## Trademarks Journal

2019-10-23 — Vol. 66 No. 3391

# Trademarks Journal

## Vol. 66 No. 3391

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Apparatus for recording, transmission or reproduction of sound or images, namely audio-video receivers, video cameras, and web cameras; blank magnetic discs, blank laser discs, blank optical discs; calculating machines, data processing equipment, namely, computers; downloadable cloud computer software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of data; computer software for creating searchable databases of information and data; computer software for electronic storage of data; computers; computer hardware; computer servers; network servers; Internet servers; computer hardware for setting up and configuring local area networks (LAN), wide area networks (WAN), and virtual private networks (VPN); computer network hubs, routers, network interface controllers, computer network switches and wireless access points routers; computer storage hardware, namely, RAM (random access memory) cards, hard disk drives, USB flash drives, flash memory expansion modules, computer memory expansion modules, blank smart cards magnetic tape units for computers, digital disc drives, optical disc drives and redundant array of independent disks (RAID) controllers; computer storage servers, namely, computer network attached-storage (NAS) and computer servers used in computer storage area networks (SAN); computer storage area network (SAN) servers; computer network-attached storage (NAS) hardware; computer hardware for storage area networks, namely, magnetic tape units for computers, computer servers, optical disk libraries, hard disk drives, and external disk arrays; disk backup hardware, namely, network attached storage, external disk arrays, and computer disk drives; disk drives, namely, hard disk drives, optical disk drives, and computer disk drives; disk drive arrays and enclosures; redundant array of independent disks (RAID) controllers; host bus adapters; electronic data storage systems comprising computer hardware, computer peripherals, namely, computer network hubs, network routers, network interface controllers, computer network switches, wireless access point routers, computer disk drives, external disk arrays, computer network adapters, magnetic tape units for computers, computer chips, semiconductor chips, printed circuit boards, integrated circuits and computer operating system software; integrated IT systems comprising computer, computer storage and networking computer hardware and software for operation and administration of converged computer network infrastructure; modular IT systems comprising

computers, data storage servers, computer networking hardware, power modules for computers and computer networks and internal cooling modules for computers and computer networks; computer peripherals, namely, computer network hubs, routers, controllers, switches and wireless access point routers redundant array of independent disks (RAID) controllers, host bus adapters, magnetic tape units for computers, blank tapes for storage of computer data, memory chips, namely, computer memories and computer memory hardware, semiconductors, printed circuit boards, integrated circuits; digital signage consisting of multiple touch-enabled LCD flat panel screens; magnetic tape units for computers; blank tapes for storage of computer data; memory chips; semiconductors, printed circuit boards, integrated circuits; computer operating systems; network access server operating software; computer software for data storage automation; computer software for data storage virtualization and optimization; Computer software namely application software and operating system software used for computer server virtualization and data storage virtualization; computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; software for computer network operation, management, automation and virtualization; computer software for software-defined networking, namely, software for network management and software for deployment of enterprise applications; local area network (LAN) operating software; wide area network (WAN) operating software; computer software for connecting disparate computer systems, servers and storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network; software for cloud infrastructure management and automation; downloadable cloud computer software for use in database management and electronic storage of data in the field of enterprise data storage applications; computer software for monitoring cloud and web application performance; computer software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; computer software for creating and executing runbooks; computer software for forecasting and reporting resource utilization for improving server capacity planning; computer software for monitoring performance of computer networks; computer software for detecting and resolving malfunctions in computer networks; security software; computer software for troubleshooting of computer hardware and software problems; computer software for data protection, namely, anti-virus software, anti-malware software, anti-spyware software, anti-adware software; computer software for providing security for computers, networks and electronic communications; application and network security software; computer software for monitoring computer network access and activity; computer software for identifying application security vulnerabilities; data encryption and decryption software for ensuring the security of stored data and documents in the field of enterprise applications; cryptography software; computer software for user authentication of users of computer systems, computer networks, mobile computers, websites, and computer programs; computer software for monitoring, analysis and reporting of real-time security indicators for use in risk assessment and information security; IT security Computer software for identifying and correcting application security vulnerabilities; risk management software; data protection software for computer system backup and disaster recovery; software for data archiving; computer software for data deduplication; database management software; computer software for analyzing network activity; computer software for application and database integration; computer search engine software; software for searching databases; computer software for creating searchable databases of information and data; computer data warehouse operation and automation software; data center operation and automation software; computer software for the transmission of big data over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; computer software for data storage, processing and reproduction; computer software for

accessing, querying and analyzing information stored in databases and data warehouses; computer software for information and knowledge management in the field of enterprise data storage applications; business intelligence software, namely, business software applications designed to retrieve, analyze, and generate reports to provide historical, current and predictive views of the users' business operations; computer software that provides real-time, integrated business management intelligence by combining information from various databases; computer software for use in big data analysis; computer software that automates the processing of unstructured, semi-structured and structured information and data, namely, computer software used for management of information stored on computer networks and Internet sites; software for business organization and business process virtualization and management; computer software for use in customer relationship management (CRM); computer software for enterprise resource planning (ERP); computer software for business risk management; computer software for project management in the field of computer hardware and software design; computer software for corporate records management in the field of business operations and business management; computer software for running development programs and application programs in a common development environment for the creation of mobile Internet applications and client interfaces; computer software for assisting developers in creating program code for use in multiple application programs, namely mobile Internet applications and client interfaces; Computer software for cloud, mobile, and web application development, deployment and management; product lifecycle management software; software-defined infrastructure software, namely, computer hardware virtualization software; computer software that provides web-based access to enterprise data storage applications through a web operating system or and portal interface; computer software for managing business operations and billing services in the utilities industry; computer software for managing software licenses

### **Class 16**

(2) Printed matter, namely, magazines, printed periodicals, books, newsletters, brochures and journals in the field of computers, computer software and information technology; instructional and teaching materials, namely, guides, manuals, textbooks, and workbooks in the field of computers, computer software and information technology; brochures about technological developments, printed reference guides, technical bulletins, data sheets and printed product catalogs in the field of computers and information technology; product operating and service guides for computers and computer peripherals

### **Services**

#### **Class 35**

(1) Advertising the goods and services of others; business management; business administration; business management consulting services; business consulting services in the field of computer hardware, computer software, computer servers and computer; business consultation services in the field of business process improvement and outsourcing; business consultation services in the field of enterprise architecture; employment staffing for information technology projects; business process outsourcing services in the fields of computers and the use of computers and telecommunications systems for storing, retrieving and sending information; strategic planning services in the field of computer hardware, computer software, computer servers and computer networks; asset management services in the field of computer hardware, computer software, computer servers and computer networks; compilation and systemization of information into computer databases; database management services; online retail store services and ordering services featuring computer hardware, software and peripherals; business services, namely, assisting others in the negotiation and development of business partnerships and business

alliances; developing marketing strategies and marketing concepts for others in the field of information and computer technology; developing promotional campaigns for others in the field of information and computer technology; customer relationship management services; electronic commerce services, namely, advertising the goods and services of others via the Internet for the purpose of selling such third party products and services; providing a website featuring an online marketplace for sellers and buyers of computer and IT goods and services; business knowledge management services; business data analysis, namely big data analysis

