Trademarks Journal

2020-10-14 — Vol. 67 No. 3442

Trademarks Journal

Vol. 67 No. 3442

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Chemicals for performing enzymatic and chemic-enzymatic reactions in the field of pharmaceuticals; Chemicals for performing scientific analysis in the field of pharmaceuticals; diagnostic reagents for medical/scientific research use; cell lines for screening and development of pharmaceuticals; cell growth media for growing cells for use in scientific research; combinatorial chemistry and gene sequence libraries for assessing the condition of cells, drug screening, and the development of pharmaceuticals; clones and cloning tools, namely, plasmids, vectors, deoxyribonucleic acid DNA and ribonucleic acid RNA, proteins, enzymes, catalysts and substrates, for scientific and research use; kits for scientific and for research use comprised of reagents, substrates, enzymes and assays.

Class 05

(2) Therapeutic, diagnostic, and prophylactic preparations, pharmaceutical products and agents for the treatment, diagnosis and prophylaxis of human diseases, disorders and conditions, namely, diabetes, arthritis, osteoporosis, bone fractures, cardiovascular, neuronal and nervous systems namely, Alzheimer's, Huntington's Disease, cerebral palsy, encephalitis, epilepsy, and Parkinson's disease, brain injury, spinal cord injury, seizure disorders, central nervous system infections, neurological diseases, namely, Alzheimer's, Huntington's Disease, cerebral palsy, central nervous system movement disorders, ocular motility disorders, and spinal cord diseases, and pharmaceutical preparations for wounds; diagnostic reagents for medical diagnostic use and medical laboratory use.

(3) Therapeutic, diagnostic, and prophylactic preparations, pharmaceutical products and agents for the treatment, diagnosis and prophylaxis of human diseases, disorders and conditions, namely, cancers, and blood disorders and conditions.

Services

Class 42

(1) Scientific research and development of preparations, agents and biotechnology for the treatment, diagnosis and prophylaxis of human diseases, disorders and conditions, namely cancer, diabetes, arthritis, osteoporosis, bone fractures and wound healing, and diseases, disorders and

conditions of the cardiovascular, hematological, neuronal and nervous systems; scientific research and development of cosmetics, sundries and nutraceuticals; Providing scientific information in connection with, and for the treatments of, cancers, blood disorders and conditions, and blood diseases.

Class 44

(2) Providing medical information in connection with, and for the treatments of, cancers, blood disorders and conditions, and blood diseases.

Goods

Class 05

(1) Pharmaceuticals and medical preparations and substances and vaccines for the prevention and treatment of disorders and diseases in, generated by or acting on the central nervous system, namely, dementia, Alzheimer's disease and disorder, dizziness, seizures, stroke, depression, cognitive impairment, cognitive disorders and diseases, mood disorders, psychosis, anxiety, apathy, epilepsy, Lennox-Gastaut syndrome (LGS), sclerosis, porphyria, Huntington's disease and disorder, insomnia, Parkinson's disease and disorder, falls, movement disorders and diseases, tremor, schizophrenia, bipolar disorder and disease, ADHD, cancer, migraine, pain, alcoholism and dependency; pharmaceutical preparations and substances acting on the central nervous system and central nervous system stimulants, namely, pharmaceutical preparations for the treatment of the central nervous system, namely, central nervous system infections, brain diseases, central nervous system movement disorders, ocular motility disorders, spinal cord diseases, pharmaceutical preparations for the treatment of the diseases, disorders and infections of the central nervous system, namely, brain, movement, ocular motility and spinal cord diseases, pharmaceutical preparations for the treatment of the central nervous system, namely, encephalitis, cerebral palsy; pharmaceutical preparations and substances for the prevention and treatment of psychiatric and neurological disorders and diseases, namely, Alzheimer's disease and disorder, stroke, depression, cognitive impairment, mood disorders, psychosis, anxiety, epilepsy, sclerosis, porphyria, Huntington's disease and disorder, insomnia, Parkinson's disease and disorder, schizophrenia, bipolar disorder and disease, ADHD, cancer, pain, alcoholism and dependency; pharmaceuticals for treatment of cognitive disorders; pharmaceutical preparations and substances for the prevention and treatment of Alzheimer's disease and disorder, stroke, depression, cognitive impairment, mood disorders, psychosis, anxiety, epilepsy, sclerosis, porphyria, Huntington's disease and disorder, insomnia, Parkinson's disease and disorder, schizophrenia, bipolar disorder and disease, ADHD, cancer, pain, alcoholism and dependency; diagnostic reagents and agents for medical diagnostic use; pharmaceuticals for treatment of cognitive disorders

Class 09

(2) Electronic publications (downloadable), namely, books, reports, brochures, booklets, leaflets, patient information leaflets, magazines, journals, teaching and educational material in the field of

clinical, medical, pharmaceutical and clinical and medical diagnostic research and development, clinical tests, clinical and medical diagnostic, medicine, pharmaceuticals, medical disorders, medical diseases, clinical and medical treatment and prevention; application software for mobile devices for the diagnostics, prevention, early intervention and treatment of mental and behaviour ill-health; electronic publications (downloadable) in the field of assessment of cognitive functions; applications software for mobile devices for assessment of cognitive functions; downloadable software for assessment of cognitive functions; application tool for automatic and self-reported monitoring of patient behaviour, health state, and medication compliance for measuring psychological and mental health through use of patient reported outcomes and sensor data from mobile devices; software used as an installation tool for software applications to retrieve data which is sent automatically, namely, computer database management software; software for information and information management for use of a Web-based physical and psychological and neurological examination and assessment of patients and clients at a distance and at a clinic; apparatus and instruments for diagnostic purposes namely, devices for automatic and self-reported monitoring of patient behaviour, health state, and medication compliance, namely wireless software application for use in monitoring and reporting on patient mood, physical activity, hours slept, quality of sleep and medication

Class 10

(3) Surgical and medical apparatus and instruments, namely, surgical instruments, medical instruments for general examination; medical instruments for information, guidance and control of medicines, namely, software installation tools that automatically install and update patient medical self-monitoring software programs and which automatically prompts the user to enter information concerning behavior, physical health, medication compliance, sleep and physical activity; medical instruments, namely, noninvasive neuromodulatory devices for information and information management for use of a Web-based physical and psychological and neurological examination and assessment of patients and clients at a distance and at a clinic

Services

Class 41

(1) Education, services, namely, providing continuing medical education courses; providing of training, namely, medical training and teaching; arranging and conducting seminars, conferences, symposiums, workshops (training) and courses in the field of medicine; educational and training services in the field of medical research and development, neurological science, medical and psychiatric clinical tests, diagnostic medicine, medicine, pharmaceuticals, psychiatric disorders and diseases, treatment and prevention and assessment of cognitive functions, all provided on-line, via cable and via internet; arranging and conducting expert forums, in the form of seminars, conferences, symposia, workshops and courses in the field of medicine via the internet; on-line training programs in the field of medicine; providing on-line publications (not downloadable), including of books, reports, brochures, booklets, leaflets, patient information leaflets, magazines, journals, teaching and educational material in the field of research and development of pharmaceuticals, pharmaceutical science, clinical tests, diagnostic medicine, medicine, pharmaceuticals, cognitive disorders, cognitive diseases and treatment, prevention and assessment of cognitive functions

Class 42

(2) Pharmaceutical research and development; scientific and technological services and research in the field of medical disorders, medical diseases and medical treatment; scientific and technological services and research in the field of the central nervous system and related disorders, diseases and pharmaceuticals related thereto; medical research; clinical research and

tests, namely, basic and clinical research in the field of neurological science and medicine and providing medical and scientific research information in the field of pharmaceuticals and clinical trials; diagnostic research and tests, namely, medical research services, pharmaceutical research services, research and development of vaccines and medicines, DNA screening for scientific research purposes, genetic testing for scientific research purposes; providing online nondownloadable screening tools (software) for assessment of cognitive functions

Class 44

(3) Medical, clinical, therapeutic and healthcare services, namely, medical clinics, home health care services, medical diagnostic services, medical screening, medical imaging, medical testing services, nursing homes, preparation and dispensing of medications, dental clinics, fertility clinics, physical therapy services, providing emergency health information by telephone; assessment and treatment services in the field of psychiatry and psychology and central nervous system diseases and disorders; advice in the field of medical and pharmaceutical preparations and substances; healthcare and medical services in the field of health central nervous system and brain disorders, diseases and pharmaceuticals, namely physician services; providing medical and medicinal information in the field of diagnostic, medicine, pharmaceuticals, disorders, diseases, treatment and prevention; providing on-line medical data and analyses designed to provide patients and clients customized information, including regarding medical dose, diagnosis, therapeutic issues and medical management; surveillance of patients health, diagnostic and identification of warning regarding diseases and disorders and treatment offers all offered via an internet portal or an interactive platform; medical tests

Goods

Class 07

(1) container filling systems in the nature of plastic packaging container filling machines; feeding machines for containers, namely, machines for feeding plastic into container making machines and for feeding containers from container making machines to machines for handling containers; aseptic feeding machines for plastic packaging containers; filling machines for plastic packaging containers; aseptic filling machines for aseptic packaging of liquids and semisolids; moulding and blow moulding machines for producing plastic containers from injection-moulded, thermoplastic blanks; machines for producing ampoules, pouches, cans, boxes and plastic packaging containers; injection moulding, injection blow moulding, extrusion blow moulding, stretch blow moulding and blow moulding machines for producing hollow bodies of plastic, in particular containers; machines for processing thermoplastic plastics and for making plastic articles, in particular for producing, filling and closing containers of plastic for packaging and for producing films of plastic for packaging; blow-moulding, filling and sealing machines; machines for preparing plastics and machines for processing plastics, namely, machines for molding plastics, extrusion machines for plastic, injection plastic molding machines; packaging container rinsing machines; machine parts, namely, aligners for aligning containers in machinery; machine parts, namely, conveyors for container filling systems; positioning machines and orientation machines for containers, namely, machines for positioning and orienting plastic containers in machinery; machines for locking and sealing plastic containers; machine parts, namely, automatic accumulation tables for containers, buffer devices for automatic accumulation tables; packaging machines and wrapping machines; machine parts, namely, erectors for plastic bottles and plastic containers; conveyors, namely, pallet unloaders; palletisers and depalletisers (conveying machines); industrial robots; machines in the nature of labellers, namely, machines for applying labels to containers; machines in the nature of installations for treating fluids, namely, machines for sterilizing non-water fluids, aqueous solutions and semi-solid media, in particular pharmaceuticals,

food, cleaning agents and care products; mixing machines for chemical processing; homogenisers for industrial use; agitators for chemical processing; stirring machines for liquids and gases, in particular saturators.

Class 21

(2) plastic ampoules, plastic containers and products consisting of plastic ampoules and plastic containers banded and attached together for non-water fluids, aqueous solutions and semi-solid media, produced using a blow moulding, filling and sealing process

Services

Class 35

(1) retail and wholesale services in relation to container filling installations, namely, blow moulding, filling and sealing machines, charging machines for containers, aseptic charging machines for containers, filling machines for containers, aseptic filling machines, moulding and blow moulding machines for producing plastic containers made of injection-moulded thermoplastic blanks, machines for producing ampoules, bags, cases, boxes and containers, injection moulding, injection blow moulding, extrusion blow moulding, stretch blow moulding and blow moulding machines for producing hollow bodies of plastic, in particular containers, machines for processing thermoplastics and for producing plastic products, in particular for producing plastic films and for producing, filling and sealing plastic containers, blow moulding, filling and sealing machines, cooling devices and devices for controlled heat dissipation of extruded and filled container products for the purposes of protecting heat-sensitive fillings, sterilising installations and machines, and the aforesaid devices and parts therefor, machines for preparing and processing plastics, container rinsing machines, aligners, conveying devices for container filling systems, machines for positioning and orienting containers, machines for locking and sealing containers, automatic accumulation tables for containers, buffer devices for automatic accumulation tables, packaging and wrapping machines, erectors for plastic bottles and plastic containers, pallet unloaders, palletisers and depalletisers, industrial robots, labellers, installations for treating fluids, liquid mixers, aqueous solution mixers and semi-solid media mixers, homogenising machines, agitators, stirring machines for liquids and gas, in particular saturators.

