# Trademarks Journal

## Vol. 66 No. 3400

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

**TRADEMARK DETAILS****Trademark Type**

Design

**Visual Representation****Goods****Class 01**

(1) chemicals for nuclear reactors, namely, uranium, uranium oxide, oxide, plutonium, plutonium oxide, strontium; nuclear fuel and processing materials for use as fuel in nuclear power reactors; chemical additives for fuel

**Class 04**

(2) fuels, namely, crude oil, diesel oil, petroleum ether, petroleum (raw and refined); natural and synthetic fuel gas, coal, coke, coal naphtha and coal tar oil, and synthetic fuels for domestic and industrial heating applications

**Class 06**

(3) Stainless steel and lead casks for storage of activated components in the nuclear field

**Class 09**

(4) electronic nuclear reactor control systems, namely, computer hardware, software, and programmable systems for monitoring, controlling, and protecting functions in nuclear reactors; digital control systems for shutting down nuclear reactors when predefined set-points of physical parameters are reached; digital control systems for receiving input signals from sensors measuring physical variables of nuclear reactors and for generating output signals for actuators controlling nuclear reactors; radiation safety control systems in nuclear power plants; carbon and graphite electrodes; nuclear reactor fuel elements;

**Class 11**

(5) Apparatus for heating, steam production, drying, ventilating and filtering air and water in nuclear reactors and nuclear installations, namely, nuclear fuel manufacturing installations, namely, air and gas conditioners, air and gas filters and purifying units, industrial heaters, heat exchangers, heat pumps, industrial water heaters, industrial dryers for heating and dehumidifying, ventilating fans, and ventilating louvers, all for industrial use in buildings and structures for the storage, warehousing, isotopic separation, processing, reprocessing, and recycling of fuels, ores, nuclear materials, uranium, plutonium, and nuclear boilers and blocks, water filtering installations, namely water filtering units for use in nuclear industry, apparatus and instruments, namely, thermocouples, temperature sensors, moisture sensors and pressure sensors and their controllers, filters, membranes, for use in the purification, separation and sterilization of liquids and gases used in areas related to nuclear industry and energy, water filtering installations for use in areas related to nuclear industry and energy; filters for removing nuclear materials and parts and accessories therefor

## **Services**

### **Class 37**

(1) Nuclear power station construction and maintenance services

### **Class 39**

(2) Transportation and storage of nuclear activated goods and equipment

### **Class 40**

(3) Production of energy and electricity; nuclear fuel production and uranium-based nuclear fuel conversion and processing; processing, reprocessing, isotopic separation, recycling and conversion services for fuels, ores, nuclear materials, uranium, plutonium and nuclear waste; chemical treatment of nuclear reactor generators and components; decontamination of equipment exposed to radiation; nuclear fuel production and uranium-based nuclear fuel conversion and processing; processing, reprocessing, isotopic separation, recycling and conversion services for fuels, ores, nuclear materials, uranium, plutonium and nuclear waste preparing and treatment of fuels in the nuclear field

### **Class 42**

(4) Specialized, research, consultancy, advisory and expert services for the design, installation, construction and operation of a nuclear reactor plant or power installation; engineering services, namely, nuclear reactor and power plant engineering services, nuclear reactor project management services, design, development and installation of nuclear reactor management systems, information technology consulting services in the field of nuclear reactors, computer programming services; scientific, technological and industrial research relating to nuclear reactors, nuclear power stations, nuclear fuel and materials; analysis, assessment, monitoring and measuring services in the field of nuclear reactor plants, power stations; testing nuclear materials for use in nuclear power stations, prospecting and exploiting fuel resources;

