Trademarks Journal

2019-12-18 — Vol. 66 No. 3399

Trademarks Journal

Vol. 66 No. 3399

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 09

(1) navigational instruments featuring in-vehicle communication service providing wireless vehicle navigation and tracking, consisting of computers, computer software, transmitters, receivers, and network interface devices; navigation computers for cars; navigation apparatus for vehicles in the form of on-board computers; satellite navigational apparatus, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; satellite-aided navigation systems, namely, global navigation satellite systems (GNSS) consisting of global navigation system satellites, receivers, transmitters, computer software and network interfaces; measuring and surveying instruments and apparatus, namely, positioning infrastructure systems of GPS/GNSS comprising of transmitter, receiver, reference station, power supply, wired and wireless communications link, cabling, computer hardware and computer software for automatic determination of geographic position, both indoor and outdoor, for instruments for surveying; navigation apparatus for vehicles in the form of on-board computers; Global Navigation Satellite System (GNSS) and Global Positioning System (GPS) components, equipment, software, and solutions for guidance, heading, machine control, mapping, and position control, namely GNSS and GPS receivers; satellite navigation and positioning systems anti-jamming devices, namely, antennas, computer hardware, software, and firmware for attenuating interfering signals and allowing global navigation satellite system receivers to acquire and track signals from satellite positioning systems; software for satellite navigation systems and global positioning systems; global satellite navigation systems with integrated inertial measurement unit consisting of computers, global navigation system satellites, receivers, transmitters, computer software, network interfaces and an integrated inertial measurement unit; global navigation satellite system receivers, software for operating global navigation satellite system receivers, receiver circuit boards; components for GPS systems and devices (GNSS), namely electronic docking stations, antennae, transmitters, and receivers; graphical user interfaces for global navigation satellite system (GNSS) receivers; global positioning receivers; Global Navigation Satellite System (GNSS) receivers; wearable activity trackers; directional compasses; electronic tags for goods; surveying apparatus and instruments, namely, lasers for surveying, lasers for land surveying, level measuring machines for surveying, leveling rods for surveying, magnetic

compasses for surveying, tripods for surveying machines; surveying instruments, namely, surveying total stations, Electronic distance measurement devices, namely, handheld distance laser meters, total stations (theodolites), data collection software for use with lasers for surveying, levelling rods for surveying, surveying instruments, transits for surveying, coordinate measuring machines, linear image sensors, tilt sensors, namely, laser inclination sensors, laser range finders, levels, namely, surveyor's levels, telescopes for distance measurements, automatic focusing devices, namely, laser light projectors, laser scanners; electric monitoring apparatus for monitoring electric current and electrical signals, namely ammeters; levelling instruments, namely, level gauges and level indicators; surveyors' levels; theodolites; precision measuring apparatus, namely, laboratory balances; telemetry-based measuring apparatus, telemetry-based measuring instruments, namely, Global Positioning System [GPS] transmitters, computer hardware; computer hardware containing embedded computer software to process sensor data and transmit sensor data in the fields of monitoring, security, defense, aviation, electric utility applications, oil and gas applications, water utility applications, communications, information processing, and information technology; hygrometers; temperature indicators in the nature of temperature gauges and temperature sensors; hydrometers; air analysis apparatus in the nature of temperature sensors and temperature gauges; levels, namely, surveyor's levels; salinometers; photometers; radar apparatus, namely, radar detectors, radar transmitters and radar receivers; pressure measuring apparatus in the nature of pressure sensors and pressure gauges; pressure indicators in the nature of pressure sensors and pressure gauges; speed checking apparatus for vehicles, namely, radar detectors; laser speed detectors; electronic speed controllers; ergometers; Electrical control systems for the control of industrial operations in the field of monitoring, security, defence, aviation, electric utility applications, oil and gas applications, water utility applications, communications, information processing, and information technology; electric installations for the remote control of industrial operations in the field of monitoring, security, defense, aviation, electric utility applications, oil and gas applications, water utility applications, communications, information processing, and information technology; frequency meters; flowmeters; clinometers; avionics systems for remote-piloted vehicles or unmanned air vehicles (UAV), namely, navigation systems, namely, navigation computers for aircrafts, aircraft altitude indicators, aircraft speed sensors; gauges, namely, water level gauge measuring systems; measuring rulers; photon detectors; infrared detectors; sensors for measuring depth; sensors for unmanned aerial vehicles (UAV), namely, sensors for the determination of temperatures, proximity and distance; measuring apparatus, namely, laser distance meters; range finders, namely, telemeters; micrometers; optical goods, namely, eyepieces for autocollimators; optical lenses; close-up lenses, namely, magnifying lenses, lenses for microscopes and zoom lenses for cameras; optical mirrors; optical prisms; optical measuring apparatus and instruments, namely optical comparators and optical micrometer gauges, optical inspection apparatus, namely, cameras and optical scanners for dimensional inspection of machined parts, digital laser levels, comparators, electronic micrometers; simulators for the steering and control of vehicles, namely, flight simulators; intercommunication apparatus, namely, intercoms; apparatus for use in phototelegraphy, namely, fibre-optic cables and coaxial cables; anode batteries, namely, galvanic batteries, electric batteries for vehicles, general purpose batteries; chargers for electric batteries, namely, chargers for electric accumulator batteries; electric regulating apparatus, namely, voltage regulators; electrical inductors, namely, electric coils; comparators; integrated circuits, integrated circuit cards in the nature of smart cards containing programming used to authenticate users for secure access to software and applications in the field of cloud computing; radio transmitters, radio receivers, combined radio transmitter and receiver devices, radio equipment, namely, radio relay cables, parts and accessories for all the aforementioned goods; wireless telegraphic and telecommunication equipment, namely, cellular telephones and their component parts; cellular telephone accessories, namely, cell phone

