### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Application software for psychometric testing, employee evaluation and human resources functions; computer games; computer games downloaded from a global computer network; computer programmes (programs) and computer software available for use online via the Internet for psychometric testing, employee evaluation and human resources functions; downloadable computer programmes (programs) for psychometric testing, employee evaluation and human resources functions; computer programs for playing games; interactive computer software namely gamified psychometric testing and employee recruitment tools

### Services

#### Class 35

(1) Business management and business administration, namely talent acquisition and talent management functions namely leadership assessments and evaluation for businesses and government organization practices, and business succession planning; business management, business administration and office functions namely collecting, processing and distributing psychometric and employee data; employment profile services namely by way of a global computer information and communications network; compilation of business data; compilation of statistical data; management and compilation of computerized databases; data scrubbing; maintaining or updating data in databases; compilation of information into computer databases; database management; collection of statistics for business; compilation of statistics, namely business statistics; consultancy relating to the preparation of business statistics; business research; benchmarking (evaluation of business organisation practices); business organisation consulting corporate planning; business strategy services; staff utilisation planning; human resource management; employment consultancy services; psychological testing for the selection of personnel; employment counselling services; employment recruiting consultancy services; personnel management, recruitment, human resources and employment services, namely by on-line delivery by a global computer information and communications network namely the Internet and worldwide web; preparation of business reports; business efficiency expert services; business efficiency studies; consultancy relating to business efficiency; efficiency or process auditing (examining, reviewing or assessing the working of a business or organization); conducting

productivity studies; wholesale and retail services in relation to business management namely wholesale and retail sale of computer software used for business management, human resources, recruitment and psychological testing for the selection of personnel; research services and personal development services; evaluation of employee performances against bench-mark references

#### **Class 41**

(2) Publishing information regarding personnel, recruitment, human resources and employment services in electronic form via a global computer information and communication network; employment training; educational research; computer based-training relating only to psychometric testing, employee evaluation and human resources functions; online video gaming services; provision of online video games by means of a computer based system; interactive and non-interactive vocational guidance and consultancy services, all in relation to personnel management, recruitment, human resources and employment services, namely such services provided by online delivery via a global computer information and communications network namely the Internet and worldwide web

#### **Class 42**

(3) Employee performance monitoring and analysis services; preparation of statistics for scientific research; providing information, namely online, about scientific and technological services and research and design for psychometric testing, employee evaluation and human resources functions; setting of quality standards for psychometric testing, employee evaluation and human resources functions; advisory services relating to the preparation of quality standards for psychometric testing, employee evaluation and human resources functions

#### **Class 45**

(4) Employment screening services; identity verification; provision of background check services

#### Class 09

(1) Electrical controls, namely smart electricity meters, controlled electrical relays, electricity usage apparatus, namely electricity meters, energy managers, charge management controllers for electric accumulators, home batteries, electric vehicle batteries, battery charging stations, electric circuit breakers, electric contactors, electric programmers, power supply or power failure indicators; data processing equipment, namely computer network hubs, switches and routers; computers, microcomputers, computer software, software packages, namely computer software and software packages for tracking, calculating and managing water, electricity and gas usage and home automation, computer software and software packages for performing remote technical interventions related to electricity, electricity usage, energy conservation and energy management in buildings, computer software and software packages for receiving and transmitting data and orders related to electricity usage, computer software and software packages for diagnosing electrical grid problems, computer software and software packages for controlling the electricity supply and usage in a building, computer software and software packages for receiving and transmitting data and orders related to electricity usage.

#### Class 11

(2) Heating apparatus, namely heated floors, heating radiators, central heating systems, namely home central heating apparatus, boilers, refrigerating apparatus, namely thermodynamic compressors for cold production systems, namely air conditioners and control and regulation devices related thereto, namely temperature regulators for heating and refrigerating apparatus, namely automatic temperature regulators for central heating radiators, accessories for regulating and controlling heating and refrigerating apparatus, namely thermostatic valves as parts of heating installations.

### Services

#### Class 37

(1) Installation, repair and maintenance services for electric apparatus, namely apparatus and instruments for regulating electricity, namely smart electricity meters, controlled electrical relays, electricity usage apparatus, namely electricity meters, energy managers, charge management

controllers for electric accumulators, home batteries, electric vehicle batteries, battery charging stations, electric circuit breakers, electric contactors, electric programmers, power supply or power failure indicators, household or industrial electricity usage monitoring apparatus, namely energy usage indicators, centralized technical management controllers, building management system controllers, signal, current and voltage analysis apparatus, namely multimeters, frequency meters, voltage analyzers, electrical fault detectors, powerline communication quality analyzers, radiator installation and repair services; information services related to the repair of radiators, air conditioning units, air conditioning apparatus, information services related to the installation, maintenance and repair of radiators, air conditioning units, air conditioning apparatus, lighting apparatus, computer apparatus, namely computers, routers, network-enabled switches for electric apparatus, namely apparatus and instruments for regulating electricity, namely smart electricity meters, controlled electrical relays, electricity usage apparatus, namely electricity meters, energy managers, charge management controllers for electric accumulators, home batteries, electric vehicle batteries, battery charging stations, electric circuit breakers, electric contactors, electric programmers, controllable electrical socket programmers, power supply or power failure indicators, household or industrial electricity usage monitoring apparatus, namely energy usage indicators, centralized technical management controllers, building management system controllers, signal, current and voltage analysis apparatus, namely multimeters, frequency meters, voltage analyzers, electrical fault detectors, powerline communication quality analyzers, all these services are intended for use in the fields of energy management and buildings.

### **Class 38**

(2) Telecommunication services, namely provision of electronic messaging, voice over mobile telephony services, provision of access to an Internet discussion website, electronic transmission of information, namely transmission of configuration data, binary data, images, sounds, documents, scripts (executable) by means of computer terminals, by means of terrestrial radio waves, namely via Wi-Fi, IEEE 802.16-based wireless broadband communication standards, microwaves, Li-Fi, using mobile telephony operators, by means of satellite radio waves, by means of electrical waves, namely via powerline communications, by means of specialized Internet of Things networks, by means of computer networking cables, namely via the Internet and virtual private networks, by means of household and industrial electrical cables, all these services are intended for use in the fields of energy management and buildings.

### **Class 42**

(3) Computer systems design services related to energy conservation and optimization; consulting services related to energy conservation and optimization; technical project studies and technical research related to energy and electricity and the mastery thereof, namely technical project studies and technical research regarding the design of computer systems related to energy conservation and optimization; development, installation, maintenance and updating of computer software related to energy conservation and optimization.

