Trademarks Journal

2019-09-11 — Vol. 66 No. 3385

Trademarks Journal

Vol. 66 No. 3385

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

TRADEMARK DETAILS

NINETEEN SIXTY FOUR SUPPLY CO.

Trademark Type

Word

Goods

Class 01

(1) Botanical and botanically derived extracts for use in the manufacture of cosmetics, and in the manufacture of body care and toiletry products, namely, body, hand and facial creams, bath and skin lotions, skin moisturizers and moisturizing lotions, shampoo, hair conditioners and body wash

Class 03

(2) Cosmetics, body care and toiletry products, namely, body, hand and facial creams, bath and skin lotions, skin moisturizers and moisturizing lotions, shampoo, hair conditioners and body wash

Class 05

(3) Topical creams, gels, salves, sprays, balms and ointments for analgesic purposes

Services

Class 35

(1) Retail sale and sale of cosmetics, body care and toiletry products accessible on-line and by telephone, facsimile and mail order; wholesale sale and online sale services in the field of cosmetics, body care and toiletry products; distributorships in the field of cosmetics, body care and toiletry products

Class 42

(2) Design, research and development of advanced plant-cultivation methods and technologies for use in the cosmetic industries

Application Number 1,767,709
Language of Application English

Blank magnetic discs, blank laser discs, blank optical discs data, processing equipment, namely computers; computers; computer hardware; computer servers; network servers; Internet servers; computer networking and communications hardware, namely, servers, gateways, routers, network bridges, modems, wireless access point routers, networking cables, line drivers, switches, hubs, controllers, adapters; computer network hubs, routers, network interface controllers, computer network switches and wireless access point routers; computer storage hardware, namely, RAM (random access memory) cards, hard disk drives, USB flash drives, flash memory expansion modules, computer memory expansion modules, blank smart cards, magnetic tape units for computers, digital disc drives, optical disc drives and redundant array of independent disks (RAID) controllers; computer storage servers, namely, direct-attached storage (DAS), computer network attached storage (NAS) and computer servers used in computer storage area networks (SAN) computer hardware for storage area networks, namely, magnetic tape units for computers, computer servers, optical disk drives, hard disk drives, and external disk arrays; disk backup hardware, namely, network attached storage, external disk arrays, and computer disk drives; disk

drives, namely, hard disk drives, optical disk drives, and computer disk drives; disk drive arrays and enclosures, namely, redundant array of independent disks (RAIDS); redundant array of independent disks (RAID) controllers; host bus adapters; electronic data storage systems comprising computer hardware, computer servers, computer peripherals, namely, computer network hubs, network routers, network interface controllers, computer network switches, wireless access points routers, computer disk drives, external disk arrays, computer network adapters, magnetic tape units for computers, computer chips, semiconductor chips, printed circuit boards, integrated circuits and computer operating system software; integrated IT systems comprising computer, computer storage and networking computer hardware and software for operation and administration of converged computer network infrastructure; modular IT systems comprising computers, data storage servers, computer networking hardware, power modules for computers and computer networks and internal cooling modules for computers and computer networks; computer peripherals, namely, computer network hubs, routers, controllers, switches and wireless access point routers, disk drives, disk drive arrays and enclosures, redundant array of independent disks (RAID) controllers, host bus adapters, magnetic tape units for computers, blank tapes for storage of computer data, memory chips, namely, computer memories and computer memory hardware, semiconductors, printed circuit boards, integrated circuits; memory chips; semiconductors, printed circuit boards, integrated circuits and electronic components for computers, namely, semiconductor diodes, light emitting diodes, laser diodes, transistors, capacitors, and electric resistors; downloadable cloud computer software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of data; computer software for creating searchable databases of information and data; computer software for electronic storage of data; computer operating systems; network access server operating software; computer software for the administration of computer networks; computer software for data storage automation; computer software for data storage virtualization and optimization; computer software namely application software and operating system software used for computer server virtualization and data storage virtualization; computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices, namely, high-speed hard drives, optical drives, tape drives, and domain controllers for storage and backup of the users' electronic data through local area networks and via the cloud; software for computer network operation, management, automation and virtualization; computer software for softwaredefined networking, software for network management and software for deployment of enterprise applications; local area network (LAN) operating software; wide area network (WAN) operating software; computer software for connecting disparate computer systems, servers and data storage devices, namely, high-speed hard drives, optical drives, tape drives, and domain controllers for storage and backup of the users' electronic data through local area networks and via the cloud; software for cloud infrastructure management and automation; computer software used for running cloud computing based applications; downloadable cloud computer software for use in database management and electronic storage of data in the field of enterprise data storage applications; computer software for monitoring cloud and web application performance; Computer software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; computer software for creating and executing runbooks; computer software for forecasting and reporting resource utilization for improving server capacity planning; computer software for monitoring performance of computer networks; computer software for detecting and resolving malfunctions in computer networks; security software; computer software for troubleshooting of computer hardware and software problems; computer software for data protection, namely, anti-virus software, anti-malware software, anti-spyware software, anti-adware software; computer software for providing security for computers, networks and electronic