Class 37

(2) installation, maintenance and repair of plastic container filling systems, namely, blow moulding, filling and sealing machines, machines for processing thermoplastics and for producing plastic products, in particular for producing plastic films and for producing, filling and sealing plastic containers; installation, maintenance and repair of blow moulding, filling and sealing machines; installation, maintenance and repair of cooling devices and devices for controlled heat dissipation of extruded and filled container products for the purposes of protecting heat-sensitive charges; installation, maintenance and repair, and leasing and rental of plastic container sterilising systems and machines, and parts therefor; installation, maintenance and repair of machines for preparing and processing plastics, palletising machines, depalletising machines, packaging machines, unpacking machines, sorting machines, cleaning machines, inspection machines, filling machines, sealing machines, labellers and packing machines; leasing and rental of machines for filling and sealing plastic container rinsing machines; leasing and rental of aligners and conveying devices for container filling installation

Class 42

(3) technical consultancy and development, engineering, and research in the fields of container filling installations, namely, blow moulding, filling and sealing machines, charging machines for containers, aseptic charging machines for containers, filling machines for containers, aseptic filling

machines, moulding and blow moulding machines for producing plastic containers from injection-moulded, thermoplastic blanks, machines for producing ampoules, pouches, cases, boxes and containers, injection moulding, injection blow moulding, extrusion blow moulding, stretch blow moulding and blow moulding machines for producing hollow bodies of plastic, in particular containers, machines for processing thermoplastics and for producing plastic products, in particular for producing plastic films and for producing, filling and sealing plastic containers, blow moulding, filling and sealing machines, cooling devices and devices for controlled heat dissipation of extruded and filled container products for the purposes of protecting heat-sensitive fillings, sterilising systems and machines, and devices and parts therefor, machines for preparing and processing plastics, container rinsing machines, aligners, conveying devices for container filling systems, machines for positioning and aligning containers, machines for locking and sealing containers, automatic accumulation tables for containers, buffer devices for automatic accumulation tables, packaging and wrapping machines, erectors for plastic bottles and plastic containers, pallet unloaders, palletisers and depalletisers, industrial robots, labellers,, liquid mixers, aqueous solution mixers and semi-solid media mixers, homogenising machines, agitators, agitators for liquids and gas, in particular saturators

Class 09

Computer hardware and software systems for remotely monitoring environmental and energy conditions and controlling remote energy metering systems, energy systems, water systems, steam systems and natural gas systems within a building or buildings, facility, grounds, or designated spatial area; computer hardware and software systems for energy monitoring, diagnostics, fault detection, continuous commissioning, maintenance, management, and control of energy systems, water systems, steam systems and natural gas systems within a building or buildings, facility, grounds, or designated spatial area; computer controlled apparatus for testing and measuring energy usage, water usage, steam usage and natural gas usage; electric control devices for energy management, commissioning, measurement, verification, and auditing; electronic devices, namely, energy meters, submeters, and radio frequency repeaters for tracking and monitoring energy usage, power factor and power quality; electronic monitors and monitor modules for monitoring electric current and electrical signals; electronic monitors for monitoring flowmeters; electronic monitors, sensors, capacitors, current transformers, servers to collect operational data and settings, namely temperature data and settings, from HVAC equipment, building automation systems, refrigeration systems, motors, drives, renewable energy systems, power systems, back-up generation systems, environmental control systems and industrial energy uses processes to ensure efficient and proper functioning; wireless controllers to remotely monitor and control the function and status of other electrical, electronic, and mechanical devices or systems, namely, remote energy metering systems, energy systems, water systems, steam systems and natural gas systems.

Services

Class 35

(1) Energy management services, namely, providing a service that allows customers to purchase energy from various energy providers; tracking and monitoring energy consumption for others for account auditing purposes; tracking and monitoring energy consumption for others for cost accounting purposes; providing customers their electric bill account information, energy usage pattern information, and energy consumption and usage data, for purposes of utility account business management and energy usage management via a website and mobile device

application; business consulting and advisory services in the field of energy efficiency; business consulting services for the energy utility industry and the provision of related products and services, namely electricity, gas, water and steam; business consulting services in the fields of energy measurement to improve energy efficiency within residential, commercial, industrial and institutional facilities; energy use management services, namely tracking and monitoring energy consumption for others; business consulting in the fields of sustainability management and sustainability management services; providing business data analytics related to energy usage, energy costs, greenhouse gas emissions for others; business consulting and business management of energy demand response services; business consulting and business management of incentive programs to reduce energy usage; metering and monitoring of electric power consumption by third parties for electric power providers, namely, monitoring electricity use for others.

Class 36

(2) Brokerage of energy, namely, gas and electricity, and steam; brokerage of renewable energy credits.

Class 37

(3) Technical consultation in the field of installation of lighting apparatus, lighting instruments and lighting systems; technical consultation in the field of installation services, namely, the installation of load monitoring systems, sensors, transformers, capacitors, heating systems, cooling systems, refrigeration systems, power quality systems, ventilation systems, compressed air systems, environmental control systems, and portfolio benchmarking systems that monitor energy use standards, namely monitoring the gas, electricity, water and steam energy usage of commercial and residential buildings.

Class 39

(4) Managing the distribution of energy generated by others.

Class 42

(5) Energy auditing, energy data logging, energy benchmarking and energy engineering services; engineering services in the field of energy efficiency, new building construction, building performance, monitoring of portfolios of buildings, and industrial process evaluations; enabling users to remotely monitor energy and environmental conditions and control devices within a building, facility, grounds, or designated spatial area through real time technology-enabled load monitoring and data logger-enabled data capture via a website.

Services

Class 35

(1) Advertising agency services; business management; business administration; provision of space on websites for advertising goods and services of others; business management consultancy and advisory services; developing promotional campaigns for others; inventory control services; administration, organisation and management of consumer loyalty programs, promoting the sale of goods and services through a consumer loyalty program; business management, namely assistance and advising for the establishment and management of retail stores; direct mail advertising of the goods and services of others; distribution of samples; developing marketing strategies and marketing concepts for others in the field of sports, sportswear and sports equipment; advisory services in the field of business management and business operations namely for sports, sportswear and sports equipment provided online from a computer database or the internet; retail and wholesale services connected to the sale of measuring and teaching apparatus and instruments, namely, measuring bowls, measuring buckets, measuring cups, measuring jugs, measuring rods, measuring rulers, measuring spoons, measuring tapes, and measuring wheels, apparatus for recording, transmission or reproduction of sound or images, namely, blank record disks, blank CD-ROMs for sound or video recording, gramophone records, LP records, phonograph records, record decks, record players, record turntables, sound and video recording and playback machines, namely cameras, camcorders, mobile telephone, electronic tablet computers, computers, televisions, electronic mp3 devices, digital voice recorders, audio cassette and CD players, digital video players, digital music players, and DVD players, computer software, computer games, computer software applications for use with mobile devices, downloadable applications for use with mobile devices and smart phones; retail and wholesale services connected to the sale of pedometers, wearable fitness activity trackers, fitness applications for mobile phones, fitness applications for smart phones, stopwatches, scales; retail and wholesale services connected to the sale of electronic publications, publications downloadable from the Internet, encoded loyalty cards, encoded reward cards, encoded membership cards, encoded smart cards, encoded gift cards; retail and wholesale services connected to the sale of sensors and detectors, namely, acceleration sensors, biochip sensors, distance sensors, infrared sensors, LED position sensors, motion sensors, optical sensors, pressure sensors, temperature sensors, thermal sensors, timing sensors, velocity sensors, carbon dioxide detectors, carbon

monoxide detectors, fire and smoke detectors, laser speed detectors, and metal detectors, application software, application software for wireless devices, fitness application software for wireless devices, audio visual teaching apparatus, namely, digital video players, DVD players, and mp4 players, audio, video and multimedia recordings, namely, audio tape recordings, CD music recordings, video tape recordings, downloadable video recordings featuring sports, namely athletic and fitness sessions, spectacles, sports glasses, sunglasses, protective visors, goggles for use in sport, cases for glasses, sunglasses and visors, chains for glasses, sunglasses and visors; retail and wholesale services connected to the sale of clocks, clothing, footwear and headgear for protection against injury, accidents, irradiation and fire, computer software for the collection, transmission, processing and compilation of positioning data, computer software for use on handheld mobile digital electronic devices; retail and wholesale services connected to the sale of computer software for wireless network communications, computer software to enable the provision of information via communications networks, computer software to enhance the audio-visual capabilities of multimedia applications, namely, for the integration of text, audio, graphics, still images and moving pictures; retail and wholesale services connected to the sale of countdown timers, data processing software, digital books and downloadable electronic publications in the field of sporting activities, sporting goods, instructional fitness classes, sportswear and sports equipment; retail and wholesale services connected to the sale of downloadable electronic books and publications, downloadable graphics, image files, podcasts, publications, software and video files, ear phones, electric timers; retail and wholesale services connected to the sale of frames for glasses, sunglasses and visors, indicators, namely, automatic altitude indicators and wind-direction indicators, downloadable applications for mobile phones to download music, movie and television graphics, GPS navigation devices, namely GPS navigation devices, specifically relating to GPS receivers, GPS transmitters, GPS headsets; retail and wholesale services connected to the sale of personal computers incorporating dietary aid computer software, portable communications apparatus, namely, cell phones, pagers, and walkie-talkies, global positioning system consisting of computers, computer software, transmitters, receivers and network interface devices, pre-recorded audio tapes, CDs, DVDs, software, fitness DVDs and exercise DVDs; retail and wholesale services connected to the sale of training manuals in electronic format, training guides and manuals in the form of a computer program, wearable communications devices in the form of wristwatches; retail and wholesale services connected to the sale of wearable audio equipment, namely, earphones, headphones, and microphones, wearable computer peripheral devices, namely, smartglasses; retail and wholesale services connected to the sale of clothing, footwear, headgear for protection against injury, accidents, irradiation and fire

Class 38

(2) Providing access to a website that provides streaming audio and video such as sports webcasts

Class 41

(3) Education, namely, conducting classes, seminars, workshops, lectures, in the field of fitness and sporting activities, sporting goods, instructional fitness classes, physical education services; providing of training in the field of fitness and sporting activities, sporting goods, instructional fitness classes; entertainment, namely, provision of running and marathon races, and personal appearances by a sports celebrity; sporting and cultural activities, namely, organisation of sports events in the field of running and marathons; providing information regarding fitness training, fitness tracking, sporting activities, sporting goods, instructional fitness classes, yoga and meditation via a website; conducting classes, virtual classes and online classes in exercise, nutrition, weight control, weight reduction and fitness; dietary education services provided via a website; conducting distance learning via a website in the field of running and marathons; education and training services in the field of running and marathons provided online; education

and training services in the field of sporting activities, sporting goods, instructional fitness classes, yoga, meditation, fitness, nutrition, food technology for the provision of nutritional information about food, food and nutrition consultation services, hygiene, namely hygiene for cooking, food preparation, health, wellness and personal hygiene, cooking, physical fitness and fitness tracking; information services in the field of sporting activities, sporting goods, instructional fitness classes, yoga, meditation, physical fitness and fitness tracking; providing online electronic publications pertaining to sports, fitness, exercise, training, nutrition, health; conducting fitness classes; providing information in the field of exercise via an interactive website; instruction, advisory services and training services in the field of running and physical fitness; gym, health and fitness club services; keep fit instruction services; organisation of track and field competitions; coaching in the field of sports, specifically athletics and fitness; personal fitness training services; physical fitness consultation; physical fitness instruction; providing on-line publications pertaining to sports, fitness, exercise, training, nutrition, health; sport camp services; sport camps; sports club services in the field of running and marathons; yoga instruction; workshops and online workshops for recreational, training and educational purposes in the field of fitness training, fitness tracking, nutrition, sporting activities, sporting goods, instructional fitness classes, yoga, meditation, cooking and hygiene, namely hygiene for cooking, food preparation, personal hygiene and general health and wellness for assisting individuals with physical activity; providing consumer information and related news in the field of sports, specifically athletics and fitness, and marketing sportswear and sports equipment

