# Trademarks Journal

## Vol. 67 No. 3447

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of three coloured ribbons that form the letters CELO. The design created by the three ribbons starts by forming the letter C, the colours of which are, from left to right, as follows: the first ribbon is yellow (Pantone\* 382 C), the second is red (Pantone\* WARM RED C) and the third is blue (Pantone\* 3005 C). The ribbons of the figure then intersect to form the letters E, L and O, and end in the same colour pattern, namely yellow (Pantone\* 382 C), red (Pantone\* WARM RED C) and blue (Pantone\* 3005 C). \* PANTONE is a registered trademark

Computer software for matching seniors with senior living communities and senior living communities with seniors; Computer software for accessing, browsing and searching online databases containing information in relation to the services provided by senior living communities, namely housing information, healthcare services information, demographic information, entertainment information and recreational activity information provided for seniors and senior living communities; Computer software to enable uploading, downloading, accessing, posting, displaying, editing, tagging, linking, sharing and otherwise providing downloadable information via computer networks and global computer networks services in relation to the services provided by senior living communities for senior citizens, namely senior housing, senior housing amenities, senior entertainment and recreational activities; Software for sending and receiving electronic messages via email, graphics, photographs, audio and audio visual clips relating to senior housing, senior housing amenities; Computer software for the collection, editing, organizing, modifying, transmission via blog and message board, Storing and sharing, via global computer networks, in relation to the services provided by senior living communities about senior housing, senior housing amenities, senior healthcare services, senior demographics, senior entertainment and senior recreational activities; Computer search engine software

### Services

#### Class 35

(1) Direct marketing and advertising of the goods and services of others and the sale and promotion through the distribution of information relating to the goods and services of third parties;

Provision of market research information related to seniors and senior living communities;  
Business intermediary services, namely matching seniors with prospective retirement homes and nursing homes

**Class 36**

(2) Providing information to seniors about purchasing homes

**Class 38**

(7) Computer services in the nature of providing customized online message boards in the field of services provided by senior living communities namely senior housing, senior healthcare, senior housing amenities, senior entertainment and recreational activities; providing access to a website providing information on retirement homes and nursing homes

**Class 41**

(3) Providing information about education relating to senior retirement and general health and nutritional programs for seniors, and fitness programs and other social recreational activities such as book clubs and exercise classes for seniors

**Class 42**

(4) Computer services, namely, providing online websites featuring non downloadable software that enable seniors and senior living communities to search and identify each other; providing online non-downloadable software for matching seniors with senior living communities and senior living communities with seniors; providing an online search platform for matching seniors with senior living communities and senior living communities with seniors; computer services, namely, providing search engines for the internet; providing online websites that give users the ability to upload, modify and share via the internet audio and video clips, photographic images, text messages, graphics in relation to the amenities provided by senior living communities and pricing and offerings all related to senior housing, senior healthcare, senior demographics, senior housing amenities, senior entertainment and recreational activities provided for seniors and by senior living communities for senior citizens; providing online websites featuring non downloadable software that enables online users to create profiles featuring information about senior living facilities and eldercare senior care services; application service provider (ASP) services, namely, hosting computer software applications of others in relation to senior housing, senior healthcare, senior demographics, senior housing amenities, senior entertainment and recreational activities provided for seniors and by senior living communities for senior citizens; Application service provider (ASP) featuring software that facilitates the uploading, downloading, posting, displaying, linking, modifying and sharing information including housing, healthcare, demographics, housing amenities, entertainment and recreational activities for seniors and senior living communities via global communication networks relating to senior living communities; providing non-downloadable computer programs via computer networks and global computer networks for facilitating the discovery, purchase and exchange of sales leads; Application service provider (asp) featuring software that facilitates the uploading, downloading, posting, displaying, linking, modifying and sharing information in the field of services provided by senior living communities namely housing, healthcare, housing amenities, entertainment and recreational activities, senior demographics via global communication networks

**Class 43**

(5) Providing information for seniors about available senior living facilities, assisted living, and independent living, namely, retirement homes; providing information in the field of retirement homes via a website

**Class 44**

(6) Providing healthcare information such as information about hospice care, palliative care, home healthcare, nursing care, and memory care for seniors, mental health condition care, namely, memory loss, dementia and Alzheimer's disease; providing information for seniors about available nursing homes, palliative care facilities; Providing information in the field of nursing homes via a website

### Colour Claim

Colour is claimed as a feature of the trademark. The term DEVERY is dark blue and the term WARE is light blue.

### Goods

#### Class 09

(1) Hardware and software for secure remote access to computer networks for communications; electronic data processing apparatus, namely data processing hardware; navigation devices, guiding, tracking, marking and cartography in the nature of apparatus and instruments for geolocation, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; satellite geolocation apparatus and instruments; apparatus for global positioning systems [GPS] namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; apparatus and instruments for navigation, namely navigation on-board computers for motor vehicles; apparatus for measuring and recording distance, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; apparatus for command guidance, namely global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers and network interface units; electronic data processing apparatus, namely data processing hardware, namely computer programs, computers, mobile telephones and digital tablets and GPS and global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; transmitters and receivers for global positioning systems [GPS]; satellite receivers; electronic identification cards; electronic smart cards for locating and tracking goods, vehicles or people; geolocation software and navigation software, namely global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers and network interface units; computer software for planning road itineraries; computer software for calculating travel time; computer

software for providing and collecting information related to the geographic position and movement of people, goods or equipment; vehicle fleet management software; software applications for geolocation, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, for smart telephones, portable telephones and digital tablets for smart telephones, portable telephones and digital tablets; software applications for geolocation for the security of goods, people and states; software applications for locating taxis; software applications facilitating taxi dispatching and coordination; speed indicators; networking computer hardware, namely computers, computer software, transmitters, receivers and network interface units for communicating geolocation data and navigation data; portable personal computers (handheld computers); personal digital assistants; downloadable electronic maps; electronic display boards; electronic databases containing practical or tourist information related to travel and road traffic.

### **Class 16**

(2) Instruction manuals and user instructions, namely user manuals in printed form for using an on-board geolocation and navigation system, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; manuals and instruction leaflets containing information related to travel, road navigation and tourism.

### **Services**

#### **Class 35**

(1) Consulting services for business management and organization; provision of business information related to geolocation via websites; subscription services for geolocation services, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, for smart telephones, portable telephones and digital tablets; administration of telecommunications networks related to geolocation, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices, for smart telephones, portable telephones and digital tablets; collection, treatment and analysis of digital and computer data in a central file; statistical studies related to the movement of people or property; retrieval of information in computer files for others; compilation of databases containing information about the geographic positioning and movement of people, goods or equipment; archival services for computer information provided by a cloud computing software provider enabling the archival of files containing geolocation data and navigation data; storage and processing of digital data, namely database management; advertising, namely dissemination of advertisements for the promotion of products and services of others through an application for mobile telephones; demonstration of products namely hands-on workshops for the installation, programming and operation of geolocation and navigation systems.