### Goods

#### Class 07

(1) Hydraulic systems and installations, namely hydraulic pumps, hydraulic cylinders, hydraulic motors, hydraulic valves and hydraulic circuit components for land vehicle transmissions; hydraulic pumps; hydraulic cylinders; hydraulic components, namely hydraulic components for vehicle turret rotation, hydraulic components for machine turret rotation; hydraulic motors; hydraulic turbines; hydraulic cylinders; hydraulic pumps; regulator, control, safety and brake valves for hydraulic systems; hydraulic controls for machines, motors and engines; starters for motors and engines; hydraulic starters for thermal engines; transmissions for machines; hydrostatic accumulators; hydraulic accumulators; valves as machine components; hydraulic valves; hydraulic control valves, hydrostatic control valves; pedals and controllers for valves; pedals and controllers for hydraulic circuits or hydrostatic circuits; gears (other than for land vehicles), namely machine gears; couplings (other than for land vehicles), namely couplings for machines; machine shafts; machine tools for the automotive industry; agricultural implements (other than hand-operated), namely agricultural irrigation equipment, agricultural equipment for seeding, agricultural equipment for soil fertilization; earthmoving machines; excavators; drags; bulldozers; agricultural trenchers; corrugators; loading and unloading machines, namely hydraulic freight elevators; lifting apparatus, namely bridge cranes; electric cleaning machines and apparatus, namely hydraulic cleaning systems for use in the automotive industry; power shovels; hydraulic excavators; pneumatic shovels; crawler shovels; cranes; buckets, claws, clamp collars and hooks, all being crane parts and accessories; machines and apparatus for earthmoving, land clearing, excavation, levelling,

draining and drilling purposes, namely drilling heads, hydraulic pumps and motors for drilling heads, power hammers, pick hammers, pneumatic hammers; drilling head motors; construction machines, namely concrete construction machines; agricultural machines, namely threshing machines, agricultural plows, tillers for agricultural use, agricultural tractors; high-clearance tractor machines; viticultural high-clearance tractor machines; compacting and digging machines with hydrostatic transmissions; prime movers (other than for land vehicles), namely hydraulic turbines, hydraulic motors; road rollers; road construction machines, namely road rollers, tar spreaders, construction site concrete mixers, bitumen making machines; tar spreaders; harvesters; sweepers, namely self-propelled road sweeping machines and road sweepers; construction site concrete mixers; bitumen making machines; capstans; grinders; lifting apparatus, namely lift trucks, elevators, agricultural elevators, grain elevators; mining machines; mining devices [machines], namely truck mills for mining purposes, mining bits; logging machines, namely tree cutting machines, tree sawing machines, mobile cranes for forestry, crawler cranes for forestry; delimiting heads equipped with hydraulic motors; self-propelled lawnmowers; railway traction machines; construction site machines incorporating a hydrostatic transmission, namely concrete construction machines incorporating a hydrostatic transmission, bulldozers incorporating a hydrostatic transmission, motor graders incorporating a hydrostatic transmission, power shovels incorporating a hydrostatic transmission, cranes incorporating a hydrostatic transmission.

### **Class 09**

(2) Electronic apparatus in the nature of electronic calculators and units for hydrostatic transmission and hydraulic system controls, namely electronic calculators for hydrostatic transmission and hydraulic system controls and junction boxes for hydrostatic transmission and hydraulic system controls; electronic components used in machines, namely game controllers, electronic effect pedals, electronic cables, electronic sensors, electronic connectors for junction boxes, electronic indicators, computer screens; embedded management software for conducting configuration, optimization and maintenance operations for hydraulic transmission and hydrostatic transmission systems; configuration software for conducting configuration, optimization and maintenance operations on embedded management software for hydraulic transmission and hydrostatic transmission systems; rotational speed sensors for hydrostatic machines and drive shafts; global positioning system [GPS] receivers; global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; operating software for global positioning system [GPS] receivers; computer software and programs for collecting, compiling, processing, transmitting and disseminating global positioning system (GPS) data for computers, mobile telephones and portable telephones; global positioning system transmitters [GPS transmitters]; global positioning system receivers [GPS receivers]; downloadable mobile telephone applications for controlling hydraulic and hydrostatic transmission systems; vehicle batteries; machine batteries, namely electrohydraulic transmission machines, namely pumps, motors and engines, turbines, and construction site machines, namely concrete construction machines, bulldozers, motor graders, power shovels, cranes, and agricultural machines, namely threshing machines, agricultural plows, tillers for agricultural use, agricultural tractors, and elevators; dashboard indicator lights.

### **Class 12**

(3) Automobiles; trucks; buses; coaches, namely buses, motor buses; all-terrain vehicles; competition vehicles, namely race cars; experimental cars; sports cars; electric cars; vehicles designed for military use, namely tanks, military drones; armoured vehicles; mining vehicles, namely truck mills for mining purposes; tractors; crawler tractors; tractor cabs; airport tractors; trucks; lift trucks; land vehicles equipped with telescopic handlers; vehicle hoods; bodies for vehicles; vehicle chassis; automobile chassis; motors and engines for land vehicles, namely

automobile engines, hydraulic motors for excavators; handling carts; cargo trailers; cargo trailers with hydrostatic transmissions; hydrostatic transmissions for vehicles and apparatus for locomotion by land, namely cars, trucks, tracked vehicles; hydraulic controls for hydrostatic transmissions for vehicles and apparatus for locomotion by land, namely cars, trucks, tracked vehicles; hydraulic components for vehicles, namely hydraulic motors; hydraulic circuits for vehicles and apparatus for locomotion by land, namely cars, trucks, tracked vehicles; hydraulic steering columns for vehicles and apparatus for locomotion by land; transmissions for motorized land vehicles; hydraulic transmissions for land vehicles; transmission shafts for land vehicles; transmission mechanisms for land vehicles; differentials for land vehicles, namely cars, trucks, tracked vehicles; reduction gears for land vehicles; transmission mechanisms for land vehicles; propulsion mechanisms for land vehicles; suspension shock absorbers for vehicles; shock absorbers for vehicles; driving chains for land vehicles; vehicle bumpers; vehicle horns; anti-theft alarms for vehicles; wheel tires for vehicles; transmission chains for land vehicles; clutches for land vehicles; hub caps; axles for vehicles; windshield wipers; vehicle brakes; vehicle braking systems; brake linings for vehicles; vehicle wheel hubs; vehicle brake pads; pneumatic tires for vehicles; rearview mirrors; vehicle wheels; vehicle seats; vehicle windows; vehicle steering wheels; gear boxes for land vehicles; vehicle starters; hydrostatic vehicle starters; speed-change gears for land vehicles; limited-shift differential gears for vehicles; vehicle wheel rims; windshields; suspensions and suspension elements for vehicles; undercoating for vehicle chassis; hydraulic circuits for vehicles, for energy recovery and restitution; vehicle dashboards; torsion bars for vehicles; axle journals; driving chains for land vehicles.

## **Services**

### **Class 37**

(1) Installation, maintenance and repair of hydraulic machines, namely hydraulic pumps, hydraulic cylinders, hydraulic motors, hydraulic valves and hydraulic circuit components for land vehicle transmissions; repair, upkeep and maintenance services in relation to hydrostatic transmissions for vehicles, hydraulic components, namely hydraulic motors, hydraulic transmissions, hydraulic pumps, hydraulic turbines, hydraulic cylinders, hydraulic controls for machines, motors and engines; installation, maintenance and repair of electronic apparatus for controlling hydraulic circuits for motor cars and hydrostatic transmissions for vehicles; mechanical repair, maintenance and upkeep services; installation, maintenance and repair of machines and apparatus for construction and public works; rental of earthmoving machines and construction equipment; rental of construction machines and tools; repair and maintenance of earthmoving machines and construction equipment; rental of bulldozers, construction equipment and cranes; repair and maintenance of vehicles; vehicle breakdown repair services; maintenance of vehicles; repair and maintenance of tires, brakes, motors and engines, and motor and engine parts for vehicles; information related to the repair and maintenance of land transport vehicles; inspection of land transport vehicles; inspection services in relation to tires, brakes, motors and engines, and motor and engine parts for vehicles prior to their maintenance and repair; vehicle customization and personalization services, namely installation, maintenance and repair services for modifying and improving the outer appearance of vehicles; transformation [installation] of the technical features of vehicles to give them all-terrain capabilities; installation of energy recovery and restitution equipment on vehicles; technical vehicle adjustments; technical vehicle tune-up, namely installation, maintenance and repair, namely technical adjustments, technical improvement and optimization; technical vehicle tune-up, namely installation, maintenance and repair, namely technical adjustments, technical improvement and optimization; installation, maintenance and

repair services for the transformation of vehicles to modify and improve their outer appearance, and for technical improvement and optimization; installation, maintenance and repair services for transforming touring cars and utility vehicles into all-terrain vehicles.

