Trade-marks Journal

2019-02-27 — Vol. 66 No. 3357

Trade-marks Journal

Vol. 66 No. 3357

General Information

The *Trade-marks Journal* is published every week in compliance with [Rule 15 of the Trade-marks Regulations](#). The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see [section 38 of the *Trade-marks Act*](#) for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(3) Building construction; installation, maintenance and repair of computers and computer, networking and telecommunications hardware

Class 38

(4) Transmission of images, texts, webcasts, and data in the fields of computer networking, computer networking, computer storage, computer infrastructure, computer systems and telecommunications systems by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the internet; transmission of information in the fields of business management, business operations, computers, computer networks and electronic commerce by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the internet; providing private and secure real time electronic communication, namely, emails, text messages, and voice messages, by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; providing virtual private network services, namely, providing computer network security services to enable private and secure transmission of electronic communications over private or public computer networks; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computers and the use of computers and cloud computing provider services for general storage of data; streaming of audio and video material via the Internet, namely, news segments and short films in the fields of computers, development and operation of computer software and computer networks and information technology; voice over Internet Protocol (VOIP) services, namely, providing wireless telephone services, video telephone services, voice messaging services and wireless digital messaging services by means of local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet

Class 41

(5) Educational and training services, namely, conducting classes, workshops, seminars and conferences in the field of computers, software, electronic commerce and computer networks; online journals, namely, operation of a blog in the field of computer hardware, computer software, electronic commerce and computer networks

Class 42

(6) Research and development of new products for others; research and development of computer software; research and development in the field of computer hardware, computer software and computer networks; design and development of computer hardware and software; computer systems analysis, planning, integration and design; integration of computer systems and software; integration of computer systems and networks; computer system administration for others; rental and leasing of computer hardware and computer peripherals; computer consulting services; advice

on designing, selecting, and using computer hardware and systems; computer software consultancy; consulting services for others in the selection, implementation and use of computer software; consulting services in the field of software as a service; Internet consulting services, namely, technical consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of internet technology and services; consulting services in the field of management of computer hardware, computer software and computer networks; consulting in the field of computer hardware and computer software application transformation, integration, modernization, migration, design, development, implementation, testing, optimization, operation and management; consulting in the field of cloud computing; consulting services in the field of big data processing and analytics; consulting in the field of cloud infrastructure; consulting services in the fields of datacenter architecture, public and private cloud computing solutions, and evaluation and implementation of Internet technology and services; consulting in the field of design and development of electronic data security systems and compliance with industry standards of application programs, computers, computer operating systems, computer networks, computer hardware and computer software; consulting in the field of computer and information security and IT risk management; consulting in the field of enterprise mobility management and remote operation and management of computer hardware, computer software, computer networks, and data storage devices, namely, high-speed storage subsystems for collection, storage, processing, analysis and backup of electronic data via a telecommunications network; technological consultation in the technology field of unified communications hardware and software; consulting in the field of computer software for customer relationship management, finance and administration, human resources, payroll and document processing; consulting services for managing application deployment, namely, deployment of cloud applications and computer software applications; consulting in the field of assessing and developing marketing strategies and concepts for others; consulting in fields of IT converged infrastructure and hyper-converged infrastructure; consulting services relating to business management, business operations and billing services in the utilities industry; consulting in the field of environmental and energy efficiency; scientific and technological services, namely, research and design in the field of computer networking hardware and computer datacenter architecture; technical consulting services in the field of datacenter architecture; providing temporary use of online non-downloadable middleware for providing an interface between software applications and operating systems; providing temporary use of on-line non-downloadable cloud computing software for use in database management and electronic storage of data; computer hardware and software design and development; computer programming services; developing driver and operating system software; software application development, modernization and cloud integration; software installation, maintenance and update services; testing the operation and functionality of computers, networks and software; business technology software development and consultation services; computer programming services for others in the field of software configuration management; computer software development in the field of mobile applications; updating and maintaining cloud-based computer software through on-line updates, enhancements and patches; service desk, help desk and troubleshooting services for converged infrastructure and hyper-converged infrastructure, computer hardware, computer software, computer peripherals and computer networks; technical support services, namely, troubleshooting of computer software problems; technical support services, namely, troubleshooting in the nature of diagnosing computer hardware and software problems; technical support services, namely, migration of datacenter, server and database applications; technical support services, namely, monitoring of computers, network systems, servers and web and database applications, and notification of related events and alerts; technical support services, namely remote real-time computer and network monitoring services; technical support services, namely, remote and on-site infrastructure

management services for monitoring, administration, and management of public and private cloud computing IT and application systems; providing website hosting services, website development and customized online web pages for others; consulting services in the field of cloud computing; cloud hosting provider services; hosting software applications for others; cloud hosting of electronic databases; web, cloud and computer infrastructure hosting services; rental of web servers of variable capacities to third parties; rental of database servers of variable capacities to third parties; infrastructure-as-a-service (IaaS) services, namely, providing computer hardware, computer software, computer peripherals to others on a subscription or pay-per-use basis; virtualization services, namely, hosting and providing remote access to virtualized client computers; virtualization services, namely, providing temporary use of non-downloadable software for hosting and providing remote access to virtualized client computers; integration of private and public cloud computing environments; remote and on-site management of computer systems and software applications for others; cloud computing featuring software for use in database management; computer services, namely, hosting, provisioning, scaling, maintaining, monitoring, securing, encrypting, decrypting, replicating and backing up databases for others; management of data centers, computer and computer network security cloud computing, workplace technology, namely, computer software for configuration, provisioning, deployment, control, management and virtualization of computers, computer servers and data storage devices, namely, high-speed storage subsystems for storage and backup of electronic data either locally or via a telecommunications network, computer networks, unified communications and computer hardware, computer software and computer networking for enterprises and businesses for others; rental of space in a computer co-location facility for containerized data centers of others; database development services; data mining services; data backup and data restoration services; data migration services; data encryption and decryption services; cloud computing featuring software for use in database management and data warehousing; electronic data storage services, namely cloud computing provider services for general storage of data; electronic storage of digital content, namely, images, texts, webcasts and data in the fields of computer networking, computer storage, computer infrastructure, computer systems and telecommunication systems; software-as-a-service (SaaS) services featuring software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; Software-as-a-service (SaaS) services featuring software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of data; Software-as-a-service (SaaS) services featuring software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; Software-as-a-service (SaaS) services featuring software for creating and executing runbooks; Software-as-a-service (SaaS) services featuring software for forecasting and reporting resource utilization for improving server capacity planning; Software-as-a-service (SaaS) services featuring software for monitoring performance of computer networks; Software-as-a-service (SaaS) services featuring software for detecting and resolving malfunctions in computer networks; software as a service for managing IT service desks and IT help desk services; software as a service for use in enterprise server, networking and data storage applications,, database management, and electronic storage of data; software as a service for monitoring cloud, web and application performance; software as a service for cloud infrastructure management and automation; software as a service for data protection and data security; software as a service for information security compliance monitoring, reporting and analytics; software as a service (SAAS) services featuring security software; software as a service for identifying and correcting application security vulnerabilities; software as a service for risk management; software as a service for data backup, recovery and archiving; software as a service for data searching, namely, for creating searchable databases of information and data; software as a service for the transmission of data over local area networks (LANs), wide

area networks (WANs), cloud networks, mobile networks and the Internet; software as a service for data storage, processing and reproduction; software as a service for real-time, integrated business management intelligence by combining information from various databases; software as a service for business analytics, namely collecting and analyzing data to facilitate business decision making; software as a service for use in big data analysis; software as a service for automating the processing of un-structured, semi-structured and structured information and data stored on computer networks and the Internet; software as a service for business organization and business process virtualization and management; software as a service for customer relationship management (CRM); software as a service for enterprise resource planning (ERP); software as a service for business risk management; software as a service for project portfolio management (PPM); software as a service for records management; software as a service for product lifecycle management; infrastructure-as-a-service in the nature of technical support services, namely, remote and on-site infrastructure management services for monitoring, administration and management of public and private cloud computing IT and application systems; temporary use of non-downloadable software for computer and network operation, management, automation, virtualization, configuration, provisioning, deployment, and control; providing temporary use of non-downloadable software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; providing temporary use of non-downloadable software for use in cloud infrastructure management, data warehouse infrastructure management, database management and electronic storage of data; providing temporary use of non-downloadable software for managing inventory and product lifecycles of computer hardware, computer software, computer servers and computer networks; providing temporary use of non-downloadable software for creating and executing runbooks; providing temporary use of non-downloadable software for forecasting and reporting resource utilization for improving server capacity planning; providing temporary use of non-downloadable software for monitoring performance of computer networks; providing temporary use of non-downloadable software for detecting and resolving malfunctions in computer networks; providing temporary use of non-downloadable security software; providing temporary use of non-downloadable software for help desk services for computer hardware and computer software; temporary use of non-downloadable software for data protection, data security, and computer application and network security; temporary use of non-downloadable software for information security regulatory compliance; temporary use of non-downloadable software for monitoring computer network access and activity; temporary use of non-downloadable software for data encryption and decryption, cryptography, computer user authentication, and information security compliance monitoring, reporting and analytics; temporary use of non-downloadable software for data backup, recovery, archiving and deduplication; temporary use of non-downloadable software for cloud infrastructure management and automation; temporary use of non-downloadable software for cloud, web and application performance monitoring; providing temporary use of non-downloadable computer software for database management; providing temporary use of non-downloadable computer software to automate data warehousing; providing temporary use of non-downloadable computer software, namely, cloud computing data center management software; providing temporary use of non-downloadable computer software for application and database integration, namely, software featuring functions for the integration of web-based applications and databases in the field of business management; providing temporary use of non-downloadable computer software for application and database integration, namely, software featuring functions for the integration of cloud applications and databases in the field of business management; providing temporary use of non-downloadable computer software for the transmission of data over local area networks (LANs), wide area networks (WANs), cloud networks, mobile networks and the Internet; providing temporary use of non-downloadable computer software for data storage, processing and

reproduction; providing temporary use of non-downloadable computer software for accessing, querying and analyzing information stored in databases and data warehouses; temporary use of non-downloadable software for business intelligence, business process insight, data analytics, information management, knowledge management, customer relationship management, and enterprise resource and risk management; temporary use of non-downloadable software for storing, managing, tracking, and analyzing business data; temporary use of non-downloadable search engine software and software for project and records management; temporary use of non-downloadable software for software development, deployment, testing, delivery and application lifecycle management; temporary use of non-downloadable software-defined infrastructure (SDS) software for virtualizing and managing computers, computer hardware, computer software, servers, computer networks and data storage; providing temporary use of non-downloadable software for virtualization in fields of converged infrastructure and hyper-converged infrastructure; software as a service services, namely, hosting cloud and datacenter infrastructure software for use by others for use in database management and application development; providing temporary use of non-downloadable computer software for managing business operations and billing services in the utilities industry; temporary use of non-downloadable software for managing software licenses;

AIRFRAME

Goods

Class 09

telecommunications devices, apparatus and equipment, namely, computer network servers; computer hardware and associated computer software for operating, design, engineering and development of data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; computer hardware and associated computer software for computer servers and parts and fittings thereof