#### **Class 38**

(2) Telecommunication routing and junction services, namely via smartphones, portable telephones or digital tablets for communicating with means of transportation; wireless mobile telephony services; telecommunications services for geolocation and navigation, namely global positioning systems (GPS) consisting of computer software for mobile telephones; provision of telecommunications infrastructures for geolocation services, namely computers, computer software, transmitters, receivers, and network interface units, for transmitting and receiving geolocation data by users via mobile telephones; digital data transmission, namely of text, audio and video messages namely voice mail and digital images of the traffic flow of vehicles, boats and watercraft, through all means telecommunications, namely by hertzian waves, radio waves, telephone, electrical signals, satellite, and fibre optic networks, for geolocation and navigation; wireless data transmission namely unbundled telecommunications services enabling the use of

cellular telephones, voice mail and for routing calls between wired and wireless services; transmission of data obtained from a global positioning system (GPS) for tracking the movement of property or people; transmission via hertzian waves, radio waves, telephone, electrical signals, satellite, and fiber optic networks of digital files, namely text, audio and video messages, namely voice mail and digital images of the traffic flow of vehicles, boats and watercraft; communication through computer terminals of digital data, namely text, audio and video messages, namely voice mail and digital images of the traffic flow of vehicles, boats and watercraft, through web interfaces, networks, cable, via satellite; telecommunication routing and junction services, namely electronic display of messages sent to multiple users via a global computer network; provision of access to global computer networks; rental of access time to global computer networks; connection to a global computer network by telecommunications, namely through Internet and via satellite, enabling the communication of geolocation and navigation data; mobile radiotelephony services; provision of online discussion forums related to geolocation and navigation; provision of access to databases containing information related to the position and movement of property and people.

### **Class 39**

(3) Information related to transport, namely by transmission of itineraries and plans; information related to the transport of goods, namely by locating and tracing the flow of goods; information related to the transportation of people, namely by locating and tracing individuals; information related to road traffic; transport logistics services, namely provision of information related to the flow of goods through a mobile geolocation application; navigation services, namely positioning and establishing itineraries and routes to a destination via users' mobile telephone and portable computers, for travel by foot, via public transit, and via motor vehicles; locating and booking of taxis via an application for smart telephones; organization and coordination of the transport of people by taxi per their request; business advice related to the geolocation of teams, goods, and equipment; business advice for the selection of a geolocation solution for the determination of the position of an object or a person via the GPS system and communication interfaces of a mobile phone, namely satellite signal receivers.

### **Class 41**

(4) Training and education in the field of geolocation system design and development; practical training and demonstrations, namely hands-on workshops for professionals for the installation, programming and operation of geolocation systems; organization of training sessions for the installation, programming and operation of geolocation and navigation systems; organization of training sessions related to ethical and privacy concerns in connection with geolocation; provision of electronic publications (online, non-downloadable) in the field of geolocation and navigation; desktop publishing.

### **Class 42**

(5) Analysis and design of computer systems for geolocation and navigation; computer software consulting; design and development of computer software; installation, maintenance, and updating of computer software; computer programming; design and development of geolocation software applications for smart telephones, portable telephones and or digital tablets; design and development of geolocation software applications for the security of property, people and states; software design and development for navigation systems (GPS and via satellite); software design and development for providing information related to the location and the movement of individuals and goods; design and development of itinerary planning software; design and development of electronic road maps; remote monitoring of computer geolocation systems; electronic engineering; encryption, decryption, and authentication services, namely providing user authentication services for connecting to an electronic database and information monitoring, namely computer systems

monitoring services, creation of control programs for electric operation control and drive modules, for messages and data transmitted by telecommunication via an electronic database and electronic messaging; research and development of new products for others; expert assessment of engineering work related to geolocation and navigation systems; providing temporary use of non-downloadable software for the tracking of people, vehicles and property via a computer network; publishing of software and multimedia mobile applications for interactive or non-interactive use in the fields of geolocation and navigation.

**Class 45**

(6) Security services for protecting property and people, namely location and traceability of property, vehicles and people for security purposes; remote monitoring services for the security of property, people and states; monitoring and location services for isolated or vulnerable people; remote monitoring services and remotely accessible advisory services for the security of goods, individuals and states related to civil security; business consulting related to ethics and privacy in the use of geolocation systems.

#### Class 09

Scientific, surveying, optical, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments namely measuring receivers for satellite signals, terrestrial signals and cable television [CATV] signals, measuring modules for house connection points, frequency meters, electromagnetic frequency detectors, analyzer for digital video broadcast [DVB] transport stream traffic, optical test transmitter and optical measurement transmitter; pilot detectors, cable simulators, multimedia push-on adapter for wall-outlet sockets, headends, handsets for programming headends, surge protector for overvoltage protection in satellite distribution facilities, terminating resistors, equipotential bonding blocks and bars, adapter plugs, grounding plates, transponders; network routers, network servers, radio frequency [RF] receivers, satellite receivers, cable television [CATV] receivers, telephone receivers, optical receivers, audio and video receivers, radio receivers and radio signal tuners, radio frequency [RF] transmitters, radio frequency [RF] repeaters, satellite transmitters, cable television [CATV] transmitters, optical transmitters, telephone transmitters, television transmitters, video transmitters, modulators for optical signals, modulators for audio/video signals, analogue-to-digital converters, radio signal tuners, multiplexers, optical multiplexers, video multiplexers, demultiplexers, television decoders and transcoders; headends for networks, namely, devices, apparatus and instruments for receiving, processing, distributing, converting, amplifying and transmitting signals as well as equipment consisting thereof; radio frequency adaptors and connectors, radio frequency repeaters, radio frequency receivers, radio frequency amplifiers, radio relay cables, radio transceivers; antennas of all kinds, in particular terrestrial antennas, antennas for satellite broadcasting, ultra-short wave antennas, radio and television antennas, antennas for vehicles, antennas for portable radio transmitters and receivers, GPS antennas, antennas for mobile communication namely cell phone antennas, automotive antennas, commercial vehicle antennas, communal antennas namely dish aerials, parabolic aerials, satellite aerials; down-leads and lead-ins for antennas namely electric cables, electric wires, cable jump leads and connection fittings therefor; antenna meters, antenna masts; aerial amplifiers, antenna amplifiers, audio frequency amplifiers, power amplifiers, signal amplifiers, line amplifiers, multiband amplifiers, split-band amplifiers, return amplifiers, programmable filter amplifiers, optical amplifiers and optical semiconductor amplifiers; frequency converters; relays namely electric relays, electrical relays,

