## Vol. 67 No. 3431

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) Diagnostic reagents for use in automated test systems for medical scientific research purposes; reagents for analytical tests on samples for medical scientific research and medical testing purposes; reagents for industrial use, namely, synthesising nucleic acids, DNA, RNA and other small molecules; reagents for use in scientific tests, namely, the synthesis of DNA, RNA and other nucleic acids; reagents for use in testing and analysing test samples in the fields of molecular biology, biotechnology, microbiology and bacteriology; reagents for nucleic acid amplification; reagents for use in forensic analysis; reagents for blood grouping; reagents for use in environmental testing and environmental analysis; deoxyribonucleic acid, single stranded and double stranded deoxyribonucleic acid; ribonucleic acid; peptide nucleic acids; locked nucleic acids; nucleic acids; oligonucleotides; oligosaccharides; proteins for use in analytical scientific experiments conducted in a laboratory for scientific testing and scientific research purposes; peptides for industrial purposes, scientific purposes and scientific research purposes; Chemicals, enzymes and reagents for scientific purposes, namely, for synthesising DNA, RNA, nucleic acids and genomic material; endonucleases, polymerases, ligases, glycosylases; nucleotides, pyrimidines, purines; amino acids; saccharides; reagents for protein identification and analysis; chemicals for use in scientific tests and scientific experiments to detect diseases in plant life other than pesticides; Reagents for amphipathic membranes for scientific testing and scientific research purposes; buffer solutions, aqueous solvents, non-aqueous solvents, non-aqueous media and surfactants all for use in analytical chemistry, biochemistry, biology, biotechnology and genomic experiments and tests; silicone oils; silicone fluids; enzymes for scientific and research purposes and use in analytical tests in the fields of genomics, molecular biology, biotechnology, microbiology and bacteriology.

#### Class 05

(2) Reagents for medical and veterinary diagnosis and medical and veterinary research; reagents for laboratory tests for medical and veterinary purposes; nucleic acid amplification reagents for veterinary, medical, medical research and forensic use; reagents for immunoassay analysers for

use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; reagents for testing aqueous solutions for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; reagents for testing for susceptibility to allergies; reagents for use in medical and veterinary tests for the purposes of identifying and analysing proteins for medical and veterinary diagnostic purposes; reagents for formation of amphipathic membranes for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; buffer solutions for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; aqueous solvent for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; non-aqueous solvents for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; surfactants for medical and veterinary purposes for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; silicone oils for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; enzymes for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders; protein arrays being for use in medical and veterinary tests for the purposes of identifying and diagnosing medical conditions, diseases and disorders.

### **Class 09**

(3) Apparatus and instruments for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, namely, automated electronic sensing devices for detecting the presence, properties and identity of nucleic acid analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and analytical computer software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis for scientific testing and scientific research use; scientific apparatus, namely, computer hardware for the analysis of nucleic and polynucleic acids, namely, microarrays, and silicon chip based arrays for scientific testing and scientific research use; apparatus for the analysis of proteins namely, microarrays, and silicon chip based arrays for scientific testing and scientific research use; apparatus and instruments for the analysis of genetic information, genomic information and proteomic information, namely, automated instruments in the nature of computer hardware for detecting the presence, properties and identity of analytes, comprising cartridges, microarrays, silicon chip based arrays, ASICs (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis, and for processing, displaying and storing the information obtained from the analysis; Computer hardware for the analysis and recordal of scientific data; Automated programmable electronic scientific apparatus and instruments used to synthesize chemical compounds, small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides for use in the fields of genomics, life sciences, environmental research, agriculture, healthcare, national security and military defence; Scientific laboratory apparatus, namely, computer hardware for identifying, measuring, analysing, sequencing and synthesising small molecules, genomes, DNA, RNA and other nucleic acids, oligosaccharides, proteins and peptides for scientific laboratory research and scientific laboratory testing purposes; Electronic display interfaces, namely, audio visual screens for the display of information obtained from scientific equipment; silicon chips; scientific laboratory apparatus, namely, chips for detecting analytes for scientific testing and scientific research use; biosensor chips for scientific testing and scientific research use; scientific laboratory apparatus, namely, DNA chips for scientific testing and scientific research use; laboratory apparatus, namely, microarray

