Trade-marks Journal

2019-03-27 — Vol. 66 No. 3361

Trade-marks Journal

Vol. 66 No. 3361

General Information

The *Trade-marks Journal* is published every week in compliance with [Rule 15 of the Trade-marks Regulations](#). The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (<http://cipo.gc.ca>). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see [section 38 of the *Trade-marks Act*](#) for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Class 38

(3) Communication services, namely, facilitating transmitting, receiving, streaming, and broadcasting, text messages, digital images, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, movies, television shows, video games, videos and graphics via global computer networks to users of e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices, namely digital format audio and video players, electronic personal organizers, personal digital assistants, tablets, computers, TVs, TV

receivers, computer game machines, and of global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; streaming of audio, visual and audiovisual material, namely music, movies, television shows, music videos, news and sports webcasts for others via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet; online chat rooms and online communities for the transmission of messages among computer users featuring subject matter on a wide range of topics of general interest, as selected by users; providing access to online directories, databases, current events websites and blogs, and on-line reference materials featuring subject matter on a wide range of topics of general interest, as selected by users; providing access to electronic devices in the nature of providing access to the Internet and wireless networks for the transfer of digital still images and moving pictures, text messages, music, audio books, digital recordings of natural soundscapes, digital recordings of live events, spoken word recitations, movies, television shows, video games, videos and graphics, amongst users of e-readers, mobile phones, smart phones, portable electronic devices and portable digital devices, namely digital format audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices, tablets, computers, TVs, TV receivers, and computer game machines, all via Ethernet, global and local computer networks, cellular networks, satellite networks, WIFI networks, and the Internet; providing online chat rooms, internet forums and online communities for the transmission of photos, videos, text, graphics, and digital still images and moving pictures; transmission of podcasts via the Internet in the field education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; transmission of webcasts via the Internet in the field of education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows; Internet and wireless broadcasting services of audio and video programming on a variety of topics in the fields of education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, and fashion shows;

Class 39

- (4) Storage of electronic media, namely, images, text, video, and audio data;
- (5) Electronic storage of electronic media, namely, images and text data;

Class 41

- (6) Entertainment services, namely, providing temporary use of non-downloadable video games, music, videos, TV, photographs, and movies to users of computers, televisions (TVs), TV receivers, computer game machines, and portable electronic devices via wired and wireless networks; education and entertainment services, namely, providing on-line portals and a website

featuring online non-downloadable content in the field of education and entertainment, namely, movies, television shows, audiovisual works, music, audio works, books, theatrical works, literary works, sporting events, recreational activities, leisure activities in the nature of hobbies, tournaments, art, dance, musicals, culture, sporting and current event exhibitions, sports instruction, clubs, radio programs, comedy, drama, contests, visual works of art, games, gaming, festivals, museums, parks, cultural events, concerts, desktop publishing, animation, current events, fashion shows, and multimedia presentations; providing information, news and commentary in the field of current events topics of general interest;

Class 42

(7) Cloud computing video hosting web sites; cloud computing web hosting services; Application service provider (ASP), namely, online hosting of computer software applications of others; online hosting of third party content, namely photos, videos, text, data, images, and web sites; online hosting of digital content on global computer networks, wireless networks, and electronic communications networks; providing temporary use of on-line non-downloadable software for mobile content delivery, for image recognition, and for real-time user interaction with digital content on holographic displays and screens; Software as a Service (SaaS) namely software for use in connection with audio, video and digital content, namely software for social networking, customer relationship management (CRM), personal information management, personal data management, electronic mail and messaging, facilitating e-commerce transactions, character recognition, telephony management, development of computer software applications, playing electronic games, book and desktop publishing, and enabling content, namely text messages, music, audio books, natural soundscapes, recordings of live events, spoken word recitations, literary works, graphics, files, documents and electronic works to be downloaded to and accessed on a computer and other portable consumer electronic device, namely smart phones, tablet computers, electronic book readers, audio and video players, electronic personal organizers, personal digital assistants, and global positioning system electronics navigation devices consisting of computers, computer software, transmitters, receivers and network interface devices; providing a website and portal that gives computer users the ability to transmit, cache, receive, download, stream, broadcast, display, format, transfer and share their own content, namely text, visual works, audio works, audiovisual works, literary works, graphics, files, documents and electronic works; providing temporary use of on-line non-downloadable software featuring on-line network services that enable users to access, publish, and share text, visual works, audio works, audiovisual works, literary works, graphics, files, documents and electronic works; computer services, namely, creating an on-line community featuring technology that enables users to communicate and interact with others, participate in discussions, and share their own content, namely photos, videos, text, graphics, digital still images and moving pictures, and other electronic works, namely publications, periodicals, books, magazines, newsletters, brochures, booklets, pamphlets, manuals, journals and catalogues, and to engage in social networking; creating an online community for users to participate in discussions, obtain feedback, and form virtual communities; maintenance and updating of software and hardware in the field of computer, Internet and password security; design and development of computer software; computer software installation and maintenance; computer software, application, and network consulting services; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; providing a website featuring technical information in the field of computer software and hardware; computer hardware, software, application, and network consulting services; computer consulting in the field of configuration management for portable and handheld electronic devices; technical support in the nature of troubleshooting, namely, diagnosing computer hardware and software problems; and computer programming;

Class 45

(8) Introduction, personal relationship, and social networking services; on-line social networking services, namely, facilitating social introductions or interactions among individuals; on-line social networking services designed for people with a common desire to meet other people with similar interests; monitoring of data and computer systems and networks for others for security purposes; providing on-line computer databases and on-line searchable databases in the field of social networking; providing an online social networking website for entertainment purposes; providing searchable databases in the field of social networking; computer services, namely, enabling access to social networking services in the field of consumer products, reviews and ratings.

CLAIMS

Priority Filing Date: UNITED STATES OF AMERICA September 18, 2014, Application No: 86399530 in association with the same kind of goods and in association with the same kind of services. Used in UNITED STATES OF AMERICA on goods (2) and on services (2), (5). Registered in or for UNITED STATES OF AMERICA on July 03, 2018 under No. 5,508,994 on goods (2) and on services (2), (5). Proposed Use in CANADA on goods (1) and on services (1), (3), (4), (6), (7), (8)

SERVICES

Class 35

(1) Providing an online searchable database featuring employment and career opportunities and business networking, employment and professional information; providing an online searchable database featuring movie, motion picture and television casting opportunities and casting and production information; providing online computer databases and online searchable databases in the fields of business and professional networking; providing online career networking services and information in the fields of employment, recruitment, job resources, and job listings; providing networking opportunities for individuals seeking employment in the field of entertainment and the entertainment industry, namely acting, directing, producing, screenwriting, and talent management; providing a website featuring on-line professional networking opportunities for users in the field of entertainment and the entertainment industry, namely acting, directing, producing, screenwriting, and talent management.

(2) Providing an online searchable database featuring employment and career opportunities and business networking, employment and professional information; providing an online searchable database featuring movie, motion picture and television talent casting employment opportunities and talent casting employment information; providing online computer databases and online searchable databases in the fields of business and professional networking; providing online career networking services and information in the fields of employment, recruitment, job resources, and job listings; providing networking opportunities for individuals seeking employment in the field of entertainment and the entertainment industry, namely acting, directing, producing, screenwriting, and talent management; providing a website featuring on-line professional networking opportunities for users in the field of entertainment and the entertainment industry, namely acting, directing, producing, screenwriting, and talent management.

Class 41

(3) Entertainment services, namely, providing reviews, news and information in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; providing an online computer database featuring reviews, news, information and content in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; movie schedule and location information services; television schedule information services; entertainment in the nature of conducting contests,

competitions and games in the field of entertainment, namely motion picture films, television programs, celebrities, documentaries, video games and music; entertainment services, namely, publishing journals and blogs featuring information and opinions in the field of entertainment, namely motion picture films, television programs, celebrities, documentaries, video games and music; providing on-line newsletters featuring reviews, news and information in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; providing a website with information in the fields of entertainment and the entertainment industry, namely motion pictures, television shows, celebrities, documentaries, video games and music; entertainment services in the nature of non-downloadable videos featuring information in the fields of entertainment and the entertainment industry, namely motion pictures, television shows, celebrities, documentaries, video games and music; providing information in the field of movies, motion pictures, documentaries, films, television programs, graphics, animation and multimedia presentations, videos and DVDs, and celebrities; providing a website that displays movie rankings; providing a website featuring a ranking system measuring popularity of celebrities and identifying trends in public perception and awareness of movie personalities; providing a website featuring entertainment trivia, in the field of movies, motion pictures, documentaries, films, television programs, graphics, animation and multimedia presentations, videos and DVDs, and celebrities; providing a web site featuring movie, motion picture and television casting and production information; entertainment services, namely, providing a website featuring a ranking system measuring popularity of celebrities and identifying trends in public perception and awareness of movie personalities.

(4) Entertainment services, namely, providing reviews, news and information in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; providing an online computer database featuring reviews, news, information and content in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; entertainment services, namely, publishing journals and blogs featuring information and opinions in the field of entertainment, namely motion picture films, television programs, celebrities, documentaries, video games and music; providing on-line newsletters featuring reviews, news and information in the field of entertainment and the entertainment industry, namely motion picture films, television programs, celebrities, documentaries, video games and music; providing a website with information in the fields of entertainment and the entertainment industry, namely motion pictures, television shows, celebrities, documentaries, video games and music; entertainment services in the nature of non-downloadable videos featuring information in the fields of entertainment and the entertainment industry, namely motion pictures, television shows, celebrities, documentaries, video games and music; providing information in the field of movies, motion pictures, documentaries, films, television programs, graphics, animation and multimedia presentations, videos and DVDs, and celebrities; providing a website that displays movie rankings; providing a website featuring a ranking system measuring popularity of celebrities and identifying trends in public perception and awareness of movie personalities; providing a website featuring entertainment trivia, in the field of movies, motion pictures, documentaries, films, television programs, graphics, animation and multimedia presentations, videos and DVDs, and celebrities; providing a web site featuring movie, motion picture and television casting and production information; entertainment services, namely, providing a website featuring a ranking system measuring popularity of celebrities and identifying trends in public perception and awareness of movie personalities.

Class 42

(5) Computer services, namely, creating an on-line community for registered users to organize groups and events, participate in discussions, share information and resources, and engage in social, business and community networking; providing a website featuring temporary use of non-downloadable software enabling users to search, locate and communicate with others via electronic communications networks to network and track online references to job opportunities and business topics; computer services in the nature of customized web pages featuring user-defined information, personal profiles, audio and images.

(6) Computer services, namely, creating an on-line community for registered users to participate in discussions, share information and resources, and engage in social, business and community networking; providing a website featuring temporary use of non-downloadable software enabling users to search, locate and communicate with others via electronic communications networks to network and track online references to job opportunities and business topics; computer services in the nature of customized web pages featuring user-defined information, personal profiles, audio and images.

Class 45

(7) Social introduction and social networking services.

(8) Internet based social introduction and social networking services.

