### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Telecommunications and information technology services, namely, providing multiple user access to a global computer network, which network provides transmission of audio files, video files, voice recordings and voice messages, text messages, graphics, photos, movies and images by wireless communication networks, the Internet, fiber-optics communications networks and wireless networks; telecommunications services, namely, mobile telephone services to other telecommunication service providers to facilitate telecommunication services, namely, secure transmission of calendar information, audio, video, voice recordings and messages, text messages, graphics and visual images, audio recordings and messages by wireless

communication networks, the Internet, fiber-optics communications networks and wireless networks; information transmission services, for others, via digital computer networks, namely, transmission of calendar information, audio files, namely, music, podcasts, audio books, audio recordings, sportscasts, and newscasts, voice messages, video files, namely, movies, television shows, music videos, video recordings, news and sports webcasts, and voice messages, text messages, graphics and visual image files, namely, pictures and digital images, games, ringtones, animations, pictures and music files to be read, listened to or used on mobile cellular devices by means of mobile telecommunications networks; broadcasting and transmission of radio and television programs, transmission of periodicals and news articles via mobile phones, instant electronic messaging services via mobile phones, electronic transmission of streamed and downloadable music, podcasts, audio books, audio recordings, sportscasts, and newscasts, voice messages, music videos, movies, television shows, video recordings, news and sports webcasts via computer and wireless networks, web casting services, namely, webcasting of news shows, delivery of text messages by electronic transmission, namely, wireless networks, streaming of movies and music, streaming and subscription audio broadcasting of spoken word, music, concerts, and radio programs, broadcasting prerecorded videos featuring music and television programs, motion pictures, news, sports, games, cultural events, and via computer and wireless networks, providing online bulletin boards for the transmission of messages among computer users concerning entertainment in the nature of music, concerts, music videos, movies, television shows, video recordings, news and sports webcasts, radio broadcasts, television, film, news, sports, games and cultural events; telecommunications services, namely, telecommunication consultation in the field of wireless computer networks, personal communication services; communications services, namely, matching users for the transfer of music, music videos, television shows, video recordings, news and sports webcasts, and movies via communication networks; provision of information, consultancy and advisory services of all the aforesaid services; provision of online communications services, namely, communication by phones, services for providing access via mobile phone communications networks to text messages, graphics, video recordings, audio recordings, voice messages, music videos, movies, television shows, news broadcasts, podcasts, audio books, games, ringtones, animations, pictures and music files; provision of online communications services, namely, rental of access time to mobile phone networks, provision of access time to web-sites featuring multimedia materials, namely, music, music videos, video recordings, podcasts, movies, television shows and news broadcasts; communications services, namely, broadcasting of television programs, broadcasting of music videos, video recordings, podcasts and movies over the Internet, television broadcasting, television program broadcasting, music video broadcasting services via the Internet; transmitting services, namely, transmitting streamed music videos, video recordings, podcasts, news and sports webcasts, movies and television shows via the Internet, transmitting services, namely, transmitting e-mails, faxes, text messages and telephone voice messages to designated recipients for others via the Internet; online communications services, namely, providing online communications links which transfer the website user to other local and global web pages; transmitting services, namely, satellite transmission of electronic mail, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, videoondemand transmission, and computer aided transmission, for others, of video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, and text messages, graphics and visual image files, namely, pictures and digital images; transmission services, for others, namely, transfer of calendar information, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images by telecommunication wireless networks, transmission for

