporary use of non-downloadable software for real-time location systems for use in determining the physical location of a variety of objects, such as vehicles, inventory, containers, equipment and products, and personnel; computer software development services and computer consulting services for businesses; technical advice related to the installation of computer software; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; computer diagnostic services; consultancy services in the nature of advising and assisting with the implementation, installation, configuration, modification and maintenance of computer software that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data, as well as advising and assisting with the implementation and configuration of computer hardware that allows real-time exchange of information with and access to information from people, devices, machines and equipment and applications that interact with that data; consulting with regard to computer systems, computer network connectivity, and software applications design and deployment; computer software services, namely, development, maintenance, repair, and

installation of computer software, and troubleshooting of computer software problems; technical support services in the nature of diagnosing computer software problems; upgrade and updating of computer software; authoring, design and customization of computer software and middleware; providing information in the field of computer software and middleware development via an on-line website; computer software consultation in the field of computer software and middleware; support services with regard to computer systems, computer network connectivity hardware and computer, namely, troubleshooting and diagnosing of problems; providing technical information concerning the features and interoperability of the software of third party software providers concerning bar code data capture systems, mobile computing and mobile communication devices; providing temporary use of non-downloadable software for use in tracking and operating manufacturing and shipping container depots, logistics centers, rail terminals, intermodal terminals and airports; technical consultation services in the field of bar code data capture systems, mobile computer and mobile communication devices, namely mobile phones, tablet computers and handheld computers, and computer software and hardware for each of the foregoing, namely installation of computer software for bar code data capture systems, and mobile computers; technical consulting, design and integration services for Radio Frequency Identification systems (RFID); up-dating of computer software for bar code data capture systems

(14) basic and applied research in the fields of physics, chemistry, computer engineering, and information technology, namely logistics, and radio frequency telecommunications applied to object location and inventory tracking; consultation and design services relating to computers in the field of mobile customer relationship management; research and development of new products for others in the field of WLAN telecommunications infrastructure; service rendered by professionals for product support, namely, the provision of technical information and technical consultation in the area of computers and WLAN telecommunications infrastructure; remote management and hosting of computer applications for others

Goods

Class 07

(1) Electric generators; diesel generators; current generators; mobile electric power generators; starters for motors, including induction motors in single or parallel operation on pumps, fans, conveyor belts, centrifuges, and other high-inertia loads.

Class 09

(2) Fuses; electrical fuses; fuses for automobiles; fuse clips; mounting devices for fuses; circuit breakers; circuit breaker panel boards; electric circuit openers; electric circuit closers; electrical relays; electrical transformers; transistors; capacitors; electrical connectors; electrical components in the nature of filters; oscillators; electrical switches; semiconductors; rectifiers; integrated circuits; electronic circuits; circuit overload protector devices; circuit testers; circuits for heavy current; continuity test apparatus for electrical circuits; faulty circuit indicators; integrated circuit cards and components; integrated circuit modules; printed circuits; printed circuit boards; thermal relays; pilot light units adapted for panel mounting; electric automotive buzzers; automotive flashers; automotive fuses; panel-mounted fuse holders for use with electrical fuses; fuse blocks; fuse holders; fuse modules; fuse cap covers; fuse terminals; fuse reducers; fuse adapters; fuse junction blocks; fuse pullers; fuse storage containers; fuse power distribution modules; solar fuses; fuse distribution blocks; ground-fault and phase-voltage indicators; ground-fault relays; arc-flash relays; residual current relays; surge protectors; diodes; ground-fault circuit interrupters; diode arrays; LED circuit protection devices; motor protection relays; electric resistors; electrical controllers; control and protection units for electric generators; control and monitoring units for diesel and gas engines; electronic indicator panels; indicator lights embedded in equipment control panels; touch panels; user interfaces, namely, electric control panels and touchscreens for electrotechnical and electronic devices; electric annunciator panels; engine cylinder pressure analyzer; trailing-cable protection device, namely, combination ground-wire monitor and ground-fault relay; trailing-cable protection device, namely, parallel path isolator; computer operating software and firmware for electrical relays; varistors; relay current transformers; covers and mounting adapters for electrical relays; accessories for electrical relays and controls, namely, communication adapters, ground reference modules, high-tension couplers, relay test equipment, remote indication and reset assemblies, sensing resistors, termination assemblies, input modules, and diagnostic assemblies;

