# Trademarks Journal

## Vol. 67 No. 3425

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

**Visual Representation****Colour Claim**

Colour is claimed as a feature of the trademark. The word DAIKIN is blue. The triangle is in black. The trapezoid is in blue.

**Goods****Class 01**

(1) Chemical products used in air conditioning and related manufacturing industry, science research in the field of cooling and heating, photography, agriculture, horticulture, forestry, namely, surface active chemical agents, tension-active chemical agents, water repellent agents, oil repellent agents, stain repellent agents, fluorine coating agents, industrial adhesives for use in coating and sealing for use in the air conditioning cooling and heating industry, chemical agents for impregnating, binding or coating of textiles, furs and leather, non-wovens and fabrics, damp-proofing agents to reduce moisture, organic chemicals for general industrial use, fluorinated intermediates for use in the manufacture and development of pharmaceuticals, and for agricultural,

and general industrial use, chemical intermediates for manufacturing in the heating and cooling industry, fluorine, fluorocarbon, fluorine compounds, fluorine alcohol, alcohol for use in the manufacture of paints and other protective coatings, fabric protectant for commercial dry cleaning use, chemical grease removing agents for use in manufacturing processes, adhesive removing preparations for use in the manufacture and general industrial use, assays and reagents for use in bacteria research, chemical reagents for non-medical purposes, and diagnostic preparations and reagents for scientific and research use; unprocessed artificial resins, unprocessed plastics; manures; fire extinguishing compositions; soldering chemicals, tempering chemicals; chemical substances for preserving foodstuffs; tanning protective coatings and substances for use in the manufacture of leather; adhesive substances used for general industrial use;

### **Class 02**

(2) protective paints, protective varnishes, protective lacquer glazes; preservatives against rust and against deterioration of wood; protective colorants and mordants for use in manufacturing; raw natural resins; metals in foil and powder form for painters, decorators, printers and artists;

### **Class 07**

(3) machines or machine tools for use with air-conditioning apparatus, building facilities, and industrial machines, namely, electric arc welding machines, metalworking machines and tools, bits for mining machines, concrete construction machines, loading and unloading machines, fish-netting machines, dust collecting machines for chemical processing, blending machines for chemical processing, filtering machines for chemical processing, textile making-up machines, beverage processing machines, saw-tooth setting machines for lumbering and woodworking saws, veneer manufacturing machines, plywood clipping machines, pulping machines, papermaking machines, paper shredding machines, industrial printing machines, bookbinding machines for industrial purposes, sewing machines, agricultural machines, namely, cultivators, harvestors, disk harrows, seeders, shoe making machines, leather tanning machines, tobacco processing machines, glassware manufacturing machines, painting machines, packaging machines, wrapping machines, power-operated potters' wheels, plastic processing machines, semiconductor manufacturing machines, rubber manufacturing machines, stone working machines, non-electric prime movers, not for land vehicles namely, driving motors, other than for land vehicles, adhesive tape dispensing machines, automatic stamping machines, electric wax-polishing machines for industrial purposes; motors and engines, except for land vehicles, namely, alternating current motors and direct current motors, oil hydraulic motors; machine coupling and transmission components (except for land vehicles); agricultural implements other than hand-operated, namely, cultivators, harvestors, disk harrows, seeders; incubators for eggs; hydraulically operated control apparatus, namely, transmission system that uses pressurized hydraulic fluid to provide power to machinery; hydraulic control systems for machines, motors and engines; pumps as parts of machines; valves as machine components; compressors as parts of machines; compressors for air-conditioners; centralized lubrication apparatus, namely, centralized oil lubricating units and systems; control mechanisms for engines or motors; filters as parts of machines and engines, namely, air filters, fuel filters, oil filters, filters that clean gas and chemicals;

### **Class 09**

(4) scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving and teaching apparatus and instruments, namely, all purpose thermometers; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity namely, electrical compressors and generators; apparatus for recording, transmission or reproduction of sound or images namely cameras and digital video recorders; blank and prerecorded magnetic discs; automatic vending machines and

mechanisms for coin-operated apparatus; cash registers, calculators, computers; fire extinguishers; inverters for power supply; laboratory equipment namely a bacteria detection and identifying instrument;