batteries and cell phone chargers; Cellular telephones, wireless modems and routers, telecommunications systems, namely, cellular telephones, modems, network routers; interactive touch screen terminals; scanners and data processing equipment, namely, digital input and output scanners, image scanners, laser scanners, and computers; humanoid robots with artificial intelligence; central processing units; electronic agendas; electronic notice boards; electronic interactive whiteboards; electronic book readers; encoded identity cards; secure Digital (SD) Memory Cards; cameras [photography]; photographic viewfinders; cases especially made for photographic apparatus and instruments; film editing and video editing equipment; computer monitors; local area network (LAN) routers; wide area network (WAN) routers; satellite aerials; computer hardware; ruggedized computer hardware; computer central processing units; virtual reality headsets; mathematical instruments, namely, calculators; smartglasses; recorded computer programs, namely, computer operating system software; computer operating programs, recorded; computer programs, namely, downloadable software for word processing; downloadable computer software applications for database management; downloadable computer graphics; interface boards for computers, interface cards for computers; monitors and computer programs for user interface design; downloadable electronic publications, namely, newsletters; computer software for scanning images and documents; computer software for the management and visual representation of complex information; computer software for the management and analysis of business operation and management data; computer software for the integration of application software; computer software for the design, engineering, construction, production, operation, maintenance and lifecycle management of manufacturing, power and process plants, ships, offshore platforms and other marine structures; computer software for emergency response management; computer software for jail records management; computer software for editing videos and enhancing video image quality; computer software for alarm display and common operational picture display, namely, computer display monitor software; infrastructure management software to control and monitor hydroelectric power; facilities management software to control building environment access and security systems; asset management software to track, categorize and monitor financial investments; land management software for the management of land title registry systems; software for processing global positioning and navigation data for surveying, mapping, trajectory re-construction; computer software for the management of images and geospatial data computer software for geospatial mapping, earth imaging and developing infrastructure systems for buildings; computer software for the management and analysis of geographic land data; software for navigating and determining position, velocity, alignment and altitude for post-mission determination of navigation parameters and sensor orientation of land vehicles, airplanes, unmanned aerial vehicles and boats; computer software for calculating correction factors for use with global navigation satellite systems; software for agricultural applications and purposes, namely, for use in monitoring, measuring, forecasting, reporting, and analyzing agricultural data; agricultural and farming software applications for database management; computer software for use in the fields of farming, agriculture, horticulture, crop protection and fertilisers, namely, software for monitoring and analyzing crop growth; crop simulation software, namely, software for use simulating growth of agricultural crops, software for the agricultural industry, namely, computer software for the collection, editing, organizing, modifying, transmission, storage and sharing of agricultural data and information; computer software and hardware systems for remotely monitoring environmental conditions for the agricultural industry; computer hardware and software for tracking, recording, storing, monitoring, and analyzing agricultural data; software for the management, presentation and analysis of agricultural data, software for the creation of control regimes for all of the aforementioned control systems; software for use in connection with agricultural machines and apparatus, namely, software for monitoring and controlling communication between computers and agricultural

machines, namely, tractors; computer software for use with agricultural and farming machines, equipment and vehicles, namely, computer software for operating tractors; computer software for testing, monitoring, and operating vehicles, equipment, machines, and parts therefor, for use in agriculture, forestry and mining, namely, computer software for testing, monitoring and operating global positioning system (GPS) on-board tractors, milling, mining and earth digging machines; electronic equipment and parts therefor, namely, on-board computers for the operation and control of machines, machine tools, and parts therefor, for use in agriculture, forestry and mining, namely, tractors, milling, mining and earth digging machines; computer software for transportation management, scheduling and dispatching, namely computer software for fleet management; computer software for engaging and coordinating transportation services, namely, trucking management software for coordinating shipments and deliveries; computer software, namely software for logistics in the field of forestry and agriculture, namely, software for the planning and optimization of planting, harvesting and shipping; computer software for freight forwarding; computer software for planning freight delivery routes; computer software for vehicle fleet management; electronic control mechanism used with a global positioning system (GPS) receiver to provide automatic shutoff on agricultural spray equipment; Computer software for geologic modeling, mine design, mine planning and surveying and mining operations in the field of mineral mining applications; computer software and microcontroller software and programmable controls and logistics software, namely, software for tracking and optimizing the delivery of documents, packages, freight; computer software for supply chain logistics and reverse logistics services consisting of the transportation of goods for others by air, rail, ship or truck; Fatigue detection systems not for medical purposes, for informing the driver to remain vigilant and of his/her fatigue levels, comprised of cameras, electronic sensors, namely electric sensors for monitoring eye movements to gather data, and computer software for recording, analysing, communication and interpretation of the eye movements, as well as of a web interface; electronic collision avoidance systems, namely, display monitors, computers, image sensors, video cameras, and operating system and application software to detect vehicle collisions; software instruction manuals in electronic format

Class 12

(2) unmanned aerial vehicles; unmanned aerial vehicles (UAV) and components thereof

Services**Class 37**

(1) rental of construction equipment; building construction supervision; construction consultancy, namely, advisory and consultancy services relating to construction of buildings; installation and repair of electric motors in mining machines; installation, maintenance and repair of mining machinery; installation, maintenance and repair of computer hardware, hardware systems and networks; maintenance of computer hardware for network security

Class 42

(2) analysis for oil-field exploitation; technical research in the field of computer engineering, civil engineering, mechanical engineering, environmental engineering; calibration of electronic equipment; computer software project management services; providing quality control for the computer software industry; providing quality control advisory services in the field of computer software; engineering surveying services; consultancy in the field of energy-saving; analysis of stream water quality; cartography services; computer information technology consultancy; computer services in the field of geospatial data analysis and management; GNSS correction services, namely providing corrections data via geostationary satellites for scalable accuracy and seamless real time kinematic (RTK) assistance for land, marine and airborne applications;

architectural services; architectural consultancy; construction drafting; urban planning; industrial design; design and development of computer simulation software in the field of supply chain logistics; data model development services, namely, development of computer software for data modeling; computer system design; web site design consultancy; software development and advisory services in the field of computer aided graphic design (CAD); software development and advisory services in the field of computer-aided manufacturing (CAM); software development and advisory services in the field of computer-aided engineering (CAE); software development and advisory services in the field of computer-aided quality assurance (CAQ); geological surveys; oil-field surveys; geological research; underwater exploration; computer services, namely data migration and complete data integration services; testing of computer systems and software; monitoring of computer systems by remote access; outsourcing computer software development; internet security consultancy; data security consultancy; duplication of computer programs; conversion of data or documents from physical to electronic media; digitization of documents [scanning]; software as a service provider in the field of software for converting data or documents from physical to electronic media ; data encryption services; computer rental; leasing of computer hardware and computer software; rental of web servers; leasing of computer hardware and technical support; rental of computer software; hosting computer sites [web sites]; software as a service SaaS, featuring software for use in database management; server hosting; off-site data backup, namely, providing cloud computing services for backup storage of data; cloud computing provider services for general storage of data; cloud computing, namely, cloud hosting provider services; computer programming; computer software design; updating of computer software; computer systems integration; development of web sites, namely design and implementation of web applications for others; creating and designing website-based indexes of information for others [information technology services]; research and development of new products for others; maintenance of computer software; installation of computer software; technical support in the form of troubleshooting of computer software problems; installation, maintenance and repair of agricultural software; consultancy in the design and development of computer hardware; design and development of computers and software for the agricultural sector; consultancy in the field of design and development of computer systems; network security services, namely assistance, design, assessment, evaluation, selection, implementation, monitoring and management of computer hardware and software for network security for others; network security software maintenance; computer system security monitoring services for others for technical purposes; recovery of computer data; monitoring of computer systems to detect breakdowns; monitoring of computer systems for detecting unauthorized access or data breach; computer network analysis, consultation, design, configuration, integration; consultancy in the field of computer networks; checking and testing of computer hardware and software in the context of technical network management; computer services, namely monitoring of network application software and testing of optimal software performance; computer software consultancy; computer software consultation, design, development, installation, configuration, integration, maintenance, upgrading, testing, repair for others information technology support services, namely helpdesk services for others; Computer hardware consultation, design, configuration for others; providing information in the field of computer hardware and software design, network configuration and programming via a web site; computer security consultancy

Colour Claim

Colour is claimed as a feature of the trade-mark. The colour teal (CMYK color system, code 85/0 /30/0) is claimed as a feature of the mark. The mark consists of a series of irregular sized teal dots forming a diamond pattern.