communications; computer network security software; computer software for monitoring computer network access and activity; computer software for identifying application security vulnerabilities; data and document encryption and decryption software; cryptography software; computer software for user authentication of users of computer systems, computer networks, mobile computers, websites, and computer programs computer software for monitoring, analysis and reporting of real-time security indicators for use in risk assessment and information security; IT security risk management software; data protection software for computer system backup and disaster recovery; software for data archiving; computer software for data deduplication; database management software; computer software for analyzing network activity; computer software for application and database integration; computer search engine software; software for searching databases; computer software for creating searchable databases of information and data; computer data warehouse operation and automation software; computer data center operation and automation software; computer software for the transmission of big data over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; computer software for data storage, processing and reproduction; computer software for accessing, querying and analyzing information stored in databases and data warehouses; computer software for information and knowledge management in the field of enterprise data storage applications; business intelligence software, namely, business software applications designed to retrieve, analyze, and generate reports to provide historical, current and predictive views of the users' business operations; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software for use in big data analysis; computer software that automates the processing of un-structured, semi-structured and structured information and data, namely computer software used for management of information stored on computer networks and Internet sites; software for business organization and business process virtualization and management; computer software for use in customer relationship management (CRM); computer software for enterprise resource planning (ERP); computer software for business risk management; computer software in the field of business project management in the field of computer hardware and software design and for the development of processes, analysis and implementation of strategic business plans and resource allocation to control business operational costs, manage business operational budgets, ensure quality management of business products and services, and provide reports for the user; computer software for corporate records management in the field of business operations and business management; computer software for running development programs and application programs in a common development environment for the creation of mobile Internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs, namely mobile Internet applications and client interfaces; computer software for cloud, mobile, and web application development, deployment and management; product lifecycle management software; computer software that provides web-based access to enterprise data storage applications and technical support services in the form of troubleshooting of computer hardware and software problems through a web operating system and portal interface; computer software for managing business operations and billing services in the utilities industry

Services

Class 35

(1) Business consulting services in the fields of computers and the use of computers and telecommunications systems for storing, retrieving and sending information; business consultation services in the field of business process improvement and outsourcing; business consultation services in the field of enterprise architecture; strategic planning services in the field of computer hardware, computer software, computer servers and computer networks; asset management

services in the field of computer hardware, computer software, computer servers and computer networks; compilation and systemization of information into computer databases; database management services; business knowledge management services, namely, the collection, integration, analysis and reporting of business information; business data analysis, namely, computer hardware, computer software and computer network utilization and performance analysis

Class 41

(2) Educational and training services, namely, conducting classes, workshops, seminars and conferences in the field of computers, software, electronic commerce and computer networks; online journals, namely, operation of a blog in the field of computer hardware, computer software, electronic commerce and computer networks