electromagnetic relays and electrical relays and transformers; power supplies namely wall warts, highfrequency switching power supplies, computer power supplies, uninterruptable power supplies, regulated power supply apparatus, voltage stabilizing power supply; electrical switches, programmed switching devices namely multiswitches for distributing satellite signals, differential switches, computer network switches and changeover switches for telecommunication apparatus; electrical cables, in particular coaxial cables; fiber optic cables, fiber optic couplings; electrical converters, cable television converters, AC to DC converters, digital to analogue converters, electric power converters, electronic power converters; attenuators namely optical and electrical attenuators; voltage dividers and power dividers (electric), antenna filters, noise filters, electrical filters, radio frequency filters, inductance capacitance filters, filters for television sets, filters for radio interference suppression and taps, and optical splitters for distribution of satellite, terrestrial and cable television [CATV] signals, junction and connection boxes namely distribution boxes and connection boxes for connecting coaxial cables; electrical plugs; sockets namely electrical sockets, wall-outlet sockets; couplings and connectors, in particular high frequency plugs and connectors for coaxial cables; electrical and electrotechnical shielding and protection devices, apparatus and instruments as well as equipment consisting thereof, namely, lightning conductors, lightning rods, lightning arresters and protective sheaths; electrical and electronic devices, apparatus and instruments for optical transmission technology as well as equipment consisting thereof, namely transmitters, plug-in modules for transmitters, multiplexers, demultiplexers, diplexers, couplers and frequency generators; electrical and electronic devices, apparatus and instruments for network management and network monitoring as well as equipment consisting thereof, namely for cable television [CATV] systems and installations namely network access server hardware, network access server software, network management computer hardware, network management computer software, network monitoring computer hardware, network monitoring computer software; devices, apparatus and instruments for recording, transmission and reproduction of data namely text messages, sound and moving and still images namely data recording computer hardware, data transmitting computer hardware and data reproducing computer hardware; data processing equipment namely central processing units, analogue and digital signal processors, satellite processors, audio/video processors, network traffic data processors; computers; programs for data processing equipment and computers, namely wide area network [WAN] operating software, local area network [LAN] operating software, virtual private network [VPN] operating software, network operating system programs, network traffic monitoring software; software for headends namely headend operating software, headend control software, headend monitoring software, headend maintaining/servicing software and software used to process and convert satellite signals into cable television [CATV] signals and then distribute such signals to cable networks and homes; installations employing the aforesaid goods, namely satellite antenna installations on buildings and vehicles, dish aerials, parabolic aerials, satellite aerials

## **Services**

### **Class 38**

(1) Telecommunications namely telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes, telephone telecommunications services provided by using wide-area network [WAN] and wireless local area network [WLAN], broadcasting and transmission of cable television programs, satellite television transmission, providing access to a worldwide computer network; rental of broadcasting and telecommunications facilities and equipment namely provision and rental of headends, telephone and television receivers and transmitters, satellite antennas and terrestrial antennas

**Class 42**

(2) Design and development of computer programs for data and information processing, namely in the field of communications engineering, of telecommunications, of antenna construction, of amplifier technology, of satellite receivers and transmitters, of radio systems and installations, of mobile video transmission systems, of fiber optical transmission technology; software engineering; software development, programming and implementation; design and development of software for headends; hosting services namely hosting of web sites, hosting online web facilities for others, web hosting; software as a service namely software as a service [SaaS] provider in the field of distributing television channels; rental of software; telecommunications technology consultancy namely internet security consultancy, computer hardware; design and development of telecommunications systems and networks namely design and development of wireless computer networks, computer system design, computer network design for others; conception, design, planning and development of systems, installations and equipment in the field of communications engineering, of telecommunications, of electrical engineering and of electronics namely in the field of maintenance and repair of software and hardware for computer systems, computer networks configuration; rental of data processing equipment namely computer hardware and peripherals and rental of computers namely rental of headends, rental of radio and satellite receivers and transmitters

**Application Number** 1,865,546  
**Language of Application** English

#### Class 09

Scientific, surveying, optical, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments namely measuring receivers for satellite signals, terrestrial signals and cable television [CATV] signals, measuring modules for house connection points, frequency meters, electromagnetic frequency detectors, analyzer for digital video broadcast [DVB] transport stream traffic, optical test transmitter and optical measurement transmitter; pilot detectors, cable simulators, multimedia push-on adapter for wall-outlet sockets, headends, handsets for programming headends, surge protector for overvoltage protection in satellite distribution facilities, terminating resistors, equipotential bonding blocks and bars, adapter plugs, grounding plates, transponders; network routers, network servers, radio frequency [RF] receivers, satellite receivers, cable television [CATV] receivers, telephone receivers, optical receivers, audio and video receivers, radio receivers and radio signal tuners, radio frequency [RF] transmitters, radio frequency [RF] repeaters, satellite transmitters, cable television [CATV] transmitters, optical transmitters, telephone transmitters, television transmitters, video transmitters, modulators for optical signals, modulators for audio/video signals, analogue-to-digital converters, radio signal tuners, multiplexers, optical multiplexers, video multiplexers, demultiplexers, television decoders

