Trademarks Journal

Vol. 66 No. 3390

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 01

(1) Chemical agents, namely synthetic resin adhesives for industrial purposes; drying agents for compressed air used for air compressors for railway cars; drying agents for compressed air used for air compressors for automobiles; unprocessed plastics [plastics in primary form]; artificial resins, unprocessed; plastics, unprocessed; artificial resins for 3D printers; adhesives for 3D printers; starch for 3D printers; sand for foundry sand mold for 3D printers

Class 04

(2) Industrial lubricants in the solid form; industrial lubricants; all purpose lubricants; industrial lubricating oils; mineral oils and greases for industrial purposes, not for fuel; industrial grease; vacuum grease

Class 06

(3) Panels, sheets and plates of metal for building and construction; doors of metal; gates of metal; palings of metal; fences of metal; revolving doors of metal; sliding doors of metal; hinged door of metal; folding doors of metal; platform doors of metal; platform screen doors of metal; platform edge doors of metal; door railings of metal for sliding doors; rail base of metal for automatic doors; metal covers for open-close driving apparatus; door hangers of metal; door hanging clasps of metal; fittings of metal for holding doors; door hangers of metal for hanging doors; joinery fittings of metal; common metals for use in 3D printer modeling; nonferrous metals for use in 3D printer modeling; iron and steel; nonferrous metals and their alloys; alloyed iron; fittings of metal for holding doors of railway cars

Class 07

(4) Power transmissions and gearing for machines, not for land vehicles; reduction gears being parts of machines; precision reduction gears installed in industrial robots and machine tools; reduction gears for industrial robots; reduction gears for machine tools; reduction gears for semi-

conductor manufacturing machines; reduction gears with electric motors; hydraulic motors and pumps used for driving lift cylinders of bulldozer blade; hydraulic motors and pumps used for driving bulldozer track rollers; hydraulic valves used for controlling hydraulic motors pumps; hydraulic linear actuators being parts of machines; yaw and pitch drives for wind-powered electricity generators; driving units, namely hydraulic pumps used for loading cranes; winch motors for cranes; motors for crane rotary units; swing motors for hydraulic shovels and cranes; driving units for pedestal of solar panels for solar photovoltaic power generation; driving units for pedestal of solar mirrors for solar thermal power generation; driving units for the wind mills of wind-powered power generation; electric driving motors for orienting heliostats, not for land vehicles agricultural cultivators; cranes; truck cranes; power shovels; hydraulic excavators; pressure regulation valves; pressure control valves; pressure operated valves not for land vehicles; control valves for hydraulic equipment; control valves for hydraulic machinery; control valves for truck cranes; generators of electricity; electric power generators; wind-powered electricity power generators; wind-powered electricity generators and their parts and fittings; motors for wind-powered electricity generators; wind turbines and wind mills; semiconductor manufacturing machines and their parts; controllers for semiconductor manufacturing machines; semiconductor wafer processing machines and equipment; robots [machines] for delivering semi-conductor wafer used for semiconductor wafer processing equipment; robots [machines] for delivering liquid crystal glass substrate; pneumatic snow blowing machines for railway points and their parts and fittings; air injection nozzles for pneumatic snow blowing machines for railway points; air reservoirs for pneumatic snow blowing machines for railway points; fuel injector for internal combustion engines for vessels; control valves for fuel injector for internal combustion engines for vessels; engine parts for marine vessels and aircraft; electric actuators used for power assisting of steering wheels for marine vessels; speed governors for machines, motors and engines; engine fuel pumps; machine couplings and transmission components; Power transmission belts for industrial machinery; transmission gears for industrial machinery; actuators for landing gear for aircraft; linear actuators for controlling spoilers and flaps of aircraft; hydraulic actuators for controlling spoilers and flaps of aircraft; electric hydraulic actuators for controlling spoilers and flaps of aircraft; starters for motors and engines; alternating current motors used for automatic doors; direct currents motors used for automatic doors; alternators for motor vehicles, trains, boats, airplanes; starter alternators; direct current generators; door engines namely, driving motors used for opening/closing automatic doors, linear motors, electric motors for machines, electric motors used in industrial machines; motors for aircraft; Fuel injectors for aircraft engines; fueling nozzles; pneumatic conveyors; pneumatic pumps; pneumatic shears; hydraulic conveyors; hydraulic excavators; hydraulic pumps; hydraulic turbines; electric door openers and their parts and fittings; door closers, hydraulic; door openers, hydraulic; automatic gate openers and closers; automatic door openers and closers; door closers, electric; door openers, electric; sliding door operators, electric; revolving door operators, electric; door closers, pneumatic; door openers, pneumatic; electric driving motors for door openers; packaging and wrapping machines; packaging machines; filling packaging machines and their parts and fittings; vacuum packaging and vacuum wrapping machines; machines for packaging food; machines for bagging and packaging; full automatic machines for packaging cosmetics; full automatic machines for packaging chemicals; vacuum pumps for use in filling packaging machines; vacuum pumps for use in vacuum packaging and vacuum wrapping machines and apparatus; machines for filling and sealing food; machines for filling food; machines for filling pharmaceuticals; machines for filling chemicals; machines for filling cosmetics; canning machines; bottle filling machines; vacuum pumps [machines]; stairlifts for wheelchairs; electric stairlifts for wheelchairs; plastic processing machines; metalworking machines and tools; metalworking machine tools; primary metal forming machines; secondary metal forming machines; wire forming machines; metal polishing and grinding machines; rolling mills; tubing mills for metalworking; wire