### **Class 11**

(5) apparatus for lighting, heating, steam generating, cooking, refrigerating, freezing, drying, ventilating, water supply and sanitary purposes, namely, washing machines and dryers, electric vacuum cleaners, dishwashers, electric food blenders for household purposes, stoves, electric and gas cooking grills, electric and gas operated lawnmowers, refrigerators and freezers for domestic use; electric lamps, lighting apparatus, namely lighting installations; household electrothermic appliances, namely, portable electric warm air driers, air sterilisers, hair driers, electric fans, and futon driers for household purposes; air conditioners and parts and fittings therefor; air cleaning units and parts and fittings therefor; dehumidifiers; air deodorizing unit; filters for air-conditioning; air filtering and cleaning installations for household and industrial use; filtering cartridges for air cleaning equipment; cartridges for water filters; air valves for steam heating installations; refrigerating containers, namely, refrigerated beverage dispensing units, refrigerated display case, refrigerated shipping containers; refrigerant compressors; inverters being parts of air-conditioning apparatus; motors being parts of air-conditioning apparatus; motorized fans for air conditioning

### **Services**

#### **Class 37**

(1) building construction; repair of air-conditioning apparatus, freezing and chilling apparatus, boilers, air-conditioning machinery, water supply systems, drainage and sterilization systems, building and electrical appliances namely domestic and industrial electrical appliances; installation of air-conditioning apparatus, freezing and chilling apparatus, boilers; maintenance, installation and repair of air-conditioning machines and equipment; maintenance, installation and repair of electrical generators; maintenance, installation and repair of household kitchen appliances; maintenance, installation and repair of industrial air conditioning, heating and cooling equipment and machinery; cleaning of air-conditioning apparatus; providing information in relation to the installation, repair and maintenance of telecommunications networks; advisory services relating to the maintenance of air conditioning installations, supervision, operation management, and maintenance of air conditioners and other building facilities and equipments such as heating and cooling equipment by using computerized concentrically controlled monitoring system via on-line communications networks;

#### **Class 42**

(2) scientific and technological services in the field of air conditioning and refrigeration and research and design relating thereto; industrial analysis and research services in the field of air conditioning and refrigeration; design and development of computer hardware and software; leasing, hire and rental of computers, computer systems, computer programmes and computer software; computer and software consultancy services; remote monitoring and control services of heating, ventilating and air conditioning apparatus; preventative maintenance of industrial machinery

#### Class 08

(1) Nunchaku, swords, namely bokken, tonfa, shinai.

#### Class 09

(2) Measuring apparatus, namely frequency meters, sound level meters, anemometers, audiovisual teaching apparatus, namely video projectors, sound projectors, computer programs, namely computer programs for document management, computer programs for searching the contents of computers and computer networks by remote control, recorded computer programs, namely recorded operating system programs for computers, measuring instruments, namely connected bracelets, distance measuring apparatus, namely range finders, downloadable audio files, namely downloadable music files, calorimeters, wearable activity trackers, namely smart watches, speed indicators, intercom devices, DVDs and other digital recording media, namely blank and pre-recorded CDs containing audio and video clips in the fields of bodybuilding, physical fitness and combat sports, pedometers; mouth guards; protective visors for athletes.

(3) Scientific (other than for medical use), measuring, signalling, checking, supervision, life-saving, rescue and teaching apparatus and instruments, namely electric and electronic burglar alarms, security and fire alarms, personal security alarms, luminous safety beacons for use as a personal locator, marine luminous safety beacons, barometers, marking buoys, signalling buoys, life buoys, compasses, fog signals, luminous or mechanical signals, emergency signal transmitters, sonars, sensors for measuring water depth, avalanche probes, thermal sensors, radar detectors, proximity sensors, electromagnetic measuring detectors, electronic weighing scales for personal use,