direct current solenoids; power supplies; switchgears; switch houses; electrical arc detection and suppressing device used in low-voltage switchgear; electrical switchgear, namely, voltage-boosting devices for electric power lines; electronic controls for motors; programmable logic controllers for motors; electricity distribution consoles; e-houses, namely, apparatus and instruments for conveying, distributing, transforming, storing, regulating, or controlling electricity, all contained within prefabricated modular buildings and sold as a unit; portable electric power centers for power distribution, monitoring, and controlling; aboveground and underground electrical substations; feeder protection relays; keypads for use with devices that control electricity; variable frequency drives for large power applications in the oil and gas, marine, metal, and other industries; portable power cable couplers; electric generator controls; neutral grounding resistors; electric monitoring relays; pump protection relays; timers; electric flashers; power and voltage monitors; liquid level and load sensors; power-monitoring control consoles; programmable logic panels for monitoring and controlling electrical power; electrical panels, namely, power-take-off panels, pump-control panels, and starter panels; electrical equipment, namely, portable dewatering substations for use in the mining industry, oil and gas industry, and other industrial applications; electronic control systems for machines; control unit for power distribution in transportation vehicles; power distribution boxes used in transportation vehicles; programmable module for configuration of vehicle power distribution systems; radio control module; electric fuse boxes; power controllers; electrical disconnect switches; semiconductor fuses; generator and engine diagnostic apparatus and equipment; optical sensors; position sensors; speed sensors; rotary sensors; fluid sensors; shock sensors; steering wheel switches; polymer resettable fuses; polymer positive temperature coefficient devices; gas discharge tubes; metal oxide varistors; multi-layer varistors; polymeric ESD suppressors; surge protection modules; proximity sensors; level sensors; flow sensors; low-voltage disconnect switches; battery separators; battery isolators; lift gate battery chargers; bi-stable relays; bistable solenoids; power distribution modules; low-current switches; ignition switches; high-current disconnect switches; battery disconnect switches; CAN modules; smart power modules.

Services

Class 37

(1) Reconditioning and repair of electrical apparatus and equipment; upgrade services, namely, upgrading electrical apparatus and equipment to current standards and requirements.

Class 40

(2) Custom manufacture of portable power distribution centers, electrical substations, and electrical apparatus and equipment; custom manufacture of e-houses, namely, apparatus and instruments for conveying, distributing, transforming, storing, regulating, or controlling electricity, all contained within prefabricated modular buildings and sold as a unit.

Class 42

(3) Custom design and engineering of portable power distribution centers, electrical substations, and electrical apparatus and equipment; custom design and engineering of e-houses, namely, apparatus and instruments for conveying, distributing, transforming, storing, regulating, or controlling electricity, all contained within prefabricated modular buildings and sold as a unit; product development services; providing a website featuring on-line, non-downloadable software tools to assist with the selection of parts, board layout design, and simulation analysis in connection with electronic devices; providing temporary use of online, non-downloadable software tools to assist with the selection of parts, board layout design, and simulation analysis in connection with electronic devices; consultation in the field of custom design of electrical apparatus and equipment; safety auditing and analysis of electrical systems; consultation in the

field of electrical safety; product testing; product safety testing; product testing for regulatory compliance; product failure analysis services; materials testing and analyzing; electrical product evaluation.

Class 45

(4) Providing information in the field of electrical safety.