Goods

(1) Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; software to enable uploading, creating, posting, showing, displaying, blogging, and sharing electronic media or information, namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications, over the internet and other communications networks; software and software applications to enable transmission, access, organization, and management of text, weblinks, audio, video and images namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications via the internet and other communications networks; computer software used to enhance the capabilities and features of other software and non-downloadable online software; downloadable software via the internet and wireless devices for correcting and modifying software code, for distribution of third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; software for accessing, sending, and receiving information in the nature of crash reports, use logs and performance analytics of third-party computer software and mobile applications via a global computer network; software for computers, portable handheld digital electronic communication devices, mobile devices, and wired and wireless communication devices for facilitating the transfer of data in the nature of producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; application programming interface (API) for use in correcting and modifying software code, for distribution of third-party mobile applications, and for producing crash reports, use logs and performance analytics for third-party software; application programming interface (API) software for allowing the retrieval, upload, access and management of data pertaining to software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; API software for use in building software applications in the field of correcting and modifying software code, distribution of third-party mobile applications, and producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; computer software for information and data integration, analysis, and management of third-party computer software and mobile applications; computer software for logging, analyzing, and reporting operational statistics of third-party computer software applications and mobile applications; computer software for logging, analyzing, and reporting on the performance of computer, tablet, and mobile phone devices; software for

collecting and analyzing data, namely software code, crash reports, use logs and performance analytics from mobile applications; software for use in mobile applications for collecting and analyzing data, namely software code, crash reports, use logs and performance analytics from mobile applications; downloadable software for computers and portable handheld digital electronic communication devices in the field of analysing, managing and distributing third-party computer software and mobile applications; software for real-time delivery of data, messages, location, photographs, links, audio, video, images, text and other data related thereto all concerning software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; data synchronization programs, and application development tool programs for personal and handheld computers in the field of analysing, managing and distributing third-party computer software and mobile applications; computer software for authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing text files, graphics, image files, and electronic publications; software in the field of text file, image file and audio file transmission and display for correcting and modifying software code, for distribution of third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; database management software; computer software for accessing, browsing and searching online databases; data synchronization software for correcting and modifying software code, distributing third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; application development software for correcting and modifying software code, distributing third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; computer-software development tools, namely tools for developing software to analyse, manage and distribute third-party computer software and mobile applications, and for correcting and modifying software code, producing crash reports, use logs and performance analytics of third-party computer software and mobile applications.

(2) Downloadable computer software development tools, namely tools for developing software to analyse, manage and distribute third-party computer software and mobile applications, and for correcting and modifying software code, producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; downloadable computer software for logging, analyzing, and reporting operational statistics of third-party computer software applications.

(3) Computer software for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information, namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; software to enable uploading, creating, posting, showing, displaying, blogging, and sharing electronic media or information, namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications, over the internet and other communications networks; software and software applications to enable transmission, access, organization, and management of text, weblinks, audio, video and images namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications via the internet and other communications networks; computer software used to enhance the capabilities and features of other software and non-downloadable online software; software for accessing, sending, and receiving information in the nature of crash reports, use logs and performance analytics of third-party computer software and mobile applications via a global computer network; software for computers, portable handheld digital electronic communication devices, mobile devices, and wired and wireless communication devices for facilitating the transfer of data in the nature of producing crash reports, use logs and performance analytics of third-party

computer software and mobile applications; application programming interface (API) for use in correcting and modifying software code, for distribution of third-party mobile applications, and for producing crash reports, use logs and performance analytics for third-party software; application programming interface (API) software for allowing the retrieval, upload, access and management of data pertaining to software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; API software for use in building software applications in the field of correcting and modifying software code, distribution of third-party mobile applications, and producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; computer software for information and data integration, analysis, and management of third-party computer software and mobile applications; computer software for logging, analyzing, and reporting operational statistics of third-party computer software applications and mobile applications; computer software for logging, analyzing, and reporting on the performance of computer, tablet, and mobile phone devices; software for collecting and analyzing data, namely software code, crash reports, use logs and performance analytics from mobile applications; software for use in mobile applications for collecting and analyzing data, namely software code, crash reports, use logs and performance analytics from mobile applications; software for real-time delivery of data, messages, location, photographs, links, audio, video, images, text and other data related thereto all concerning software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; data synchronization programs, and application development tool programs for personal and handheld computers in the field of analysing, managing and distributing third-party computer software and mobile applications; computer software for authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing text files, graphics, image files, and electronic publications; software in the field of text file, image file and audio file transmission and display for correcting and modifying software code, for distribution of third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; database management software; computer software for accessing, browsing and searching online databases; data synchronization software for correcting and modifying software code, distributing third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; application development software for correcting and modifying software code, distributing third-party mobile applications, and for producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; computer-software development tools, namely tools for developing software to analyse, manage and distribute third-party computer software and mobile applications, and for correcting and modifying software code, producing crash reports, use logs and performance analytics of third-party computer software and mobile applications.

SERVICES

(1) Design and development of computer software; software as a service (SAAS) services, namely, hosting software for use by others for use in electronic communications between people and organizations in the field of analysing, managing and distributing third-party computer software and mobile applications, and for correcting and modifying software code, producing crash reports, use logs and performance analytics of third-party computer software and mobile applications, using wireless and wired networks, through computers and mobile devices; providing a platform that gives users the ability to upload, exchange and share electronic messages and other information, namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; application service provider featuring application

programming interface (API) software for exchanging data regarding software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; data analytics services in the field of computer software operation and performance; providing an online platform for information and data integration, analysis, and management regarding software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; providing an online platform for logging, analyzing, and reporting operational statistics of third-party computer software applications and mobile applications; hosting of digital content online in the fields of analysing, managing and distributing third-party computer software and mobile applications, and the correction and modification of software code, and production of crash reports, use logs and performance analytics of third-party computer software and mobile applications; hosting computer software applications of others; hosting of digital multimedia content in the fields of analysing, managing and distributing third-party computer software and mobile applications, and the correction and modification of software code, and production of crash reports, use logs and performance analytics of third-party computer software and mobile applications for others; computer services, namely, acting as an application service provider for third parties featuring remote hosting of operating systems and computer applications; hosting operating systems and computer applications through the Internet for third parties; providing a virtual computing environment for correcting and modifying software code, distribution of third-party mobile applications, and producing crash reports, use logs and performance analytics of third-party computer software and mobile applications, accessible via the Internet; providing software, non-downloadable, accessible over a global computer network, for managing computer applications; creating electronically stored web pages for on-line services and the Internet; data warehousing for software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; application service provider, namely, providing, hosting, managing, developing and maintaining applications, software, websites and databases for others in the field of data analytics and reporting; computer programming; consultancy services relating to multimedia software applications management, presentation and control; providing non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices namely mobile phones and tablet computers; technical support services, namely, troubleshooting in the nature of diagnosing of computer hardware and software problems on mobile computers and mobile communications devices namely mobile phones and tablet computers; computer hardware and software consultation and design; computer software design for others; hardware and software consultation and design for mobile computers and mobile communications devices namely mobile phones and tablet computers; software design for others for mobile computers and mobile communications devices namely mobile phones and tablet computers; hosting of digital third party content online, namely, text files, data files, image files, web sites and other electronic works namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; maintenance and updating of software relating to computer, Internet and password security and prevention of computer, internet and password risks; providing maintenance and support information in the field of computer technology, computers, software, computer peripherals, computer hardware, and product research and testing via the internet or other computer or communications networks; computer software installation and maintenance; providing a website featuring technical information relating to computer software and hardware; computer hardware, software, application, and computer network consulting services; computer consulting; document data transfer from one computer format to another; hosting of digital content namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications on global computer networks, and wireless networks; providing temporary use of non-downloadable computer software and online facilities to enable users to

access and download computer software; hosting, scaling and maintaining on-line databases for others, cloud computing featuring software for use in database management, cloud hosting of electronic databases, application service provider (ASP) featuring software for use in database management, platform as a service (PAAS) featuring computer software platforms for use in database management, software as a service (SAAS) services featuring software for use in database management; computer services, namely, providing a website featuring non-downloadable software for database management; computer services, namely, providing, developing and designing software, non-downloadable, accessible over a global computer network, for managing computer applications; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files and multimedia files namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; providing temporary use of on-line non-downloadable software development tools for the design and development of electronic games; video game development services; technical support services, namely, troubleshooting of computer game software problems; application service provider (ASP) featuring application programming interface (API) software namely software for the streaming, electronic digital storage, and online sharing of video games, content, data and information regarding the analysis, management and distribution of third-party computer software and mobile applications, and software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data regarding software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; computer software development in the field of mobile applications; providing technical support services regarding the usage of communications equipment for diagnostic purposes, namely computer hardware, mobile phones and tablet computers.

(2) Providing a website featuring logs, analytics, and crash reports of third-party computer software and mobile applications.

(3) Design and development of computer software; software as a service (SAAS) services, namely, hosting software for use by others for use in electronic communications between people and organizations in the field of analysing, managing and distributing third-party computer software and mobile applications, and for correcting and modifying software code, producing crash reports, use logs and performance analytics of third-party computer software and mobile applications, using wireless and wired networks, through computers and mobile devices; providing a platform featuring technology that gives users the ability to upload, exchange and share electronic messages and other information, namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; application service provider featuring application programming interface (API) software for exchanging data regarding software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; data analytics services, namely software as a service (SaaS) services featuring software for data analytics and reporting in the field of computer software operation and performance; providing an online platform for information and data integration, analysis, and management regarding software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; providing an online platform for logging, analyzing, and reporting operational statistics of third-party computer software applications and mobile applications; providing temporary use of online non-downloadable software tools for correcting and modifying software code, distribution of third-party mobile applications, and producing crash reports, use logs and performance analytics of third-party computer software and mobile applications; hosting of digital content online in the fields of analysing, managing and

distributing third-party computer software and mobile applications, and the correction and modification of software code, and production of crash reports, use logs and performance analytics of third-party computer software and mobile applications; hosting computer software applications of others; hosting of digital multimedia content in the fields of analysing, managing and distributing third-party computer software and mobile applications, and the correction and modification of software code, and production of crash reports, use logs and performance analytics of third-party computer software and mobile applications for others; computer services, namely, acting as an application service provider for third parties featuring remote hosting of operating systems and computer applications; hosting operating systems and computer applications through the Internet; providing a virtual computing environment for correcting and modifying software code, distribution of third-party mobile applications, and producing crash reports, use logs and performance analytics of third-party computer software and mobile applications, accessible via the Internet; providing software, non-downloadable, accessible over a global computer network, for managing computer applications; creating electronically stored web pages for on-line services and the Internet; data warehousing for software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; application service provider, namely, providing, hosting, managing, developing and maintaining applications, software, websites and databases for others in the field of data analytics and reporting; computer programming, consultancy services relating to multimedia software applications management, presentation and control; computer consultancy services relating to multimedia software applications management, presentation and control; providing non-downloadable mobile communications device software for enhancing mobile access to the internet via computers, mobile computers, and mobile communications devices namely mobile phones and tablet computers; technical support, namely, troubleshooting in the nature of diagnosing of computer hardware and software problems and hardware and software problems on mobile computers and mobile communications devices namely mobile phones and tablet computers; computer hardware and software consultation and design; computer software design for others; hardware and software consultation and design for mobile computers and mobile communications devices namely mobile phones and tablet computers; software design for others for mobile computers and mobile communications devices namely mobile phones and tablet computers; hosting digital of third party content online, namely, text files, data files, image files, web sites and other electronic works namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; maintenance and updating of software relating to computer, Internet and password security and prevention of computer, internet and password risks; providing maintenance and support information in the field of computer technology, computers, software, computer peripherals, computer hardware, and product research and testing via the internet or other computer or communications networks; computer software installation and maintenance; providing a website featuring technical information relating to computer software and hardware; computer hardware, software, application, and computer network consulting services; computer consulting; document data transfer from one computer format to another; hosting of digital content namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications on global computer networks, and wireless networks; providing temporary use of non-downloadable computer software and online facilities to enable users to access and download computer software; remote monitoring of the computerized data and computer systems and networks of third parties for computer security purposes; hosting, scaling and maintaining on-line databases for others, cloud computing featuring software for use in database management, cloud hosting of electronic databases, application service provider (ASP) featuring software for use in database management, platform as a service (PAAS) featuring computer software platforms for use in database management, software as a service (SAAS) services featuring software for use in