#### Class 09

Computer software for logistics, namely the identification, marking, certification and tracking of products; security software, including computer software for protection against counterfeiting and commercial fraud, application software for preventing brand and product piracy, counterfeiting and commercial fraud, software for ensuring the security of electronic mail; electronic security systems and terminals comprising security software and hardware for providing picture and video to a remote station, namely audio-video receivers, electric and electronic video surveillance installations, video surveillance cameras; anti-counterfeit and anti-falsification electronic systems, namely, electronic systems comprised of computer hardware and security software that matches data and individual software applications via unique numerical codes to prevent false and counterfeit access; application software, namely security software; packaged software, namely computer software for logistics, namely, software for tracking documents, packages and freight; computer software for assisting developers in creating program code for use in multiple application programs; computer software for encoding cheques and credit cards; computer software for encryption, namely electronic encryption units; decoder software and scanning software, namely computer software for barcode scanning, for fingerprint scanning, for retina scanning; computer software for data processing, namely for image processing, for processing digital music files, for word processing; computer groupware, namely computer software for database management, computer software for controlling and managing access server applications, computer software for use in managing and controlling production schedules, shipping schedules, purchase of materials, inventories and accounts, computer software for running development programs and application programs in a common development environment; downloadable computer software applications, namely downloadable application for mobile phones to download video games via the internet, downloadable applications for handheld computers to download music, movie and television graphics; computer software for application and database integration, namely computer hardware and computer software for database management; computer software for administration of local area networks, namely computer hardware and software for setting up and configuring local area networks; computer programs and software, namely downloadable electronic games for use with

mobile telephones, handheld computers and tablet computers; computer video games; blank floppy disks; computers; cases adapted for personal computers; notebook computers; hand-held computers; cases adapted for hand-held computers; carrying cases adapted for computers; tablet computers; protective cases for tablet computers; covers for tablet computers; laptop computers; cases for laptops; bags adapted for laptops; mobile phones; lanyards, being straps, for cellular phones; covers adapted for cellular phones; cases adapted for cellular phones; cellular phones; smart phones; protective covers for smart phones; protective cases for smart phones; cordless telephones; cordless telephone holders; telephone receivers; telephone apparatus, namely automatic telephone dialers, internet telephones, telephone sets, video telephones; cell phone straps; batteries for cellular phones; microphones for cellular phones; loudspeakers for cellular phones; earphones for cellular phones; battery chargers for cellular phones; battery charger cases for cellular phones; in-ear headphones; headphones; headphone cases; hands free kits for telephones; hands free kits for cellular phones; smartwatches; photographic cameras; cases adapted for cameras; digital cameras; cases especially made for photographic apparatus and instruments, namely cases adapted for cameras, cases adapted for photographic equipment; lanyards [straps] for cameras; digital photo frames; eyeglasses; sunglasses; anti-glare glasses; goggles for sports; swimming goggles; eyeglass and sunglass cases; eyeglass and sunglass lenses; eyeglass and sunglass frames; eyeglass and sunglass chains; eyeglass and sunglass cords; contact lenses; containers for contact lenses; ski goggles; spectacle cases; smartglasses; 3D spectacles; blank audio-video compact discs; blank DVDs; holders and cases for compact discs and DVDs; protective carrying cases for portable music players; music and video player cases; digital audio players; loudspeakers; compact disc players; cases adapted for CD players; DVD recorders; DVD players; cases adapted for DVD players; portable MP3 players; cases for portable MP3 players; covers for portable MP3 players; portable compact disc music players; prerecorded magnetic tapes, cartridges and disks featuring music, computer games; walkie-talkies; antennas; audiovisual teaching apparatus, namely audiovisual receivers, overhead projectors; electronic publications, downloadable, in the nature of magazines; magnetic data carriers, namely blank sound recording compact discs, prerecorded audio digital discs featuring music, prerecorded DVDs containing movie recordings, blank audio and video tapes; blank sound recording carriers, namely compact discs, magnetic discs, optical discs; televisions and video recorders; USB flash drives; electronic key fobs being remote control apparatus; time clocks, being time recording devices; digital lap counters, namely lap-counting apparatus for use during sporting activities; rulers, being measuring instruments; electric measuring devices, namely barometers; calculating machines, namely pocket calculators; chronographs for use as specialized time recording apparatus; bathroom scales; credit card cases, being fitted holders; magnetically encoded hotel room key cards; security tokens, being encryption devices, namely electronic key fobs being remote control apparatus; electronic agendas; cases for electronic agenda; covers for electronic agendas; decorative magnets; electronic pens, being visual display units; lanyards, being straps, especially adapted for holding cellular phones, MP3 players, cameras, video cameras, eyeglasses, sunglasses, magnetic encoded identity cards; interactive touch screen terminals; baby monitors; audio baby monitors; video baby monitors; baby scales; educational software for children.

