## Vol. 67 No. 3438

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

### Goods

#### Class 09

(1) Computer hardware; computer software for operating an autonomous car; computer software for vehicle navigation comprised of global positioning systems, geographical data, triangulation systems, internet communication, and inertial measurement unit systems for autonomous car navigation; computer software for vehicle fleet management; computer software for coordinating, scheduling, booking, and dispatching vehicles for passenger and freight transport; computer software for managing freight transportation by truck and autonomous cars; navigation apparatus for vehicles in the form of on-board computers; electric and optical navigational instruments, namely, cameras, sensors, namely, temperature sensors, distance sensors, proximity sensors, LiDAR sensors, radar sensors, and sensors for determining the presence, location, speed, and heading of objects, and ultrasonic detectors, indicators for detecting speed, objects, and the speed, trajectory, and heading of objects, lasers, namely, laser rangefinders for determining the

presence of objects and the speed, trajectory, distance, and heading of objects, optical equipment, namely, optical distance meters, optical rangefinders, cameras, and video displays to measure reflectivity, generate data points, and detect both distances and objects, radar equipment, namely, radar detectors, receivers, and transmitters, microphones, ultrasonic detectors, and environmental sensors for determining position, velocity, direction, and acceleration for autonomous land vehicles; steering apparatus, automatic, for vehicles, namely, computer hardware and operational software for steering autonomous cars.

### **Class 12**

(2) Land vehicles, namely, automobiles, trucks, freight vehicles in the nature of automobiles, and mass transit vehicles in the nature of buses; automobiles; autonomous cars; autonomous vehicles, namely, automobiles, trucks, freight vehicles in the nature of automobiles, and mass transit vehicles in the nature of buses; steering apparatus, automatic, for autonomous cars, namely, electric steering gears.

### **Services**

#### **Class 35**

(1) Transportation services, namely, providing vehicle fleet management in the nature of fuel management services for vehicles; business management for vehicles.

#### **Class 38**

(2) Telecommunication services, namely, telecommunication access services via a global computer network and the Internet and transmission of vehicle management data, namely, tracking, locating, and monitoring the vehicle's position via a global computer network and the Internet; telecommunication services, namely, routing calls and text, voice, video, and e-mail messages to passengers; on-board vehicle entertainment services, namely, providing passengers with entertainment services in the form of Internet browsing, access to on-line reading material, namely, books, periodicals, and newspapers, and computer games and video games via a global computer network; providing access to a website featuring information in the fields of autonomous car transportation services and scheduling transportation services.

#### **Class 39**

(3) Passenger transportation services by automobiles; transportation services, namely, making reservations and bookings for passenger transportation; transportation of passengers by automobiles; transportation services, namely, providing temporary use of vehicles, namely, automobiles; vehicle management, namely, vehicle location services, provision of road and traffic information, and roadside assistance services for vehicles, and tracking, locating, and monitoring services for business purposes to ascertain the geographic locations of vehicles; passenger transportation services, namely, travel by autonomous cars; car rental services; passenger transportation reservation services, namely, reservation and booking of seats for travel; freighting services, namely, freight brokerage, freight forwarding, and freight loading services; freight transportation by trucks and autonomous cars; transportation of passengers and freight by trucks and autonomous cars; passenger transport by trucks and autonomous cars.

#### **Class 41**

(4) On-board vehicle entertainment services, namely, providing passengers with entertainment services in the form of movies, radio programs, individualized music selections, and live television programs.

#### **Class 42**

(5) Providing online non-downloadable software services for transportation services, namely, coordinating, booking, and dispatching autonomous cars; providing online software services for coordinating freight transportation by truck and autonomous cars; research and development into autonomous cars.
