Trademarks Journal

Vol. 67 No. 3416

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 06

(1) common metals and alloys thereof; building materials of metal, namely beams of metal, building panels of metal, ceilings of metal, doors of metal, soffits, awnings of metal, fascia, floorboards; transportable buildings of metal, namely railway material of metal, metal for railway tracks, railroad ties of metal; cables and wires of metal [not for electric purposes], namely cable clamps of metal, cable junction sleeves of metal, wire of common metal, soldering wire of metal; locksmith's products and ironmongery, namely key blanks, metal bump keys for locksmithing, lock bolts of metal, screws, bolts, screwnuts, nails; metallic tubes, namely branching tubes of metal for pipelines, ground tubes of metal, safe boxes, namely safes; ores; storage containers, namely containers of metal for transport packaging, containers of metal, containers of metal for the storage of tools, namely, tool boxes, tool cases, tool chests, sold empty, tool and assortment boxes, namely tool boxes of metal, tool and assortment cases namely tool cases of metal, tool cartridges, namely chisel holder, holder for pliers, socket holder, holder for screwdrivers, drill-bit holder, tool handles, binding screws of metal

Class 07

(2) machines and machine tools, namely grinding machines for metalworking and grinding tools for grinding machines, screwing machines and screwing tools for screwing machines, milling machines and milling tools for milling machines, drilling machines for metal working, wood working, synthetic material working and drilling tools for drilling machines, cutting machines for metal working, wood working, synthetic material working and tools for cutting machines; motors [other than for land vehicles], namely airplane motors, boat motors, electric motors for machine tools, clutches and transmission components [except for land vehicles], namely clutches for industrial machinery, bearings for transmission shafts for machine tools, transmission belts for machines and machine tools, transmission gears for industrial machinery and machine tools; cutter modules,

namely gear cutters for use as a machine tool, milling cutters for milling machines; motorized hand tools, namely hand-held electric drills, power saws, power milling machines; electric screwdrivers; screwdriver bits for electric screwdrivers; power-operated turnscrews; hammers, namely air hammers, electric hammers, power hammers; pneumatic ratchet wrenches; adapters for machine tools, namely socket adapters for wrenches; tool bits for metal working machines; blades and knives for electrical tools, namely for electrical knives; electrical saws, grinding machines; hydraulically driven tools, namely hydraulic hammers, hydraulic excavators, hydraulic cylinders, hydraulic tube bending machines, hydraulic pliers; pumps, namely hydraulic pumps, circulating pumps, axial flow pumps, silt pumps; saws, namely circular saws, chain saws, wire brushes for machines; milling machines

Class 08

(3) hand tools and hand-operated implements, namely hand held cutting tools, hand-operating sharpening tools and instruments, screwdrivers, nail lifters, striking tools, namely mallets, hatchets; calibrating tools for pipes, fitting tools namely wrenches; bending pliers, bolt cutters, cable shears, crimping pliers, grip wrenches, pipe wrenches, ratchet wrenches, pincers, circlip pliers, chisels, spanners, torque wrenches, socket wrenches, tommy bars, bit adaptors for hand tools, bit holders for hand tools, water pump pliers, locking pliers, vices, pulling-off devices as hand-tools, cutlery, forks and spoons; side arms, namely hunting knives; razors; hammers, namely hand operated hammers, stone hammers, mason's hammers, bricklayer's hammers, carpenter's hammers, recoilless hammers, safety hammers, scaling hammers, wooden hammers, copper hammers, lead hammers, club hammers and sledgehammers, screwdrivers; screwdriver bits for handoperated screwdrivers; manually operated torque wrenches; manually operated ratchets; tool holders, namely tool aprons, tool belts; wrenches; wrench sockets; tongs, namely blacksmith's tongs; hand-operated ratchets; ratchet levers; tommy bars; ratchet wrenches; squares; namely square drives, cutting tools, namely cutting pliers, metal cutting saws, wire cutters; stripping knives; stripping tongs; manually operated precision tools, namely glass cutters, miter cutters; bolt cutters; scrapers, namely ice scrapers, paint scrapers; crowbars; saws, namely hand saws, jig saws; hacksaws; tweezers; wire brushes; spatulas, namely spatulas for removing layers of wallpapers, paints, and for planing of surfaces; screw clamps, namely locking pliers, grip wrenches, work bench clamps; manually operated milling machines; socket wrenches