## **Services**

### **Class 42**

(1) Quality control, namely providing quality assurance in the personal fashion industry; quality control of goods and services, namely providing quality control in the clothing industry, including quality control of partly manufactured clothing; quality control testing, namely material testing; inspection of goods for quality control, namely testing, inspection and research of clothing; testing,

analysis and evaluation of the goods and services of others for the purpose of certification and quality control services for certification purposes, namely materials testing and evaluation; testing services for the certification of quality or standards, namely testing of new products for others; quality assurance consultancy in the personal fashion industry; consumer product safety testing; textile testing; design, development, updating and maintenance of computer software systems for the purpose of fighting brand and product piracy, counterfeiting and commercial fraud; computer software consultancy, namely technical and technological computer consultancy in the field of identification, marking, certification and tracking of products; technical and computer technology consultancy in software development for anti-counterfeiting purposes; design and development of electronic databases; design and development of computer systems for data input, output, processing, display and storage; data encryption and decoding services; data security consultancy, namely computer security consultancy; internet security consultancy; providing temporary use of on-line applications and software tools, of non-downloadable software applications accessible via a web site, of non-downloadable business software, of on-line non-downloadable software for importing and managing data, namely leasing of computer programs, including application programs; technical research projects and studies in the field of computer software, namely software design and development; development and testing of chemical production methods; surveying, namely engineering surveying services, land surveying, technical surveying; product development services, including analysis and evaluation of product development; research services for the development of new products, namely research and development of new products for others; dress designing; styling, namely industrial design; industrial and graphic art design; interior decoration consultancy; interior design.

#### **Class 45**

(2) Security services for the protection of property; tracking, identifying and researching of counterfeit goods, namely legal investigation services; tracking of stolen property; tracking services for retrieval of encoded products, namely tracking of stolen property; provision of information, advice and consultancy in relation to security services for the protection of property and individuals; assignment of identification numbers and information to affix to valuables, luggage and other property to facilitate their recovery following loss or theft, being security services, namely security printing in the form of encoding identification information on valuable documents and products; fraud detection services in the field of banking, in the field of insurance; fraud detection services in the field of credit cards for on-line purchasing; fraud detection services in the field of credit cards; providing reconnaissance and surveillance services; fraud and identity theft protection services; trademark monitoring, being legal services; legal research relating to intellectual property rights; title searching; detective investigations; private investigation; investigation services related to insurance claims; management and exploitation of industrial property rights and copyright by licensing for others, being legal services; legal administration of licenses; granting of licenses to others for the use of industrial property rights and copyright; licensing of franchise concepts [legal services]; legal services relating to the exploitation of industrial property rights and copyright; legal services relating to the exploitation of ancillary rights in the field of merchandising; consultancy and legal services in the field of privacy and security laws, regulations, and requirements; advice, representation and assistance in litigation and judicial procedures relating to intellectual property and intellectual property rights; monitoring intellectual property rights for legal advisory purposes; footwear rental; rental of jewelry; clothing rental; providing information relating to clothing rental services; providing authentication of personal identification information [identification verification services], namely personal background investigations; providing user authentication services in e-commerce transactions; legal services in relation to the negotiation of contracts for others.