Class 42

(3) Research and development new products for others; research and development of computer software; research and development in the field of computer hardware, computer software and computer networks; design and development of computer hardware and software; computer systems analysis, planning, integration and design; integration of computer systems and software; integration of computer systems and networks; computer consulting services; advice on designing, selecting, and using computer hardware and systems; computer software consultancy; consulting services for others in the selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services, namely, providing assistance to others in developing internet portals; consulting services in the field of management of computer hardware, computer software and computer networks; consulting in the field of computer hardware and computer software applications transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and management; consulting services in the field of cloud computing; consulting services in the field of big data processing and analytics; consulting in the field of cloud infrastructure; consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of computer network design and internet security; consulting in the field of information security, governance and compliance; consulting in the field of computer and information security; consulting in the field of computer risk management; consulting in the field of IT mobility and workplace services, namely, business efficiency services and risk management services; technological consultation in the field of unified communications hardware and software; consulting in the fields of IT solutions for customer relationship management, financial management, and administration, human resources, and payroll; consulting services in the field of computer software for document processing; consulting services for managing application deployment, namely, deployment of cloud applications and computer software applications; consulting in the field of marketing optimization; consulting in fields of converged infrastructure and hyper-converged infrastructure; consulting services in the field of business management, business operations and billing services in utilities industry; consulting in the field of environmental and energy efficiency; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of online non-downloadable middleware for providing an interface between software applications and operating systems; providing temporary use of on-line non-downloadable cloud computing software for use in database management and electronic storage of data; computer programming services; developing driver and operating system software; software application development, modernization and cloud integration; business technology software development and consultation services; computer programming services for others in the field of software configuration management; computer software development in the field of mobile applications; updating and

maintaining cloud-based computer software through on-line updates, enhancements and patches; consulting services in the field of cloud computing; rental of web servers of variable capacity to third parties; rental of computing and cloud data storage networks of variable capacity to third parties; computer infrastructure hosting services, namely, providing computer hardware, computer software, computer peripherals and related operational and support services to others on a subscription or pay-per-use basis; virtualization services, namely, hosting and providing remote access to virtualized client computers; virtualization services, namely, providing temporary use on non-downloadable software for hosting and providing remote access to virtualized client computers; integration of private and public cloud computing environments; remote and on-site management of computer systems and software applications for others; cloud computing featuring software for use in database management; computer services, namely, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; management of data centers, computer and computer network security, cloud computing, workplace technology, namely, computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network, computer networks, unified communications and computer hardware, computer software and computer networking for enterprises and businesses for others; rental of space in a computer co-location facility for containerized data centers of others; database development services; data mining services; data encryption and decryption services; cloud computing featuring software for use in database management and data warehousing; software as a service (SAAS) services featuring software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; Software-as-a-service (SaaS) services featuring software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of big data; Software-as-a-service (SaaS) services featuring software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; Software-as-a-service (SaaS) services featuring software for creating and executing runbooks; Software-as-a-service (SaaS) services featuring software for forecasting and reporting resource utilization for improving server capacity planning; Software-as-a-service (SaaS) services featuring software for monitoring performance of computer networks; Software-as-a-service (SaaS) services featuring software for detecting and resolving malfunctions in computer networks; software as a service for managing service desks and help desks for computer hardware, computer software and computer networks; software as a service for use in enterprise applications, database management, and electronic storage of big data; software as a service for monitoring cloud, web and application performance; software as a service for cloud infrastructure management and automation; software as a service for data protection and data security; software as a service for information security compliance monitoring, reporting and analytics; software as a service (SAAS) services featuring security software; Software as a service for identifying and correcting application security vulnerabilities; software as a service for risk management; software as a service for data backup, recovery and archiving; software as a service for data searching, namely, for creating searchable databases of information and data; software as a service for the transmission of big data over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; software as a service for big data storage, processing and reproduction; software as a service for real-time, integrated business management intelligence by combining information from various databases; software as a service for business analytics, namely collecting and analyzing data to facilitate business decision making; software as a service for use in big data analysis; software as a service for automating the processing of un-structured, semi-structured and structured information and data stored on

