## Vol. 66 No. 3382

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

mixed-flow fans; multiple-vane fans; centrifugal blowers; rotary blowers; axial flow blowers; turbo blowers; centrifugal compressors; reciprocating compressors; rotary compressors; axial flow compressors; turbo compressors; electric wax-polishing machines; vacuum cleaners; machine elements, namely, shafts, axles, spindles, bearings, shaft couplings, connectors, power transmissions, gearing for machines, shock absorbers, springs, brakes, valves; waste compacting machines; waste crushing machines; starters for motors and engines; AC motors and DC motors, not including those for land vehicles; AC generators [alternators]; DC generators

### **Class 09**

(2) ozonisers [ozonators]; electrolyzers [electrolytic cells]; fire extinguishers; fireplugs; fire hose nozzles; sprinkler systems for fire protection; fire alarms; gas alarms; power distribution and control machines and apparatus, namely, electric switches, electric relays, circuit breakers, power controllers, current rectifiers, electric circuit closers, local switches, power distributing boxes, plugboards, connectors for distributing electric current, connectors for controlling electric current, capacitors for distributing electric current, capacitors for controlling electric current, capacitors for distributing and controlling electric current, resistors for distributing electric current, resistors for controlling electric current, resistors for distributing and controlling electric current, fuses for electric current, lightning arresters, electric transformers, induction voltage regulators, electric reactors, rotary converters, phase modifiers; rotary converters; phase modifiers; solar batteries; batteries and cells, namely, dry cells, wet cells, accumulators, batteries, electrolytic cells, fuel cells, solar cells, solar batteries; electric and magnetic meters and testers, namely, phase indicators, oscillographs, oscilloscopes, circuit testers, electric leakage detectors, magnetometers, frequency meters, vacuum tube characteristic testers, watt hour meters, resistance measuring instruments, voltmeters, wave meters, ammeters, watt meters, oscillators, capacity measures; electric wires and cables; electronic machines, apparatus and their parts, namely, downloadable computer software for use in database management, for use as a spreadsheet and word processing, electronic machines, apparatus and their parts, in the nature of, electrostatic copying machines, electron tubes, semi-conductor elements, electronic circuits, not including those recorded with computer programs, Geiger counters, cyclotrons, not for medical purposes, industrial betatrons, not for medical use, magnetic prospecting machines, magnetic object detectors, echo sounders, ultrasonic flaw detectors, ultrasonic sensors, electron microscopes; magnetic cores; resistance wires

### **Class 11**

(3) evaporators [for chemical processing]; distillers [for chemical processing]; heat exchangers [for chemical processing]; industrial furnaces; nuclear reactors [atomic piles]; boilers for non-electric prime movers and engines; air-conditioning apparatus, namely, air conditioners for industrial purposes, absorption heaters for industrial purposes, heat pumps for industrial purposes, heating radiators for industrial purposes, hot-air furnaces for industrial purposes, industrial humidifiers, industrial air purifiers, industrial dehumidifiers, locally induced air-conditioners for industrial purposes, radiators for industrial air-conditioning purposes, central air-conditioning installations for industrial purposes, window-mounting air-conditioners for industrial purposes; freezing machines and apparatus, namely, absorption chillers for industrial purposes, centrifugal chillers for industrial purposes, screw type chillers for industrial purposes, cooling towers for industrial purposes, air-cooled chillers (radiator type) for industrial purposes, separate type air-conditioners for industrial purposes, ice thermal storage devices for industrial purposes, gas refrigerators for industrial purposes, ice machines for industrial purposes, cooling evaporators for industrial purposes, cooling domes for industrial purposes, freezers for industrial purposes, refrigerating and freezing showcases; tap water faucets; level controlling valves for tanks; pipe line cocks; waste water treatment tanks [for industrial purposes]; septic tanks [for industrial purposes]; garbage

incinerators; solar water heaters; household electrothermic appliances, namely, electric water purifiers for household purposes, air purifiers for household purposes, water ionizers for household purposes, electric refrigerators for household purposes, electric freezers for household purposes,; washers for water taps; bath fittings; waste water treatment tanks for household purposes; septic tanks for household purposes