chips for use in scientific experiments for scientific testing and scientific research use; laboratory apparatus and instruments for use in laboratory analysis, namely, empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid and liquid form samples for scientific testing and scientific research use; electronic scientific apparatus, namely, computer hardware using nanopores for sensing test samples for scientific testing and scientific research use.

### **Class 10**

(4) Laboratory apparatus used in implementing medical and veterinary diagnostic testing of samples containing DNA, RNA and other nucleic acids designed to detect and diagnose pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions; medical apparatus and instruments, namely, empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid and liquid form samples for medical and veterinary testing purposes; laboratory equipment, namely chemical reactors containing chemical reagents for medical testing purposes; medical apparatus, namely, electronic nanopore sensing apparatus for detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases and conditions.

### **Services**

#### **Class 42**

(1) Scientific and technological services and research and design relating thereto, namely, consultation, research and design services in the fields of electronic nanopore sensing apparatus for direct electrical detection and analysis of molecules for use in the field of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; industrial analysis and research services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; Scientific research in the fields of biology, chemistry, biochemistry, bacteriology, medicine and veterinary science; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular analysis services, namely, biological, chemical, biochemical, bacteriological DNA, RNA, protein, polynucleic acid and molecular analysis for scientific laboratory testing and scientific laboratory research purposes; scientific and technological services, namely, synthesising chemical compounds, and chemical, biochemical, biological and bacteriological material in the form of test samples, genomes, DNA, RNA, oligosaccharides, proteins and peptides for scientific laboratory testing and analysis purposes and medical research purposes; scientific research in the field of nanopore technology for medical and veterinary purposes; genome, DNA, RNA and nucleic acid, oligosaccharide, protein and peptide synthesising services; DNA and RNA and polynucleic acid sequencing services; protein sequencing services; design and development of instruments and apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis; DNA and polynucleic acid testing for scientific research purposes; genome sequencing services for scientific research purposes.

#### **Class 44**

(2) DNA and polynucleic acid testing for medical purposes; genome sequencing services for medical purposes.