Goods

Class 09

(1) Personal electronic devices, namely smart watches, wearable activity trackers, and smart bathroom scales used to track fitness goals and statistics; wearable activity trackers; portable digital electronic devices, namely smart watches, wearable activity trackers, and smart bathroom scales for recording, organizing, transmitting, manipulating, reviewing, and receiving text, data, and digital files; wearable electronic devices, namely, watches, bracelets, and wristbands that are comprised of software that communicates physical activity, human biometric and geographical data to personal digital assistants, smart phones, and personal computers through Internet websites and other computer and electronic communication networks; wearable digital electronic devices, namely smart watches and wearable activity trackers comprised primarily of software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating,

reviewing, and receiving text, data, audio, image and digital files and display screens; cables, namely charging cables; computer peripheral devices, namely wearable electronic devices, namely earbuds, earphones, headphones, smartwatches, and wearable activity trackers, and software used to send and receive user-generated and user-selected information, and to automatically exchange operational information between such devices and a computer and smartphone for operating, controlling, monitoring, managing and connecting thereto; computers; sensors for scientific use to be worn by a human to gather human biometric data; software for alerts, messages, emails, and reminders, and for recording, organizing, transmitting, manipulating, reviewing, and receiving text, physical activity, human biometric and geographical data, audio, digital images and digital video files; computer hardware; computer software development tools, namely computer software code that enables developers to create software applications and clock faces for use on smart watches and wearable activity trackers; computer application software for smartphones and mobile devices to support corporate wellness programs, namely software that enables users to manage their employee accounts, to schedule and track employee participation, to facilitate employee participation in wellness challenges, and to track, manage and encourage employee health and fitness; computer application software for smartphones and mobile devices in the fields of fitness and exercise featuring personal fitness training services, coaching, workouts and fitness assessments; mobile application software for creating personalized fitness training programs; General wellness instruments and apparatus, namely smart watches and wearable activity trackers for storing, relaying, tracking, measuring and displaying biometric data, body movement, sleep, heart rate, and calories burned; general wellness instruments and apparatus namely smart watches and wearable activity trackers for estimating maximal oxygen consumption

Class 10

(2) Medical devices for measuring body weight and estimating body fat percentage

Class 14

(3) Watches; timepieces; watch straps; watch bands; jewelry; bracelets; pendants

Services**Class 42**

(1) Non-downloadable computer software for tracking fitness, physical health and wellness goals and statistics; non-downloadable computer software for displaying, aggregating, analyzing and organizing data and information in the fields of physical health, wellness, fitness, physical activity, weight management, sleep, and nutrition; application service provider, featuring application programming interface (API) software for allowing data retrieval, upload, access, management, tracking, and analyzing of user data gathered from smart watches, wearable activity trackers, smart bathroom scales and manually entered logs; Software as a service (SaaS) for use in designing, creating and analyzing data, metrics and reports in the areas of physical health, fitness, sleep, nutrition and wellness; design and development of computer hardware and software; scientific and technological services and research and design relating thereto, all in the fields of physical health, wellness, fitness, physical activity, weight management, sleep, nutrition, and corporate wellness programs; technical support and consultation services for developing computer systems, databases and applications; non-downloadable software for creating personalized fitness training programs; non-downloadable software for providing personal training services, workouts and fitness assessments; software as a service (SaaS) that enables users to manage employee accounts, schedule and track employee participation, and facilitate and manage corporate fitness and wellness programs

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of a rectangle segmented in two squares. The upper square includes a dark blue top border, and below the border is a drawing of two women, with black hair, wearing traditional Korean clothing. The woman on the left is wearing a red dress with blue accents, green shawl and a yellow scarf. The woman on the right is wearing a red blouse and a white skirt. The women are standing on white clouds and they are surrounded on the left and right with blue and tan (PANTONE 155)* mountains. To the lower right of the women appears blue, green, brown, tan (PANTONE 155)* and black inter-wound trees. To the upper right of the mountains to the right of the women appear black flying birds and one non-Latin stylized character in tan (PANTONE 155)* on a dark blue background connected to the dark blue top border. The lower square consists of red background with a light brown top border and a light brown bottom border. Within the upper light brown border is the number '6' and two small non-Latin characters, a large non-Latin character, a vertical line, the number '20', then four small non-Latin characters, all in black. In the middle of the lower square is a blue rectangle surrounded on the right and left sides by five equally sized small light brown rectangles, and below the small rectangles is one long light brown rectangle. The blue rectangle has a double border lines appearing in dark blue. Within the double border is a dark blue rectangle with a single outside

border line. Appearing between the double border lines and the dark blue rectangle is a blue border with designs of dark blue flowers and various intersecting dark blue lines to create the appearance of broken glass. In the center top of the blue border appears two non-Latin characters in light brown. The dark blue rectangle is segmented by light brown lines, from top to bottom, into a top rectangle, a square with a left bordering rectangle, a right bordering rectangle and a bottom rectangle. The top rectangle has three non-Latin characters appearing above three more non-Latin characters, all in light brown. Inside the square appears another light brown square, and inside that square is a non-Latin character in light brown. Below the non-Latin character inside the square are two non-Latin characters with number twenty in light brown. Inside the rectangle bordering the square to the left are four non-Latin characters in light brown appearing vertically. Inside the rectangle bordering the square to the right is the number six in light brown, and below the number six appears two non-Latin characters in light brown appearing vertically. The bottom rectangle inside the border has six non-Latin characters in light brown. Underneath the blue rectangle is the wording 'KOREA GINSENG CORP' followed by a design of a flower and leaves, all in light brown (*PANTONE is a registered trademark).

Foreign Character Translation

As provided by the applicant, the English translation of the word 'Yang' is 'Good'. The English translation of '6 nyeon-geun', 'Yang 20' and 'Dae Han Min Guk' are '6 year old roots', 'Good 20' and 'Republic of Korea', respectively. The English translation of 'Bing Pyeo' is 'Mark for Proof.' The English translation of 'CheongKwanJang' is 'High Ranking Government Official'. The English translation of 'Koryo sam' is 'Korean ginseng'. The English translation of 'Hanguk Insam Gongsang' is 'KOREA GINSENG CORPORATION'. The English translation of the 'Jik Sam il Gen' is '600 grams of Ginseng dried straight from the land'. The English translation of '6 nyeon-geun' is '6 year old root'. The English translation of the word 'Yang' is 'Good'. The English translation of 'Yang Sam 20' is 'The third rank of Ginseng 20'. The English translation of 'Hanguk Insam Gongsang' is 'Korea Ginseng Corporation'.

Foreign Character Transliteration

As provided by the applicant, the transliteration of the non-Latin character shown in the top right hand corner is 'Yang.' The transliteration of the three non-Latin characters that appear in the middle banner, from left to right are '6 nyeon-geun', 'Yang 20' and 'Dae Han Min Guk'. The transliteration of the non-Latin character that appears in upper portion of the blue rectangle is 'Bing Pyeo'. The transliteration of the non-Latin character that appears at the top of the dark blue rectangle is 'CheongKwanJang'. The transliteration of the non-Latin character that appears immediately below the non-Latin character for 'CheongKwanJang' is 'Koryo sam'. The transliteration of the non-Latin character that appears at the bottom of the dark blue rectangle is 'Hanguk Insam Gongsang'. The transliteration of the non-Latin character that appears horizontally on the left side of the dark blue rectangle is 'Jik Sam il Gen'. The transliteration of the non-Latin character that appears horizontally on the right side of the dark blue rectangle is '6 nyeon-geun'. The transliteration of the non-Latin character that appears in the center of the lower portion of the dark blue rectangle is 'Yang'. The transliteration of the non-Latin character that appears immediately below the non-Latin character 'YANG' in the center of the lower portion of the dark blue rectangle is 'Yang Sam 20'. The transliteration of the non-Latin character that appears at the bottom of the blue rectangle is 'Hanguk Insam Gongsang'.