Class 44

(4) Medical services, namely, conducting of medical examinations, emergency medical assistance, medical clinic services, medical fitness evaluation, medical screening, medical treatment services provided by a health spa, medical treatment services provided by clinics and hospitals, mobile medical clinic services, and providing nutritional information about food and drinks for medical weight loss purposes; health and beauty care services provided by saunas, beauty salons, sanatoriums, hairdressing salons and massage parlors, providing information in the field of hairdressing and beauty salon services; providing information, advisory services and consultancy regarding nutrition, dieting, slimming, weight control, weight loss and massage via a website; providing information regarding nutrition, cooking and hygiene, namely hygiene for cooking, food preparation, personal hygiene and general health and wellness for assisting individuals with physical activity via a website; information in the field of nutrition, food technology for the provision of nutritional information about food, food and nutrition consultation services, hygiene, namely hygiene for cooking, food preparation, personal hygiene, cooking and general health and wellness for assisting individuals with physical activity; health assessment surveys; online health assessment surveys; health spa services; professional consultancy in the field of diet, nutrition; providing information about dietary supplements and nutrition via a website; providing information in the field of moxibustion, chiropractics, acupuncture, physical examinations via a website; providing weight loss program services, namely, weight reduction diet planning and supervision services; providing services involving the planning of weight loss programs, namely, providing medical and nutritional information and advice for weight loss purposes; consultancy, information and advisory services in the field of body treatment services, skin care and cosmetics

computer software allowing users to search and determine the physical location of people, places, events, buildings and points of interests (POIs); location-aware software applications for the purpose of locating people, places, events, buildings, points of interest (POIs) and for obtaining traffic information, contextually relevant information, contextually-relevant advertisements; computer software providing public transports timetables and routes; computer software providing traffic information; computer software providing map information; computer software providing travel information, tourist information, information about movies and music, location information of shopping centres and stores, Points of Interest (POIs) information, location information of restaurants, bars and kiosks; computer software for use in locating Points of Interest (POIs) price information; downloadable software in the nature of a mobile application for displaying and sharing a user's location and finding, and locating other users, and for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing emails and text, audio and video messages; computer software for posting and sharing photography on mobile phones, smart phones, tablets, computers, connected watches; computer software for use with positioning systems and satellite systems for navigation, route trip planning, direction searching, electronic mapping, public transport information, traffic information, determining the location of people, places, events, buildings and points of interest, display of location-based advertisements, displaying and sharing user location information on mobile phones, smart phones, tablets, computers, connected watches; computer software to be used for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic maps on mobile phones, smart phones, tablets, computers, connected watches; computer software in the field of photography, global positioning systems, maps, public transport, traffic and travel, namely software for providing, updating and displaying roadway, geographic, map, direction, travel, public transport and traffic data, for use on mobile phones, smart phones, tablets, computers, connected watches; computer software in the field of maps, namely software for viewing, downloading and providing digital maps and digital map databases, for use on mobile phones, smart phones, tablets, computers, connected watches; computer software for global and wireless navigation positioning systems and maps, namely computer software and software applications enabling its

user to determine its location, for use on mobile phones, smart phones, tablets, computers, connected watches; computer software in the field of global positioning systems and maps, namely software for operating and interacting with location, motion, positioning and distance measuring sensors and sensors for measuring speed, distance, time, and movements, for use with mobile phones, smart phones, tablets, computers, connected watches; computer social networking software and software applications to enable the sharing of personal user information on social networking websites and applications for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing emails and text, audio and video messages; geolocation software used to determine the location of a computerized device connected to the internet; Photo recognition software, namely, software used to determine a location from a picture, photograph, digital picture or digital photograph or from the buildings or objects shown in the picture, photograph, digital picture or digital photograph; digital maps; computer software allowing users to customize, share, and use digital maps; computer software for the purpose of allowing the remote control, monitoring and command of connected security systems; computer hardware allowing users to search and determine the physical location of goods, objects; location-aware software applications for obtaining weather information, employment information; computer hardware providing public transports timetables and routes; computer hardware providing parking information; computer hardware providing navigation information; computer hardware providing map information; computer hardware providing weather information, social and sporting events information; computer software and hardware providing fitness information; computer software and hardware providing employment information; computer software and hardware allowing to listen to music, to read out electronic messages, and to browse on the Internet; computer software and hardware allowing processing of electronic payments and transferring of funds to and from others, all online; computer software and hardware allowing the remote control and command of vehicle parameters, namely, vehicle engine on/off status, heating system, locking system, tire pressure, fuel tank capacity, washer fluid capacity and oil level; computer software and hardware allowing the remote control and command of household equipment parameters, namely, setting of heating system, air conditioning system, lighting system, energy management system, home security system, dishwashers, ovens, stoves, washing machines, drying cabinets, blinds, electric control panel, gas control tap, water control tap; computer software and hardware allowing the remote control and command of electronic devices and equipment parameters, namely, television sets, electronic doors and windows, speakers, personal digital assistants, computers, phones, cameras, tablets; computer software for uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, and providing photography on connected glasses, connected home appliances, connected vehicles; computer software for use with positioning systems and satellite systems for parking information, weather information, determining the location of goods, objects, displaying and sharing user location information on connected glasses, and connected vehicles; computer software to be used for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic maps on connected glasses, and connected vehicles; computer software for digital diaries, online blogging, digital photo albums and social messaging to enable authoring, posting, uploading, downloading, transmitting, receiving, editing, playing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic games, movies, books, news articles, newsfeeds and video recordings and sound recordings over the internet and wireless communications networks for digital diaries, online blogs, digital photo albums and social messaging on mobile phones, smart phones, tablets, computers, connected watches, connected glasses, connected vehicles; computer software in the field of photography, global positioning systems, maps, public transport, traffic and travel, namely software for

manipulating roadway, geographic, map, direction, travel, public transport and traffic data, for use on connected glasses, connected vehicles; computer software in the field of maps, namely software for creating, digital maps and digital map databases, for use on connected glasses, and connected vehicles; computer software for global and wireless navigation positioning systems and maps, namely computer software and software applications enabling its user to determine its location, for use on connected glasses and connected vehicles; computer software in the field of maps, namely software development software to create and use digital maps, map databases and map-based software applications for mobile phones, smart phones, tablets, computers, connected watches, connected glasses, connected vehicles; computer software in the field of maps, namely computer software in the form of application program interfaces (APIs) to create and use digital maps, and map databases for mobile phones, smart phones, tablets, computers, connected watches, connected glasses, connected home appliances, connected vehicles; computer software in the field of global positioning systems and maps, namely software for operating and interacting with location, motion, positioning and distance measuring sensors and sensors for measuring rotation, temperature, and biometric parameters, for use with connected glasses, connected home appliances, connected vehicles; software applications for operating social networking websites and to enable the uploading, downloading, transmitting, storing, showing, displaying, tagging, blogging, sharing, communicating and providing on social networking websites and applications for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing emails and text, audio and video messages; software applications enabling users to browse on the Internet; computer vision recognition software, namely, software for obtaining an augmented reality view of buildings and places in a given area and for highlighting points of interest, objects, people, activities, events and traffic and public transport routes and timetables in a given area; faces recognition software; photo recognition software, namely, software used to determine what building or object is being shown in a picture, photograph, digital picture or digital photograph; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; telematic in-vehicle communication systems providing wireless vehicle navigation and tracking; navigational instruments, namely global positioning system (GPS) receivers and transmitters, compasses; computer software application programming interfaces (APIs) for use in developing mapping and global and wireless navigation positioning systems software applications; pre-recorded optical discs, compact discs, USB flash drives, memory cards, and DVDs with software for the purpose of providing, updating, displaying and manipulating roadway, map, travel and traffic data, other than prerecorded CDs and DVDs containing music or movies; software development tools, namely software development software and software development digital documentation and guides, namely, computer software for assisting developers in creating program code for use in multiple application programs and electronic publications regarding computer software development; software development software used to create and use digital maps and databases; computer software allowing businesses to create and consume digital maps; software applications enabling users to obtain location-related information, namely, mapping software applications for displaying orders and driver locations on digital maps; computer software for use in autonomous control, driving or navigation of motor vehicles, aircraft and watercraft; computer navigation software for use in global positioning systems in motor vehicles, aircraft and watercraft which provides and shares real-time data and information with its users relating to traffic, public transports timetables and routes, maps, travels, movies and music events, shopping centre and store locations, Points of Interest (POIs), restaurant, bar, food kiosk, drink kiosk, magazine kiosk and newspaper kiosk locations, and Points of Interest (POIs) prices; computer software for use in computerized driver assistance systems in motor vehicles, aircraft and watercraft for providing collision and accidents alerts, automated lighting, adaptive cruise control,

automated braking, GPS navigation services, traffic and weather information supply, correct lane formation and blind spots revelation;

Services

Class 35

(1) location-based advertising for the benefit of third parties; advertising services for the benefit of third parties; compilation and systemization of traffic information and data into computer databases; compilation and systemization of map information and data into computer databases; on-line advertising for third parties on a computer network; rental of advertising space; rental of advertising time on communication media; providing fuel prices information;

Class 38

(2) providing access to an online computer database in the field of mapping, global positioning and wireless navigation positioning systems software; providing access to an online platform, namely a database containing a collection of maps; providing access to databases in the field of GPS and wireless positioning navigation, mapping, travel, tourism, sightseeing, as well as Points of Interest (POIs) price information; providing access to databases in the field of traffic, parking, weather, sporting events, fitness, employment; providing access to an online platform, namely a database containing a collection of data and pictures in the field of maps, public transportation, tourism, travel and traffic; providing multiple user access to a website featuring GPS navigation information;

Class 39

(3) tracking of passenger vehicles via global positioning systems [navigation information]; provision of public transportation route and timetable information online; providing delivery timetable, route and location information relating to consumers' online purchases; traffic and travel information services; providing tourist travel information services; Geo-localisation services, namely, tracking goods, buildings, people, places and sightseeing points of interests (POIs) via global positioning systems by application software for mobile phones, wearable computers, smart phones, smart watches, computers and tablets; directions and route guidance services; places search services, namely for locating the geographic position of a place and in the field of transportation, traffic, navigation and travel information; Geo-localisation services, namely, tracking goods, buildings, people, places and sightseeing points of interests (POIs) via global positioning systems by application software for personal digital assistants; autonomous driverless transportation services, namely transportation of passengers and goods by self-driving motor vehicles, watercraft and aircraft;

Class 42

(4) design and development of computer hardware and software; providing on-line, non-downloadable, mapping, global positioning and wireless positioning systems software for use on electronic readers, connected watches, connected glasses, connected cameras, personal digital assistants, pagers to enable its user to determine the location of goods, buildings, people, places and sightseeing points of interest (POIs); providing on-line [non-downloadable] map-based software, namely, geographic location-specific computer software for parking information, weather information, determining the location of goods; providing on-line, non-downloadable, global positioning and wireless positioning systems software and software applications containing tourism information, maps and user's location information from electronic documents by means of global computer networks; providing tourism information, map-related information and location-based information relating to software for use as an application programming interface (API) and to software development tools from searchable indexes and databases, including text, maps, electronic documents, databases, graphic and audio visual information, by means of global

computer networks; providing online, non-downloadable, computer software for viewing, posting, uploading, downloading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing emails and text, audio and video messages and software applications containing tourism information, maps and user's location information from searchable indexes and databases, by means of global computer networks; providing tourism information, map-related information and location-based information relating to software applications for parking information from searchable indexes and databases, including electronic documents, by means of global computer networks; providing temporary use of on-line non-downloadable software for use as an application programming interface (API) for use in developing software applications; providing temporary use of on-line non-downloadable software development tools, namely software development software and software development digital documentation and guides for assisting developers in creating program code for use in multiple application programs and electronic publications regarding computer software development; providing weather information; providing on-line, non-downloadable, software for autonomous control, driving or navigation of motor vehicles, watercraft and watercraft; providing on-line, non-downloadable, computer navigation software for use in global positioning and wireless positioning systems in motor vehicles, aircraft and watercraft which provides and shares real-time data and information with its users relating to objects, people, places; providing on-line, non-downloadable, computer software for use in computerized driver assistance systems in motor vehicles, aircraft and watercraft for providing collision and accidents alerts, automated lighting, adaptive cruise control, automated braking, GPS navigation services, traffic and weather information supply, correct lane formation and blind spots revelation; providing on-line, non-downloadable, software for displaying and sharing a user's location and finding, and locating other users and interacting with them by means of uploading, downloading, transmitting, storing, showing, displaying, tagging, blogging, sharing and providing emails and text, audio and video messages; providing on-line, non-downloadable, mapping, global positioning and wireless positioning systems software for use on wearable computers, computers, phones and tablets to enable its user to determine the location of goods, buildings, people, places and sightseeing points of interests (POIs); providing on-line [nondownloadable] map-based software, namely, geographic location-specific computer software for viewing, posting, uploading, transmitting, receiving, editing, storing, organizing, showing, displaying, tagging, blogging, sharing and providing map-based data, namely, roadway, geographic, map, direction, travel, public transport and traffic data; providing on-line [non-downloadable] map-based software, namely, geographic location-specific computer software for map-based navigation, route trip planning, direction searching, electronic mapping, public transport information, traffic information, determining the location of vehicles, people, places, events, buildings and points of interest, display of location-based advertisements, displaying and sharing user location information; providing online, non-downloadable, global positioning and wireless positioning systems software and software applications containing tourism information, maps and user's location information from searchable indexes and databases, by means of global computer networks; providing tourism information, map-related information and location-based information relating to software applications for public transports timetables and routes from searchable indexes and databases, including text, maps, electronic documents, databases, graphic and audio visual information, by means of global computer networks; providing tourism information, map-related information and location-based information relating to software applications for traffic information from searchable indexes and databases, including text, maps, databases, graphic and audio visual information, by means of global computer networks; software as a service [SaaS], namely, for the provision of map-related, navigation-related, traffic-related, weather-related and public transport-related information; Geo-localisation services, namely, providing online non-downloadable mapping, global positioning and wireless positioning systems application software

for mobile phones, wearable computers, smart phones, smart watches, computers and tablets for use in locating goods, buildings, people, places and sightseeing points of interests (POIs); Geo-localisation services, namely, providing online non-downloadable mapping, global positioning and wireless positioning systems application software for personal digital assistants for use in locating goods, buildings, people, places and sightseeing points of interests (POIs);