#### Class 09

(1) Cell phone straps; telecommunication devices and apparatus namely, mobile telephone transmission towers; satellite phones; smart phones; voip phones; mobile phone neck straps; mobile phone cases; mobile phone accessories namely, docking stations for mobile phones; dustproof plugs for mobile phone jacks; keyboards for mobile phones; lanyards for mobile phones; batteries for mobiles phones; mobile phone chargers; stands adapted for mobile phones; USB cables for mobile phones; wireless headsets for use with mobile phones, cell phone cases, cover and skins; loudspeakers; cabinets for loudspeakers; battery chargers for use with telephones; headphones; earphones; telephones; intercoms; mobile phones; antenna masts; antennas for radio and television; cell phone antennas; car antennas; satellite antennas; audio- and videoreceivers; camcorders; electric capacitors for telecommunication apparatus; compact disc players; digital cameras; digital photo frames; DVD players; electro-dynamic speed controller for the remote control of braking signals; electronic notice boards; facsimile machines; Global Positioning System (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; hands free kits for phones; high-frequency converters; high-frequency meters; high-frequency switching power supplies; musical juke boxes; microphones; electric monitoring apparatus namely, car video monitors, vehicle tracking systems, electric car battery monitoring system, monitoring for crash detection; navigation apparatus for vehicles namely on-board computers; blank optical discs, blank optical digital versatile discs, and optical disc autochangers; personal stereos; portable media players namely, portable digital audio players, portable MP3 players, portable MP4 players, portable DVD players, and portable radios; radars; radio pagers; radios; record players; remote controls for operating vehicle alarms; remote controls for radios; remote controls being electronic key fobs; satellite navigational aerials, processors, receivers, transmitters; sound and image recording apparatus, namely audio and video event recorders for security purposes; video cameras; blank sound recording carriers, namely LP cylinders, LP records, cassettes, compact discs, digital versatile discs, magneto-optical discs; sound reproduction apparatus namely, phonographs, record players, gramophones, cassette players, stereos, DVD players, and digital voice recorders; sound transmitting apparatus namely, echo sounding devices, sound amplifiers, audio speakers, sound projectors, and digital

sound processors; televisions; transmitters of electronic signals namely, radio transmitters, television transmitters, emergency signal transmitters, GPS transmitters, optical transmitters, and radar transmitters; vehicle radios; video recorders; telecommunication machines and devices for use in assisting in improving safety of car driving namely collision detection systems, hands-free car speaker phones and personal text message reading, hands-free location tracking; audio equipment namely, microphones, radio receivers, audio-visual receivers, CD players, DVD players, tape recorders, sound amplifiers, sound mixing consoles, and loudspeakers; car stereos; car televisions; in-car telephone handset cradles; computer mouse; computer operating programs, recorded; recorded computer programs for searching remotely for content on computers and computer networks; recorded computer programs for using the Internet; downloadable computer programs for searching remotely for content on computers and computer networks; downloadable computer programs for using the Internet; personal computers; personal computers for vehicles; tablet computers; computers for use in remote monitoring of fuel cell power generators using communication networks; carrying cases adapted for computers; covers and cases for mobile telephones; covers and cases for tablet computers and notebook computers; mobile phone application programs for searching remotely for content on computers and computer networks; downloadable computer programs for using the Internet; computer programs for automobiles to record fuel usage to provide fuel efficiency records; blank USB flash drives; computer keyboards; X-ray demonstration monitor for the purpose of highlighting state of the art technology found inside a motor vehicle; bar code readers; central processing units; integrated circuits; computer memory devices namely, memory boards, random access memory (RAM) cars, secure digital (SD) memory cards; computer peripheral devices namely computer keyboards, computer mouse, computer monitors, computer speakers; downloadable computer software applications to provide vehicle specific information consisting of owners manuals, navigation manuals, warranty and maintenance schedules, nearby dealers, roadside assistance, safety recall notices, car service history, and how-to-use specific feature videos; data processing apparatus namely printed circuits, computer chip sets to transmit data from a CPU, and computers; blank magnetic floppy disks; electronic agendas; electronic book readers; electronic pocket translators; electronic tags for goods; integrated circuit cards; interface cards and boards for computers; laser altimeters; laser pointers; laser rangefinders; laser speed detectors; lasers for bar code readers; lasers for surveying; lasers to store and retrieve data from CDs and DVDs; light-emitting diodes (LED); blank magnetic cassette tapes, plastic key cards and hard drives; marine depth finders; metal detectors for industrial or military purposes; microprocessors; mouse pads; optical character readers; printed circuit boards; printed circuits; printers for use with computers; protection devices against X-rays, not for medical purposes namely lead glasses and lead aprons; sonars; electronic components namely, diode arrays, transistors, integrated circuits, optoisolators, semiconductors, electrical resistors, capacitors, electrical transducers; electronic memory devices namely flash memory cards, memory boards, memory card readers, random access memory cards, and secure digital memory cards; electronic control panels for motor vehicles; electronic control circuits for electric fans and heaters; electronic control systems for automobile brakes; computer software for image processing; electronic display units for vehicles; electronic cruise controls for motor vehicles; computer hardware and computer software namely basic input output (BIOS) software, computer software for setting up and configuring local area networks; computer operating software; computer software for computer-aided design and manufacturing (CAD/CAM); computer software for controlling and managing access server applications; computer software for controlling and operating laser rangefinders and laser altimeters; computer software for global positioning systems; computer software for two and three-dimensional simulation for use in design and development of motor vehicles; computer software for use in processing semiconductor wafers; computer software for use in providing multiple user access to a global computer network; facial