(1) Telecommunication devices and apparatus, namely, mobile telephone transmission towers, satellite phones, smart phones, voip phones; mobile phone accessories, namely, docking stations for mobile phones, dustproof plugs for mobile phone jacks, keyboards for mobile phones, lanyards for mobile phones, batteries for mobiles phones, mobile phone chargers, stands adapted for mobile phones, USB cables for mobile phones, and wireless headsets for use with mobile phones; loudspeakers; headphones; earphones; telephones; audio- and video-receivers; electric capacitors for telecommunication apparatus; electro-dynamic speed controller for the remote control of braking signals; Global Positioning System (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; hands free kits for phones; high-frequency apparatus, namely, high-frequency meters, and high-frequency switching power supplies; intercommunication apparatus, namely, intercoms; microphones; electric monitoring apparatus, namely, car video monitors, electric car battery monitoring system consisting of computer software for managing storage batteries for vehicles, proximity sensors for crash detection; navigation apparatus for vehicles, namely on-board computers; radar apparatus, namely, radars; remote control apparatus, namely, remote controls for operating vehicle alarms, remote controls for radios, and remote controls being electronic key fobs; satellite navigational aerials, processors, receivers, transmitters; sound and image recording apparatus namely, audio and video event recorders for security purposes, and video cameras; blank sound recording carriers, namely, LP cylinders, LP records, cassettes, compact discs, digital versatile discs, magneto-optical discs; sound reproduction apparatus, namely, phonographs, record players, gramophones, cassette players, stereos, DVD players, and digital voice recorders; sound transmitting apparatus, namely, echo sounding devices, sound amplifiers, audio speakers, sound projectors, and digital sound processors; transmitters of electronic signals, namely, radio transmitters, television transmitters, emergency signal transmitters, GPS transmitters, optical transmitters, and radar transmitters; vehicle radios; telecommunication machines and devices for use in assisting in improving safety of car driving, namely, collision detection systems, hands-free car speaker phones and personal text message reading, hands-free location tracking; car stereos; car televisions; smartphones; cases for smartphones; radios, two-way radios, and short-range communication (DSRC) radios;

communication radios for vehicles, two-way radios for vehicles, and short-range communication (DSRC) radios for vehicles; computer programs and software for wireless reception, storage and transmission of data and messages, namely, to provide Internet access, access to wireless local area networks, and to permit the sharing and storage of the user's mobile phone information and personal text messages with the car; electronic machines and apparatus, namely, cyclotrons [not for medical purposes], industrial x-ray machines, industrial betatrons, magnetometers, magnetic object detectors, seismic detectors, hydrophones, echo sounders, ultrasonic flaw detectors, ultrasonic sensors for use in industrial machine automation, electronic door closing control systems and electron microscopes; protective cases for personal digital assistants; computer mouse; personal computers; personal computers for vehicles; tablet computers; covers and cases for tablet computers and notebook computers; computer programs for connecting to remote computers and computer networks via mobile phones; downloadable computer software applications to provide vehicle specific information consisting of owners manuals, navigation manuals, warranty and maintenance schedules, nearby dealers, roadside assistance, safety recall notices, car service history, and how-to-use vehicle specific feature videos; recorded computer software for searching remotely for user-generated digital content on computers and computer networks; recorded computer software for using the Internet; recorded basic input output (BIOS) software; recorded computer software for setting up and configuring local area networks; recorded computer operating software; recorded computer software for controlling and managing access server applications; recorded computer software for controlling and operating laser rangefinders and laser altimeters; recorded computer software for global positioning systems; recorded computer software for two and three-dimensional simulation for use in design and development of motor vehicles; recorded computer software for use in providing multiple user access to a global computer network; recorded computer software for facial recognition; recorded computer software for gesture recognition; recorded computer software to operate and access virtual private networks (VPN); data processing apparatus, namely, computer central processing units; blank magnetic disks; electronic agendas; electronic book readers; electronic pocket translators; electronic tags for goods; blank integrated circuit cards; electronic control apparatus and instruments for vehicles, namely, electric control panels for vehicles; electronic display monitors for vehicles; mouse pads; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer software platforms to operate and manage car-sharing and ride-sharing programs; computer software platforms to customize and operate self-driving cars; computer software platforms to provide Internet access, access to wireless local area networks, to permit the sharing of the user's mobile phone information with the car; computer software platforms to operate and manage autonomous car food, flower and third-party product delivery; electron tubes; semiconductors; electronic circuits, not including those recorded with computer programs; computer programs and software for car navigation systems; electronic navigational and positioning apparatus and instruments, namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; charging stations for electric vehicles; battery chargers for electric vehicles; electricity meters having functions of controlling electricity utilization and of storing electricity, for use with battery charging devices for electric vehicles, lighting systems, and parking fee collection devices located at parking lots; power storage systems comprised of a power storage unit, namely, automotive batteries, a charging device namely, automotive batteries chargers, and electrical converter; automatic remote electricity consumption meters transmitting usage information through internet; electric control panels; measuring apparatus and instrument, namely, electromagnetic measuring detectors; sensors, namely, distance sensors, pressure sensors, speed sensors, acceleration sensors, motion sensors, and temperature sensors; detectors, namely, laser speed detectors, motion detectors, object proximity detectors for automobiles, and radar detectors; computer software for

analyzing and measuring vehicle engine performance; power distribution or control machines and apparatus, namely, power distribution transformers; rotary converters; phase modifiers; electrical cells and batteries for electric cars, and autonomous cars; electricity and magnetic flow meters and testers; electric wires and cables; electronic control systems for automobiles brakes.

Class 12

(2) Automobiles and structural parts therefor; electrically powered motor vehicles; electric tricycles; buses; trucks; ambulances; racing cars; amphibious vehicles; snowmobiles; armored vehicles; fork lift trucks; camping cars; tractors; trailers; trolley buses; hearses; structural parts for buses; structural parts for trucks; automobile bodies; automobile bonnets; automobile bumpers; automobile chassis; automobile dashboards; automobile doors; automobile door handles; automobile hoods; automobile horns; automobile seats; automobile seat covers; automobile sunroofs; automobile tires; automobile wheels; spokes for automobile wheels; inner tubes for automobile tires; automobile wheel rims; rearview mirrors for automobiles; automobile windows; automobile windscreens; automobile windshields; automobile convertible tops; safety belts for automobile seats; safety harnesses for automobile racing; safety harnesses for automobile seats; security harness for automobile seats; steering wheels for automobiles; steering wheel covers for automobiles; air bags for automobiles, buses and trucks; safety belts for automobile seats; seat belt pre-tensioners for automobiles; brake pedals for land vehicles; direction signals for automobiles; leather upholstery for automobile seats; leather upholstery for automobiles; cigar lighters for automobiles; shaped automobile covers; mudguards for automobiles; luggage carriers for automobiles; spare wheel holders for automobiles; automobile roof racks; headlight wipers; windscreen wipers; windscreen wiper blades; motor vehicle brake control systems for applying emergency braking at low vehicle speeds; automobile engines; engines for land vehicles; gasoline engines for land vehicles; diesel engines for land vehicles; internal combustion engines for land vehicles; motors for land vehicles; jet engines for land vehicles; turbines for land vehicles; anti-theft alarms for vehicles; two-wheeled motor vehicles, bicycles and parts and fittings for the aforesaid goods; boats and ships, other than air cushion vehicles; structural parts for boats; structural parts for ships other than air cushion vehicles; aircraft and their parts and fittings; railway rolling stock; structural parts for trains.