### **Class 42**

(2) Expertise services related to mechanical engineering; engineering services related to hydraulic and hydrostatic components and systems; technical project studies in the fields of hydraulic components, hydraulic systems and hydrostatic transmissions; mechanical research in the fields of hydraulic components, hydraulic systems and hydrostatic transmissions; technical design of hydraulic components, hydraulic systems and hydrostatic transmissions; technical consulting related to the design and development of hydraulic components, hydraulic systems and hydrostatic transmissions; technical consulting related to hydraulic components, hydraulic systems and hydrostatic transmissions; design, development, conception, installation, maintenance, updating and rental of computer software; design, development and maintenance of computer software in the fields of hydraulic components, hydraulic systems and hydrostatic transmissions; technical control of vehicles; technical control of tires, brakes, motors and engines, and motor and engine parts for vehicles; quality control of vehicle parts and mechanical components; inspection and quality control of tires, brakes, motors and engines, and motor and engine parts for vehicles; engineering work related to the transformation, modification and customization of vehicles; material testing; development of technical plans in the fields of competition vehicles, sports cars, electric cars, military vehicles, prototypes; mechanical engineering services in the field of land vehicles; scientific and industrial research related to vehicles; technical design of vehicles; industrial research and technical development related to competition vehicles, sports cars, electric cars, military vehicles, prototypes and concept cars for others; technical design of mechanical automobile components; design and development of GPS navigation systems; development of algorithms and calculation methods for processing satellite navigation and telecommunication signals and for generating data related to telecommunications via the Internet and mobile telephony and to satellite navigation; testing, analysis and control of the algorithms of systems for processing data related to telecommunications via the Internet and mobile telephony and to satellite navigation.

### Goods

#### Class 06

(1) Metal hardware, namely nails, washers of metal, nuts of metal, screws of metal, upholstery tacks of metal, plugs, bolts of metal, rivets of metal, binding screws of metal for cables, buckles, window stops of metal, gate stops of metal, door stops of metal, pegs of metal, cotter pins, latch bars of metal, screw rings, staples for construction or industrial use and metal casters for industrial machinery and to be applied to loading and unloading pallets; wire ropes; bands of metal for tying-up purposes; industrial packaging containers of metal; containers of metal for compressed gas or liquid air; containers of metal for liquid fuel; tool boxes of metal(empty); loading and unloading pallets of metal

#### Class 07

(2) Agitators for chemical processing, paint mixing and cement mixing; agitators for circulating liquid media; mortar agitators; atomizers for industrial or commercial use, other than hand operated; machine bellows; bending machines for metal working; blade sharpening and stropping machines; blades being part of machines for metalworking, woodworking and stone working; blowing machines for lawn debris; rotary brushes for machines; brushes, electrically operated; centrifugal pumps; centrifuges; chain saws; chisels for machines; chucks for power-operated hammers and drills; steam cleaning machines; electric hedge trimmer; coal-cutting machines; air compressors; compressed air pumps; compressors for industrial machinery; compressors for refrigerators; concrete mixers [machines]; cultivators [machines]; current generators; cutting machines for metal working, woodworking and stone working; die-cutting and tapping machines; die-stamping machines; power-operated digging machines; disintegrators being machines for disintegrating hard substances in the nature of rocks, concrete, asphalt; agricultural ditcher ploughs; drill chucks for power drills; centering drilling bits being parts of machines; core drilling bits being parts of machines; drill bits for rock drilling being parts of machines; power drill bits being parts of machines; drilling machines for metal working, woodworking and stone working; dynamos; earth moving augers and scrapers; electric arc cutters; electric arc welders; electric hand drills; electric welding machines; emergency power generators; engines for boats; engines for chain saws; engines for blowing machines; engines for cultivators; engines for generators of electricity; engines for lawnmowers; engines for trimming machines; engines for industrial

machinery; engraving machines; excavators; finishing machines, namely, metal, woods and plastics finishing machines, sanding machines, electric planers, and power-operated polishers; power-operated meat grinders; electric meat grinders; power-operated meat mincers; foundry machines; generators of electricity; glue guns, electric; electric grinders and crushers for household purposes; grinding machines; nail guns; hand-held tools, other than hand-operated, namely hand-held electric drills, hand-held electric hammers, hand-held pneumatic drills, hand-held pneumatic hammers, hand-held vacuum cleaners; harrows; hemming machines; high pressure washers; ignitions for internal combustion engines; igniting magnetos; knives for mowing machines; lathes; wheels for industrial machinery; multi-purpose high pressure washers; power-operated blowers; polishing machines for use in grinding and polishing metal, wood, ceramics, stones and plastics; milling machines; mine borers; metal working and plastic molding machines; mortising machines; motorized cultivators; motors for boats; electric motors, other than for land vehicles, namely electric motors for machines, power tools motors; motors for industrial machinery; mechanical land mowers; reapers; mufflers for motors and engines; nail extractors, electric; nail pullers, electric; nut-tapping machines; electric planes; electric planers; pneumatic hammers; power hammers; industrial machine presses; circulating pumps, pneumatic pumps, rotary pumps, and screw pumps; pumps as parts of machines, motors and engines; construction rammers; rams being machines; blades for saw machines; electric scissors; knife sharpening machines; blade sharpening machines; grinding discs for machines for metalworking]; sheaf-binding machines; electric hedge shears; shredders machines for industrial use; snow ploughs; spray guns for paint; agricultural chemical spraying machines; fertilizers spraying machines; threading machines; electric lawn trimming and hedge trimming machines; turbo compressors; vacuum cleaner bags; vacuum cleaner hoses; vacuum pumps; metalworking machines tools; mining machines and apparatus, namely, rock drills, mining drill sharpeners, mine borers, coal loaders; construction machines and apparatus, namely routers, pile drivers, pile extractors, earth scrapers, tamping machines for ground leveling, concrete placing machines, concrete vibrators, concrete paving machines, asphalt mixers; loading-unloading machines and apparatus, namely, winches, chain bocks, hoists; chemical processing machines and apparatus, namely, presses, shock absorbers for machines, mixing or blending machines, dust collecting machines, sintering machines, calcining machines, disintegrators, separating machines, grinding mills, dissolving machines, and filtering machines; paper cutting machines; sewing machines; agricultural machines and agricultural implements other than hand-operated, namely power tillers and reapers; shoemaking machines; leather tanning machines; tobacco processing machines; pneumatic or hydraulic machines and instruments, namely, reciprocating pumps, rotary pumps, axial flow pumps, mixed flow pumps, reciprocating vacuum pumps, rotary vacuum pumps, diffusion pumps, centrifugal blowers, rotary blowers, axial flow blowers, turbo blowers, centrifugal compressors, reciprocating compressors, rotary compressors, axial flow compressors; adhesive tape dispensing machines; laundry washing machines; vehicle washing installations; food mixing machines for commercial use; food peeling machines for commercial use; food cutting, chopping and slicing machines for commercial use; dishwashers; electric machines for floor or car wax-polishing; vacuum cleaners; power sprayers for disinfecting, insecticides and deodorants [not for agricultural purposes]; machine elements, not for land vehicles, namely, transmission shafts, axles and spindles, couplings and connecting rods, bearings, clutches, reduction gears, toothed wheels and gears, speed change gears, fluid couplings; lawnmowers; waste compacting machines and trash compactors; waste crushing machines; starters for motors and engines; electric motors, namely AC motors and DC motors and their parts, not for land vehicles, namely electric AC motors driven by alternating current and electric DC motors driven by direct current for vacuums, electric AC motors driven by alternating current and electric DC motors driven by direct current for cordless vacuums, electric AC motors driven by alternating current and electric DC motors driven by direct

current lawn mowers, electric AC motors driven by alternating current and electric DC motors driven by direct current for snow ploughs, electric AC motors driven by alternating current and electric DC motors driven by direct current for industrial machinery, electric AC motors driven by alternating current and electric DC motors driven by direct current for power tools, electric AC motors driven by alternating current and electric DC motors driven by direct current for metal working machines, electric AC motors driven by alternating current and electric DC motors driven by direct current for woodworking machines, and structural parts therefor; AC generators; DC generators; electric food blenders for household purposes; dynamo brushes