#### **Class 36**

(2) Insurance; financial affairs and monetary affairs, namely, financial management, financial analysis, and financial information management and analysis, namely, business management services relating to information and data compiling and analysis; financing of purchases; lease financing services; purchase-lease financing services; processing, management and administration of employee health and welfare benefit plans; providing credit card transaction processing services for others; providing insurance claim processing services for others; financial analysis and consultation services for the organization and administration of financial operations; financial asset management; billing services

#### **Class 37**

(3) Building construction; installation, maintenance and repair of computers and computer, networking and telecommunications hardware

#### **Class 38**

(4) Transmission of webcasts, graphics, photographs, business reports, financial reports, marketing reports and big data, in the fields of computer networking, computer storage, computer infrastructure, computer systems and telecommunication systems by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks, and the Internet; transmission of information in the fields of business management, business operations, computers, computer networks and electronic commerce by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the internet; providing private and secure real time electronic communication, namely, emails, text messages, and voice messages, by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; providing virtual private network services, namely, providing computer network security services to enable private and secure transmission of electronic communications over a private or public computer networks; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computers, software, information technology; streaming of audio and video material via the Internet namely, news segments and short films in the fields of computers, development and operation of computer software and computer networks and information technology; voice over Internet protocol (VOIP) services

#### **Class 41**

(5) Educational and training services, namely, conducting classes, workshops, seminars and conferences in the field of computers, software, electronic commerce and computer networks; online journals, namely, operation of a blog in the fields of computers hardware, computer software, electronic commerce and computer networks

#### **Class 42**

(6) Research and development of new products for others; research and development of computer software; research and development in the field of computer hardware, computer software and computer networks; design and development of computer hardware and software; computer systems analysis, planning, integration and design; integration of computer systems and software;

integration of computer systems and networks; computer system administration for others; rental and leasing of computer hardware and computer peripherals; computer consulting services; advice on designing, selecting, and using computer hardware and systems; computer software consultancy; consulting services for others in the selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services, namely, providing assistance to others in developing internet portals; consulting services in the field of management of computer hardware, computer software and computer networks; consulting in the field of computer hardware and computer software applications transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and management; consulting services in the field of cloud computing; consulting services in the field of big data processing and analytics; consulting in the field of cloud infrastructure; consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of computer network design and internet security; consulting in the field of information security, governance and compliance; consulting in the field of computer and information security and consulting in the field of computers and telecommunications risk management; consulting in the field of IT mobility and workplace services, namely, business efficiency services and risk management services; technological consultation in the technology field of unified communications hardware and software; consulting in the fields of IT solutions for customer relationship management, financial management and administration, human resources, payroll; consulting services in the field of computer software for document processing; consulting services for managing application deployment, namely, deployment of cloud applications and computer software applications; consulting in the field of marketing optimization; consulting in fields of converged infrastructure and hyper-converged infrastructure; consulting services in the field of business management, business operations and billing services in the field of utilities industry; consulting in the field of environmental and energy efficiency; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of online non-downloadable middleware for providing an interface between software applications and operating systems; providing temporary use of on-line nondownloadable cloud computing software for use in database management and electronic storage of data; computer hardware and software design and development; computer programming services; developing driver and operating system software; software application development, modernization and cloud integration; software installation, maintenance and update services; testing the operation and functionality of computers, networks and software; business technology software development and consultation services; computer programming services for others in the field of software configuration management; computer software development in the field of mobile applications; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; service desk, help desk and troubleshooting services for IT infrastructure, computer hardware, computer software, computer peripherals and computer networks; technical support services, namely, troubleshooting of computer software problems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, monitoring of computers, network systems, servers and web and database applications, and notification of related events and alerts; technical support services, namely remote real-time computer and network monitoring services; technical support services, namely, remote and on-site infrastructure management services for monitoring, administration, and management of public and private cloud computing IT and application systems; providing website hosting services, website development and customized online web pages for others; consulting services in the field of cloud computing; cloud hosting

provider services; hosting software applications for others; cloud hosting of electronic databases; web, cloud and computer infrastructure hosting services; rental of web servers of variable capacity to third parties; rental of database servers of variable capacity to third parties; computer infrastructure hosting services, namely, providing computer hardware, computer software, computer peripherals and related operational and support services to others on a subscription or pay-per-use basis; virtualization services, namely, hosting and providing remote access to virtualized client computers; virtualization services, namely, providing temporary use on non-downloadable software for hosting and providing remote access to virtualized client computers; integration of private and public cloud computing environments; remote and on-site management of computer systems and software applications for others; cloud computing featuring software for use in database management; computer services, namely, hosting, managing, provisioning, scaling, administering, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; management of data centers, computer and computer network security, cloud computing, workplace technology, namely, computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network, computer networks, unified communications and computer hardware, computer software and computer networking for enterprises and business for others; rental of space in a computer co-location facility for containerized data centers of others; database development services; data mining services; providing data backup and data restoration services for hosted websites, software applications, computer software, electronic databases, graphics, photographs, business reports, financial reports, marketing reports, movies and music, and business computer software applications of others accessible via the Internet; data migration services; data encryption and decryption services; cloud computing providing software for database management; cloud computing providing software to automate data warehousing; electronic data storage services, namely cloud storage services, storage-as-a service and online storage services for others; electronic storage of digital content, namely, graphics, photographs, business reports, financial reports, marketing reports, movies and music; software-as-a-service (SaaS) services featuring software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; Software-as-a-service (SaaS) services featuring software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of big data; Software-as-a-service (SaaS) services featuring software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; Software-as-a-service (SaaS) services featuring software for creating and executing runbooks; Software-as-a-service (SaaS) services featuring software for forecasting and reporting resource utilization for improving server capacity planning; Software-as-a-service (SaaS) services featuring software for monitoring performance of computer networks; Software-as-a-service (SaaS) services featuring software for detecting and resolving malfunctions in computer networks; software as a service for managing IT service desks and IT help desk services; software as a service for use in enterprise applications, database management, and electronic storage of data; software as a service for monitoring cloud, web and application performance; software as a service for cloud infrastructure management and automation; software as a service for data protection and data security; software as a service for information security compliance monitoring, reporting and analytics; software as a services (SAAS) services featuring security software; Software as a service for identifying and correcting application security vulnerabilities; software as a service for risk management; software as a service for data backup, recovery and archiving; software as a service for data searching, namely, for creating searchable databases of information and data; software as a service for the transmission of data