laptops, tablets, smart phones and head-mounted computer screens, and parts and spare parts thereof; computer software to enable the viewing and sharing of digital goods and merchandise, online game and game play information and statistics available on global computer networks; computer software used for uploading, downloading, storing, backing up, recording, organizing, transmitting, receiving, accessing, retrieving, managing, synchronizing and reviewing text namely text messages, data namely online game play information and statistics and log in information, email, documents, images, video and audio files namely video games, music videos, music, movies, voice messages, news and sports, multimedia content namely interactive multimedia computer games and multimedia news podcasts, and electronic location of mobile digital electronic devices; downloadable computer software, namely, downloadable mobile applications for setting up, configuring, and controlling wearable computer hardware and wearable computer peripherals, namely, virtual reality headsets and wearable smart wristbands and head-mounted computer screens; sunglasses; prescription eyeglasses; eyewear cases; spectacle parts, namely, eyewear temple decorative covers; head-mounted computer display screens, and parts and spare parts thereof; electronically encoded identity wristbands, and parts and spare parts thereof; armbands with embedded computer display screens and electroluminescent display screens for display of information, specially adapted for personal electronic devices, namely, computers, laptops, tablets, smart phones and head-mounted screen devices, and parts and spare parts thereof; microprocessor and microcontroller to be incorporated in necklaces, and parts and spare parts thereof; Global Positioning System (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices, and parts and spare parts thereof; database synchronization software; computer software for use in accessing the internet and the global computer information network; computer programs for management of passwords and log in information; electronic mail and messaging software; computer displays screens, and parts and spare parts thereof; computer monitors, and parts and spare parts thereof; computers, and parts and spare parts thereof; laptop computers, and parts and spare parts thereof; notebook computers, and parts and spare parts thereof; handheld computers, and parts and spare parts thereof; personal digital assistants., and parts and spare parts thereof; computer and video game apparatus adapted for use with television receivers, other external display screens and monitors, namely video handheld units for playing video games, video handheld game units, video handheld unit replicas, controllers for game consoles, and parts and spare parts thereof; computer soundcards, and parts and spare parts thereof; computer mice, and parts and spare parts thereof; computer mice mats; computer graphics tablets, and parts and spare parts thereof; graphics amplifiers, namely, a desktop enclosure with external graphics card connecting laptop computers and desktop computers for playing games, and parts and spare parts thereof; computer pens, and parts and spare parts thereof; computer joysticks, and parts and spare parts thereof; computer trackballs, and parts and spare parts thereof; video game accessories, namely, flight yokes for playing computer and video games, and parts and spare parts thereof; steering wheels for computer and video games, and parts and spare parts thereof; accelerator pedals and brake pedals for computer and video games, and parts and spare parts thereof; guns for computer and video games, and parts and spare parts thereof; motion sensors for computer and video games, and parts and spare parts thereof; apparatus for recording, transmission and reproduction of data, sound and images, namely video projectors and video cards allowing capture of images shown on the screen of a computer game player and enabling the gamer to send the images to another video screen and for upload of the images to streaming sites, and parts and spare parts thereof; audio equipment and apparatus, namely, earphones, headphones, microphones, headsets, speakers, and parts and spare parts thereof; apparatus for cable management for the aforementioned goods namely, power adaptors, audio/video cable connectors, audio/video cables, battery cables, cable connectors, and parts and spare parts thereof; batteries, namely for

computers, video game machines, and power supplies, namely power bars for the aforementioned goods, and parts and spare parts thereof; computer software applications, downloadable and application software, namely, computer software for electronic storage, backup, transmission, sharing and management of other computer programs, data-driven business applications, mobile internet applications and website content management solutions, computer application software for mobile devices, namely, software for electronic storage, backup, transmission, sharing and management of other computer programs, data-driven business applications, mobile internet applications and website content management solutions; computer application software for mobile devices, namely, software that allows users to sync and manage other computer programs, across multiple devices; computer software for processing, organising and viewing text messages and digital images; computer software for processing and organising audio files, namely, music, movies, voice messages, news and sports; computer software for use in connection with the electronic storage, transmission, presentation, verification, authentication, and redemption of coupons, rebates, discounts, incentives, and special offers; computer software for use in connection with consumer loyalty programs and loyalty cards used to access and use loyalty points; computer software used to process mobile payments; computer software for transmitting, processing, facilitating, verifying, and authenticating credit and debit card information and transaction and payment information; computer software for ensuring the security of mobile payments via mobile devices and of credit and debit card information; computer software for the storage, transmission, verification, and authentication of credit and debit card and other payment and transaction information; computer software for use in recording, producing, broadcasting, and editing of video and audio to and from a virtual camera device via wired and wireless networks; downloadable cloud computer software for use in recording, uploading, transmitting, broadcasting, editing, producing, and managing text, audio, videos and digital images to and from a video camera device and mobile application via wired and wireless networks; downloadable computer software to enable the uploading, posting, sharing, tagging, and rating of computer games and computer game play information and play data and multimedia content in the field of computer games over the internet and other electronic communications networks; downloadable computer software for broadcasting videos, video clips, movie recordings, audio clips and audio recordings, digital images, and photos of computer games over the internet and other electronic communications networks; computer software for a web-based platform which features automatic and custom computer game match creation and management between random players, and computer game match reporting; computer programs for the playing of computer games, computer software for the synchronisation of computer peripherals with computer games, for playing of computer games; computer software for streaming of music, movies, news, sports, advertisements, computer software for data processing in the field of computer games; computer software for facilitating social networking services via the internet; computer software for hosting internet portals, chatrooms and internet forums; computer software for automatic tracking and monitoring of price comparison and price changes in the field of computer games, and tools and accessories for use in playing computer games; computer software to enable searching of computer game play data, and augmented reality software for use in the playing of computer games; computer software that provides web-based access to applications and services through a web operating system or portal interface; game engine software for video game development and operation; software for creating and designing graphical user interface; software for playing interactive multimedia computer game; virtual reality software for playing games; computer games; video games; tablet computers, and parts and spare parts thereof; bags, pouches, cases and covers especially designed for holding and carrying computers, laptops and computer peripherals; computer software for running development programs and application programs in a common development environment; computer software for controlling the operation of computer audio and