Colour Claim

Colour is claimed as a feature of the trademark. BURGUNDY for the word "kastamonu"; A COLOUR GRADATION FROM PINK TO BURGUNDY from the upper left portion to the lower right portion of the design element.

Goods

Class 19

Materials for construction, road construction, repairing, coating purposes, such as sand, gravel, crushed stone, asphalt, bitumen, cement, plaster; Building materials (as finished products) made of concrete, gypsum, clay, potters' clay, stone, marble, wood, plastics and synthetic materials for building, construction, road construction purposes, namely polyethylene board used as a wood substitute, laminate flooring, gluelaminated wood, building boards of melamine, doorskins, poles not of metal for power lines, natural and synthetic coatings in the form of panels and sheets, being building materials, namely concrete panels, nonmetal ceiling panels, wood panels, plastics floor panels, composite panels consisting of a rigid expanded polystyrene core bonded to an outer skin of MDF (medium-density fiberboard) wood sheet, printed wood panels, printed composite panels consisting of a rigid expanded polystyrene core bonded to an outer skin MDF (medium-density fiberboard) wood sheet, high gloss wood panels, high gloss plastic floor panels, high gloss non-metal ceiling panels, plastic laminate sheets and panels for the manufacture of countertops and tabletops, melamine-faced particleboard, melamine wood panels; bitumen cardboard coatings for roofing; bitumen coating for roofing; doors and windows of wood and synthetic materials; Traffic signs not of metal, non-luminous and non-mechanical, for roads; Monuments and statuettes of stone, concrete and marble; Building glass; Prefabricated swimming pools not of metal (structures).

Services**Class 35**

Online advertising for others via a computer communication network, marketing analysis services and public relations; arranging and conducting furniture trade show exhibitions; secretarial services; arranging newspaper subscriptions for others; compilation of statistics; rental of office machines; systemization of information into computer databases, namely computerized database management, management and compilation of computerized databases; telephone answering for unavailable subscribers; Business management, business administration and business management consultancy and advisory services; accounting; advice and information concerning commercial business management; personnel recruitment, personnel placement, employment agencies, import-export agencies; temporary personnel placement services; Auctioneering; Online sale, retail sale, mail order services and wholesale of materials for construction, road construction, repairing, coating purposes, such as sand, gravel, crushed stone, asphalt, bitumen, cement, plaster, building materials made of concrete, gypsum, clay, potters' clay, stone, marble, wood, plastics and synthetic materials for building, construction, road construction purposes, non-metallic buildings, non-metallic building materials, poles not of metal for power lines, barriers not of metal, natural and synthetic coatings in the form of panels and sheets, being building materials, bitumen cardboard coatings for roofing, bitumen coating for roofing, doors and windows of wood and synthetic materials, traffic signs not of metal, non-luminous and non-mechanical, for roads, monuments and statuettes of stone, concrete and marble, building glass, prefabricated swimming pools not of metal, furniture, made of any kind of material, mattresses, pillows, air mattresses and cushions, not for medical purposes, sleeping bags for camping, water beds, not for medical purposes, mirrors, beehives, artificial honeycombs and sections of wood for honeycombs, bouncing chairs for babies, playpens for babies, cradles, infant walkers, display boards, frames for pictures and paintings, identification plates, identification tags, nameplates, identification labels made of wood or synthetic materials, packaging containers of wood or plastics, casks for use in transportation or storage, barrels, storage drums, tanks, boxes, storage containers, transportation containers, chests, loading pallets and closures for the aforementioned goods, of wood or plastics, small hardware goods of wood or synthetic materials, furniture fittings, of wood or synthetic materials, opening and closing mechanisms of wood or synthetic materials for furniture, ornaments and decorative goods of wood, namely wood ornaments in the nature of figurines, candle, beeswax, plastic or plaster, baskets, fishing baskets, kennels, nesting boxes and beds for household pets, portable ladders and mobile boarding stairs of wood or synthetic materials, bamboo curtains, roller indoor blinds for interiors, slatted indoor blinds, trip curtains, bead curtains for decoration, curtain hooks, curtain rings, curtain tiebacks, curtain rods; sale of wood based panels (MDF, Particle Board, Laminate Flooring, Doorskin, High Gloss panels, worktops).