Class 18

(4) tool bags for hand tools; tool bags for fastening at tool belts

Class 07

(1) electric power generators for vehicles

Class 09

(2) electric and electronic apparatus, for vehicles and belt conveyors, namely, safety and warning blinker units, daylight control switches, three-phase pulse-controlled electric power converters, speed sensors, rotation speed monitors, electronic multifunction relays, electronic drive/brake control circuits, limit switches, drive/brake controllers, DC transformers, DC converters, load sensors, emergency brake switches, electric switching elements for reversing driving direction, electric switches, pull rope emergency stop switches, electronic signal transmitters, current pulse relays, key switches, dead-man's switches, current collectors, converters and transducers for on-board power systems, belt misalignment switches for belt conveyors, belt misalignment switches for bucket elevators; housings for electric apparatus, namely casings for electrical equipment, namely, casings for safety and warning blinker units, daylight control switches, three-phase pulse-controlled electric power converters, speed sensors, rotation speed monitors, electronic multifunction relays, electronic drive/brake control circuits, limit switches, drive/brake controllers, DC transformers, DC converters, load sensors, emergency brake switches, electric switching elements for reversing driving direction, electric switches, pull rope emergency stop switches, electronic signal transmitters, current pulse relays, key switches, dead-man's switches, current collectors, converters and transducers for on-board power systems, belt misalignment switches for belt conveyors, belt misalignment switches for bucket elevators; electric converters; apparatus for

accumulating electricity, namely electric accumulators; electric alarm bells, namely, electronic warning bells; electric signaling bells, namely, electric signal bells; luminous and mechanical electric signaling control panels; electric navigation apparatus for vehicles in the form of on-board computers; electric contact elements of current collectors, in particular sliding contacts and rolling contacts; data processing apparatus namely external disc arrays, routers, electronic display units and data terminals for land vehicles, namely, external blank hard discs and blank laser discs, network routers, computer display screens and computer terminals for land vehicles; computers; computer programs and software, for control and routing of land vehicles, namely, computer software for use in land vehicles for controlling and routing of land vehicles; computer peripheral devices namely computers, computer printers, computer visual display units and digitizers; electrical controlling devices, namely, apparatus and instruments for vehicles for conducting, switching, transforming, accumulating, regulating, measuring and controlling electricity, in particular for vehicles, namely, electric accumulators for vehicles, electric control panels for vehicles, electrical control systems for lighting systems for vehicles, electrical controllers for diesel engines of vehicles, electric switch plates for vehicles, electrical relays and transformers for vehicles, electrical conductors for transformers for vehicles, voltage and current regulators for electric power for vehicles; electronic apparatus and electronic instruments for electric and electronic control, communication, remote control, input, display, recording, view, surveillance, test, measurement, monitoring and diagnostic apparatus, of vehicles, technical devices and technical installations, namely, acceleration sensors for vehicles, distance sensors for vehicles, infrared sensors for vehicles, motion sensors for vehicles, oil level sensors for vehicles, optical sensors for vehicles, velocity sensors for vehicles, temperature sensors for vehicles, computer display monitors for vehicles, computer display screens for vehicles, computer touch screens for vehicles, touch screens for vehicles, interactive touch screen terminals for vehicles, video surveillance cameras for vehicles, firmware for remote monitoring of hardware for vehicles, communications computers for vehicles, microphones for communication devices for vehicles; devices for recording, transmission and reproduction of sound, images or data, namely, digital recorders, namely, car video recorders, digital audio tape recorders; electronic testing apparatus for industrial conveyor systems, not for medical purposes, namely, electrotechnical vibration meters, frequency meters, noise level meters, pulse meters, water meters, probes for testing integrated circuits, test adapters for testing printed circuit, for industrial conveyors, not for medical purposes; connections for electric lines; car antennas; automotive batteries; lightning conductors; chemistry apparatus and instruments namely laboratory mixers, optical sensors, dosage dispensers, laboratory chemical reactors, laboratory scales and balances; electric display devices, namely computer monitors and video projectors; diagnostic apparatus in the nature of electronic monitors and sensors for conveyor systems, namely, acceleration sensors for conveyors, distance sensors for conveyors, infrared sensors for conveyors, motion sensors for conveyors, oil level sensors for conveyors, optical sensors for conveyors, velocity sensors for conveyors, temperature sensors for conveyors, computer display monitors for conveyors; choking coils for use in electronic apparatus impedance; electric power connectors; electric coils; electric transformers; electric resistors; electric wires; electric cables; electric capacitors; electromagnetic coils; electronic publications downloadable in the field of instruction and user manuals; speed checking apparatus for vehicles, namely speedometers; high-frequency apparatus being switches, namely, high frequency power switches, high frequency pressure switches; electric cable channel conduit; wire connectors for electricity; sheaths for electric cables; electric current collector; materials for electric lines being wires and cables; material testing instruments and machines, namely, apparatus for testing components of vehicle steering systems, namely, test adapters for testing steering wheels, drive gears of land vehicle; measuring apparatus being voltmeters; oscillographs; life saving apparatus and equipment in the nature of emergency stop systems for industrial equipment,

