Trademarks Journal

Vol. 67 No. 3434

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

hardware for individual and integrated on-site and remote monitoring, control, interaction, operation, automation and optimization of industrial, commercial and residential buildings, facilities and plants consisting of flat panel display monitors, wired and wireless controllers and facilities management software to control building environmental systems for heating, air conditioning, ventilation, refrigeration and moisture and gas detection, to emergency safety systems, to control building security systems, to control fire and smoke detectors, sprinklers, water flow and video surveillance, to monitor and track personnel for emergency evacuation, to monitor energy use, lighting, fire and voice alarm communication systems, closed-circuit television (CCTV) surveillance installations, external building security threat detection, to track on-site personnel, to monitor light and motion detection, to control building access, to suppress fire and security alarms, and asset management software systems for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance; Computer hardware and automated process control systems comprised of computer network servers, computer application servers, computer network hubs, network switches, network routers, network adapters, network engines and network access servers, input and output (I/O) modules, software and wired and wireless controllers to monitor and control building process schedules, smoke control stations, fire alarm panel gateways, security alarms, heating, air conditioning and ventilation systems, energy usage, to route alarm and event messages to building operators for fault diagnosis and response, to report trends for air heating, cooling and ventilation, machine runtimes, energy usage, and to provide time-stamped internal environment audits; Computer hardware and automated process and optimization control systems comprised of computer network servers, computer application servers, computer network hubs, network switches, network routers, network adapters, network engines and network access servers, input and output (I/O) modules, software and wired and wireless controllers to gather, collect, aggregate, store, sort, analyze and report industrial, commercial and residential building, facility and plant information concerning access control, environment, safety, security, fire, sprinkler, water flow, video surveillance, tracking of on-site personnel, emergency alarm systems, energy usage, lighting, sound, security threat detection in the fields of building, facility and plant security vulnerability assessment, intrusion detection, behavioral monitoring, and threat log management, access control and asset management systems for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance; Computer hardware, software and systems for gathering, collecting, aggregating, storing, sorting, analyzing and reporting information provided by building facility and plant controllers, display monitors, and monitoring systems consisting of air flow control sensors, input and output (I/O) modules, computer processors, automatic tuning, gain scheduling, and sensors for reading fault detection and diagnosis concerning industrial, commercial and residential building, facility and plant heating, air conditioning, ventilation, refrigeration, energy use and allocation, facilities maintenance, process efficiency and stabilization of lighting, sound, fire and voice alarm communication systems, luminescent display panels, audio and video emergency broadcast systems, building, facility and plant electrical batteries and to control building, facility and plant electrical storage cell charging, energy metering and payment tracking, fire and smoke detection, fire and burglar alarm, fire and burglar alarm suppression and fire containment, water flow control, emergency evacuation and security access and alarms, closed-circuit television (CCTV) surveillance, light and motion detection, moisture detection, environmental hazard detection, external building security threat detection and safety, gas detection, asset management systems for predictive power plant maintenance to avoid unplanned shutdowns and for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance; Computer hardware and software for wired and wireless networking of building, facility and plant management to control building environmental systems for heating, air conditioning, ventilation, refrigeration, moisture and gas detection, to control safety systems for security access control, to control fire and smoke detectors,

sprinklers and water flow, to monitor building video surveillance, to monitor and track on-site personnel location for security and emergency evacuation purposes, to monitor energy use, lighting, fire and voice alarm communication systems, closedcircuit television (CCTV) displays, external building security threat detection, to control building access and asset management and automation and optimization systems for predictive power plant maintenance to avoid unplanned shutdowns and for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance; Computer software for wide area network operating system and graphical user interface configuration used in energy and security management systems; Software for use in the creation, configuration, engineering, installation and operation of industrial, commercial and residential building, facility, and plant control, environmental, safety and security systems, namely for fire alarms, sprinklers and water flow, for video surveillance, tracking of on-site personnel and emergency evacuation systems, for energy, lighting, sound, for external building security threat detection and building access control, for asset management and automation and optimization systems for predictive power plant maintenance to avoid unplanned shutdowns and for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance; Software for recording, tracking, auditing and reporting the performance and compliance of industrial, commercial and residential building, facility and plant environmental controls systems for heating, air conditioning, ventilation, refrigeration, moisture and gas detection, building temperature and humidity, fire and smoke detectors, sprinkler and water flow, sound and lighting systems; Application software to interact and enable the monitoring, control and operation of industrial, commercial and residential building, facility, and plant heating, air conditioning, ventilation, refrigeration systems, energy use and energy allocation systems, facilities maintenance systems namely energy efficiency and stabilization systems, lighting systems, light and motion detection systems, moisture detection systems, environmental hazard detection systems, sound detection systems, fire and voice alarm speaker systems, luminescent display panels, audio and video emergency broadcast systems, battery and storage cell charging systems, energy metering and payment systems, fire, smoke and gas detection systems, fire and security alarm, fire and security alarm suppression, fire containment and fire and security alarm control systems, water flow systems, emergency evacuation systems, security access and alarms, closed-circuit television (CCTV) surveillance systems, external building security threat detection systems, systems for tracking on-site personnel, asset management software systems for predictive power, air flow and heating, ventilating and air conditioning (HVAC) maintenance and to detect faults in the industrial, commercial and residential building systems using a remote computer, smart phone, tablet, computer notebook and laptop computer.