over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; software as a service for data storage, processing and reproduction; software as a service for real-time, integrated business management intelligence by combining information from various databases; software as a service for business analytics, namely collecting and analyzing data to facilitate business decision making; software as a service for use in big data analysis; software as a service for automating the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; software as a service for business organization and business process virtualization and management; software as a service for customer relationship management (CRM); software as a service for enterprise resource planning (ERP); software as a service for business risk management; software as a service for project portfolio management (PPM); software as a service for records management; software as a service for product lifecycle management; infrastructure-as-a-service (IaaS) in the nature of technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; providing temporary use of non-downloadable computer software for configuration, provisioning, deployment, control, management and virtualization of computer network servers, computer network systems and computer hardware systems; providing temporary use of non-downloadable software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; providing temporary use of non-downloadable software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of big data; providing temporary use of non-downloadable software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; providing temporary use of non-downloadable software for creating and executing runbooks; providing temporary use of non-downloadable software for forecasting and reporting resource utilization for improving server capacity planning; providing temporary use of non-downloadable software for monitoring performance of computer networks; providing temporary use of non-downloadable software for detecting and resolving malfunctions in computer networks; providing temporary use of non-downloadable security software; providing temporary use of non-downloadable software for help desk services for computer hardware and computer software; providing temporary use of non-downloadable computer software for data protection, namely, anti-virus software, anti-malware software, anti-spyware software, anti-adware software; providing temporary use of non-downloadable electronic data security software; providing temporary use of non-downloadable computer software for computer network and application security, namely, software used for vulnerability management, vulnerability assessment, policy compliance, and remediation management; providing temporary use of non-downloadable software for monitoring user access to global computer networks; Providing temporary use of non-downloadable software for monitoring user activity on global computer networks; providing temporary use of non-downloadable data encryption and decryption software for ensuring the security of stored data and documents in the field of enterprise applications; providing temporary use of non-downloadable software for cryptography; Providing temporary use of nondownloadable computer software for user authentication of users of computer systems, computer networks, mobile computers, websites, and computer programs; temporary use of non-downloadable computer software for monitoring, analyzing and reporting of real-time security indicators for use in risk assessment and information security; providing temporary use of non-downloadable data protection software for computer system backup and disaster recovery; Providing temporary use of non-downloadable software for data archiving; providing temporary use of non-downloadable software for data deduplication; providing temporary use of non-downloadable software for cloud infrastructure management and automation; providing temporary use of non-downloadable computer software

for monitoring cloud and web application performance; providing temporary use of non-downloadable computer software for database management; providing temporary use of non-downloadable computer software to automate data warehousing; providing temporary use of non-downloadable computer software, namely, cloud computing data center management software; providing temporary use of non-downloadable computer software for application and database integration, namely, software featuring functions for the integration of web-based applications and databases in the field of business management; providing temporary use of non-downloadable computer software for application and database integration, namely, software featuring functions for the integration of cloud applications and databases in the field of business management; providing temporary use of nondownloadable computer software for the transmission of big data over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; providing temporary use of nondownloadable computer software for data storage, processing and reproduction; providing temporary use of non-downloadable computer software for accessing, querying and analyzing information stored in databases and data warehouses; temporary use of non-downloadable software for business intelligence, namely software designed to retrieve, analyze, and generate reports to provide historical, current and predictive views of the users' business operations; temporary use of non-downloadable software for business process insight, data analytics, information management, knowledge management, customer relationship management, and enterprise resource and risk management; providing temporary use of non-downloadable software for business organization and business process virtualization and management; providing temporary use of non-downloadable computer software for use in big data analysis; providing temporary use of non-downloadable computer software for information and knowledge management in the field of enterprise data storage applications; providing temporary use of non-downloadable computer software for use in customer relationship management (CRM); providing temporary use of non-downloadable computer software for enterprise resource planning (ERP); providing temporary use of non-downloadable computer software for business risk management; providing temporary use of non-downloadable computer software for project management in the field of computer hardware and software design; providing temporary use of nondownloadable computer software for corporate records management in the field of business operations and business management; Providing temporary use of non-downloadable computer search engine software; providing temporary use of non-downloadable computer software for running development programs and application programs in a common development environment for the creation of mobile Internet applications and client interfaces; Providing temporary use of non-downloadable computer software for assisting developers in creating program code for use in multiple application programs, namely mobile Internet applications and client interfaces; Providing temporary use of non-downloadable computer software for cloud, mobile, and web application development, deployment and management; Providing temporary use of nondownloadable computer software for managing inventory and product lifecycles of computer hardware and computer software applications; temporary use of non-downloadable software-defined infrastructure software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; providing temporary use of non-downloadable computer software for virtualization in fields of converged infrastructure and hyper-converged infrastructure; software as a service services, namely, hosting cloud and datacenter infrastructure software for use by others for use in database management and application development; providing temporary use of non-downloadable software for managing business operations and billing services in the utilities industry; providing temporary use of nondownloadable computer software for managing and tracking software licenses

# SINANODE

### Trademark Type

Standard Characters

### Goods

#### Class 01

(1) Chemicals in the nature of nanowires, nanorods and composite nanomaterials, all made from silicon and graphite for use in the manufacture of electrodes, cathodes, anodes, batteries, battery storage cells, power storage systems, power storage apparatus and instruments, fuel cells, energy storage apparatus and instruments, energy storage and energy conversion apparatus and instruments, energy conversion apparatus and instruments, energy storage and conversion systems, cathodic protection anodes, and cathodic corrosion protection systems; Chemicals in the nature of silicon nanowire compositions and compounds, composite silicon nanowire, graphite nano particles, and reinforced silicon composite nano particles, all for use in the manufacture of electrodes, cathodes, anodes, batteries, battery storage cells, power storage systems, power storage apparatus and instruments, fuel cells, energy storage apparatus and instruments, energy storage and energy conversion apparatus and instruments, energy conversion apparatus and instruments, energy storage and conversion systems, cathodic protection anodes, and cathodic corrosion protection systems; chemicals for use in industry being compounds comprising both oxygen and silicon; chemicals for use in industry being oxides of silicon; goods for use in connection with the aforesaid goods, namely, chemicals in the nature of anode and catalyst supports for chemical and biochemical processes, inorganic oxides and sub oxides in the nature of catalyst supports for chemical, industrial and manufacturing processes, and conductive chemicals in the nature of inorganic oxides and sub oxides for use as conductive chemical additives for active chemical materials in batteries.