and transcoders; headends for networks, namely, devices, apparatus and instruments for receiving, processing, distributing, converting, amplifying and transmitting signals as well as equipment consisting thereof; radio frequency adaptors and connectors, radio frequency repeaters, radio frequency receivers, radio frequency amplifiers, radio relay cables, radio transceivers; antennas of all kinds, in particular terrestrial antennas, antennas for satellite broadcasting, ultra-short wave antennas, radio and television antennas, antennas for vehicles, antennas for portable radio transmitters and receivers, GPS antennas, antennas for mobile communication namely cell phone antennas, automotive antennas, commercial vehicle antennas, communal antennas namely dish aerials, parabolic aerials, satellite aerials; down-leads and lead-ins for antennas namely electric cables, electric wires, cable jump leads and connection fittings therefor; antenna meters, antenna masts; aerial amplifiers, antenna amplifiers, audio frequency amplifiers, power amplifiers, signal amplifiers, line amplifiers, multiband amplifiers, split-band amplifiers, return amplifiers, programmable filter amplifiers, optical amplifiers and optical semiconductor amplifiers; frequency converters; relays namely electric relays, electrical relays, electromagnetic relays and electrical relays and transformers; power supplies namely wall warts, highfrequency switching power supplies, computer power supplies, uninterruptable power supplies, regulated power supply apparatus, voltage stabilizing power supply; electrical switches, programmed switching devices namely multiswitches for distributing satellite signals, differential switches, computer network switches and changeover switches for telecommunication apparatus; electrical cables, in particular coaxial cables; fiber optic cables, fiber optic couplings; electrical converters, cable television converters, AC to DC converters, digital to analogue converters, electric power converters, electronic power converters; attenuators namely optical and electrical attenuators; voltage dividers and power dividers (electric), antenna filters, noise filters, electrical filters, radio frequency filters, inductance capacitance filters, filters for television sets, filters for radio interference suppression and taps, and optical splitters for distribution of satellite, terrestrial and cable television [CATV] signals, junction and connection boxes namely distribution boxes and connection boxes for connecting coaxial cables; electrical plugs; sockets namely electrical sockets, wall-outlet sockets; couplings and connectors, in particular high frequency plugs and connectors for coaxial cables; electrical and electrotechnical shielding and protection devices, apparatus and instruments as well as equipment consisting thereof, namely, lightning conductors, lightning rods, lightning arresters and protective sheaths; electrical and electronic devices, apparatus and instruments for optical transmission technology as well as equipment consisting thereof, namely transmitters, plug-in modules for transmitters, multiplexers, demultiplexers, diplexers, couplers and frequency generators; electrical and electronic devices, apparatus and instruments for network management and network monitoring as well as equipment consisting thereof, namely for cable television [CATV] systems and installations namely network access server hardware, network access server software, network management computer hardware, network management computer software, network monitoring computer hardware, network monitoring computer software; devices, apparatus and instruments for recording, transmission and reproduction of data namely text messages, sound and moving and still images namely data recording computer hardware, data transmitting computer hardware and data reproducing computer hardware; data processing equipment namely central processing units, analogue and digital signal processors, satellite processors, audio/video processors, network traffic data processors; computers; programs for data processing equipment and computers, namely wide area network [WAN] operating software, local area network [LAN] operating software, virtual private network [VPN] operating software, network operating system programs, network traffic monitoring software; software for headends namely headend operating software, headend control software, headend monitoring software, headend maintaining/servicing software and software used to process and convert satellite signals into cable television [CATV] signals and then distribute such signals to cable

networks and homes; installations employing the aforesaid goods, namely satellite antenna installations on buildings and vehicles, dish aerials, parabolic aerials, satellite aerials

## **Services**

### **Class 38**

(1) Telecommunications namely telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes, telephone telecommunications services provided by using wide-area network [WAN] and wireless local area network [WLAN], broadcasting and transmission of cable television programs, satellite television transmission, providing access to a worldwide computer network; rental of broadcasting and telecommunications facilities and equipment namely provision and rental of headends, telephone and television receivers and transmitters, satellite antennas and terrestrial antennas

### **Class 42**

(2) Design and development of computer programs for data and information processing, namely in the field of communications engineering, of telecommunications, of antenna construction, of amplifier technology, of satellite receivers and transmitters, of radio systems and installations, of mobile video transmission systems, of fiber optical transmission technology; software engineering; software development, programming and implementation; design and development of software for headends; hosting services namely hosting of web sites, hosting online web facilities for others, web hosting; software as a service namely software as a service [SaaS] provider in the field of distributing television channels; rental of software; telecommunications technology consultancy namely internet security consultancy, computer hardware; design and development of telecommunications systems and networks namely design and development of wireless computer networks, computer system design, computer network design for others; conception, design, planning and development of systems, installations and equipment in the field of communications engineering, of telecommunications, of electrical engineering and of electronics namely in the field of maintenance and repair of software and hardware for computer systems, computer networks configuration; rental of data processing equipment namely computer hardware and peripherals and rental of computers namely rental of headends, rental of radio and satellite receivers and transmitters

## TRADEMARK DETAILS

# BAKUGAN BATTLE PLANET

### Trademark Type

Word

### Foreign Character Translation

As provided by the applicant the translation of the word BAKUGAN is exploding sphere.

### Goods

#### Class 03

(1) Cosmetics; soaps for personal use; hair lotions; toiletries, namely, shower and bath foams, gels, and body wash; bath oils, toothpaste, mouthwash, hair gels; all-purpose cleaning preparations

#### Class 09

(2) Computer software for authoring, downloading, transmitting, receiving, editing, extracting, encoding, displaying, storing and organizing text, graphics, images, electronic games and electronic publications; computer software for use in searching, reviewing, purchasing and downloading electronic games and electronic publications; downloadable computer game software; computer applications software for use in downloading, playing and reviewing videos in the field of children's entertainment; downloadable mobile applications for playing skill and action games; interactive multimedia computer game programs; prerecorded audio and visual material, namely, downloadable videos, CDs, tapes, and DVDs, children's movies, television programs featuring children's entertainment, children's books, music, and instructions for use of toys

#### Class 16

(3) Paper, cardboard and goods made from these materials, namely, paper goodie bags, cardboard boxes, notebooks, sketchbooks, drawing paper, craft paper, wrapping paper and decorative paper; printed matter, namely, calendars, diaries, coloring books, photographs; stationery, namely crayons, erasers, pens, pencils, staples, staplers, chalks, felt pens, highlighting markers, glue for stationery purposes, stencils, paint brushes, rulers, stationery binders, file folders, birthday cards, envelopes, invitations; books and publications, namely, magazines and comic books featuring animation; stickers and sticker books; arts and crafts paint kits;

#### Class 18

(4) Umbrellas; luggage tags; tote bags; carry-all bags; lunch bags of nylon and canvas; backpacks; rucksacks; school bags; fanny packs; messenger bags; handbags; wallets and purses; athletic bags; travel bags; knapsacks; change purses; duffle bags; beach bags.

#### **Class 20**

(5) Children's furniture and bean bag beds, bean bag pillows and bean bag chairs; pillows

#### **Class 21**

(6) Bowls; lunch boxes; plates; household containers for food; drinking glasses; cups; mugs; hair brushes; combs for hair; toothbrushes;

#### **Class 24**

(7) Bath towels; beach towels; bed blankets; bed linens; bed sheets; bed spreads; bed comforters; pillows; pillow cases; pillow shams; duvet covers; curtains; handkerchiefs; table covers

#### **Class 25**

(8) Children's clothing; children's footwear and children's head wear namely, hats, caps and earmuffs

#### **Class 28**

(9) Toys, games and playthings namely action figures, action figure play sets, character toy figures and toy animal figures, character toy figure and toy animal figure play sets, toy figurines, toy pet figures and accessories therefor, collectible toy figures, collectible game pieces, namely transforming character toy figures and collectible character cards, plush toys, toy vehicles, children's multiple activity toys, children's multiple activity toys featuring interactive activities and digital applications, toy building sets, educational toys for children for developing, ride-on toys, construction toys, parlor games, puzzles, role-playing games, card games, collectible trading cards, board games, interactive board games, action skill games, action target games, electronic handheld games for use with external display screen or monitor and electronic action toys; party balloons; party favours; party hats; party games; novelty items in the form of small toys.