SERVICES

Class 38

(1) telecommunication services, namely, telephone services for operating data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; data transmission services, namely, streaming of audio and video, voice, graphics, images, photographs, text and files via a fiber optic network featuring music, movies, news, and sports; data transmission services, namely, providing network connectivity services to cloud computing providers, via telecommunications networks, the Internet and global computer networks, and email services, for transmission and reception of electronic and computer data namely graphics, and photographs, and text, audio, video, voice and image files, featuring news, music, movies and sports, and multimedia content and user-generated content, namely files featuring text, audio, video, voice and images; data transmission services, namely, electronic transmission of data, namely multimedia content and user-generated content, namely text, numerical information, databases, graphics files, audio files, video files, voice, geographical data, map data and proprietary collection of information and digital messaging accessible via computer and telecommunication networks; data transmission services, namely, digitized graphics, photographs, text, audio, video, voice and images transmission services featuring news, music, movies and sports via wired computer networks, broadband service provider services, internet service provider services; data transmission services, namely, providing video, voice and data transmission services, namely, transmission and reception of graphics, and photographs, and text, audio, video, voice and image files, featuring news, music, movies and sports, and multimedia content and user-generated content, namely files featuring text, audio,

video, voice and images via telecommunication networks, the Internet and global computer networks using an integrated access device, namely, telecommunication hardware and equipment; rental, hire and leasing of computer network servers for use in operating data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; data streaming for operating data center systems, namely streaming of audio and video via the Internet featuring music, movies, news, and sports; providing access via cloud to operating data center databases; providing access via cloud to data storage services for operating data center systems, namely cloud computing provider services for general storage of data

Class 42

(2) scientific and technological analysis, research, development, planning, technical support, optimization, integration, troubleshooting and consultancy services in the field of telecommunications devices, servers, networks, systems, solutions and software, namely operating data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; software maintenance in the field of telecommunication networks, systems and software, namely computer software consulting; design, engineering and development for others of computer networks and data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; data communication and telecommunication infrastructure as a service (IaaS), platform as a service (PaaS) for use in operating data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; software as a service (SaaS) for operating data center systems comprising data center computers and data center computer systems, data center infrastructure, operating software, and software applications for data center deployment, data center management, data center capacity planning and utilization; electronic data storage for operating data center systems, namely cloud computing provider services for general storage of data

PROMAKEUPGIRL

Goods

(1) Cosmetics and makeup; Skin care preparations; Hair care preparations; Nail care preparations; Henna for cosmetic purposes; Makeup removal preparations; Makeup storage cases; Makeup palettes and stands; Artificial eyelashes; Artificial nails; Depilatory wax

(2) Nail clippers, nail files and emery boards; Nail scissors and hair cutting scissors; Tweezers; Eyelash curlers

(3) Instructional and educational videos in the fields of beauty, skin care, hair care and makeup, all available on pre-recorded optical discs and for download via the Internet

(4) Hair dryers

(5) Jewellery; Body jewellery

(6) Books, magazines, and guidebooks; Skin blotting papers; Makeup pencil sharpeners; Eyebrow stencils; Rubber stamps for cosmetic purposes; Stickers for cosmetic purposes

(7) Handheld mirrors and compact makeup mirrors; Beauty salon furniture, namely, chairs, armoires and storage shelves

(8) Hair brushes; Makeup brushes and brush cleaners; Foam makeup applicators; Makeup sponges; Spatulas for makeup and depilation wax; Exfoliating mitts; Disposable gloves for applying makeup; Powder puffs and swabs for applying makeup

(9) Veils

(10) Hair curlers; Hair accessories; Hair extensions

SERVICES

(1) Shop at home parties selling cosmetics, makeup, and hand tools for personal grooming and makeup application

(2) Educational services, namely, seminars, workshops, classes and training sessions in the fields of hair styling, makeup, and beauty enhancement; Entertainment in the form of hair styling, makeup and beauty enhancement competitions and skill demonstrations

(3) Beauty salons; Consulting services in the fields of hair styling, makeup, and beauty enhancement

(4) Providing information in the fields of hair styling, makeup and beauty enhancement, all via private websites, social media websites and social networking websites

CLAIMS

Used in CANADA since September 01, 2015 on services (3); October 25, 2015 on goods and on services (1), (2), (4).

As provided by the applicant, the French translation of the words "NORDA STELO" is "Étoile du Nord."

SERVICES

(1) Surveying services, namely technical and topographic data survey services, 3D scanner services, services involving 3D guidance of heavy machinery, construction site monitoring, services involving geodesy, bathymetry, volume and siting calculation, technical data layout, and 3D modelling of scatter charts; (2) assembly detail development, namely services involving assembly design using 3D models, drafting by engineers, drafting of shop drawings and erection drawings; (3) lighting design, namely the following services: lighting project design, lighting creation, photometric calculations, lighting control, blueprints and specifications regarding control and positioning, architectural integration, overall visual simulation of concepts, 3D modelling of concepts and components thereof, lighting plan realization, custom design of lighting products, energy efficiency calculation, budget estimates, technical re-evaluation regarding lighting, multidisciplinary coordination, and technological monitoring of lighting products on the market; (4) electrical engineering, namely the following services: preparation of invitation to tender documents, testing and analysis of service offers, project management, design and execution, assistance to the client or contractor, study of electrical networks, technical and economic study, pre-feasibility and feasibility studies, diagnostics, technical expertise and auditing, preliminary, pre-project and detailed design, blueprints and specifications, planning, coordination and monitoring of work, inspection, training, design and modification of substations; (5) creation of control programs for automated measurement, assembly, adjustment and related visualisation; (6) automation engineering services, including namely services enabling workload reduction and productivity and quality improvement, control system realization and architectural definition services, process simulation and optimization services, automaton programming services, technical support and troubleshooting; (7) robotics, namely services for securing installations and work cells, studies involving feasibility, work cell engineering, material handling systems, custom assembly and solution integration services, management and market-specific solutions, optimization, guidance and simulation of flow; (8) industrial computing, namely needs analysis and data collection services, work organization and parameter definition, consolidation of multiple databases, connection to production data in real time, implementation of existing commercial applications, custom product development, dissemination of information through electronic pages, performance

indicators and reports, and market-specific solutions; (9) environmental engineering, namely support services for obtaining environmental authorizations for road, mining, port and residential development projects, contaminated soil studies, environmental scanning and basic environmental studies, management of natural resources and biodiversity, northern ecology, compensation and follow-up projects, environmental monitoring and follow-up, environmental regulation consulting services, integrated water resources management by means of drainage basins, project optimization and scoping, spatial, geomatic analysis, visual simulations, modelling, dispersion of air emissions and effluents, social acceptability and management of stakeholders, community relations, public hearings and consultations, socioeconomic and human environment studies, audits, management systems, due diligence review, environmental and social management plans, and closing and restoration plans; (10) railway engineering, namely design and construction of engineering structures, railways, level crossings, passenger stations, rolling stock, assistance in the planning and optimization of operations, logistics for the transport of goods, and rail service agreements; (11) forestry, namely planning, optimization and locating of access to resources, blueprints and specifications, construction and rebuilding cost estimation, ad hoc on-site design surveying, monitoring and management of construction work, photo interpretation, searching for borrow pits, thematic mapping, forest and ecological inventory, forest management, forestry activity planning, geomatics, information technology development applied to the forestry sector, remote sensing, digital ortho-imaging, industrial diagnostics, wood processing, procurement, and forest assessment; (12) hydraulic engineering and hydrology, namely water management services in rural settings, urban settings and on watercourses, drafting of development plans, technical expertise, pre-project planning, design with or without hydraulic and/or hydrological modelling, preparation of blueprints and specifications including cost estimation (of work), office monitoring, engineering structure design, storm sewer design, conventional/double drainage, ditch design including double drainage in ditches, sewer backflow analysis, studies regarding discharge standards, dispersion of pollutants in a watercourse, determination of water control dikes, hydrological study to determine low flow and high flow in watercourses through statistical analysis, redevelopment, watercourse deviation, spawning run design including development of sills and pools, protection of banks by means of soil bioengineering or riprap, delineation of flood plains, sediment transport study, and ice study; (13) water treatment, namely assessment of water needs and design flows, research regarding underground and surface water, water characterization, design of underground and surface water treatment processes, design of waste water treatment processes, aerated ponds, primary physicochemical treatment, secondary treatment, transient calculations for the hydraulic movement of leachate from landfill sites and waste snow discharge sites, sampling of industrial effluents, and decentralized and residential sanitation; (14) risk management regarding occupational health and safety, namely integration of an occupational health and safety management system, auditing, analysis of organizations' compliance with OHS standards and OHS assessments, risk assessment, operational safety, selection, development and implementation of risk reduction measures, control of hazardous energies, electrical safety, electrical design for hazardous locations, OHS contractor on construction sites, industrial hygiene, and training; (15) management of construction equipment and infrastructure integrity for buildings, namely auditing services, corrosion and degradation studies, implementation of risk-based inspection programs, development of maintenance strategies, materials selection, procedure for repairing plastic parts and fiber-reinforced plastics, refractory and acid-resistant materials, quality assurance during the manufacture or repair of construction equipment, selection and monitoring of paint application systems, selection and design of cathodic protection systems, feasibility studies, aging studies, malfunction analysis, manufacturing quotations, procedure development, technical support for destructive and non-destructive testing, integrity testing, criticality studies of construction equipment, and analysis of failure modes, the effects and criticality thereof; (16)

building services, namely engineering services in the fields of plumbing, heating, ventilation and air conditioning systems, fire protection, and energy; (17) mechanics and pipework, namely concept design and feasibility studies, mass and energy balance, flow charts and instrumentation charts, process simulation, hydraulic studies, sizing of equipment and pipework, specification of equipment and instruments, process risk analysis, technical auditing and analysis of the safety of processes, process safety management (PSM) auditing, industrial pipe network design, pipe layout and isometric design, design and installation of equipment, pipework stress analysis, design and modification of storage tanks, regulatory auditing for the handling and storage of petroleum products, pre-operational inspection, design and integration of mechanical equipment, calculations and simulations using finite elements, design, cost estimation and scheduling, study, analysis and optimization, study of bulk material flow, equipment integration in an active environment, 3D modelling and 2D layout, workshop order control, and construction site surveillance and support; (18) mining engineering, namely the following services: resource and reserve assessment, development of ore treatment processes, mineral processing engineering, design of mine tailings sites and waste dumps, assessment of capital costs and operational costs, financial analysis, audits for optimizing operations, operational audits, and feasibility study audits for investors and for banks; (19) consulting engineering services in the field of smart mobility, namely public transit systems, active transportation, safety and traffic, transport economics, and smart transport systems; (20) consulting engineering services in the field of petrochemicals and refining, namely scope and feasibility studies, pre-project and basic engineering studies, full basic engineering studies, basic engineering auditing and optimization studies, site assessment and on-site audits, licensed technology assessment, engineering services as a representative of the owner, profitability analysis, design of open-art processes, cost analysis services, conduct of workshops, safety reviews and risk assessment, project definition index assessment, detail engineering, procurement services, support for construction, commissioning and start-up; (21) consulting engineering services in the fields of bridges and engineering structures, namely design of bridges for urban, forest and mining areas, of all materials, turnkey design, fast-track design, all kinds of inspection for bridges, work at heights, supervision of underwater inspections, developed inspection reports, full-time or non-full-time supervision, document review, certificates of completion of work, worksite records including a journal and photographs, launch engineering, engineering and monitoring, real geometry models, simulation, stress testing, deflected curve prediction, incremental analysis, complete documents of steps to take and charts for follow-up, quotations, procedures, orthotropic deck engineering, 3D modelling, local and global analysis, stress validation, bent plate optimization, and monitoring, design and construction of walkways; (22) port and coastal engineering, namely technical assistance, design of structures, establishment of repair and maintenance programs, technical inspection of structures, digital and physical modelling to study various problems, including the analysis of hydrodynamic conditions, of waves surmounting a structure, of erosion and sedimentation phenomena and checking of structure stability, preparation of construction blueprints and specifications, supervision of work, establishment of remaining life, design and construction of wharves, breakwaters, locks, marinas and floating wharves and breakwaters, design and construction of boat towing systems, dredging, development of commercial ports, industrial terminals, fishing ports, marinas, ferry installations, study of weather and hydrodynamic conditions, study of shoreline sedimentation and erosion processes, design of structures such as seawalls for protecting the coast, groyne systems and beach fill; (23) consulting engineering services in the field of civil engineering, namely services involving studies, blueprints and specifications as well as supervision of work in the fields of road and highway projects, roundabouts and run-out lanes, dedicated lanes for buses, parking lots, traffic control and signalling, cycling paths, urban infrastructure response plans, mine tailing parks, residential and commercial development, ecocentres, infrastructures for urban and industrial