#### Class 09

(2) Electrodes for use in electrochemical cells; electrodes for use in batteries; electrodes, namely graphite anodes; electrical storage batteries; galvanic batteries; electrical cells, namely, battery storage cells; power storage apparatus and instruments, namely, batteries, fuel cells, capacitors, supercapacitors, ultracapacitors; power storage systems comprised primarily of batteries, fuel cells, capacitors, supercapacitors, ultracapacitors, anodes; cathodes; cathodic protection anodes; cathodic corrosion protection systems comprised primarily of anodes attached to reinforced concrete to arrest rebar corrosion; energy storage apparatus and instruments, namely, batteries, fuel cells, capacitors, supercapacitors, ultracapacitors; energy conversion apparatus and

instruments, namely, batteries, fuel cells, capacitors, supercapacitors, ultracapacitors; energy storage and conversion systems comprised primarily of batteries, fuel cells, capacitors, supercapacitors, and ultracapacitors; fuel cells; parts and fittings for all of the aforesaid goods, namely, electrodes, bipolar plates for the interconnection of individual cells in fuel cells and batteries for the generation of electrical current, liquid level sensors, oil level sensors, temperature sensors, ohmic heating elements in the nature of electrical resistors made from ceramic materials and used for direct heating in the power storage, water treatment and construction industries.

#### Class 06

(1) Gazebos, namely, gazebos of metal, metal gazebos, portable gazebos of metal, pergolas of metal, and portable gazebos primarily of metal; Pergolas namely, metal arches for supporting plant, pergolas of metal

#### Class 09

(2) Decorative Outdoor Signs namely, luminous signs, and neon signs

#### Class 11

(13) Lanterns; Light Sets, namely, electric night lights, electric torches for lighting, fairy lights for festive decoration, light bulbs, light globes, miniature light bulbs, and string lights for festive decoration; Gazebo Chandelier Lights; Patio Light Sets namely, electric night lights, electric torches for lighting, fairy lights for festive decoration, light bulbs, light globes, miniature light bulbs, and string lights for festive decoration

#### Class 12

(3) Trolleys namely, two-wheeled trolleys

#### Class 18

(4) Table Umbrella Rings, namely, umbrella table protector rings; Umbrellas

#### Class 19

(5) Gazebos, namely, gazebos with fabric, wood and artificial wood gazebos, wood and artificial wood pergolas, and wood and artificial wood sun shelters; Roof Panels, namely, glass and plastic replacement roof panels for gazebos

#### Class 20

(6) Patio furniture; Bamboo patio bars, namely, garden furniture, lawn furniture, occasional tables, outdoor furniture, partitions of wood for furniture, patio furniture, serving trolleys, tables, and tables made of wood; Gossip Benches, namely, chairs, divans, easy chairs, lounge chairs, and sofas; Cast Iron Park Benches; Park Benches; Rocking Garden Benches, namely, garden furniture and park benches; Steel Benches, namely, decorative metal accent products for home exterior and garden-related use, garden furniture, park benches, and patio furniture; Resin Table/Benches, namely, artificial wood tables and benches, lawn furniture, outdoor furniture, park benches, patio furniture, plastic outdoor furniture, and tables; Bistro Sets, namely, chairs, dining tables, tables, tea tables, and writing tables; Outdoor Table and Chair Sets, namely, chairs, deck chairs, folding chairs, folding tables, outdoor furniture, and tables; Chairs; Adirondak Chairs; Club Chairs; Dining Chairs; Folding Chairs; Hanging Chairs; Motion Chairs; Rocking Chairs; Recliner Chairs; Stacking Chairs; Sectional Chairs; Spring Chairs; Swivel Chairs; Zero Gravity Chairs; Conversation Sets, namely, chairs, deck chairs, easy chairs, garden furniture, lawn furniture, lounge chairs, outdoor furniture, patio furniture, and sofas; Daybeds; Daybed/Sofas; Dining Sets, namely, dining chairs, dining room furniture, and dining tables; Ensembles namely, chairs, deck chairs, easy chairs, garden furniture, lawn furniture, lounge chairs, outdoor furniture, and patio furniture; Lounge namely, chair beds, chaise lounges, deck chairs, easy chairs, lounge chairs, and reclining chairs and Cushions; Lounges namely, chair beds, chaise lounges, deck chairs, easy chairs, lounge chairs, and reclining chairs; Loveseat namely, chair beds, chaise lounges, deck chairs, easy chairs, lounge chairs, sofa beds, and sofas and Tables; Loveseats, namely, chair beds, chaise lounges, deck chairs, easy chairs, lounge chairs, sofa beds, and sofas; Ottomans; Privacy Panels namely, freestanding furniture partitions, furniture partitions of wood, and partitions of wood for furniture; Pillows; Pub Sets namely, bar stools, chairs, dining chairs, dining tables, stools, and tables; Privacy Screens namely, furniture screens, and screens as partitions; Shelters namely, camping furniture, garden furniture, lawn furniture, and outdoor furniture; Decorative Outdoor Signs namely, decorative wall plaques; Sofas; Umbrella Stands; Stools; Sun Shelters namely, camping furniture, garden furniture, lawn furniture, and outdoor furniture; Tables; Coffee Tables; Dining Tables; Firebowl Tables; Firepit Tables; Side Tables; Sideboard Tables; Trolleys namely, serving trolleys, and tea trolleys; Shelters namely, metal camping furniture, and metal furniture for camping; Sun Shelters namely, metal camping furniture, and metal furniture for camping; Umbrella bases

**Class 21**

(7) Buckets, namely, champagne Bucket, ice buckets and wine buckets; Coffee Sets

**Class 22**

(8) Canopies, namely, awnings, awnings of fabric, awnings of textile, and tent canopies; Bungee Cord Kits, namely, replacement bungee cords for zero gravity chairs; Hammocks; Shelters namely, canopies of textile, canvas canopies, and tent canopies; Sun Shelters namely, canopies of textile, canvas canopies, and tent canopies

**Class 24**

(9) Mosquito Nets

**Class 26**

(10) Branches, namely artificial tree branches with LED lights

**Class 27**

(11) Decorative Outdoor Signs namely, decorative wall hangings not of textile

**Class 28**

(12) Swings

#### Class 09

(1) Measuring apparatus, namely automatic altitude indicators, speed sensors, devices for personal protection against accidents, namely goggles, goggles and masks for protection against dust, hard hats, protective helmets for sports, protective masks, namely ski goggles, gloves for protection against accidents, namely gloves and mitts for skiing, mouth guards, portable media players, luminous safety beacons for use as a personal locator, magnetic identification bracelets, measuring instruments, namely connected bracelets, namely magnetic encoded identification bracelets, video cameras, wearable activity sensors, headsets, signal bells, apparatus for recording time, namely automatic timers, apparatus for recording distance, namely odometers, nets for protection against accidents, life nets, reflective safety vests, apparatus for global positioning systems (GPS) and global positioning systems (GPS), namely global positioning system (GPS) receivers, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices, global positioning system (GPS) transmitters, clinometers, optical lamps, namely LED flashlights, signal lanterns, eyeglasses, sports glasses, luminous and mechanical signalling panels, life-saving and rescue devices, namely life belts, life jackets, life nets, emergency warning lights, signalling whistles, non-explosive fog signals, hand-held portable two-way radio transceivers, apparatus for detecting avalanche victims, namely thermal sensors.