Services

Class 35

(1) Statistical analysis and reporting services for business purposes containing the compilation, systemization and collection of information pertaining to industrial, commercial and residential building, facility and plant control, automation and optimization systems for others.

Class 37

(2) Installation, maintenance and repair of electrical and electronic controls systems, and business automation and optimization system hardware for industrial, commercial and residential buildings, facilities and plants; Installation, maintenance and repair of industrial, commercial and residential building, facility and plant computer hardware and its components for environmental control systems, fire alarm and security alarm systems, fire, sprinkler, water flow, video surveillance, on-site personnel tracking, emergency, energy supply, lighting, sound, display monitors, external building security threat detection, building access control, and asset management systems;

Installation, maintenance and repair of industrial, commercial and residential building, facility, and plant computer hardware and its components for the on-site and remote monitoring, control, operation, automation, interaction and optimization of electrical and electronic controls and control systems, systems for heating, air conditioning, ventilation and refrigeration, systems to record energy use, allocation, maintenance, efficiency and stabilization, systems for lighting, sound, systems for emergency voice communication, luminescent display panels, audio and video emergency broadcast systems, battery and storage cell electrical charging systems, energy metering and payment systems, systems for fire and smoke detection, alarm, suppression, containment and control, water flow, emergency evacuation, for security access and alarms systems, closed-circuit television (CCTV) surveillance systems, personnel tracking systems, light and motion detection systems, moisture detection systems, environmental hazard detection systems, external threat detection and safety systems, gas detection, alarm and containment systems, asset management systems and systems for fault detection.

Class 38

(3) Transmission of security camera footage, information and data analytics in the field of building, facility and plant environment, building security, video surveillance, external threat detection and building access control, tracking of on-site personnel for emergency evacuation, fire safety containing sprinkler and water flow information, energy usage, lighting systems, sound speaker systems, display panels and asset management systems to aid in building, facility and plant process decision making concerning building, facility and plant process control, building automation and optimization, performance of building, facility and plant systems namely via a global computer network.

Class 41

(4) Training services to provide practical skills and mechanical training for heating, ventilation and air conditioning systems; training services in the field of building, facility and plant automation and optimization of building, facility and plant controls to use energy more efficiently; providing continuing education training in the field of heating, ventilation, air conditioning, as well as building, facility and plant automation and optimization to use energy more efficiently.

Class 42

(5) Engineering and technical design review namely constructability analysis, integrated technology automation and optimization for the development and integration of building, facility and plant control process systems and software; Technical consultation in the field of design and development of computer hardware, computer software, and computerized peripherals and systems used for building, facility and plant process controls, building access controls, and for building, facility and plant automation and optimization systems; Computer services, namely, building, facility and plant controls, access control system performance auditing by electronically gathering, analyzing and formatting this information to report to others, and building, facility and plant, automation and optimization system performance auditing to ensure proper functioning by electronically gathering, analyzing and formatting this information to report to others; Providing temporary use of on-line, non-downloadable computer applications and computer software for use in database management and coordinated control of energy management systems and security systems for building, facility, and plant process control systems, access control systems, and building, facility and plant automation and optimization systems; Technical customer support services namely, 24/7 help desk services for IT infrastructure namely for operating systems and database systems in the fields of building, facility, and plant process controls, access control systems, and building, facility and plant control, automation and optimization software and systems; Installation, maintenance and repair of building, facilities and plant system computer