hydrometers, hygrometers, binoculars, printed circuit boards, sextants, navigation compasses, magnetic compasses, telescopes, life belts, life jackets; apparatus for recording, transmitting, reproducing and processing sound and images, namely video players and recorders, DVD players, MP3 players, audio cassette and CD players, audio tape recorders; magnetic data carriers, namely blank and pre-recorded magnetic tapes and discs in the fields of bodybuilding, physical fitness and combat sports, recording discs; clothing for protection against accidents, namely protective clothing for protecting motorcyclists against accidents or injuries, clothing for protection against fire; devices for personal protection against accidents, namely goggles, protective helmets, namely hard hats, protective helmets for sports, protective sports masks, protective cups, knee guards, mittens, mouth guards, foot guards, chest protectors, protective devices, namely armbands, safety nets, safety harnesses other than for vehicle seats and sports equipment; optical goods, namely eyeglasses, sunglasses, eyewear, namely goggles, chains for eyeglasses and sunglasses, eyeglass lenses, eyeglass cases; guiding systems (GPSs), namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; measuring instruments, namely meters, namely tape measures; speedometers, namely bicycle speedometers, revolution counters, namely odometers, pedometers; whistles and lanyards for whistles.

#### **Class 10**

(4) Orthopedic articles, namely orthopedic braces, splints, orthopedic hip prostheses, braces, orthopedic corsets, orthopedic shoes, orthopedic soles, abdominal belts; elastic bands, orthopedic joint bandages, massage apparatus, namely facial massagers, electric massagers for relieving muscle tension.

(5) Medical apparatus and instruments, namely medical instruments for cutting tissue, rigid and flexible medical endoscopes, medical instruments for general examination, medical laparoscopes and catheters; suture materials; orthopedic articles in the nature of items for the support, compression or maintenance of joints, namely orthopedic braces, splints, braces, elbow pads, knee guards, thigh protectors, puttees, ankle braces, wristbands, shoulder pads, splints, elastic bandages, hernia trusses, orthopedic joint bandages, abdominal belts for maintenance, support and compression, abdominal corsets, orthopedic patella brace for knee maintenance; belts lumbar belts, tights and socks for compression and recovery, massage socks, massage tights; medical apparatus for exercising the body, namely stationary exercise bicycles; massage apparatus, namely facial massagers, electric massagers for relieving muscle tension, massage gloves; arterial blood pressure measuring apparatus; heart rate monitors.

#### **Class 18**

(6) Backpacks, handbags, sports bags, fanny packs, shoe bags, bags, namely messenger bags, saddlebags, luggage.

(7) Leather and imitations of leather; animal skins, hides; leatherwork items, namely leather wallets, leather bags, leather boxes, and leather and imitations of leather, except cases adapted for the goods they are designed to contain, gloves and belts; handbags, travel bags; trunks and suitcases; umbrellas, parasols and walking sticks; purses, school bags, wallets, portfolios, leatherwork, namely key cases; student bags, school bags, attaché cases for documents, coin purses not made of precious metals, leatherwork, namely towels, namely folding briefcases, leather briefcases, beach bags; backpacks; sports bags.

#### **Class 22**

(8) Tarpaulins.

#### **Class 25**

(9) Clothing, namely athletic wear, athletic clothing, outdoor winter clothing, rainwear, casual wear, skiwear, casual clothing, footwear (except orthopedic shoes), namely athletic shoes, hiking shoes, training shoes, climbing shoes, outdoor winter shoes, running shoes, rain shoes, ski boots, riding shoes, casual shoes, headgear, namely hats, berets, caps, knitted caps, belts, underwear; socks; slippers; sports shoes; sandals, boots, climbing boots and shoes, clothing, namely gloves, clothing, namely mittens, gaiters, shoe soles, inner soles, hats, shoulder scarves, caps, jackets, T-shirts, vests, shorts, underwear, ballet shoes, pointe shoes.

(10) Clothing, namely athletic wear, athletic clothing, outdoor winter clothing, rainwear, casual wear, skiwear, casual clothing, footwear, namely athletic shoes, hiking shoes, training shoes, climbing shoes, outdoor winter shoes, running shoes, rain shoes, ski boots, riding shoes, casual shoes, headgear, namely hats, berets, caps, visors for athletes, knitted caps; underwear; sports and gymnastic clothing, clothing for combat sports, clothing for classical ballet and contemporary dance; kimonos; belts; socks, stockings, tights; hats, caps, apparel, namely headbands, visors for athletes; sports shoes, zori sandals, sandals, soft slippers, namely ballet shoes, women's foldable slippers, grip soles for shoes; insoles.

### **Class 27**

(11) Groundsheets and straw mats; yoga mats, tatami mats; gym mats.

(12) Carpets; linoleum and other floor coverings, namely vinyl floor coverings; gymnastic mats; training mats; non-slip mats; protective floor mats; straw mats.