(2) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking, supervision, life-saving, rescue and teaching apparatus and instruments, namely scientific prisms, marine compasses, magnetic compasses for surveying, surveying instruments, level measuring machines for surveying, levelling rods for surveying, test pins for testing printed circuit boards, optical amplifiers, optical sensors, light pens, emergency warning lights, optical inspection apparatus for detecting defects on agricultural irrigation equipment, digital cameras, video cameras, camcorders, video tape recorders, computers, emergency signal transmitters, sonars, sensors for measuring water depth, avalanche probes, thermal sensors, radar detectors, proximity sensors, electromagnetic measuring detectors, scales, hydrometers, hygrometers, frequency meters, pedometers, sound level meters, binoculars, printed circuit boards, sextants, navigation compasses, magnetic compasses, barometers, telescopes, life belts,

life jackets; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely electrical fuses, power switches, circuit breakers and circuit closers, inverters, electrical current and voltage regulators, frequency converters, voltage converters, electrical current rectifiers and inverters; compasses, GPS guidance systems, namely global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; probes (other than for medical use), namely avalanche probes; clothing and gloves for protection against accidents, namely ski helmets, special protective suits for skiers, ski gloves, protective helmets, namely protective helmets for sports, ski masks, apparatus for locating avalanche victims, namely avalanche probes; contact lenses, eyeglasses, eyeglass cases, telephone apparatus, namely telephone terminals, telephone transmitters, telephones, satellite telephones, hand-held portable two-way radio transceivers, pedometers, whistles.

### **Class 18**

(3) Trunks and suitcases; umbrellas and parasols; sports bags, wallets, bags, namely hiking backpacks, sports backpacks, backpacks, wheeled bags, handbags, travel bags, garment bags for travel, travel kits, suitcases, climbing bags, climbing sticks.

(4) Trunks and suitcases, umbrellas, backpacks, sports bags, climbing bags and climbing sticks, bags for campers, wallets, garment bags for travel, purses, leatherwork, namely key cases, slings for carrying infants, wheeled bags, waist packs, money belts not made of precious metals.

### **Class 25**

(5) Clothing, namely athletic clothing, athletic wear, outdoor winter clothing, rainwear, casual wear, skiwear and casual clothing; footwear, namely athletic shoes, hiking shoes, training shoes, climbing shoes, outdoor winter shoes, running shoes, rain shoes, ski boots, riding shoes, casual shoes; headgear, namely hats, berets, caps, protective visors for athletes; knitted caps, caps, underpants, pullovers, socks, sports shoes, ski boots, snowboard shoes, panties, underwear, scarves, shoulder scarves, gloves, ski gloves, undergloves, mitts, vests, sports jerseys, pants, ski pants, insoles, bras, T-shirts, jackets, down jackets, waterproof clothing, namely waterproof jackets and pants, ski coats.

(6) Clothing, namely athletic clothing, athletic wear, outdoor winter clothing, rainwear, casual wear, skiwear and casual clothing; shoes and footwear (except orthopedic shoes), namely athletic shoes, hiking shoes, training shoes, climbing shoes, outdoor winter shoes, running shoes, rain shoes, ski boots, riding shoes, casual shoes; headgear, namely hats, berets, caps, protective visors for athletes; underwear for athletic use, skirts, dresses, pants, jackets, coats, shirts, apparel, namely belts, gloves, waterproof clothing, namely waterproof jackets and pants, anoraks, ski suits, hats, knitted caps, caps, socks, stockings, tights, insoles, boots; sports shoes, footwear for skiing and snowboarding, sports clothing, climbing clothes, hiking shoes, shoulder scarves, pullovers.

### **Class 28**

(7) Games, namely dart games, dart game sets, skill games, target games, playing balls, outdoor activity play sets, badminton sets; toys, namely play balls and balloons, water toys, construction toys, plush toys, plastic toys, inflatable toys, sand toys, mechanical toys, scooters; gymnastic and sporting articles, namely sports balls, gymnastic springboards, ribbons specially adapted for rhythmic gymnastics, balance beams for gymnastics, rhythmic gymnastics hoops, parallel bars for gymnastics, horizontal bars for gymnastics, exercise bars, exercise weights; boards for snowboarding, namely snowboards, snow skis, ski poles, bobsleighs, snowshoes, sole coverings for skis, ski scrapers, sporting articles, namely elbow pads, sporting articles, namely knee pads,

sporting articles, namely shin guards, sole coverings for skis, namely climbing skins, sporting articles, namely luges, covers specially designed for skis and surfboards, ski bindings, snowboard bindings, ski masks.

(8) Games, namely dart games, dart game sets, skill games, target games, playing balls, outdoor activity play sets, badminton sets; toys, namely play balls and balloons, water toys, construction toys, plush toys, plastic toys, inflatable toys, sand toys, mechanical toys, scooters; gymnastic and sporting articles (except clothing, mats, footwear), namely sports balls, gymnastic springboards, ribbons specially adapted for rhythmic gymnastics, balance beams for gymnastics, rhythmic gymnastics hoops, parallel bars for gymnastics, horizontal bars for gymnastics, exercise bars, exercise weights; climbing walls; construction toys, namely building blocks, hang gliders, paragliders, sporting articles, namely protective padding for limbs, namely knee pads, shin guards, elbow pads; sporting articles, namely elbow pads, apparatus for physical exercise and fitness, namely exercise weights, exercise pulleys, stationary exercise bicycles and rollers, dumbbells and barbells, exercisers, namely chest expanders, stationary training bikes, weight training benches, abdominal apparatus, namely exercise machines for strengthening and developing abdominal muscles, trampolines, stationary running tracks, rowing machines, namely exercise machines for improving and maintaining cardiovascular health and muscle tone, snow skis, ski bindings, ski edges, ski poles, ski boards, monoskis, snowboards, water skis, ice skates, roller skates, skateboards, surfboards, bobsleighs, sporting articles, namely snowshoes, luges, covers for skis, covers for surfboards.

#### Class 09

(1) Computer hardware and software for navigation, control, and mission management of underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; software for integration and control of navigation, control, and mission management sensors onboard submarines, manned and unmanned surface marine boats, buoys, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; navigation, control, and mission management sensors onboard submarines, manned surface marine boats, buoys, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; user interface software for operation of submarines, manned and unmanned surface marine boats, buoys, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; software used in the design and development of submarines, manned and unmanned surface marine boats, buoys, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; hardware and software for recording navigation, control and mission management data for submarines, manned and unmanned surface marine boats, buoys, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; Global positioning systems (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices used for marine navigation, excluding satellites.