computer networks and the Internet; software as a service for business organization and business process virtualization and management; software as a service for customer relationship management (CRM); software as a service for enterprise resource planning (ERP); software as a service for business risk management; software as a service for project portfolio management (PPM); software as a service for records management; software as a service for product lifecycle management; infrastructure-as-a-service (IaaS) service in the nature of technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; providing temporary use of non-downloadable computer software for configuration, provisioning, deployment, control, management and virtualization of computer network servers, computer network systems and computer hardware systems; providing temporary use of non-downloadable software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; providing temporary use of non-downloadable software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of big data; providing temporary use of nondownloadable software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; providing temporary use of non-downloadable software for creating and executing runbooks; providing temporary use of non-downloadable software for forecasting and reporting resource utilization for improving server capacity planning; providing temporary use of nondownloadable software for monitoring performance of computer networks; providing temporary use of nondownloadable software for detecting and resolving malfunctions in computer networks; providing temporary use of non-downloadable security software; providing temporary use of non-downloadable software for help desk services for computer hardware and computer software; providing temporary use of non-downloadable computer software for data protection, namely, anti-virus software, anti-malware software, anti-spyware software, anti-adware software; providing temporary non-downloadable electronic data security software; providing temporary use of non-downloadable computer software for computer network and application security, namely, software used for vulnerability management, vulnerability assessment, policy compliance, and remediation management; providing temporary use of non-downloadable software for monitoring user access to global computer networks; providing temporary use of non-downloadable software for monitoring user activity on global computer networks; providing temporary use of non-downloadable for data encryption and decryption software for ensuring the security of stored data and documents in the field of enterprise applications; providing temporary use of non-downloadable software for cryptography; providing temporary use of non-downloadable software for user authentication of users of computer systems, computer networks, mobile computers, websites, and computer programs; providing temporary use of non-downloadable computer software for monitoring, analyzing and reporting of real-time security indicators for use in risk assessment and information security; providing temporary use of non-downloadable data protection software for computer system backup and disaster recovery; providing temporary use of non-downloadable software for data archiving; providing temporary non-downloadable software for data deduplication; providing temporary use of non-downloadable software for cloud infrastructure management and automation; providing temporary use of non-downloadable computer software for monitoring cloud and web application performance; providing temporary use of non-downloadable computer software for database management; providing temporary use of non-downloadable computer software for automate data warehousing; providing temporary use of non-downloadable computer software, namely, cloud computing data center management software; providing temporary use of non-downloadable computer software for application and database integration, namely, software featuring functions for the integration of web-based applications and databases in the field of

business management; providing temporary use of non-downloadable computer software for applications and database integration, namely, software featuring functions for the integration of cloud applications and databases in the field of business management; providing temporary use of nondownloadable computer software for the transmission of big data over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; providing temporary use of nondownloadable software for data storage for processing of third-party data namely for accessing, collecting, organizing, structuring, retaining, adapting, altering and retrieving of data and data reproduction; providing temporary use of non-downloadable computer software for accessing, querying and analyzing information stored in databases and data warehouses; providing temporary use of non-downloadable software for business intelligence, namely, data visualization, data warehousing, dashboards and reporting for use in managing business operations, customer service, accounting, financial management in the field of business management and development of business intelligence computer infrastructure software and computer software applications; providing temporary use of non-downloadable software for business organization and business process virtualization and management; providing temporary use of non-downloadable computer software for use in big data analysis; providing temporary use of non-downloadable computer software for information and knowledge management in the field of enterprise data storage applications; providing temporary use of non-downloadable computer software for use in customer relationship management (CRM); providing temporary use of non-downloadable computer software for enterprise resource planning (ERP); providing temporary use of non-downloadable computer software for business risk management; providing temporary use of non-downloadable computer software for project management in the field of computer hardware, computer software and computer networks; providing temporary use of non-downloadable computer software for corporate records management in the field of business operations and business management; providing temporary use of non-downloadable computer search engine software; providing temporary use of non-downloadable computer software for running development programs and application programs in a common development environment for the creation of mobile Internet applications and client interfaces; providing temporary use of non-downloadable computer software for assisting developers in creating program code for use in multiple application programs, namely mobile Internet applications and client interfaces; providing temporary use of non-downloadable computer software for cloud, mobile and web application development, deployment, and management; providing temporary use of non-downloadable computer software for managing inventory and product lifecycles of computer hardware and computer software applications; temporary use of non-downloadable software-defined infrastructure software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; providing temporary use of non-downloadable computer software for virtualization in fields of converged infrastructure and hyper-converged infrastructure; providing temporary use of nondownloadable software for managing business operations and billing services in the utilities

