Trademarks Journal

Vol. 67 No. 3444

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(6) Leather and imitations of leather, and goods made of these materials and not included in other classes, namely, luggage, wallets, purses; animal skins, hides; trunks, bags and travelling bags namely, backpacks, bumbags, canvas carry bags, gear bags, bags for carrying food, handbags, overnight bags, soft brief case bags, toiletry bags, single bottle bags, courier bags, rucksacks, trunks, shopping bags, school satchels, unshaped sports bags, unshaped ball and shoe bags, unshaped kit bags; sleepover bags; luggage tags; wallets; key cases; pet collars, dog coats, animal leads; umbrellas and parasols; walking sticks

Class 20

(7) inflatable chair

Class 21

(8) Containers for household and kitchen use, namely, drinking glasses, mugs, beer mugs, flasks, tankards, mason jars, drink bottles for sports, ice buckets, refuse bins, dust bins and lunch boxes; household and kitchen utensils, namely, pot and pan scrapers, rolling pins, spatulas, turners,

whisk, scrubbing brushes and bottle openers; crockery, namely, pots, dishes drinking cups and saucers, bowls, serving bowls and trays; drink coasters; glassware, porcelain and earthenware not included in other classes, namely, drinking glasses, mugs, dishes, bowls; isothermic bags for keeping foodstuffs cool

Class 28

(9) Games and playthings, namely, board games, card games, chess games, dice games, action figures, ball games, puzzle games, return tops, bubble making wand and solution sets, jump ropes, twirling batons and balls for game; toys, namely, toy vehicles, toy cars, dolls, jigsaw puzzles, board games, card games, playing cards, electronic toys and equipment for playing electronic games; hand held video games; hand-held units for playing electronic games; self contained apparatus and instruments for playing games, namely, mechanical games, electronic games, computer games, battery operated games, portable electronic games, electronic games with a built-in display, hand held portable self contained electronic unit for playing games; inflatable hand being a toy, return tops, golf bags, golf carry bags, miniature toy model villages, felt balls, bungee balls, electric train sets, billiard balls, pool balls, snooker balls, billiard cues, pool cues, snooker cues, billiard tables, pool tables, snooker tables and parts, party balloons, flying discs; gymnastic and sporting articles not included in other classes, namely, gymnastic training stools, gymnastic vaulting horses, nets for sports, sport balls; decorations for Christmas trees; Christmas crackers

Services

Class 35

Wholesale and retail store services featuring mobile phone cases, electronics, paper, printed matter, stationery, office supplies, plastic, rubber or vinyl coverings for handheld electronic devices, household or kitchen utensils and containers, bags, sacks, clothing, footwear and headgear; online wholesale and retail stores featuring mobile phone cases, electronics, paper, printed matter, stationery, office supplies, plastic, rubber or vinyl coverings for handheld electronic devices, household or kitchen utensils and containers, bags, sacks, clothing, footwear and headgear; direct marketing services for others; electronic advertising for the retail goods and services of others through wireless electronic devices; telemarketing and mail order services featuring mobile phone cases, electronics, paper, printed matter, stationery, office supplies, plastic, rubber or vinyl coverings for handheld electronic devices, household or kitchen utensils and containers, bags, sacks, clothing, footwear and headgear

Goods

Class 07

(1) Machines and laser equipment for the preparation of three-dimensional (3D) structures by way of laser methods using printers; lasers for the manufacture of optical lenses, diffractive optical lenses and arrays, biochips, implants namely cochlea implants, masks for the preparation of structures for nano-imprint 3D laser lithography printing machines, 3D printing refinement lens and array structures for watches, clocks, pictures, third party images, bank notes and credit cards, 3D printers, 3D printer module boards.

Class 09

(2) Blank magnetic discs, blank smart cards, blank USB cards, blank audio and video cassettes; blank digital CD-ROMS, audio discs, DVDs, CDs USB flash drives and computer discs; lasers for 3D printing; lasers for lithographic printing; lasers for measuring purposes for use in 3D and 4D printing; electronic chips for the manufacture of integrated circuits; blank optical CDs and DVDs; optical fiber cables; optical fibers; optical condensers; optical lamps; optical lenses; blank optical discs for data processing; scientific and technical apparatus, namely optical mirrors; optical glass; prisms for scientific use and for use in 3D and 4D printing; optical telescopes, namely, refractors;

3D and 4D scanners, laser scanners and optical scanners; electric switches, namely differential switches and optical switches; electric switches for circuit breakers; silicon disks sold as a component of integrated circuits; fiber optic connectors; 3D printing optical contact wafers; printed circuit boards; optical objectives, namely, lenses; optical electronic parts, namely, cables; 3D printer optical filters; fiber optic couplings; optical apparatus in the nature of a deflector for changing the angle of a light beam; optical scanners; electric optical switches; Electronic and optical communications instruments and components, namely, optical transmitters for use with light conducting cables; optical sensors; Electronic and optical communications instruments and components, namely, fibre optical splice couplings; Fiber optical connectors; junction connecting sleeves for fiber optics.