parcs, préparation de sites pour plantes, distribution de l'eau potable, équilibrage hydraulique et rinçage, programme de réhabilitation et de reconstruction de conduites d'aqueducs et de lignes d'égout, réseaux de protection incendie, collecte et captage des eaux usées par gravité, avec une station de pompage et des propriétés à basse pression, collecte et captage des eaux de pluie, élaboration d'un plan de développement pour l'eau potable et les réseaux d'égout, enregistrement et présentation de projets pour divers programmes de subvention, et gestion et suivi de projets subventionnés avec des agences, des ministères gouvernementaux et des municipalités; (24) conception paysagère, notamment développement de parcs, centres urbains, sentiers à vélo ou parcs à éclaboussures, développement de terrains de sport, développement de rives et stabilisation de berges, développement de terres commerciales, résidentielles et institutionnelles, développement de routes et d'épaves d'autoroutes, et conception de terrains de camping et de places de stationnement; (25) planification urbaine, notamment planification urbaine et développement régional, études stratégiques, règlements de planification urbaine et plans d'urbanisme, revitalisation des artères commerciales, requalification de terrains vacants, développement de resorts sur terres publiques et privées, services de défense dans le contexte de demandes à présenter à la Commission de protection du territoire agricole; (26) structure de bâtiment, notamment conception de structures en acier, en béton, en bois et de structures préfabriquées, restauration et réhabilitation de bâtiments existants, travaux d'ingénierie civile et municipale relatifs à des projets structurels, surveillance de sites de travail, développement continu et formation, modélisation 3D et élaboration de plans.

Class 09

(1) Scientific apparatus and instruments, namely computers, portable computers, tablet computers, tablet monitors, laptop computers, notebook computers, portable telephones, digital telephones, mobile phones, smart phones, internet phones, automatic answering machines, automatic telephone dialers, blueprinting machines, computer printers, image scanners, electronic book readers, computer mice, computer mouse pads, computer monitors, computer power supplies, computer screens, computer central processing units, computer speakers, computer stands, computer terminals, identification smart cards, keyboards for mobile phones, microphones for telecommunication apparatus, mobile phone chargers, audio speakers, mobile telephone batteries, telephone answering machines, earphones, telephone headsets, headphones, tape and videotape players, CD players, DVD players, DVD recorders; apparatus for recording, transmission or reproduction of sound, images or data, namely blank magnetic discs, magnetic encoded card readers, magnetic tape recorders, pre-recorded audio cassettes, pre-recorded audiotapes, pre-recorded video cassettes, pre-recorded videotapes, blank compact discs, blank audio digital discs, blank hard discs, blank laser discs, blank magnetic discs, blank optical discs, blank digital versatile discs, blank digital videodiscs, high definition digital discs, blank audio digital discs, blank digital audiotapes, digital disc drives, pre-recorded CDs, DVDs, laser discs, and optical discs containing educational information in the fields of sciences, social sciences, law, languages, math and history, compact disc players, record players for digital compact disks, video disc players, digital versatile disc player, digital audiotape players; data processing apparatus, namely computers; user interfaces, namely augmented reality displays and interfaces for electronic devices, computer interface boards, computer interface cards; unified user interface systems, namely computer hardware and software for enabling users to communicate with computer network interface devices; software applications and management systems and tools, namely, computer software for enabling software applications and software tools to manage and control computer systems; user authentication apparatus and instruments, namely, computer hardware and software for enabling the identification of the users of the devices; all-in-one configurations systems and software for configuring computer servers and peripheral network devices; all-in-one technological apparatus and instruments, namely, computer hardware and software for providing multiple functions from a device such as photocopying, printing and scanning; computer software featuring collaboration tools enabling technological software operations and applications, namely, email, calendaring, and video conferencing and, cloud applications; computer software, namely computer software for use

in cloud computing for the general storage of data and storage virtualization, augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of visualizing changes in the appearance of faces, body features, clothing and accessories; computer software, namely software development tools for the creation of augmented reality applications; storage and document share software and systems, namely electronic data storage and document share software and systems, namely, computer hardware and software for providing electronic data storage capabilities and document sharing; technological administration interface, namely computer software for enabling software applications and software tools to manage and control computer systems; computer servers; downloadable applications for mobile phones and handheld computers to enable integrating electronic data with real world environments for the purpose of visualizing changes in the appearance of faces, body features, clothing and accessories; 3D printers; computer dashboards, namely visual analytic computer software used to create visual summaries and interactive digital dashboards which display and report summaries of text, images, audio, and videos that are present in social media networks, websites and global computer networks and associated analysis, extracts, annotations, corrections, converted files and translation; computer toolkits for controlling and managing the functionality of a computer controlled system; computer scanners; photocopying machines; electrostatic copying machines; wireless routers; computer disk/disc drives; computer hardware; audio/video cable connectors, cable connectors, connecting electrical cables, connections for electric lines, connectors for electronic circuits, electric wires and connection fittings therefor, plug-in connectors, electronic connectors for circuit boards; computer hardware and software for setting up and configuring local area networks; computer software for providing a single user access to global computer networks and the Internet; multifunctional products (MFP), namely multifunctional printer, photocopiers, multifunctional copying machines, namely equipment for use in photocopying, digital imaging and producing facsimiles; computer programmes for document management; deep search computer engines, namely computer search engines that enable users to search the content of computer networks that is not indexed by conventional search engines; sensors, namely motion sensors; medical data storage equipment for use in healthcare namely hardware; computer software for use with cognitive computing technologies and systems which enable machine learning, natural language processing, learning algorithms, semantic ontologies, pattern recognition and knowledge modelling technologies; smart room booking (SRB) software, namely computer software that enables users to find an empty meeting room; flat panel displays for photocopiers, scanners, printers, computers; programmable electronic data acquisition and control apparatus for environmental monitoring; monitoring instruments, namely cameras, metal detectors, motion detectors, radar detectors, smoke detectors; computer hardware and software for computer network monitoring; screening devices, namely X-ray apparatus, optical and biometric scanners all for medical purposes, airport security cameras, airline security x-ray apparatus; computer operating programs; electronic organizers; electronic calculators; pocket calculators; video equipment, namely video cameras, car video recorders, video monitors, video projectors; non-downloadable computer software for printer colour management; laser printers and laser scanners for testing fiber optic cable; amplifiers, namely optical amplifiers, audio amplifiers, power amplifiers, signal amplifiers, stereo amplifiers, sound amplifiers; network routers; computer network switches, Ethernet switches; cartridges for printers, plotters, copiers, facsimile machines, toner cartridges, firmware for controlling printer ink and data integrity in a printer, font cartridges, paper trays, print heads, data cables, cable connectors; Internet servers disk backup hardware; memory boards, digital camera memory card; semiconductors, printed circuit boards, integrated circuits; artificial intelligence software for use in the field of healthcare, namely, delivering detailed information on productivity, user performance and system health; project management software; software development tools for the creation of mobile Internet applications and client interfaces; network

access server operating software, computer software for controlling and managing access server applications; downloadable computer software for processing, organizing and viewing digital images; computer software for creating, sending and receiving e-mail, computer software for image processing, computer software for processing digital images, computer software for organizing and viewing digital images and photographs, computer software that allows transmission of graphics to mobile telephones; downloadable computer software for database management; downloadable software for mobile phones and mobile devices for detecting a user's location and displaying relevant local information of general interest; downloadable software for mobile phones and mobile devices that allows the user to search the phone or device's content for information and applications; downloadable software for mobile phones and mobile devices that allows the user to search the Internet for information of general interest; battery chargers, namely battery chargers for use with telephones, USB chargers; electric adapter cables; software for medical imaging, software for dosimetry purposes in the field of radiotherapy, virtual reality software for doctors to perform test surgery; smart printers, smart terminals, smart watches, smart glasses, intelligent copiers; cinematographic projectors, movie projectors, planetarium projectors, projectors for the entertainment industry, self-acting focusing projectors, slide projectors, video projectors; email notification alerts of changes in medical conditions that affect the health and well-being of a person namely the temperature rise and blood pressure; global positioning system (GPS) transmitters, global positioning system (GPS) receivers, global positioning system (GPS) transmitters; video cameras

Class 10

(2) Acupuncture instruments, aerosol dispensers for medical purposes, air cushions for medical purposes, air filters for medical ventilators, anesthetic delivery apparatus, apparatus for artificial respiration, apparatus for cardiac defibrillation, apparatus for taking blood samples, appliances for washing body cavities, arterial blood pressure measuring apparatus, artificial pacemakers, automatic vaccination apparatus, blood pressure measuring apparatus, blood transfusion apparatus, bone setting machines and instruments, catheters, clinical thermometers, colposcopes, defibrillators, dialyzers, drainage tubes for medical purposes, dental instruments, lasers for medical purposes, lasers for eye surgery, lasers for surgical use, castrating apparatus for veterinary purposes, cat scanners; computer printers, 3-D printers for healthcare and biomedical use; computer software for reading medical data, and for medical and veterinary imaging use; computer software for detecting biomedical conditions, namely high blood pressure, asthma; multifunctional printers for medical, dental and veterinary purposes; security cameras, temperature sensors, movement sensors which can be operated by means of digital gadgets such as remote control and mobile phone devices by means of apps software

SERVICES

Class 35

(1) Providing security services for computer networks; retail services in-store and on-line, namely retail computer equipment store services, retail sale of computer software, retail sale of photographic equipment, online sales of photographic equipment; managing the flow of information between business functions inside an enterprise and with outside stakeholders, namely, enterprise resource planning (ERP) and customer relationship management (CRM); business organization and management consulting, advisory services for business management; market analysis and research services; business risk assessment services; business organisation, business operations, planning, administration and office functions, namely data processing, mail sorting, handling and receiving, document filing services, transcription services, electronic mail services for others, appointment and reminder scheduling services; promotional services, namely developing

promotional campaigns for business for others, promoting the sale of goods and services through promotional contests and the distribution of related printed material, providing promotional coupon programs pertaining to a line of food products; advice and information concerning online and retail sale, leasing, franchising and licensing of technological apparatus, namely, computer hardware and software for providing multiple functions from a device such as photocopying, printing and scanning, for business, medical, and household purposes; business efficiency expert services; conducting trade show exhibitions in the field of computer technology; customer relationship management services; providing an on-line commercial information directory in the field of computer technology on the internet; providing a website featuring a marketplace for online sales of computer and providing a website featuring a marketplace for online sales of computers, printers, scanners and video surveillance cameras; business management consultancy services; market analysis; billing services; administrative processing of purchase orders, computerized online ordering featuring computers, computer hardware, mobile phones and smart phones providing electronic verification of online orders of digital content; web site traffic optimisation