(2) Computer hardware and software for navigation, control, and mission management of submarines and autonomous underwater vehicles for seabed and subsurface inspections, seabed and subsurface interventions, and other seabed and subsurface marine work, and for unmanned underwater marine drones for use in scientific research, military applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications, and manned and unmanned surface marine boats, buoys; software for integration and control of navigation, control, and mission management sensors onboard autonomous underwater vehicles

for seabed and subsurface inspections, seabed and subsurface interventions, and other seabed and subsurface marine work, and for unmanned underwater marine drones for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; navigation, control, and mission management sensors onboard autonomous underwater vehicles for seabed and subsurface inspections, seabed and subsurface interventions, and other seabed and subsurface marine work, and for unmanned underwater marine drones for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications, and unmanned surface marine boats, buoys; user interface software for operation of autonomous underwater vehicles for seabed and subsurface inspections, seabed and subsurface interventions, and other seabed and subsurface marine work, and for unmanned underwater marine drones for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; software used in the design and development of autonomous underwater vehicles for seabed and subsurface inspections, seabed and subsurface interventions, and other seabed and subsurface marine work, and for unmanned underwater marine drones for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; hardware and software for recording navigation, control and mission management data for autonomous underwater vehicles for seabed and subsurface inspections, seabed and subsurface interventions, and other seabed and subsurface marine work, and for unmanned underwater marine drones for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications.

## Services

### Class 42

(1) Custom software design and development, namely, design and development of software for navigation, control, and mission management of submarines, manned and unmanned surface marine boats, buoys, and other floating marine vehicles and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; custom design and development of software for integration and control of devices and sensors onboard submarines, manned and unmanned surface marine boats, buoys, and other floating marine vehicles, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; custom design and development of user interface software for operation of submarines, manned and unmanned surface marine boats, buoys, and other floating marine vehicles, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; custom design and development of software used in the design and development of submarines, manned and unmanned surface marine boats, buoys, and other floating marine vehicles, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters; custom computer hardware design and development, namely, design and development of computer hardware for navigation, control and mission management of submarines, manned and unmanned surface marine boats, buoys, and other floating marine vehicles, and underwater diver propulsion vehicles, handheld electric-powered diver propulsion equipment for propelling a diver underwater, underwater scooters, and dive scooters.

(2) Custom software design and development, namely, design and development of software for navigation, control, and mission management of unmanned underwater marine vehicles for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; custom design and development of software for integration and control of devices and sensors onboard unmanned underwater marine vehicles for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; custom design and development of user interface software for operation of unmanned underwater marine vehicles for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; custom design and development of software used in the design and development of unmanned underwater marine vehicles for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications; custom computer hardware design and development, namely, design and development of computer hardware for navigation, control and mission management of unmanned underwater marine vehicles for use in scientific research, military applications, and commercial applications including survey, inspection, intervention, salvage, payload delivery, data retrieval and communications.

## Services

### Class 35

(1) Business management, sale, distribution, direct and online marketing services offered to a third party of machinery and apparatus for the manufacture of outdoor fiber cable, namely, Uv coloring machines, machines for manufacturing ribbon line, ribbon strander, loose tube line, SZ stranding machines for twisting tubes or wires into a cable structure, cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder for applying binding yarn around a cable core, capstans, cable take-up, controls for the foregoing sold as a component part of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing jacketed fiber optic cables, namely, jacketing line cable, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers for applying yarn around a cable core, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, armoring line machinery for applying steel, aluminum or copper protection to cables and controls for the foregoing sold as component parts of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for the manufacture of armoring line machines to pay-off, corrugate, and form a metal tape around a cable core, namely, metal tape pay-off, tape accumulator, seam welder for splicing tape, corrugator for corrugating tapes, rollformer and smooth tape former for forming material around a cable core; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing indoor fiber cable, namely, planetary strander for stranding fibers around a core and tight buffer line equipment for extruding a plastic jacket over bare optic fiber, namely, fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up, automatic change-over take-up; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing and premise cable jacketing, namely, tight buffer pay-offs, SZ oscillator, yarn servers for applying yarn around a cable core, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, controls for the foregoing sold as

component parts of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machinery and apparatus for the manufacture of copper wire cable, namely, tube payoffs, wire pay-offs; business management, sale, distribution, direct and online marketing services offered to a third party of machines for SZ stranding copper wire, dual single head binder for applying binding yarn around a cable core; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing wires and cables, namely, fiber pay-offs, auto change-over cable and wire take-up; business management, sale, distribution, direct and online marketing services offered to a third party of machines for use in repairing cables, namely, debinder for removing binders and yarn from cables and machines used as cable tensile tester.

### **Class 37**

(2) Installation, maintenance, electromechanical and mechanical repair of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line, SZ stranding equipment in the nature of cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder, capstans, cable take-up and machine controls; installation, maintenance, electromechanical and mechanical repair of machinery and apparatus in the field of jacketing line for the manufacture of machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of armoring line machines, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander for stranding fibers, tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up and automatic change-over take-up; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of copper wire cable, tube pay-offs, wire pay-offs, machines for SZ stranding of copper wire, dual single head binder; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of machines, namely, fiber pay-offs and auto change-over take-up; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of cable debinder and cable tensile testers.

### **Class 40**

(3) Assembly for others of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line machines, SZ stranding for cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual binder for applying two binding yarns around a cable, single binder for applying one binding yarn around a cable, capstans, cable take-up and machine controls; assembly for others of machinery and apparatus in the field of jacketing line for the manufacture of machines, namely,

cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; assembly for others of machinery and apparatus for the manufacture of armoring line machines, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; assembly for others of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up and automatic change-over take-up; assembly for others of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; assembly for others of machinery and apparatus for the manufacture of copper wire cable, namely, tube pay-offs, wire pay-offs, machines for SZ stranding of copper wire, dual single head binder; assembly for others of machinery and apparatus for the manufacture of fiber cable pay-offs, auto change-over take-up, cable debinder and cable tensile testers.

#### **Class 42**

(4) Programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line machines, SZ stranding equipment in the nature of cable pay-offs, cable dancers, tube pay-offs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder, capstans, cable take-up and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of jacketing line machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of armoring line machines for applying steel protection to cables, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machines and apparatus for the manufacture of indoor fiber cable, namely, planetary strander for tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up, automatic change-over take-up; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC)

boards, integration and design of machinery and apparatus for the manufacture of copper wire cable, namely, tube pay-offs, wire pay-offs, machines for the SZ stranding of copper wire, dual single head binder; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of machines, namely, fiber pay-offs, auto change-over take-up, cable debinder and cable tensile testers.