recognition software; gesture recognition software; universal serial bus (USB) software; virtual private network (VPN) software; navigation computers for cars; electric safety monitoring apparatus for automobiles, namely, blind spot monitors, traction control monitors, vehicle stability control monitors, and pre-collision system radar monitors; vehicle safety apparatus in the nature of an on-board vehicular video surveillance systems; motor vehicle adaptive cruise control devices; electronic controllers for motor vehicle braking; motor vehicle cameras and sensors for detecting road lane markers, pedestrians, objects outside of the vehicle, and relative distance thereof from a vehicle; lane departure warning alarm systems for motor vehicles; electronic motor vehicle steering systems for assisting vehicles to stay on course near the center of a lane; front collision warning alarm systems for motor vehicles; motor vehicle lighting systems to automatically activate and deactivate high beam headlights upon sensing oncoming vehicle; fuel cells; electric bicycle batteries; bipedal walking humanoid robots with artificial intelligence; robots for use in conducting conversation experiments between a robot and a human.

### **Class 10**

(2) Medical instruments for general examination; surgical robots; robots for walking aid for medical purposes; robots for aiding patient movement; walk assist robots for medical purposes; medical robots for assisting transfer and moving of patients; sphygmomanometers; electrocardiographs; body fat monitors; surgical instruments; surgical apparatus namely surgical headlights, surgical lamps and surgical mirrors; low frequency electric therapy apparatus; high frequency electromagnetic therapy apparatus; infrared radiator units for therapeutic purposes; heart pacemakers; massage beds for medical purposes; wheeled stretchers; knee supports for medical purposes; ankle supports for medical purposes; artificial limbs; trusses; elastic stockings for medical purposes; traction equipment for medical purposes namely, cervical traction sets, head halters, skull tongs, mobilization strap sets, traction cords, traction boots, and traction tables; physical exercise treadmills for medical rehabilitative purposes; electric belts for attaching medical monitors to patients; abdominal belts, head halters, and lumbar support belts for medical purposes; hospital gurneys; body rehabilitation robot for medical purposes consisting of treadmill, computer monitor and robotic leg; medical rehabilitation apparatus for walking training namely walking frames for disabled persons; rollators; walking aids for medical purposes, namely, crutches, canes, and wheeled walkers to aid mobility.