Class 36

(6) Leasing services, namely building leasing, land leasing, leasing of office space, leasing of construction equipment, leasing of heavy equipment

Class 37

(2) Installation, maintenance and repair of computers and computer hardware, servers, printers, 3-D printers, biomedical sensors, office machines; maintenance and repair of printers, computers, telecommunication devices, namely cameras and video surveillance equipment

Class 38

(3) Telecommunication services, namely electronic mail services through wired and wireless access, paging services, wireless digital messaging services; facsimile transmission, transmission of voice and text messages by telephone; satellite telephone transmission; telegram transmission; transmission of radio and television programmes by satellite; video on demand transmissions; video streaming services, namely streaming of video within the fields of virtual reality, 3D imaging, photography and augmented reality via a global computer network; cloud based video streaming services featuring videos, namely virtual reality videos and augmented reality videos; communication by means of cellular phones; streaming of virtual reality images and videos via the Internet and video on demand transmission services; rental of memory cards for video cameras via a global computer network; computer-aided transmission of voice and text messages by mobile phones, smart phones; rental of telephones and facsimile machines; providing user access to global computer networks; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; providing e-mail fax services; providing voice chat services; recording, storage and subsequent transmission of voice and text messages by telephone; satellite telephone transmission; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; teleconferencing; video conferencing services; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; telephone voice messaging services; text messaging services; virtual chatrooms established via text messaging; voice mail services; voice messaging services; wireless digital messaging services; wireless facsimile mail services; wireless telephone services; wireless voice mail services; providing multiple-user access to a global computer information network; providing an online bulletin board in the field of computer technology and software development; providing on-line chat rooms for social networking; electronic mail services; instant messaging

services; Internet telephony services, transmission of voice and text messages via wireless broadband networks; mobile phone communication services; secure e-mail services and wireless digital messaging services; providing virtual private network services, namely, private and secure electronic communications over a private or public computer network; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computer technology and programming; streaming of audio and video via the Internet featuring music, movies, news, and sports; voice over Internet protocol (VOIP) services; file sharing services, namely, providing a website featuring computer technology enabling users to upload and download electronic files; electronic mail, videoconferencing services, and transmission of electronic calendar between mobile phones, smart phones, portable computers

Class 41

(4) Educational services in the field of computer technology and software development; online electronic publication of books, magazines, brochures; training in the use and operation of computer hardware; providing on-line non-downloadable books, magazines, brochures; online journals, namely, blogs featuring information in the fields of computer technology and programming, and e-commerce

Class 42

(5) Scientific research in the field of computer technology and software development, technological consulting services in the field of computer technology and software development; environmental monitoring of water quality, presence of trace metals, toxicity and environmental contaminants; design and development of computer hardware and software; computer hardware and software design, computer network design for others, computer system design, computer website design, design and development of computer software and hardware for use with augmented reality applications; cloud computing photo sharing services, cloud computing provider services for general storage of data, cloud computing providing software for database management, cloud computing video hosting web sites, cloud seeding, development of computer software for computer network big data processing; consulting in the field of cloud infrastructure; design of computers, design of computer databases, computer hardware and software design, design and development of computer game software, virtual reality software, augmented reality software, design and development of computer printers, dashboard, scanners, photocopiers; rental of a database server to third parties; rental of computer hardware and computer peripherals, namely computer mice, headsets, keyboards; rental of computers; rental of software for data processing; rental of web servers; consultancy in the field of software design, consultancy in the design and development of computer hardware, consultancy in the field of design and development of computer software and hardware for use with augmented reality applications; consulting in the field of information technology, namely design, development, testing of downloadable mobile applications; consulting in the field of enterprise mobility management (EMM); providing non-downloadable software for sharing digital media, namely digital images, computer graphics, photographs, catalogs, brochures, documents, calendars, presentations, music videos, movies, films, television shows, electronic publications, news and sports, via global computer networks and the Internet; providing non-downloadable software for electronic messaging; providing non-downloadable software for electronically exchanging and processing images, voice, music, music videos, movies, films, television shows, news, sports, video games, computer games, electronic publications, accessible via global computer networks and the Internet; providing on-line non-downloadable computer software for tracking documents over computer networks, intranets and the Internet; providing on-line non-downloadable software for creating and maintaining websites and blogs; providing on-line non-downloadable software for document collaboration and revision tracking; providing on-line non-downloadable software for granting and controlling access to

documents; providing on-line non-downloadable software for managing individual and group calendars and schedules; providing on-line non-downloadable software featuring online storage of documents and databases; mapping services, namely, providing a website and website links to geographic information, map images, and trip routing; providing online non-downloadable software for optimizing website navigation; providing online non-downloadable software for managing, collecting, monitoring and analysing web, blog and other online site traffic, user preferences and links in real time; technical support services, namely troubleshooting of problems of software for managing, collecting, monitoring and analysing web, blog and other online site traffic, user preferences and links; design and development services for others of software for managing, collecting, monitoring and analysing web, blog and other online site traffic, user preferences and links; electronic storage of digital media, namely documents, photographs, images, music, music videos, video games, computer games, movies, films, television shows, news, sports, electronic publications; technical support in the form of monitoring global computer network systems, technical support services in the form of troubleshooting of computer hardware and software problems; computer programming consultancy, computer hardware and computer hardware consulting, computer consulting services in the field of virtual reality and augmented reality, consulting services for capturing, processing and editing virtual reality videos and augmented reality videos, consulting services for creating 3D models from images and videos; providing search engines for the internet; cloud computing providing software for database management; web hosting, website development for others; cloud computing provider services for general storage of data; installation, maintenance and repair of computer software for predictive analysis; installation, maintenance and repair of Internet access software; software as a service (SAAS) services featuring software for communicating via computer communication networks, namely managing data across the imaging workflow in the field of healthcare

CLAIMS

IT ON YOUR TERMS

Image Description (Vienna)

- Vortices, rotary movements, tornadoes -- Note: Not including astronomic orbits (1.13.1), atomic orbits (1.13.1), concentric circles (26.1.4 or 26.1.5) and spirals (26.1.5).
- More than two lines or two bands
- Thin lines
- Curved lines or bands (except a 26.11.13)
- Rectangles
- One quadrilateral
- Quadrilaterals containing one or more other geometrical figures -- Note: Including quadrilaterals containing bent or straight lines (except 26.4.11).
- Quadrilaterals containing one or more letters
- Quadrilaterals with dark surfaces or parts of surfaces

Goods

Class 09

(1) Scientific apparatus and instruments, namely computers, portable computers, tablet computers, tablet monitors, laptop computers, notebook computers, portable telephones, digital telephones, mobile phones, smart phones, internet phones, automatic answering machines, automatic telephone dialers, blueprinting machines, computer printers, image scanners, electronic book readers, computer mice, computer mouse pads, computer monitors, computer power supplies, computer screens, computer central processing units, computer speakers, computer stands, computer terminals, identification smart cards, keyboards for mobile phones, microphones for

telecommunication apparatus, mobile phone chargers, audio speakers, mobile telephone batteries, telephone answering machines, earphones, telephone headsets, headphones, tape and videotape players, CD players, DVD players, DVD recorders; apparatus for recording, transmission or reproduction of sound, images or data, namely blank magnetic discs, magnetic encoded card readers, magnetic tape recorders, pre-recorded audio cassettes, pre-recorded audiotapes, pre-recorded video cassettes, pre-recorded videotapes, blank compact discs, blank audio digital discs, blank hard discs, blank laser discs, blank magnetic discs, blank optical discs, blank digital versatile discs, blank digital videodiscs, high definition digital discs, blank audio digital discs, blank digital audiotapes, digital disc drives, pre-recorded CDs, DVDs, laser discs, and optical discs containing educational information in the fields of sciences, social sciences, law, languages, math and history, compact disc players, record players for digital compact disks, video disc players, digital versatile disc player, digital audiotape players; data processing apparatus, namely computers; user interfaces, namely augmented reality displays and interfaces for electronic devices, computer interface boards, computer interface cards; unified user interface systems, namely computer hardware and software for enabling users to communicate with computer network interface devices; software applications and management systems and tools, namely, computer software for enabling software applications and software tools to manage and control computer systems; user authentication apparatus and instruments, namely, computer hardware and software for enabling the identification of the users of the devices; all-in-one configurations systems and software for configuring computer servers and peripheral network devices; all-in-one technological apparatus and instruments, namely, computer hardware and software for providing multiple functions from a device such as photocopying, printing and scanning; computer software featuring collaboration tools enabling technological software operations and applications, namely, email, calendaring, and video conferencing and, cloud applications; computer software, namely computer software for use in cloud computing for the general storage of data and storage virtualization, augmented reality software for use in mobile devices for integrating electronic data with real world environments for the purpose of visualizing changes in the appearance of faces, body features, clothing and accessories; computer software, namely software development tools for the creation of augmented reality applications; storage and document share software and systems, namely electronic data storage and document share software and systems, namely, computer hardware and software for providing electronic data storage capabilities and document sharing; technological administration interface, namely computer software for enabling software applications and software tools to manage and control computer systems; computer servers; downloadable applications for mobile phones and handheld computers to enable integrating electronic data with real world environments for the purpose of visualizing changes in the appearance of faces, body features, clothing and accessories; 3D printers; computer dashboards, namely visual analytic computer software used to create visual summaries and interactive digital dashboards which display and report summaries of text, images, audio, and videos that are present in social media networks, websites and global computer networks and associated analysis, extracts, annotations, corrections, converted files and translation; computer toolkits for controlling and managing the functionality of a computer controlled system; computer scanners; photocopying machines; electrostatic copying machines; wireless routers; computer disk/disc drives; computer hardware; audio/video cable connectors, cable connectors, connecting electrical cables, connections for electric lines, connectors for electronic circuits, electric wires and connection fittings therefor, plug-in connectors, electronic connectors for circuit boards; computer hardware and software for setting up and configuring local area networks; computer software for providing a single user access to global computer networks and the Internet; multifunctional products (MFP), namely multifunctional printer, photocopiers, multifunctional copying machines, namely equipment for use in photocopying, digital imaging and producing facsimiles; computer programmes for document management; deep search computer