software; Installation, maintenance and repair of automation and optimization software for building, facility and plant process systems, environmental control systems, safety, security and video surveillance systems, external threat detection and building access control systems, fire, sprinkler and water flow systems, on-site personnel tracking systems in the event of an emergency, to track energy supply and usage, lighting and sound systems, display panels, and asset management systems; Installation, maintenance and repair of building, facility, and plant control software systems for the on-site and remote monitoring, control, operation, automation, interaction and optimization of electrical and electronic controls and control systems for heating, air conditioning, ventilation, refrigeration, systems, to record energy use, allocation, maintenance, efficiency and stabilization, systems for lighting and sound, emergency voice and video broadcast systems, systems for luminescent display panels, battery and storage cell electrical charging systems, energy metering and payment systems, fire, moisture, gas and smoke detection, alarm, suppression, containment and control systems, environmental hazard detection systems, water flow, emergency evacuation, security access and alarms systems, closed circuit television (CCTV) surveillance systems, external threat detection namely safety, alarm and containment systems, asset and personnel tracking systems, light and motion detection systems, asset management systems, and systems for fault detection; Monitoring building, facility and plant automation and optimization systems to ensure proper functioning.

Class 45

(6) Monitoring security alarm systems for building, facility and plant automation and optimization systems; Building, facility and plant security services, namely, monitoring building security alarm systems for safety, security, fire, sprinkler, water flow, video surveillance, tracking of on-site personnel, energy, light, sound and motion detection, external building security threat detection, emergency voice communication systems, access control and monitoring asset management systems; Monitoring of security alarm computer systems through building, facility and plant environment control systems, safety, security, fire, sprinkler, water flow, video surveillance, on-site personnel tracking and emergency broadcast systems, energy, lighting, sound, display panels, external building security threat detection, access control, and asset management systems.

Goods

Class 03

(1) Soaps, namely skin soap, Soap for babies; Cosmetics, lip care preparations, not for medical purposes; Non-medicated anti-inflammatory salves, Non-medicated diaper rash cream; Skin care preparations for babies (not for medical purposes), hair care preparations for babies (not for medical purposes), Nonmedicated baby care products, namely Baby bath mousse, Babies' creams [non-medicated], Baby lotions, Baby oils, Baby powder, Baby shampoo, Sunscreen preparations, Baby wipes; Dentifrices, Tooth care products, namely tooth gel, tooth paste, dentifrices for babies; Cotton wool for cosmetic purposes, cotton sticks for cosmetic purposes; Pre-moistened cosmetic wipes.

Class 05

(2) Infant formula, foodstuff for babies, Beverages for infants, Powdered milk for babies; Dietetic substances for babies, namely baby food, baby vitamins, powdered milk for babies; Substitutes for mothers milk, namely infant formula; Babies' napkins (diapers), diapers of paper and cellulose; Absorbent sanitary articles, namely babies' diapers, babies' napkins, babies' swim diapers; Non-prescription pharmaceuticals for babies, namely medicated diaper rash cream, lotions and ointments; hygienic products for babies for medical use, namely nasal rinse; Powdered nutritional supplement drink mix for general health and well-being; Anti-inflammatory ointments, Medicinal ointments for treating diaper rash, Medicated nappy rash ointments; Pharmaceutical preparations for wounds; Breast-nursing pads.

Class 08

(3) Cutlery for use by babies; Nail scissors.

Class 09

(4) Baby alarms; Baby monitors, Baby scales; Measuring batten.

Class 10

(5) Dummies for babies, Dummies for toddlers, Dummy bands, Pacifier clips; Feeding bottle; Feeding bottle teats; Covers for baby feeding bottles; Teething rings; Teething rattles for babies, Incontinence sheets for use with babies; Bottles and pouches for storing breast milk; Breast pumps; Finger guards for mouth care purposes; Nasal aspirators; Ear picks; Screens for protecting the eyes against shampoo.

Class 11

(6) Baby bottle warmers, Baby food warmers, Sterilisers for babies' feeding bottles; Heating cushions for babies; Radiant heaters, heat radiators for heating ambient air; Toilet seats for babies and children.

Class 12

(7) Safety seats for babies for use in vehicles, Bicycle safety seats for babies, Vehicle safety harness for carry cots; Wheeled transporters for babies; Parts and fittings for baby carriages, Pushchair hoods, Stroller covers, Covering for pushchairs.