Colour Claim

Colour is claimed as a feature of the trademark. The square box is in Pantone* Reflex Blue. The three diamonds and the two triangles are in Pantone* yellow 108 C. The term PITCH is in Pantone* red 485 C, and it is outlined as follows: a first outline in Pantone* yellow 108 C delineates the elements in Pantone* red 485 C, and a second outline in Pantone* Reflex blue delineates the first outline. Each letter contains white lines. The term PITCH is set against a seven-point white shape with an outer outline in Pantone* Reflex Blue (navy blue) and featuring an inner outline in Pantone* golden brown 131 C for the arches located under the letter P and on the left of said letter. Starting clockwise, from top to bottom, the white shading around the shape is placed as follows: the first is above the letter "i", the second is near the second half of the letter "H", the third is at the bottom left side, under the letters "P" and "i", and the fourth (which is only partially visible), is on the left side, above the letter "P". * Pantone is a registered trademark.

Goods

Colour Claim

Colour is claimed as a feature of the trademark. The colour(s) purple, blue, white, black, grey, and yellow is/are claimed as a feature of the trademark. The trademark consists of a stylized depiction of a healthcare professional standing behind a car with the words NP ON WHEELS, with a rectangle with rounded corners depicted in the background. The car is depicted in shades of blue with the wording "NP ON WHEELS" on the side of the car in white colour. The tires of the car are depicted in black with grey rims, the headlights are contained in yellow, and the hood of the car a white circle with a purple cross is depicted. A female healthcare provider is standing behind the car, dressed in a purple blouse and a white lab coat, and wearing a black and grey stethoscope. The female healthcare provider has Caucasian skin tone with blond hair and blue eyes. The rectangular figure in the background is contained entirely in purple.

Services

Class 35

(1) Retail sale of medical supplies, wound care products, medical bandages, dressings, and wraps, vitamins, vitamin and mineral dietary supplements, dietary and herbal supplements for general health and well-being, meal replacement drinks, bars and powders, and shakes; Provision of temporary and contract staff for the purposes of providing nursing practitioner services.

Class 44

(2) Nurse practitioner services; Medical house call services; home and workplace-visit nursing practitioner services; Providing emergency health information by telephone; Addiction treatment services; Travel medicine consultation service, namely, providing advice and information regarding health risk assessments, nonprescription medication for travel, and health certificate entry requirements, provision of travel medicine services, namely provision of medical assessments, vaccinations and prescriptions prior to travel; Vaccination services for humans; Medical examination services; Nurse practitioner services, namely, writing prescriptions and providing information to patients regarding administering of medications; Mobile nursing practitioner services, namely provision of medical care to patients at their locations of business and personal residence; Medical care and analysis services relating to patient treatment, namely, providing healthcare diagnoses, diagnostic testing, diagnostic advice, healthcare recommendations and prescriptions, referral and vital health status monitoring, the foregoing provided in person on a one-on-one or small group basis between an individual member of the public and a nurse practitioner; Medical care and analysis services relating to patient treatment, namely, providing healthcare diagnoses, diagnostic testing, diagnostic advice, healthcare recommendations and prescriptions, referrals and health status monitoring, the foregoing provided by telephone and secure video by a nurse practitioner; Medical evaluation services for patients receiving rehabilitation for purposes of guiding treatment and assessing effectiveness.

Visual Representation

The image shows the word "Delixia" written in a highly decorative, cursive script. The letters are fluid and interconnected, with a classic, elegant feel. The 'D' is particularly large and ornate, and the 'i' and 'x' are also stylized. The overall appearance is that of a handwritten signature or a calligraphic brand mark.