#### **Services**

#### **Class 41**

Entertainment services in the form of ongoing television programs in the field of children's entertainment; entertainment services, namely, a continuing animated television show broadcast over television, satellite, and webcasting and live video streaming media; entertainment services, namely, providing an ongoing radio programs in the field of children's entertainment; entertainment services, namely, providing ongoing television programs in the field of children's entertainment via a global computer network; entertainment services, namely, providing video webcasts in the field of children's entertainment; entertainment services, namely, providing online computer games; entertainment services, namely, providing video podcasts in the field of children's entertainment; entertainment services, namely, providing temporary use of nondownloadable interactive games; entertainment services, namely, providing temporary use of nondownloadable electronic games; entertainment services, namely, providing temporary use of nondownloadable computer games; entertainment services, namely, providing temporary use of nondownloadable video games and distribution thereof; presentation of live show performances in the field of children's entertainment; production of television shows in the field of children's entertainment; production of live show performances in the field of children's entertainment; organization of live show performances for children's entertainment purposes

Colour is claimed as a feature of the trade-mark. The word 'MICROOMICS' is in red.

### Goods

#### Class 05

(1) Dietetic products namely dietetic substances consisting of vitamins, minerals, amino acids and trace elements, prebiotics, probiotics, for medical purposes; Dietetic foods namely dietetic substances consisting of vitamins, minerals, amino acids and trace elements, prebiotics, probiotics, for medical purposes; Dietetic foods preparations namely dietetic preparations consisting of vitamins, minerals, amino acids and trace elements, prebiotics, probiotics for medical purposes; Dietetic food, namely dietetic preparations consisting of vitamins, minerals, amino acids and trace elements, prebiotics, probiotics, adapted for veterinary use; Dietary supplements for general health and well-being; Dietary supplements for animals, namely dietary supplements for general health and well-being for animals; Pharmaceutical preparations composed of and containing prebiotics, probiotics, symbiotics, vitamins, minerals, amino acids chemical components, chemical molecules, and trace elements for use in and for the treatment of Oral disorders (periodontitis, gingivitis, caries), Gastrointestinal disorders, Gastroenterological disorders, Chron disease, Diarrhea, Respiratory diseases and disorders, Respiratory diseases and disorders, Dermatologic diseases and disorders, namely dermatitis, eczema, psoriasis, acne, Metabolic disorders, namely Diabetes, Obesity, Celiac Disease; Metabolic disorders, namely Diabetes, Obesity, Celiac Disease; Veterinary preparations, namely dietetic substances consisting of biochemical preparations, prebiotics, symbiotics, probiotics for veterinary purposes namely, the improvement of animal health, well-being, productivity, and immunity; Sanitary preparations for use in gastroenterology; sanitary preparations for ophthalmological use; sanitary preparations for the treatment of bone

diseases; sanitary preparations for treating respiratory diseases; sanitary preparations for the treatment of cancer; sanitary preparations for treating gastrointestinal disorders; Pharmaceutical preparations for treating metabolic disorders, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity, hypothyroidism, Gaucher's disease, glucose malabsorption, galactose malabsorption, hemochromatosis, phenylketonuria, Obesity, Celiac Disease; Pharmaceutical preparations for the treatment of diseases of the metabolic system, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity, hypothyroidism, Gaucher's disease, glucose malabsorption, galactose malabsorption, hemochromatosis, phenylketonuria, Obesity, Celiac Disease; Pharmaceutical preparations for the prevention of disorders of the metabolic system, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity, hypothyroidism, Gaucher's disease, glucose malabsorption, galactose malabsorption, hemochromatosis, and phenylketonuria, Obesity, Celiac Disease; Pharmaceutical preparations for the treatment of disorders of the metabolic system, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity, hypothyroidism, Gaucher's disease, glucose malabsorption, galactose malabsorption, hemochromatosis, phenylketonuria, Obesity, Celiac Disease; Pharmaceutical preparations for the prevention of diseases of the metabolic system, namely diabetes, hypoglycaemia, gout, osteoarthritis, muscular dystrophy, anemia, bulimia nervosa, anorexia, obesity, hypothyroidism, Gaucher's disease, glucose malabsorption, galactose malabsorption, hemochromatosis, phenylketonuria, Obesity, Celiac Disease.

### **Class 09**

(2) Computer programs for visualizing genomic sequence data; computer programs for assembling, editing, and analyzing genomic sequence data; computer programs for drawing, analyzing, and visualizing biological pathways; computer programs for sequencing genomic sequence data; Computer programs for Next Generation Sequencing (NGS) data visualization, computer programs for microbiome analysis and visualization, computer programs for interactive data sharing with clients, namely, Next Generation Sequencing (NGS) data and microbiome data visualization for clients, computer programs for online submitting of Next Generation Sequencing (NGS) data and microbiome data having the specific function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome.; Computer software for visualizing genomic sequence data; computer software for assembling, editing, and analyzing genomic sequence data; computer software for drawing, analysing, and visualizing biological pathways; computer software for sequencing genomic sequence data, Computer software for Next Generation Sequencing (NGS) data visualization, computer software for microbiome analysis and visualization, computer software for interactive data sharing data with clients, namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients; computer software for online submitting data, namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients; Downloaded computer software for visualizing genomic sequence data; downloaded computer software for assembling, editing, and analyzing genomic sequence data; downloaded computer software for drawing, analysing, and visualizing biological pathways; downloaded computer software for sequencing genomic sequence data; downloaded computer software for Next Generation Sequencing (NGS) data visualization, downloaded computer software for microbiome analysis and visualization, downloaded computer software for interactive data sharing data with clients, namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients, downloaded computer software for online submitting of Next Generation Sequencing (NGS) data and microbiome data, having the specific