Class 09

(1) Coordinate input devices, namely electronic pens, light pens, computer keyboards, tablet computers, computer input pens, computer input touch panels; digitizer tablets; input digitizer tablets for computers; computer cursor control equipment, namely input writing pens, input touch pens, input magnetic pens, input electronic pens; computer input touch panels; electronic whiteboards; input devices for computers, namely electronic pens, light pens, computer keyboards, tablet computers, computer input pens, computer input touch panels; data processing apparatus, namely tablet computers, computers; software for computer input, namely computer software for inputting computer graphics coordinates, namely physical coordinates, viewpoint coordinates and window coordinates in a computer graphics program, by means of electronic pens, light pens, computer keyboards, tablet computers, computer input pens, computer input touch panels, and drawing, painting; computer software for recording and processing input information, namely handwritten electronic signatures, handwritten notes, handwritten drawings; electronic machines, apparatus and their parts, namely computers, personal digital assistants; computer hardware and software for recording handwritten digital signature and drawings; downloadable computer programs, namely computer operating programs; computers; electronic machines and apparatus and their parts, namely touch pads, microprocessors, tablet computers, mobile phone displays; telecommunication machines and apparatus, namely cellular phones and telecommunications computer terminals; portable telephones; computer software for processing digital images; computer operating system software for use in inputting computer graphics coordinates, namely physical coordinates, viewpoint coordinates and window coordinates in a computer graphics program, by means of electronic pens, light pens, computer keyboards, tablet computers,

computer input pens, computer input touch panels; television receivers; digital cameras; liquid crystal displays; calculators; electronic circuits and CD-ROMs pre-recorded with programs for playing handheld video games with liquid crystal displays; computer input touch panels for PDA [personal digital assistants]; computer peripheral devices, namely computer mice, keyboards; downloadable computer software, namely software for creating, editing and recording digital images, namely digital handwritten notes, digital signatures, digital drawings, digital photographs; computerized personal organizer; electronic pens for visual display units; laptop computers; smartphones; tablet computers; stylus pen; cases especially made for tablet computers; electronic stationary, namely electronic pencils and erasers, electronic pens, electronic organizers, electronic agendas, electronic diaries, electronic memo pads, electronic notepads, electronic leaflets, electronic rulers; computer software for controlling and operating digitizer tablets, stylus pens, touch panels, tablet computers, and computer input pens, computer input touch panels; computer programs for recording and processing digital images, photographs, musical and non-musical sounds inputted by using digitizer tablets, stylus pens, touch panels, tablet computers, computer input pens, computer input touch panels; computer software platforms for ensuring the compatibility of digitizer tablets, stylus pens, touch panels, tablet computers, computer input pens, computer input touch panels operated by different software; computer software platforms for enabling real-time exchange and processing of digital images, photographs, musical and non-musical sounds inputted by digitizer tablets, stylus pens, touch panels, tablet computers, computer input pens, computer input touch panels; computer hardware and computer software for coordinating computer input devices, namely electronic pens, light pens, computer keyboards, tablet computers, computer input pens, computer input touch panels; computer programs for ensuring the compatibility of digital images, photographs, musical and non-musical sounds inputted by using digitizer tablets, stylus pens, touch panels, tablet computers, computer input pens, computer input touch panels to ensure sharing thereof and for processing of digital images inputted by digitizer tablets, stylus pens, touch panels, tablet computers, computer input pens, computer input touch panels; downloadable cloud computing software for use in processing digital images, photographs, musical and non-musical sounds, computer graphics, and video inputted by digitizer tablets, stylus pens, touch panels, tablet computers, computer input pens, computer input touch panels; electronic book readers; wearable cameras; wearable computers, namely wearable video display monitors, audiovisual headsets for playing video games

Class 16

(2) Printed matter, namely books, notebooks, textbooks and newsletters; handbooks, namely manuals; posters; printed publications in the fields of education and research in the fields of computers and digital stationery, business organization and management, computer and video games; teaching materials, namely textbooks, manuals and guide books in the fields of education, business, computer and video games; drawing instruments, namely markers, drawing compasses, templates for drawing, drawing boards; paper; printed photographs; photograph stands; blackboards; books; comic books; pen cases; cardboard; catalogues; compasses for drawing; office requisites, namely pens; bookmarkers; calendars; canvas for painting; drawing boards; drawing materials, namely square rulers, compasses for drawing, French curves, tracing needles for drawing purposes, pantographs, drawing rulers, drawing squares; drawing pads; drawing pens; drawing rulers; erasing products, namely erasers; file folders; fountain pens; ink; ink sticks; stationery, namely marking pens; pen nibs; note books; paintbrushes; palettes for painters; pastels, namely crayons; penholders; stationery, namely transparencies; writing brushes; writing materials, namely dot paper, printable paper, blotting paper, blotting pads, ball-point pens, pencil for writing; writing paper; tracing paper; binder; personal organizers; memo pads

Services

Class 41

(1) Arranging, conducting and organization of seminars in the fields of computer hardware, computer software, computers, touch screen devices, digital stationery; online publication of electronic pamphlets, newsletters, magazines, brochures, booklets; educational and instruction services relating to arts, crafts, computer hardware, computer software, computers, touch screen devices, digital stationery; publication of books; preparing and conducting audio visual presentations in the fields of computer hardware, computer software, computers, touch screen devices, digital stationery and education in the fields of computers and digital stationery; video production and video distribution of films for others, in the field of computer hardware, computer software, computers, touch screen devices, digital stationery and education; workshops in the field of creating digital stationery; dubbing; providing educational information in the fields of computer hardware, computer software, computers, touch screen devices, digital stationery; electronic desktop publishing; nursery schools; organization of competitions in the field of computer science; arranging and conducting exhibitions in the fields of computer hardware, computer software, computers, touch screen devices, digital stationery; providing non-downloadable videos featuring information about computers, touch screen devices, digital stationery; on-line publication of electronic books and journals; publication of books, magazines, newspapers, journals, calendars, catalogs; educational services, namely conducting courses of instruction at the high school level, college level and university level

Class 42

(2) Cloud computing, namely cloud computing web hosting services, cloud computing provider services for general storage of data, cloud computing providing software for database management; programming of computer software; advisory services relating to programming of computer software; computer software design, computer programming, and maintenance of computer software; technological advice relating to computers, automobiles; testing and research on electricity; rental of computers; installation of computer software on data networks; computer system design; advisory and consultancy services relating to the design and development of computer hardware; conversion of data or documents from physical to electronic media; document data transfer and conversion from one media to another; dress designing; digitization of documents [scanning]; duplication of computer programs; electronic storage of digital images, photographs, artworks, documents and publications; graphic arts design; handwriting analysis [graphology]; hosting computer sites [web sites]; installation of computer software; providing information on computer technology and programming via a web site; computer software rental; software as a service [SaaS] provider in the field of software for creating digital stationery; upgrading of computer software; design and development of operating software for accessing and using a cloud computing network; programming of operating software for accessing and using a cloud computing network; rental of operating software for accessing and using a cloud computing network; providing temporary use of on-line non-downloadable operating software for accessing and using a cloud

Visual Representation

Trademark Description

The trademark consists of the position of a two-dimensional configuration of the labels applied to a three-dimensional bottle; the bottle closure is in blue; the word PLATINO appears in white letters on a silver rectangle under the ribbon; appearing in the middle of the bottle is a hexagon shaped label, at the top left of which appears the word TEQUILA in red on a green frame on green agave leaves, and to the top right is a circle with a silver frame enclosing a one story building and workers in green with a blue sky and white clouds; below appears the words RESERVA DE LA FAMILIA and PLATINO and the words PLATA and JOSE CUERVO all in silver with 4 coins in silver; hexagon label is framed in green with an inner black frame and the color white is the background in the hexagon and the framing device in the center is in blue with a silver frame; appearing at the bottom of the bottle is a label containing a crest with a silver design of a raven, an agave plant and a coa (agave harvesting tool) all surrounded by silver floral leaves and a silver

ribbon design; the words JOSE CUERVO in red script overlays the crest. The dashed lines framing the bottle, the ribbon and the embossed crest do not form part of the trademark but are included merely to show the positioning of the two-dimensional configuration of the labels on the bottle.

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) black, green, red, blue, white silver are claimed as a feature of the trademark. The bottle closure is in blue; the word PLATINO appears in white letters on a silver rectangle under the ribbon; appearing in the middle of the bottle is a hexagon shaped label, at the top left of which appears the word TEQUILA in red on a green frame on green agave leaves, and to the top right is a circle with a silver frame enclosing a one story building and workers in green with a blue sky and white clouds; below appears the words RESERVA DE LA FAMILIA and PLATINO and the words PLATA and JOSE CUERVO all in silver with 4 coins in silver; hexagon label is framed in green with an inner black frame and the color white is the background in the hexagon and the framing device in the center is in blue with a silver frame; appearing at the bottom of the bottle is a label containing a crest with a silver design of a raven, an agave plant and a coa (agave harvesting tool) all surrounded by silver floral leaves and a silver ribbon design; the words JOSE CUERVO in red script overlays the crest.

Foreign Character Translation

As provided by the applicant, the English translation of the Spanish words "RESERVA", "DE LA FAMILIA", "PLATINO", "PLATA" and "CUERVO" are "RESERVE", "OF THE FAMILY", "PLATINUM", "SILVER", and "CROW or RAVEN".

Visual Representation

Trademark Description

The trademark consists of the position of a two-dimensional configuration of the labels applied to a three-dimensional bottle. The label beneath the cap is red with the word « CINGE » in gold above a gold shield and a gold horizontal line; a gold label outlined in red appears at the base of the neck of the bottle with « CINGE » and « 1795 » in red and four red coins outlined in red within it; the center label contains the words « JOSE CUERVO » above the scorpion and « CINGE » beneath it; and the bottom label contains one gold horizontal line on top and under the words « JOSE CUERVO ESPECIAL » and « CINNAMON » in white and the words « TEQUILA INFUSED WITH CINNAMON & NATURAL FLAVORS » in gold beneath it and under which there are the words « JOSE CUERVO, » on the bottom right, in black; The dashed lines framing the bottle indicate that the bottle and the embossed section beneath the neck of the bottle with the words « JOSE CUERVO 1795 HECHO EN TEQUILA » do not form part of the trademark but are included merely to show the positioning of the two-dimensional configuration of the labels on the bottle.

Colour Claim

Colour is claimed as a feature of the trademark. The color(s) red, white, black and gold is/are claimed as a feature of the mark with respect to the four two-dimensional labels. In particular, the label beneath the cap is red and the word 'CINGE', the shield and the horizontal line are gold; the label at the base of the neck of the bottle is gold with the outline, the word 'CINGE', '1795' and the outline of the four (4) medals in red; the center label is red, with the words 'JOSE CUERVO' 'CINGE' beneath it in white and the scorpion between the words is gold; and the bottom label contains the words 'JOSE CUERVO ESPECIAL' and 'CINNAMON' in white, beneath which there are the words 'TEQUILA INFUSED WITH CINNAMON & NATURAL FLAVORS' in gold and under which there are the words 'JOSE CUERVO' in black.

Foreign Character Translation

As provided by the applicant, the English translation of the Spanish words "CUERVO", "HECHO EN TEQUILA" and "ESPECIAL" are "CROW or RAVEN", "MADE IN TEQUILA" and "SPECIAL".