### Goods

#### Class 07

Machines and apparatus for manufacturing outdoor fiber cable, namely, Uv coloring machines, machines for manufacturing ribbon line, ribbon strander, loose tube line, SZ stranding machines for twisting tubes, wires into a cable structure, cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder for applying binding yarn around a cable core, capstans, cable take-up and controls for the foregoing sold as a component part of the machines; machines and apparatus for manufacturing jacketed fiber optic cables, namely, jacketing line, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers for applying yarn around a cable core, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape pay-offs, cable and wire extruder, capstans, cable accumulator, cable take-up and controls for the foregoing sold as component parts of the machines; machines and apparatus for use in the manufacture of optical cable in the nature of

machines and apparatus to pay-off, corrugate, and form a metal tape around a cable core, namely, metal tape pay-off, tape accumulator, seam welder for splicing tape, corrugator for corrugating tapes, rollformer and smooth tape former for forming material around a cable core; machines and apparatus for manufacturing indoor fiber cable, namely, planetary strander for stranding fibers around a core and tight buffer equipment for extruding a plastic jacket over bare optic fiber, namely, fiber pay-offs, cable and wire extruder and machine peripherals for the production of capstans, cable accumulator, buffer take-up, automatic change-over take-up; machines and apparatus for manufacturing and jacketing of premise cable, namely, tight buffer pay-offs, SZ oscillator, yarn servers for applying yarn around a cable core, cable extruder, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, controls for the foregoing sold as component parts of the machines; machines and apparatus for manufacturing copper wire cable, namely, tube pay-offs, wire pay-offs, machines for SZ stranding copper wire, dual single head binder for applying binding yarn around a cable core; machines and apparatus for manufacturing wires and cables, namely, fiber pay-offs, auto changeover cable and wire take-up; machines for use in repairing cables, namely, debinder for removing binders and yarn from cables.

## Services

### Class 35

(1) Business management, sale, distribution, direct and online marketing services offered to a third party of machinery and apparatus for the manufacture of outdoor fiber cable, namely, Uv coloring machines, machines for manufacturing ribbon line, ribbon strander, loose tube line, SZ stranding machines for twisting tubes or wires into a cable structure, cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder for applying binding yarn around a cable core, capstans, cable take-up, controls for the foregoing sold as a component part of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing jacketed fiber optic cables, namely, jacketing line cable, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers for applying yarn around a cable core, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, armoring line machinery for applying steel, aluminum or copper protection to cables and controls for the foregoing sold as component parts of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for the manufacture of armoring line machines to pay-off, corrugate, and form a metal tape around a cable core, namely, metal tape pay-off, tape accumulator, seam welder for splicing tape, corrugator for corrugating tapes, rollformer and smooth tape former for forming material around a cable core; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing indoor fiber cable, namely, planetary strander for stranding fibers around a core and tight buffer line equipment for extruding a plastic jacket over bare optic fiber, namely, fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up, automatic change-over take-up; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing and premise cable jacketing, namely, tight buffer pay-offs, SZ oscillator, yarn servers for applying yarn around a cable core, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, controls for the foregoing sold as

component parts of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machinery and apparatus for the manufacture of copper wire cable, namely, tube payoffs, wire pay-offs; business management, sale, distribution, direct and online marketing services offered to a third party of machines for SZ stranding copper wire, dual single head binder for applying binding yarn around a cable core; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing wires and cables, namely, fiber pay-offs, auto change-over cable and wire take-up; business management, sale, distribution, direct and online marketing services offered to a third party of machines for use in repairing cables, namely, debinder for removing binders and yarn from cables and machines used as cable tensile tester.

### **Class 37**

(2) Installation, maintenance, electromechanical and mechanical repair of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line, SZ stranding equipment in the nature of cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder, capstans, cable take-up and machine controls; installation, maintenance, electromechanical and mechanical repair of machinery and apparatus in the field of jacketing line for the manufacture of machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of armoring line machines, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander for stranding fibers, tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up and automatic change-over take-up; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of copper wire cable, tube pay-offs, wire pay-offs, machines for SZ stranding of copper wire, dual single head binder; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of machines, namely, fiber pay-offs and auto change-over take-up; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of cable debinder and cable tensile testers.

### **Class 40**

(3) Assembly for others of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line machines, SZ stranding for cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual binder for applying two binding yarns around a cable, single binder for applying one binding yarn around a cable, capstans, cable take-up and machine controls; assembly for others of machinery and apparatus in the field of jacketing line for the manufacture of machines, namely,

cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; assembly for others of machinery and apparatus for the manufacture of armoring line machines, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; assembly for others of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up and automatic change-over take-up; assembly for others of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; assembly for others of machinery and apparatus for the manufacture of copper wire cable, namely, tube pay-offs, wire pay-offs, machines for SZ stranding of copper wire, dual single head binder; assembly for others of machinery and apparatus for the manufacture of fiber cable pay-offs, auto change-over take-up, cable debinder and cable tensile testers.

#### **Class 42**

(4) Programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line machines, SZ stranding equipment in the nature of cable pay-offs, cable dancers, tube pay-offs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder, capstans, cable take-up and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of jacketing line machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of armoring line machines for applying steel protection to cables, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machines and apparatus for the manufacture of indoor fiber cable, namely, planetary strander for tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up, automatic change-over take-up; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC)

boards, integration and design of machinery and apparatus for the manufacture of copper wire cable, namely, tube pay-offs, wire pay-offs, machines for the SZ stranding of copper wire, dual single head binder; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of machines, namely, fiber pay-offs, auto change-over take-up, cable debinder and cable tensile testers.

### Goods

#### Class 07

Machines and apparatus for manufacturing outdoor fiber cable, namely, Uv coloring machines, machines for manufacturing ribbon line, ribbon strander, loose tube line, SZ stranding machines for twisting tubes, wires into a cable structure, cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder for applying binding yarn around a cable core, capstans, cable take-up and controls for the foregoing sold as a component part of the machines; machines and apparatus for manufacturing jacketed fiber optic cables, namely, jacketing line, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers for applying yarn around a cable core, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape pay-offs, cable and wire extruder, capstans, cable accumulator, cable take-up and controls for the foregoing sold as component parts of the machines; machines and apparatus for use in the manufacture of optical cable in the nature of machines and apparatus to pay-off, corrugate, and form a metal tape around a cable core, namely,

metal tape pay-off, tape accumulator, seam welder for splicing tape, corrugator for corrugating tapes, rollformer and smooth tape former for forming material around a cable core; machines and apparatus for manufacturing indoor fiber cable, namely, planetary strander for stranding fibers around a core and tight buffer equipment for extruding a plastic jacket over bare optic fiber, namely, fiber pay-offs, cable and wire extruder and machine peripherals for the production of capstans, cable accumulator, buffer take-up, automatic change-over take-up; machines and apparatus for manufacturing and jacketing of premise cable, namely, tight buffer pay-offs, SZ oscillator, yarn servers for applying yarn around a cable core, cable extruder, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, controls for the foregoing sold as component parts of the machines; machines and apparatus for manufacturing copper wire cable, namely, tube pay-offs, wire pay-offs, machines for SZ stranding copper wire, dual single head binder for applying binding yarn around a cable core; machines and apparatus for manufacturing wires and cables, namely, fiber pay-offs, auto changeover cable and wire take-up; machines for use in repairing cables, namely, debinder for removing binders and yarn from cables.