### **Class 28**

(13) Gym and sporting articles (except clothing, footwear, mats), namely starting blocks for sports, ribbons specially adapted for rhythmic gymnastics, exercise bars, exercise weights, sports balls, hoops, gym ropes, namely jump ropes, gym tape, Indian clubs; stationary training bicycles, stair simulators and rowers, treadmills, stationary running tracks, trampolines, chest expanders, exercise apparatus, namely weight lifting apparatus, cross-trainers, rowing machines, elastic bands; hand strengthening apparatus, namely exercise weights, dumbbells; sporting articles, namely yoga blocks; abdominal boards; abdomen strengthening apparatus, namely ab exercisers; boxing gloves, basketball hoops, pear balls, punching bags, training and punching bags; wood, namely training sticks for combat sports, jump ropes, jump rope weights, foam striking pads for training, namely karate kick pads, boxing rings, training and punching bags, attachments for training purposes, namely exercise bars and punching bags, chin-up bars, gym equipment, namely gymnastic training stools, balance beams for gymnastics, gymnastic springboards, wall bars, weight training benches, dumbbells, sports equipment, namely rowing machines, treadmills; resistance training apparatus for building muscle, namely chest expanders; gym apparatus, namely rehabilitation apparatus, namely abdominal boards, stationary training bikes; weight training apparatus, namely weight training bars, weight training benches, adductor-abductor apparatus and chin-up bars; weight training bars; electronic treadmills; mechanical systems for running training, namely jogging machines, electronic running machines, protective sports gear, namely protective equipment for shoulders and elbows, arm guards, knee pads, shin guards.

(14) Games, namely dart games, dart game sets, skill games, target games, playing balls, outdoor activity play sets, badminton sets, toys, namely play balls and balloons, water toys, construction toys, plush toys, plastic toys, inflatable toys, sand toys, mechanical toys, scooters; gymnastic and sporting articles (except clothing, shoes and mats), namely starting blocks for sports, ribbons specially adapted for rhythmic gymnastics, exercise bars, exercise weights; play balls; physical fitness equipment, namely treadmills, rowing machines; apparatus for exercising for the body, namely sports balls, dumbbells, exercise bars; stationary training bikes; exercise equipment, namely chest expanders; gymnastic apparatus, namely physical rehabilitation apparatus, namely

stationary exercise bicycles and rollers; gymnastic apparatus, namely abdominal boards; dumbbells; sporting articles, namely weight lifting belts; fencing weapons; foils for fencing, fencing gloves; fencing masks; boxing gloves; punching bags; parts for sports apparel, namely protective padding, namely abdomen protectors for tae kwon do.

### Goods

#### Class 09

Electronic signal transmitters and receivers; electronic devices comprised of radio transceivers used in communicating to and monitoring the distance to a mobile communications device; electronic signal transmitters and receivers for locating and tracking lost articles; electronic signal transmitters and receivers used to locate lost objects employing radio frequency; electronic tracking devices comprised of radio frequency modules, computer software and computer hardware, sensors, transmitters, receivers, and transceivers, all for use in connection with object tracking and object monitoring; computer hardware for tracking the location of objects; computer software for geolocation; computer software for tracking objects using electronic tracking signal transmitters and receivers; computer software for tracking objects via radio frequency; computer software for locating, managing, and using an electronic tracking device and for providing alerts and notifications concerning the location of an electronic tracking device; downloadable computer software for users to enter, access, track, manage, monitor, and generate information regarding a mobile communications device and an electronic tracking device; downloadable software in the nature of a mobile application, namely, software for tracking electronic signal transmitters and receivers and objects; computer software that shares location information and data between electronic devices within a community of users; Computer hardware and software for tracking objects using electronic signal transmitters and receivers; computer hardware and software system for monitoring the distance between a mobile communications device and an electronic tracking

device; computer hardware and software system for monitoring the distance between a mobile communications device and an electronic tracking device and for location information via radio frequency; computer hardware and software for physical asset tracking management.