Services

Class 40

(1) Custom manufacturing of third-party requests by way of laser methods and processing, namely preparing 3D structures for use in optical elements in the nature of lenses, diffractive optical elements, biochips, implants like cochlea implants, structures for the nano-imprint lithography, bank notes, credit cards, watches, clocks, and photographs in the field of photonics, life science tissue engineering, biomedical packaging; custom manufacturing of third-party requests by way of laser technique, namely, the preparation of waveguide-containing products on specially shaped surfaces for the fabrication of third-party life science tissue engineering applications, and biomedical packaging; Custom 3D printing for others.

Class 42

(2) Chemistry consultation in the fields of scanning electron microscopy and optical profilometry, research and development, material synthesis, and material functionalization; Consultation in the field of physics research and development; nano-engineering; Electronic storage of 3D imaging for others on optical media; technical design, technical measuring and technical testing services in the field of 3D printing; mechanical research services in the field of 3D printing; research and development in respect to new products for others; construction drafting; scientific research for the production and development of products containing wave guides, namely, optical transceivers and optical modulators, optical correction systems for 3D printing, micro-optics, lenses, diffractive optical lenses and arrays, Micro-Electro-Mechanical Systems (MEMS), Micro-Opto-Electro-Mechanical Systems (MOEMS), wherein the preparation of all the said products is preferably performed by way of laser technology, the production and development of 3D printing actors, biochips, microfluidic cells, tissue scaffolds and implants, namely, cochlea implants, structures for the nano-imprint lithography, refinement structures, for watches and clocks, pictures and third-party images, safety structures for bank notes and credit cards, wherein the preparation of all the said products is preferably performed by way of laser technology and for the production and development of three-dimensional products made of organic or inorganic-organic polymers, ceramic-material, glass or metal in a scale from sub nm via micrometer to cm scale or scope, respectively, in 1D, 2D, or 3D on surfaces of unlimited size and form, wherein the preparation of all the said products is performed by way of laser technology or other light-based processes, using thermoplastics and filled or unfilled organic polymers, filled or unfilled inorganic-organic polymers, glass, metals or composites and combinations of above mentioned materials.

(3) Scientific, nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking [supervision], life-saving and teaching apparatus and instruments, namely, cables for optical signal transmission, optical cables, optical receivers, optical transceivers, optical transmitters, weighing apparatus and instruments, namely, laboratory scales and balances, distance measuring apparatus, namely, measuring tapes, distribution amplifiers for audio and video signals, radio receivers and radio signal tuners, video and radio transmitters, audio receivers, video receivers and cameras; electric, electrotechnical, electronic and optoelectronic apparatus, instruments and equipment and systems consisting thereof, included in this class, namely optoelectronic couplers; Apparatus, equipment, instruments, components and assemblies consisting thereof for recording, transmission, broadcasting, receiving, reproduction, output, manipulation, editing, processing, formation, damping, distribution, conversion, blocking, equalising, transfer, filtration, measurement, command, monitoring and/or storage of signals, data, sounds, signs, images, text and/or films, namely audio-video receivers, electrical and electronic sensors, namely motion sensors, temperature sensors, humidity sensors, acoustic sensors, pressure sensors, motion sensors for security lights and proximity sensors, Antennas being communications apparatus and being components, in particular transmission antennas, receiving antennas, car antennas, car radio antennas, antennas for use on railway vehicles, radio antennas, television antennas, satellite antennas, active and passive antennas, antennas with integrated mechanical, electric, electromechanical or electronic components, namely base station antennas

with integrated electronical control and amplification elements, antennas for installation inside buildings and/or for outdoor use, namely active and passive indoor antennas, antennas for telecommunications, in particular for mobile communications, namely mobile radio antennas; Phase shifters, in particular for setting of a different radiation angle [downtilt angle] for antennas in mobile communications systems; Communications base stations equipment for cellular and fixed networking and communications applications, namely telecommunication baseband signal processors, radio frequency amplifiers, signal amplifiers, radio transmitters, satellite transmitters, radio frequency transmitters, radio receivers, satellite receivers, radio frequency receivers, electroacoustic transducers, radio frequency converters, radio frequency demodulators, radio frequency modulators, radio decoders, radio encoders, remote control for radio amplifiers, microwave frequency converters; crossover networks, namely radio frequency combiners and radio frequency couplers, computer network hubs, filters for radio interference suppression, antenna filters, band-pass antenna filters, duplex antenna filters, radio frequency repeaters, ethernet repeaters, electric relays, radio relay cables, relays for radio and TV stations, multiplexers, antenna diplexers, antenna duplexers, antenna triplexers, transceivers, antenna final amplifiers, signal splitters; controllers for signal transmission, namely ethernet controllers; Active and passive devices for cable networks and for satellite and terrestrial receivers/antennas systems, namely satellite receivers, television receivers and electronic combiners for connecting antennas and receivers for processing analogue and digital radio and television signals; Digital Video Broadcasting (DVB) transcoders, Digital Video Broadcasting (DVB) transceivers, Digital Video Broadcasting (DVB) transmodulators, television converters, Digital Video Broadcasting (DVB) converters, TV modulators, computer power supplies, modems, electronic circuits, switching matrices; control bus demultiplexers; sound equalizers, multiplexers and demultiplexers; voltage surge protectors; computers, communications computers, calculators, data processing apparatus and data processing equipment, namely card punching and sorting machines for data processing, interface cards for data processing equipment in the form of printed circuits, peripherals adapted for use with computers, namely computer mouse, computer keyboards, computer printers, webcams; Telephone, telephone extension, namely extension cables, videophone, mobile telephone, car telephone and fax apparatus and installations, namely fax machines, mobile and portable fax machines, answering machines, intercoms; monitors being parts of domestic communication and surveillance systems, namely computer monitors; image scanning apparatus, namely 3D scanners, computer scanners, image scanners, laser scanners, optical scanners; Optical, mechanical, electric, electromechanical, electrotechnical and electronic apparatus for measuring and control technology, namely laser measuring tapes, electromagnetic measuring detectors, electronic control circuits for electric heaters, distribution and receiving of signals for wired and wireless communication, namely signal amplifiers; signal processing apparatus, namely signal processors, energy supplying devices, namely voltage stabilizing power supply, energy supply assemblies, namely inverters for power supply, antenna measuring apparatus, namely antenna measurement chambers for testing wireless devices, namely cell phones, network routers, computers; Lasers, namely laser pointers; systems for sending and receiving of signals transmitted via optical fibres, namely computers, antennas for radio and television; acoustic couplers, antenna duplexers, electrical terminal blocks, connecting electrical cables, coaxial cables, cable connectors, pin and socket connectors, namely, adapter plugs, radio frequency amplifiers, electric resistors, sub-racks adapted to hold electrical apparatus, namely racks adapted for amplifiers, instruments and components parts for racks adapted for amplifiers, lightning protection and lightning current arresters, attenuators, radio frequency hybrid ring lines, computer network routers, patch cables, connector sockets, namely, connection cables, computer card adapters, adapter plates for antennas, multi-outlets socket blocks, fiber management boxes, namely, electrical connection boxes, fiber switches, namely, ethernet switches, multiplexers, multi-