P.Iva 01105270258 - Via Nazionale
57/A - 32030 Busche
Cesiomaggiore BL
ITALY

Agent
MACRAE & CO.
P.O. BOX 806, STATION B, 222 SOMERSET
STREET WEST, SUITE 600, OTTAWA,
ONTARIO, K2P2G3

GEOGRAPHICAL INDICATION DETAILS

PIAVE

Indication type
Agricultural Product or Food

Category
Cheeses: products falling under heading 04.06

Goods
Cheese

Territory
Province of Belluno, Italy

Qualification
REGULATION (EU) No 1151/2012 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 21 November 2012 on quality schemes for agricultural products and foodstuffs. The organoleptic and nutritional characteristics of Piave cheese are derived from the particular geographical, environmental and production features of the mountain area where it is produced. The notable properties of the milk used to produce Piave, with its higher fat and protein content, are a result of farming in mountain areas. A feature of mountain areas in general but especially of the province of Belluno is their low production indices for milk. Indeed, the production of milk per hectare of permanent pastureland/grazing in the province of Belluno (less than 10 litres compared with an average of 272 litres per hectare of grazing in other provinces) and the productivity per animal (44 hectolitres per year compared with a regional average of 57 hectolitres) are well below the average figures in other areas. The grazing load of animals in the province of Belluno is also much lower than in neighbouring areas and provinces. As indicated earlier, the area of permanent pastureland/grazing available to cattle in the area where Piave cheese is produced (4,38 hectares per animal) is well above the figure for neighbouring areas and the regional average (0,67 hectares per animal). An additional factor is that the environmental conditions, such as temperature and average rainfall which differ significantly from adjacent areas, permit the development of typical mountain species of vegetation which provide particular flavour to milk in the province of Belluno and thus to Piave cheese. All these factors low milk production indices in the identified area, the extent of available grazing, the ample supply of fodder and typical mountain species of vegetation for cattle feed result in a precise ecological niche and produce the particular

features which typify the quality of the milk produced in the province of Belluno. These particular qualities, together with the use of two locally produced cultures (starter culture and whey starter), are the decisive factors which give Piave cheese its particular organoleptic characteristics. The production of Piave cheese has been handed down from generation to generation in the province of Belluno. Its origin dates from the end of the 19th century when the first rotating dairies were set up in mountain areas in Italy. The first products classified as 'Piave' - a river of renown - for a product of renown date from 1960, when a third of the 10 tonnes of milk per day supplied to the Latteria Sociale Cooperative della Vallata Feltrina was set aside for the production of Piave and Fior di Latte cheeses. Piave cheese takes its name from the river of the same name which crosses the whole province of Belluno from the north to the south and southeast. Nowadays the product is well known and appreciated by consumers to the extent that since the 1980s it has received important awards for its particular and typical characteristics both nationally, where it obtained the Spino d'Oro award in 1986, 1992 and 1994 at the 23rd, 26th and 27th Mostra delle Produzioni Casarie cheese fairs in Thiene, and at international events, such as the Mountain Cheese Olympics in Verona in 2005 when it won the Buonitalia flavour award for the best export cheese, at the World Cheese Awards in Dublin where it won first prize for mature cheeses and at the World Food Exhibition in Moscow in 2007.

Public notices under section 9 of the *Trademarks Act*

Application Number 925,797

PROHIBITED MARK DETAILS**CANADIAN NORTHERN CORRIDOR**

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by University of Calgary of the badge, crest, emblem or mark shown here.