## **Services**

### **Class 35**

(1) Online retail services for wireless tracking devices, namely electronic signal transmitters and receivers, electronic devices comprised of radio transceivers used in communicating to and monitoring the distance to a mobile communications device, electronic signal transmitters and receivers for locating and tracking lost articles, electronic signal transmitters and receivers used to locate lost objects employing radio frequency, electronic tracking devices comprised of radio frequency modules, computer software and computer hardware, sensors, transmitters, receivers, and transceivers, all for use in connection with object tracking and object monitoring, computer hardware for tracking the location of objects, computer hardware and software for tracking objects using electronic signal transmitters and receivers, computer hardware and software system for monitoring the distance between a mobile communications device and an electronic tracking device, computer hardware and software for monitoring the distance between a mobile communications device and an electronic tracking device and for location information via radio frequency, computer hardware and software for physical asset tracking management, adhesives, fasteners, and covers especially adapted therefor, and luggage tags; Administration of a partner program to integrate tracking technology into the products of others; providing a consultative framework to others to integrate tracking technology into third party products.

### **Class 42**

(2) Providing non-downloadable software for tracking objects using electronic tracking devices via a website; providing non-downloadable software for locating, managing, and using an electronic tracking device and for providing alerts and notifications concerning the location of the device via a website; software as a services (SaaS) services for locating, managing, and using an electronic tracking device; software as a services (SaaS) services for tracking objects using tracking devices; software as a services (SaaS) services for tracking objects via radio frequency; electronically tracking and monitoring computer chips worn by people or objects using computer technology; providing non-downloadable software for enabling users to enter, access, track, manage, monitor, and generate information regarding a mobile communications device and an electronic tracking device via a website; providing temporary use of online non-downloadable software that shares location information and data between electronic devices within a community of users; consulting services for others in the field of tracking technology.

### Goods

#### Class 01

(1) Chemicals used in industry and further manufacture, namely silicone, namely, polysiloxanes, silicone resins; unprocessed silicone resins, unprocessed plastics; adhesive substances comprised in whole or in substantial part of silicone for use in the automotive industry, the electronics industry, the building construction industry; dispersing agents, namely dispersant comprised of silicone; emulsifiers comprised of silicon for use in the manufacture of personal care and pharmaceutical preparations; silicone surfactants used in the manufacture of pharmaceutical preparations, detergents, fabric softeners, soaps, adhesives, and coatings; silane coupling agents used to provide binding of materials on glass, plastic, metal, ceramic, and masonry surfaces; mold release compounds; release agents, namely mold release agents comprised of silicone for use in the manufacture of asphalt, concrete, paper, plastic, rubber, automotive parts, glass laminates, wood forming, metal making and rubber gaskets and shoe soles, and in the food and beverage, printing, packaging and textile industries; silanes; encapsulants, namely, silicone encapsulants for use in industrial, automotive, and electronics applications; waxes and softening agents, namely, silicone waxes and silicone softening agents used to provide softening and emulsifying qualities to textiles, leathers, cosmetics, skin care and hair care preparations; chemical agents comprised of silicone for impregnating, binding and coating of textiles, furs and leather, non-wovens and fabrics; unprocessed artificial and synthetic resins; potting agents, namely silicone potting gels, encapsulants and coatings for use in industrial, automotive and electronics applications; defoaming agents, namely defoamers for use in cleaning preparations, foods, pharmaceuticals, paints, coatings, adhesives, wood pulp and paper, machine tools, oil drilling equipment, and hydraulic equipment; chemical fuel additives

(5) Adhesive putty, namely, non-permanent adhesive putty in the form of adhesive paste used in the electronics industry, the construction industry, the marine industry, the aircraft industry

#### Class 02

(2) Paint primers; varnishes, namely, floor protection varnishes, varnishes for use in cabinet making; colorants for use in the manufacture of paints; coating dispersions and coatings, namely, anti-rust coatings in the form of paints, automotive finishing coatings, weatherproofing coatings in the form of paint; paints and lacquers, namely, acrylic paints, aluminum paints, anti-corrosion

paints, asbestos paints, emulsion paints, enamel paints, exterior paints, interior paints, floor paints, house paints, waterproof paints, oil paints, paint and lacquer glazes, all of the foregoing comprised of silicone, and wood and rust preservatives

**Class 04**

(3) Lubricating oils and greases for industrial use; general purpose greases; industrial oils and greases; non- chemical fuel additives; lubricants, namely, grinding fluids and lubricating greases, being comprised of silicone