### **Class 12**

(3) Automobile engines; driving motors for land vehicles; engine mounts for land vehicles; engines for land vehicles; gasoline engines for land vehicles; diesel engines for land vehicles; internal combustion engines for land vehicles; motors for land vehicles; propulsion mechanisms for land vehicles; jet engines for land vehicles; turbines for land vehicles; transmissions for land vehicles; transmission shafts for land vehicles; idling pulleys for land vehicles; belt pulleys for land vehicles; clutch mechanisms for land vehicles; hydraulic circuits for motor cars; gearboxes for land vehicles; torque converters for land vehicles; reversing gears for land vehicles; reduction gears for land vehicles; speed change gears for land vehicles; automatic gearboxes, drive gears, gear shifts, and gear wheels for land vehicles; automobile chains; roller chains for land vehicles; connecting rods for land vehicles, other than parts of motors and engines; brakes for land vehicles; brake cylinders for land vehicles; brake segments for land vehicles; brakes for motor cars; brake shoes for motor cars; brake segments for motor cars; brake linings for motor cars; brake discs for land vehicles; brake facings for land vehicles; brake systems for land vehicles; brake pads for land vehicles; AC motors for land vehicles, not including their parts; DC motors for land vehicles, not including their parts; motors, electric, for land vehicles; walking assistance cars; electrically powered motor vehicles; electric tricycles; buses; trucks; ambulances; racing cars; amphibious vehicles; snowmobiles; armored vehicles; fork lift trucks; camping cars; tractors; trailers, namely, cargo

trailers, travel trailers, toy trailers, camping trailers, boat trailers, bicycle trailers; trolley buses; hearses; automobiles and structural parts therefor; structural parts for buses; structural parts for trucks; automobile bodies; automobile bonnets; automobile bumpers; automobile chassis; automobile dashboards; automobile doors; automobile door handles; automobile hoods; automobile horns; automobile seats; automobile seat covers; automobile sunroofs; automobile tires; automobile wheels; spokes for automobile wheels; inner tubes for automobile tires; automobile wheel rims; rearview mirrors for automobiles; automobile windows; automobile windscreens; automobile windshields; automobile convertible tops; safety belts for automobile seats; safety harnesses for automobile racing; safety harnesses for automobile seats; security harness for automobile seats; steering wheels for automobiles; steering wheel covers for automobiles; air bags being safety devices for automobiles; safety belts for automobile seats; seat belt pre-tensioners for automobiles; brake pedals for land vehicles; direction signals for automobiles; leather upholstery for automobile seats; leather upholstery for automobiles, buses and trucks; cigar lighters for automobiles; automobile covers [shaped]; mudguards for automobiles; luggage carriers for automobiles; spare wheel holders for automobiles; automobile roof racks; headlight wipers; windscreen wipers; windscreen wiper blades; motor vehicle brake control systems for applying emergency braking at low vehicle speeds; electronic brake control systems for automobiles; two-wheeled motor vehicles, namely, motorcycles, mopeds, and scooters; bicycles; structural parts for motorcycles; structural parts for bicycles.

### Disclaimer

The right to the exclusive use of the word CHEMICALS is disclaimed apart from the trademark.

### Goods

#### Class 01

(1) Petrochemicals and synthetic resins, namely ethylene, polyethylene, polystyrene, styrene ethylene interpolymers and styrene; unprocessed synthetic resins; unprocessed plastics; plastic molding compounds for use in the manufacture of plastic sheets and films; unprocessed plastic in the form of powder or granules; unprocessed artificial resins; semi-processed synthetic resins; radiation curable unprocessed synthetic resins; unprocessed synthetic resins for use in the manufacture of molding compounds; unprocessed synthetic resin compounds in the form of microspheres used to incorporate polyethylene and polystyrene in masterbatches; unprocessed polyethylene resins for use in the plastics industry; expandable polystyrene compositions for use in the chemicals industry; catalysts for the polymerization of ethylene and styrene; catalysts for chemical processes; catalysts for use in the manufacture of synthetics and polymers; chemicals, namely, petroleum sulfonates; aromatic hydrocarbons; petroleum distillates; hydrogen; unprocessed moldable foam polystyrene resin for use in the manufacture of molded plastic articles; synthetic resins for use in the manufacture of molded articles; benzene; xylene; toluene; styrene; isobutylene; butadiene; methyl alcohol (methanol) for industrial purposes; C3-C5 mixed diene hydrocarbons; C9 resin oils; dicyclopentadiene; cyclopentadiene resin; C4-C9 gasoline blendstocks; unprocessed polyethylene resins.