database management; computer services, namely, providing a website featuring non-downloadable software for database management; computer services, namely, providing, developing and designing software, non-downloadable, accessible over a global computer network, for managing computer applications; providing temporary use of on-line non-downloadable software and applications for accessing streaming audio and video files, text files and multimedia files namely software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; providing temporary use of on-line non-downloadable software development tools for the design and development of electronic games; video game development services; technical support services, namely, troubleshooting of computer game software problems; application service provider (ASP) featuring application programming interface (API) software namely software for the streaming, electronic digital storage, and online sharing of video games, content, data and information regarding the analysis, management and distribution of third-party computer software and mobile applications, and software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; providing temporary use of on-line non-downloadable cloud computing software for use in electronic storage of data regarding software code, crash reports, use logs and performance analytics of third-party computer software and mobile applications; computer software development in the field of mobile applications; providing technical support services regarding the usage of communications equipment namely computer hardware, mobile phones and tablet computers for diagnosing purposes.

(4) Providing a website featuring logs, analytics, and crash reports of third-party computer software applications.

(4) Music sound recordings; Pre-recorded tapes containing music; Pre-recorded cassettes containing music (none of the aforesaid relating to pet shop goods)

(5) Video recordings containing music performances; Prerecorded compact discs containing music performances; Films; Prerecorded video cassettes containing music and musical performances; (none of the aforesaid relating to pet shop goods)

(6) Video recorders; pre-recorded CD ROMS containing music recordings and music performances; computer game software and interactive entertainment software; video cameras; cameras; photographic films; encoded magnetic cards, magnetic identity cards, credit cards, debit cards; spectacles, spectacle cases, sunglasses; mouse pads; screen savers; downloadable electronic publications in the nature of a blog and website; holograms, credit cards with holograms; computer games (none of the aforesaid relating to pet shop goods)

Class 14

(7) Trophies, ornaments, works of art, figurines, emblems, boxes, cases, cases all made wholly or principally of precious metals and their alloys or coated therewith; clocks, alarm clocks; watches; jewellery and precious stones; bracelets; chains, coins, medallions, medals; key rings; tie pins; cufflinks; key fobs; (none of the aforesaid relating to pet shop goods)

Class 16

(8) Photographs; Pictures; Prints; Posters; (none of the aforesaid relating to pet shop goods)

(9) Newspapers, periodical publications, magazines, books; photographs, greeting cards; postcards; notepads; address books; scrapbooks; folders; catalogues; concert and event tickets; calendars; photographs albums; diaries; booklets; covers for postage stamps; stamp albums; stickers; car stickers; decalcomanias; cards; pens, pencils, erasers, pencil sharpeners, pencil cases, rulers, boxes for pens, book markers; gift bags, carrier bags; envelopes; blackboards; height charts; cheque book holders; (none of the aforesaid relating to pet shop goods)

Class 18

(10) Leather and leather imitations; skins and hides, briefcases and travel bags; holdalls, rucksacks, sports bags, boot bags, satchels; wallets; belts; purses; card holders; umbrellas, parasols; case files; (none of the aforesaid relating to pet shop goods)

Class 20

(11) Plaques, mirrors, picture frames; tags for use on bags, made wholly or principally of plastic; works of art; figurines, models, all made of wood, wax, plaster or plastic; key blanks, plastic key rings; figures made of plastic; beds; sign boards; sleeping bags; non-metallic trays; advertising display boards; (none of the aforesaid relating to pet shop goods)

Class 21

(12) Mugs; (none of the aforesaid relating to pet shop goods)

(13) Cups, trophies and plates; household or kitchen utensils and containers; combs; sponges; hair brushes; piggy banks; china ornaments; crockery; soap dishes; cups; plates; dishes; bowls; glasses; lunch boxes; toothbrushes; coasters; trays; vacuum flasks; thermally insulated containers for food and drink; holders and pots for flowers and plants, parts and fittings for the aforesaid goods; coffee-pots, teapots, goblets, cups, trays, vases, containers for household utensils, towel holders, napkin holders, all made wholly or principally of precious metals and their alloys or coated therewith; (none of the aforesaid relating to pet shop goods) ting to pet shop goods)

Class 24

(14) bed linen, duvet covers, pillow cases, sheets, blankets; table linen, table cloths, napkins; handkerchiefs; curtains, blinds; pennants; banners; flags; towels, beach towels; textile wall hangings; rugs; wash towels; place mats; silk fabrics; (none of the aforesaid relating to pet shop goods)

Class 25

(15) T-shirts, hats and caps, jackets, pyjamas, slippers; Wristbands (none of the aforesaid relating to pet shop goods)

(16) Articles of outer clothing; articles of underclothing; articles of sports clothing; Men's and women's shoes, sneakers, fli-flops and sandals; scarves; dressing gowns; boxer shorts; socks; headbands, ties, articles of clothing, footwear and headgear for babies and toddlers; sporting clothes; (none of the aforesaid relating to pet shop goods)

Class 26

(17) Emblems (none of the aforesaid relating to pet shop goods)

Class 28

(18) Teddy bears, cuddly toys; puzzles; balloons; model kits; sporting equipment namely skipping ropes; games; ordinary playing cards; (none of the aforesaid relating to pet shop goods)

SERVICES**Class 41**

Entertainment services in the form of live and recorded performances by a musical band; Entertainment services namely concert, musical and video performances by a musical band; television and radio entertainment services namely guest performances by a musical band; entertainment services in the form of stage and cabaret performances by a musical band; production of video and sound recordings by a musical band; recording, film, video and television studio services; audio, film, video and television recording services; music publishing; film and video production and distribution services; arranging and conducting of seminars, conferences and exhibitions namely events held for fans to celebrate the musical band and live music entertainment events; (none of the aforesaid relating to pet shop services)

CLAIMS

Used in CANADA since at least as early as 1986 on goods (4); 1991 on goods (2), (5), (8), (12), (15). Used in UNITED KINGDOM on goods (1), (3), (4), (6), (7), (9), (10), (11), (13), (14), (17), (18) and on services. Registered in or for EUIPO (EU) on December 09, 2012 under No. 010795284 on goods (1), (3), (4), (6), (7), (9), (10), (11), (13), (14), (17), (18) and on services. Proposed Use in CANADA on goods (1), (3), (6), (7), (9), (10), (11), (13), (14), (16), (17), (18)

Goods

Class 01

(1) Chemical reagents for use in scientific tests, namely, sequencing DNA, RNA and other nucleic acids; chemical diagnostic reagents for use in automated tests systems for scientific and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence; chemical reagents for analytical tests for scientific and research purposes in the fields of genomics, life sciences, healthcare, national security and military defence; reagents for industrial use, namely, synthesising nucleic acids, DNA, RNA and other nucleic acids; reagents for use in scientific tests, namely, the synthesis of DNA and RNA; reagents for use in molecular biology, biotechnology, microbiology, and bacteriology; reagents for nucleic acid amplification; reagents for use in forensic analysis; reagents for blood grouping; reagents for use in environmental testing and environmental analysis; deoxyribonucleic acid, single stranded and double stranded deoxyribonucleic acid; ribonucleic acid; peptide nucleic acids; locked nucleic acids; nucleic acids;

oligonucleotides; oligosaccharides; proteins for use in analytical tests for scientific and research purposes; peptides for industrial purposes, scientific purposes and scientific research purposes; endonucleases, polymerases, ligases, glycosylases; nucleotides, pyrimidines, purines; amino acids; saccharides; reagents for use in testing samples for characterization of nucleic acids and determination of nucleic acid sequences; reagents for protein identification and analysis; chemicals other than pesticides for use in tests to detect diseases in plant life; buffer solutions for use in analytical chemistry, biochemistry, biology, biotechnology and genomic experiments and tests; aqueous solvents for scientific and research use, all for the use in analytical chemistry, biochemistry, biology, biotechnology and genomic experiments; non-aqueous solvents for scientific and research use, all for the use in analytical chemistry, biochemistry, biology, biotechnology and genomic experiments; isopropanol; ethanol; phenol; non-aqueous media in the nature of solid and liquid non-aqueous solutions for scientific and research use, all for the use in analytical chemistry, biochemistry, biology, biotechnology and genomic experiments; surfactants for use in analytical tests for scientific and research use; silicone oils for use in analytical tests for scientific and research use; enzymes for scientific and research purposes and use in analytical tests; proteases for use in analytical tests for scientific and research purposes; nucleases, namely RNase, DNase and restriction enzymes for use in analytical tests for scientific and research purposes; chaotropes, namely, guanidine-HCl and guanidinium thiocyanate for use in analytical tests for scientific and research purposes.

Class 05

(2) Reagents for use in blood grouping, molecular biology, bacteriological, biotechnology and microbiological analysis, namely reagents for formation of amphipathic membranes, buffer solutions, non-aqueous solvents, surfactants for medical and veterinary purposes; reagents for medical and veterinary diagnosis and medical and veterinary research; reagents for laboratory tests for medical and veterinary purposes; nucleic acid amplification reagents for veterinary, medical, medical research and forensic use; reagents for immunoassay analysers for medical and veterinary purposes; reagents for testing aqueous solutions for medical and veterinary purposes; reagents for testing for susceptibility to allergies; reagents for use in biological processing for medical and veterinary purposes; reagents for use in nucleic acid characterization and nucleic acid sequencing for medical and veterinary purposes; reagents for protein identification and analysis for medical and veterinary purposes; reagents for formation of amphipathic membranes for medical and veterinary purposes; buffer solutions for medical and veterinary purposes; aqueous solvents for medical and veterinary purposes; non-aqueous solvents for medical and veterinary purposes; surfactants for medical and veterinary purposes; silicone oils for medical and veterinary purposes; enzymes for medical and veterinary purposes; protein arrays for use in tests for medical or veterinary diagnostic purposes.