Services

Class 35

(1) Collection of market research information; compilation and provision of business information in the field of business management; business management analysis, consultancy and advisory services in the field of business strategy; business management services, namely, collection, management and analysis of information related to customers directory; business management services, namely, collection, management and analysis of data related to vehicles; business management services, namely, collection, management and analysis of data related to commercial business management,

Class 37

(2) Repair or maintenance of battery chargers for electric vehicles; repair or maintenance of electricity meters having functions of controlling electricity utilization and of storing electricity, for use with battery charging devices for electric vehicles, lighting systems, and parking fee collection devices located at parking lots; repair or maintenance of power storage systems comprised of a power storage unit, namely, automotive batteries, a charging device, namely, automotive batteries chargers, and electrical converter; repair or maintenance of automatic remote electricity consumption meters transmitting usage information through internet; repair or maintenance of electrical control systems for lighting systems, electrical controllers for electric vehicle driver

interfaces, electronic control circuits for electric heaters; providing information relating to the repair or maintenance of automobiles; repair or maintenance of automobiles; repair or maintenance of electronic machines and apparatus, namely, cyclotrons [not for medical purposes], industrial X-ray apparatus for vehicle screening, industrial betatrons, magnetometers, magnetic object detectors, seismic exploration machines, hydrophones, echo sounders, ultrasonic sensors, namely, ultrasonic acoustic conduits, ultrasonic acoustic couplers, ultrasonic acoustic meters, and ultrasonic acoustic transformers, electronic door closing control systems and electron microscopes; repair or maintenance of telecommunication machines and apparatus, namely, mobile telephone transmission towers, satellite phones, smart phones, and voip phones; repair or maintenance of electric motors; repair or maintenance of power distribution or control machines and apparatus, namely, power distribution transformers; repair and maintenance of power generators; repair or maintenance of measuring and testing machines and instruments, namely, electromagnetic measuring detectors.

Class 38

(3) Telecommunication services, other than broadcasting, namely, satellite telephone transmission, recording, storage and subsequent transmission of voice and text messages by telephone, provision of access to the Internet; transmission of text and voice messages via the Internet; providing access to a web messaging portal; wireless transmission of emergency distress signals.

Class 39

(4) Provision of road and traffic information; vehicle location services in the nature of providing geographic information regarding the location of vehicles on the road; car transport services, namely, chauffeur driven car hire services, car rental, and car sharing services; truck transport; taxi transport; bus transport; car sharing services; vehicle parking services; vehicle driving services, namely, autonomous shared electric vehicles, and autonomous car rental services; leasing of automobiles; providing information relating to vehicle location and operation; distribution of electricity for charging electric vehicles including electric cars and electric bicycles; providing information relating to the distribution of electricity; distribution of electricity; conducting of travel tours; travel tour guide services; travel arrangement and reservation services, other than those for temporary accommodation.

Class 42

(5) Providing programs for mobile phones via telecommunications networks for route planning; providing meteorological information; providing Internet search engines; computer programming; creation, design, development, and maintenance of web sites; programming of software for e-commerce platforms; updating of computer programs for navigation devices for vehicles; computer programming for e-commerce; rental of computers; providing computer programs for maintain and secure computer networks; hosting web sites; testing and research services relating to artificial intelligence; testing and research services relating to automobiles; testing and research services in the field of information analysis of data collected from autonomous cars; rental of electricity meters having functions of controlling electricity utilization and of storing electricity, for use with battery charging devices for electric vehicles, lighting systems, and parking fee collection devices located at parking lots; rental of electromagnetic measuring detectors; technical advice in the field of computers, automobiles and industrial machines; rental of automatic remote electricity consumption meters transmitting usage through internet; provision of map information, namely, mapping services.

Class 45

(6) On-line provision of information relating to current location of oneself; on-line provision of information relating to current location of oneself for the purpose that others can find him or her; on-line provision of information relating to current location of oneself for security purposes; on-line provision of information relating to current location of oneself for navigational purposes; on-line provision of information relating to current location of people; on-line provision of information relating to current location of people for the purpose of finding lost persons; on-line provision of information relating to current location of people for security purposes; on-line provision of information relating to current location of people for navigational purposes; provision of map information for security purposes; offering non-medical coordination assistance to emergency response providers; investigation services of vehicle condition and provision of vehicle information at the event of accident or crash; providing information from a computer database about investigation services relating to lost or stolen vehicles; security inspection services for individuals including making safety checks, providing safety information and making emergency calls on behalf of the individuals during an emergency state; providing emergency response consultation.

(4) batteries for electronic cigarettes; batteries for electronic cigars; battery chargers for electronic cigarettes; car navigation computers; carbon nanotubes for use in extremely small scale electronic and mechanical applications; cases for electronic diaries; chargers for electronic cigarettes; coin changers; coin counting and sorting machines; coin counting machines; coin sorters; coin sorting machines; coin-operated gates for car parking facilities; coin-operated gates for parking lots; coin-operated mechanisms for operating gates for car parking lots; coin-operated mechanisms for television sets; coin-operated mechanisms for vending machines; coin-operated musical automata; communications computers; computer accelerator boards; computer buffers; computer cables; computer card adapters; computer cases; computer central processing units; computer chassis; computer chips; computer chipsets; computer chipsets for use in transmitting data to and from a central processing unit; computer communications software to allow customers to access bank account information and transact bank business; computer daughterboards; computer disc drives; computer disk/disc drives; computer display monitors; computer display screens; computer e-commerce software to allow users to perform electronic business transactions via a global computer network; computer expansion boards; computer fax modem cards; computer fingerprint imaging software; computer fingerprint scanning software; computer game cartridges; computer game cassettes; computer game tapes; computer games; computer games downloadable from a global computer network; computer games for use on mobile and cellular phones; computer graphics boards; computer graphics cards; computer hardware; computer hardware and computer software for database management; computer hardware and software for database management; computer hardware and software for setting up and configuring local area networks; computer