video hardware, namely, earphones, headphones, microphones, headsets, computer speakers and webcams; software to control and improve audio equipment sound quality; Light-emitting diodes (LED); Light-emitting diodes (LED) for illumination of computer hardware, computer peripherals, sound and audio apparatus and electronic devices, including mobile devices; light emitting diode displays, programmable LED controlled by computer software; downloadable computer software, namely, downloadable computer software for controlling LED lighting; electronic control gears [ECGs] for LED lamps, light fixtures and LED lighting effects; photographic and cinematographic equipment, namely, cameras, video cameras, camera lenses, camera tripods, camera flashes, camera shutters, camera straps, camera filters, camera handles, camera mounts and supports, cases, and housings; cases, housings, and accessories for photographic equipment; cases and bags for photographic and cinematographic apparatus; webcams.

#### **Class 14**

(2) Horological and chronometric instruments, namely, chronoscopes, clocks and parts therefor, alarm clocks, automobile clocks, desk clocks, watch movements, watch parts; Cases for watches, and horological and chronometric instruments, namely, chronoscopes, clocks and parts therefor, alarm clocks, automobile clocks, desk clocks, watch movements, watch parts; Parts for watches, and horological and chronometric instruments, namely, chronoscopes, clocks and parts therefor, alarm clocks, automobile clocks, desk clocks, watch movements, watch parts; Chronographs for use as clocks and watches; Chronometers; Watches; Wristwatches; Watch bands; Wrist watch bands; Alarm watches; Stopwatches; Automatic watches; Electronic watches; Digital watches; Clocks and watches; Watch straps; Watch boxes; Bracelets; Bracelets and watches combined; Watches incorporating a memory function; Watches containing a game function; Dials for clock-and-watch making.

#### **Class 18**

(3) Sport bags; satchels; messenger bags; travel bags; backpacks; knapsacks.

#### **Class 25**

(4) Jackets; hoodies; sweatshirts; tank tops; polo shirts; t-shirts; headgear, namely, hat, cap and headband; caps; sweatbands; wristbands.

#### **Class 28**

(5) Video game apparatus other than those adapted for use with television receivers, namely video handheld units for playing video games, video handheld game units, video handheld unit replicas, and parts and spare parts thereof; controllers for game consoles, and parts and spare parts thereof; bags, pouches, cases and covers especially designed for controllers for video handheld units for playing video games, video handheld game units, video handheld unit replicas and controllers for video games.

#### **Services**

#### **Class 35**

(1) Retail store services featuring gaming products, software, peripherals and accessories; retail store services featuring a wide variety of consumer goods, namely, computer hardware, computer software, laptops, tablets, notebooks, handheld computers, wearable peripherals for playing computer and video games for use with augmented and virtual reality software applications, wearable mobile electronic devices, computer mice, computer keyboards, computer keypads, computer pens, computer joysticks, computer trackballs, flight yokes for computer and video games, steering wheels for computer and video games, accelerator pedals and brake pedals for computer and video games, guns for computer and video games, motion sensors for computer and video games, eyewear, digital eyewear, handheld gaming devices, parts and components for