switches for satellite receiving systems, cable switch boxes, electric wires and connection fittings therefor, cable sets for satellite receivers, fibre optic couplings, junction sleeves for electric cables, connections for electrical lines; Communications cables, namely, waveguides, in particular optical waveguides, fibre optic cables, and connectors therefor; Computer screensaver software, recorded or downloadable; computer software for assisting developers in creating program code for use in multiple application programs; light emitting diodes [LED]; control and monitoring equipment for LED lights, namely electrical control systems for lighting systems; external temperature controls for antennas.

Services

Class 37

(1) Installation and repair of antennas being communications apparatus and being components; installation and repair of electric, electrotechnical, electronic and optoelectronic apparatus, instruments, equipment, assemblies, namely electric control panels, electrotechnical vibration meters, electronic circuits, optical fibres cables, and parts therefor; Consultancy for installation of antennas.

Class 38

(2) Telecommunications, namely broadcasting of radio and television programs; broadcasting and transmission of data, information and programs, namely broadcasting and transmission of radio programs; electronic transmission of data including forwarding, distributing, exchanging and sending of messages and data, namely e-mail transmission services; providing access to the data transmission networks or data transmission services between networked computer systems, namely providing access to a global computer network; Providing of telecommunication services, namely providing access to a worldwide computer network, computer short messaging systems, computer networks, interactive communications networks, namely interactive teletext services; Providing of electronic mail systems for exchanging and redirecting of messages; data transmission services over telecommunications networks or broadband communication networks, namely providing internet access via optical fibre broadband networks; data transmission via telecommunication, telematic or broadband communication networks, namely providing Internet access via wireless broadband networks; data transmission or data transmission services over broadcast networks, namely providing electronic data, namely digital images and digital videos featuring television shows and movies via broadcast wireless transmitters and antennas; online services, namely instant messaging services; providing telecommunication channels for teleshopping services, namely broadcasting teleshopping programs; Rental of data transmission networks, namely, mailboxes, e-mail services; rental of antennas being communications apparatus and being components; setting up data transmission networks, namely, mailboxes, e-mail services, internet providing services.

Class 42

(3) Engineering services, namely electrical engineering, mechanical engineering; technical planning, design and development of antennas being communications apparatus and being components; technical planning, design and development of electronic printed circuit boards and radio frequency equipment consisting of it; design of radio frequency antennas; technical planning, design and development of data transmission networks, namely, mailboxes, e-mail services, wireless networks; Rental of electric, electrotechnical, electronic and optoelectronic apparatus, instruments and equipment, namely electric control panels, electrotechnical vibration meters, electronic circuits, optical fibres cables and radio frequency antennas parts therefor; Development,

design, creation, updating and rental of computer software; Providing nondownloadable software for operating wireless Internet networks; Computerized data storage, namely cloud computing provider services for general storage of data.

Colour Claim

Colour is claimed as a feature of the trademark. The letters AVL are white on a blue rectangular background. Each of the five segments comprising the fanciful star design consist of a white chevron starting in the center of the design, followed by a light blue chevron and topped with a white circular shaped element. The colours blue, light blue and white are claimed as features of the mark.