Application Number 925,835

PROHIBITED MARK DETAILS

EXATEC

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by INSTITUTO TECNOLÓGICO Y DE ESTUDIOS SUPERIORES DE MONTERREY of the badge, crest, emblem or mark shown here.

Application Number 925,992

PROHIBITED MARK DETAILS

St. Francis Xavier University

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by St. Francis Xavier University of the badge, crest, emblem or mark shown here.

Application Number 925,994

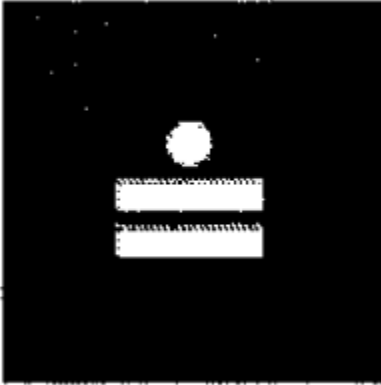

PROHIBITED MARK DETAILS

STFX

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by ST. FRANCIS XAVIER UNIVERSITY of the badge, crest, emblem or mark shown here.

Application Number 925,999

PROHIBITED MARK DETAILS

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by Carleton University of the badge, crest, emblem or mark shown here.

Application Number 926,000

PROHIBITED MARK DETAILS

#AbleTo

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by Carleton University of the badge, crest, emblem or mark shown here.

Application Number 926,001

PROHIBITED MARK DETAILS

#ABLETO

The Registrar hereby gives public notice under subparagraph 9(1)(n)(ii) of the Trademarks Act, of the adoption and use by Carleton University of the badge, crest, emblem or mark shown here.

Application Number 925,940

PROHIBITED MARK DETAILS

LA NATATION COMPTE!

The Registrar hereby gives public notice under subparagraph 9(1)(n)(iii) of the Trademarks Act, of the adoption and use in Canada by THE CITY OF WINNIPEG of the mark shown here, as an official mark for goods and services.

Application Number 925,973

PROHIBITED MARK DETAILS

FREESTYLE CANADA

The Registrar hereby gives public notice under subparagraph 9(1)(n)(iii) of the Trademarks Act, of the adoption and use in Canada by Canadian Freestyle Ski Association of the mark shown here, as an official mark for goods and services.

Application Number 925,979

PROHIBITED MARK DETAILS

The Registrar hereby gives public notice under subparagraph 9(1)(n)(iii) of the Trademarks Act, of the adoption and use in Canada by Saskatchewan Applied Science Technologists and Technicians of the mark shown here, as an official mark for goods and services.

Application Number 925,981

PROHIBITED MARK DETAILS

**TECHNOLOGY PROFESSIONALS
SASKATCHEWAN**

The Registrar hereby gives public notice under subparagraph 9(1)(n)(iii) of the Trademarks Act, of the adoption and use in Canada by Saskatchewan Applied Science Technologists and Technicians of the mark shown here, as an official mark for goods and services.

Erratum

The following issues of the Trademarks Journal contained errors which could not be corrected before publication.

2019-09-04**Application Number** 925,962

The trademark was incorrectly advertised in the Trademarks Journal dated September 4, 2019, Vol. 66 Issue 3384. The drawing of the trade-mark should have been published.

2019-08-28**Application Number** 1,864,552

The trademark was incorrectly advertised in the Trademarks Journal dated August 28, 2019, Vol. 66 Issue 3383. The visual representation of the trademark should have been advertised in black and white.

2019-08-21**Application Number** 1,869,702

The trademark was incorrectly advertised in the Trademarks Journal dated August 21, 2019, Vol. 66 Issue 3382. Corrections have been made to the goods and services.

2019-09-04**Application Number** 1,873,823

The trademark was incorrectly advertised in the Trademarks Journal dated September 4, 2019, Vol. 66 Issue 3384. The claim based on use in Canada should have been deleted before publication.

2019-08-28**Application Number** 1,877,458

The trademark was incorrectly advertised in the Trademarks Journal dated August 28, 2019, Vol. 66 Issue 3383. The visual representation of the trademark has been corrected.