engines, namely computer search engines that enable users to search the content of computer networks that is not indexed by conventional search engines; medical data storage equipment for use in healthcare namely hardware; computer software for use with cognitive computing technologies and systems which enable machine learning, natural language processing, learning algorithms, semantic ontologies, pattern recognition and knowledge modelling technologies; smart room booking (SRB) software, namely computer software that enables users to find an empty meeting room; flat panel displays for photocopiers, scanners, printers, computers; programmable electronic data acquisition and control apparatus for environmental monitoring; monitoring instruments, namely cameras, metal detectors, motion detectors, radar detectors, smoke detectors; computer hardware and software for computer network monitoring; screening devices, namely X-ray apparatus, optical and biometric scanners all for medical purposes, airport security cameras, airline security x-ray apparatus; computer operating programs; electronic organizers; electronic calculators; pocket calculators; video equipment, namely video cameras, car video recorders, video monitors, video projectors; non-downloadable computer software for printer colour management; laser printers and laser scanners for testing fiber optic cable; amplifiers, namely optical amplifiers, audio amplifiers, power amplifiers, signal amplifiers, stereo amplifiers, sound amplifiers; network routers; computer network switches, Ethernet switches; cartridges for printers, plotters, copiers, facsimile machines, toner cartridges, firmware for controlling printer ink and data integrity in a printer, font cartridges, paper trays, print heads, data cables, cable connectors; Internet servers disk backup hardware; memory boards, digital camera memory card; semiconductors, printed circuit boards, integrated circuits; artificial intelligence software for use in the field of healthcare, namely, delivering detailed information on productivity, user performance and system health; project management software; software development tools for the creation of mobile Internet applications and client interfaces; network access server operating software, computer software for controlling and managing access server applications; downloadable computer software for processing, organizing and viewing digital images; computer software for creating, sending and receiving e-mail, computer software for image processing, computer software for processing digital images, computer software for organizing and viewing digital images and photographs, computer software that allows transmission of graphics to mobile telephones; downloadable computer software for database management; downloadable software for mobile phones and mobile devices for detecting a user's location and displaying relevant local information of general interest; downloadable software for mobile phones and mobile devices that allows the user to search the phone or device's content for information and applications; downloadable software for mobile phones and mobile devices that allows the user to search the Internet for information of general interest; battery chargers, namely battery chargers for use with telephones, USB chargers; electric adapter cables; software for medical imaging, software for dosimetry purposes in the field of radiotherapy, virtual reality software for doctors to perform test surgery; smart printers, smart terminals, smart watches, smart glasses, intelligent copiers; cinematographic projectors, movie projectors, planetarium projectors, projectors for the entertainment industry, self-acting focusing projectors, slide projectors, video projectors; email notification alerts of changes in medical conditions that affect the health and well-being of a person namely the temperature rise and blood pressure; global positioning system (GPS) transmitters, global positioning system (GPS) receivers, global positioning system (GPS) transmitters; video cameras

Class 10

(2) Acupuncture instruments, aerosol dispensers for medical purposes, air cushions for medical purposes, air filters for medical ventilators, anesthetic delivery apparatus, apparatus for artificial respiration, apparatus for cardiac defibrillation, apparatus for taking blood samples, appliances for

washing body cavities, arterial blood pressure measuring apparatus, artificial pacemakers, automatic vaccination apparatus, blood pressure measuring apparatus, blood transfusion apparatus, bone setting machines and instruments, catheters, clinical thermometers, colposcopes, defibrillators, dialyzers, drainage tubes for medical purposes, dental instruments, lasers for medical purposes, lasers for eye surgery, lasers for surgical use, castrating apparatus for veterinary purposes, cat scanners; computer printers, 3-D printers for healthcare and biomedical use; computer software for reading medical data, and for medical and veterinary imaging use; computer software for detecting biomedical conditions, namely high blood pressure, asthma; multifunctional printers for medical, dental and veterinary purposes; security cameras, temperature sensors, movement sensors which can be operated by means of digital gadgets such as remote control and mobile phone devices by means of apps software

SERVICES

Class 35

(1) Providing security services for computer networks; retail services in-store and on-line, namely retail computer equipment store services, retail sale of computer software, retail sale of photographic equipment, online sales of photographic equipment; managing the flow of information between business functions inside an enterprise and with outside stakeholders, namely, enterprise resource planning (ERP) and customer relationship management (CRM); business organization and management consulting, advisory services for business management; market analysis and research services; business risk assessment services; business organisation, business operations, planning, administration and office functions, namely data processing, mail sorting, handling and receiving, document filing services, transcription services, electronic mail services for others, appointment and reminder scheduling services; promotional services, namely developing promotional campaigns for business for others, promoting the sale of goods and services through promotional contests and the distribution of related printed material, providing promotional coupon programs pertaining to a line of food products; advice and information concerning online and retail sale, leasing, franchising and licensing of technological apparatus, namely, computer hardware and software for providing multiple functions from a device such as photocopying, printing and scanning, for business, medical, and household purposes; business efficiency expert services; conducting trade show exhibitions in the field of computer technology; customer relationship management services; providing an on-line commercial information directory in the field of computer technology on the internet; providing a website featuring a marketplace for online sales of computer and providing a website featuring a marketplace for online sales of computers, printers, scanners and video surveillance cameras; business management consultancy services; market analysis; billing services; administrative processing of purchase orders, computerized online ordering featuring computers, computer hardware, mobile phones and smart phones providing electronic verification of online orders of digital content; web site traffic optimisation

Class 36

(2) Leasing services, namely building leasing, land leasing, leasing of office space, leasing of construction equipment, leasing of heavy equipment

Class 37

(3) Installation, maintenance and repair of computers and computer hardware, servers, printers, 3-D printers, biomedical sensors, office machines; maintenance and repair of printers, computers, telecommunication devices, namely cameras and video surveillance equipment

Class 38

(4) Telecommunication services, namely electronic mail services through wired and wireless access, paging services, wireless digital messaging services; facsimile transmission, transmission of voice and text messages by telephone; satellite telephone transmission; telegram transmission; transmission of radio and television programmes by satellite; video on demand transmissions; video streaming services, namely streaming of video within the fields of virtual reality, 3D imaging, photography and augmented reality via a global computer network; cloud based video streaming services featuring videos, namely virtual reality videos and augmented reality videos; communication by means of cellular phones; streaming of virtual reality images and videos via the Internet and video on demand transmission services; rental of memory cards for video cameras via a global computer network; computer-aided transmission of voice and text messages by mobile phones, smart phones; rental of telephones and facsimile machines; providing user access to global computer networks; electronic mail services through wired and wireless access, paging services, wireless digital messaging services; providing e-mail fax services; providing voice chat services; recording, storage and subsequent transmission of voice and text messages by telephone; satellite telephone transmission; streaming of audio and video via the Internet featuring music, movies, news, and sports; telecommunication bundle services that allow customers to reach cellular phones, voicemail and call routing between wireline and wireless phones and voicemail boxes; teleconferencing; video conferencing services; telephone carrier services provided by means of fibre optic cables, telephone lines, radio and microwave transmission, satellite transmission; telephone voice messaging services; text messaging services; virtual chatrooms established via text messaging; voice mail services; voice messaging services; wireless digital messaging services; wireless facsimile mail services; wireless telephone services; wireless voice mail services; providing multiple-user access to a global computer information network; providing an online bulletin board in the field of computer technology and software development; providing on-line chat rooms for social networking; electronic mail services; instant messaging services; Internet telephony services, transmission of voice and text messages via wireless broadband networks; mobile phone communication services; secure e-mail services and wireless digital messaging services; providing virtual private network services, namely, private and secure electronic communications over a private or public computer network; providing online chat rooms, bulletin boards and forums for transmission of messages among users in the fields of computer technology and programming; streaming of audio and video via the Internet featuring music, movies, news, and sports; voice over Internet protocol (VOIP) services; file sharing services, namely, providing a website featuring computer technology enabling users to upload and download electronic files; electronic mail, videoconferencing services, and transmission of electronic calendar between mobile phones, smart phones, portable computers

Class 41

(5) Educational services in the field of computer technology and software development; online electronic publication of books, magazines, brochures; training in the use and operation of computer hardware; providing on-line non-downloadable books, magazines, brochures; online journals, namely, blogs featuring information in the fields of computer technology and programming, and e-commerce

Class 42

(6) Scientific research in the field of computer technology and software development, technological consulting services in the field of computer technology and software development; environmental monitoring of water quality, presence of trace metals, toxicity and environmental contaminants; design and development of computer hardware and software; computer hardware and software design, computer network design for others, computer system design, computer website design, design and development of computer software and hardware for use with augmented reality

applications; cloud computing photo sharing services, cloud computing provider services for general storage of data, cloud computing providing software for database management, cloud computing video hosting web sites, cloud seeding, development of computer software for computer network big data processing; consulting in the field of cloud infrastructure; design of computers, design of computer databases, computer hardware and software design, design and development of computer game software, virtual reality software, augmented reality software, design and development of computer printers, dashboard, scanners, photocopiers; rental of a database server to third parties; rental of computer hardware and computer peripherals, namely computer mice, headsets, keyboards; rental of computers; rental of software for data processing; rental of web servers; consultancy in the field of software design, consultancy in the design and development of computer hardware, consultancy in the field of design and development of computer software and hardware for use with augmented reality applications; consulting in the field of information technology, namely design, development, testing of downloadable mobile applications; consulting in the field of enterprise mobility management (EMM); providing non-downloadable software for sharing digital media, namely digital images, computer graphics, photographs, catalogs, brochures, documents, calendars, presentations, music videos, movies, films, television shows, electronic publications, news and sports, via global computer networks and the Internet; providing non-downloadable software for electronic messaging; providing non-downloadable software for electronically exchanging and processing images, voice, music, music videos, movies, films, television shows, news, sports, video games, computer games, electronic publications, accessible via global computer networks and the Internet; providing on-line non-downloadable computer software for tracking documents over computer networks, intranets and the Internet; providing on-line non-downloadable software for creating and maintaining websites and blogs; providing on-line non-downloadable software for document collaboration and revision tracking; providing on-line non-downloadable software for granting and controlling access to documents; providing on-line non-downloadable software for managing individual and group calendars and schedules; providing on-line non-downloadable software featuring online storage of documents and databases; mapping services, namely, providing a website and website links to geographic information, map images, and trip routing; providing online non-downloadable software for optimizing website navigation; providing online non-downloadable software for managing, collecting, monitoring and analysing web, blog and other online site traffic, user preferences and links in real time; technical support services, namely troubleshooting of problems of software for managing, collecting, monitoring and analysing web, blog and other online site traffic, user preferences and links; design and development services for others of software for managing, collecting, monitoring and analysing web, blog and other online site traffic, user preferences and links; electronic storage of digital media, namely documents, photographs, images, music, music videos, video games, computer games, movies, films, television shows, news, sports, electronic publications; technical support in the form of monitoring global computer network systems, technical support services in the form of troubleshooting of computer hardware and software problems; computer programming consultancy, computer hardware and computer hardware consulting, computer consulting services in the field of virtual reality and augmented reality, consulting services for capturing, processing and editing virtual reality videos and augmented reality videos, consulting services for creating 3D models from images and videos; providing search engines for the internet; cloud computing providing software for database management; web hosting, website development for others; cloud computing provider services for general storage of data; installation, maintenance and repair of computer software for predictive analysis; installation, maintenance and repair of Internet access software; software as a service (SAAS) services featuring software for communicating via computer communication networks, namely managing data across the imaging workflow in the field of healthcare