Goods

Class 07

(1) Drive chains and drive chain structural parts for ships and boats; internal combustion engines for ships and boats; internal combustion engines for experimental purposes with and without exhaust turbochargers, having exhaust gas recirculation and having storage of combustion gas for ships and boats; electric motors and parts thereof for ships and boats; hybrid drives and hybrid motors for ships and boats; clutches and apparatus for power transmission, namely torque converters for ships and boats; compressors, namely air compressors, centrifugal compressors, gas compressors, electric compressors, compressors for industrial machinery

Class 09

(2) Fuel cells, batteries and electric accumulators for vehicles; computer programs, software and control programs for the operation and testing of internal combustion engines; computer programs, software and control programs for the study of exhaust gas emissions, their occurrence and reduction; computer programs, software and control programs for detecting and analyzing strains, stresses, oscillations, noise generation, noise propagation, and noise emission from land vehicle powertrains; computer programs, software and control programs for testing, monitoring and analyzing external air flow of moving parts and bodies, of land, air, and sea vehicles; computer

programs, software and control programs for flow processes and combustion processes and fuel-mixture generation and charging processes and fuel-mixture laminating processes within an engine; computer programs, software and control programs for flows in enclosed spaces generated by air conditioners; computer programs, software and control programs for powertrain and vehicle testing to simulate thermodynamic processes, flows, temperature and pressure curves, the temperature distribution in solid bodies, in particular in components of internal combustion engines and their assemblies, of combustion and detonation procedures; computer programs, software and control programs for testing the combination or conjunction of simulation programs for developing powertrain systems; computer programs, software and control programs for the evaluation and development of engines, gear drive, transmission topologies of land, sea and air vehicles; computer programs, software and control programs for the evaluation and assessment of the diesel and gasoline engine exhaust of boat engines, ship engines, airplane engines and motor vehicles; computer programs, software and control programs to assist the test engineer during the performance of the calibration of boat engines, ship engines, airplane engines and motor vehicles; computer programs, software and control programs the diagnosis and monitoring of motor vehicle batteries and fuel cells; computer programs, software and control programs for the assessment, simulation and development of electric motors, their power electronics and hybrid drive trains and drive gears for motor vehicles; computer programs, software and control programs for the evaluation, simulation and analysis of driving behavior of motor vehicles; computer programs, software and control programs for the for the thermodynamical assessment of internal combustion engines; computer programs, software and control programs for providing comparative evaluations of vehicle drive chain characteristics; computer programs, software and control programs for the automated delineation of test runs for the behavior of drive chains and motor behavior; computer programs, software and control programs for the for retracing of reproducible test runs of the test track or real tracks on the roller dynamometer; computer programs, software and control programs for the management of the operational procedure in an engine and powertrain test facility, namely order processing of test orders, in particular the management of the sequences of operation, management of test and measuring equipment, scheduling of test orders, test beds, measuring instruments and personnel; computer programs, software and control programs for the management, assessment and analysis of vehicle engine and vehicle powertrain test data, in particular for the operation of web shops for vehicle engine and vehicle powertrain spare parts; software for calibration, for simulation and analysis of safety-related systems of vehicle engines and powertrain systems; diagnostic and monitoring apparatus and instruments for vehicle batteries, namely battery acid testers and ammeters; diagnostic and monitoring apparatus and instruments for externally and internally driven internal combustion engines, namely automotive analyzers for testing engine performances and electronic circuits; sensors, measuring probes and battery electrolyte tester for measuring, probing and monitoring the concentration of electrolytes in electric storage batteries; sensors, measuring probes and battery electrolyte tester for measuring, probing and monitoring the hydrogen ion concentration in electric storage batteries, in exhaust systems of vehicle engines; sensors, measuring probes and battery electrolyte tester for measuring, probing and monitoring the carbon dioxide partial pressure in electric storage batteries, in exhaust systems of vehicle engines and in automatic engine test stands; sensors, measuring probes and battery electrolyte tester for measuring, probing and monitoring the oxygen partial pressure in electric storage batteries and in exhaust systems of vehicle engines and in automatic engine test stands; fiber optical sensors and instruments for simultaneous measurement of various parameters, namely oxygen partial pressure, carbon dioxide partial pressure, hydrogen ion concentration, concentration of electrolytes in electric storage batteries, in exhaust systems of vehicle engines and in automatic engine test stands; electrochemical electrodes for use in electric storage