Class 16

(8) Bibs of paper; Photographic albums, Baby books; Paper towels; Adhesive wall decorations of paper; Wall decorations of paper (paper decorations); Craft sets containing plaster for foot and hand imprints.

Class 18

(9) Containers for carrying babies, namely Pouch baby carriers, Carry cots, Slings for carrying infants, Slings for carrying babies and infants, Baby carriers [slings and harnesses]; Backpacks.

Class 20

(10) Children's and babies' furniture; Moses baskets (cradles); Moses baskets; Beds, Transportable beds; Mattresses; Seats adapted for babies; High chairs for babies; Baby gates; Bath seats; Safety gates for babies and children (not of metal); Cradles, Babies' bouncing chairs; Infant walkers; Baby changing platforms, Changing mats, Changing table pads; Cushions, Crawling rollers for babies (cushions), Baby head support cushions; Portable baby bath seats for use in bath tubs; Chests, toy boxes and toy chests, containers for storage purposes (other than for household or kitchen purposes), namely packaging containers of plastic; Wall decorations made of wood, namely decorative wall plaques; Wall decorations of plastic, namely decorative wall plaques.

Class 21

(11) Baby bath tubs; Stands for babies' baths; Feeding bottle brushes; Heaters for feeding bottles, nonelectric; Potty; Training cups for babies and children; Tableware, other than knives, forks and spoons, for babies and children; Cups for babies and children; Brushes, namely hair brushes, washing brushes; Brush goods, namely kitchen scrubbing brushes, Bottle brushes, Toothbrushes, Hairbrushes; Electric combs; Sponges, namely toilet sponges, bath sponges; Buckets, namely Diaper pails; Serving scoops [household and kitchen utensil]; Chamber pots.

Class 24

(12) Bed linen; Blankets for babies, Blankets made of cotton, Woolen blankets; Gauze cloths; Towels of textile, Children's towels, Bath towels, Bath towels for children; Bath mitts; Diaper changing cloths for babies; Insect protection nets, Insect protection nets for pushchairs; Wall

decorations of textile, namely textile wall hangings; Sleeping bags for babies (clothing) ; Sleeping sacks, Sleeping bags for infants.

Class 25

(13) Baby and children's clothing, baby and children's footwear, headgear, namely Caps [headwear], Bonnets, Head scarves; Baby clothes, Children's wear, Scarves, Neck scarfs [mufflers], Gloves [clothing]; Layettes (clothing); Bibs, not of paper, Plastic baby bibs, Cloth baby bibs; Bath wraps (clothing).

Class 26

(14) Decorative articles for the hair, namely hair accessories and hair ornaments.

Class 28

(15) Games, namely board and card games, dolls, toy action figures, toy scale model vehicles, dice games, party games, dart games, action skill games, role-playing games, video games; Toys, namely bath toys, construction toys, educational toys, musical toys, plush toys, ride-on toys; playing cards, Stuffed toys; Gymnastic and sporting articles, namely gymnastic mats, gymnastic parallel bars, sports balls; Advent calendars made from socks.

Class 29

(16) Processed fruits, namely Fruit pulp, Fruit purees, Fruit mash, Fruit bars, Fruit chips, Dried fruit, Fruitbased snack food; Processed vegetables, namely Vegetable puree, Vegetable porridge, Vegetable chips, Vegetables, dried, Vegetable-based snack foods; Snack foods based on legumes; Prepared meals consisting primarily of vegetables, meat, chicken, milk products and fruit; Milk, Beverages based on milk and milk products; Milk products.

Class 30

(17) Tea, tea beverages; Bakery goods, namely cakes, pies, Cookies, Crackers, Rusks; Cereal preparations, namely cereal bars; Preparations made from cereals, namely cereal-based snack food, chips [cereal products], grain porridge, millet porridge, semolina pudding, spelt porridge, cereal based food bars, ready-to- eat cereal-based snack food, cereal based foodstuffs for human consumption, namely breakfast cereals, oat bran cereals, toasted grain flour; Rice puddings; Rice-based snack food, Rice cake snacks; Snack foods prepared from maize, namely maize flakes; Snack food products made from maize flour; Ready-made dishes containing pasta; Rice-based prepared meals; Pasta, noodles; Gruel, with a milk base, for food.

Class 32

(18) Mineral and aerated waters and other non-alcoholic beverages, namely soft drinks, energy drinks, iced tea; Waters; Fruit beverages and fruit juices, Fruit juice spritzers; Syrups powders and concentrates for making soft drinks and energy drinks.