Goods

Class 09

(1) Scientific (other than for medical use), nautical, surveying, photographic, cinematographic, optical, electro-optical, weighing, measuring, signalling, checking, supervision and life-saving apparatus and instruments, namely cameras, camera adapters, cinematographic cameras, television cameras, digital cameras, range finders for cameras, camera lenses, movie projectors, projection screens, camcorders, photometers, binoculars, magnifying glasses, optical amplifiers, optical sensors and switches, optical character readers, optical multiplexers, optical shutters, navigation compasses, lenses for telescopes, satellite signal processors, signal amplifiers, printed circuits, optical inspection apparatus for detecting defects on surfaces of wafers and printed circuits, decibel meters, and vibration meters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely electric current converters, electrical connection boxes, current transformers, electrical connectors for junction boxes, electrical connectors for current converters, electronic connectors for video recorders, high-frequency switching power supplies, electrical connection boxes, circuit breakers and circuit closers, electronic circuits, integrated circuits, electronic conductors for integrated circuits, connectors for electronic circuits, and cut-off switches; decoders, namely television set-top boxes; electronic apparatus for data processing, namely computers, electronic tablets, printers, computer screens, demodulators, computer servers and network servers; teaching apparatus and instruments, namely video projectors, sound projectors and interactive electronic whiteboards; apparatus and instruments for recording, transmission, reproduction, storage, encryption, decryption, transformation and processing of sound and images, namely speakers, magnetic tape recorders, video players and recorders, personal digital recorders, high-definition personal digital recorders, earphones and headphones, microphones, television converters, transceivers, video transmitters, television transmitters, radios, projection screens, touch screens, video screens and video display terminals; communication and telecommunication apparatus, namely smart phones; audiovisual, telecommunication and telematic apparatus and instruments, namely hard drives and CD and DVD recorders; televisions, remote controls, namely remote controls for televisions and remote controls for sound systems; tape recorders; video tape recorders and cameras; radio apparatus, personal stereos; projection apparatus, namely projectors; radio and television aerials, satellite dishes; enclosures, namely loudspeaker enclosures and home theatre surround sound systems, amplifiers, namely audio amplifiers and stereo amplifiers; computers; computer keyboards, modems and magnetic card decoders; apparatus for accessing and controlling access

to data processing apparatus, namely computer software for controlling and managing access server applications; authentication apparatus for telecommunications networks, namely digital terminals equipped with software for recognizing and authenticating signatures and verifying the identity of subscribers to televisual broadcasting content, namely series, films, documentaries and television programs; signal scrambling, descrambling and retransmission apparatus, namely signal amplifiers, digital signal processors, satellite signal processors and digital voice signal processors; digital terminals for televisions; video films, namely DVDs containing movie recordings; CD-ROMs, namely CD-ROMs containing music, videos and computer games, recording discs, digital versatile discs (DVDs), namely pre-recorded DVDs containing music and film recordings, video and audio discs, digital discs and video tapes, blank or pre-recorded with audio and video content, namely music, feature films, television programs, documentaries and musical performances; players for CD-ROMs, digital versatile discs, magnetic discs, video and audio discs, digital discs and recording discs; video game cartridges; video game software, namely computer software for playing video games; magnetic recording media, namely magnetic tapes, blank or pre-recorded with information in the fields of multimedia, film, television, sports and finance, magnetic discs, blank or pre-recorded with information in the fields of multimedia, film, television, sports and finance, encoded magnetic cards, and blank smart cards; card readers, namely smart card readers, credit card readers, electronic card readers, magnetically encoded card readers and flash memory card readers; monitors for receiving data over a global computer network, namely liquid crystal display (LCD) monitors, computer monitors and digital signage monitors; mechanisms for prepayment apparatus, namely smart card readers and smart personal identification cards; calculating machines, namely calculators and information processing apparatus, namely data processing hardware; satellites for scientific purposes and telecommunications satellites, namely global positioning system (GPS) satellites; optical goods, namely eyeglasses and eyewear, namely 3D glasses, diving goggles, ski goggles, sunglasses, sports glasses and eyeglass frames; memory cards, namely RAM (random access memory) cards and memory cards for cameras; electronic guides for television and radio programs, namely for selecting and providing information about television and radio programs accessible via satellite transmission; apparatus and instruments for programming and selecting television programs, namely television remote controls and multifunction keyboards; interactive television apparatus and instruments, namely televisions, television screens and television remote controls; recorded program software, namely recorded software for interactive telecommunication in the fields of television, film, shows, sports and music, for broadcasting television programs, feature films, music concerts and sporting events; fibre optic cables and optical cables; electric batteries and cells.

Class 16

(2) Tickets, namely sporting event tickets and tickets for live entertainment; catalogues, newspapers, periodicals, magazines, journals, books, manuals (paper), albums and brochures; artists' supplies, namely artists' palettes, artists' pastels, drawing pads, sketchbooks and pencils for painting and drawing; paintbrushes; typewriters and office supplies, except furniture, namely staples for the office, electric staplers for the office, glue for the office, elastic bands for the office, document folders, expanding files and office perforators; instructional and teaching materials, except apparatus, namely chalk and blackboards, workbooks and books; non-magnetically encoded membership cards, namely membership cards; non-magnetically encoded credit cards, namely gift cards; printers' type; pens and writing instruments; business cards; letter trays; paper napkins and table linen, toilet paper; paper handkerchiefs; cardboard and paper boxes.

SERVICES

Class 35

(1) Business advice; professional assistance and consulting for organizing and managing the business of industrial and commercial enterprises; business information and consulting; business consulting (for consumers) in the nature of consumer information related to choosing computer and telecommunications equipment; advertising, namely of the goods and services of others via electronic media, namely the Internet; rental of advertising space; dissemination of advertisements for others; organization of promotional and advertising campaigns to foster client loyalty, namely promotion of the sale of goods and services through a consumer loyalty program; drafting of advertising mail, namely development of advertising campaigns for others; dissemination of advertising material for others, namely tracts, flyers, printed matter, namely catalogues and pamphlets, and samples; subscriptions to audiovisual, audio and radio programs, namely subscriptions to webcasts and radio programs; subscriptions to videograms and phonographic recordings as well as to all audiovisual and audio media, namely subscription to a television channel; subscriptions to all media featuring information, texts, sounds, namely music, and still and animated images, namely in the form of electronic or non-electronic publications, digital publications and multimedia products, namely newspaper subscription services for others and subscription services to the electronic publications of others; subscriptions to a television channel; subscriptions to telephone and computer services, namely the Internet; consulting related to Internet data entry, namely database management services; publication of advertising copy; radio and television advertising, namely dissemination of advertisements for others via radio and television; interactive advertising, namely advertising of the goods and services of others online on a computer network and on the Internet; business management; business administration; office functions, namely secretarial services; online advertising on a computer network, namely dissemination of online advertising for others on electronic communications networks; business information and data, namely consulting and information concerning business management; business research, namely conduct of business and market research surveys for others; assistance in the management of commercial and industrial businesses; employment agency; business and industrial appraisals; accounting; document reproduction; computer file management; database management services; data processing and entry services in the nature of data entry, collection and systematization; organization of exhibitions for commercial and advertising purposes aimed at presenting, promoting, selling and distributing the goods and services of others in the fields of audiovisual media, television, film, multimedia and computers; sales promotion for others; market research; auctioneering; sales promotion for others, namely telepromotion with sales offer; administrative management of exhibition facilities for commercial and advertising purposes; public relations; rental of advertising time on all means of communication, namely the Internet; retail and wholesale of articles of clothing, leatherwork, jewellery, pens, stationery, games, toys and playthings, and sporting articles; retail and wholesale of audiovisual, computer and telecommunication goods in the nature of video tapes, televisions, video tape recorders, personal stereos, tape recorders, radios, high-fidelity (hi-fi) equipment, decoders, portable telephones, computers, tapes, namely magnetic tapes, computer disc changers, printed circuits, integrated circuits, computer keyboards, audio/video compact discs, optical compact discs, computer couplers, floppy discs, magnetic data carriers, video screens, scanners, computer printers, computer interfaces and computer drives; recorded programs, namely computer software, microprocessors, modems, hardware, namely monitors, computer programs, computer memory, computer peripherals, recorded computer programs, central processing units, namely processors, recorded operating system programs for computers, integrated circuits, namely computer chips, retail of radio and television antennas as well as satellite dishes; press review services.

Class 38

(2) Telecommunications services, namely communication services via computer terminals and fibre optics, namely electronic mail services; communication services via computer terminals and fibre optic networks, namely telephone services offered by means of fibre optic cables; dissemination of telecommunications information regarding the subscription of others to telematic services on the Internet, telephone services and computer services; press and information agencies, namely news agencies; radio, telegraphic, telephone and videophonic communications, namely local and long distance telephone services, telephone services offered by means of fibre optic cables, telephone lines, radio and microwave transmission, and satellite, transmission of messages via videophones, television communications, namely broadcasting of television programs, communications via portable music players and personal video players, namely music and news podcasting services, communications via videophone, videotex and videotelephony; television broadcasting; information transmission services in the fields of television broadcasting and radio broadcasting via telematic means, namely transmission of text messages, music, still and animated images, and documents via computers, facsimile machines and telephones; transmission of text messages, still and animated images and sounds, namely electronic mail services, text messaging services, voice mail services, and image, video and dispatch transmission services, namely video-on-demand transmission services; transmission of information via teletypewriter; remote transmission services, namely video-on-demand transmission services; television programs, radio programs; broadcasting of programs via satellite, cable, and computer networks, in particular via the Internet, radio networks, radiotelephone networks and over the air; dissemination of audio, audiovisual, cinematographic and multimedia programs, still and animated images and texts, musical and non-musical sounds and ringtones for interactive or non-interactive use, namely radio broadcasting of radio programs, broadcasting of television programs via cable television, dissemination of motion pictures, musical shows and ringtones; telecommunications, namely electronic display services, namely advertising for others through electronic display panels; rental of telecommunication apparatus, namely rental of telephones and television set-top boxes; rental of telematic apparatus and instruments in the nature of telephones, facsimile machines, message transmission apparatus, namely computers, smart phones, electronic tablets and modems; rental of antennas and parabolic antennas, namely satellite dishes, radio and television aerials and microwave antennas; rental of access devices, namely apparatus for accessing interactive audiovisual programs, namely televisions and video players and recorders; rental of access time to telecommunication networks, namely rental of access time to global computer networks; access services for downloading video games and digital data; electronic communications, namely transmission of text messages, documents, sounds and still and animated images over an open global computer network, namely the Internet, and over a closed global computer network, namely an intranet, namely electronic mail services; services for downloading movies and other audio and audiovisual programs online, namely online sale of downloadable motion pictures, radio and television programs, music videos and musical shows via a global computer communications network, namely the Internet; transmission of programs and selection of television channels, namely provision of non-downloadable television programs via video-on-demand services; computer network access services; provision of connections to telecommunication services, Internet services and databases; telecommunications routing and junction services for the benefit of others, namely connection services enabling access to the Internet; telecommunication connection services to a computer network, namely telecommunication connections to a global computer network via the Internet, telephone, satellite, email, file transfer protocol (FTP) and peer-to-peer network (P2P); consulting related to telecommunications in the fields of video-on-demand transmission services, television broadcasting and radio broadcasting; professional consulting related to telephony; consulting related to the broadcasting of video programs, namely in relation to the broadcasting of television

programs; consulting related to the transmission of data via the Internet; consulting related to the provision of access to the Internet; transmission and reception of video images over the Internet via computers and mobile telephones, namely provision of online chat rooms for the transmission of messages, comments and multimedia content among users; direct mail advertising via telecommunications, namely direct mail advertising of the goods and services of others through electronic mail; local and long distance telephone services; cellular telephone services; mobile radiotelephony; radiopaging; voice mail and call forwarding, namely call recording services, electronic mail; video conferencing services; Internet video messaging services; videotelephony services, namely video conferencing services; telecommunication services, namely automatic answering machine services; Internet service providers, namely provision of Internet access; electronic mail services, instant electronic messaging services and non-instant electronic messaging services, namely text messaging services, provision of Internet chat lines, and email forwarding services; information transmission services via Internet, extranet and intranet networks; information transmission services via secure messaging systems; provision of access to electronic conferences and discussion forums; provision of access to websites (on the Internet) featuring digital music and all types of audiovisual works, namely orchestra performances, musicals, opera performances, television programs, motion pictures and video clips; provision of access to telecommunication infrastructures, namely telecommunications routing and junction services, namely bundled telecommunications services enabling the use of cellular telephones, voice mail, and call forwarding between wired and wireless services; provision of access to Internet search engines; dissemination of electronic publications, namely magazines, brochures, newsletters and books, in the fields of television broadcasting, radio broadcasting, audiovisual media and film online by means of the Internet, namely email transmission services.