the wearable devices, computer and video games, apparel, bags, cases and sleeves for laptops, tablets, notebooks, mobile phones, wearable electronic devices, handheld computers and other electronics namely, computer mice, computer keyboards, computer keypads, video game controllers; demonstration of goods and services, namely, sales demonstration for others; online retail services featuring jewellery, headwear, furniture, furnishings, home appliances, mobile phones, preparations for making beverages, beverages and foodstuffs, computer hardware, computer software, laptops, tablets, notebooks, handheld computers, wearable peripherals for playing computer and video games and for use with augmented and virtual reality software applications, wearable mobile electronic devices, namely, head mounted screen devices, smart watches, electronic devices worn on the wrist, around the neck and different parts of the body, parts and components for the wearable mobile electronic devices, computer mice, computer keyboards, computer keypads, computer pens, computer joysticks, computer trackballs, flight yokes for computer and video games, steering wheels for computer and video games, accelerator pedals and brake pedals for computer and video games, guns for computer and video games, motion sensors for computer and video games, eyewear, digital eyewear, handheld gaming devices, computer and video games, apparel, bags, cases and sleeves for laptops, tablets, notebooks, wearable electronic devices, namely, wearable computer peripherals, namely, wearable smart wristbands which can be connected to computers, laptops, tablets, smart phones and head mounted screen device by wireless technology, wearable computer peripherals, location-aware and context-aware wearable devices, wearable computers, GPS-enabled wearables, parts and components for the wearable electronic devices, handheld computers and other electronics namely, computer mice, computer keyboards, computer keypads, and video game controllers; the bringing together, for the benefit of others, of a variety of goods, enabling customers to conveniently view and purchase those goods from a general merchandise web site in the global communications network, namely, operating marketplaces; administrative processing of purchase orders; customer service in the nature of provision of product information, product advice, pricing information, processing of product warranty registration, product returns, product refunds, and collection of feedback in the fields of mobile phones, furniture, preparations for making beverages, computers, computer hardware, computer peripherals, computer software, computer equipment, video gaming products, equipment and peripherals, consumer electronics, audio equipment, lighting, watches and clocks, global positioning system (GPS), photographic equipment, jewellery, clothing and eyewear; advisory in the field of customer management and customer satisfaction; direct marketing of the goods and services of others; search engine optimization; advertising the goods and services of others, sponsorship (promotion and marketing services) and business management of persons who participate in competitions and events for computer games; promotional sponsorship of competitions and events in the field of computer games.

**Class 36**

(2) Financial sponsorship of education, training, entertainment, sporting and cultural activities.

**Class 37**

(3) Customer service in the nature of provision of product repair and servicing and after-sales service in the fields of mobile phones, furniture, preparations for making beverages, computers, computer hardware, computer peripherals, computer software, computer equipment, video gaming products, equipment and peripherals, consumer electronics, audio equipment, lighting, watches and clocks, global positioning system (GPS), photographic equipment, jewellery, clothing and eyewear.