Goods

Class 09

(1) security and fire alarms; smoke alarms; gas alarms; infant movement alarms; motion sensitive security lights; personal security and security alarms; security control panels and motion detectors; doorbell cameras; door lock controls; remote controls for garage doors; home and office automation systems comprising wireless and wired controllers, voice controllers, controlled devices, software, and downloadable smartphone applications, namely, mobile phone and smartphone software and applications for controlling home and vehicle alarm systems for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal security and security alarms, smoke and gas alarms, home surveillance systems, doorbell cameras, door lock controls, garage door controls, lighting controls, HVAC controls, appliance controls, mobile phone and smartphone software and applications for controlling home and vehicle alarm systems for security systems, fire alarms; thermostats; downloadable software to facilitate customer access to monitored systems for purposes of configuring, controlling, activating and deactivating monitored systems and viewing monitored premises via a wired and wireless connection; appliance controls, security gate controls, safety light controls and home and office humidity controls and building remote access controls and controls for monitoring building access information; remote controls for operating vehicle alarms

Class 12

(2) security alarms for vehicles; anti-theft alarms for vehicles; vehicle alarms

Services

Class 37

(1) burglar alarm installation and repair; fire alarm installation and repair; home and office automation services, namely, installation, maintenance and repair of home and office automation systems comprising wireless and wired controllers, voice controllers, controlled devices, and software for security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal security and security alarms, smoke and gas alarms, home surveillance systems, doorbell cameras, door lock controls, garage door controls, lighting controls, HVAC controls, appliance controls, home and office automation control units

Class 42

(2) networking of home controls, namely, wireless and wired lighting controls, thermostat and heating controls, rolling shutters and door controls, appliance controls, namely, oven, washer, dryer, refrigerator, dishwasher, lawn, and garden irrigation controls, home audio and video controls; providing online non-downloadable computer software used to operate, manage and monitor security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal security and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, HVAC controls, appliance controls and home and office automation control units and providing online non-downloadable computer software used to operate, manage and monitor security systems, fire alarms, alarm central units, anti-intrusion alarms, burglar alarms, personal security and security alarms, smoke and gas alarms, home surveillance systems, lighting controls, HVAC controls, appliance controls and home and office automation control units and remote building access controls and monitoring building access control information; providing temporary use of online non-downloadable computer software used to monitor and track movement activity, health conditions and environmental conditions, and to transmit security and alarm information in the form of electronic alarm notifications, text messages, photographs and video via communications networks; providing temporary use of online non-downloadable computer software used to monitor and track movement activity, health conditions, and environmental conditions, and used to transmit electronic alarm notifications, electronic text messages, movement tracking data, and health data via communication networks for purposes of configuring, controlling, activating and deactivating security and burglar alarms and viewing monitored premises via a wired and wireless connection

Class 45

(3) monitoring of door and window sensors, video cameras, motion detectors, glass breakage detectors, sump pumps, smoke detectors, carbon dioxide detectors, heat detectors, shock sensors, flood sensors, freeze sensors, pool alarms, and garage door openers for security purposes; emergency response medical alarm monitoring services; monitoring of alarms; video monitoring of facilities, viewable through a global computer network, for security purposes; making pet identification tags available to others for security or location purposes; tracking, locating, and monitoring services for recovering lost animals; monitoring building access security information

Class 09

(1) Electronics, namely, mobile phones, cellular phones, feature phones, smart phones, PDAs, handheld computers, computers, tablets, tablet computers, televisions, television apparatus, high definition televisions, LCD and LED panel televisions, wearable computers, handheld computer device comprised primarily of software and display screens for viewing, sending and receiving texts, emails, voice, sound, images, graphics and video communications from smart phones, tablet computers and personal digital assistants, smartphones and accessories therefor, namely, battery chargers, car chargers, universal chargers, adapters and removable covers, portable and handheld computers, mobile computers, wearable apparatus, namely, watches, bracelets and brooches to monitor and provide feedback on physical, social and entertainment activities and interact with the foregoing devices, personal digital assistants, electronic personal organizers, electronic notepads, MP3 and digital audio players, digital audio recorders, electronic communication equipment and instruments, namely, mobile and wearable communications computers for sending and receiving of voice, graphics, sound, text, audio, image, and video files,

TVs, DVD players, and replacement parts and fittings for the aforementioned goods; Electronic products, namely, car holders, hands-free headsets for mobile phones, smart controllers, namely, a wireless remote control that can be used for finding belongings, controlling a camera, and controlling a flashlight remotely, portable power supplies, namely, portable batteries for mobile phones, portable computers and audio players, capacitive pen in the nature of a stylus, electronic pen and light pens for use with electronic devices, smart phones, and tablet computers, cables and wireless adapters for connecting a smart phones to an external screen, computer, tablet, or TV, Wearable computers, Wearable mobile phones, namely, wearable digital electronic devices comprised primarily of a mobile phone, Smartphones in the shape of a watch, namely, wearable digital electronic device comprised primarily of software and display screens for viewing, sending and receiving texts, emails, voice, sound, images, graphics and video communications from smart phones, tablet computers and portable computers, and also featuring a wristwatch, wireless communication network technologies, namely, tablet computers, smartphones, smart watch phone, wireless activity trackers for displaying, measuring, and uploading to the Internet information, namely, time, date, body and heart rates, global positioning, direction, distance, altitude, speed, steps taken, calories burned, navigational information, weather information, temperature, wind speed, and the declination of body and heart rates, handheld cases for tablets and portable electronic device for reading printed text aloud, and replacement parts and fittings for the aforementioned goods; Electronic devices, namely, handheld computers with operating systems enabling the use of software applications, wireless communication, global positioning systems (GPS) and near-field communication (NFC), and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, wireless headsets, and in-ear headsets, telephones, smartphones, cell phones, laptops, desktop computers, tablet computers, music players, headsets for use with computers and mobile phones with function of short-range transmission of digital voice, text, sound, images, graphics and video communications, smart watch phone, audio equipment, namely, audio speakers and headphones, digital cameras, players and recorders, namely, digital audio and video recorders and players, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, virtual reality products, namely, virtual reality headsets, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, virtual reality (VR) products, namely, goggles, data gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, stereoscopic 3D displays, namely, headsets and glasses, 2D monoscopic headsets and glasses, monocular headsets and glasses, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, augmented reality products, namely, augmented reality headsets, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, augmented reality products, namely, goggles, data gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, stereoscopic 3D displays, namely, headsets and glasses, 2D monoscopic headsets and glasses, monocular headsets and glasses, and replacement parts and fittings for the aforementioned goods; computer hardware, and replacement parts and fittings for the aforementioned goods; computer software for capturing and analyzing environmental data, visualization, manipulation, virtual reality immersion and integration of geographic information in interaction with on-line member communities and other applications; software to enable users to program audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely, telephones, smart phones, mobile phones, cellular phones, computers,

handheld computers and tablet computers and software for instant messaging, sending and receiving emails and contact information, schedule sharing and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Computer software, namely operating system software for mobile devices; Computer software, namely, communication software for providing access to the Internet, computer software for activating, providing remote access to, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely, telephones, smart phones, mobile phones, cellular phones, computers, handheld computers and tablet computers, electronic mail and messaging software, computer software for instant messaging, sending and receiving emails and contact information, schedule sharing and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Virtual reality software for playing computer games and for simulation training purposes; Virtual reality software for the creation of computer generated virtual worlds, namely, playing computer games and for simulation training; virtual reality software for playing virtual reality games; Augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of creating entertaining digital visual and audio-visual content (namely, films, videos, images, TV shows, cartoons, artwork) and for playing computer games; Augmented reality software for the creation of computer generated virtual worlds for the purpose of creating entertaining digital visual and audio-visual content (namely, films, videos, images, TV shoes, cartoons, artwork) and for playing computer games; augmented reality software for playing augmented reality games; augmented reality software for developing games; global positioning system [GPS] receivers, and replacement parts and fittings for the aforementioned goods; slide projectors, and replacement parts and fittings for the aforementioned goods; computer keyboards, and replacement parts and fittings for the aforementioned goods; computer memory devices, namely, namely, RAM (random access memory) cards, blank secure digital memory cards, blank flash memory cards, computer memory expansion devices, namely, computer memory expansion cards and blank USB flash drives; computer games; computer software for creating computer games; monitors [computer hardware], and replacement parts and fittings for the aforementioned goods; electronic pocket translators, and replacement parts and fittings for the aforementioned goods; pocket calculators, and replacement parts and fittings for the aforementioned goods; computers, and replacement parts and fittings for the aforementioned goods; printers for use with computers, and replacement parts and fittings for the aforementioned goods; laptop computers, and replacement parts and fittings for the aforementioned goods; USB flash drivers; processors [central processing units], and replacement parts and fittings for the aforementioned goods; disk drivers for computers; portable telephones, and replacement parts and fittings for the aforementioned goods; walkie-talkies, and replacement parts and fittings for the aforementioned goods; personal stereos, and replacement parts and fittings for the aforementioned goods; portable digital audio and video player, and replacement parts and fittings for the aforementioned goods; carrying cases, namely, computer carrying cases, carrying cases for consumer electronic products, computer hardware, computer software, computer devices, mobile devices, handheld devices, smart phones, mobile phones, computers, and tablet computers, and replacement parts and fittings for the aforementioned goods; cell phone cases, and replacement parts and fittings for the aforementioned goods; colored cases for cell phones, mobile phones, and smart phones, and replacement parts and fittings for the aforementioned goods; Fitted protective skins for mobile phones, smart phones, and handheld electronic devices, and replacement parts and fittings for the aforementioned goods; Fitted protective colored skins for mobile phones, smart phones, and handheld electronic devices; mobile phone cases, and replacement parts and fittings for the aforementioned goods; cases for handheld devices, and replacement parts and fittings for the aforementioned goods; cases for tablets, and replacement parts and fittings for the

aforementioned goods; cases for electronic products, namely, telephones, smart phones, mobile phones, cellular phones, cellular phones, computers, handheld computers and tablet computers, and replacement parts and fittings for the aforementioned goods; colored cases for handheld electronic devices, and replacement parts and fittings for the aforementioned goods; protective cases with integrated batteries for use with computer hardware, computer software, computer devices, mobile devices, handheld devices, smart phones, mobile phones, computers, and tablet computers, and replacement parts and fittings for the aforementioned goods; protective cases with integrated memory for use with computer hardware, computer software, computer devices, mobile devices, handheld devices, smart phones, mobile phones, computers, and tablet computers, and replacement parts and fittings for the aforementioned goods; mobile devices, namely, mobile phones, and personal digital assistants, and replacement parts and fittings for the aforementioned goods; phones, and replacement parts and fittings for the aforementioned goods; mobile phones, and replacement parts and fittings for the aforementioned goods; computers, and replacement parts and fittings for the aforementioned goods; tablet computers, and replacement parts and fittings for the aforementioned goods; computer portable electronic devices, namely, wearable video display monitors, and replacement parts and fittings for the aforementioned goods; telecommunications computer hardware, and replacement parts and fittings for the aforementioned goods; Telecommunication related products, namely, computers, telephones, mobile phones, smart phones, tablets, laptops, communication satellites, radios, televisions, videophones, webcams, electronic encryption and decryption units, videoconferencing software, and replacement parts and fittings for the aforementioned goods; computer hardware for remotely accessing and transmitting data, and replacement parts and fittings for the aforementioned goods; accessories, namely, docking stations, car holders, cradles, stands, holders and in-car holders for mobile telephones, headphones, headsets, wireless handsets, battery chargers, battery covers, flash drives, SIM cards, armbands specially adapted for personal electronic devices, namely, for attaching mobile telephones and portable media players to the body, and replacement parts and fittings for the aforementioned goods; Carrying cases, namely carrying cases for laptop, notebook computer, computer, radio pagers, portable music players, mobile phones, tablets, smartphones, handheld electronic devices, and tablets, and replacement parts and fittings for the aforementioned goods; software and applications for health and fitness purposes notably for the monitoring and recording of heart rate.

Class 10

(2) Heart rate monitor; heart beat monitor.

Services

Class 38

(1) Telecommunications, namely, recording, storage, and subsequent transmission of voice and text messages by telephone, fixed and mobile telephone services, Internet telephone services; Communications services, namely, matching users for the transfer of music, video and audio recordings via communication networks; provision of information, consultancy and advisory services of all the aforesaid service, provision of on-line communications services, namely, communication by phones, Services for providing access to mobile phone communications networks for the purposes of exchanging audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events, Rental of access time to mobile phone networks, provision of access time to web-sites featuring audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events; Communications services, namely, Broadcasting of television programs, Broadcasting of video and audio programming over the Internet, Television broadcasting, Television program broadcasting, Video broadcasting

services via the Internet; transmitting services, namely, streaming of audio and video via the Internet featuring music, movies, news, radio, television, games, sports, and cultural events, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others; Online communications services, namely, providing on-line communications links which transfer the web site user to other local and global web pages; voice mail services; Providing users with access time to electronic communications networks with means of identifying, locating, grouping, distributing, and managing audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events and links to third-party computer servers, computer processors and computer users, providing local and long distance telephone services via the Internet; providing access, namely, providing access to the internet or providing access to wireless communications networks; providing access, namely, providing user access to global computer networks; providing access to websites on mobile and Internet; providing access to wireless internet via a smartphone; providing access to a global computer network; providing access to computer databases in the fields of computers, computer hardware, smart phones, communications, news, current events, cooking, sports, music concerts, videos, entertainment, namely, musical entertainment, television programs and films, games, video games, and cultural events; providing access to the internet; electronic services, namely, electronic transmission of e-mail, electronic mail, paging services [radio, telephone or other means of electronic communication], over the Internet, electronic services, namely electronic mail, operation of an electronic bulletin board in the fields of computers, computer hardware, smart phones, communications, news, current events, cooking, sports, music concerts, videos, entertainment, namely, musical entertainment, television programs and films, games, video games, and cultural events; services related to computer hardware and software, namely, rental of mobile phone, smart phones, and handheld electronic devices; communication services, namely, providing access to on-line websites, via global computer networks, to enable users to program the scheduling of audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events as they will be aired;