### **Class 08**

(3) Hand-operated abrading instruments; bits for hand drills; bit drivers for hand tools; knife sharpeners; manually operated razor blades sharpeners; blades for planes; hand held cutting tools; manual drills; hand-operated files; hand tools, namely, gimlets; hand tools, namely, gouges; grindstones; hollowing bits being parts of hand drills; hand tools, namely, hoop cutters; non electric caulking guns; hand-operated saws; hand tools, namely, stamping-out tools; whetstones; wrenches; electric razors and electric hair clippers; bladed or pointed hand tools; hand tools

### **Class 09**

(4) Electric accumulators for power tools, lawn mowers, and power blowers for lawn debris; electric storage batteries; battery boxes; battery chargers for power tools; condensers [capacitors] for telecommunication machines and electronic machines; radios; respirators for filtering air; sound reproduction apparatus, namely microphones, audio amplifiers, and audio speakers; laboratory centrifuges; solar batteries; batteries and cells for electrical storage; electricity meters, and magnetic flow meters and electricity circuit testers, and continuity testers; electric wires and cables; telecommunication machines and apparatus, namely television receivers and radio receivers; laser measuring tapes; laser range finders; laser line generators; USB adaptors; electric accumulators; asbestos gloves for protection against accidents; electric buzzers; electronic buzzers; capacitors; electric coils; commutators; electronic optical condensers [capacitors] for telecommunication machines and electronic machines; loudspeakers; personal stereos; radios; GPS transmitters; radio transmitters; satellite transmitters; telephone transmitters; television transmitters; video transmitters; electric wires; electrodes for fuel cells, graphite electrodes; dust masks; welding masks; gloves for protection against accidents; eyeglasses, protective eyeglasses, dust protective goggles, spectacles, safety goggles; air tanks for scuba diving; loud speakers

### **Services**

#### **Class 37**

Construction of buildings; construction consultancy in the field of the construction of buildings; operation and maintenance of building equipment, namely excavators, backhoe loaders, bulldozers, skid steer loaders and trench cutters; shipbuilding; maintenance and repair of boats; aircraft repair or maintenance; repair of bicycles; repair or maintenance of automobiles; repair or maintenance of railway rolling stocks; repair or maintenance of optical lens machines; repair or maintenance of loading-unloading machines and apparatus; repair or maintenance of pumps; repair or maintenance of freezing machines and apparatus; repair or maintenance of power tools; repair and maintenance of battery chargers for power tools; repair and maintenance of stone working machines and apparatus; repair or maintenance of television receivers and radio receivers; repair or maintenance of construction machines and apparatus; repair or maintenance of consumer electric appliances; repair or maintenance of electric lighting apparatus; repair or maintenance of electric motors; repair or maintenance of power generators; repair or maintenance of laboratory apparatus and instruments; repair or maintenance of medical apparatus and instruments; repair or maintenance of printing or bookbinding machines and apparatus; repair or

maintenance of chemical processing machines and apparatus; repair or maintenance of glassware manufacturing machines and apparatus; repair or maintenance of fishing machines and instruments; repair or maintenance of metalworking machines and tools; repair or maintenance of shoe making machines; repair or maintenance of industrial furnaces; repair or maintenance of mining machines and apparatus; repair or maintenance of machines and apparatus for processing foods or beverages; repair or maintenance of machines and apparatus for lumbering, woodworking, or veneer or plywood making; repair or maintenance of textile machines and apparatus; repair or maintenance of painting machines and apparatus; repair or maintenance of agricultural machines and implements; repair or maintenance of machines and apparatus for pulp-making, papermaking or paper working; repair or maintenance of plastic processing machines and apparatus; repair or maintenance of packaging and wrapping machines and apparatus; repair or maintenance of industrial dishwashers; repair or maintenance of electric washing machines for industrial purposes; repair or maintenance of vehicle washing installations; repair or maintenance of vending machines; repair or maintenance of power-driven floor cleaning machines; repair or maintenance of waste compacting machines and apparatus; repair or maintenance of waste crushing machines; repair or maintenance of diver's apparatus; repair or maintenance of signboards; repair of sports equipment; repair or maintenance of bath fittings; cleaning of building exterior surfaces; window cleaning; carpet and rug cleaning; floor polishing; bathtub and bath boiler cleaning; street cleaning; reservoirs cleaning; disinfecting of telephone hand-sets; domestic and household vermin extermination services; exterminating services; sterilization of medical apparatus and instruments; rental of construction machines and apparatus; rental of floor cleaning machines; rental of mining machines and apparatus; rental of drainage pumps

### Colour Claim

Colour is claimed as a feature of the trademark. The pupil is in black, the iris is blue and outlined in black with white specks throughout. The sclera is light green with the circumference in a dark green. The muscle attaching to the eyeball is in violet.

### Goods

#### Class 09

(1) CDs, audio cassette tapes and phonograph records containing audio recordings featuring video game commentary, video game play instruction, and comedy performances; CD-ROMs featuring video game commentary, video game play instruction and comedy performances; DVDs featuring video game commentary, video game play instruction and comedy performances; digital audio recordings featuring video game commentary, video game play instruction and comedy performances downloadable via the internet; digital film and video featuring video game commentary, video game play instruction, and comedy performances downloadable via the internet; computer software for creating video games downloadable via the internet; digital music and computer video games downloadable via the internet; audio-visual headsets for use with mobile phones and computers; downloadable ringtones and graphics for mobile phones; computer software, namely computer software for creating video games; computer joysticks; computer mouses, mouse mats and mouse pads; eye glasses, sunglasses

#### Class 25

(2) clothing, namely, shirts, t-shirts, polo shirts, sweatshirts, hooded sweatshirts, pullovers, fleece pullovers, jackets, fleece jackets, pants, shorts, underwear, belts, footwear, namely athletic footwear, beach footwear, casual footwear, sports footwear, and socks; headwear, namely, hats, caps and skull caps

## **Services**

### **Class 35**

(1) retail store service, mail order, and on-line retail store services relating to with the sale of keyrings, key chains, badges of metal, ornamental novelty badges, decorative magnets and figurines, mobile phone cases, jewellery, watches, key fobs, clocks, pens, pencils, pencil cases, notebooks, books, bookmarkers, stationery and stationery sets, rucksacks, backpacks, school bags, bags, shopping bags, coin purses, handbags, cases, wallets, purses, keyholders, luggage, umbrellas, glassware, beverage ware, earthenware, cups, mugs, shot glasses, tankards, drink coasters, serving trays, cork screws, bottle openers, beverage stirrers, containers for foods, hair brushes and combs, vases, figurines made of china, figurines made of crystal, figurines made of terracotta, earthenware, money boxes, lunch boxes, textile towels, tea towels, beach towels, pre-recorded compact discs, DVDs, USB flash drives, flash memory cards and records featuring video game commentary, video game play instruction and comedy performances, computer software for creating video games downloadable via the Internet, video games, hand-held electronic game units adapted for use with television receivers and computers, computer mice, mouse mats and mouse pads, eyewear, sunglasses, badges for wear, hair bands, hair pins, hair ribbons, heat adhesive patches for decoration of textile articles, hair ornaments, lanyards for holding keys and identification badges, games, namely board games, card games, action skill games, jigsaw puzzles, dolls, toys, balls for games, rugby balls, beach balls, toy balloons, snow globes, Christmas tree decorations, playing cards; provision of space on websites for advertising goods