batteries, in exhaust systems of vehicle engines and in automatic engine test stands; micro electrodes for use in electric storage batteries, in exhaust systems of vehicle engines and in automatic engine test stands; micro-optical and micro-electrochemical sensors with evaluation electronics, namely, pressure sensors, proximity sensors, velocity sensors and thermal sensors for use in electric storage batteries, in exhaust systems of vehicle engines and in automatic engine test stands; microwave interferometers; microwave sensors for use in electric storage batteries, in exhaust systems of vehicle engines and in automatic engine test stands; optical sensors; capillary electrodes; electrode testing devices, namely electrode testing meters; calibrating apparatus and instruments for sensors and measuring devices, namely industrial calibration sensors; devices for measuring the composition of exhaust, namely exhaust gas analyzers; devices for measuring the pressure vibrations in liquids, namely manometers; devices for measuring the structure-borne noise and airborne noise, namely decibel meters; software for the evaluation and analysis of driving behavior of motor vehicles; software for the thermo-dynamical evaluation of combustion engines; measuring instruments for determination of the resonance behavior of piezoelectric pressure sensors; piezoelectric resonators; piezoelectric and electro-acoustic components, namely, piezoelectric pressure sensors, piezoelectric resonators and piezoelectric switches for use in test stands and vehicles; electro-optical measuring apparatus and instruments for studying flow phenomena in liquids and gases; velocity measuring apparatus and instruments, namely sensors for determining velocity, torsional vibration measuring apparatus and instruments, namely, torsional vibration measuring sensors; laser-optical instruments for studying flow phenomena in liquids and gases, acceleration sensors, pressure sensors, pressure regulators for vehicle engines and for automatic engine test stands, flow rate sensors; flow rate regulators for vehicle engines and for automatic engine test stands; electric charge amplifiers, namely power amplifiers; electronic liquid level measuring devices, namely, liquid level measuring transducers and liquid level measuring sensors; velocity regulators for vehicles, for engines and for automatic engine test stands; high-pressure sensors; capacitive distance measuring instruments for top dead center of piston engines; capacitive and inductive measuring transducers; force encoder, namely, chassis dynamometers for testing vehicles; light barriers, namely optical sensors; position encoders for the tracking the rotary position of an engine shaft; densitometers, temperature measuring devices, namely temperature gauges and temperature sensors; Automotive test beds, test machines, test benches and testing equipment, namely, component testers, alternator testers, starter testers, diode and rectifier testers, voltage regulator testers, combination alternator, starter and battery testers, solenoid testers, hybrid motor, generator and variable frequency drive testers, hybrid motor test stands for laboratory, durability and production testing, HV-EV motor and controller test systems comprised of load motors, power analyzers, test beds, testing software, electronics, power supply, battery simulator, Motor Controller and Inverter testers; Electric Powertrain Testing Systems comprised of load motors, power analyzers, test beds, testing software, electronics, power supply, battery simulator; Engine Simulator test systems comprised of load motors, power analyzers, test beds, testing software, electronics, power supply, battery simulator, starter durability testers, start stop system starters, dynamometers, brake assist system testers, machines for dynamic testing of vehicle components, namely, drivelines, axels, drive trains, transmissions, gear boxes, brakes, engines, camshafts, crankshafts, tire and wheels, fans, alternators, drive shafts, turbo chargers, pumps; Vehicle gear box testing machines; vehicle automatic transmission testing machines; Vehicle emissions testing machines; partially and completely automatic engine test stands; power brakes for test stands; monitoring instruments for the operating state of internal combustion engines, namely testing equipment for testing emission, pressure, temperature, noise, fuel consumption and engine speed; instruments and devices for determining the concentration of a material contained in a substance, namely concentration meters ; static and dynamic calibration equipment for calibrating high-pressure sensors power electronics for electric motors, namely

electronic power supplies for driving electric motors

Class 12

(3) Apparatus for locomotion by land, air or water, namely cars, automobiles, trucks, motorcycles, all-terrain vehicles, buses, ships, boats, airplanes; drive chains for vehicles and drive chain structural parts therefore for land vehicles; electric motors and parts thereof for land vehicles; hybrid drives and hybrid motors for motor vehicles; clutches, shifting clutches and devices for power transmission for land vehicles; internal combustion engines for land vehicles; internal combustion engines for experimental purposes with and without exhaust turbochargers, having exhaust gas recirculation and having storage of combustion gas for land vehicles

Services

Class 37

(1) Maintenance of internal combustion engines and motor vehicles

Class 41

(2) Organization and performance of training courses and classes for company personnel and guest engineers in the field of engine design, engine research and engine development; organization and performance of training courses and classes for company personnel and guest engineers in the field of drive chain development and the development of drive chain components; organization and performance of training courses and classes for company personnel and guest engineers in the field of measurement technology of engine research, engine development, drive chain development and the development of drive chain components; combustion photography and high-speed photography in combustion chambers

Goods

Class 01

(1) Chemical products for industrial and scientific purposes, namely, chemical additives for oil well drilling fluids, chemicals used in oil drilling, chemicals for absorbing oil, oil-purifying chemicals, oil-separating chemicals, chemical additives for fracturing fluid for use in oil and gas wells; chemical products for use in the production of motor fuels, marine engine oils, diesel fuel, gasoline, heating oil and fuel oil; polymers for use in the manufacture of paints, and for use in water and soil treatment, unprocessed polypropylene resins and polyethylene resins; fire extinguishing compositions; hydrogen; methanol.

Class 04

(2) Petrol, petroleum products, namely, gas oil, crude oil, refined crude oil, fuel-oil and fuels derived from crude oil, dry gas, namely, natural gas condensates; producer gas (synthesis gas); oils and greases for industrial purposes.

Class 06

(3) Offshore drilling platforms made primarily of metal; articles of metal for use in the drilling of offshore oil or gas wells, namely, fluid storage tanks; offshore drilling platforms primary of metal.

Class 07

(4) Wind mills, offshore wind mills, wind power plants, offshore wind power plants, wind turbines, wind mill towers and wind mill masts, vanes for wind mills; installations and machines for (offshore) drilling, namely, drilling rigs, as well as parts therefore; gasification systems and plants, namely, exhaust gas treatment systems for diesel engines; gas compressors; oil and gas production equipment, namely, slurry blender machines for use in oil and gas well hydraulic fracturing operations.