Class 42

(2) Providing temporary use of non-downloadable computer software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing, mobile device access, use, and operation; Non-downloadable software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Cloud based software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers,

handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Application service provider, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Application service provider (ASP), namely, hosting computer software applications of others; software as a service (SAAS) services, namely, hosting software for use by others for use in connection with mobile device operating systems; SaaS software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Platform as a service (PAAS) featuring computer software platforms for use in connection with mobile device operating systems; PaaS software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Providing information in the field of information technology, namely, technical information in the field of computer hardware and software provided on-line from a global computer network or the Internet; Online communications services, namely, providing temporary use of on-line nondownloadable cloud computing software for use in facilitating online communications, namely, emails, instant messaging, blogs, forums, chat rooms, and social networking; Software as a service provider in the field of facilitating online communications, namely, emails, instant messaging, blogs, forums, chat rooms, and social networking; Platform as a service provider in the field of facilitating online communications, namely, emails, instant messaging, blogs, forums, chat rooms, and social networking; Communications websites, namely, designing, creating, maintaining, and hosting communications websites for others; Computer software services, namely, computer software consultancy, design, development, installation and maintenance, and rental of computer software programs; Services in connection with computer hardware and software, namely, design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service, multimedia and audio-visual software consulting services, computer programming, consultation services for developing computer systems, databases and applications; services in connection with computer hardware and software, namely, designing, creating, maintaining, and hosting communications websites for others, design and development of computer hardware and software, computer hardware and software consulting service, multimedia and audio-visual software consulting services, computer programming, consultation services for developing computer systems, databases and applications; services related to communication and networking hardware and software, namely, providing on-line facilities, via global computer

network, to enable users to program the scheduling of audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events as they will be aired, and design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service; Services related to computer hardware and software, namely, design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service, multimedia and audio-visual software consulting services, computer programming, consultation services for developing computer systems, databases and applications; Computer services for hosting on-line websites, via global computer networks, to enable users to program the scheduling of audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events as they will be aired; Technical support services in the form of troubleshooting telephone, cellular phone, computer, handheld computer, computer hardware, computer software, and tablet problems; computer programming services; computer diagnostic services; computer virus protection services; computer network configuration services; Computer services, namely, creating and maintaining web-sites for others, providing search engines for obtaining data via communications networks, providing search engines for obtaining data on a global computer available on global computer networks for others, computer services, namely, searching, browsing and sites available on global computer networks for others, computer services for organizing content of information provided over a global computer network according to user preference; computer programming; advisory services in the field of computer programming; and technical advice in the field of computers; data encryption services; design and development of software and applications for health and fitness purposes notably for the monitoring and recording of heart rate; Providing information via a website in the field of communications technology; Consulting services in the field of communications technology, Advisory services in the field of telecommunication technology.

(1) Electronics, namely, mobile phones, cellular phones, feature phones, smart phones, PDAs, handheld computers, computers, tablets, tablet computers, televisions, television apparatus, high definition televisions, LCD and LED panel televisions, wearable computers, handheld computer device comprised primarily of software and display screens for viewing, sending and receiving texts, emails, voice, sound, images, graphics and video communications from smart phones, tablet computers and personal digital assistants, smartphones and accessories therefor, namely, battery chargers, car chargers, universal chargers, adapters and removable covers, portable and handheld computers, mobile computers, wearable apparatus, namely, watches, bracelets and brooches to monitor and provide feedback on physical, social and entertainment activities and interact with the foregoing devices, personal digital assistants, electronic personal organizers, electronic notepads, MP3 and digital audio players, digital audio recorders, electronic communication equipment and instruments, namely, mobile and wearable communications computers for sending and receiving of voice, graphics, sound, text, audio, image, and video files, TVs, DVD players, and replacement parts and fittings for the aforementioned goods; Electronic products, namely, car holders, hands-free headsets for mobile phones, smart controllers, namely, a wireless remote control that can be used for finding belongings, controlling a camera, and controlling a flashlight remotely, portable power supplies, namely, portable batteries for mobile phones, portable computers and audio players, capacitive pen in the nature of a stylus, electronic pen and light pens for use with electronic devices, smart phones, and tablet computers, cables and wireless adapters for connecting a smart phones to an external screen, computer, tablet, or TV, Wearable computers, Wearable mobile phones, namely, wearable digital electronic devices comprised primarily of a mobile phone, Smartphones in the shape of a watch, namely, wearable digital electronic device comprised primarily of software and display screens for viewing, sending and receiving texts, emails, voice, sound, images, graphics and video communications from smart phones, tablet computers and portable computers, and also featuring a wristwatch, wireless communication network technologies, namely, tablet computers, smartphones, smart watch phone, wireless activity trackers for displaying, measuring, and uploading to the Internet information, namely, time, date, body and heart rates, global positioning, direction, distance,

altitude, speed, steps taken, calories burned, navigational information, weather information, temperature, wind speed, and the declination of body and heart rates, handheld cases for tablets and portable electronic device for reading printed text aloud, and replacement parts and fittings for the aforementioned goods; Electronic devices, namely, handheld computers with operating systems enabling the use of software applications, wireless communication, global positioning systems (GPS) and near-field communication (NFC), and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, wireless headsets, and in-ear headsets, telephones, smartphones, cell phones, laptops, desktop computers, tablet computers, music players, headsets for use with computers and mobile phones with function of short-range transmission of digital voice, text, sound, images, graphics and video communications, smart watch phone, audio equipment, namely, audio speakers and headphones, digital cameras, players and recorders, namely, digital audio and video recorders and players, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, virtual reality products, namely, virtual reality headsets, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, virtual reality (VR) products, namely, goggles, data gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, stereoscopic 3D displays, namely, headsets and glasses, 2D monoscopic headsets and glasses, monocular headsets and glasses, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, augmented reality products, namely, augmented reality headsets, and replacement parts and fittings for the aforementioned goods; Consumer electronic products, namely, augmented reality products, namely, goggles, data gloves, 3D glasses for smartphones, headsets and head mounted displays adapted for use in watching videos and movies, headphones, head trackers, motion trackers, data gloves, 3D controllers, stereoscopic 3D displays, namely, headsets and glasses, 2D monoscopic headsets and glasses, monocular headsets and glasses, and replacement parts and fittings for the aforementioned goods; computer hardware, and replacement parts and fittings for the aforementioned goods; computer software for capturing and analyzing environmental data, visualization, manipulation, virtual reality immersion and integration of geographic information in interaction with on-line member communities and other applications; software to enable users to program audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely, telephones, smart phones, mobile phones, cellular phones, computers, handheld computers and tablet computers and software for instant messaging, sending and receiving emails and contact information, schedule sharing and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Computer software, namely operating system software for mobile devices; Computer software, namely, communication software for providing access to the Internet, computer software for activating, providing remote access to, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely, telephones, smart phones, mobile phones, cellular phones, computers, handheld computers and tablet computers, electronic mail and messaging software, computer software for instant messaging, sending and receiving emails and contact information, schedule sharing and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Virtual reality software for playing computer games and for simulation training purposes; Virtual reality software for the creation of computer generated virtual worlds, namely, playing computer games and for simulation training; virtual reality software for playing virtual reality games; Augmented reality software for use in mobile devices for integrating electronic data with real world

environments for the purpose of creating entertaining digital visual and audio-visual content (namely, films, videos, images, TV shows, cartoons, artwork) and for playing computer games; Augmented reality software for the creation of computer generated virtual worlds for the purpose of creating entertaining digital visual and audio-visual content (namely, films, videos, images, TV shows, cartoons, artwork) and for playing computer games; augmented reality software for playing augmented reality games; augmented reality software for developing games; global positioning system [GPS] receivers, and replacement parts and fittings for the aforementioned goods; slide projectors, and replacement parts and fittings for the aforementioned goods; computer keyboards, and replacement parts and fittings for the aforementioned goods; computer memory devices, namely, RAM (random access memory) cards, blank secure digital memory cards, blank flash memory cards, computer memory expansion devices, namely, computer memory expansion cards and blank USB flash drives; computer games; computer software for creating computer games; monitors [computer hardware], and replacement parts and fittings for the aforementioned goods; electronic pocket translators, and replacement parts and fittings for the aforementioned goods; pocket calculators, and replacement parts and fittings for the aforementioned goods; computers, and replacement parts and fittings for the aforementioned goods; printers for use with computers, and replacement parts and fittings for the aforementioned goods; laptop computers, and replacement parts and fittings for the aforementioned goods; USB flash drivers; processors [central processing units], and replacement parts and fittings for the aforementioned goods; disk drivers for computers; portable telephones, and replacement parts and fittings for the aforementioned goods; walkie-talkies, and replacement parts and fittings for the aforementioned goods; personal stereos, and replacement parts and fittings for the aforementioned goods; portable digital audio and video player, and replacement parts and fittings for the aforementioned goods; carrying cases, namely, computer carrying cases, carrying cases for consumer electronic products, computer hardware, computer software, computer devices, mobile devices, handheld devices, smart phones, mobile phones, computers, and tablet computers, and replacement parts and fittings for the aforementioned goods; cell phone cases, and replacement parts and fittings for the aforementioned goods; colored cases for cell phones, mobile phones, and smart phones, and replacement parts and fittings for the aforementioned goods; Fitted protective skins for mobile phones, smart phones, and handheld electronic devices, and replacement parts and fittings for the aforementioned goods; Fitted protective colored skins for mobile phones, smart phones, and handheld electronic devices; mobile phone cases, and replacement parts and fittings for the aforementioned goods; cases for handheld devices, and replacement parts and fittings for the aforementioned goods; cases for tablets, and replacement parts and fittings for the aforementioned goods; cases for electronic products, namely, telephones, smart phones, mobile phones, cellular phones, computers, handheld computers and tablet computers, and replacement parts and fittings for the aforementioned goods; colored cases for handheld electronic devices, and replacement parts and fittings for the aforementioned goods; protective cases with integrated batteries for use with computer hardware, computer software, computer devices, mobile devices, handheld devices, smart phones, mobile phones, computers, and tablet computers, and replacement parts and fittings for the aforementioned goods; protective cases with integrated memory for use with computer hardware, computer software, computer devices, mobile devices, handheld devices, smart phones, mobile phones, computers, and tablet computers, and replacement parts and fittings for the aforementioned goods; mobile devices, namely, mobile phones, and personal digital assistants, and replacement parts and fittings for the aforementioned goods; phones, and replacement parts and fittings for the aforementioned goods; mobile phones, and replacement parts and fittings for the aforementioned goods; computers, and replacement parts and fittings for the aforementioned goods; tablet computers, and replacement parts and fittings for the aforementioned goods; computer portable electronic devices, namely, wearable

video display monitors, and replacement parts and fittings for the aforementioned goods; telecommunications computer hardware, and replacement parts and fittings for the aforementioned goods; Telecommunication related products, namely, computers, telephones, mobile phones, smart phones, tablets, laptops, communication satellites, radios, televisions, videophones, webcams, electronic encryption and decryption units, videoconferencing software, and replacement parts and fittings for the aforementioned goods; computer hardware for remotely accessing and transmitting data, and replacement parts and fittings for the aforementioned goods; accessories, namely, docking stations, car holders, cradles, stands, holders and in-car holders for mobile telephones, headphones, headsets, wireless handsets, battery chargers, battery covers, flash drives, SIM cards, armbands specially adapted for personal electronic devices, namely, for attaching mobile telephones and portable media players to the body, and replacement parts and fittings for the aforementioned goods; Carrying cases, namely carrying cases for laptop, notebook computer, computer, radio pagers, portable music players, mobile phones, tablets, smartphones, handheld electronic devices, and tablets, and replacement parts and fittings for the aforementioned goods; software and applications for health and fitness purposes notably for the monitoring and recording of heart rate.

Class 10

(2) Heart rate monitor; heart beat monitor.