function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome; downloaded computer software for online submitting data namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients, downloaded computer software for online submitting of Next Generation Sequencing (NGS) data and microbiome data, having the specific function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome; Optical data recording media namely blank optical discs, blank optical CDs, blank optical DVDs, blank optical CDRoms for sound or video recording, blank recording disks, recording pendrives; Magnetic data recording media namely blank magnetic hard disks, blank magnetic floppy disks, blank magnetic tapes for tape recorders, magnetic pendrives; Electronic magnetic recording media namely blank electronic magnetic hard disks, blank electronic magnetic floppy disks, blank electronic magnetic CD, blank electronic magnetic dvd, electronic magnetic pendrives; Recorded computer software for visualizing genomic sequence data; recorded computer software for assembling, editing, and analyzing genomic sequence data; recorded computer software for drawing, analysing, and visualizing biological pathways; recorded computer software for sequencing genomic sequence data, recorded computer software for Next Generation Sequencing (NGS) data visualization, recorded computer software for microbiome analysis and visualization, recorded computer software for interactive data sharing with clients, namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients, recorded computer software for online submitting of Next Generation Sequencing (NGS) data and microbiome data, having the specific function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome; recorded computer software for online submitting data namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients, downloaded computer software for online submitting of Next Generation Sequencing (NGS) data and microbiome data, having the specific function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome; Recorded computer programmes for visualizing genomic sequence data; recorded computer programmes for assembling, editing, and analyzing genomic sequence data; recorded computer programmes for drawing, analysing, and visualizing biological pathways; recorded computer programmes for sequencing genomic sequence data; recorded computer programmes for microbiome analysis and visualization, recorded computer programmes for interactive sharing data with clients, namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients, recorded computer programmes for online submitting of Next Generation Sequencing (NGS) data and microbiome data, having the specific function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome; recorded computer programmes for online submitting data namely Next Generation Sequencing (NGS) data and microbiome data visualization for clients, downloaded computer software for online submitting of Next Generation Sequencing (NGS) data and microbiome data, having the specific function of allowing for the visualization and big data analysis of bacterial and fungal taxonomy data with the objective of showing the genomic diversity, gene content, and the functional characteristics and attributes of the microbiome; Apparatus for recording images namely cameras, film cameras, digital video cameras, digital camcorders; Apparatus for recording sound namely audio tape recorders, digital audio hard disk recorders, audio and video cassette recorders; Apparatus for transmission of images namely video frequency

amplifiers, video cables, video transformers; Apparatus for transmission of sound namely audio frequency amplifiers, audio cables, audio transformers; Apparatus for reproducing images namely video mixers, video receivers, televisions; Apparatus for reproduction of sound namely audio mixers, audio receivers, audio speakers; Magnetic data carriers namely blank hard disks, blank floppy disks; Digital recording media namely blank digital audio discs, blank digital videodiscs, blank digital audiotapes; Data processing equipment namely semiconductors, central processing units, computer software for image processing, computer software for processing digital music files, computer software for databases management, servers for sharing and managing databases; Scientific apparatus and instruments namely centrifuges used as laboratory apparatus, chromatography apparatus for laboratory use, distillation columns for laboratory use, laboratory furniture, laboratory glassware, laboratory robots.

### **Class 10**

(3) Surgical instruments; Dental instruments; veterinary instruments; medical instruments namely kits, namely genetic testing kits and genomic panels for diagnostic testing, and kits for preservation and stabilization of tissues, cells, biological material and biological samples namely fecal, oral, vaginal, skin and biological substances in environmental samples namely soil, residual water, and wastewater and biofermentative products and industrial downstreams.

### **Services**

#### **Class 42**

(1) Computer software design services; Software development services; Computer software maintenance services; Services for updating computer software; Computer hardware design services; Computer hardware and software consulting services; Research and development services relating to computer hardware; Research and consultancy services relating to computer hardware; Research and development services in the fields of bioinformatics, bacteriology, genetics, genomics, transcriptomics and genetic engineering, food genomics and metagenomics, bacterial genomics and metagenomics, fungal genomics and metagenomics; programming and development of computer hardware and software, custom databases, custom diagnostic services; design of computer hardware and software; research and development in the field of computer hardware and software; Scientific research services in the fields of bioinformatics, bacteriology, food genomics and metagenomics, bacterial genomics and metagenomics, fungal genomics and metagenomics, genetics, genomics, and genetic engineering; Scientific and technological research services in the fields of bioinformatics, bacteriology, genetics, genomics, transcriptomics, and genetic engineering; Repair of computer software; laboratory research services, namely bacteriological analysis, biochemical analysis, chemical analysis, genetic analysis, genomic analysis, food genomics and metagenomics analysis, bacterial genomics and metagenomics analysis and fungal genomics and metagenomics analysis; laboratory research services in the fields of bioinformatics, bacteriology, genetics, genomics, transcriptomics, and genetic engineering, food genomics and metagenomics, bacterial genomics and metagenomics, fungal genomics and metagenomics; Scientific and technological design, namely industrial design in the fields of science and technology.

#### **Class 44**

(2) Medical research services; Medical analysis services relating to the treatment of persons, namely medical analysis services relating to patient treatment; Pharmacy advice; Animal breeding, namely mice breeding services, poultry breeding services, pig breeding services, cow breeding services, ruminants breeding services; Veterinary services; rental of agricultural equipment; research and development services in the field of agricultural crops, agriculture metagenomics, genetic and genomics kits for agriculture metagenomics, agriculture pathogenic diagnosis, soil

fertility evaluation, crop testing kits, soil testing kits, and water testing kits; horticulture services; insecticide spraying for forestry.

**Claims**

Priority Filing Date: May 18, 2017, Country or Office: EUIPO (EU), Application No: 016746191 in association with the same kind of goods and in association with the same kind of services

**Application Number** 1,869,171  
**Language of Application** French

**Filing Date** 2017-11-22

## APPLICANT DETAILS

## TRADEMARK DETAILS

### Trademark Type

Design

### Visual Representation

### Goods

#### Class 09

(1) Virtual reality software, in the form of role-playing games simulating the daily reality of managers and leaders, designed to help anyone in a position of authority and influence to develop and improve their leadership, their impact, their influence and their authority; tool set to measure and determine how people use their leadership, their influence, their impact and their authority, namely computer software for online self-evaluation on the Internet, questionnaires and tests to inform people in a position of authority and influence and to give them the tools to exercise their leadership, their impact, their influence and their authority.

#### Class 16

(2) Printed matter namely a set of tools used by trainers, to help people in positions of authority and influence develop their leadership, their impact, their influence and their authority, namely sets of exercises, scenarios and role-playing games, memo boards and bookmarks, manuals for trainers, manuals and workbooks for participants, diplomas, books, promotional materials, namely advertising brochures, promotional pamphlets, posters.

### Services

#### Class 35

(1) Services professional consultancy for business management in the field of leadership, influence, interpersonal impact and authority, provided to leaders, managing teams and organizations.

#### Class 41

(2) Consulting, training, diagnostic and intervention services in the field of leadership, influence, interpersonal impact and authority, provided to individuals, teams and organizations; information and consulting related to vocational training in the field of leadership development, influence, interpersonal impact and authority, provided to individuals, teams and organizations; specialized coaching and mentoring services in the field of leadership development, influence, interpersonal impact and authority, provided to individuals, teams and organizations; organization and conduct of workshops and seminars in the field of training in the field of leadership, influence, interpersonal impact and authority, provided to individuals, teams and organizations; organization and conduct of conferences, group coaching and training in the field of leadership, influence, interpersonal impact and authority, provided to individuals, teams and organizations; development of training sessions for others in the field of leadership, influence, interpersonal impact and authority; development of programs and plans for training, coaching and group coaching, in the field of leadership, influence, interpersonal impact and authority; development of strategies for training, coaching and group coaching, in the field of leadership, influence, interpersonal impact and authority; instructor training in the field of leadership, influence, interpersonal impact and authority; conception, publishing and dissemination of books and educational materials, available in printed form and in downloadable digital form on the Internet; desktop publishing; provision of information and training related to leadership development via a website, namely in the form of texts, images, prerecorded and downloadable audio, video and audio-video files and media.