Class 41

(3) Education and training, namely organization and conduct of training workshops, conferences, conventions and seminars in the fields of television broadcasting and radio broadcasting; entertainment consisting of appearances by sports or cultural celebrities, beauty pageants, automobile races, fashion shows, baseball, basketball and football games, and live music group performances; radio and television entertainment, namely broadcasting of radio and television programs on all media, namely televisions, computers, portable music players, personal video players, personal digital assistants, mobile telephones, and computer networks, namely the Internet; recreational services, namely operation of a recreational ski centre and operation of recreational swimming pools; cultural activities, namely music concerts, cultural festivals, plays and wine festivals; production of shows, namely ballet performances, magic shows, dance performances, musical shows, variety shows and comedy shows, of films, television films, television programs, news reports and debates, of videograms and phonographic recordings; rental of videograms, films, phonographic recordings and video tapes; rental of motion pictures; rental of film projection apparatus and all audiovisual apparatus and instruments, namely television set-top boxes, radio and television sets, audio and video apparatus, namely CD and DVD players, cameras, personal stereos, personal video players, and theatre sets; production of audiovisual programs, namely television shows, radio programs, namely radio shows, and multimedia programs, namely video games and news webcasts; movie studio; organization of competitions, namely organization of lotteries, organization of beauty pageants, spelling bees and math competitions, organization of shows, namely dance performances, performances by a music group and orchestra performances, organization of games related to education, namely organization of games and organization of trivia games about art, culture, films and television programs, organization of games related to entertainment, namely organization of baseball games and organization of football games; editing of audiovisual and multimedia programs, namely post-

production editing services in the fields of music, videos and film; organization of exhibitions, namely art exhibitions, exhibitions of 3D images and exhibitions of interactive multimedia computer games, of conferences and seminars for cultural and educational purposes in the fields of television broadcasting, radio broadcasting, audiovisual media and film; seat reservations for performances; reporter services; photographic services, namely photography and photographic reporting; filming, namely recording on video tape; consulting related to video program production, namely for the production of television shows and the production of motion picture films; online gaming services provided via a communications network, gambling services; games, namely casino services; editing and publication of texts other than advertising copy, namely in the fields of television broadcasting, radio broadcasting, audiovisual media and film, audio, video and multimedia data carriers, namely publishing of interactive discs, compact discs, storage discs for audio and video, namely for sound and for still and animated images; online electronic publishing of books and periodicals; publishing and lending of books and texts other than advertising copy, namely texts in the fields of television broadcasting, radio broadcasting, audiovisual media and film; operation of movie theatres; desktop publishing services; rental of television decoders and encoders.

Goods

Class 09

(1) Scientific (other than for medical use), nautical, surveying, photographic, cinematographic, optical, electro-optical, weighing, measuring, signalling, checking, supervision and life-saving apparatus and instruments, namely cameras, camera adapters, cinematographic cameras, television cameras, digital cameras, range finders for cameras, camera lenses, movie projectors, projection screens, camcorders, photometers, binoculars, magnifying glasses, optical amplifiers, optical sensors and switches, optical character readers, optical multiplexers, optical shutters, navigation compasses, lenses for telescopes, satellite signal processors, signal amplifiers, printed circuits, optical inspection apparatus for detecting defects on surfaces of wafers and printed circuits, decibel meters, and vibration meters; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely electric current converters, electrical connection boxes, current transformers, electrical connectors for junction boxes, electrical connectors for current converters, electronic connectors for video recorders, high-frequency switching power supplies, electrical connection boxes, circuit breakers and circuit closers, electronic circuits, integrated circuits, electronic conductors for integrated circuits, connectors for electronic circuits, and cut-off switches; decoders, namely television set-top boxes; electronic apparatus for data processing, namely computers, electronic tablets, printers, computer screens, demodulators, computer servers and network servers; teaching apparatus and instruments, namely video projectors, sound projectors and interactive electronic whiteboards; apparatus and instruments for recording, transmission, reproduction, storage, encryption, decryption, transformation and processing of sound and images, namely speakers, magnetic tape recorders, video players and recorders, personal digital recorders, high-definition personal digital recorders, earphones and headphones, microphones, television converters, transceivers, video transmitters, television transmitters, radios, projection screens, touch screens, video screens and video display terminals; communication and telecommunication apparatus, namely smart phones; audiovisual, telecommunication and telematic apparatus and instruments, namely hard drives and CD and DVD recorders; televisions, remote controls, namely remote controls for televisions and remote controls for sound systems; tape recorders; video tape recorders and cameras; radio apparatus, personal stereos; projection apparatus, namely projectors; radio and television aerials, satellite dishes; enclosures, namely loudspeaker enclosures and home theatre surround sound systems, amplifiers, namely audio amplifiers and stereo amplifiers; computers; computer keyboards, modems and magnetic card decoders; apparatus for accessing and controlling access

to data processing apparatus, namely computer software for controlling and managing access server applications; authentication apparatus for telecommunications networks, namely digital terminals equipped with software for recognizing and authenticating signatures and verifying the identity of subscribers to televisual broadcasting content, namely series, films, documentaries and television programs; signal scrambling, descrambling and retransmission apparatus, namely signal amplifiers, digital signal processors, satellite signal processors and digital voice signal processors; digital terminals for televisions; video films, namely DVDs containing movie recordings; CD-ROMs, namely CD-ROMs containing music, videos and computer games, recording discs, digital versatile discs (DVDs), namely pre-recorded DVDs containing music and film recordings, video and audio discs, digital discs and video tapes, blank or pre-recorded with audio and video content, namely music, feature films, television programs, documentaries and musical performances; players for CD-ROMs, digital versatile discs, magnetic discs, video and audio discs, digital discs and recording discs; video game cartridges; video game software, namely computer software for playing video games; magnetic recording media, namely magnetic tapes, blank or pre-recorded with information in the fields of multimedia, film, television, sports and finance, magnetic discs, blank or pre-recorded with information in the fields of multimedia, film, television, sports and finance, encoded magnetic cards, and blank smart cards; card readers, namely smart card readers, credit card readers, electronic card readers, magnetically encoded card readers and flash memory card readers; monitors for receiving data over a global computer network, namely liquid crystal display (LCD) monitors, computer monitors and digital signage monitors; mechanisms for prepayment apparatus, namely smart card readers and smart personal identification cards; calculating machines, namely calculators and information processing apparatus, namely data processing hardware; satellites for scientific purposes and telecommunications satellites, namely global positioning system (GPS) satellites; optical goods, namely eyeglasses and eyewear, namely 3D glasses, diving goggles, ski goggles, sunglasses, sports glasses and eyeglass frames; memory cards, namely RAM (random access memory) cards and memory cards for cameras; electronic guides for television and radio programs, namely for selecting and providing information about television and radio programs accessible via satellite transmission; apparatus and instruments for programming and selecting television programs, namely television remote controls and multifunction keyboards; interactive television apparatus and instruments, namely televisions, television screens and television remote controls; recorded program software, namely recorded software for interactive telecommunication in the fields of television, film, shows, sports and music, for broadcasting television programs, feature films, music concerts and sporting events; fibre optic cables and optical cables; electric batteries and cells.

Class 16

(2) Tickets, namely sporting event tickets and tickets for live entertainment; catalogues, newspapers, periodicals, magazines, journals, books, manuals (paper), albums and brochures; artists' supplies, namely artists' palettes, artists' pastels, drawing pads, sketchbooks and pencils for painting and drawing; paintbrushes; typewriters and office supplies, except furniture, namely staples for the office, electric staplers for the office, glue for the office, elastic bands for the office, document folders, expanding files and office perforators; instructional and teaching materials, except apparatus, namely chalk and blackboards, workbooks and books; non-magnetically encoded membership cards, namely membership cards; non-magnetically encoded credit cards, namely gift cards; printers' type; pens and writing instruments; business cards; letter trays; paper napkins and table linen, toilet paper; paper handkerchiefs; cardboard and paper boxes.

SERVICES

Class 35

(1) Business advice; professional assistance and consulting for organizing and managing the business of industrial and commercial enterprises; business information and consulting; business consulting (for consumers) in the nature of consumer information related to choosing computer and telecommunications equipment; advertising, namely of the goods and services of others via electronic media, namely the Internet; rental of advertising space; dissemination of advertisements for others; organization of promotional and advertising campaigns to foster client loyalty, namely promotion of the sale of goods and services through a consumer loyalty program; drafting of advertising mail, namely development of advertising campaigns for others; dissemination of advertising material for others, namely tracts, flyers, printed matter, namely catalogues and pamphlets, and samples; subscriptions to audiovisual, audio and radio programs, namely subscriptions to webcasts and radio programs; subscriptions to videograms and phonographic recordings as well as to all audiovisual and audio media, namely subscription to a television channel; subscriptions to all media featuring information, texts, sounds, namely music, and still and animated images, namely in the form of electronic or non-electronic publications, digital publications and multimedia products, namely newspaper subscription services for others and subscription services to the electronic publications of others; subscriptions to a television channel; subscriptions to telephone and computer services, namely the Internet; consulting related to Internet data entry, namely database management services; publication of advertising copy; radio and television advertising, namely dissemination of advertisements for others via radio and television; interactive advertising, namely advertising of the goods and services of others online on a computer network and on the Internet; business management; business administration; office functions, namely secretarial services; online advertising on a computer network, namely dissemination of online advertising for others on electronic communications networks; business information and data, namely consulting and information concerning business management; business research, namely conduct of business and market research surveys for others; assistance in the management of commercial and industrial businesses; employment agency; business and industrial appraisals; accounting; document reproduction; computer file management; database management services; data processing and entry services in the nature of data entry, collection and systematization; organization of exhibitions for commercial and advertising purposes aimed at presenting, promoting, selling and distributing the goods and services of others in the fields of audiovisual media, television, film, multimedia and computers; sales promotion for others; market research; auctioneering; sales promotion for others, namely telepromotion with sales offer; administrative management of exhibition facilities for commercial and advertising purposes; public relations; rental of advertising time on all means of communication, namely the Internet; retail and wholesale of articles of clothing, leatherwork, jewellery, pens, stationery, games, toys and playthings, and sporting articles; retail and wholesale of audiovisual, computer and telecommunication goods in the nature of video tapes, televisions, video tape recorders, personal stereos, tape recorders, radios, high-fidelity (hi-fi) equipment, decoders, portable telephones, computers, tapes, namely magnetic tapes, computer disc changers, printed circuits, integrated circuits, computer keyboards, audio/video compact discs, optical compact discs, computer couplers, floppy discs, magnetic data carriers, video screens, scanners, computer printers, computer interfaces and computer drives; recorded programs, namely computer software, microprocessors, modems, hardware, namely monitors, computer programs, computer memory, computer peripherals, recorded computer programs, central processing units, namely processors, recorded operating system programs for computers, integrated circuits, namely computer chips, retail of radio and television antennas as well as satellite dishes; press review services.