Class 09

(3) Computer software for performing and controlling the analysis of scientific and medical data obtained from scientific tests and experiments in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, national security and military defence; Computer software for running an e-commerce platform; downloadable software for use in analysing, transmitting and receiving scientific and medical data obtained from scientific tests and experiments in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, national security and military defence via a global communications network; downloadable software for running development programs and application programs that allows transmissions of scientific research data to data processing apparatus, scientific apparatus, medical and veterinary apparatus, computers, mobile phones, tablet computers; computer operating software; operating system software; sensors used in electronic scientific equipment for detecting, manipulating and analysing

biological, bacteriological, chemical and biochemical matter, DNA, RNA, proteins, polynucleic acids and small molecules; scientific equipment, namely, micro-array chips; scientific apparatus and instruments, namely, scientific apparatus and instruments for automating the preparation of biological, bacteriological, chemical and biochemical material and DNA, RNA, proteins, polynucleic acids and small molecule test samples; apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, namely, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific and research purposes; scientific apparatus and instruments for sequencing DNA, RNA, proteins and polynucleic acids; scientific apparatus and laboratory devices for the scientific analysis of polynucleic acid sequences; apparatus and instruments for the analysis of nucleic and polynucleic acids, namely, microarrays, and silicon chip based arrays for scientific and research purposes; apparatus and instruments for the analysis of proteins namely, microarrays, and silicon chip based arrays for scientific and research purposes; apparatus and instruments for the analysis of genetic information, genomic information and proteomic information, namely, automated instruments for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICS (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis; computer hardware for the analysis and recordal of scientific data obtained from scientific tests and experiments; scientific apparatus and instruments for synthesising chemical compounds, small molecules, genomes, DNA, RNA or other nucleic acids, oligosaccharides, proteins and peptides for scientific research and scientific testing purposes; scientific apparatus, devices and instruments for identifying, measuring, analysing, sequencing or synthesising small molecules, genomes, DNA, RNA or other nucleic acids, oligosaccharides, proteins and peptides for scientific research and scientific testing purposes; electronic display interfaces for the display of information obtained from scientific equipment; DNA chips for scientific and research use; analyte detector chips for scientific and research use; biosensor chips for scientific and research use; apparatus and instruments for use in laboratory analysis, namely, empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid or liquid form samples for scientific and research testing use; reaction units containing chemical or biological reagents for laboratory use.

Class 10

(4) Automated electronic devices for sequencing DNA, RNA and other small molecules for the purposes of detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases or conditions; medical apparatus and instruments, namely, empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid and liquid form samples for medical and veterinary testing purposes; reaction units containing chemical reagents for medical testing purposes; Nanopore sensing devices for medical and veterinary purposes.

SERVICES

Class 35

(1) Analysis and evaluation of marketing and business commercial data; provision of marketing, business and commercial reports; business information services in the fields of genomics, life sciences, healthcare, national security and military defence; analysis and evaluation of business

information; retail store services in the field of the sale of software; online retail store services in the field of the sale of software; retail store services in the field of the sale of computer operating software; online retail store services in the field of the sale of computer operating software.

Class 42

(2) Scientific and technological services and research and design relating thereto, namely, consultation, research and design services in the field of automated systems and instruments for direct electrical detection and analysis of molecules for use in the field of genomics, protein analysis, molecular analysis, life sciences, healthcare, security and defense; industrial analysis and research services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, security and defense; scientific research in the fields of biology, chemistry, biochemistry, bacteriology, medicine and veterinary science; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular analysis services, namely, biological, chemical, biochemical, bacteriological DNA, RNA, protein, polynucleic acid and molecular analysis for scientific and research purposes; scientific and technological services, namely, synthesising chemical compounds, small molecules, genomes, DNA, RNA or other nucleic acids, oligosaccharides, proteins and peptides for scientific purposes and medical research purposes; scientific research in the field of nanopore technology for medical and veterinary purposes; genome, DNA, RNA and nucleic acid, oligosaccharide, protein and peptide synthesising services; DNA and RNA and polynucleic acid sequences services; protein sequencing services; design and development of instruments and apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis; DNA and polynucleic acid testing services; genome sequencing services; analysis and evaluation of scientific and medical data, namely the results of scientific tests and experiments; computerised analysis and evaluation of technical data, namely, the results of scientific tests and experiments; overseeing, monitoring and managing the analysis and evaluation of scientific data for scientific research purposes; scientific and technological services, namely, biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis and evaluation services; DNA and RNA and polynucleic acid and protein sequencing, analysis and evaluation services; genome sequencing services and the analysis and evaluation of data resulting therefrom; provision of reports in the field of scientific and medical experiments, the results of scientific and medical experiments and tests, the analysis and evaluation of scientific and medical data, and data generated by scientific and medical experiments and tests, none being for medical treatment or diagnostic purposes; scientific and medical research and development in the fields of scientific, technological and medical research; technical data analysis and evaluation services in the fields of scientific, medical technology and medical research; electronic data storage services; application service provider (ASP) services featuring computer software applications installed or downloaded onto data processing apparatus, scientific apparatus, medical and veterinary apparatus, computers, mobile phones, tablet computers and handheld mobile digital electronic devices for use in the analysis of scientific and medical data.

SERVICES

Class 37

(1) Maintenance, rental, repair and erection of lifting apparatus, industrial plant equipment and machinery namely, pneumatic hoists, electric hoists, hydraulic hoists, wire hoists, electric chain hoists, electric cable hoists, pneumatic chain hoists, rack and pinion hoists, lever hoists, track hoists for use with scaffolding, roofing hoists, beam trolley hoists, hand operated hoists, hand chain hoists, hoisting drums, pneumatic jacks, electric jacks, hydraulic jacks, power jacks, power operated jacks, rack and pinion jacks, ratchet jacks, cable reel jacks, mechanical jacks, hand jacks, hand operated lifting jacks, winches, pneumatic winches, electric winches, hydraulic winches, power winches, trawl winches, double drum winches, winch motors, hand operated winches, come-a-longs [hand operated winches], cranes, fixed and mobile cranes, cable cranes, truck cranes, crawler cranes, gantry cranes, gantry hoists, gantry framework, hydraulic gantry cranes, truck cranes, truck lifts, automatically guided material handling trucks, driverless material handling trucks, dollies, load moving trucks, load moving skates, machine moving skates, pneumatic skates, hand trucks, pallet trucks, fixed fork pallet lifter, booms for forklifts, manifolds for pneumatic hoists, jacks, cranes and winches, tanks for pneumatic hoists, jacks, cranes and winches, hoses for pneumatic tools, hoses for pneumatic hoists, jacks, cranes and winches, filters for pneumatic tools, filters for pneumatic hoists, jacks, cranes and winches, gauges for pneumatic tools, gauges for pneumatic hoists, jacks, cranes and winches, hoses for hydraulic tools, hoses for hydraulic hoists, jacks, cranes and winches, cylinders for hydraulic tools, cylinders for hydraulic hoists, jacks, cranes and winches, pumps for hydraulic tools, pumps for hydraulic hoists, jacks, cranes and winches, gauges for hydraulic tools, gauges for hydraulic hoists, jacks, cranes and winches, suspension cages of metal for lifting equipment, elevator lifts for lifting equipment, suspension seats for lifting equipment, tripods for material handling, beam clamps, girder clamps, rigging clamps, barrier grabs [hoisting clamps], plate clamps [lifting clamps], pipe rigging rollers, pulley blocks, snatch blocks [pulley blocks], sheave blocks [pulley blocks], electric pulley blocks, crane pulley blocks, ballasts for lifting equipment, plates of metal for lifting equipment, mechanical spreaders, load spreading beams of metal, lifting beams of metal, rings of metal for lifting, digital load meters, load cells, compression load cells, belts of metal for handling loads, braces of metal for handling loads, harness of metal for handling loads, slings of metal for handling loads, chain slings of metal for handling loads, straps of metal for handling loads, wire rope slings for handling loads, polyester rope slings for handling loads, shackles of metal for lifting equipment, links of metal for lifting equipment, hooks of metal for lifting equipment, swivel hooks of metal for lifting equipment, turnbuckles, stretching screws and bottlescrews of metal for lifting equipment, skip pans [metal containers for general waste];

Class 41

(2) Providing practical training and educational demonstrations on the safe use of lifting apparatus, plant equipment and machinery namely, pneumatic hoists, electric hoists, hydraulic hoists, wire hoists, electric chain hoists, electric cable hoists, pneumatic chain hoists, rack and pinion hoists, lever hoists, track hoists for use with scaffolding, roofing hoists, beam trolley hoists, hand operated hoists, hand chain hoists, hoisting drums, pneumatic jacks, electric jacks, hydraulic jacks, power jacks, power operated jacks, rack and pinion jacks, ratchet jacks, cable reel jacks, mechanical jacks, hand jacks, hand operated lifting jacks, winches, pneumatic winches, electric winches, hydraulic winches, power winches, trawl winches, double drum winches, winch motors, hand operated winches, come-a-longs [hand operated winches], cranes, fixed and mobile cranes, cable cranes, truck cranes, crawler cranes, gantry cranes, gantry hoists, gantry framework, hydraulic gantry cranes, truck cranes, truck lifts, automatically guided material handling trucks, driverless material handling trucks, dollies, load moving trucks, load moving skates, machine moving skates, pneumatic skates, hand trucks, pallet trucks, fixed fork pallet lifter, booms for forklifts, manifolds for pneumatic hoists, jacks, cranes and winches, tanks for pneumatic hoists, jacks, cranes and

winches, hoses for pneumatic tools, hoses for pneumatic hoists, jacks, cranes and winches, filters for pneumatic tools, filters for pneumatic hoists, jacks, cranes and winches, gauges for pneumatic tools, gauges for pneumatic hoists, jacks, cranes and winches, hoses for hydraulic tools, hoses for hydraulic hoists, jacks, cranes and winches, cylinders for hydraulic tools, cylinders for hydraulic hoists, jacks, cranes and winches, pumps for hydraulic tools, pumps for hydraulic hoists, jacks, cranes and winches, gauges for hydraulic tools, gauges for hydraulic hoists, jacks, cranes and winches, suspension cages of metal for lifting equipment, elevator lifts for lifting equipment, suspension seats for lifting equipment, tripods for material handling, beam clamps, girder clamps, rigging clamps, barrier grabs [hoisting clamps], plate clamps [lifting clamps], pipe rigging rollers, pulley blocks, snatch blocks [pulley blocks], sheave blocks [pulley blocks], electric pulley blocks, crane pulley blocks, ballasts for lifting equipment, plates of metal for lifting equipment, mechanical spreaders, load spreading beams of metal, lifting beams of metal, rings of metal for lifting, digital load meters, load cells, compression load cells, belts of metal for handling loads, braces of metal for handling loads, harness of metal for handling loads, slings of metal for handling loads, chain slings of metal for handling loads, straps of metal for handling loads, wire rope slings for handling loads, polyester rope slings for handling loads, shackles of metal for lifting equipment, links of metal for lifting equipment, hooks of metal for lifting equipment, swivel hooks of metal for lifting equipment, turnbuckles, stretching screws and bottlescrews of metal for lifting equipment, skip pans [metal containers for general waste];

CLAIMS

Used in EUIPO (EU) on services. Registered in or for EUIPO (EU) on July 25, 2016 under No. 015228786 on services. Proposed Use in CANADA on services

HAIR CONCIERGE

Goods

Soaps, namely, body care soap, liquid hand soap; perfumery; essential oils for personal use; personal deodorants and antiperspirants; hair care preparations; hair colorants, hair dyes, hair lotions, hair waving preparations, shampoos, conditioners, hair sprays, hair lacquers, hair mousses, hair glazes, hair gels, hair moisturisers in the nature of conditioners, hair oils, hair tonic, hair creams, non-medicated preparations for the bath and shower, namely, body wash and shower gel; non-medicated skin care preparations; cosmetics.