## Services

### Class 35

(1) Business management, sale, distribution, direct and online marketing services offered to a third party of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for manufacturing ribbon line, ribbon strander, loose tube line, SZ stranding machines for twisting tubes or wires into a cable structure, cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder for applying binding yarn around a cable core, capstans, cable take-up, controls for the foregoing sold as a component part of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing jacketed fiber optic cables, namely, jacketing line cable, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers for applying yarn around a cable core, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, armoring line machinery for applying steel, aluminum or copper protection to cables and controls for the foregoing sold as component parts of the machines; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for the manufacture of armoring line machines to pay-off, corrugate, and form a metal tape around a cable core, namely, metal tape pay-off, tape accumulator, seam welder for splicing tape, corrugator for corrugating tapes, rollformer and smooth tape former for forming material around a cable core; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing indoor fiber cable, namely, planetary strander for stranding fibers around a core and tight buffer line equipment for extruding a plastic jacket over bare optic fiber, namely, fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up, automatic change-over take-up; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing and premise cable jacketing, namely, tight buffer pay-offs, SZ oscillator, yarn servers for applying yarn around a cable core, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, controls for the foregoing sold as component parts of the machines; business management, sale, distribution, direct and online

marketing services offered to a third party of machinery and apparatus for the manufacture of copper wire cable, namely, tube payoffs, wire pay-offs; business management, sale, distribution, direct and online marketing services offered to a third party of machines for SZ stranding copper wire, dual single head binder for applying binding yarn around a cable core; business management, sale, distribution, direct and online marketing services offered to a third party of machines and apparatus for manufacturing wires and cables, namely, fiber pay-offs, auto change-over cable and wire take-up; business management, sale, distribution, direct and online marketing services offered to a third party of machines for use in repairing cables, namely, debinder for removing binders and yarn from cables and machines used as cable tensile tester.

### **Class 37**

(2) Installation, maintenance, electromechanical and mechanical repair of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line, SZ stranding equipment in the nature of cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder, capstans, cable take-up and machine controls; installation, maintenance, electromechanical and mechanical repair of machinery and apparatus in the field of jacketing line for the manufacture of machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of armoring line machines, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander for stranding fibers, tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up and automatic change-over take-up; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of copper wire cable, tube pay-offs, wire pay-offs, machines for SZ stranding of copper wire, dual single head binder; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of machines, namely, fiber pay-offs and auto change-over take-up; installation, maintenance and electromechanical and mechanical repair of machinery and apparatus for the manufacture of cable debinder and cable tensile testers.

### **Class 40**

(3) Assembly for others of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line machines, SZ stranding for cable pay-offs, cable dancers, tube payoffs, wire pay-offs, SZ Oscillator, dual binder for applying two binding yarns around a cable, single binder for applying one binding yarn around a cable, capstans, cable take-up and machine controls; assembly for others of machinery and apparatus in the field of jacketing line for the manufacture of machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel

applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; assembly for others of machinery and apparatus for the manufacture of armoring line machines, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; assembly for others of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up and automatic change-over take-up; assembly for others of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; assembly for others of machinery and apparatus for the manufacture of copper wire cable, namely, tube pay-offs, wire pay-offs, machines for SZ stranding of copper wire, dual single head binder; assembly for others of machinery and apparatus for the manufacture of fiber cable pay-offs, auto change-over take-up, cable debinder and cable tensile testers.

#### **Class 42**

(4) Programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of outdoor fiber cable, namely, UV coloring machines, machines for making ribbon line, ribbon strander, loose tube line machines, SZ stranding equipment in the nature of cable pay-offs, cable dancers, tube pay-offs, wire pay-offs, SZ Oscillator, dual cable binder, single cable binder, capstans, cable take-up and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of jacketing line machines, namely, cable pay-offs, cable dancers, strength member and tube pay-offs, yarn servers, flood gel applicator for inserting gel in the cable to prevent water infiltration, swellable polyester resin tape system, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of armoring line machines for applying steel protection to cables, namely, metal tape pay-off, tape accumulator, seam welder, corrugator for corrugating tapes, rollformer and smooth tape former; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of indoor fiber cable, namely, planetary strander for tight buffer line equipment in the nature of fiber pay-offs, cable and wire extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, buffer take-up, automatic change-over take-up; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of premise cable jacketing machines, namely, tight buffer pay-offs, SZ oscillator, yarn servers, cable extruder and machine peripherals, stainless steel water troughs for containing temperature controlled water to cool down rubber covering, capstans, cable accumulator, cable take-up, and machine controls; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of copper wire

cable, namely, tube pay-offs, wire pay-offs, machines for the SZ stranding of copper wire, dual single head binder; programming and debugging of computer software and Programmable Logic Controller (PLC) boards, integration and design of machinery and apparatus for the manufacture of machines, namely, fiber pay-offs, auto change-over take-up, cable debinder and cable tensile testers.

### Colour Claim

Colour is claimed as a feature of the trade-mark. The color(s) yellow, black, and white is/are claimed as a feature of the mark. The mark consists of the word partsam in yellow and black font on a black background. The first five letters are in capitol letters while the last two letters are in lower case. The letter 'P' and the last two letters 'a' and 'm' are in yellow while the middle letters 'A', 'R', 'T', 'S', are in black. The letter 'P' is a special character with the end of the P curving over the staff of the P with a white circle and streak inside. Two black curves forming the shape of a car stretch over and around the word 'Partsam'.

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trademark. The colours dark brown, light brown, orange and white are claimed as a feature of the mark. The mark consists of the wording "L'ANTICA PIZZERIA" in light brown over the design element consisting of a triangle background carrier outlined in dark brown with an orange and white background. The portrait of a man in a dark brown suit and white shirt with white hair is within this carrier behind a white and dark brown banner with the wording "DA MICHELE" in dark brown on white and "DAL 1870" in white on dark brown over a group of four leaves in dark and light brown.

### Foreign Character Translation

The translation provided by the applicant of the text portion in the mark, namely "L'antica Pizzeria", "Da Michele", and "dal 1870" in Italian mean "The Ancient Pizzeria", "Michele's" and "since 1870", respectively.