Class 38

(2) Telecommunications services, namely communication services via computer terminals and fibre optics, namely electronic mail services; communication services via computer terminals and fibre optic networks, namely telephone services offered by means of fibre optic cables; dissemination of telecommunications information regarding the subscription of others to telematic services on the Internet, telephone services and computer services; press and information agencies, namely news agencies; radio, telegraphic, telephone and videophonic communications, namely local and long distance telephone services, telephone services offered by means of fibre optic cables, telephone lines, radio and microwave transmission, and satellite, transmission of messages via videophones, television communications, namely broadcasting of television programs, communications via portable music players and personal video players, namely music and news podcasting services, communications via videophone, videotex and videotelephony; television broadcasting; information transmission services in the fields of television broadcasting and radio broadcasting via telematic means, namely transmission of text messages, music, still and animated images, and documents via computers, facsimile machines and telephones; transmission of text messages, still and animated images and sounds, namely electronic mail services, text messaging services, voice mail services, and image, video and dispatch transmission services, namely video-on-demand transmission services; transmission of information via teletypewriter; remote transmission services, namely video-on-demand transmission services; television programs, radio programs; broadcasting of programs via satellite, cable, and computer networks, in particular via the Internet, radio networks, radiotelephone networks and over the air; dissemination of audio, audiovisual, cinematographic and multimedia programs, still and animated images and texts, musical and non-musical sounds and ringtones for interactive or non-interactive use, namely radio broadcasting of radio programs, broadcasting of television programs via cable television, dissemination of motion pictures, musical shows and ringtones; telecommunications, namely electronic display services, namely advertising for others through electronic display panels; rental of telecommunication apparatus, namely rental of telephones and television set-top boxes; rental of telematic apparatus and instruments in the nature of telephones, facsimile machines, message transmission apparatus, namely computers, smart phones, electronic tablets and modems; rental of antennas and parabolic antennas, namely satellite dishes, radio and television aerials and microwave antennas; rental of access devices, namely apparatus for accessing interactive audiovisual programs, namely televisions and video players and recorders; rental of access time to telecommunication networks, namely rental of access time to global computer networks; access services for downloading video games and digital data; electronic communications, namely transmission of text messages, documents, sounds and still and animated images over an open global computer network, namely the Internet, and over a closed global computer network, namely an intranet, namely electronic mail services; services for downloading movies and other audio and audiovisual programs online, namely online sale of downloadable motion pictures, radio and television programs, music videos and musical shows via a global computer communications network, namely the Internet; transmission of programs and selection of television channels, namely provision of non-downloadable television programs via video-on-demand services; computer network access services; provision of connections to telecommunication services, Internet services and databases; telecommunications routing and junction services for the benefit of others, namely connection services enabling access to the Internet; telecommunication connection services to a computer network, namely telecommunication connections to a global computer network via the Internet, telephone, satellite, email, file transfer protocol (FTP) and peer-to-peer network (P2P); consulting related to telecommunications in the fields of video-on-demand transmission services, television broadcasting and radio broadcasting; professional consulting related to telephony; consulting related to the broadcasting of video programs, namely in relation to the broadcasting of television

programs; consulting related to the transmission of data via the Internet; consulting related to the provision of access to the Internet; transmission and reception of video images over the Internet via computers and mobile telephones, namely provision of online chat rooms for the transmission of messages, comments and multimedia content among users; direct mail advertising via telecommunications, namely direct mail advertising of the goods and services of others through electronic mail; local and long distance telephone services; cellular telephone services; mobile radiotelephony; radiopaging; voice mail and call forwarding, namely call recording services, electronic mail; video conferencing services; Internet video messaging services; videotelephony services, namely video conferencing services; telecommunication services, namely automatic answering machine services; Internet service providers, namely provision of Internet access; electronic mail services, instant electronic messaging services and non-instant electronic messaging services, namely text messaging services, provision of Internet chat lines, and email forwarding services; information transmission services via Internet, extranet and intranet networks; information transmission services via secure messaging systems; provision of access to electronic conferences and discussion forums; provision of access to websites (on the Internet) featuring digital music and all types of audiovisual works, namely orchestra performances, musicals, opera performances, television programs, motion pictures and video clips; provision of access to telecommunication infrastructures, namely telecommunications routing and junction services, namely bundled telecommunications services enabling the use of cellular telephones, voice mail, and call forwarding between wired and wireless services; provision of access to Internet search engines; dissemination of electronic publications, namely magazines, brochures, newsletters and books, in the fields of television broadcasting, radio broadcasting, audiovisual media and film online by means of the Internet, namely email transmission services.

Class 41

(3) Education and training, namely organization and conduct of training workshops, conferences, conventions and seminars in the fields of television broadcasting and radio broadcasting; entertainment consisting of appearances by sports or cultural celebrities, beauty pageants, automobile races, fashion shows, baseball, basketball and football games, and live music group performances; radio and television entertainment, namely broadcasting of radio and television programs on all media, namely televisions, computers, portable music players, personal video players, personal digital assistants, mobile telephones, and computer networks, namely the Internet; recreational services, namely operation of a recreational ski centre and operation of recreational swimming pools; cultural activities, namely music concerts, cultural festivals, plays and wine festivals; production of shows, namely ballet performances, magic shows, dance performances, musical shows, variety shows and comedy shows, of films, television films, television programs, news reports and debates, of videograms and phonographic recordings; rental of videograms, films, phonographic recordings and video tapes; rental of motion pictures; rental of film projection apparatus and all audiovisual apparatus and instruments, namely television set-top boxes, radio and television sets, audio and video apparatus, namely CD and DVD players, cameras, personal stereos, personal video players, and theatre sets; production of audiovisual programs, namely television shows, radio programs, namely radio shows, and multimedia programs, namely video games and news webcasts; movie studio; organization of competitions, namely organization of lotteries, organization of beauty pageants, spelling bees and math competitions, organization of shows, namely dance performances, performances by a music group and orchestra performances, organization of games related to education, namely organization of games and organization of trivia games about art, culture, films and television programs, organization of games related to entertainment, namely organization of baseball games and organization of football games; editing of audiovisual and multimedia programs, namely post-

production editing services in the fields of music, videos and film; organization of exhibitions, namely art exhibitions, exhibitions of 3D images and exhibitions of interactive multimedia computer games, of conferences and seminars for cultural and educational purposes in the fields of television broadcasting, radio broadcasting, audiovisual media and film; seat reservations for performances; reporter services; photographic services, namely photography and photographic reporting; filming, namely recording on video tape; consulting related to video program production, namely for the production of television shows and the production of motion picture films; online gaming services provided via a communications network, gambling services; games, namely casino services; editing and publication of texts other than advertising copy, namely in the fields of television broadcasting, radio broadcasting, audiovisual media and film, audio, video and multimedia data carriers, namely publishing of interactive discs, compact discs, storage discs for audio and video, namely for sound and for still and animated images; online electronic publishing of books and periodicals; publishing and lending of books and texts other than advertising copy, namely texts in the fields of television broadcasting, radio broadcasting, audiovisual media and film; operation of movie theatres; desktop publishing services; rental of television decoders and encoders.

Certification Mark Text

The certification mark, when affixed to the goods, shall indicate to the purchaser that the goods have met the standards set by Canada Pork International (CPI) for its Verified Canadian Pork (VCP) Program. Participants in the VCP Program are required to enter into a royalty-free licensing agreement with CPI. The goods consist of pork or processed pork products. In order for the certification mark to be affixed to the goods, they must meet the following defined standard: (1)

The goods are sourced from Canadian producers and processors of hogs, pork and/or pork products approved by CPI as complying with its prescribed standards for the VCP Program with respect to, but not limited to, food safety, animal care/welfare and traceability. These approved Canadian producers and processors comprise the list of 'Approved Canadian Suppliers' maintained and amended from time-to-time by CPI. The details of the prescribed standards for the VCP Program and the list of 'Approved Canadian Suppliers' are accessible to the public at the applicant's web site located at www.verifiedcanadianpork.com. (2) Approved Canadian Suppliers follow the nationally accredited on-farm programs: CANADIAN QUALITY ASSURANCE (CQA), which is Canada's on-farm quality and safety assurance system promoting best-management practices for animal care and food safety to ensure some of the best quality and among the safest pork in the world. The details of the prescribed standards for the CQA program are accessible to the public at the web site of the Canadian Pork Council located at www.cpc-ccp.com. (3) The goods are inspected and approved by the Canadian Food Inspection Agency (CFIA) of the Government of Canada through participating Federally inspected pork processing facilities. The CFIA verifies that meat products leaving federally-inspected establishments are safe and wholesome. The CFIA's regulatory guidance documents provide the information required to comply with applicable Federal acts and regulations and are accessible to the public at the CFIA web site located at www.inspection.gc.ca.

Disclaimer

The applicant disclaims the right to the exclusive use of the 11-point maple leaf

PALDO BUL NAK FUN & YUM BUL NAK BOKKEUM MYEON P D

Image Description (Vienna)

- Drops
- Letters presenting a special form of writing
- Letters crossed or barred by letters, numerals or a figurative element
- Two lines or bands
- Curved lines or bands (except a 26.11.13)
- Inscriptions in Chinese, Japanese or Korean characters
- White, grey, silver
- Black
- Red, pink, orange
- Green

Colour Claim

Colour is claimed as a feature of the trademark. The word PALDO is white with a black outline and has a red shape under the P and a green shape at the top of the D. The words FUN & YUM are black. The leftmost large Korean character is red with a white spot outlined by yellow at the top left, and has a black shadow and a white outline with a gray shadow. The rightmost large Korean character is red with a black shadow and a white outline with a gray shadow. The three small Korean characters are white with a gray shadow. The words BUL NAK are red.

Foreign Character Translation

As provided by the applicant, the English translation of "BUL NAK" is 'hot spicy octopus' and 'BOKKEUM MYEON' is 'fried noodles'.

Foreign Character Transliteration

As provided by applicant, the transliteration of the Korean characters is 'BUL NAK' and 'BOKKEUM MYEON'.

V PORTES ET FENÊTRES VERDUN

Image Description (Vienna)

- Measures -- Note: Not including time-measuring instruments, classified in 17.1, or balances and weights, classified in 17.3.
- Instruments for linear measurement (yardsticks, graduated rulers, tape measures, surveyors' tapes and chains)
- Letters or numerals representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object
- Letters or numerals representing an object
- Backgrounds divided into two, vertically
- Rectangles
- One quadrilateral
- Quadrilaterals containing one or more letters
- Quadrilaterals with dark surfaces or parts of surfaces
- Yellow, gold
- Blue
- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trademark. The colours yellow, blue and white are claimed as features of the trademark. The mark consists of a blue square inside which appears the letter V, made up of a strip folding upon itself (to create the letter V), the front of which is yellow with blue lines that recall the lines on a measuring tape, and the back of which is white. To the right of the square is a yellow rectangle inside which are the words PORTES ET FENÊTRES VERDUN in blue.

SERVICES