extruding machines; wire drawing machines; mechanical presses for metalworking; hydraulic presses for metalworking; shearing machines for metalworking; forging machines; bending machines for metalworking; oil hydraulic presses for metalworking; metalworking machines and tools for processing of constant velocity joints; sputtering apparatus for forming metallic thin film; Vapor deposition machines; hot press machines; amorphous alloy manufacturing machines; glove box with gas circulation refining apparatus; microwave plasma chemical vapor deposition machines; cultivating machines; Power- operated sprayers used for agricultural purposes; plasma spraying machines for agricultural purposes; machine couplings and joints; electric flow switch valves being machines; automatic gate and door openers and closers for railway platforms; stereolithography machines; 3D printers; forming machines for creating three-dimensional models; air compressors for railway cars and their parts and fittings; air compressors for railway cars; air reservoirs for railway cars; air compressors for air brakes used for railway cars; air compressors for lifting pantographs of railways cars; air compressors for automobiles; oil separator for land vehicles; oily water separator for land vehicles; vacuum pumps for land vehicles; oil collectors used for air dryers for land vehicles; oil collectors used for oil separators for land vehicles; oil collectors for oily water separators for land vehicles; oil separators with drained oil storage as part of air brake systems for land vehicles fueling nozzles for aircraft; fuel pumps for aircraft