hardware for network access servers; computer hardware for telecommunications; computer heat sinks; computer interface boards; computer interface cards; computer joysticks; computer keyboards; computer keypads; computer memory expansion modules; computer mice; computer monitor frames; computer monitors; computer motherboards; computer motherboards and daughterboards; computer mouse; computer mouse mats; computer mouse pads; computer network adapters; computer network adaptors; computer network bridges; computer network hubs; computer network hubs, switches and routers; computer network routers; computer network server; computer network switches; computer network-attached storage [NAS] hardware; computer networking hardware; computer operating programmes; computer operating programs; computer operating recorded programs; computer operating system software; computer operating systems; computer parallel ports; computer power supplies; computer printers; computer programmes for document management; computer programs and computer software for electronic trading of securities; computer programs and software for image processing; computer programs (cad/cam) recorded on software designed for use in construction and automated manufacturing; computer programs for connecting to remote computers and computer networks; computer programs for processing digital music files; computer programs for searching remotely for content on computers and computer networks; computer programs for searching the contents of computers and computer networks by remote control; computer programs for using the Internet and the World Wide Web; computer programs used for electronic cash register systems; computer scanners; computer screen filters; computer screen saver software; computer screen saver software, recorded or downloadable; computer screens; computer screensaver software; computer search engine software; computer serial ports; computer servers; computer software and databases for use in diagnosis, repair and configuration of computers; computer software featuring mathematical algorithms and indices for use in analyzing and evaluating dairy cow health and productivity; computer software for administration of computer local area networks; computer software for assisting developers in creating program code for use in multiple application programs; computer software for computer-aided design/computer-aided manufacturing [CAD /CAM]; computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders; computer software for converting document images into electronic formats; computer software for creating and editing music; computer software for creating and editing music and sounds; computer software for creating and inserting metatags into documents and information; computer software for creating computer games; computer software for creating searchable databases; computer software for creating, sending and receiving e-mail; computer software for creating video games; computer software for database management; computer software for digital animation and special effects of images; computer software for displaying orders and driver locations on maps; computer software for fingerprint imaging; computer software for fingerprint scanning; computer software for global positioning systems; computer software for image processing; computer software for logistics, namely, software for tracking documents, packages and freight; computer software for managing retail store customer accounts; computer software for medical imaging; computer software for oil and gas reservoir analysis; computer software for optical character recognition; computer software for organizing and viewing digital images and photographs; computer software for predictive and corrective text entry for use with smart phones, tablet computers and personal digital assistants; computer software for processing digital images; computer software for processing digital music files; computer software for running development programs and application programs in a common development environment; computer software for the collection of statistical production data for oil and gas field operations; computer software for the creation of firewalls; computer software for two or three-dimensional simulation for use in design and development of industrial products; computer software for use as a spreadsheet; computer software for use in cancer diagnosis; computer

software for use in controlling and improving computer processing speed; computer software for use in creating and designing web sites; computer software for use in generating streaming advertisements on the web sites of others; computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts; computer software for use in processing semiconductor wafers; computer software for use in programming facsimile machines; computer software for use in providing multiple user access to a global computer information network; computer software for validating address and zone information; computer software for word processing; computer software that allows transmission of graphics to mobile telephones; computer software to automate data warehousing; computer software to enable the transmission of photographs to cell phones; computer software to enable the transmission of photographs to cellular phones; computer software to enable the transmission of photographs to cellular telephones; computer software to enable the transmission of photographs to mobile phones; computer software to enable the transmission of photographs to mobile telephones; computer speakers; computer stands specially designed for holding a computer, printer and accessories; computer styluses; computer terminals; computer touch screens; computer touchscreens; computer user manuals in electronic format; computer user manuals in the form of downloadable electronic publications; computer utility file compression programs; computer utility file storage programs; computer utility programs for adding or repartitioning a hard disk drive; computer utility programs for data compression; computer utility programs for file management; computer utility programs for managing, scheduling, queuing and execution of batch jobs; computer utility programs for providing diagnostic details on devices installed in a computer system; computer utility programs for testing and evaluating a computer monitor or video display for optimum image and picture quality; computer utility virus protection programs; computer video games; computer video games downloaded via the internet; computer whiteboards; computers; computers and computer hardware; computers and instructional manuals in electronic format sold as a unit; computers for managing control devices for aircraft; computers for use in data management; connectors for electronic circuits; counterfeit coin detectors; covers for tablet computers; currency recognition machines; currency sorting machines; desktop computers; dictionaries in electronic form; disk drives for computers; display screen filters adapted for use with computer monitors; display screen filters adapted for use with tablet computers; dive computers; downloadable applications for handheld computers to download music, movie and television graphics; downloadable applications for handheld computers to download video games; downloadable applications for handheld computers to enable the streaming of movies and television shows; downloadable applications for handheld computers to enable the streaming of music; downloadable applications for handheld computers to read periodicals; downloadable applications for handheld computers to take and edit photographs; downloadable applications for tablet computers to download music, movie and television graphics; downloadable applications for tablet computers to download video games; downloadable applications for tablet computers to enable the streaming of movies and television shows; downloadable applications for tablet computers to enable the streaming of movies and television shows;; downloadable applications for tablet computers to enable the streaming of music; downloadable applications for tablet computers to read periodicals; downloadable applications for tablet computers to take and edit photographs; downloadable computer desktop wallpaper; downloadable computer games; downloadable computer graphics; downloadable electronic books; downloadable electronic games; downloadable electronic games for use with mobile telephones, handheld computers and tablet computers; downloadable electronic newspapers; downloadable electronic publications in the nature of magazines; downloadable electronic sheet music; downloadable music for mobile telephones, handheld computers and tablet computers; downloadable ring tones and graphics for hand-held computers; downloadable ring tones and graphics for tablet computers; downloadable

wallpaper for handheld computers; downloadable wallpaper for tablet computers; dust covers for computers; e-commerce software to allow users to perform electronic business transactions via a global computer network; electric and electronic effects units for musical instruments; electric and electronic musical effects equipment; electric and electronic video surveillance installations; electrical and electronic burglar alarms; electronic access control systems for interlocking doors; electronic agendas; electronic audio signal processors for compensating sound distortion in speakers; electronic ballasts for lamps; electronic book reader covers; electronic book readers; electronic books; electronic burglar alarms; electronic cables; electronic calculators; electronic card readers; electronic cash registers; electronic chips for the manufacture of integrated circuits; electronic cigar batteries; electronic cigarette batteries; electronic cigarette chargers; electronic circuit board; electronic circuit boards; electronic circuits; electronic collars to train animals; electronic components for integrated circuit cards; electronic computers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic connectors for circuit boards; electronic connectors for loud speakers; electronic connectors for video recorders; electronic control circuits for electric fans; electronic control circuits for electric heaters; electronic control circuits for electronic musical instruments; electronic control gears [ECGs] for LED lamps and light fixtures; electronic control systems for automobile brakes; electronic control systems for room locking systems; electronic controllers for flight control systems; electronic controllers for furnaces; electronic currency converters; electronic databases containing information in the field of allergies recorded on computer media; electronic databases containing topics related to financial planning recorded on computer media; electronic databases in the field of dentistry recorded on computer media; electronic databases in the field of financial planning recorded on computer media; electronic databases in the field of language training recorded on computer media; electronic desk calculators; electronic diaries; electronic dictionaries; electronic door alarms; electronic door closing systems; electronic door locks; electronic effects pedals for use with sound amplifiers; electronic encryption units; electronic equipment for detecting mines; electronic equipment for mine detection; electronic frequency converters for high velocity electro motors; electronic game cartridges; electronic glossaries; electronic identification cards; electronic industrial controls for digital timers; electronic industrial controls for motion failure detectors; electronic integrated circuits; electronic interactive whiteboards; electronic key fobs being remote control apparatus; electronic keys for automobiles; electronic keys for vehicles; electronic kitchen timers; electronic labels; electronic legal publications; electronic load modules; electronic lock assemblies; electronic locking mechanisms for safes; electronic machines for reading credit cards; electronic machines for reading credit cards and recording financial operations; electronic medical publications; electronic metering devices for faucets; electronic metronomes; electronic motion sensitive switches; electronic newsletters; electronic newspapers; electronic notice boards; electronic organizers; electronic pagers; electronic payment terminals; electronic pens; electronic periodicals; electronic personal organisers; electronic personal organizers; electronic pipette battery chargers; electronic pipettes; electronic pipettes for laboratory use; electronic plotters; electronic pocket calculators; electronic pocket translators; electronic power converters; electronic power transformers; Electronic Random Number Indicator Equipment [ERNIE]; electronic scoreboards; electronic semi-conductors; electronic semiconductors; electronic sensors for measuring solar radiation; electronic servo motor controllers; electronic sound pickups for guitars and basses; electronic speed controllers; electronic tags for goods; electronic taximeters; electronic telephone dialers; electronic terminals for generating lottery tickets; electronic toll smart cards; electronic warning bells; electronic weighing scales for kitchen use; electronic weighing scales for personal use; electronic window alarms; encoded electronic chip cards for identifying particular users of computers and cell phones; encoded electronic chip cards for identifying particular users of computers and mobile phones; expansion boards for computers; external computer hard drives;