SERVICES

(1) Providing a website in the field of consumer product information regarding hair care preparations; buying club services; consultancy services, namely, advisory and consultancy in the field of hair care preparations.

(2) Broadcasting services in the field of hair care products, namely, video broadcasting services over the Internet featuring the uploaded, posted and tagged videos in the field of hair care preparations; providing telecommunication channels for teleshopping services in the field of hair care preparations; providing on-line list servers for transmission of messages, comments among computer users concerning hair care preparations; providing online community forums in the field of hair care preparations for users to post, search, watch, share, critique, rate, and comment on.

(3) Education services, namely providing on-line classes in the field of hair care preparations over the Internet; entertainment services in the field of hair care preparations, namely, providing on-line non-downloadable videos over the internet; providing on-line non-downloadable electronic publications, namely, newsletters and magazines in the field of hair care preparations.

Goods

(1) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity namely, power transformers and accumulators, power surge and failure regulators, circuit breakers, switchboards, circuit breakers and circuit closers, fuses for electric current, electrical circuit, current rectifiers, change-over switches for telecommunication apparatus, current transformers, electric power converters, Electric transformers, electric voltage transformers, electrical fuses, electrical transformers for telecommunication apparatus, induction voltage regulators, power amplifiers, power cables, stage lighting regulators, step-up transformers, voltage regulators for vehicles, voltage regulators, connections for electric lines, electric adapter cables, electric cables and wires, electric plugs, electric resistors, electrical conductors for transformers, high voltage transformers, high-frequency switching power supplies, inverters for power supply, voltage regulators for electric power, voltage stabilizers, AC to DC converters, AC to DC inverters, automatic time switches, banana plugs, cable connectors, cable jump leads, cables for electrical signal transmission systems, circuit boards, circuit boards provided with integrated circuits, circuit testers, circuits for heavy current, connectors for electronic circuits, continuity testers, DC to AC converters, DC to AC inverters, electric circuit closers, electric connectors, electric control panels, electric converters, electric light dimmers, electric light switches, electric voltage transformers, electrical control systems for lighting systems, electrical distribution boxes, electrical plugs and sockets, electrical power distribution blocks, electricity conduits, electronic circuits, electronic control gears [ECGs] for LED lamps and light fixtures, electronic currency

converters, electronic power converters, electronic power transformers, lightning conductors, power distribution boxes, power distribution panels, voltage stabilizing power supply, voltage surge suppressors; Light switches; electric light switches; switches (electricity) namely light switches, cut-out switches, differential switches, automatic time switches, power switches, switch boxes, time switches, automatic transfer switches, electric light switches, electronic motion sensitive switches, electromagnetic switches, Ethernet switches, pressure switches, touch sensitive switches, dimmer switches; electrical relays; impulse relays; mini electronic relays; auxiliary relays; light-dependent relays; monitoring relays; industrial relays; printed circuit board relays; electromechanical relays (EMR); solid state relays (SSR); step relays; pulse-operated latching relays; overvoltage protection relays; power relays; motor protection relays; safety relays (electric); overload relays; electric relays; electromagnetic relays; electronic relays; light-sensitive relays; Relay interface modules; movement detectors; liquid level sensors; Timers, automatic timers and modular timers namely timer switches, electronic industrial controls for digital timers, kitchen timers, egg timers, electronic kitchen timers; plug-in timers; light timers for staircases; Thermostats; room thermostats; panel thermostats; electrical timer sockets; Mechanical and electronic digital time switches; Electrical transformers; electronic transformers; Electric light dimmers (regulators); electric light regulators (dimmers); Electric connection sockets; Overvoltage apparatus namely overvoltage surge protectors, overvoltage protection circuits, overvoltage protection diodes, overvoltage arrestors; overvoltage regulators; overvoltage stabilizers; overvoltage stabilizing power supply, over voltage surge suppressors; Energy meters; Modular contactors for switching and controlling power, lighting, heating, ventilation, modular electric contactors; Electrical and electronic circuits; Electric control panels; Industrial automation controls namely electronic industrial controls for digital timers, electronic industrial controls for motion failure detectors, industrial automation controls for room thermostats, industrial automation controls for lighting systems; Accessory modules for illuminated pushbuttons; chronothermostats.

(2) Apparatus and instruments for (conducting, switching, transforming, accumulating, regulating or controlling electricity namely, power transformers and accumulators, power surge and failure regulators, circuit breakers, switchboards, circuit breakers and circuit closers, fuses for electric current, electrical circuit, current rectifiers, change-over switches for telecommunication apparatus, current transformers, electric power converters, Electric transformers, electric voltage transformers, electrical fuses, electrical transformers for telecommunication apparatus, induction voltage regulators, power amplifiers, power cables, stage lighting regulators, step-up transformers, voltage regulators for vehicles, voltage regulators, connections for electric lines, electric adapter cables, electric cables and wires, electric plugs, electric resistors, electrical conductors for transformers, high voltage transformers, high-frequency switching power supplies, inverters for power supply, voltage regulators for electric power, voltage stabilizers, AC to DC converters, AC to DC inverters, automatic time switches, banana plugs, cable connectors, cable jump leads, cables for electrical signal transmission systems, circuit boards, circuit boards provided with integrated circuits, circuit testers, circuits for heavy current, connectors for electronic circuits, continuity testers, DC to AC converters, DC to AC inverters, electric circuit closers, electric connectors, electric control panels, electric converters, electric light dimmers, electric light switches, electric voltage transformers, electrical control systems for lighting systems, electrical distribution boxes, electrical plugs and sockets, electrical power distribution blocks, electricity conduits, electronic circuits, electronic control gears [ECGs] for LED lamps and light fixtures, electronic currency converters, electronic power converters, electronic power transformers, lightning conductors, power distribution boxes, power distribution panels, voltage stabilizing power supply, voltage surge suppressors; Light switches; electric light switches; switches (electricity) namely light switches, cut-out switches, differential switches, automatic time switches, power switches, switch boxes, time switches, automatic transfer switches, electric light switches, electronic motion sensitive switches,

electromagnetic switches, Ethernet switches, pressure switches, touch sensitive switches, dimmer switches; electrical relays; impulse relays; mini electronic relays; auxiliary relays; light-dependent relays; monitoring relays; industrial relays; printed circuit board relays; electromechanical relays (EMR); solid state relays (SSR); step relays; pulse-operated latching relays; overvoltage protection relays; power relays; motor protection relays; safety relays (electric); overload relays; electric relays; electromagnetic relays; electronic relays; light-sensitive relays; Relay interface modules; movement detectors; liquid level sensors; Timers, automatic timers, modular timers namely timer switches, electronic industrial controls for digital timers, kitchen timers, egg timers, electronic kitchen timers; plug-in timers; light timers for staircases; Thermostats; room thermostats; panel thermostats; electrical timer sockets; Mechanical and electronic digital time switches; Electrical transformers; electronic transformers; Electric light dimmers (regulators); electric light regulators (dimmers); Electric connection sockets; Overvoltage apparatus namely overvoltage surge protectors, overvoltage protection circuits, overvoltage protection diodes, overvoltage arrestors; overvoltage regulators; overvoltage stabilizers; overvoltage stabilizing power supply, over voltage surge suppressors; Energy meters; Modular contactors for switching and controlling power, lighting, heating, ventilation, modular electric contactors; Electrical and electronic circuits; Electric control panels; Industrial automation controls namely electronic industrial controls for digital timers, electronic industrial controls for motion failure detectors, industrial automation controls for room thermostats, industrial automation controls for lighting systems; Accessory modules for illuminated pushbuttons; chronothermostats; Measuring, signaling, checking [supervision], apparatus and instruments namely cameras, optical scanners, microscopes, telescopes, compasses, diving regulators, acoustic meters, electrotechnical vibration meters, flow meters, frequency meters, gas meters, sound level meters, vibration meters, water meters, digital laser levels, electrical signal attenuators, electromagnetic measuring detectors, infrared thermometers for checking electrical equipment, test adapters for testing printed circuit boards, vertical levels, water level indicators, measuring rulers, cables for electrical signal transmission systems, electrical signal attenuators, emergency signal transmitters, rotating signaling lights, signal lanterns, signal processors, electricity meters, light meters, luminoflux meters, noise level meters, pressure indicating plugs for valves, thermosensitive temperature indicator strips, wind-direction indicators, probes for testing integrated circuits, probes for testing semi-conductors; Socket covers namely covers for electrical outlets, electrical socket covers, safety covers for electrical sockets; Multifunctional remote controls for room thermostats, lighting systems, circuit breakers, television, electronic door closing systems, electronic door alarms, electronic window alarms, gas leak alarms, personal security alarms, security and fire alarms, smoke alarm testers; network control devices namely network bridges, network routers, multiplexers, network interface controllers, bridge routers, network servers, network operating system programs; current overload protectors namely voltage surge protectors, surge protectors; power line protectors namely surge protectors, voltage surge protectors, voltage surge suppressors, lightning arresters, power distributing boxes, power transformers, underwater power cables, current converters, voltage stabilizing power supply, circuit boards, circuit breakers, circuits for heavy current, electric circuit closers, high-frequency switching power supplies; Gloves for protection against accidents namely gloves for protection against x-rays for industrial purposes, asbestos gloves for protection against accidents, fire resistant gloves; Wall lighting (accessories and switches) namely electric switch plates, dimmer switches, motion sensors, light dimmers, LED position sensors; Protective work clothing (for protection against accident or injury) namely working overalls, work gloves, jeans, jackets, coats, reflective safety vests, fire protective clothing, radiation protective clothing, dust protective goggles and masks, garments and clothes for protection against fire, protective eyeglasses, protective face-shields for protective helmets; level switches for oil and water, level switches for monitoring and controlling liquids in tanks and vessels; level switches to detect liquid and powder levels; Current