**Class 17**

(4) Adhesive sealants and caulking compound; silicone rubber; urethane rubber; silicone sealants; silicone elastomer resins in powder, oil and gel forms for industrial use; industrial sealants, namely, general purpose sealants, polyurethane sealants, silicone sealants, adhesive sealant compounds; insulating and protective interlayer dielectric materials and coatings, comprised of silicone, for use in integrated circuits, semiconductors, computer disk drives and computer hardware; insulators for electrical purposes, namely, electrical insulators made of silicone; insulating materials, namely, insulating materials made of silicone for use in insulating glass and for use in the electrical and electronics industry and in building construction

### Colour Claim

Colour is claimed as a feature of the trade-mark. The hexagonal shape is divided into equal-sized polygonal diamond-shaped thirds. A third to the left is yellow, a third on the upper right is green, and a third on the bottom right is blue. Within each third, the polygonal third is divided into four triangles that converge at an outmost point of that third. Ombré effects and slight differences in tone are used to make the four respective triangles discernable within each third. The text is in dark grey.

### Goods

#### Class 09

Artificial intelligence (AI) software featuring explainable AI (XAI) and systems of intelligence namely, artificial intelligence based software for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analytics, predictive modeling, recognition, namely, object-character recognition, object detection and computer vision, classification of third party data, data segmentation, regression, decision support and visualization; artificial intelligence based software for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analytics, predictive modeling, recognition namely, object-character recognition, object detection and computer vision, classification of third party data, data segmentation, regression, decision support and visualization; systems of intelligence consisting of artificial intelligence computer software and computer hardware; computer software for document management; computer programmes for document analysis and processing in the field of insurance; network security software; computer software for ensuring data integrity; security software for mobile electronic devices; electronic mail security software; computer software for driver assistance systems namely, software for the operation of self-driving cars; computer software for pilot assistance systems namely, software for the operation of self-driving airplanes; computer software for processing digital images, digital signal processing, proximity sensors for crash detection and for the automated control of motor vehicle steering systems and motor vehicle braking systems; navigation software for motor vehicles; computer software for logistics namely, software for planning, scheduling, coordinating, and tracking vehicles, documents, packages and freight; motor vehicle onboard computers for navigation and vehicle safety.

### Services

**Class 35**

(1) Business administration consulting services in the field of artificial intelligence; market analysis; artificial intelligence based market analysis services; business management analysis; business data analysis; marketing analysis services; providing business intelligence services; records management services, namely document indexing for others.

**Class 36**

(2) Funds investment management, advisory and consulting services in the field of artificial intelligence technology transfer, corporate structuring and financing; financial analysis; artificial intelligence based financial analysis services; investment risk assessment services; artificial intelligence based investment risk assessment services; consulting and information concerning insurance; financial evaluation for insurance purposes; insurance claims processing; assessing insurance claims; insurance information and consultancy; electronic processing of insurance claims and payment data; fraud detection services in the field of insurance; insurance claims auditing services; insurance consultancy.

**Class 39**

(3) Advisory services relating to the storage and transportation of goods; advisory services relating to the tracking of goods in transit; computerized transportation information services namely providing information about storage, providing traffic and congestion information, providing information about road conditions, rail conditions and providing travel information services; consultancy in the field of air, rail and road transport; providing directions for travel purposes; tracking of passengers, cargo, and vehicles via global positioning system; traffic information; warehousing information; freight logistics management namely, supply chain logistics and reverse logistics services for the storage and delivery of goods for others by air, rail, ship, drone or truck; supply chain management services.

**Class 42**

(4) Computer technology consultancy services; computer technology consultancy services in the nature of software development and computer modeling services in the field of artificial intelligence technology solutions and software products for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modelling, recognition, segmentation, regression, decision support and visualization; providing artificial intelligence based analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analytics, predictive modelling, recognition namely, object-character recognition, object detection and computer vision, classification of third-party data, data segmentation, regression, decision support and visualization services; Research, development, design, technical consulting and maintenance of business software; Computer software design and updating, computer software design for others; design and development of software; design and development of computer interfaces; design and development of software architectures; software as a service (SAAS) provider in the field of artificial intelligence based software products for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analysis, predictive modelling, recognition namely, object-character recognition, object detection and computer vision, classification of third-party data, data segmentation and visualization of all sectors of business data; artificial intelligence (AI) as a service (AIAAS) provider in the field of artificial intelligence based software products for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analysis, predictive modelling, recognition namely, object-character recognition, object detection and computer vision, classification of third-party data, data segmentation and visualization of all sectors of business data; technological consulting namely, consulting in the fields of computer software, computer