false coin detectors; fax modem cards for computers; filters for computer screens; flexible flat panel displays for computers; floppy discs drives for computers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; hand-held computers; handheld computers; hand-held electronic dictionaries; handheld electronic dictionaries; hand-held personal computers; hard drives for computers; headsets for use with computers; heat sinks for use in computers; integrated circuit electronic toll cards; interactive multimedia computer games; interface boards for computers; interface cards for computers; internal cooling fans for computers; juke boxes for computers; keyboards for computers; lan [local area network] computer cards for connecting portable computer devices to computer networks; laptop computers; light-emitting electronic pointers; magnetic tape units for computers; microchips [computer hardware]; mobile computers; money counting and sorting machines; mounting racks adapted for computer hardware; mounting racks for computer hardware; multifunction computer keyboards; navigation apparatus for vehicles in the form of on-board computers; navigation computers for cars; netbook computers; notebook and laptop computers; notebook computer carrying cases; notebook computer cooling pads; notebook computers; operating and user instructions for computers stored in digital form; operating and user instructions for computers stored in digital form on CD-ROM; operating and user instructions stored in digital form for computers and computer software, in particular on floppy disks or CD-ROMs; palmtop computers; paper currency detectors; personal computers; pocket computers for note-taking; pocket-sized electronic calculators; portable computers; pre-recorded compact discs containing computer games; print heads for computer printers; printed electronic circuits; printed electronic circuits for apparatus and cards bearing integrated circuits; printers for computers; printers for use with computers; printing fonts that can be downloaded provided by means of electronic transmission; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, plant irrigation, plant nutrient management, alarm monitoring and alarm event management within horticultural production; protective cases for electronic book readers; protective cases for tablet computers; protective covers for electronic book readers; protective covers for tablet computers; protective films adapted for computer screens; protective films adapted for screens for tablet computers; protective films adapted for tablet computer screens; recorded computer operating programs; screen filters for computers and televisions; secure terminals for electronic transactions; smartglasses; software for computer aided design CAD; software for computer aided mechanical design; software for ensuring the security of electronic mail; speakers for computers; stands adapted for tablet computers; tablet computer; tablet computers; thin client computers; touchpads for computers; vibration dampeners for electronic audio equipment; wireless computer mice; wireless computer mouses; wrist rests for use with computer keyboards; wrist rests for use with computers

Class 10

(5) electronic medical devices implanted in the eye to help restore vision; electronic muscle stimulators; electronic muscle stimulators for medical purposes; electronic nerve stimulators for medical purposes

Class 11

(6) electronic candles

Class 14

(7) coins; collectable coins; collectable monetary coin sets; commemorative coins; monetary coin sets for collecting purposes; watches containing an electronic game function

Class 15

(8) electronic effect pedals for use with musical instruments; electronic effects pedals for use with musical instruments; electronic musical instrument tuners; electronic musical instruments; electronic musical keyboards; electronic practice mutes for musical instruments; tuners for electronic musical instruments

Class 16

(9) adhesive corners for photographs; coin albums; coin wrappers; electric and electronic franking machines; electrical and electronic typewriters; money clips; photograph corners; trays for sorting and counting money

Class 17

(10) adhesive elastomeric tape for placement onto electronic devices to prevent slipping; polymer film used for manufacturing electronic circuits; polymer films for use in the manufacture of electronic circuits

Class 18

(11) coin purse frames; coin purses; coin purses made of leather; coin purses of precious metal; electronic pet collars; frames for coin purses; leather coin purses; small coin purses; straps for coin purses; wrist-mounted money purses

Class 21

(12) coin banks

Class 25

(13) gloves with conductive fingertips that may be worn while using hand-held electronic touch screen devices; gloves with conductive fingertips that may be worn while using handheld electronic touch screen devices; money belts

Class 28

(14) coin-operated amusement electronic games; coin-operated amusement machines; coin-operated arcade video game machines; coin-operated billiard tables; coin-operated pinball machines; electronic action toys; electronic dart games; electronic educational game machines designed for children; electronic games consoles adapted for use with an external display screen or monitor; electronic games for the teaching of children; electronic hand-held game units; electronic hand-held games; electronic learning toys; electronic targets for games and sports; free-standing arcade electronic games; gamepads for use with electronic games; guitar skins for electronic guitar game controllers; hand-held electronic game units adapted for use with an external display screen or monitor; hand-held electronic games; hand-held electronic games adapted for use with television receivers only; handheld electronic games adapted for use with television receivers only; hand-held electronic video games; hand-held units for playing electronic games; hand-held units for playing electronic games for use with an external display screen or monitor; joypads for use with electronic games

Class 34

(15) cartridges sold filled with chemical flavorings in liquid form for electronic cigarettes; cartridges sold filled with propylene glycol for electronic cigarettes; cartridges sold filled with vegetable glycerin for electronic cigarettes; cases for electronic cigarettes; chemical flavourings in liquid form used to refill electronic cigarette cartridges; electronic cigarette boxes; electronic cigarette cases; electronic cigarettes; electronic cigarettes for use as an alternative to traditional cigarettes; electronic cigars; electronic hookahs; electronic smoking pipes; liquid nicotine solutions for use in electronic cigarettes; liquid solutions for use in electronic cigarettes

Services**Class 35**

(1) advertising by transmission of on-line publicity for third parties through electronic communications networks; advertising the goods and services of others via electronic media and specifically the internet; electronic billboard advertising of the goods and services of others; promoting the goods and services of others by preparing and placing advertisements in electronic magazines; providing a website in the field of office electronic equipment; providing electronic verification of online orders of digital content; subscriptions to electronic journals