limiters; voltage limiters; Instruction manuals in electronic format; Liquid level meters; temperature meters for household use; temperature meters for industrial use; voltage meters; Safety glasses; Time clocks [time recording devices]; Electrical extension cables; Electronic apparatus namely sound level regulators; temperature level regulators ; pressure level regulators, illumination level regulators, stage lighting level regulators; Transceivers; multiport transceivers; ethernet transceivers; analog, vector, radio frequency, digital video and microwave signal receivers; audio receivers, audio-video receivers, audiovisual receivers, radio receivers, radio receivers for remote controls, stereo receivers, telephone receivers, television receivers, video receivers; point-to-point radio receivers; satellite receivers; telephone receivers; Smoke detectors; combustible gas detectors; carbon monoxide detectors; voltage detectors; Ethernet repeaters; Infrared detectors; fire detectors; Surge voltage arresters; Protective footwear (against accident or injury) namely fire protective footwear, chemical exposure protective footwear, steel-toe boots, safety boots, shoes for protection against irradiation; Infrared sensors; ultrasonic sensors; wire connectors (electricity); Voltage spike suppressors; Remote controls for televisions, stereos, window blinds, room thermostats, lighting systems, circuit breakers, television, electronic door closing systems, electronic door alarms, electronic window alarms, gas leak alarms, personal security alarms, security and fire alarms, smoke alarm testers, irrigation sprinklers systems; Electric light switch timers; programmable timers for outdoor lighting, indoor lighting, pool filters, fans, electric heating radiators, irrigation sprinklers systems, air conditioners, heating boilers; Totalisators; radio and wireless audio signal transmitters, acoustic signal transmitters, video signal transmitters; emergency signal transmitters; Alarm systems namely electrical and electronic burglar alarms, security and fire alarms, personal security alarms, gas alarms, fuses for fire alarm control panels, fire alarms, fire alarm control panels, fire alarm boxes, electrical and electronic burglar alarms, burglar alarms, alarms for the detection of inflammable gases, anti-intrusion alarms, smoke alarms, swimming pool alarms; computers, computer cables, computer hardware, computer interface boards, computer interface cards, computer keyboards, computer memory expansion modules, computer network adapters, computer screens, netbook computers, personal computers, portable computers, computer power supplies, computer operating recorded programs, computer software for use in processing semiconductor wafers, computer user manuals in the form of downloadable electronic publications; cables for electrical signal transmission systems; stereo systems namely stereo amplifiers, stereo receivers, stereo tuners, car stereos, personal stereos; music systems namely MP3 players, MP4 players, DVD players, CD players, loudspeakers, headphones, microphones; loudspeakers; computer operating systems; computer operating programs; electrical control systems for heating and air conditioning systems, electrical control systems for lighting systems, cruise controls for motor vehicles; Global positioning system (GPS) satellites; Global Positioning System receivers; Global Positioning Systems consisting of computers, computer software, transmitters, receivers, and network interface devices; global positioning system transmitters; network operating system programs namely local area network operating software; power distribution systems namely distribution boxes for electrical power; distribution transformers, electrical power distribution blocks, power distributing boxes, electricity distribution consoles, power distribution panels; video imaging systems namely audio-video receivers; audio/video cable connectors; audio/video cables; interface circuits for video cameras; video baby monitors; video cable adapters; video monitors; video receivers; video telephones; video transmitters; closed circuit television cameras; video surveillance systems namely electric and electronic video surveillance installations, video surveillance cameras; wireless controllers to remotely monitor and control the function and status of security systems namely door openers, security locks of gates and doors, security cameras, alarm systems, motion detectors, window and door sensors, coolant-temperature sensors, LED position sensors, pressure sensors, temperature sensors, timing sensors, security and fire alarms, emergency warning lights; wireless controllers to

remotely monitor and control the function and status of other electrical, electronic and mechanical devices or systems namely voltage regulators for electric power, electric voltage transformers, electric transformers, electric storage batteries, electric resistors, electric relays, electric plugs, electric light dimmers, electric converters, electric control panels, electric circuit closers, electronic integrated circuits, electronic conductors for integrated circuits, electronic circuits, electronic access control systems for interlocking doors, electric and electronic video surveillance installations, timing sensors, thermal sensors, optical sensors, LED position sensors, touch sensitive switches, timer switches, pressure switches, light switches, high-frequency switching power supplies, electric switch plates, dimmer switches.

Goods

(1) Computer software for enabling cross platform video capture and play back on mobile devices, namely, cellular telephones, laptops, netbooks, portable computers, hand held computers, personal digital assistants, hand-held digital audio and video players, desktop computers, internet browsers and television in three dimensional, virtual reality, augmented reality, holographic and 360 degree views.

(2) Computer software systems for the capture, formatting, recording, distributing, and recreating of video and imaging for augmented reality, virtual reality, holographic, 3D and 360 degree imaging environments. Computer software development tools for the design and development of virtual reality, augmented reality, holographic, 3D and 360 imagining environments, and the streaming and playback of virtual reality, augmented reality, holographic, 360 degree imaging file types incorporating three-dimensions and delivered to mobile, desktop computers and television devices via online streaming, downloadable application or cable broadcasting.

(3) Computer software for processing and streaming digital visual images and video.

(4) Computer software for creating and editing digital visual images and video.

(5) Computer software used to capture and play back 360 degree virtual reality images in three dimensions.

(6) Headsets for use with the immersive and panoramic play back of three dimensional, virtual reality, augmented reality, holographic and 360 degree images.

(7) Mobile phones for use with the immersive and panoramic play back of three dimensional, virtual reality, augmented reality, holographic and 360 degree images

(8) Digital cameras for use with the immersive and panoramic play back of three dimensional, virtual reality, augmented reality, holographic and 360 degree images

(9) Downloadable computer software used to capture, edit, convert, stream, image, display, process and play back three dimensional, virtual reality, augmented reality, holographic, 360 degree, equirectangular, cubic and panoramic still images and video images.

(10) Computer games

(11) Spherical video camera and lenses that capture 360 degree panoramic images and virtual reality visual data in digital form and play back such images and data in digital form via live video streaming.

(12) Video player that allows the user to capture, view and live stream three dimensional, virtual reality, augmented reality, holographic and 360 degree still images and video images.

(13) Computer software and hardware that enables the integration and conversion of three dimensional, virtual reality, augmented reality, holographic and 360 degree still images and video images.

(14) Computer games for use on mobile devices, namely laptops, netbooks, portable computers, hand held computers, personal digital assistants, hand-held digital audio and video players and cellular phones

SERVICES

(1) Advisory and consultancy services in the field of product development and quality improvement of software.

(2) Computer hardware and software design services.

(3) Computer programming services.

(4) Computer programming and software design.

(5) Computer graphic imaging services.

(6) Design and development of virtual reality and augmented reality software and virtual reality and augmented reality games for simulating a virtual world.

(7) Providing software consultancy services relating to the integration and conversion of three dimensional, virtual reality, augmented reality, holographic and 360 degree still images to third party computer hardware and software platforms, social media platforms and online video platforms.

Certification Mark Text

The class of persons who may perform the services are licensees of the applicant, namely, private career training institutions and language instruction institutions operating in British Columbia ('Institutions') that hold a current and valid designation certificate issued by Her Majesty the Queen in right of the Province of British Columbia, as represented by the Minister of Advanced Education, Private Training Institutions Branch, under the authority of the Private Training Act, S.B.C 2015, c. 5 and associated regulations (collectively, the 'Legislation'), which may be found at: http://www.bclaws.ca/civix/content/complete/statreg/1922970521/15005_a/?xsl=/templates/browse.xsl. In order to be eligible to become a licensee of the applicant, the Institution must, at a minimum, meet the requirements of, and not be excluded by, the Legislation; have at least one of its programs of instruction in British Columbia approved by the Registrar of the Private Training Institutions Branch in accordance with the Legislation; and comply with the applicable compliance standards established under the Legislation, including any standards with respect to the Institution's instructors and staff, student enrolment contracts, fees and tuition, and student records. A current copy of the applicant's Private Training Act Policy Manual setting out these standards has been filed with the Trade-marks Office and can be found at: <http://www.privatetraininginstitutions.gov.bc.ca/sites/www.privatetraininginstitutions.gov.bc.ca/files/files/policy-manual.pdf>.

Goods

(1) machines, looms and industrial robots for working and shaping wood, metal, glass and plastic material and metals, namely, galvanizing machines electroplating machines, shaping machines for metalworking, glassware manufacturing machines, injection molding machines, forging machines; heavy machinery, robotic mechanisms for working and shaping wood, metal, glass and plastic material and metals, namely, wood cutting machines, beating machines, glass cutters, plastics molding machines, cutting machines for metalworking, bending machines for metalworking, boring machines for metalworking, broaching machines for metalworking, plywood clipping machines, plywood jointing machines; lifting, conveying and transportation machines, robotic mechanisms with the same function, namely, escalators, cranes, mechanical railed lifting conveyors, elevator lifts, truck lifts; machines and robotic mechanisms used in the agriculture and viticulture and in processing cereals/fruits/vegetables/food, namely, agricultural reaper machines, agricultural seed planting machines, tilling machines for agricultural purposes; electrical engines, namely, aeronautic engines, their parts and equipment, namely, electric door openers-closers, cargo lifting derricks, stair lifts, and conveyors for use in airplanes ; bearings, ball-bearings or roller bearings, namely, anti-friction bearings for machines, machine bearings, bearings as machine parts, bearings for transmission shafts, engine bearings, self-oiling bearings; tire mounting and dismounting machines; alternators, namely, starter alternators, generators, namely, AC generators, DC generators, current generators, electric power generators, generators for industrial machinery, generators for emergency use, generators of electricity, generators working with solar energy, namely, solar energy electricity generators, solar-powered electricity generators; painting machines, automatic spray guns for paint, electric punching machines and punches for punching machines, electric glue guns, guns for compressed air or liquid spraying machines, electric hand drills, motor hand saw, jigsaw machines, spiral machines, compressed air pumps, compressors, namely, air compressors, centrifugal compressors, compressors for industrial machinery, vehicle washing installations, and robots with the same function as the above-mentioned machines and tools, namely, industrial robots, robotic vacuum cleaners; welding machines, electric arc welding machines, electric welding machines, cutting machines for metalworking, electrodes for welding machines and robots with the same function as the above-mentioned; printing machines, namely, 3D printers, Embossing printing machines, flexographic printing machines, intaglio printing machines, planographic printing machines, printing machines for textile; packaging machines, filling-plugging and finishing machines, labeling machines, separators, namely, machines for

separating recyclable materials and robots and robotic mechanisms with the same function as the above-mentioned machines namely, electrical apparatus for sealing plastics, namely, sealing machines for industrial packaging; textile milling, scotching, tentering or washing machines, namely, textile tentering machines, threading machines, raising machines for textile treating, rotary presses for textiles, textile calendaring machines, textile washing machines for industrial purposes, sewing machines and industrial robots with the same function as the above-mentioned machines; pumps other than parts of machines and engines, namely, gas pumps, reciprocating vacuum pumps, fuel dispensing pumps and guns for these; electrical appliances used in kitchen for chopping, grinding, crushing, whisking and milling, namely, electric food blenders, electric food choppers, electric food processors, electric coffee mills, electrical coffee grinders, electric ice crushing machines, electric juice extractors; washing machines (laundry/dishwashing machines); electrical machines for cleaning floors and carpets, vacuum cleaners and their parts; vending machines; power supply apparatus, namely, electric generators; laundry dryers, namely, machines not drying with heating method; waste management installations, namely, waste and trash conveying machines, waste material conveying machines, waste and trash separator machines, waste compacting machines, waste crushing machines