hardware, and computer security; technological consulting in the field of artificial intelligence; research and development of new products and services for others; research and development in the field of artificial intelligence; development of standards for others in the field of artificial intelligence; implementation of standards for others in the field of artificial intelligence; evaluation of the standards of others in the field of artificial intelligence; facilitation services relating to the development and setting of standards in the field of artificial intelligence; consulting services relating to the development and setting of standards in the field of artificial intelligence, including explainable AI (XAI); computer security services; development of security systems and contingency planning for information systems; computer security consultancy services; internet security consultancy services; computer network security services; computer security threat analysis for protecting data; maintenance of computer software relating to computer security and prevention of computer risks; design and development of electronic data security systems; computer security consultancy; software as a service (SAAS) provider in the field of computer software for document management; software as a service (SAAS) provider in the field of computer programmes for document analysis and processing in the field of insurance; software as a service (SAAS) provider in the field of network security software; software as a service (SAAS) provider in the field of computer software for ensuring data integrity; software as a service (SAAS) provider in the field of security software for mobile electronic devices; software as a service (SAAS) provider in the field of electronic mail security software; software as a service (SAAS) provider in the field of computer software for driver assistance systems namely, providing access to non-downloadable software for the operation of self-driving cars; software as a service (SAAS) provider in the field of computer software for pilot assistance systems namely, providing access to non-downloadable air traffic control software and non-downloadable software for use in piloting aircraft and pilotless aircraft; software as a service (SAAS) provider in the field of computer software for processing digital images, digital signal processing, proximity sensors for crash detection and for the automated control of motor vehicle steering systems and motor vehicle braking systems; software as a service (SAAS) provider in the field of navigation software for motor vehicles; software as a service (SAAS) provider in the field of computer software for logistics namely, providing access to non-downloadable software for planning, scheduling, coordinating, and tracking vehicles, documents, packages and freight; electronic document authentication services; digitization of documents [scanning]; conversion of data or documents from physical to electronic media; advisory and consulting services for consortium management, namely the operation of joint ventures and projects related to business software; providing artificial intelligence based trading platforms namely, platform as a service (PAAS) featuring AI computer software for use in the field of financial services for trading equities, debt, credit, swaps, futures, securities and derivatives; providing information about weather conditions, sea conditions, air conditions.

Artificial intelligence (AI) software featuring explainable AI (XAI) and systems of intelligence namely, artificial intelligence based software for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analytics, predictive modeling, recognition, namely, object-character recognition, object detection and computer vision, classification of third party data, data segmentation, regression, decision support and visualization; artificial intelligence based software for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analytics, predictive modeling, recognition namely, object-character recognition, object detection and computer vision, classification of third party data, data segmentation, regression, decision support and visualization; systems of intelligence consisting of artificial intelligence computer software and computer hardware; computer software for document management; computer programmes for document analysis and processing in the field of insurance; network security software; computer software for ensuring data integrity; security software for mobile electronic devices; electronic mail security software; computer software for driver assistance systems namely, software for the operation of self-driving cars; computer software for pilot assistance systems namely, software for the operation of self-driving airplanes; computer software for processing digital images, digital signal processing, proximity sensors for crash detection and for the automated control of motor vehicle steering systems and motor vehicle braking systems; navigation software for motor vehicles; computer software for logistics namely, software for planning, scheduling, coordinating, and tracking vehicles, documents, packages and freight; motor vehicle onboard computers for navigation and vehicle safety.

### Services

#### Class 35

(1) Business administration consulting services in the field of artificial intelligence; market analysis; artificial intelligence based market analysis services; business management analysis; business data analysis; marketing analysis services; providing business intelligence services; records management services, namely document indexing for others.

**Class 36**

(2) Funds investment management, advisory and consulting services in the field of artificial intelligence technology transfer, corporate structuring and financing; financial analysis; artificial intelligence based financial analysis services; investment risk assessment services; artificial intelligence based investment risk assessment services; consulting and information concerning insurance; financial evaluation for insurance purposes; insurance claims processing; assessing insurance claims; insurance information and consultancy; electronic processing of insurance claims and payment data; fraud detection services in the field of insurance; insurance claims auditing services; insurance consultancy.