namely, emergency stop switches for industrial conveyors; electric switches; electric apparatus for commutation in the nature of electric contacts, namely, commutation sensors, inverters for power supply, electrical converters, electronic servo motor controllers, and electronic speed controllers; electricity distribution consoles; electricity control panels; solar collectors for electricity generation; solar modules for electricity generation; probes for testing semiconductors for scientific purposes; voltmeters; voltage transformers; voltage regulators for vehicles; current rectifiers; electricity conduits; circuit closers; circuit breakers; electric loss indicators; electric converters; inverters for power supply; voltage surge protectors; electronic monitors for electric current and electrical signals; junction sleeves for electric cables; electric connectors; accessories for electric and electro-mechanical emergency stop systems, namely, pull ropes, tension springs, turnbuckles, rope clamps, pulleys, and rope support eyebolts; electric switches, namely, hand-operated emergency brake switches for vehicles; illuminated exit signs for vehicles and parts of illuminated exit signs for vehicles

Class 11

(3) heaters for vehicles and parts therefor, ventilators; air conditioning and illumination devices, in particular for vehicles, namely, air conditioning installations for vehicles, infrared illuminators for vehicles, and parts and accessories of aforementioned goods, namely, parts of air conditioning installations for vehicles, infrared illuminators for vehicles

Class 12

(4) land vehicles, in particular rail vehicles and buses, parts for rail vehicles and buses; braking installations namely brake systems for land vehicles; operating devices for land vehicles, namely, window winding mechanisms, gear shift levers, gear shifts; brake levers; foot pedals for vehicles; crankcases for land vehicle components, other than for engines; motors, electric, for vehicles, namely, electric motors for motor cars; hybrid drives for vehicles; direction signals for vehicles; horns for vehicles, parts and accessories for aforementioned goods

Services

Class 37

(1) installation, modernization, servicing, maintenance and repair of electric and electronic devices, in particular in vehicles; modernization, servicing, maintenance and repair of vehicles; servicing, modernization, maintenance, installation and repair of technical apparatus and plants, in particular of air conditioning installations and air conditioners for vehicles

Class 40

(2) assembly of electric and electronic devices for vehicles for others; assembly of vehicles for others; assembly of air conditioning installations and air conditioners for vehicles for others

Class 41

(3) training services in the fields of mass transit services for the general public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering thereof; arranging and conducting of seminars, workshops, and training sessions in the fields of mass transit services for the general public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering thereof; arranging and conducting of education colloquiums and expert conferences in the fields of mass transit services for the general public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering; arranging of educational symposia in relation to expert panels and standardization committees in the fields of mass transit services for the general

public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering thereof; arranging and conducting of conferences and educational congresses in the fields of mass transit services for the general public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering thereof; educational services in the nature of correspondence course schools, namely, providing correspondence courses featuring training in the fields of mass transit services for the general public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering thereof; publication of printed and electronic matter, namely, publication of textbooks and instruction manuals in the fields of mass transit services for the general public through buses, subway trains, streetcars and commuter trains, supply chain management, plant construction for power plants, open cast mining, and conveyor systems and engineering thereof; publication of magazines and books in electronic form