**Class 38**

(4) Telecommunications services, namely, communication by telephone, cellular telephone services; providing multiple user access to a computer network; communications by computer; communication between computers, namely, voice chat, text messages and video conferencing; transmission of text messages, music, digital music, MP3, music files, music videos, educational videos, how-to videos, gaming videos, product review videos, movies, pictures, photographic images, voice chats, voice messages, voice mails, news, sports, television programs, computer game play, video game play, gaming competitions, dramatic performances, musical performances, via the Internet, a global computer network and electronic communications networks; transmission of text messages, music files, video files, namely, music videos, movie videos, educational videos, how-to videos, gaming videos and product review videos, photographic images, voice chats, voice messages and voice mail between computers and servers via the Internet, a global computer network and electronic communications network, and by fibre optic cables; transmission of text messages, music files, video files, namely, music videos, movie videos, educational videos, how-to videos, gaming videos and product review videos, photographic images, voice chats, voice messages and voice mail, and news by fibre optic cables; providing access to a web and news portal; providing user access to web sites on the Internet; providing wireless digital messaging services, wireless fax services, wireless telephone services and electronic wireless voice mails services via electronic communications networks; wireless digital messaging, paging services, and electronic mail services, including services that enable a user to send and receive messages through a wireless data network; computer intercommunication, namely, communication between computers, namely voice chat, text messages and video conferencing, by fibre optics; provision of user access and hyperlinks to computer databases in the field of computer gaming, music, movies, news and sports and the Internet; streaming of audio and video via computer and other communications networks featuring music, movies, news, sports, and computer games; webcasting of dramatic performances, musical performances, computer games and gaming competitions over the internet; delivery of voice, text and pictorial messages by cellular phone and via the Internet; providing telecommunication connections and access to global computer networks, for transmission and reception of music and voice messages, photographic images and movies online and via fibre optic cables and satellite transmission; provision of user connections to electronic communication networks; providing telecommunication access to digital music and MP3 web sites on the Internet; electronic mail services; transmission of computer and video game play, gaming competitions, movies, news, sports, music, words, and voice and text messages by fibre optic cables; streaming of video content featuring computer games, gaming competitions, music, movies, news and sport via a global computer network; transmission of text messages, music files, video files, namely, music videos, movie videos, educational videos, how-to videos, gaming videos and product review videos, photographic images, voice chats, voice messages and voice mails between computers and servers via electronic communications networks; providing online bulletin boards for the transmission of messages among computer users concerning computer gaming and entertainment; rental and hire of mobile phones and electronic mailboxes; news agency services; technical consulting in the field of electronic telecommunications, namely cellular telephone communication and personal communication services (PCS); transmission of computer games, gaming competitions, music, movies, news and sport by cell phones and wearable computer peripherals, namely smart wristbands and computer display screens worn anywhere on the user's body via the internet; leasing access time to websites featuring music, gaming competitions, movies, sport, news, and computer and video games; providing access to computer databases and directories in the field of computer gaming, music, movies, news and sports; delivery of photographic images by email, by phone and by messaging application over the Internet; providing temporary internet access to use online non-downloadable software to enable users to program audio, video, text and other multimedia content such as music, movies, voice and text messages,

news and sports; providing user access to the Internet (service providers); providing communications services, namely, voice over internet protocol (VOIP) peer-to-peer communications, transmission of text messages, music, digital music, MP3, music files, music videos, educational videos, how-to videos, gaming videos, product review videos, movies, pictures, photographic images, voice chats, voice messages, voice mails, news, sports, television programs, computer game play, video game play, gaming competitions, dramatic performances, musical performances, over computer terminals, and instant messaging services; rental of access time to the internet to use online non-downloadable software to enable users to program audio, video, text and other multimedia content; providing user access to global computer networks; electronic mail and messaging services; wireless broadcasting of music, movies, computer and video games, gaming competitions, sport, news, video clips, radio and television programs via the Internet; broadcasting of music, movies, computer and video games, gaming competitions, sport, news, video clips, radio and television programs via the Internet; transmission of voice and text messages and pictures by fibre optic broadband network; virtual chatrooms established via text and audio messaging; communication services via internet, fibre optics, satellite and global computer network for the transmission of text messages, music files, video files, namely, music videos, movie videos, educational videos, how-to videos, gaming videos and product review videos, photographic images, voice chats, voice messages and voice mails; internet cafe services being the provision of multiple user access to the internet.