Class 09

(5) Optical sensors for tracking sunlight; Optical sensors for tracking sunlight used for solar thermal power generation; electronic controllers for servo motors driving reduction gears to adjust the rotational speed thereof; electronic remote controllers for controlling pneumatic, hydraulic and electric actuators to adjust the pressure thereof; solar photovoltaic power generators; solar thermal power generators and component parts thereof; pedestals for solar panels for production of electricity; Electronic remote controllers to drive rotating tables of pedestals of solar panels used for production of electricity; Electronic remote controllers to drive rotating tables of for pedestals of mirrors used for solar thermal power generation; Diagnostic devices used for testing vehicle brakes; Diagnostic devices for testing railway car brakes; Diagnostic devices for testing air brakes of land vehicles; Diagnostic devices for testing air brakes of railway cars; Diagnostic devices for testing electric and pneumatic door closers for land vehicles; electronic testing devices for electric and pneumatic door closers for railway cars; position sensors; distance sensors; proximity sensors; level sensors; pressure sensors; radio communication machines for vessels; voyage data recorders, namely digital recorders for recording information of marine vessels; computers used for displaying voyage and flight information; remote controllers for engines for marine vessels; remote control panels for engines for marine vessels; electronic speed controllers for main propulsion machinery for marine vessels; electronic speed controllers for auxiliary machines for marine vessels; inductive sensors used for remote control apparatus for engines for marine vessels; electronic remote controllers for adjusting screw speeds of marine vessels; high voltage power supplies; electric power supplies for aircrafts; electric connectors; Distribution boxes for electrical power; electric switchboxes; distribution transformers; electric actuators for actuating and controlling aircraft wings; remote controllers used for electronic automatic door opening-closing; microcomputers and sensors installed in remote controllers user for electric automatic door opening-closing; access control security doors; movement switching units for automatic doors; Electronic panels for displaying messages showing the operating mode of automatic doors; opening-closing regulating operators for automatic doors; computers for surveying railway platform doors and showing diagnosis of railway platform doors; announcement speakers equipped with automatic doors; electric operators used for controlling turnstile gates; electronic locks for doors; sensors for automatic doors; software for creating modeling data for 3D printers; software for converting modeling data for 3D printers; vacuum gauges; gas quantity measuring machines; gas

content measuring machines within aluminum; remote control apparatus for plasma spraying machine for agricultural purposes; fluid deterioration and contamination level measuring instruments; Diagnosis devices used for testing the quality of industrial lubricant oils and greases; automatic control valves

Class 10

(6) Artificial limbs; electronically regulated artificial limbs; electronically regulated bionic knees; electronically regulated prosthetic knees; bionic knees; prosthetic knees; artificial limbs for the lower-leg; lower limb prosthetics; electronically regulated lower limb orthosis; lower limb orthosis; electronically regulated upper limb orthosis; upper limb orthosis; electronically regulated artificial limbs; electronically regulated bionic knees; electronically regulated prosthetic knees; electronically regulated lower limb prosthetics; electronically regulated lower limb orthosis; electronically regulated upper limb orthosis

Class 11

(7) Vacuum drying machines; industrial furnaces; melting furnaces, for industrial purposes; heating furnaces, for industrial purposes; gas purification machines; solar energy collectors for solar photovoltaic power generation

Class 12

(8) Brakes for land vehicles; brakes for land vehicles and their parts and fittings; brakes systems for railway cars and their parts and fittings; brakes for railway cars; brake shoes for railway cars; brake systems for railway cars; brake control systems for railway cars; electronic control systems for railway brakes; brake pads for railway cars; actuators for brakes used for railway cars; brake cylinders for railway cars; air suspension valves for controlling suspension height for vehicles; air dryers for railway cars; air filters used for air dryers for railway cars; air suspension valves for controlling suspension height for railway cars; railway cars and their parts and fittings; automatic door for railway cars and their parts and fittings; door rails for railway cars; door hangers for railway cars; door hanging clasps for railway cars; door leafs for railway cars; emergency exit doors for railway cars and parts thereof; passenger steps for railway cars; door actuators for railway cars; door cylinders for railway cars; seats for railway cars and their parts and fittings; rotatable seat for railway cars; air compressors for land vehicles and their parts and fittings; brake air compressors for land vehicles; air dryers for automobiles; air filters for air dryers for automobiles; brake systems for automobiles and their parts and fittings; brakes for automobiles; air brakes for automobiles; brake chambers for automobiles; hydraulic clutches for automobiles; air dryers used for brakes for automobiles; brake valves for automobiles; air brake hose couplings for automobiles; pneumatic control valves for air brakes for automobiles; clutch pedals for automobiles; automobiles and their parts and fittings; clutches for automobiles; clutch operation cylinders for automobiles; master clutch cylinders for automobiles; hydraulic dampers for clutches for automobiles; orifice valves for clutches for automobiles; shaft couplings for clutch shaft for automobiles; automatic doors for land vehicles and their parts and fittings; passenger steps for land vehicles; automatic doors for motor buses; passenger steps for automobiles; pneumatic control gears for vessels; aircraft and their parts and fittings; motors for land vehicles; landing gear for aircraft; flight control gears; hydraulic circuits for aircraft; controllers for hydraulic circuits for aircraft; wheelchairs; electric nursing care wheelchairs; electric wheelchairs; wheel rollators for disabled persons to aid their mobility; wheel rollators equipped with electric motors for disabled persons to aid their mobility; external electric wheels for wheelchairs; reduction gears for land vehicles; tractor trailers