others of calendar information, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images, and graphics by means of broadband optical or wireless networks; transmission of calendar information, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images, graphics, by means of telecommunications wireless networks, wireless communication networks, and the Internet; telecommunications, namely, the wireless transmission of calendar information, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images; voice mail services; providing users with access time to electronic communications networks via the Internet with means of identifying, locating, grouping, distributing, and managing user information, namely, calendar information, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images, and links to third-party computer servers, computer processors and computer users, communication services, namely, transmission of video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, visual image files, namely, pictures and digital images, calendar information, text messages and graphics by telecommunications wireless networks, wireless communication networks, the Internet; electronic services, for others, namely, providing electronic transmission of calendar information, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images, over the Internet; electronic services, namely, electronic transmission of e-mail; wireless broadcasting and satellite broadcasting of movies, podcasts, news and sports webcasts, radio and television; broadcasting, namely, broadcasting of music videos, podcasts, and video recordings, broadcasting of movies, radio broadcasting, television broadcasting; mobile communication, namely, mobile telephone communication and broadcasting of radio programs on mobile devices; Instant electronic messaging services via mobile phones; telecommunications services, for others, namely, electronic and satellite transmission of GPS navigation, text messages, emails, software application user notification alerts, social media status updates, visual image files, namely, pictures and digital images, voice messages, music files, video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, location information and paging information; technical consulting services in the field of telecommunications; Advisory services in the field of wireless telecommunications networks; Providing access to information services networks and data networks, namely, global computer networks and online digital information databases comprised of video recordings, voice messages, audio recordings, music videos, movies, television shows, news broadcasts, podcasts, audio books, text messages, graphics and visual image files, namely, pictures and digital images, providing local and long-distance telephone services via the Internet; Providing access, namely, providing access to the Internet and providing access to wireless communications networks

#### **Class 41**

(2) Providing educational information in the field of telecommunications and telecommunications hardware via a website; providing educational information in the field of telecommunications and telecommunications hardware and devices

#### **Class 42**

(3) Providing temporary use of non-downloadable computer software, namely, software to enable users to play, record and save audio files, video files, text messages and other multimedia content, namely, music, concerts, videos, radio, television, news, sports, games, cultural events, software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning mobile phones, cellular phones, feature phones, smart phones, PDAs, handheld computers, computers, tablets, tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and sharing of user-generated content; cloud computing providing software, namely, software to enable users to play, record and save audio files, video files, text messages and other multimedia content, namely, music, concerts, videos, radio, television, news, sports, games, cultural events, and software for providing access to the Internet, software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning mobile phones, cellular phones, feature phones, smart phones, PDAs, handheld computers, computers, tablets, tablet computers, electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and sharing of user-generated content; application service provider (ASP), namely, providing software to enable users to play, record and save, audio files, video files, text messages and other multimedia content, namely, music, concerts, videos, radio, television, news, sports, games, cultural events, providing software for providing access to the Internet, providing software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic computer devices and wireless computer devices, providing electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and sharing of user-generated content; application service provider (ASP), namely, hosting computer software applications of others; software as a service (SAAS) services, namely, hosting software for use by others for use in the field of mobile device operating systems; SAAS software, namely, software to enable users to play, record and save, audio files, video files, text messages and other multimedia content, namely, music, concerts, videos, radio, television, news, sports, games, cultural events, software for providing access to the Internet; Cloud computing services, namely, providing software for activating, configuring, supporting, managing, updating, repairing, upgrading of, and provisioning electronic computer devices and wireless computer devices, providing electronic mail and messaging software, and software for instant messaging, sending and receiving emails and contact information, schedule sharing and sharing of user-generated content; platform as a service (PAAS) featuring computer software platforms for use in the field of mobile device operating systems; PAAS software, namely, software to enable users to play, record and save, audio files, video files, text messages and other multimedia content, namely, music, concerts, videos, radio, television, news, sports, games, cultural events, software for providing access to the Internet; providing information in the field of information technology, namely, technical information in the field of computer hardware and software provided online from a global computer network or the Internet; services in the field of computer hardware and software, namely, the design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service, multimedia and audio-visual software consulting services, computer programming, technical support and consultation services for developing computer systems, databases and computer software applications; services in the field of computer hardware and software, namely, design and development of smart phones, mobile phones, and cell phones and software for smart phones, mobile phones, and cell phones, smart phones, mobile phones, and cell phones consulting service, multimedia and audio-visual software consulting services, computer programming, technical support and consultation services for developing computer systems,