Services**Class 38**

(1) Telecommunications, namely, recording, storage, and subsequent transmission of voice and text messages by telephone, fixed and mobile telephone services, Internet telephone services; Communications services, namely, matching users for the transfer of music, video and audio recordings via communication networks; provision of information, consultancy and advisory services of all the aforesaid service, provision of on-line communications services, namely, communication by phones, Services for providing access to mobile phone communications networks for the purposes of exchanging audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events, Rental of access time to mobile phone networks, provision of access time to web-sites featuring audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events; Communications services, namely, Broadcasting of television programs, Broadcasting of video and audio programming over the Internet, Television broadcasting, Television program broadcasting, Video broadcasting services via the Internet; transmitting services, namely, streaming of audio and video via the Internet featuring music, movies, news, radio, television, games, sports, and cultural events, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others; Online communications services, namely, providing on-line communications links which transfer the web site user to other local and global web pages; voice mail services; Providing users with access time to electronic communications networks with means of identifying, locating, grouping, distributing, and managing audio, video, text, music, concerts, videos, radio, television, news, sports, games, and cultural events and links to third-party computer servers, computer processors and computer users, providing local and long distance telephone services via the Internet; providing access, namely, providing access to the internet or providing access to wireless communications networks; providing access, namely, providing user access to global computer networks; providing access to websites on mobile and Internet; providing access to wireless internet via a smartphone; providing access to a global computer network; providing access to computer databases in the fields of computers, computer hardware, smart phones, communications, news, current events, cooking, sports, music concerts, videos, entertainment,

namely, musical entertainment, television programs and films, games, video games, and cultural events; providing access to the internet; electronic services, namely, electronic transmission of e-mail, electronic mail, paging services [radio, telephone or other means of electronic communication], over the Internet, electronic services, namely electronic mail, operation of an electronic bulletin board in the fields of computers, computer hardware, smart phones, communications, news, current events, cooking, sports, music concerts, videos, entertainment, namely, musical entertainment, television programs and films, games, video games, and cultural events; services related to computer hardware and software, namely, rental of mobile phone, smart phones, and handheld electronic devices; communication services, namely, providing access to on-line websites, via global computer networks, to enable users to program the scheduling of audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events as they will be aired;

Class 42

(2) Providing temporary use of non-downloadable computer software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing, mobile device access, use, and operation; Non-downloadable software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Cloud based software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Application service provider, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Application service provider (ASP), namely, hosting computer software applications of others; software as a service (SAAS) services, namely, hosting software for use by others for use in connection with mobile device operating systems; SaaS software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing,

upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Platform as a service (PAAS) featuring computer software platforms for use in connection with mobile device operating systems; PaaS software, namely, software to enable users to program audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic devices and wireless devices, namely telephones, smart phones, mobile phones, cellular phones, computers, handheld computer and tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and digital file sharing; Providing information in the field of information technology, namely, technical information in the field of computer hardware and software provided on-line from a global computer network or the Internet; Online communications services, namely, providing temporary use of on-line nondownloadable cloud computing software for use in facilitating online communications, namely, emails, instant messaging, blogs, forums, chat rooms, and social networking; Software as a service provider in the field of facilitating online communications, namely, emails, instant messaging, blogs, forums, chat rooms, and social networking; Platform as a service provider in the field of facilitating online communications, namely, emails, instant messaging, blogs, forums, chat rooms, and social networking; Communications websites, namely, designing, creating, maintaining, and hosting communications websites for others; Computer software services, namely, computer software consultancy, design, development, installation and maintenance, and rental of computer software programs; Services in connection with computer hardware and software, namely, design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service, multimedia and audio-visual software consulting services, computer programming, consultation services for developing computer systems, databases and applications; services in connection with computer hardware and software, namely, designing, creating, maintaining, and hosting communications websites for others, design and development of computer hardware and software, computer hardware and software consulting service, multimedia and audio-visual software consulting services, computer programming, consultation services for developing computer systems, databases and applications; services related to communication and networking hardware and software, namely, providing on-line facilities, via global computer network, to enable users to program the scheduling of audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events as they will be aired, and design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service; Services related to computer hardware and software, namely, design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service, multimedia and audio-visual software consulting services, computer programming, consultation services for developing computer systems, databases and applications; Computer services for hosting on-line websites, via global computer networks, to enable users to program the scheduling of audio, video, text, in the field of music, concerts, videos, radio, television, news, sports, games, and cultural events as they will be aired; Technical support services in the form of troubleshooting telephone, cellular phone, computer, handheld computer, computer hardware, computer software, and tablet problems; computer programming services; computer diagnostic services; computer virus protection services; computer network configuration services; Computer

services, namely, creating and maintaining web-sites for others, providing search engines for obtaining data via communications networks, providing search engines for obtaining data on a global computer available on global computer networks for others, computer services, namely, searching, browsing and sites available on global computer networks for others, computer services for organizing content of information provided over a global computer network according to user preference; computer programming; advisory services in the field of computer programming; and technical advice in the field of computers; data encryption services; design and development of software and applications for health and fitness purposes notably for the monitoring and recording of heart rate; Providing information via a website in the field of communications technology; Consulting services in the field of communications technology, Advisory services in the field of telecommunication technology.

(1) albumin dietary supplements; alginate dietary supplements; bee pollen for use as a dietary food supplement; casein dietary supplements; dietary and nutritional supplements containing creatine and/or carnitine and/or lecithin and/or flaxseed and/or amino acids; dietary and nutritional supplements for endurance sports; dietary and nutritional supplements used for weight loss; dietary and nutritional supplements for general health and well-being; dietary fiber for use as an ingredient in the manufacture of dietary supplements; dietary food supplements consisting of protein, creatine, carnitine, vitamins, minerals, chondroitin, glucosamine and amino acids; dietary supplement beverage for sports purposes; dietary supplements in the form of drink mixes consisting of amino acids and/or protein powders; dietary supplement for eliminating toxins from the intestinal tract; dietary supplements for general health and well-being; dietary supplements for controlling cholesterol; dietary supplements in the nature of weight loss powders; dietary supplements consisting of enzymes; flaxseed dietary supplements; flaxseed oil dietary supplements; glucose dietary supplements; ground flaxseed fiber for use as a dietary supplement; khorasan wheatgrass for use as a dietary supplement; lecithin for use as a dietary supplement; linseed dietary supplements; linseed oil dietary supplements; nutritional supplement meal replacement bars for boosting energy; pollen dietary supplements; powders for use in the preparation of fruit-based dietary beverages; propolis dietary supplements; protein dietary supplements; royal jelly dietary supplements; wheat for use as a dietary supplement; wheat germ dietary supplements; wheatgrass for use as a dietary supplement; yeast dietary supplements; dietary food supplements consisting of enzymes; food supplements, namely, anti-oxidants; mineral food supplements; vitamin and mineral supplements for use as ingredients in the food industry; beverages containing chlorophyll for use as a nutritional supplement; delivery agents in the form of coatings for tablets that facilitate the delivery of nutritional supplements; fungal extracts sold as a component ingredient of nutritional supplements and vitamins; mineral nutritional supplements; nopal cactus juice for use as a nutritional supplement; nutritional supplement energy bars; nutritional supplement meal replacement protein shakes; nutritional supplements consisting primarily of vitamins and minerals; nutritional supplements in the form of nutritionally fortified soft chews for general health and well-being; nutritional supplement for eliminating toxins from the body; nutritional supplements, namely, carbohydrates in powdered form; nutritional supplements

for boosting energy; Nutritional supplement meal replacement bars for boosting energy; nutritional supplement in the nature of a nutrient-dense, protein-based drink mix; powders for use in the preparation of nutritional supplements for general health and well-being, namely energy drinks and sports beverages; soy protein for use as a nutritional supplement in various powdered and ready-to-drink beverages; vegan protein for use as a nutritional supplement in ready-to-drink beverages; liquid protein supplements; nutritional supplement in the nature of a nutrient-dense, protein-based drink mix; protein supplement shakes for weight gain purposes; protein supplement shakes; protein supplements; vegan liquid protein supplements; whey protein supplements; mixed vitamin preparations; multi-vitamin preparations; vitamin A preparations; vitamin B preparations; vitamin C preparations; vitamin D preparations; vitamin preparations; vitamins and vitamin preparations; amino acids for nutritional purposes; Whey protein supplements; vitamin preparations intended for human consumption; dietary supplements, food supplements, nutritional supplements containing protein, creatine, carnitine vitamins, minerals, chondroitin, glucosamine, and/or amino acids; nutritionally fortified foods containing protein, creatine, carnitine, vitamins, minerals, chondroitin, glucosamine and amino acids; weight management food supplements; bodyweight control nutritional supplements, food supplements, dietary supplements in powder, capsule or tablet form; muscle and weight gainer nutritional supplements, food supplements, dietary supplements in powder, capsule or tablet form; food supplements consisting of amino acids; vitamin supplements; vitamin and mineral supplements; vitamins and vitamin preparations; dietary supplements consisting of vitamins; vitamin preparations in the nature of food supplements; mineral dietary supplements for humans; mineral food supplements; carnitine dietary supplements; glucosamine dietary supplements; chondroitin preparations; chondroitin dietary supplements

Class 16

(2) paper, cardboard and goods made from these materials, namely catalogues, billboard, magazines; printed matter, namely publications in the field of fitness and health; bookbinding material; photographs; paper stationery and writing stationery; adhesives for stationery or household purposes; instructional and teaching manuals in the field of fitness and health; containers made of cardboard, paper and plastic for packaging; printers' type; printing blocks; posters; advertising posters; catalogues; promotional printed publications in the field of fitness and health; printed advertisements of paper; advertising roll up, namely, a printed advertising banner that rolls up; packaging materials, namely merchandise packaging, bags of paper, bags of plastic, for packaging; plastic bubble packs for wrapping; pouches of plastic for wrapping; wrapping materials made of cardboard; bags and articles for packaging, wrapping and storage of paper, cardboard or plastics; waterproofing film (plastic -) for wrapping; foils of plastic for wrapping

Class 18

(3) trunks and travelling bags; umbrellas and parasols; backpacks; all-purpose athletic bags; bags for sports; rucksacks; sport backpacks; gym bags and gym sacks

Class 21

(4) cups; bottles; drinking bottles for sports; drinking glasses; sugar bowls; shaker bottles for mixing protein shakes; drinking bottles; containers, dispensers for pills, capsules and vitamins; pill boxes [not for medical purposes]; personal dispensers for pills or capsules for domestic use

Class 24

(5) towels of textile; cloth towels; towel sheet

Class 25

(6) pants; jumper dresses; jerseys; sleeveless jerseys; sports jerseys; sports jerseys and breeches for sports; trousers; trousers for sports; leggings; headbands; wristbands; hats; caps; gloves;

fingerless gloves; leg warmers; belts; waist belts; t-shirts; sport shirts; sport pants; sports caps and hats; printed t-shirts; sleeveless t-shirts; tanktops; hooded tops; shorts; gym shorts; trouser shorts; sweat shorts; sweatpants; sweat shirts; baseball caps; wind jackets; spring/autumn jackets, transitional jackets

Class 28

(7) gymnastic equipment, namely, pommel horses, gymnast rings, parallel bars and balance beams; sporting equipment, namely, balls, nets and gloves; exercise equipment, namely, weights and exercise mats; elastic bands; boxing gloves; dumb-bells; machines for physical exercises, namely, elliptical trainers, rowing machines, stair-steppers, stationary bicycles and treadmills; body protectors for sports use; punching bags; stationary exercise bicycles; weight lifting belts [sports articles]; training gloves; waist stabilizing belts for sporting purposes; wristbands for sporting purposes; lifting straps, bands for sporting purposes; hand wraps for sport use; wrist grip pads for sports use

Class 29

(8) formed textured vegetable protein for use as a meat substitute; non-fat, low-carbohydrate, high-protein dairy-based mix for making non-dessert foods in the nature of shakes, milks, and yogurts; protein milk; dairy protein shakes; textured vegetable protein for use as a meat extender; non-alcoholic fruit extracts for use as ingredients of nutritional supplements and vitamins; dry whey; whey; milk and milk products, whey and other milk products; soybean lecithin for culinary purposes; flaxseed oil for culinary purposes; milk-based beverages containing protein, creatine, carnitine and/or amino acids; protein-enriched chips made of cereal

Class 30

PROPRIETARY 509 STEP PROCESS

Goods

Class 05

(1) Cannabis related products, namely oils, salves, concentrated pastes, tinctures, tablets and capsules, each containing cannabis for medicinal purposes for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; oils, salves, concentrated pastes, tinctures, tablets and capsules each containing resins and oils derived from cannabis for medicinal purposes for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; nutraceuticals for medicinal purposes for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; nutraceuticals for medicinal purposes containing cannabis for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for

relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; nutraceuticals for medicinal purposes containing derivatives of cannabis, namely resins and oils for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; topical skin creams, bar and liquid soaps, bath additives, bath herbs, bath oils, body creams, body oils, face and body lotions, face and body milk, face lotion, and skin care preparations each containing derivatives of cannabis, for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; transdermal patches containing cannabis for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; oral sprays containing cannabis for medicinal use for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; cannabis and marijuana for medicinal purposes for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and wellbeing, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; cannabis related product, namely, oils for medicinal use for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and wellbeing, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy; oils derived from cannabis for medicinal use for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy

Class 29

(2) Oils and resins derived from cannabis for use as comestibles; cannabis related product, namely, oils for use as comestibles; oils derived from cannabis for use as comestibles; food products containing cannabis, cannabis resins and cannabis oils, namely butter

Class 30

(3) Food products containing cannabis, cannabis resins and cannabis oils, namely chocolates, cookies, brownies, candy and food energy bars; tea; cannabis related products, namely teas containing cannabis, and teas containing derivatives of cannabis namely resins and oils

Class 31

(4) Live cannabis plants; live marijuana plants; cannabis seeds for agricultural purposes

Class 32

(5) Smoothies, fruit beverages and fruit juices, carbonated soft drinks, and energy drinks each containing derivatives of cannabis; smoothies, fruit beverages and fruit juices, carbonated soft drinks, and energy drinks each containing resins and oils derived from cannabis

Class 34

(6) Dried marijuana, dried cannabis; derivatives of cannabis, namely resins and oils, for oral vaporizers for smoking

Services

Class 35

(1) Retail sale and wholesale of, and distributorships in the field of marijuana and cannabis, cannabis related products and cannabis extracts, namely hashish and cannabis resins, cannabis seeds and cannabis plants; online retail sale of dried marijuana and cannabis for smoking, for ingestion and for recreational consumption; online retail sale of marijuana and cannabis for the relief of pain, for relaxation, for reducing stress and fatigue, for mood enhancement, for maintaining general health and well-being, for relieving anxiety, for relieving depression, as a sleep aid and for management of opioid addiction and relief of epilepsy

Class 39

(2) Providing the packaging of marijuana and cannabis, cannabis related products, derivatives of cannabis and natural health products containing cannabis

Class 40

(3) Production of marijuana and cannabis to the order and specification of others

Class 44

(4) Providing the breeding, growing, cultivation, and harvesting of marijuana and cannabis

Foreign Character Translation

The translation provided by the applicant of the Chinese characters is as follows: The first character can be translated as Love, the second character can be translated as Rare or Strange, the third character can be translated as Art. The combination of the three Chinese characters is invented and the mark itself has no fixed or dictionary meaning.