(2) forks, spoons, knives and non-electric cutlery for cutting, chopping, peeling purposes, including those of precious metals; cutting and jabbing/stabbing arms; tools and appliances included in this class used for personal care in shaving, depilation, manicure, pedicure and beauty-care, namely, hair straighteners and hair curling implements, scissors, shaving cases, shaving blades, electric and battery-powered hair trimmers, electric depilatory appliances, non-electric depilatory appliances, manicure sets, pedicure sets, non-electric hair straightening irons and non-electric hair straightening tongs, non-electric hand implements for hair curling, non-electric hair curling irons, electric shavers, non-electric shavers, beard trimmers, electric hair cutters, non-electric hair cutters, hair curling irons, hair cutting scissors; hand-operated tools for repair of machines, appliances and vehicles, and for building, agriculture, gardening and forestry, namely, electric hand drills, electric hand-held drills, hand cranked spin dryers, hand weaving looms, hand-held electric hammers; electric and non-electric irons, namely, branding irons, caulking irons, clothes irons, molding irons

(3) measuring apparatus and instruments, indicators, in particular, those for scientific research in laboratories other than for medical use, namely, fuel level indicators for vehicles, oil level indicators for vehicles, electricity meters, laboratory thermometers, flowmeters, light meters, electronic weighing scales for kitchen use, electronic weighing scales for personal use; apparatus for recording, transmission and reproduction of sound and images, namely, loudspeakers, earphones, televisions, radios, audio cassette recorders and players, compact disc players, video tape recorders and players, DVD recorders and players, blue ray recorders and players, MP3 recorders and players, car radios, AV-receivers, satellite receivers, televisions with picture tubes, televisions with LCD screens, televisions with plasma screens, televisions incorporating TFT technology, video projectors, camera video recorders, CD-players and CD audio recorders, personal digital audio and video players, digital cameras, DVD drives, optical disc drives, audio and video disc players, video recorders, hard disc audio and video recorders, Hi-Fi phonograph record players, Hi-Fi surround sound systems, stereo tuners, audio amplifiers, antenna amplifiers, audio frequency amplifiers, sound amplifiers, mobile telephones, wired telephones, video monitors, digital video projectors, wireless video and audio transmitters and receivers, radios incorporating cassette players or CD players, boom boxes, set-top boxes, radios incorporating clocks, microphones and microphone audio mixers, headphones, portable loudspeakers; magnetic and optical data carriers, namely, blank magnetic discs and data carriers, namely blank floppy discs, USB flash drives, CDs, DVDs, blue ray discs and software recorded in these, namely, computer software for database

management, computer software for processing digital images; television and phone applications, namely, downloadable applications for mobile phones to enable the streaming of movies and television shows, downloadable electronic publications, recorded to magnetic and optical media, namely, pre-recorded discs containing downloadable multimedia news podcasts, downloadable radio podcasts, downloadable electronic newspapers, downloadable electronic publications in the nature of magazines; magnetic and optical cards, namely, magnetically encoded bank cards, magnetic encoded identification bracelets, magnetically encoded gift cards; antennas, namely, antennas for radio and television, dish antennas, radio signal antennas, satellite dishes, amplifiers, namely, radio frequency amplifiers, and their parts; ticket dispensers, automated teller machines; electronic components for use in industrial manufacturing and material working machines and for use in electric apparatus for use in household and kitchen and for entertainment purposes, namely, dimmer switches, electric light switches, light switches, cable television transmitters, audio and video receivers, audiovisual receivers, cable television receivers, transceivers, circulators, logic circuits, capacitors, connectors, colour filters for liquid crystal displays, computer screen filters, display screen filters, anti-glare filters for televisions and computer monitors, oscillators, relays, transformers, resistors, semiconductors, integrated circuits, rectifiers, transistors; counters measuring amount of consumption in unit time and time clocks; protective suits and life saving apparatus and equipment, namely, ear plugs for divers, fireproof automobile racing suits for safety purposes, waterproof survival suits for the prevention of drowning, fire escape ladders, jackets for protection against accidents, irradiation and fire, inflatable lifeboats, life preservers, life-saving capsules for natural disasters; glasses, sunglasses, contact lenses and their boxes, covers, parts and accessories, namely, cords for eyeglasses, cords for sunglasses, lanyards for holding eyeglasses, nose pads for eyeglasses, nose pads for sunglasses, side shields for eyeglasses, straps for sunglasses; apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, transformers, circuits, generators, cables used for electric and electronic purposes, electric storage batteries, cellular phone batteries, camera batteries, electric accumulators, cellular phone accumulators, camera accumulators, anodes and cathodes; apparatus for warning and alarms [other than for vehicles], namely, luminous beacons for safety or warning purposes, door alarms, electronic burglar alarms, electronic door alarms, electronic window alarms, fire alarm systems, gas leak alarms, electric bells; signaling devices and apparatus used in traffic, namely, traffic-light signalling devices, radio signal antennas, rescue laser signalling flares, rotating signalling lights luminous traffic signs, mechanical traffic signs, traffic lights, radar transmitters; fire extinguishing apparatus, namely, fire extinguishers and fire engines (including fire hoses and fire hose nozzles); radar apparatus and apparatus and devices providing night vision, namely, radars, radar detectors, radar receivers, night vision goggles, sonars; refrigerator magnets, decorative magnets

(4) lighting apparatus and installations for vehicles, interior and exterior spaces, namely, automobile lights, spot lights for use on vehicles, light bulbs for directional signals for vehicles, lighting fixtures, lighting diffusers, street lights, car lamps, table lamps, desk lamps, electric lamps, floor lamps, head lamps, fluorescent lamp tubes, fluorescent lamps, fluorescent lighting fixtures, ceiling lights, wall lights, electric lighting fixtures, lighting fixtures for indoor and outdoor lighting applications, LED and OLED lamps, light bulbs, LEDs, OLEDs, torches, flashlights, lights for video cameras, vehicle lights and light bulbs therefore, LED light assemblies for street lights, signs, commercial lighting, automobiles, buildings, and other architectural uses, lamps for lighting houses, gardens and exterior spaces, landscape lighting assemblies, street lights and lamps, flood lights, LED mood lights, emergency warning lights, security lights for outdoor use, bicycle lights, aquarium lights; devices for cooking, heating and vapor producing installations and apparatus, namely, electric ovens, microwave ovens, gas ovens, electric tea and coffee makers and machines, cooking ovens, electric and gas-operated, electric and gas cooking tops for household

use, industrial and household cooking ovens, microwave ovens [cooking apparatus], electric ovens for cooking, electric cooking stoves [for household purposes], electric cooking pots [for household purposes], deep fryers, pressure cookers, gas-operated ovens for cooking, electric waffle irons, heating boilers, electric radiant heaters, electric heating fans, heat pumps, floor heaters, space heaters, hot-water space heaters [for industrial purposes and for household purposes], hot-air space heaters [for industrial and for household purposes], heating furnaces [for industrial and for household purposes], steam heaters [for industrial and for household purposes], heaters for space heating using solid fuel, liquid fuel and gas, power-operated vaporizers for industrial or household purposes, electric vaporizers for household purposes; air conditioning devices, namely, air conditioners; cooling apparatus, namely refrigerators, milk coolers, water coolers, ice-boxes, ice machines and ice making machine parts, ice cube makers, beverage cooling and ice dispensing machines, freezers, cooling units for industrial purposes and for household purposes including air cooling devices, electric coolers, electric space cooling apparatus [for household purposes], cooling installations for water; electric and gas operated apparatus, machines and devices used in cooling, drying and boiling, namely, electric and heating-operated laundry dryers, hair dryers, electric hand drying apparatus for washrooms, touchless electric hand dryers, clothes drying machines [electric, for household purposes], hair drying machines for beauty salon use, electric and gas-operated drying ovens for commercial and household purposes, hot water boilers, boilers for heating installations, commercial and industrial cookware, namely gas and electric boilers, electric boilers; sanitary installations, sanitary ware, namely, toilets, toilet bowls, toilet seats, bidets, bath tubs, sinks, shower stalls, shower mixing valves, water control valves for faucets, faucet taps, mixer taps for water pipes; water softening apparatus, water purifying apparatus, water purification installations, namely, water softening units, water purification machines for domestic use, water filtering units for domestic use, water filter units for industrial use, water distillation units, electric bath-water purifying apparatus for household purposes, electric water purifiers for household purposes, rainwater purification installations, reverse osmosis water purification units, tap-water purifying apparatus, filters for drinking water; bedwarmers and electric blankets not for medical purposes, heating cushions and pads not for medical purposes, electric or non-electric footwarmers, hot water bottles; filters and filter-motor combinations for aquariums; industrial type cooking, drying and cooling installations, namely, electric cooking pots for industrial purposes, electromagnetic induction cookers for industrial purposes, industrial cooking ovens, industrial deep fryers, industrial rice cookers, microwave ovens for industrial purposes, radiators for industrial air-conditioning purposes, window-mounted air-conditioners for industrial purposes, industrial dishdrying machines, desiccating units for drying fruits; pasteurizers and sterilizers, namely, milk sterilizers, sterilizers for water treatment, sterilizers for waste treatment, pasteurizers and sterilizers for use in foodstuff industry, dairy industry, chemical industry, beverage industry, medical products industry and pharmaceutical industry; laundry dryers

Electronic programs and computer software for data security and integrity; computer software in the fields of transaction security, payment, access control and identity; recorded computer software in the fields of securing computer tools, access controls and means of payment; security products, equipment, namely secure terminals for electronic transactions and computer software featuring functions that help secure information shared by electronic means; computer software for data storage, recording and certification in the fields of the protection and securing of identities (citizens and business partners), terminals of all kinds (for viewing, checking, testing and communication), namely video display terminals, smart terminals, telephone terminals and electronic payment terminals, infrastructures, servers, and digital and electronic transactions and transfers; securement and cryptography software in the field of securing digital transfers; downloadable computer security software; computer and information systems in the nature of electronic apparatus and instruments, namely computer software for archiving data in a digital vault; computer and information systems, namely computer software for managing citizens' identities, and protecting and securing digital identities; devices in the nature of electronic

apparatus and instruments, namely electronic and biometric burglar alarms, namely handheld biometric scanners, fingerprint scanners, and biometric voice recognition systems, for protecting and securing the identities of citizens and businesses in the field of health; computer software for protecting and securing sensitive data as well as the identities of citizens and businesses in the field of health; computer peripherals for input and output, digital and electronic certificates, for receiving, recording, searching for, downloading and restoring documents and secure envelopes from electronic vaults; application software for protecting and securing sensitive data as well as the identities of citizens and businesses in the field of health; downloadable computer software applications for protecting and securing sensitive data as well as the identities of citizens and businesses in the field of health; downloadable mobile telephone and tablet applications for protecting and securing sensitive data as well as the identities of citizens and businesses in the field of health; downloadable electronic publications in the field of protecting and securing the identities of citizens as well as businesses in the field of health.

SERVICES

Class 35

(1) Reproduction of physical and/or electronic documents; compilation of data in computer databases in the field of health; data compilation for others; management and compilation of computer databases in the field of health; data processing services in the field of health care; data collection in the fields of health, insurance, public services, and the industry of the industrial processing of data in a central file, recording, transcription, composition, compilation, and systematization of data and written communications in the fields of health, insurance, public services, and the industry of the industrial processing of data and recordings in a central file; computer file management; legal archiving of physical and/or electronic data; secure archiving services for electronic media using services for authenticating and signing electronic messages; archiving (data entry, collection and systematization) for companies, namely cloud computing services enabling the archiving of data files; consulting and information related to secure archiving; outsourcing of the document and data processing tasks of a business, in the nature of services for collecting and processing data, information, images and documents and for updating databases and image databases; cost analysis related to health care; management of files and records pertaining to the health status of individuals; administration of health care plans; administration of health care provider plans.