**Class 39**

(3) Advisory services relating to the storage and transportation of goods; advisory services relating to the tracking of goods in transit; computerized transportation information services namely providing information about storage, providing traffic and congestion information, providing information about road conditions, rail conditions and providing travel information services; consultancy in the field of air, rail and road transport; providing directions for travel purposes; tracking of passengers, cargo, and vehicles via global positioning system; traffic information; warehousing information; freight logistics management namely, supply chain logistics and reverse logistics services for the storage and delivery of goods for others by air, rail, ship, drone or truck; supply chain management services.

**Class 42**

(4) Computer technology consultancy services; computer technology consultancy services in the nature of software development and computer modeling services in the field of artificial intelligence technology solutions and software products for data analysis, pattern discovery, process automation, contextual prediction, predictive analytics, predictive modelling, recognition, segmentation, regression, decision support and visualization; providing artificial intelligence based analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analytics, predictive modelling, recognition namely, object-character recognition, object detection and computer vision, classification of third-party data, data segmentation, regression, decision support and visualization services; Research, development, design, technical consulting and maintenance of business software; Computer software design and updating, computer software design for others; design and development of software; design and development of computer interfaces; design and development of software architectures; software as a service (SAAS) provider in the field of artificial intelligence based software products for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analysis, predictive modelling, recognition namely, object-character recognition, object detection and computer vision, classification of third-party data, data segmentation and visualization of all sectors of business data; artificial intelligence (AI) as a service (AIAAS) provider in the field of artificial intelligence based software products for analysis of third-party data, pattern discovery, business process automation, contextual prediction, predictive analysis, predictive modelling, recognition namely, object-character recognition, object detection and computer vision, classification of third-party data, data segmentation and visualization of all sectors of business data; technological consulting namely, consulting in the fields of computer software, computer hardware, and computer security; technological consulting in the field of artificial intelligence; research and development of new products and services for others; research and development in the field of artificial intelligence; development of standards for others in the field of artificial intelligence; implementation of standards for others in the field of artificial intelligence; evaluation of the standards of others in the field of artificial intelligence; facilitation services relating to the

development and setting of standards in the field of artificial intelligence; consulting services relating to the development and setting of standards in the field of artificial intelligence, including explainable AI (XAI); computer security services; development of security systems and contingency planning for information systems; computer security consultancy services; internet security consultancy services; computer network security services; computer security threat analysis for protecting data; maintenance of computer software relating to computer security and prevention of computer risks; design and development of electronic data security systems; computer security consultancy; software as a service (SAAS) provider in the field of computer software for document management; software as a service (SAAS) provider in the field of computer programmes for document analysis and processing in the field of insurance; software as a service (SAAS) provider in the field of network security software; software as a service (SAAS) provider in the field of computer software for ensuring data integrity; software as a service (SAAS) provider in the field of security software for mobile electronic devices; software as a service (SAAS) provider in the field of electronic mail security software; software as a service (SAAS) provider in the field of computer software for driver assistance systems namely, providing access to non-downloadable software for the operation of self-driving cars; software as a service (SAAS) provider in the field of computer software for pilot assistance systems namely, providing access to non-downloadable air traffic control software and non-downloadable software for use in piloting aircraft and pilotless aircraft; software as a service (SAAS) provider in the field of computer software for processing digital images, digital signal processing, proximity sensors for crash detection and for the automated control of motor vehicle steering systems and motor vehicle braking systems; software as a service (SAAS) provider in the field of navigation software for motor vehicles; software as a service (SAAS) provider in the field of computer software for logistics namely, providing access to non-downloadable software for planning, scheduling, coordinating, and tracking vehicles, documents, packages and freight; electronic document authentication services; digitization of documents [scanning]; conversion of data or documents from physical to electronic media; advisory and consulting services for consortium management, namely the operation of joint ventures and projects related to business software; providing artificial intelligence based trading platforms namely, platform as a service (PAAS) featuring AI computer software for use in the field of financial services for trading equities, debt, credit, swaps, futures, securities and derivatives; advisory and consulting services for standardization of technology namely, computer hardware and computer software; providing information about weather conditions, sea conditions, air conditions.