Foreign Character Transliteration

The transliteration provided by the applicant of the first Chinese character is Ai, the second is Qi, and the third is Yi."

Goods

Class 09

Computer peripheral devices, namely, keyboards, blank USB keys, mice, computer screens, computer printers, computer scanners, blank computer disks, memory boards, charging docks, microprocessors, sensor boards, computer stylus, magnetic pens, electronic pens, electrostatic pens; Multimedia Computer software, recorded on CD-ROM featuring online videos in the area of movies, television series, variety shows and cartoons; Multimedia Computer software, recorded on CD-ROM featuring entertainment programs in the fields of comedy, fiction, mystery, drama, action, family, variety, business, science, technology, military, news, music, fashion, education, automotive, games shows, health, adventure, documentaries, literature, and cartoons; computer game software; downloadable image files, containing video clips, digital photographs, excerpts from movies, television series, variety shows, cartoons and computer games; downloadable mobile phone application software, namely, software for use in data and image storage and for playing movies, television series, variety shows, cartoons and computer games; downloadable

electronic publications in the nature of magazines, books, and articles in the field comedy, fiction, mystery, drama, action, family, variety, business, science, technology, military, news, music, fashion, education, automotive, games shows, health, adventure, documentaries, literature, and cartoons; network communication devices, namely, computer hardware for communicating audio clips and video clips between computers via a global computer network, wide-area computer networks, and peer-to-peer computer networks; audio and video receivers; satellite TV signal convertors; camcorders; photography cameras; televisions and video projectors; animated cartoons recorded on video disks and video tapes; virtual reality headsets

Services

Class 35

(1) Advertising the goods and services of others via the Internet; rental of advertising space; commercial information agencies, in relation to tax information, television schedule information, movie programming information; organizing commercial or advertising exhibitions for movie programming, television series, variety shows; import-export agencies; personnel management consultancy; relocation services for businesses; operation of a computer database containing television and movie programming; accounting; sponsorship services, namely locating and introducing financial sponsors and donors to others for the benefit of others in the field of movies, television series, variety shows, cartoons; provision of an on-line marketplace for buyers and sellers of goods and services; updating and maintenance of data in computer databases; search engine optimization for sales promotion; updating and maintenance of information in registries

Class 38

(2) Television broadcasting; electronic messaging, namely, voice, video, text and audio messaging services; communications by computer terminals, namely, voice messages, video clips, digital photographs, text and audio clips; electronic mail; satellite transmission of video clips, digital photographs, text and audio clips; providing telecommunications access to a global computer network, namely, access to films and television programmes provided via a video-on-demand service; telecommunication services, namely, personal telecommunication services, namely, providing e-mail notification alerts via the internet; telephone services; providing on-line electronic bulletin boards in the field of movie and television programming; video on demand transmission; providing access to a website about entertainment, namely, a website featuring videos in the field of movies, television series, variety shows, cartoons; teleconferencing services.

Class 41

(3) Educational services, namely, conducting classes, seminars, conferences, workshops, field trips in the field of entertainment programs, namely movies, television series, variety shows and cartoons; organization of competitions, education or entertainment, namely, organizing football competitions, tennis competitions, soccer competitions, and basketball competitions, organizing fashion exhibitions for educational and entertainment purposes; bookmobile services; non-downloadable online electronic publications in the nature of magazines, books, and written articles in the field of providing video clips on a website; distribution of video cassettes; television entertainment, namely, ongoing television programs in the field of news, comedy shows, drama, variety shows, reality television shows; online gaming services provided on a computer network, namely, providing on-line computer games; entertainment, namely, live dance performances; health club services and fitness training; modelling for artists; provide movies via video on demand, not downloadable; provide television program via video on demand, not downloadable

Class 42

(4) Research and development for others in the field of television and movie programming; providing quality control for television and movie programming; industrial design; design of interior décor; dress designing; computer software design; providing search engines for the internet; consultancy in the design and development of computer hardware; conversion of data or documents from physical to electronic media; authenticating works of art; cloud computing featuring software for use in database management and for word processing

Goods

Class 03

(1) Abrasive and polishing preparations, namely abrasive and polishing compounds, abrasive and polishing liquids, abrasive and polishing pastes, abrasive and polishing pads, all the aforesaid goods for grinding, sanding, polishing, cleaning and finishing wood, plastic, metal, glass, painted and lacquered surfaces, and composites of the foregoing materials; non-woven and flexible abrasive materials in the form of films, cloth, sheets, strips, rolls, pads, wheels, discs and belts for use in grinding, sanding, polishing, cleaning and finishing wood, plastic, metal, glass, painted and lacquered surfaces, and composites of the foregoing materials; abrasives, namely abrasive nets, abrasive films, abrasive cloth, abrasive wheels, abrasive discs, abrasive paper, abrasive belts, abrasive sheets, abrasive strips, abrasive rolls, all the aforesaid goods for grinding, sanding, polishing, cleaning and finishing wood, plastic, metal, painted and lacquered surfaces, and composites of the foregoing materials

Class 07

(2) Machines and machine tools for abrasive and polishing purposes, namely, power-operated sanders, power-operated grinders, power-operated polishers, dust extractors, power-operated grinding tools for grinding machines, grinding wheels for power-operated grinding machines and sanding machines, and machine tools for use in abrasive and polishing processes in the automotive, wood, wood processing, furniture, glass, metal, metal processing, construction, marine and composites industries

Class 08

(3) Hand tools; hand tool implements, namely hand operated sanders, grinding wheels and paint scrapers; hand-operated abrading instruments; Grindstones [hand tools]; abrasive discs being parts of hand tools; abrasive wheels for use with hand tools; hand operated polishing tools used for polishing, cleaning and finishing wood, plastic, metal, glass, painted and lacquered surfaces, and composites of the foregoing materials; polishing discs being parts of hand-operated tools used for polishing, cleaning and finishing wood, plastic, metal, glass, painted and lacquered surfaces, and composites of the foregoing materials

Class 09

(4) Data processing equipment, namely computer central processing units; computers; computer hardware; computer software for use in connecting people, services and devices to the Internet, namely, for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; computer software, recorded for use in connecting people, services and machines to the Internet, namely, for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; downloadable computer software applications, for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; mobile application software, downloadable, for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; hardware and software for providing wireless connectivity for the internet of things (IoT) in the field of surface finishing industry; Computer software for providing wireless connectivity for the remote operation and control of machines and collecting operating information concerning voltage, electrical current, electric power, operating history, total energy consumption, rotation speed, engine temperature measurement, phase imbalance concerning the operation of motors, machine vibration and faulty state information using internet of things (IoT) technology in the field of surface finishing industry; computer software platforms for developing, integrating and managing the remote operation and control of machines and collecting operating information concerning voltage, electrical current, electric power, operating history, total energy consumption, rotation speed, engine temperature measurement, phase imbalance concerning the operation of motors, machine vibration and faulty state information using Internet of Things (IoT) technology in the field of surface finishing industry; computer software for analyzing and processing data in the field of surface finishing industry; computer software for database management; computer application software for cloud computing services providing access to electronically transmitted measuring and control data in the field of surface finishing industry over computer networks; computer software applications for use with mobile devices for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; downloadable mobile application software to enable exchanging and collecting operating information concerning voltage, electrical current, electric power, operating history, total energy consumption, rotation speed, engine temperature measurement, phase imbalance concerning the operation of motors, machine vibration and faulty state information through wireless communication between electric abrasion machines and mobile devices; computer software and telecommunications apparatus, namely radio transmitters and radio receivers to enable connection to databases and the Internet; wireless communication apparatus, namely satellite transmitters, optical transmitters, radar transmitters, radio transmitters, video transmitters and audio receivers, radio receivers, radar receivers, audiovisual receivers, and satellite receivers; data communications receivers, namely, audio receivers radar receivers, telephone receivers, television receivers, video receivers, satellite receivers, computer network receivers; remote monitoring apparatus, namely computer network hardware and software for monitoring and alerting remote thermal, humidity, speed, vibration, velocity, motion and timing sensors status via the Internet in the field of surface finishing industry; sensors and detectors, namely sensors for measuring size namely LED position sensors, proximity sensors, thermal sensors, laser displacement sensors, electromagnetic measuring detectors; sensors and detectors, namely sensors for measuring distance; sensors and detectors, namely sensors for measuring chemical properties namely infrared sensors, chemical sensors; motion sensors; thermal sensors; timing sensors; velocity sensors; speed indicators, namely acceleration sensors, sensors for determining velocity, laser speed detectors, speed gauges, and tachometers; vibration sensors; wireless controllers to remotely monitor and control the function and status of electrical,

electronic, and mechanical machines and machine systems in the field of surface finishing industry; electronic databases in the field of surface finishing industry; telecommunications networks consisting of satellite transmitters and, radio transmitters to enable the exchange of electronic measurement data through wide area networks and local area networks; computer networks comprising computer operating software, computers and computer peripheral devices, namely computer display monitors, computer mouse, computer keyboards, computer printers, computer speakers, microphones, computer scanners, bar code readers, digital cameras and web cameras; data terminals, namely computer terminals, smart terminals and interactive touch screens; computer interface boards; computer network servers; data exchange units, namely electric data exchange units consisting of a reception buffer, a transmission buffer, a reception filter, a transmission filter and a packet processor, and central processing unit for the computer-to-computer exchange of follow-up and tracking of electronic measurement data in a standard electronic format in the field of surface finishing; data storage devices, namely USB flash drives, blank smart cards and labels with integrated radio frequency identification [RFID] chips

Services

Class 42

Scientific and technological services and research and design relating thereto, namely scientific research and design of new products for others in the field of surface finishing industry; Industrial analysis and research services in the field of cloud computing, machine-to-machine cloud computing technology, embedded cloud computing systems comprising integrated software as part of the embedded hardware system, and the cloud computing using Internet of Things (IoT) technology; Design and development of computer hardware and software; computer system design; database design and development; product development services and project management services in relation to Internet of things (IoT); installation of computer software; maintenance of computer software; computer programming; computer systems integration services; monitoring of computer systems by remote access; software as a service (SaaS), featuring software for connecting people, services and devices to the Internet namely for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines for use in the field of surface finishing industry; software as a service (SaaS) featuring computer software for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; platform as a services (PaaS) featuring computer software platforms for use in database management; platform as a services (PaaS), featuring computer software platforms featuring software for connecting people, services and devices to the Internet namely for transmitting electrical measurement data for quality control of abrasive articles and electric grinding and abrasion machines in the field of surface finishing industry; Backend as a service (BaaS), namely providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data and for use in remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; electronic data storage in the field of surface finishing industry; electronic computer network storage provider services for the general storage of data used in the field of surface finishing industry; electronic data back-up services in the field of surface finishing industry; cloud computing web hosting services; cloud computing featuring software for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics; rental of web servers; technological consultancy and engineering services in the fields of cloud computing, machine-to-machine technology, embedded systems comprising integrated software as part of the embedded hardware system, and the Internet of Things (IoT); Information technology [IT] consultancy in the field of computer technology and programming for

the surface finishing industry; providing computer software capable of being accessed online via global computer information networks or from a website on the internet for remotely monitoring and controlling the function of electric abrasion machines and for creating and displaying follow-up and tracking reports and graphics