Class 36

(2) Electronic transfer of funds; electronic transfer of funds through electronic cards; financial analysis; financial data processing, namely financial management; financial payment services, namely electronic processing and transmission of payments and payment of bills; financial services related to insurance, namely financial evaluation for insurance purposes; financial computer data services, namely financial exchange of data between financial institutions and their customers; provision of financial information by electronic means, namely financial information provided online; health care financing; administration of prepaid health care plans.

Class 38

(3) Remote transmission of sensitive data in the fields of insurance and health via telecommunications, namely via the Internet; secure computer-assisted transmission of information in the fields of insurance and health, of messages, of sensitive data in the fields of insurance and health, and of encoded or non-encoded images; transmission of information contained in databases in the fields of finance, insurance and health or in a database server centre, in smart cards, USB keys, mobile telephones, smart telephones, tablets or terminals of all

kinds; access to sensitive data in the fields of insurance and health or to documents stored electronically in central files for remote viewing; transmission and reception of sensitive data in the fields of insurance and health, of digital signals, images and information in the fields of insurance and health, processed by computers; electronic transfer of information and data through computer networks, namely provision of multiple-user access to computer networks providing information in the fields of health, insurance, public services, and the industry of industrial data processing for the transfer and dissemination of information in the fields of health, insurance, public services, and the industry of industrial data processing; electronic data sharing, namely provision of access to an electronic database in the fields of insurance and health; sharing of documents and information in the fields of insurance and health via electronic means; sharing of sensitive data in the fields of insurance and health via encrypted systems; provision of means for connecting to a telecommunications network, a platform, computer software, and a database via logical access control, namely provision of WAN (wide area network) operating software, VPN (virtual private network) operating software, LAN (local area network) operating software, and network servers; provision of access to computer software, a platform or a database with access control through strong authentication, namely access control through a one-time authorization code or a password; provision of online access for viewing, consulting and downloading electronic documents, namely evidence files; provision of access to a remote or online software solution and a sharing platform; provision of access to online computer databases and online-accessible databases in the fields of insurance and health; provision of access to databases in the fields of insurance and health and to the Internet via telecommunications, namely via satellite and fibre optics.

Class 42

(4) Design, development, maintenance and updating of computer software, software packages, applications, computer programs, hosted and/or managed services (SaaS), databases and platforms online; computer programming services for electronic data security; updating of computer software related to computer security and computer risk prevention; computer security services for protection against unauthorized network access; electronic and/or digital certification, namely programming, implementation and/or configuration of a computer system; secure and/or advanced electronic or digital signature services; authentication of digital and/or electronic data by cryptographic means; data and transaction integrity control; trust services in the nature of authentication services, data encryption services, certificate validation services, timestamping services, strong authentication services, secure electronic archiving services and identity management services (services related to computer security) for others; electronic vault services for the electronic storage of data; technical assistance for others in the fields of the protection and securing of identities, terminals, infrastructure, servers, and electronic transactions and transfers; computer security consulting; transaction and data integrity control services; conversion of data or documents from physical to electronic media; conversion of computer programs and data; duplication of computer programs; database creation and reconstruction; secure hosting of electronic data, private keys, servers and computer platforms; testing of data and data transmission securement, checking and recognition of information and data tagging, in particular identification and checking of the authenticity and/or source of information and data (quality control); services for securing the sharing of electronic and computer data; monitoring of data, signals, images and information processed by computers.

Class 44

(5) Consulting related to health, namely medical fitness evaluation, health risk assessment and public health advisory board services; medical information services provided via the Internet, in the fields of the protection and securing of sensitive data and digital identities as well as third-party payer and health care financing services; stress and psychosocial risk prevention services;

occupational health risk assessment and prevention; compilation of medical reports [medical information]; consulting related to stress in the field of health; professional consultations related to health, in the field of the protection and securing of sensitive data and digital identities as well as third-party payer and health care financing services; consulting related to the psychological treatment of medical ailments; risk assessment studies related to health; provision of support in the care of patients receiving medical treatments; medical evaluation services; psychological counselling services for personnel; telemedicine services.

ETALBOND COMPOSITE MATERIALS

Image Description (Vienna)

- Rectangles
- Other irregular parallelograms, trapezia and quadrilaterals, quadrilaterals containing one or more rounded corners
- Two quadrilaterals, one inside the other
- Quadrilaterals containing one or more letters
- Quadrilaterals with dark surfaces or parts of surfaces
- Backgrounds divided into two, vertically
- White, grey, silver
- Blue

Colour Claim

Colour is claimed as a feature of the trade-mark. The upper left-hand corner of the mark is grey (PANTONE 422). The large rectangle with a curved upper left-hand corner is outlined in blue (PANTONE 2945). This rectangle is divided into three stripes. The top and bottom stripes are white. The middle stripe is divided into two colours, such that the larger rectangle on the left-hand side containing the word ETALBOND is blue (PANTONE 2945) and the smaller rectangle on the right-hand side is grey (PANTONE 422). The word ETALBOND is white. The words COMPOSITE MATERIALS are blue (PANTONE 2945). PANTONE is a registered trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of an image of a device and various wordings. Above the image of the device are, on the left side, the wordings 'DOOR STABILIZER' in black and a number of Japanese characters in black, and on the right side, the word 'AISIN' in black. The image of the device is displayed on a background consisting of a gradient of shades of white, grey and black from top to the bottom. The image of the device consists of two spacers at the top in black, silver rectangular portion with the word 'ISIN' in blue, an extruding portion in silver in the middle, and two black portions within the rectangular portion which sits on a silver base. The words 'Rigid Ride' and 'Door Stabilizer' are superimposed over the right side of the image of the device and are the colour gold.

Foreign Character Translation

As provided by the applicant, the translation into English of the non-latin characters in the trademark design mean "door stabilizer".

Foreign Character Transliteration

As provided by the applicant, the transliteration of the non-latin characters in the trademark design is "Do A Su Ta Bi Ra I Za".

Goods

Door stabilizers for land vehicles; door stabilizers for land vehicles used with door lock strikers; vehicle door fixing apparatus, namely, electrical and manual vehicle window regulators, vehicle electrical power sliding door system, vehicle electrical power back door/hatch system, vehicle electrical power door latch, vehicle electrical slide door closer, vehicle door hinges, vehicle door check, vehicle outside door handles, vehicle inside door handles, vehicle door beams; doors for vehicles and their parts and fittings; structural parts of automobiles

ANTI-BREAKAGE + KERATIN OIL OGX BEAUTY PURE AND SIMPLE X

Image Description (Vienna)

- Other branches with leaves, with or without fruit
 - One line or one band
 - Curved lines or bands (except a 26.11.13)
 - Oblique lines or bands
 - Letters presenting a special form of writing
 - Letters underlined, overlined, framed or barred by one or more strokes
 - Rectangles
 - Quadrilateral figures with one or more convex or concave sides -- Note: Not including elongated surfaces with one or more convex or concave sides (25.3.1).
 - Several quadrilaterals juxtaposed, joined or intersecting
 - Quadrilaterals containing one or more letters
 - Labels, collarettes (bottle-neck labels) -- Note: Not including tie-on labels (20.5.15).
 - Other labels
 - Quadrilaterals with dark surfaces or parts of surfaces
 - Red, pink, orange
 - Yellow, gold
 - Black
 - Green
-

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours burgundy, buff, orange, yellow, black, green and gold are claimed as a feature of the trademark. The background of the label is burgundy. The words 'anti-breakage +' are buff. The word 'keratin' is orange. The word 'oil' is yellow. The letters 'ogx' are primarily black but a green swish extends across the 'g' and the 'x', forming part of the 'x'. The words 'beauty pure and simple' are black. The words 'beauty pure and simple' are black. The letters 'ogx' and the words 'beauty pure and simple' appear on a gold background. The gold background is approximately trapezoidal in shape. The top and bottom lines of the trapezoid are parallel to each other but the left and right lines of the trapezoid curve inwardly in a downward direction. Two orange leaf designs appear on the gold background, one on each side of the composite of 'ogx' and 'beauty pure and simple'. The red outline does not form part of the trademark but only serves to show the shape of the label.

Image Description (Vienna)

- Other branches with leaves, with or without fruit
- One line or one band
- Curved lines or bands (except a 26.11.13)
- Oblique lines or bands
- Letters presenting a special form of writing
- Letters underlined, overlined, framed or barred by one or more strokes
- Rectangles
- Quadrilateral figures with one or more convex or concave sides -- Note: Not including elongated surfaces with one or more convex or concave sides (25.3.1).
- Several quadrilaterals juxtaposed, joined or intersecting
- Quadrilaterals containing one or more letters
- Labels, collarettes (bottle-neck labels) -- Note: Not including tie-on labels (20.5.15).
- Other labels
- Quadrilaterals with dark surfaces or parts of surfaces
- Red, pink, orange
- Yellow, gold
- Black
- Green

- White, grey, silver

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours orange, pink, yellow, black, white, green and grey are claimed as a feature of the trademark. The background of the label is orange. The words 'reviving + vitamin' are yellow. The capital 'E' is pink. The letters 'ogx' are primarily black but a green swish extends across the 'g' and the 'x', forming part of the 'x'. The words 'beauty pure and simple' are black. The letters 'ogx' and the words 'beauty pure and simple' appear on a grey rectangular background. Two white leaf designs appear on the grey background, one on each side of the composite of 'ogx' and 'beauty pure and simple'. The red outline does not form part of the trademark but only serves to show the shape of the label.

PRESOTEA A XIAN CHA DAO TAO

Image Description (Vienna)

- Stains, spots, blots, brush strokes
- Other leaves
- Stylized leaves
- Two to four leaves
- Ellipses
- Several circles or ellipses, juxtaposed, tangential or intersecting
- Letters presenting a special form of writing
- Letters linked to or containing a figurative element -- Note: Letters representing a human being or a part of the human body, an animal or a part of an animal's body, a plant, a heavenly body, a natural phenomenon or an object are classified in division 27.3.
- Inscriptions in Chinese, Japanese or Korean characters
- Black
- Green
- Yellow, gold

Colour Claim

Colour is claimed as a feature of the trade-mark. The word Presotea and the Chinese characters are in black. The left leaf is varying shades of green starting with darker green along the top left

edge and gradually fading to lighter green towards the bottom right. The outline of the right leaf where it intersects with the left leaf is also darker green. The right leaf and the demarcated portion at the bottom of the left leaf are yellow.

Foreign Character Translation

As provided by the applicant, the English translation of the three Chinese characters appearing in the trademark are as follows: 'XIAN' translates to 'fresh; new; bright', 'CHA' translates to 'tea' and 'DAO' translates to 'road; path; way; religion-Tao; principle; method'.

Foreign Character Transliteration

As provided by the applicant, the transliteration of the first, second and third Chinese characters are respectively 'XIAN', 'CHA' and 'DAO'.