databases and applications; designing, creating, maintaining, and hosting communications websites for others; technical support services in the field of computer hardware, software, mobile phones, tablets, and consumer electronics; computer programming services; computer diagnostic services; computer virus protection services; computer network configuration services; computer services, namely, creating and maintaining websites for others, providing search engines for obtaining calendar information, audio, video and voice recordings and messages, text messages, graphics and visual images via communications networks, providing search engines for obtaining calendar information, audio, video and voice recordings and messages, text messages, graphics and visual images on a global computer available on global computer networks for others; computer services in the field of searching, browsing and retrieving of information from third party websites for marketing and consumer research purposes for others; data encryption services; design and development of software and computer software applications for health and fitness purposes notably for the monitoring and recording of heart rate; development and design of virtual reality software; design and development of computers and mobile phones, electronic mobile digital telecommunication devices, namely, mobile phones, cellular phones, feature phones, smart phones, PDAs, handheld computers, computers, tablets, tablet computers, personal digital assistants, and wearable computer peripherals; design and development of computer game software and virtual reality game software; development and design of virtual reality hardware and peripheral products, namely, goggles, electronic gloves, and computer peripheral products; rental of computers, handheld computers and tablet computers; design of software, development of computer software application solutions, updating of software, maintenance of software; monitoring services in the field of telecommunications networks, namely, providing temporary use of non-downloadable cloud-based software for monitoring wireless telecommunications networks for user connectivity and technical issues; computer monitoring services which track monitoring technological functions of computer network systems; monitoring wireless telecommunications networks for security, performance and availability; consulting services in the field of information technology, namely, wireless telecommunication networks and hardware and software development; advisory services in the field of information technology, namely, wireless telecommunication and hardware and software development; Advisory services in the field of hardware and software development for use in wireless telecommunications networks; Online communications services, namely, providing temporary use of online non-downloadable software for use in facilitating online communications, namely, voice chat, voice message and text message services, via wireless computer networks and the Internet; Designing, creating, maintaining, and hosting websites for others; Providing online facilities computer software program, via global computer network, to enable users to program the scheduling of audio, video, text messages and other multimedia content, namely, music, concerts, videos, radio, television, news, sports, games, cultural events, and entertainment-related programs as they will be aired

### Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of two opposing chevrons between the word CLIMATE and the term PERIENCE horizontally in black and a cloud design above the horizontal wording. The cloud design has a white centre and a border of multiple colours. The border of the cloud design is blue at the highest peak of the design and then fades into green near the base of the slope continuing from the peak clockwise. The green colour fades into blue at the far right portion of the design as the border extends downwardly. The blue colour of the border continues to the base of the design and the border is violet as it extends upwardly clockwise. The violet colour continues to the left portion of the border where the border changes to purple at the leftmost corner of the design. The colour purple fades into violet as the slope of the border rises and then the border is blue at the base of the first depression of the design. The colour blue continues to the peak of the design. The colours from the border of the cloud design fade inwardly into the white portion of the design.

### Colour Claim

Colour is claimed as a feature of the trademark. The design's central point is a big segmented lowercase 'g' that is navy blue. A small segment in the top right of the 'g' is red. The segments of the 'g' are bordered in white and further outlined in black. There is a second identical, but smaller, lowercase 'g' to the left of the big lowercase 'g'. It is partially cut off. The background of the design consists of alternating diagonal light green and white stripes that fade into each other at the edges. There is a heart to right of the big 'g' that is brown in the center with white dots and a white border, a thick blue border around it, and a further black outline at the outer edge. There are three tulip-shaped designs to the right of the big 'g'. The tulip design closest to the big 'g' is purple and blue with white and black borders and a red stem. The tulip design to the far right is blue and green with white and black borders, and it is partially cut off. The tulip design in the middle of the other two is purple and green with white and black borders and a red stem. There are two arch shapes, one on either side of the big 'g', that are segmented five ways and are red, navy blue, brown, blue and bordered in black and white. There are two miscellaneous bulbous shapes within these arches that are green, blue, orange, red, yellow and black and outlined in black. There is a third miscellaneous bulbous shape to the right of the big 'g' that is brown, blue, orange, yellow and black and outlined