Class 17

(9) Semi-finished acrylic molded plastic; plastic substances, semi-processed; filamentary resins for 3D printers; air brake hoses for automobiles

Class 19

(10) Doors made of glass for buildings; palings, not of metal; revolving doors, not of metal; platform screen doors, not of metal; non-metallic runners for sliding doors; non-metallic gates, namely glass gates

Services

Class 37

Repair and maintenance of transmissions for machines; repair and maintenance of reduction gears being parts of machines; repair and maintenance of reduction gears for land vehicles; repair and maintenance of reduction gears for industrial robots; repair and maintenance of reduction gears for machine tools; repair and maintenance of reduction gears for semi-conductor manufacturing machines; repair and maintenance of hydraulic power units; repair and maintenance of hydraulic motors; repair and maintenance of hydraulic valve actuators; repair and maintenance of driving units for hydraulic power units used for construction machines and loading machines and apparatus; repair and maintenance of driving units for pedestal of solar panels for solar photovoltaic power generation; repair and maintenance of driving units for pedestal of solar mirrors for solar thermal power generation; repair and maintenance of driving units for the wind mills of wind-powered power generation; repair and maintenance of driving units for heliostats; repair and maintenance of hydraulic valves used for controlling hydraulic motors and pumps; installation, maintenance and repair of solar photovoltaic power generators; installation, maintenance and repair of solar thermal power generation systems; installation, maintenance and repair of electric power generators; installation of wind-powered electricity generation systems; installation of wind-powered electricity generators; installation, maintenance and repair of wind turbines and wind mills; repair and maintenances of semiconductor manufacturing machines and systems; repair and maintenance of electronic speed controllers for servomotors for reduction gears; consultation in installation of solar photovoltaic power generators and solar thermal power generation system; consultation in installation of electric power generators; consultation in installation of wind-powered electricity generation systems; consultation in installation of doors and gates for buildings; repair and maintenances of construction machines and apparatus and their parts; repair and maintenance of loading-unloading machines and apparatus and their parts; repair and maintenance of agricultural machines and implements and their parts; repair and maintenance of land, water, air and railway vehicles; repair and maintenance of railway cars and their parts and fittings; repair and maintenance of brakes for railway cars; repair and maintenance of automatic door for railway cars; repair and maintenance of rotatable seat systems for railway cars; repair and maintenance of pneumatic snow blowing machines for railway points; repair and maintenance of air compressors and compressed air engines for railway cars; repair and maintenance of automobiles and parts thereof; repair and maintenance of brakes for automobiles; repair and maintenance of clutches control systems for automobiles; repair and maintenance of air dryers for automobiles; repair and maintenance of air compressors for land vehicles; repair and maintenance of air compressors for automobiles; repair and maintenance of automatic doors for motor buses; repair and maintenance of oil collectors used for air dryers for land vehicles; repair and maintenance of oil collectors used for oil separators for land vehicles; repair and maintenance of oil collectors used for oily water separators for land vehicles; repair and maintenance of oil collectors for land vehicles; repair and maintenance of ships; repair and maintenance of engines for ships; repair and maintenance of computer hardware used for controlling engines for ships; repair and maintenance of remote controls for the operation of agricultural machines; repair and