#### Class 17

(2) Semi-processed artificial resins; semi-processed synthetic resins; semi-processed synthetic resins, namely, polyethylene, expandable polystyrene and styrene ethylene interpolymers; semi-processed natural resins; resins in bars, blocks, pellets, rods, sheets and tubes for general industrial use; Semi-processed plastics, polyethylene, styrene ethylene interpolymers and expandable polystyrene for general industrial use; semi-finished polyethylene, styrene ethylene interpolymers and expanded polystyrene products in form of pellets, rods, foils, foams, fibers, films and sheets; resins in extruded form for general industrial use; thermoplastic elastomer resins in pellet form for use in further manufacture; insulating materials, namely, semi-processed

expandable polystyrene and styrene ethylene interpolymer foam; semi-processed polyethylene resins; semi-processed moldable polystyrene foam resins in pellets or beads for use in the manufacture of molded expandable polystyrene plastic articles; semi-processed plastics; semi-processed polyethylene; semi-processed expandable polystyrene; semi-processed styrene ethylene interpolymers; semi-processed polyolefin film; processed synthetic resins, namely, polyolefin resins in the form of blocks, bars, pellets or in extruded form for further use in the manufacture of extrusion, injection, blow molded and roto-molded articles and extrusion, cast and blown film.

## **Services**

### **Class 42**

(1) Research in the field of metallurgy processes for use in the manufacture of petrochemicals and synthetic resins.

(2) Research and development in the fields of basic petrochemicals, polymers and polymerization; research in the field of chemical compositions and compounds; research and development of chemical compositions and compounds; testing, analysis and evaluation of chemical compositions, compounds and product quality and performance for the chemical industry; design and testing for new polyethylene, styrene ethylene interpolymers and expanded polystyrene product development for others; product development in the field of polyethylene, styrene ethylene interpolymers and expandable polystyrene products; product development and chemical engineering services for others; product development consultation; product development; process development for others in the field of chemical compositions and compounds, polyethylene, styrene ethylene interpolymers and expandable polystyrene; polyethylene, styrene ethylene interpolymers and expandable polystyrene application testing and development for others; development and testing of chemical production methods; chemical engineering services for the design of manufacturing facilities for the production of olefins and polyolefins; research development and testing services in the field of polymeric materials, polymer synthesis and materials customization for scientific and technological applications.

### **Class 45**

(3) Licensing of technology, namely, patent licensing.

## CERTIFICATION MARK DETAILS

### Trademark Type

Design

### Visual Representation

### Colour Claim

Colour is claimed as a feature of the trade-mark. The colours green, red, white, black, yellow, gold, brown and grey are claimed as a feature of the trademark. Beginning from the centre, the inner circle of the design is red. The inner red circle features a gold cornucopia with various types of brown deli meat. A grey heraldry sign featuring a green tree against a yellow background is featured above the cornucopia. The inner red circle is bordered by a white border, featuring the words PIACENTINO and PIACENTINA in black. The white border is followed by a red border, another white border, and finally a green border.

### Certification Mark Standard

The certification mark, as used by a person authorized by the certifier, certifies that the goods originate from the 'PIACENTINO' production area, which is located in the Italian regions of Lombardia and Emilia-Romagna, and are produced in accordance with certain official standards regarding product composition and environmental conditions promulgated by the certifier, the details of which are set out in the attached documents.