### **Class 38**

(2) electronic transmission of emails; electronic exchange of messages via chat lines, chat rooms and internet forums; providing multiple user access to global computer information networks and electronic bulletin boards for the transfer and dissemination of a wide variety of information; provision of access to an Internet portal featuring video-on-demand programs; streaming of audio and video via the Internet featuring comedy performances, movies, music, news and video game commentary

### **Class 41**

(3) entertainment services in the nature of live comedy shows; organisation of live comedy performances; production of interactive entertainment in the nature of online video gaming services, online video and computer game playing instruction, and reviews about video games in the field of video games entertainment; production of television programmes, production of radio programmes; production of motion picture films; recording studio and film studio services for the production of multimedia presentations; electronic games services provided by means of the Internet

for chain saws; engines for blowing machines; engines for cultivators; engines for generators of electricity; engines for lawnmowers; engines for trimming machines; engines for industrial machinery; engraving machines; excavators; finishing machines, namely, metal, woods and plastic finishing machines, sanding machines, electric planers, and power-operated polishers; power-operated meat grinders; electric meat grinders; power-operated meat mincers; foundry machines; generators of electricity; glue guns, electric; electric grinders and crushers for household purposes; grinding machines; nail guns; hand-held tools, other than hand-operated, namely hand-held electric drills, hand-held electric hammers, hand-held pneumatic drills, hand held pneumatic hammers, hand-held vacuum cleaners; harrows; hemming machines; high pressure washers; ignition for internal combustion engines; igniting magnetos; knives for mowing machines; lathes; wheels for industrial machinery; multi-purpose high pressure washers; power operated blowers; polishing machines for use in grinding and polishing metal, wood, ceramics, stones and plastics; milling machines; mine borers; metal and plastic molding machines; mortising machines; motorized cultivators; motors for boats; electric motors, other than for land vehicles, namely electric motors for machines, power tools motors; motors for industrial machinery; mechanical lawn mowers; reapers; mufflers for motors and engines; nail extractors, electric; nail pullers, electric; nut-tapping machines; electric planes; electric planers; pneumatic hammers; power hammers; industrial machine presses; circulating pumps, pneumatic pumps, rotary pumps, and screw pumps; pumps as parts of machines, motors and engines; construction rammers; rams being machines; blades for saw machines; electric scissors; knife sharpening machines; blade sharpening machines; sharpening wheels [parts of machines]; sheaf-binding machines; electric hedge shears; shredders machines for industrial use; snow ploughs; spray guns for paint; agricultural chemical spraying machines; fertilizers spraying machines; threading machines; electric lawn trimming and hedge trimming machines; turbo compressors; vacuum cleaner bags; vacuum cleaner hoses; vacuum pumps; metalworking machines tools; mining machines and apparatus, namely, rock drills, mining drill sharpeners, mine borers, coal loaders; construction machines and apparatus, namely routers, pile drivers, pile extractors, earth scrapers, tamping machines for ground leveling, concrete placing machines, concrete vibrators, concrete paving machines, asphalt mixers; loading-unloading machines and apparatus, namely winches, chain blocks, hoists; chemical processing machines and apparatus, namely, presses, shock absorbers for machines, mixing or blending machines, dust collecting machines, sintering machines, calcining machines, disintegrators, separating machines, grinding mills, dissolving machines, and filtering machines; paper cutting machines; sewing machines; agricultural machines and agricultural implements other than hand-operated, namely power tillers and reapers; shoemaking machines; leather tanning machines; tobacco processing machines; pneumatic or hydraulic machines and instruments, namely, reciprocating pumps, rotary pumps, axial flow pumps, mixed flow pumps, reciprocating vacuum pumps, rotary vacuum pumps, diffusion pumps, centrifugal blowers, rotary blowers, axial flow blowers, turbo blowers, centrifugal compressors, reciprocating compressors, rotary compressors, axial flow compressors; adhesive tape dispensing machines; laundry washing machines; vehicle washing installations; food mixing machines for commercial use; food peeling machines for commercial use; food cutting, chopping and slicing machines for commercial use; dishwashers; electric machines for floor or car wax-polishing, electric; vacuum cleaners; power sprayers for disinfecting, insecticides and deodorants [not for agricultural purposes]; machine elements, not for land vehicles, namely, transmission shafts, axles and spindles, couplings and connecting rods, bearings, clutches, reduction gears, toothed wheels and gears, speed change gears, fluid couplings; lawnmowers; waste compacting machines and trash compactors; waste crushing machines; starters for motors and engines; electric motors, namely AC motors and DC motors and their parts, not for land vehicles, namely electric AC motors driven by alternating current and electric DC motors driven by direct current for vacuums, electric AC motors driven by alternating

current and electric DC motors driven by direct current for cordless vacuums, electric AC motors driven by alternating current and electric DC motors driven by direct current lawn mowers, electric AC motors driven by alternating current and electric DC motors driven by direct current for snow ploughs, electric AC motors driven by alternating current and electric DC motors driven by direct current for industrial machinery, electric AC motors driven by alternating current and electric DC motors driven by direct current for power tools, electric AC motors driven by alternating current and electric DC motors driven by direct current for metal working machines, electric AC motors driven by alternating current and electric DC motors driven by direct current for woodworking machines, and structural parts therefor; AC generators; DC generators; electric food blenders for household purposes; dynamo brushes

#### **Class 08**

(3) Hand-operated abrading instruments; bits for hand drills; bits drivers for hand tools; knife sharpeners; manually operated razor blade sharpeners; blades for planes; hand held cutting tools; manual drills; hand-operated files; hand tools, namely, gimlets; hand tools, namely, gouges; grindstones; hollowing bits being parts of hand drills; hand tools, namely, hoop cutters; non electric caulking guns; hand-operated saws; hand tools, namely, stamping-out tools; whetstones; wrenches; electric razors and electric hair clippers; bladed or pointed hand tools; hand tools

#### **Class 09**

(4) Electric accumulators for power tools, lawn mowers, and power blowers for lawn debris; electric storage batteries; battery boxes; battery chargers for power tools; condensers [capacitors] for telecommunication machines and electronic machines; radios; respirators for filtering air; sound reproduction apparatus namely microphones, audio amplifiers, and audio speakers; laboratory centrifuges; solar batteries; batteries and cells for electrical storage; electricity meters, and magnetic flow meters and electricity circuit testers, and continuity testers; electric wires and cables; telecommunication machines and apparatus, namely, television receivers and radio receivers; laser measuring tapes; laser range finders; laser line generators; USB adaptors; electric accumulators; asbestos gloves for protection against accidents; electric buzzers; electronic buzzers; capacitors; electric coils; commutators; electronic optical condensers [capacitors] for telecommunication machines and electronic machines; loudspeakers; personal stereos; radios; GPS transmitters; radio transmitters; satellite transmitters; telephone transmitters; television transmitters; video transmitters; electric wires; electrodes for fuel cells, graphite electrodes; dust masks; welding masks; gloves for protection against accidents; eyeglasses, protective eyeglasses, dust protective goggles, spectacles, safety goggles; air tanks for scuba diving; loud speakers