in black. There are two miscellaneous bulbous shapes at the top of the design that are blue, red, yellow and light green and bordered in black and orange. There are two miscellaneous jagged edged shapes to the top left and bottom left of the big 'g' that are blue, green, yellow and orange and bordered in red and black with continuous loop light brown, white and black designs in their centers. The one to the bottom left is partially cut off so that you only see the blue, green bordered in red and black and light brown, white and black continuous loop portions. There is a third miscellaneous jagged edged shape to the bottom right of the big 'g' that is blue, light purple and orange and bordered in red and black with a continuous loop light brown, white and black design in its center. There are three large squares to the top left, top right and bottom right of the big 'g' and one small square to the bottom left of the big 'g' which are outlined in black. Each square is split diagonally into quarters, two blue, two yellow, each blue quarter contains a jagged triangular shape one red, one green that are outlined in black, each yellow quarter contains a jagged triangular shape that is black. The large squares to the top left and bottom right are partially cut off, the bottom right one so that you only see the yellow, blue, red and black portions. There are three thick red curved lines to the top left, bottom left and bottom right of the big 'g' that are outlined in black with wavy lines in the center. The wavy lines in the top left and bottom left curves are blue, yellow, green and black. The wavy lines in the bottom right curve are yellow, green, purple and black. There are three continuous loop triangular-shaped line designs to the top left, bottom left and one to the right of the big 'g' that are green and red and outlined in black. The one to the top left is almost entirely cut off. There are two three-petaled flower shapes, one below and one to the right of the big 'g'. The one below the big 'g' has blue petals bordered in red with black outlining, with a red stem and a black curved arrow shape within the stem. The middle petal contains a small yellow circle bordered in black. The flower shape to the right is identical, except that the petals are green instead of blue and it is partially cut off. Also below the big 'g', to the right of the flower shape, is a looped navy blue line bordered in white and outlined in black running partially behind the flower shape. Within the loop there is a brown background, a red heart in the center bordered in white and black with 15 white circles outlined in red running along the inner edges of the loop. There are six 'three curled end' curved lines to the top, left, right and below the big 'g' that are red with black and white outline. The 'three curled end' red curved line directly to the left of the big 'g' also has a 'single curled end' red curved line to its right that has black and white outlining. There are five 'single curled end' curved lines to the right, left and below the big 'g' that are blue with black and white outline. There is a 'single curled end' curved line to the bottom right of the big 'g' that is red with black and white outline. There is a 'two curled end' curved line directly above the big 'g' that is blue with black and white outline. There are three thick light blue curved lines to the left, bottom left and right of the big 'g' that are bordered in white with thick black outlines. There are two clusters of green, red and blue varying geometric shapes outlined in black to the top left of the big 'g' and one such cluster to the bottom right of the big 'g'. There is also a pair of similar rectangular geometric shapes to the top right of the big 'g', one red, one green, that are outlined in black. There are three oval shapes bordered in black with a black curved line cutting through the oval to the top right, bottom right and bottom left of the big 'g'. The ones to the top right and bottom left are orange. The one to the bottom right is yellow. There are two navy blue and red parallel looped lines outlined in white and black, one above and one below the big 'g', with yellow circles bordered in red running along inner brown strips. There are six curved yellow lines outlined in black in the design, three to the top left, one to the top right, and two to the bottom right of the big 'g'. There are three curved red lines, and one looped red line (partially hidden behind a jagged edged shape) outlined in black and white to the left of the big 'g'. There are three navy blue looped lines outlined in black and white to the top left and directly to the right of the big 'g' and one curved navy blue line outlined in black and white to the top right of the big 'g'. Throughout the design there are clusters of red, black, green, blue and yellow squares that are framed in straight black lines.

Throughout the design there are small navy blue, red, yellow and black circles running along the outside edges of shapes and curved lines. Throughout the design there are also yellow circles bordered in navy blue, orange, or red running along the edges of shapes and curved lines. Throughout the design there are circles that are navy blue with white and red or white and orange borders. Partially hidden by the big 'g', the purple and blue tulip and the brown and blue heart are two thick curved lines that are yellow and green bordered in black and red, with two small red circles and four black circles inside. Partially hidden by the big 'g' is a light blue loop with black and white outline.

### Colour Claim

Colour is claimed as a feature of the trademark. The "Être Conscient" bubble is red. The "Être Responsable" bubble is orange. The "Être Honnête" bubble is yellow. The "Être Conséquent" bubble is green. The "Être Chef" bubble is sky blue. The "Être Équilibré" bubble is dark blue. The "Être Vigilant" bubble is purple. These seven bubbles (or petals), placed in a circle, follow one another overlapping slightly. At the center of the circle made of bubbles are the words "Attitudes d'Entrepreneur" written in black. The design is a floral design with several petals or bubbles presented in layers. The seven petals that are in front are described in the previous paragraph. Behind each of them are petals without words larger than those in the front, in a similar but lighter color. A lighter outline, almost white, surrounds each of those seven petals. In the background of these two layers of seven petals are four petals of an even lighter color, placed between the five petals at the top of the design. The design is on a grey background going from a lighter grey on top to a darker grey at the bottom.
