### **Colour Claim**

Colour is claimed as a feature of the trade-mark. The trademark includes a circle design which has an inner portion surrounded by an outer band. Within the inner portion of the circle design appears a piston and rod design, a stream of oil design which encircles the piston and rod design in a generally helical-like manner, an arrow design extending upwards and to the right from the piston crown and having the word 'Heat' within the arrow design, the word 'CoolTech' which appears beneath the piston and rod design, and a degree symbol positioned to the left of the word 'CoolTech'. The piston and rod design has a piston at its upper portion and a rod at its lower portion, the rod extending vertically beneath the piston. The piston includes a piston skirt at its lower portion and which has a hole therein, an upper part having ring grooves formed on the vertical outer surface thereof and also including a lip on the upper most part, and a piston crown on its top (horizontal) surface, shown within the lip. The outer band of the circle design is light grey at the top portion, fades to dark grey on the left and right side portions and fades back to light grey at the bottom portion. The inner portion of the circle design (behind the piston and rod design, the stream of oil design, the arrow design, the degree symbol and the word 'CoolTech') is black and is separated from the outer band by a halo design which is off-white. The hole in the piston skirt and the vertical lines in the rod are black, and otherwise the rod and piston skirt are in tones of silver. From left to right, the vertical outer surface of the upper part of the piston is in shades of red, white, silver-blue, white and blue. The lines defining the ring grooves in the upper part of the piston are black. The upward facing surface of the lip on the top of the upper part of the piston is white on the left and front-left and fades to blue on the front-right and right. The inward facing surface of the lip on the top of the upper part of the piston is red on the left and back-left, with vertical streaks of white contained therein, and fades to blue in the back-right and right. From left to right, the piston crown fades from yellow to white to blue. The outer edges of the oil stream design are outlined in brown and the ripple effects of the oil stream design are in shades of gold, brown, yellow and white. The arrow design is primarily red but fades to orange at its tail end as the tail end meets the piston, with the small thin lines appearing on the rear portions of the arrowhead and the arrow line being white. The words 'CoolTech' and 'Heat' and the degree symbol are white.

In order for the certification mark to be affixed to the goods, they must meet the following defined standard: (1)

The goods are sourced from Canadian producers and processors of hogs, pork and/or pork products approved by CPI as complying with its prescribed standards for the VCP Program with respect to, but not limited to, food safety, animal care/welfare and traceability. These approved Canadian producers and processors comprise the list of 'Approved Canadian Suppliers' maintained and amended from time-to-time by CPI. The details of the prescribed standards for the VCP Program and the list of 'Approved Canadian Suppliers' are accessible to the public at the applicant's web site located at [www.verifiedcanadianpork.com](http://www.verifiedcanadianpork.com). (2) Approved Canadian Suppliers follow the nationally accredited on-farm programs: CANADIAN QUALITY ASSURANCE (CQA), which is Canada's on-farm quality and safety assurance system promoting best-management practices for animal care and food safety to ensure some of the best quality and among the safest pork in the world. The details of the prescribed standards for the CQA program are accessible to the public at the web site of the Canadian Pork Council located at [www.cpc-ccp.com](http://www.cpc-ccp.com). (3) The goods are inspected and approved by the Canadian Food Inspection Agency (CFIA) of the Government of Canada through participating Federally inspected pork processing facilities. The CFIA verifies that meat products leaving federally-inspected establishments are safe and wholesome. The CFIA's regulatory guidance documents provide the information required to comply with applicable Federal acts and regulations and are accessible to the public at the CFIA web site located at [www.inspection.gc.ca](http://www.inspection.gc.ca). The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those in association with which the certification mark is used.