#### **Class 42**

(3) Design and operation of a computer system for training, offered on various digital recording media, online and downloadable, and taking the form of an interactive simulation game, to help anyone in a position of influence and authority, to develop and improve their leadership, their influence, their impact and their use of authority.

### Goods

#### Class 09

(1) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely apparatus for adjusting headlights, magnetic mount flashing safety lights for vehicles, electrical control systems for lighting systems for vehicles, car mounted units incorporating beam lights, led position sensors, temperature sensors, optical sensors, thermal sensors and recorded computer operating programs to automatically select the ideal light pattern according to driving and weather situation, as well as constitutive parts of the aforesaid goods; electric and electronic measuring, checking (supervision), control and regulating apparatus for installation in vehicles, namely, light control apparatus for vehicles in the form of on-board computers, and constitutive parts of the aforesaid goods; electrical and electronic modules, systems and components for vehicles, namely integrated circuit modules, GPS transmitters, GPS receivers, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices, and constitutive parts of the aforesaid goods; apparatus for the recording, editing, processing, sending, receiving and display of signals, data, images and sounds, namely automatic solar tracking sensors, LED position sensors, infrared sensors, and constitutive parts of the aforesaid goods; electric and electromagnetic data carriers,

namely card reading equipment, interface cards for data processing equipment in the form of printed circuits, and constitutive parts of the aforesaid goods; lasers, not for medical purposes, namely laser altimeters, rescue laser signalling flares, and constitutive parts of the aforesaid goods; lighting control systems, namely electronic control systems for automobile lighting, and constitutive parts of the aforesaid goods; light-emitting diodes, namely organic lightemitting diodes, laser diodes, in particular power laser diodes, semiconductor components, fibre-optic (including LED operated) light conductors, optocouplers, optical sensors, opto-electronic safety light barriers used for personnel security, light-emitting diode modules, namely modules composed of LEDs (also organic LEDs) with light- and signaling functions, displays on basis of LED technology (organic LED technology) being liquid crystal display screens, liquid crystal display panels, and constitutive parts of the aforesaid goods.

### **Class 11**

(2) Lighting apparatus, especially electric lamps and luminaires, and constitutive parts of the aforesaid goods; lighting apparatus and lighting devices and modules and systems consisting thereof, especially also on basis of light-emitting diodes (LEDs) and LED modules, including organic LEDs, namely LED light bulbs, light diffusers, projectors, and constitutive parts of the aforesaid goods; lighting apparatus and lighting devices and systems consisting thereof, in particular made using lasers and laser modules and laser diodes and laser devices, namely laser light projectors, laser projectors, and constitutive parts of the aforesaid goods; aforementioned lighting apparatus and lighting devices especially with integrated electronic ballasts, transformers, regulating or control apparatus or electronic and digital interfaces, including for the traffic related and vehicle sector, namely light bulbs for directional signals for vehicles, tail lights for vehicles, brake lights for vehicles, vehicle parking lights, lights for vehicles, map lights for vehicles, vehicle dynamo lamps, vehicle headlights, spot lights for use in vehicles, interior light installations for vehicles, rear lights for vehicles, and constitutive parts of the aforesaid goods; LED lamps and LED luminaires and parts therefor, and constitutive parts for the aforesaid goods.

### **Services**

#### **Class 42**

Scientific and technological services and research and design relating thereto, namely scientific and technological research in the field of the automotive industry, technological consulting services in the field of the automotive industry, design of computer programs and software for automobile lighting, intelligent cars lighting design services; technological development, namely product development services; technical research in the field of the automotive industry; computer programming and software development; system engineering for vehicles, namely mechanical engineering in the automotive field, processing of sensor data, namely analysing information compiled by sensors determining the vehicle geographic position and the weather to determine the vehicle lighting, consultancy, information and technical support in the field of technology, software integration and communications, namely technical consultancy in the field of automotive lighting, providing information in the field of automotive lighting, technical support in the form of troubleshooting of computer hardware and software problems in the field of automotive lighting.

### Class 01

(1) Industrial chemicals, namely, acetone for industrial purposes, acetylene for industrial purposes, boric acid for industrial purposes, and chemical agents for acid removal in industrial manufacturing applications; hydraulic fluid; fire-resistant hydraulic fluid; mold release preparations; coolants for use in metalworking; coolants for use in drawing, forming, stamping and blankwashing operations on metal surfaces; chemical preparations in the nature of bonding agents for fibrous materials, pigments, cements, paper, leather, textiles, and metals; chemical dust suppressant preparations that are not petroleum, oil or grease-based, namely, dust suppressing chemicals in liquid form for use with or on unpaved roads, mineral stockpiles, conveyors, embankments and piles, and mine surfaces; hygroscopic chemicals and other chemical preparations, namely, dust suppressing chemicals that are not petroleum, oil, or grease-based for absorbing and suppressing dust and airborne soil particulates; chemical preparations for cleaning purposes for use in metalworking.

### Class 02

(2) Rust preventatives in the nature of a coating; anti-rust greases and oils; all the foregoing for use in the primary metals industry, namely, by manufacturers of ferrous and non-ferrous metals, and by manufacturers of metal products; anti-corrosion thin-film coatings for application to metals and metal surfaces; decorative coatings in the nature of stains, namely, staining agents in the nature of synthetic dyes for interior and exterior use on a variety of substrates; anti-corrosion agents in the nature of coatings; protective preparations for metals, namely, metal rust inhibitors, anti-tarnishing preparations; sealer coatings for use in construction, marine, aerospace, and concrete flooring, namely, rust inhibiting coatings, corrosion inhibiting paint type coatings, and anti-slip floor coatings; coatings in the nature of epoxy coatings for providing corrosion resistance and protection against weather, sunlight, oil and water; paints for use on floors and concrete surfaces; floor coatings, namely, clear and pigmented epoxy-based coatings for concrete flooring and for construction, marine, and aerospace purposes; floor coatings, namely, acrylic and epoxy sealer coatings for concrete flooring and for construction, marine, and aerospace purposes; primers, paints and coatings in the nature of stains, namely, staining agents in the nature of synthetic dyes for interior and exterior use on a variety of substrates.

### **Class 03**

(3) Cleaning preparations, namely, industrial cleaners for metals and metal surfaces; cleaners for use on concrete, coated concrete, and masonry surfaces; floor cleaning preparations; grease removers for industrial use.