#### **Class 10**

(5) Ear plugs for protection against noise; centrifuges for medical purposes

(1) Advertising the goods and services of others and business administration; arranging of contracts, for others, in relation to the buying and selling of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; arranging of contracts, for others, for the buying and selling of installations, equipment, apparatus, filters, separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; arranging of contracts, for others, for the buying and selling of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; arranging of contracts, for others, for the buying and selling of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; arranging of contracts, for others, for the buying and selling of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; arranging of contracts, for others, for the buying and selling of machines for applying product security means, identification features, security features, security labels and components therefor; arranging of contracts, for others, for the buying and selling of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; arranging of contracts, for others, for the buying and selling of product security means, identification features, security features, security

labels, securities, banknotes and components therefor; sales promotion in the nature of advertising the goods and services of others, namely for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; Sales promotion in the nature of advertising the goods and services of others, namely for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; sales promotion in the nature of advertising the goods and services of others, namely for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; sales promotion in the nature of advertising the goods and services of others, namely for machines for applying product security means, identification features, security features, security labels and components therefor; sales promotion in the nature of advertising the goods and services of others, namely for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional consultancy in the context of the sale of goods, in particular the sale of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; professional business consultancy within the framework of the sale of goods, in particular the sale of installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; professional business consultancy within the framework of the sale of goods, in particular the sale of ventilation installations, ventilation apparatus,

airconditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; professional business consultancy within the framework of the sale of goods, in particular the sale of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; professional business consultancy in the context of the sale of goods, in particular the sale of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of machines for applying product security means, identification features, security features, security labels and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy, and business management information in the fields of pre-press printing, data preparation, namely continuous data preparation, variable data printing, namely from databases, printing of printed matter, further processing of printed matter, production control, production planning, interfaces, data transfer and in relation to devices for transport and storage of printed matter, printing materials, printing material reels, paper, paper reels, plastics, plastics reels, metal, organic and inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls being parts and fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one and more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus,

marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts and accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one and more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment for subassemblies and parts for installations, equipment, apparatus, filters, separators, suction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset rotary printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, for machines for the graphics industry, and for machines for the further processing of printed matter and paper and plastics and metal and organic and inorganic materials; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces,

honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink slides, ink rollers, damping rollers, register adjustment devices, devices for storing and adjusting rollers in inking apparatus and damping units and cylinders, devices for cleaning rollers in inking apparatus and damping units and cylinders, cutting equipment and cutting cylinders, registers and register marks, web tension settings and for quality control for and in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one and more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials or paper and plastics and metal and organic and inorganic materials; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for devices for the changing and transporting and storage of printing plates, for inking apparatus and damping units and printer engine cylinders in printer engines, and for devices for tempering for inking apparatus and damping units and cylinders in printer engines and inkjet printing heads and laser systems; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment, for installations, equipment, apparatus, filters, separators, suction and conveying devices for airtechnology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and

equipment for air-technology installations, airtechnology equipment, air conditioning, heating, refrigerating, aeration and de-aeration, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular fans, blowers and compressors, air heaters, air coolers, air filters and nozzle chambers for humidification; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising the goods and services of others in the fields of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; advertising the goods and services of others in the fields of for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; advertising the goods and services of others in the fields of for ventilation apparatus, air-

conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; advertising the goods and services of others in the fields of for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas equipment; advertising the goods and services of others in the fields of for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising the goods and services of others in the fields of for machines for applying product security means, identification features, security features, security labels and components therefor; advertising the goods and services of others in the fields of for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising the goods and services of others in the fields of for product security means, identification features, security features, security labels, securities, banknotes and components therefor; computerised file management.

(2) Printing machines, namely, printing presses and parts for the aforesaid goods; offset printers and parts for the aforesaid goods; web fed rotary printing machines; sheet fed rotary printing machines and parts for the aforesaid goods; screen printing machines and parts for the aforesaid goods; pad printing machines and parts for the aforesaid goods; flexographic printing machines and parts for the aforesaid goods; intaglio printing machines and parts for the aforesaid goods; printing machines for use on sheet metal and parts for the aforesaid goods; printing machines for use on cans and parts for the aforesaid goods; printing machines for use on hollow bodies and parts for the aforesaid goods; printing machines for corrugated cardboard and parts for the aforesaid goods; inkjet printing machines and parts for the aforesaid goods; laser marking machines and parts for the aforesaid goods; laser printing machines and parts for the aforesaid goods; painting machines and parts for the aforesaid goods; packing machines and parts for the aforesaid goods; paper coating machines, in particular working rotationally, for web-type and separate materials and parts for the aforesaid goods; digital printing and laser marking machines based on electrophotography, magnetography, xerography, ink jet; exposure apparatus, being parts for printing machines for contact printing or creating circuit and print templates; laser encoding, imprinting and laser marking machines, in particular for the graphics sector, the packaging sector and data processing and parts for the aforesaid goods; engraving machines and parts for the aforesaid goods; machines and mechanical apparatus for the further processing of printed matter and printing materials, paper, plastics, metal, organic and inorganic materials, namely, for paper cutting, punching, folding, collating, gathering, clipping, collecting, perforating, gluing, tying, stapling and sealing, document binding machines, all for industrial use and parts for the aforesaid goods; pallet changing and transfer machines and parts for the aforesaid goods; stacking machines and parts for the aforesaid goods; machines for handling sheets and plates of metal and parts for the aforesaid goods; foodstuff distribution machines, namely, packaging machines for food and parts for the aforesaid goods; machines for the surface treatment of metals and parts for the aforesaid goods; hot stamping machines and parts for the aforesaid goods; thermal transfer machines and apparatus, namely, industrial thermal transfer machines and thermal transfer machine parts and parts for the aforesaid goods; rotary die-cutters for punching of printed matter or paper or plastics and parts for the aforesaid goods; sheet metal punches for stamping printed matter or paper or plastics and parts for the aforesaid goods; laser marking machines for printed matter and parts for the aforesaid goods; machines and mechanical apparatus for the further processing of printed matter and printing materials, paper, plastics, metal, organic and inorganic materials, namely for transporting machines in the nature of conveyor belts, pneumatic transporters, punching presses for metalworking, packaging machines, bookbinding machines for industrial use and parts for the aforesaid goods; printing plates; flexographic printing plates; accessories, namely, machines in the nature of conveyor belts, pneumatic transporters, punching presses for metalworking, packaging machines, bookbinding machines for industrial use and parts for the aforesaid goods; conveyors, belts for conveyors, conveyors for conveying printed matter, printing materials, printing material reels, paper, paper reels, plastics, plastics reels, metal, organic and inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing

machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic and inorganic materials and parts for the aforesaid goods; industrial folding machines for the folding of printed matter, printing materials, paper, plastics, metal, organic and inorganic materials; machines for changing, bending, punching printing plates, flexographic printing plates, namely, punching presses and parts for the aforesaid goods; machines for the storing of printing plates for printing machines and parts for the aforesaid goods; conveyors and conveyor belts for conveying printing plates for printing machines; machines and mechanical apparatus for cleaning rollers in inking apparatus, damping units, cylinders, lacquering units, inkjet print heads and laser systems, namely cleaning machines for printing machines in the nature of 3D printers, embossing printing machines, flexographic printing machines, photographic printing machines, printing machines for textile, printing presses, printing rollers, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines, laser printing machines, laser marking machines, lacquering machines, packaging machines, coating machines, digital printing and laser marking machines, labelling machines, engraving machines and parts for the aforesaid goods; machines and mechanical apparatus for adjustment, for inking apparatus and damping units, printer engine cylinders, for lacquering units in printer engines and in lacquering units and for inkjet printing modules and laser systems, namely, inking apparatus for printing machines and for printing blocks and parts for the aforesaid goods; machines for adjusting cutting equipment and cutting cylinders in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry and parts for the aforesaid goods; machines for adjusting registers and register marks in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry and parts for the aforesaid goods; machines for adjusting web tension settings in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard,

inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry and parts for the aforesaid goods; filters as parts of machines and engines, namely, air filters for engines, filters for cleaning cooling air for engines, gas filters for engines and motors; suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, namely, suction nozzles for vacuums, conveyors and parts for the aforesaid goods; filters for cleaning cooling air, for engines and parts for the aforesaid goods; blowing engines, namely, blowing engines for the compression, exhaustion and transport of gases and parts for the aforesaid goods; industrial fibre separating machines and parts for the aforesaid goods; air compressors and air ejectors for machines and parts for the aforesaid goods; collecting machines for compacting, filling and pressing of particles, dust and fibres separated from machines and parts for the aforesaid goods; air conveying devices (air conditioning), namely compressors and parts for the aforesaid goods; blowing machines, namely, blowing machines for the compression, exhaustion and transport of gases and parts for the aforesaid goods; air compressors and parts for the aforesaid goods; replacement and structural parts for the aforesaid filters, separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting machines, for compacting, filling and pressing machine-separated particles, dust and fibres and parts for the aforesaid goods; offset printing machines.

### **Class 09**

(3) Electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely, computer software for controlling and operating of printing machines in the nature of offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines; electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely, computer software for controlling and operating of installations, equipment, apparatus, filters, separators, extraction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, namely, air filters for engines, fibre blowing machines, fibre separator machines, air compressors and machines for compacting, filling and pressing particles, dust and fibres separated from machines; electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely, computer software for controlling and operating of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, in particular fans and blowing machines for fibre, electric space air heaters, air conditioners, air filters for engines and for removing dust, smoke and allergens from the air, and nozzle chambers for humidifiers; electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely, computer software for controlling and operating of drying ovens for laboratory use, plywood drying machines, heat accumulators, heat exchangers and parts therefor, in

particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations; electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely security software for producing product security means, authentication features, security features, security labels, securities, banknotes and components therefor; electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely, security software for packaging product security means, authentication features, security features, security labels, securities, banknotes and components therefor; electronic checking (supervision), controlling, displaying and measuring apparatus, and consultancy software (recorded), sales software (recorded), and software, namely, security software for product security means, authentication features, security features, security labels, securities, banknotes and components therefor; pre-recorded magnetic data carriers, namely, electronically encoded barcodes, labels and tags all containing product security information for use in the retail industry; pre-recorded magnetic data carriers, namely, encoded bar code labels for use in banknote security; RFID systems, namely, radio frequency identification systems, namely, labels with integrated radio frequency identification [RFID] chips; electronic apparatus, namely, electronic payment terminals for the payment of goods and services and bills, in particular for enabling customers to pay by themselves, in particular by payment means in the form of banknotes and coins and tokens of value and cashless payment by debit, credit and loyalty cards, in particular contactless and contact cards and NFC (near field communication) apparatus, in particular with return of change, namely, credit cards and debit cards and fittings for the aforesaid goods, in particular cartridges for collecting payment means, in particular bank notes and coins and tokens of value; automated teller machines [ATM] and fittings for the aforesaid goods, in particular cartridges for collecting payment means, in particular bank notes and coins and tokens of value; money-receiving apparatus, namely, card readers for credit cards, card reading equipment, electronic card readers, electronic payment terminals and fittings for the aforesaid goods, in particular cartridges for collecting payment means, in particular bank notes and coins and tokens of value; money-dispensing and -receiving apparatus, namely cash dispensing machines and fittings for the aforesaid goods, in particular cartridges for collecting payment means, in particular bank notes and coins and tokens of value; electric apparatus, namely data processing equipment for communication with recording media, in particular for communication with recording media with integrated circuits and recording media with contactless interfaces, and in particular data processing equipment for writing data in or on recording media, for reading data from or on recording media and for displaying data from recording media on a display, namely, tablet computers, computers, smart phones, digital voice recorders, digital music players, digital video players, audio and video receivers, audio transformers; data processing equipment for personalising recording media, namely, tablet computers, computers, smart phones, digital voice recorders, digital music players, digital video players, audio and video receivers, audio transformers; machine-readable recording media, in particular recording media with integrated circuits for storing, encrypting and decrypting, processing and providing data and programs, namely, tablet computers, computers, smart phones, digital voice recorders, digital music players, digital video players, audio and video receivers, audio transformers; cards having an integrated circuit (chip cards), in particular cards having microprocessors for communication with external data processing devices or with mobile radio terminals, namely, blank flash memory cards, blank integrated circuit cards, blank smart cards, blank USB cards, computer interface cards, digital camera memory cards, random access memory cards, microchip cards; coded telecommunication cards, namely, blank flash memory cards, blank integrated circuit cards, blank smart cards, blank USB cards, computer interface cards, digital camera memory cards, random access memory

cards, microchip cards; Integrated circuits with characteristic physical properties for protection against forgery; digital recording media containing memories, in particular non-volatile memories (digital storage media), namely, tablet computers, computers, smart phones, digital voice recorders, digital music players, digital video players, audio and video receivers, audio transformers; electric apparatus for processing, in particular encryption and decryption, data for both online and offline operation, namely, electronic encryption and decryption units; software for computer network applications, in particular for internet, intranet and extranet applications, namely, internet access software; operating system software and application software for digital recording media with integrated circuits, in particular for hardware tokens and chip cards, and for data processing equipment for communication with these digital recording media, namely, computer operating system software; computer programs for the development, management and maintenance of all the aforesaid types of software, namely, computer software for assisting developers in creating program code for use in multiple application programs, computer software for running development programs and application programs in a common development environment; inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers and parts for the aforesaid goods.

### **Class 16**

(4) Addressing machines for printed matter; numbering machines for the graphics sector, the packaging sector and data processing and parts for the aforesaid goods.

### **Services**

### **Class 35**

(1) Advertising the goods and services of others and business administration; arranging of contracts, for others, in relation to the buying and selling of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; arranging of contracts, for others, for the buying and selling of installations, equipment, apparatus, filters, separators, suction and conveying machines for ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; arranging of contracts, for others, for the buying and selling of ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; arranging of contracts, for others, for the buying and selling of drying ovens, drying apparatus, heat accumulators, heat

exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; arranging of contracts, for others, for the buying and selling of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; arranging of contracts, for others, for the buying and selling of machines for applying product security means, identification features, security features, security labels and components therefor; arranging of contracts, for others, for the buying and selling of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; arranging of contracts, for others, for the buying and selling of product security means, identification features, security features, security labels, securities, banknotes and components therefor; sales promotion in the nature of advertising the goods and services of others, namely for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; Sales promotion in the nature of advertising the goods and services of others, namely for ventilation installations, ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; sales promotion in the nature of advertising the goods and services of others, namely for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; sales promotion in the nature of advertising the goods and services of others, namely for machines for applying product security means, identification features, security features, security labels and components therefor; sales promotion in the nature of advertising the goods and services of others, namely for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional consultancy in the context of the sale of goods, in particular the sale of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour or multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and

mechanical apparatus for the further processing of printed matter or printing materials or paper or plastics or metal or organic or inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; professional business consultancy within the framework of the sale of goods, in particular the sale of installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; professional business consultancy within the framework of the sale of goods, in particular the sale of ventilation installations, ventilation apparatus, airconditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; professional business consultancy within the framework of the sale of goods, in particular the sale of drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; professional business consultancy in the context of the sale of goods, in particular the sale of machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of machines for applying product security means, identification features, security features, security labels and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; professional business consultancy in the context of the sale of goods, in particular the sale of product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy, and business management information in the fields of pre-press printing, data preparation, namely continuous data preparation, variable data printing, namely from databases, printing of printed matter, further processing of printed matter, production control, production planning, interfaces, data transfer and in relation to devices for transport and storage of printed matter, printing materials, printing material reels, paper, paper reels, plastics, plastics reels, metal, organic and inorganic materials for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter, printing materials, paper, plastics, metal, organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff

distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls being parts and fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one and more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus and temperature monitoring apparatus being parts and accessories for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one and more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and preadjustment for subassemblies and parts for installations, equipment, apparatus, filters, separators, suction and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing particles, dust and fibres separated from machines; business organisational consultancy, professional business

management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment, for subassemblies and parts for printing machines, offset rotary printing machines, flexographic printing machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, for machines for the graphics industry, and for machines for the further processing of printed matter and paper and plastics and metal and organic and inorganic materials; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of electric and electronic measuring and testing apparatus and instruments for adjustment and pre-adjustment for subassemblies and parts for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for ink slides, ink rollers, damping rollers, register adjustment devices, devices for storing and adjusting rollers in inking apparatus and damping units and cylinders, devices for cleaning rollers in inking apparatus and damping units and cylinders, cutting equipment and cutting cylinders, registers and register marks, web tension settings and for quality control for and in printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one and more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials or paper and plastics and metal and organic and inorganic materials; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for devices for the changing and transporting and storage of printing plates, for inking apparatus and damping units and printer engine cylinders in printer engines, and for devices for tempering for inking apparatus and damping units and cylinders in printer engines and inkjet printing heads and laser systems; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines and mechanical apparatus for the graphics industry,

machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment, for installations, equipment, apparatus, filters, separators, suction and conveying devices for airtechnology cleaning, dust removal and air separation from machines and rooms equipped therewith, air filters, fans, fibre separators, air compressors and air ejectors for machines, collecting devices, machines, equipment and apparatus for compacting, filling and pressing of particles, dust and fibres separated from machines; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for air-technology installations, airtechnology equipment, air conditioning, heating, refrigerating, aeration and de-aeration, humidifying and dehumidifying installations and equipment, air treatment installations, air conveying devices, in particular fans, blowers and compressors, air heaters, air coolers, air filters and nozzle chambers for humidification; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas apparatus; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for applying product security means, identification features, security features, security labels and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; business organisational consultancy, professional business management and administration consultancy and business management information all in the fields of remote control, remote operation, remote monitoring, control and regulating apparatus and equipment for product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising the goods and services of others in the fields of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines and apparatus, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines and apparatus, laser printing machines and apparatus, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines,

machines and mechanical apparatus for the graphics industry, machines and mechanical apparatus for the further processing of printed matter and printing materials and paper and plastics and metal and organic and inorganic materials, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, foodstuff distribution machines, machines and apparatus for the surface treatment of metals, hot stamping machines and apparatus, thermal transfer machines and apparatus and parts therefor; advertising the goods and services of others in the fields of for installations, equipment, apparatus, filters, separators, exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, capture devices, machines, equipment and apparatus for compacting, filling and pressing machine-separated particles, dust and fibres; advertising the goods and services of others in the fields of for ventilation apparatus, air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; advertising the goods and services of others in the fields of for drying ovens, drying apparatus, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation, and regulating and safety accessories for gas equipment; advertising the goods and services of others in the fields of for machines for producing product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising the goods and services of others in the fields of for machines for applying product security means, identification features, security features, security labels and components therefor; advertising the goods and services of others in the fields of for machines for packaging product security means, identification features, security features, security labels, securities, banknotes and components therefor; advertising the goods and services of others in the fields of for product security means, identification features, security features, security labels, securities, banknotes and components therefor; computerised file management.

### **Class 37**

(2) Installation, maintenance and repair of printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, machines for the surface treatment of metals, hot stamping machines, thermal transfer machines and parts therefor; installation, maintenance and repair of air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations and apparatus, air treatment installations, air conveying devices, namely fans, blowing machines and compressors, air heaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of drying ovens, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces,

honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation; installation, maintenance and repair of pre-printing data processing equipment, namely, printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, singlecolour and multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, machines for the surface treatment of metals, hot stamping machines, thermal transfer machines; installation, maintenance and repair of electronic regulating apparatus, control apparatus, monitoring apparatus, quality control apparatus, production control apparatus, temperature monitoring apparatus and web tension controls, being parts and fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines, laser printing , marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry, machines for the further processing of printed matter and printing materials and paper and plastics and metal and organic or inorganic materials, namely for transporting, cutting, punching, folding, collecting, tacking, packaging, compiling, sorting, binding, scanning, checking, perforating, gluing, stapling, tying, bundling, bookbinding; installation, maintenance and repair of suction and conveying devices for the air-technology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, air compressors and air ejectors for machines, machines and equipment for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of parts and accessories for drying ovens, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation; installation, maintenance and repair of subassemblies and parts for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, machines for the surface treatment of metals, hot stamping machines, thermal

transfer machines; installation, maintenance and repair of exhausting and conveying devices for the ventilation cleaning, dust removal and air separation of machines and spaces equipped therewith, air filters, blowing machines and fibre separators, air compressors and air ejectors for machines, equipment for compacting, filling and pressing machine-separated particles, dust and fibres; installation, maintenance and repair of subassemblies and parts for air-conditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of electric and electronic measuring and testing instruments for adjustment and preadjustment, for subassemblies and parts for drying ovens, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating equipment for ink levers, ink rollers, damping rollers, register adjusting devices, devices for storing and adjusting rollers in inking apparatus and damping units and cylinders, devices for cleaning rollers in inking apparatus and damping units and cylinders, and inkjet print heads and laser systems, for cutting equipment and cutting cylinders, registers and register marks, web tension settings, being parts and fittings for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating equipment for printing machines, offset printing machines, rotary web printing machines, rotary sheet printing machines, screen printing machines, pad printing machines, flexographic printing machines, gravure printing machines, printing machines for use on sheet metal, printing machines for use on cans, printing machines for use on hollow bodies, printing machines for corrugated cardboard, inkjet printing machines, inkjet printers, in particular with one or more inkjets, single-colour and multi-colour inkjet printers, laser marking machines, laser printing machines, marking machines, lacquering machines, packaging machines, coating machines, digital printing and marking machines, labelling machines, engraving machines, machines for the graphics industry, drying machines, drying ovens, pallet changing and transfer machines, stacking machines, machines for handling sheets and plates of metal, machines for the surface treatment of metals, hot stamping machines, thermal transfer machines; Installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating equipment for installations, suction and conveying devices for the airtechnology cleaning, dust removal and air separation of machines and rooms equipped therewith, air filters, blowers and fibre separators, air compressors and air ejectors for machines, machines and equipment for compacting, filling and pressing particles, dust and fibres separated from machines; installation, maintenance and repair of remote control, remote operation, remote monitoring, control and regulating airconditioning, heating, refrigerating, aerating and ventilating, humidifying and dehumidifying installations, air treatment installations, air delivery devices, in particular ventilators, blowing machines and compactors, air reheaters, air coolers, air filters, and nozzle chambers for humidifying; installation, maintenance and repair of remote control, remote operation,

remote monitoring, control and regulating equipment for drying ovens, heat accumulators, heat exchangers and parts therefor, in particular active coatings with catalytic properties, heat exchanger ceramics, heat exchanger stones, heat exchanger surfaces, honeycomb structures and integrated catalysts for exhaust air purifying installations, thermal energy accumulators, solar collectors, solar modules for heat generation; cleaning of buildings; vehicle cleaning; installation and maintenance of vending machines.