Class 36

(2) arranging and provision of credit, loans, insurance, currency exchange and travellers cheques; coin appraisal; currency exchange; currency trading; electronic banking via a global computer network; electronic bill payment; electronic check acceptance services; electronic cheque acceptance services; electronic funds transfer; electronic funds transfer by telecommunications; electronic Internet banking via a global computer network; electronic processing and transmission of bill payment data; electronic toll collection services; electronic transfer of funds; electronic transfer of money; foreign currency exchange services; money exchange services; money order services; money transfer; money wiring services; on-line real-time currency trading; processing electronic payments made through prepaid cards

Class 37

(3) installation of electronic and digital connection to a call centre

Class 38

(4) delivery of personalised greeting cards to others via electronic mail; delivery of personalized greeting cards to others via electronic mail; electronic delivery of loan documents; electronic exchange of messages using chat lines, chatrooms and Internet forums; electronic exchange of messages via chat lines, chatrooms and Internet forums; electronic mail; electronic mail and facsimile transmission services; electronic mail and mailbox services; electronic mail forwarding services; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; electronic transmission of digital photo files via a peer-to-peer network; electronic transmission of facsimile communications; leasing access time to a computer database containing legal information; leasing access time to a computer database in the field of community social events; leasing access time to a computer database in the field of cooking; leasing access time to a computer database in the field of job postings; leasing access time to a computer database in the field of university courses; leasing access time to an electronic bulletin board in the field of community social events; leasing access time to an electronic bulletin board in the field of cooking; leasing access time to an electronic bulletin board in the field of job postings; leasing access time to an electronic bulletin board in the field of university courses; news agency services via a global computer network; operation of an electronic bulletin board containing information in the field of nutrition; operation of an electronic bulletin board in the field of community social events; operation of an electronic bulletin board in the field of cooking; providing access to a computer database in the field of cooking; providing access to a global computer network; providing access to a worldwide computer network; providing electronic mail and instant messaging services; providing electronic mail services; providing electronic transmission of credit card transaction data and electronic payment data via a global computer network; providing high speed access to a global computer information network; providing multiple use access to global computer information networks for the transfer and dissemination of a wide range of information; providing multiple user access to a computer network; providing multiple user access to global computer information networks for the transfer and dissemination of a wide range of information;

providing multiple-user access to a global computer information network; providing multiple-user access to a global computer network; providing multiple-user access to global computer information networks for the transfer and dissemination of a wide range of information; providing on-line chat rooms and electronic bulletin boards for transmission of messages among computer users; providing online chat rooms and electronic bulletin boards for transmission of messages among computer users; providing on-line chatrooms and electronic bulletin boards for transmission of messages among computer users; providing on-line chatrooms and electronic bulletin boards for transmission of messages among users in the field of general interest; providing online chatrooms for transmission of messages among computer users; providing on-line electronic bulletin boards for transmission of messages among computer users; providing user access to a global computer network; providing user access to global computer networks; provision of access to a global computer network; provision of electronic mail services; rental of access time to global computer networks; secure electronic mail services; simulcasting broadcast television over global computer networks and the Internet

Class 40

(5) burnishing coins by abrasion

Class 41

(6) electronic desktop publishing; on-line electronic publishing of books and periodicals; online electronic publishing of books and periodicals; on-line publication of electronic books and journals; online publication of electronic books and magazines; online publication of electronic books and periodicals; online publication of electronic periodicals; publication of electronic books and journals on-line; publication of electronic books and magazines on-line; publication of electronic books and magazines online; publication of electronic books and periodicals online; publication of electronic magazines; publication of electronic newspapers accessible via a global computer network; publication of electronic periodicals online; publishing of electronic magazines; publishing of electronic publications; publishing of magazines in electronic form

Class 42

(7) authenticating coins; calibration of electronic equipment; computer aided graphic design; computer aided imaging; computer animation production services; computer anti-virus protection services; computer design services; computer diagnostic services; computer disaster recovery planning; computer graphics design services; computer graphics digitization; computer graphics imaging; computer hardware and software design; computer hardware design; computer leasing; computer network configuration services; computer network design for others; computer network security services; computer programming; computer programming and maintenance of computer programs; computer programming and software design; computer programming consultancy; computer programming for others; computer programming in the medical field; computer programming of computer games; computer programming of video games; computer programming services; computer programming services for commercial analysis and reporting; computer rental; computer security consultancy; computer services in the form of filtering unwanted e-mails; computer site design services; computer software consultancy; computer software consulting; computer software design; computer software design and updating; computer software design for others; computer software installation and maintenance; computer software project management services; computer system design; computer systems design; computer systems integration services; computer systems monitoring services; computer time sharing; computer virus protection services; computer website design; configuration of computer networks; consultancy in the design and development of computer hardware; consultation services relating to computer software; conversion of data or documents from physical to electronic media; creating of computer programs

for others; creating of home pages for computer networks for others; debugging computer software for others; design and development of computer game software; design and development of computer game software and virtual reality software; design and development of computer hardware; design and development of computer hardware and software; design and development of computer hardware for the manufacturing industries; design and development of computer software; design and development of computer software for supply chain logistics; design and development of computers; design and development of computers and programs for computers; design and development of electronic data security systems; design and development of wireless computer networks; design and maintenance of computer sites for third parties; design and writing of computer software; design, development, installation and maintenance of computer software; design, installation, updating and maintenance of computer software; design, maintenance, development and updating of computer software; design of computer database; design of computer databases; design of computer hardware; design of computer programs and software for aircraft dashboards; design of computer sites; design of computers; design of computers for others; design, updating and rental of computer software; design, upgrading and rental of computer software; designing computer software for controlling self-service terminals; designing of computer hardware; developing and updating computer software; developing computer programs for electronic cash register systems; developing computer software; development and creation of computer programmes for data processing; development of computer games; development of computer hardware for computer games; development of computer programs recorded on software designed for use in construction and automated manufacturing (cad/cam); digital compression of computer data; document data transfer from one computer format to another; duplication of computer programs; electronic digitizing of photographs into a computer readable media; electronic monitoring of credit card activity to detect fraud via the internet; electronic monitoring of personally identifying information to detect identity theft via the internet; electronic storage of medical records; electronic storage of photographic images; installation and maintenance of computer software; installation, maintenance and repair of computer software; installation, maintenance and repair of software for computer systems; installation of computer software; installation, repair and maintenance of computer software; installing computer programs; leasing of computer programs; leasing of computers; maintenance and updating of computer software; maintenance and upgrading of computer software; maintenance of computer software; maintenance of computer software relating to computer security and prevention of computer risks; maintenance of computer software used for operating filling apparatus and machines; monitoring of computer systems by remote access; monitoring of computer systems for detecting unauthorized access or data breach; monitoring of computer systems to detect breakdowns; platform as a service (PAAS) featuring computer software platforms for use in the field of financial services for trading derivatives; preparation, update, installation and maintenance of computer software; providing information on computer technology and programming via a web site; providing quality assurance in the field of computer software; rental of computer games; rental of computer hardware and computer peripherals; rental of computer software; rental of computers; repair of damaged computer programs; research in the area of semiconductor processing technology; technical support in the form of monitoring global computer network systems; technical support services in the form of troubleshooting of computer hardware and software problems; testing of computer software; testing of computers; updating of computer programs for third parties; updating of computer software; upgrading of computer software; writing and updating computer software

Class 44

(8) managed health care services namely, electronic processing of health care information

Class 45