### **Class 04**

(4) Industrial lubricants, oils and greases; lubricating oils and grease compounds for use in the automotive, industrial and metalworking industries; industrial lubricants for metalworking and metal casting; lubricating compositions, namely, industrial lubricants for casting dies; lubricating oils and greases for use in the working, rolling, grinding, cutting, finishing, and coating of metals; lubricating oils and greases containing chemically transformed petroleum derived hydrocarbons and mixtures of hydrocarbons used in rolling of metals as lubricant, protector, and cleaning agent during manufacturing, processing, or fabricating of steel or metal; lubricants for rolling and forming of ferrous and non-ferrous metals; lubricants for use in the hot rolling of aluminum sheet and plate; lubricating oils for hydraulic systems.

### **Services**

#### **Class 35**

(1) Chemical processing management services for others in the fields of chemical processing, metalworking and steelworking, namely, chemical procurement of industrial chemicals, inventory management and control, providing business consultation and advice in the fields of chemical processing and management thereof, and business consultation services in the field of chemical process optimization; on-site inventory management of lubricants and process fluids for others, namely, controlling inventory.

#### **Class 40**

(2) Chemical processing management services for others in the fields of chemical processing, metalworking and steelworking, namely, on-site observation and monitoring of chemical processing, consulting services in the field of waste reduction, management of the recycling of waste from such processing, and providing technical consultation in the field of chemical processing; industrial fluid waste treatment services.

#### **Class 41**

(3) Training in the nature and application of metalworking fluids.

**Class 42**

(4) Providing information regarding fluid cleaning, mixing and lubrication in the fields of chemical processing, metalworking and steelworking via an interactive website; Computer systems monitoring services, namely for monitoring and controlling fluid applications on site in the fields of chemical processing, metalworking and steelworking; providing an on-line interactive database for use by consumers of industrial fluids to analyze consumption rates, cost of use, and current properties thereof via a website; hosting an on-line interactive database for use by consumers of industrial fluids to analyze consumption rates, cost of use, and current properties thereof.

**Class 45**

(5) Chemical processing management services for others in the fields of chemical processing, metalworking and steelworking, namely, preparation of material safety data sheet and environmental and occupational and safety compliance reports.

(1) Industrial chemicals, namely, acetone for industrial purposes, acetylene for industrial purposes, boric acid for industrial purposes, and chemical agents for acid removal in industrial manufacturing applications; hydraulic fluid; fire-resistant hydraulic fluid; mold release preparations; coolants for use in metalworking; coolants for use in drawing, forming, stamping and blankwashing operations on metal surfaces; chemical preparations in the nature of bonding agents for fibrous materials, pigments, cements, paper, leather, textiles, and metals; chemical dust suppressant preparations that are not petroleum, oil or grease-based, namely, dust suppressing chemicals in liquid form for use with or on unpaved roads, mineral stockpiles, conveyors, embankments and piles, and mine surfaces; hygroscopic chemicals and other chemical preparations, namely, dust suppressing chemicals that are not petroleum, oil, or grease-based for absorbing and suppressing dust and airborne soil particulates; chemical preparations for cleaning purposes for use in metalworking.

#### Class 02

(2) Rust preventatives in the nature of a coating; anti-rust greases and oils; all the foregoing for use in the primary metals industry, namely, by manufacturers of ferrous and non-ferrous metals, and by manufacturers of metal products; anti-corrosion thin-film coatings for application to metals and metal surfaces; decorative coatings in the nature of stains, namely, staining agents in the nature of synthetic dyes for interior and exterior use on a variety of substrates; anti-corrosion agents in the nature of coatings; protective preparations for metals, namely, metal rust inhibitors, anti-tarnishing preparations; sealer coatings for use in construction, marine, aerospace, and concrete flooring, namely, rust inhibiting coatings, corrosion inhibiting paint type coatings, and anti-slip floor coatings; coatings in the nature of epoxy coatings for providing corrosion resistance and protection against weather, sunlight, oil and water; paints for use on floors and concrete surfaces; floor coatings, namely, clear and pigmented epoxy-based coatings for concrete flooring and for construction, marine, and aerospace purposes; floor coatings, namely, acrylic and epoxy sealer coatings for concrete flooring and for construction, marine, and aerospace purposes; primers, paints and coatings in the nature of stains, namely, staining agents in the nature of synthetic dyes for interior and exterior use on a variety of substrates.

**Class 03**

(3) Cleaning preparations, namely, industrial cleaners for metals and metal surfaces; cleaners for use on concrete, coated concrete, and masonry surfaces; floor cleaning preparations; grease removers for industrial use.

**Class 04**

(4) Industrial lubricants, oils and greases; lubricating oils and grease compounds for use in the automotive, industrial and metalworking industries; industrial lubricants for metalworking and metal casting; lubricating compositions, namely, industrial lubricants for casting dies; lubricating oils and greases for use in the working, rolling, grinding, cutting, finishing, and coating of metals; lubricating oils and greases containing chemically transformed petroleum derived hydrocarbons and mixtures of hydrocarbons used in rolling of metals as lubricant, protector, and cleaning agent during manufacturing, processing, or fabricating of steel or metal; lubricants for rolling and forming of ferrous and non-ferrous metals; lubricants for use in the hot rolling of aluminum sheet and plate; lubricating oils for hydraulic systems.

**Services****Class 35**

(1) Chemical processing management services for others in the fields of chemical processing, metalworking and steelworking, namely, chemical procurement of industrial chemicals, inventory management and control, providing business consultation and advice in the fields of chemical processing and management thereof, and business consultation services in the field of chemical process optimization; on-site inventory management of lubricants and process fluids for others, namely, controlling inventory.

**Class 40**

(2) Chemical processing management services for others in the fields of chemical processing, metalworking and steelworking, namely, on-site observation and monitoring of chemical processing, consulting services in the field of waste reduction, management of the recycling of waste from such processing, and providing technical consultation in the field of chemical processing; industrial fluid waste treatment services.

**Class 41**

(3) Training in the nature and application of metalworking fluids.

**Class 42**

(4) Providing information regarding fluid cleaning, mixing and lubrication in the fields of chemical processing, metalworking and steelworking via an interactive website; Computer systems monitoring services, namely for monitoring and controlling fluid applications on site in the fields of chemical processing, metalworking and steelworking; providing an on-line interactive database for use by consumers of industrial fluids to analyze consumption rates, cost of use, and current properties thereof via a website; hosting an on-line interactive database for use by consumers of industrial fluids to analyze consumption rates, cost of use, and current properties thereof.

**Class 45**

(5) Chemical processing management services for others in the fields of chemical processing, metalworking and steelworking, namely, preparation of material safety data sheet and environmental and occupational and safety compliance reports.