## **Services**

### **Class 37**

(1) general building construction services; construction consultancy, namely, building construction supervision; shipbuilding; repair and maintenance of microscopes; repair and maintenance of conveyors, screw conveyers; repair and maintenance of fire alarms; repair and maintenance of air conditioners for industrial purposes, hot-air space heating apparatus for industrial purposes, hot-air furnaces for industrial purposes, hot-water space heating apparatus for industrial purposes, industrial humidifiers, industrial air purifiers, steam heating apparatus for industrial purposes, industrial dehumidifiers, locally induced air-conditioners for industrial purposes, radiators for industrial air-conditioning purposes, central air-conditioning installations for industrial purposes, window-mounting air-conditioners for industrial purposes, pavement heating apparatus for industrial purposes; repair and maintenance of gas burners for garbage incinerators for industrial purposes, burners for industrial furnaces and gas burner for industrial furnaces; repair and maintenance of boilers; repair and maintenance of pumps; repair and maintenance of freezing machines and apparatus for industrial purposes, gas refrigerators for industrial purposes, ice machines for industrial purposes, refrigerating machines for industrial purposes, cooling evaporators for industrial purposes, cooling domes for industrial purposes, freezers for industrial purposes, refrigerating or freezing showcases; repair and maintenance of downloadable computer software for use in database management, for use as a spreadsheet and word processing; repair and maintenance of electronic machines, apparatus and their parts, in the nature of, computers and their peripherals, electrostatic copying machines, electron tubes, semi-conductor elements, electronic circuits, not including those recorded with computer programs, Geiger counters, high frequency apparatus for welding, cyclotrons, not for medical purposes, industrial X-ray machines and apparatus, not for medical use, industrial betatrons, not for medical use, magnetic prospecting machines, magnetic object detectors, echo sounders, ultrasonic flaw detectors, ultrasonic sensors, electronic door closing control systems, electron microscopes; repair and maintenance of remote control telemetering machines and instruments; repair and maintenance of dredging machines; repair and maintenance of electric switches, electric relays, circuit breakers, power controllers, current rectifiers, electric circuit closers, local switches, power distributing boxes, plugboards, connectors for distributing electric current, connectors for controlling electric current, connectors for distributing and controlling electric current, capacitors for distributing electric current, capacitors for controlling electric current, capacitors for distributing and controlling electric current, resistors for distributing electric current, resistors for controlling electric current, resistors for distributing and controlling electric current, fuses for electric current, lightning arresters, electric transformers, induction voltage regulators, electric reactors, rotary converters, phase modifiers; repair and maintenance of power generators; repair and maintenance of electric motors; repair and maintenance of medical instruments; repair and maintenance of chemical processing machines; repair and maintenance of glassware manufacturing machines; repair and maintenance of metalworking machines and tools; repair and maintenance of industrial furnaces; repair and maintenance of rubber-goods manufacturing machines; repair and maintenance of integrated circuits manufacturing machines and systems; repair and maintenance of semiconductor manufacturing machines and systems; repair and maintenance of machines for processing foods and beverages; repair and maintenance of machines for woodworking; repair and maintenance of

machines for veneer making; repair and maintenance of machines for plywood making; repair and maintenance of agricultural machines and implements; repair and maintenance of machines for pulp-making, papermaking and paper-working; repair and maintenance of plastic processing machines; repair and maintenance of oil and gas reservoirs, reservoirs of metal; repair and maintenance of dishwashers for industrial purposes; repair and maintenance of cooking equipment for industrial purposes; repair and maintenance of vehicle washing installations; repair and maintenance of power-driven floor cleaning machines; repair and maintenance of water pollution control equipment; repair and maintenance of water purifying apparatus for industrial purposes, industrial-water purifying apparatus, tap-water purifying apparatus; repair and maintenance of waste compacting machines; repair and maintenance of waste crushing machines; repair and maintenance of nuclear power plants; repair and maintenance of chemical plants; repair and maintenance of gas water heaters; repair and maintenance of non-electric cooking heaters; repair and maintenance of bath fittings; chimney sweeping; cleaning of building exterior surfaces; window cleaning; carpet and rug cleaning; floor polishing; septic tank cleaning; bathtub and bath boiler cleaning; street cleaning; sterilization of medical machines; rental of construction machines; rental of floor cleaning machines; rental of mining machines; rental of drainage pumps

### **Class 42**

(2) architectural design; surveying; geological surveys; geological research; geological surveys and research; designing of pumps, feed pumps, drainage pumps, vacuum pumps, high-pressure pumps, pneumatic and hydraulic machines and instruments, semiconductor manufacturing machines, freezing machines, garbage incinerators for industrial purposes, industrial boilers; designing for computer software, graphic arts; computer software design, computer programming, and maintenance of computer software; technological consulting services in the field of advice for , feed pumps, drainage pumps, vacuum pumps, high-pressure pumps, pneumatic and hydraulic machines and instruments, semiconductor manufacturing machines, freezing machines and apparatus, air-conditioning apparatus for industrial purposes, garbage incinerators for industrial purposes, industrial boilers; providing technological information for pumps, feed pumps, drainage pumps, vacuum pumps, high-pressure pumps, pneumatic and hydraulic machines and instruments, semiconductor manufacturing machines, freezing machines and apparatus, air conditioning apparatus for industrial purposes, garbage incinerators for industrial purposes, industrial boilers; research on city planning; research on building construction; research on building construction and city planning; testing on prevention of pollution; research on prevention of pollution; testing and research on prevention of pollution; testing on electricity; research on electricity; testing and research on electricity; testing on civil engineering; research on civil engineering; testing and research on civil engineering; testing and research on surveying machines and instruments; rental of surveying machines and instruments; rental of computers; providing on-line non-downloadable computer programs for use in databases management, for use as spreadsheet and word processing; rental of laboratory instruments; rental of drawing instruments

### Colour Claim

Colour is claimed as a feature of the trademark. The colours yellow, purple, orange, green and white are claimed as a feature of the mark. The colour placement is a non-repeating pattern of yellow, purple, orange, and green bands and shapes separated by thin white lines with the appearance of a stained glass window. The centre top vertical band appears in purple followed, moving clockwise, by an orange, then yellow, and then purple band each separated by thin white bands. The next vertical component consists of stacked colours beginning at the top of orange, purple, green, and yellow separated by thin white bands, followed by a thin white vertical band. The next vertical stripe consists of yellow at the top followed by green from which there is a horizontal stripe reaching to the outside of the circular device. The vertical band next to it is purple followed by a yellow band both separated by thin white bands. The remainder of design follows the same repeating colour placement.