Class 09

(5) Computer software for use in the fields of energy, chemicals, oil and gas, namely, computer software for the collection of statistical production data for oil and gas field operations, computer software for oil and gas reservoir analysis; apparatus and equipment for exploitation of oil and gas, namely, oil and gas well downhole survey and measurement equipment; seismic imaging and gravimetric monitoring apparatus and equipment, namely, seismic detectors, seismic exploration machines, gravimeters; computer software and computer apparatus and equipment for wind mills, namely, software for the remote monitoring and control of windmills, and computerized calibrating equipment for wind mills; electronic control and surveillance apparatus in the nature of software for generators for automatic coupling of generators, automatically starting after power outage, and

voltage surge protection against lightning; micro processors for control and voltage regulation, for control of vibrations, phase condition and rotor speed, for control of efficiency, of temperature, of wind direction and of wind velocity, all related to wind mills.

Services

Class 35

(1) Marketing research, wholesale in respect of oil, petroleum, gas, chemical products for the oil and gas industry, alcohol fuel, methanol.

Class 36

(2) Payment service for C02-quota, namely, for enabling users to purchase and sell greenhouse emissions credits via a website; C02 financial management services; emission trading, namely, commodity exchange services, namely, buying, selling, and trading energy, renewable energy certificates, carbon offset credits, and emission credits; insurance services and financial services, namely, financial analysis and research services, financial appraisals, financial planning and financial management; capital investment; financial sponsorship of individuals within sports, culture and education, namely, soccer competitions, hockey competitions, music competitions, community festivals, art exhibitions, cycling races and competitions and computer technology and natural science competition and projects.

Class 37

(3) Building, installation, maintaining and repairing services related to oil-platforms and oil pipelines, oil and gas production and refining facilities, oil and gas storage facilities, gas pipelines and equipment related thereto, offshore oil and gas installations and subsea oil and gas installations; drilling and servicing of oil and gas wells; oil and gas well pumping; mining services; oil sands mining; setting up, supervision and bringing into operation of oil and gas fields, construction project management services in the field of construction of offshore oil and gas facilities, namely, installations for the extraction, transport, storage and processing thereof, process and industrial plants and installations, buildings, machinery and equipment; construction, installation, maintenance and repair of windmills and wind power plants, of offshore wind mills and offshore wind power plants and of wind turbines, mill towers, mill masts and of vanes.

Class 39

(4) Transport of fuel, oil, petroleum and gas by train and pipeline; transportation of oil, petroleum, gas, chemical products for industrial and scientific purposes, alcohol fuel and methanol through pipelines; transport of oil, gas and oilsands by pipeline; storage of ships; supply chain logistics and reverse logistics services consisting of the transport and storage of oil, petroleum and gas by air, rail, ship or truck.

Class 40

(3) electronic controllers for pumps and motors; devices for measuring or regulating the condition of pumps, namely, temperature sensors, vibration meters, flow meters, pressure gauges; computer software for use in controlling automatic valves or pumps; computer software for use in sizing, selecting, and configuring pumps or valves; computer software for the selection and design of fluid handling products; fluid flow regulators; fluid pressure regulators; pressure regulators and combination air filter-regulators for pneumatic instrument and tool supply systems; electro-pneumatic transducers; positioners for actuators; gas regulators; pressure switches; temperature switches; thermowells; electrical junction boxes; Electrical, electronic and fiber optic connectors and connector assemblies and structural parts thereof; Electrical and fiber optic cable harnesses and their structural parts; Cables and cable assemblies for electrical and optical signal transmission systems; Cable connectors; Plug connectors; Plug-in connectors; Power connectors; Connectors for electronic circuits; Electrical connection boxes; Electrical receptacles, electrical switches; electrical feed-through systems for oil and gas wells consisting primarily of electrical connectors, electric cable, fluid seals and fittings; non-power operated hand tools, namely, electrical contact crimping tools, electrical conductor and insulation crimping tools, electrical contact extraction and insertion tools; electronic controllers for vehicle seats; manually operated metal valves, namely, solenoid valves

Class 11

(4) water purification units; water and wastewater treatment equipment, namely cartridge filtration units and replacement filter cartridges, reverse osmosis filtration, purification, and/or desalinization units and replacement reverse osmosis membrane filter cartridges, and demineralization units; water sterilizers

Class 12

(5) shock absorbers and vibration dampeners for industrial machines and land vehicles; air springs; brake shoes, brake pads and backing plates

Class 17

(6) non-metal fluid storage tanks; non-metal piping, tubing and fittings

Services

Class 35

(1) wholesale, retail and on-line ordering services featuring replacement parts for pumps and industrial rotating equipment; inventory control for all types of pumps and rotating equipment

Class 37

(2) servicing of transportation products and equipment, namely, shock absorbers and vibration dampeners, air springs, brake shoes, brake pads and backing plates, and fuel regulators; servicing of fluid handling control and transfer products and equipment, namely, pumps, valves, and piping; servicing of electrical and electronic products and equipment, namely, electronic connectors, switches, regulators, sensors, electrical outlets, electrical plugs, meters, and cables

Class 40

(3) manufacture of pumps and industrial rotating equipment, and parts and prototypes therefor, to the order and specification of others

Class 42

(4) rendering advice and providing information over a worldwide computer network concerning fluid handling control and transfer products; rendering advice and providing information over a worldwide computer network concerning electrical and electronic products and equipment, namely, electronic connectors, switches, regulators, sensors, meters, and cables; rendering advice and providing information over a worldwide computer network concerning transportation products and equipment, namely, shock absorbers and vibration dampeners, air springs, brake shoes, brake pads and backing plates, and fuel regulators; Research, development, design, technical consultation, and testing services for others in the fields of transportation products and equipment, namely, shock absorbers and vibration dampeners, air springs, brake shoes, brake pads and backing plates, and fuel regulators; Research, development, design, technical consultation, and testing services for others in the field of fluid handling control and transfer products and equipment; Research, development, design, technical consultation, and testing services for others in the field of electrical and electronic products and equipment, namely, electronic connectors, switches, regulators, sensors, electrical outlets, electrical plugs meters, and cables

Class 07

(1) Machines for molding and pressing metal, wood and plastic; machine tools for the metalworking industry; machines for the chemical industry, agriculture, mining and the beverages industry, namely, agitators for chemical processing; blending machines for chemical processing; disintegrators for chemical processing; dissolving machines for chemical processing; emulsifying machines for chemical processing; extracting machines for chemical processing; separating machines for chemical processing; sorting machines for chemical processing, agricultural aircraft spray nozzles; agricultural balers; agricultural cultivators; agricultural elevators; agricultural equipment for seeding; agricultural land fertilizing equipment; agricultural plows; agricultural reaper machines; agricultural seed planting machine; agricultural seed planting machines; balers for agricultural use; rubber tracks being parts of crawlers on agricultural machines; tilling machines for agricultural purposes; bits for mining machines; drills for the mining industry; extractors for mines; mine borers; mining bits; mining drill sharpeners; rubber tracks being parts of crawlers on mining machines; truck mills for mining purposes; textile machines, namely, machine tools for the textile industry; machines for dyeing textiles; printing machines for textile; raising machines for textile treating; rotary presses for textiles; spray damping machines for textile treatment; textile calendering machines; textile scutching machines; textile tentering machines; textile washing machines for industrial purposes, industrial sewing machines, construction machines, namely, concrete construction machines, packaging machines and machine tools for industrial packaging and sealing machines for industrial packaging; Motors and engines used in industrial applications; Machine coupling and transmission components (except for land vehicles); Agricultural implements other than hand-operated, namely, machine tools used in the field of agriculture; Hydraulic accumulators for storing and providing pressure for use in industrial, construction, presses, and agricultural machinery, wind turbines and in the automotive industry; Hydraulic accumulators, namely, diaphragm accumulators used between gas, the compressible gas cushion and the operating fluid in hydraulic systems, piston accumulators, accumulators for axle suspension, wheel suspension and cab suspension; Belts for machines; Rollers for printing machines; pump and valve diaphragms; Antifriction bearings for machines; Ball bearings, roller bearings and plain bearings as machine parts; Self-lubricating bearings; Bearings for transmission shafts; Journal boxes [parts of machines]; Sealing joints, namely, seals for industrial motors and engines;

Mechanical seals in the form of parts for motors and engines, namely, in the form of crankshaft seals; Mechanical seals being transmission seals, turbocharger seals and for sealing electric motors; Mechanical seals for hydrodynamic and pneumatic applications in the form of parts for motors, engines and gears; Rotary shaft seals being parts for motors and engines; Rod wipers and piston guide rings used in hydraulic and pneumatic cylinders; Guide and oil-removing machines for industrial hydraulic machines and pneumatic cylinders used in industrial machinery; Intake manifolds for land, air and sea vehicles; Parts for motors and engines of air and water vehicles, namely, shaft couplings, Transmission shafts, Journal boxes that are parts of machines; Piston rings, Guide rings, valves, and parts therefor, Bearings and Guides, belts for machines; Bellows for machines; Blow guns, namely, power blowers as parts of industrial machines; Elastic bearings for machines as noise dampening and vibration insulation parts; spring shock absorbers for machines; Elastic springs for damping noise, vibration and shock absorbing used in industrial machines; springs for damping noise, vibration and shock absorption used in industrial machines; Parts of motors for damping and vibroinsulation; Gas-distributing and valve-actuating machinery, namely, compressed air machines and pneumatic pumps; Parts for motors and engines of land vehicles, namely, bearing pins; Finished products made from vulcanised perfluoroelastomers in the form of membranes for hydraulic and pneumatic gummed chain wheels (parts of machines); membrane filters and mechanical seal membranes made from vulcanised perfluoroelastomers for use as parts of machines; hydraulic accumulators being parts of machines; Diaphragms, namely, accumulator and separator diaphragms, pump diaphragms, regulating and switching diaphragms.

Class 09

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, semiconductors; electrical conductors for electric motors; electrical conductors for transformers; electronic conductors for fuel cells; electronic conductors for integrated circuits; electronic semi-conductors; electronic semiconductors; automatic time switches; automatic transfer switches; computer network switches; cut-out switches; differential switches; dimmer switches; electric flasher switches; electric switch plates; electromagnetic switches; electronic motion sensitive switches; high-frequency switching power supplies; power switches; pressure switches electrical accumulators for machines, voltage regulators, Plug-in connectors; Plug-in connectors, namely, electrical connectors; Sheaths for electric cables; Fuel cells and parts thereof; Printed circuits; Junction sleeves for electric cables; covers for electric outlets; motion and light Sensor housings; electronic Connector housings; magnetic encoders used for the detection of position and movement in the industrial and automotive fields; Magnetic encoders for encoding.

Class 12

(3) Automobiles; Apparatus for locomotion by land, air and water, namely, aircrafts and boats; Driving gear elements, namely, gear boxes, gear wheels, gear shifts for land vehicles; Drive belts; Parts for land vehicles, namely, shaft couplings, transmission shafts, machine belts; Parts of motor vehicles, namely, shock absorbers, shock-absorbing springs, suspension springs, hydraulic springs, namely, shock absorbing springs for vehicles.

Class 17

(4) Rubber, namely, unprocessed rubber, crude rubber, gutta-percha, asbestos, mica; Plastics in extruded form for use in manufacture; Sealing and packing cord, namely, rubber cords and laces; sealing rings for sensors; Gasket support sealing rings; Artificial resins, namely, fluorocarbon resins and elastomers, being semi-finished products in the form of plates, tubes, rods, blocks, flexible pipes, not of metal, fittings, expansion joints, films for sealing purposes, filling material for reaction columns, balls, filter material in the form of fibres and porous plates for use in

manufacturing; rubber and plastic electrical tubing, having springs with corrosion-resistant coatings for sealing purposes, namely, for mechanical seals, corrugated tubes for vacuum operation; Shaft seals of polytetrafluoroethylene, gum and highly elastic and thermoplastic plastics, namely, combined with metal and other plastics, namely, lip seals for moveable parts of machines; radial shaft seals, Shaft sealing rings, Cassette seals; Rotary seals; static seals; Valve stem seals; Hydraulic brake seals; O-ring seals; Composite seals, namely, baffle seals for use in industrial machinery and motor vehicles; Butterfly valve seals; Seals for shock-absorbers and gas springs; Valve spindle seals; Seals for hydraulic braking systems; Seals for hydraulic and pneumocylinders; Sealing rings; O-rings; Axle seals; gaskets for electrical outlet plate covers; foils of metal for insulating; Hydraulic and pneumatic seals, namely, rod seals; Piston seals; Rod wiper seals; Wiper rings and guide rings for sealing against oil, grease and air in hydraulic and pneumatic cylinders; Plastics in extruded form for use in manufacture, being elastic rubber-like plastics, combined with metals and other plastics, namely, moulded parts, namely, boards, sheets and flaps, profiles, discs and washers; USIT rings, namely, sealing rings; Plug-in pieces, namely, plug connectors for housings, pipe ends and assemblies used to create a tight, lasting connection for the reliable transport of fluids, namely, seals for pipe connections; Rotary pressure seals; sealing diaphragms of elastomers; Solid silicone parts, namely, sealing rings, sealing diaphragms, Moulded parts for machine elements made of liquid silicon, namely, rubber sleeves for protecting parts of machinery; Liquid silicone sealing rings; Plastics in the form of sheets, blocks, spheres, rods and tubes for general industrial and manufacturing use; Moulded parts of polytetrafluoroethylene, namely, seals and sealants; grooved rings of Polytetrafluorethylene for use in gears in industrial machinery and motor vehicles; Static and dynamic seals; Static cylinder cover seals; V-packings as multiple lip (chevron) packing seals designed to seal static reciprocating and where the male and female adapters are used to complete a set of vees; semi-processed plastic; Non-metal seals, namely, oil seals, fluid seals, insulating seals, reinforced seals, elastomeric seals, seals for pistons and rods, namely, cups, rings, packings and gaskets, all the foregoing for sealing oil, grease and air in hydraulic and pneumatic engineering; rubber for packaging moulded seals for sealing and insulation purposes; Plates of graphitebased materials for use as sealing rings, packing seals and heat insulation; seals, and sealing support rings for sealing oil, grease and air in hydraulic and pneumatic engineering; Guide elements for hydraulic applications, namely, guide rings and bearing rings for protecting cylinder rods and pistons; Sound insulating multilayered sheets and formed parts of foam and plastics for vehicle cabins, for the building industry and for industrial machines; semi-finished Perfluoroelastomers being films, plates and rods for use general industrial and manufacturing use; Moulded semi-finished parts and finished products of vulcanised perfluoroelastomers, namely, seals and o-rings, for use in hydraulics, pneumatics and mechanical engineering; Shaped parts and moulded parts for wind turbines, of plastic and predominantly of plastic, namely, of fluorocarbon resin and elastomers; Finished products of vulcanised perfluoroelastomers, namely, insulating and sealing membranes for use in mechanical engineering.

Colour Claim

Colour is claimed as a feature of the trade-mark. The colours yellow, orange, and red are the colours that make up the image. More specifically, the belly of the bird is red, the bird's tail is a lighter shade of red, which merges into the orange colour of the wings, head, and beak of the bird. The tips of the wings merge from orange to yellow. Regarding the letters of the word Tbird, the "T" begins as a yellow, at the very left tip of the letter, and blends into an orange, with the right tip of the "T" blending into the same red which remains consistent throughout the rest of the word.