#### **Class 42**

(5) Application service provider (ASP) services featuring software for authoring, downloading, transmitting via internet, fibre optics, satellite and global computer network, receiving, editing, extracting, encoding, decoding, displaying, storing and organizing words and text messages, computer graphics, photographic images and electronic publications of e-books and digital magazines; scientific and technological services namely research and design in the field of chronometry, computer hardware and software, computer systems, computer and video games, mobile phones, apparel and accessories embedded with electronics, and virtual and augmented reality; industrial analysis and research services in the field of chronometry, computer hardware and software, computer systems, computer and video games, mobile phones, apparel and accessories embedded with electronics, and virtual and augmented reality; design and development of computer hardware and software; design and development of user interface for application software; design and development of user interfaces for computer devices for the purposes of computer gaming; design and development of computer software and hardware for use in telecommunications and voice over internet protocol (VOIP) applications; providing temporary use of online, non-downloadable computer software that allows subscribers to utilize voice over Internet protocol (VOIP) communication services; providing online software for downloading by others that allows subscribers to utilize voice over Internet protocol (VOIP) communication services; computer hardware and software consulting services; rental of computer hardware, computer software and computer peripherals; consultation services relating to multimedia and audiovisual software; computer programming; support and consultation services for developing computer systems, databases and applications; graphic design; providing information on computer hardware and software via a website; creating and maintaining websites; hosting the websites of others; providing search engines for obtaining data via communications networks; application service provider (ASP) services featuring software that enables users to play and program music, movies, computer and video games, gaming competitions, sport, news, radio and television programs, and software for playing musical sound recordings, words, text messages, music files, video files, namely, music videos, movie videos, educational videos, how-to videos, gaming videos and product review videos, photographic images, voice chats, voice

messages and voice mails; providing search engines for obtaining data on a global computer network; operating internet search engines; computer consulting and support services for scanning information into computer discs; hosting of a social networking website; cloud computing provider services for general storage of data; hosting of web sites containing searchable database; computer time sharing; electronic storage of text and voice messages, photographic and computer-generated images, sound and video files; computerized data storage services for archiving electronic data; information and consultation in connection with electronic storage of data, words, text messages, photographic images, voice chats, voice messages, voice mails, music files and video files; information and consultation in connection with computerized data storage services for archiving electronic data; design, maintenance, development and updating of computer software; information technology (IT) services in the design of computer hardware, computer software and computer peripherals and technical consultancy in the design of computer hardware, computer software and computer peripherals; development of computer software applications; technical support in the field of computer programming, and installation, repair and maintenance of computer software; customer service in the nature of provision of technical support in the form of troubleshooting in the fields of mobile phones, furniture, preparations for making beverages, computers, computer hardware, computer peripherals, computer software, computer equipment, video gaming products, equipment and peripherals, consumer electronics, audio equipment, lighting, watches and clocks, global positioning system (GPS), photographic equipment, jewellery, clothing and eyewear.

(2) Reagents for use in automated test systems for medical and veterinary purposes; reagents for medical and veterinary diagnosis and medical and veterinary research; reagents for laboratory tests for medical and veterinary purposes; nucleic acid amplification reagents for veterinary, medical, medical research and forensic use; reagents for testing aqueous solutions for medical and veterinary purposes; reagents for testing for susceptibility to allergies; chemical reagents for processing biological material for use in medical and veterinary tests for the purposes of diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases or conditions; reagents for use in nucleic acid characterisation and nucleic acid sequencing for the purposes of detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases or conditions; reagents for protein identification and analysis for the purposes of detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases or conditions; reagents for formation of amphipathic membranes for use in medical and veterinary tests for the purposes of detecting and diagnosing pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases or conditions; buffer solutions for medical and veterinary purposes; aqueous solvents for medical and veterinary purposes; non-aqueous solvents for medical and veterinary purposes; non-aqueous media, namely non-aqueous solutions, solvents and surfactants for scientific and research use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, security and defence; silicone oil reagents for formation of amphipathic membranes; enzymes for use in automated test systems for detection and analysis of single molecules for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, security and defence; proteins arrays for use in tests for medical and veterinary diagnostic purposes.

### **Class 09**

(3) Apparatus for biological, bacteriological, chemical, biochemical, DNA, RNA, protein, polynucleic acid and molecular analysis, namely, automated instruments for detecting the presence and identity of analytes, comprising of cartridges for containing samples of the analytes, microarrays, silicon chip based arrays, and ASICs (application specific integrated circuits), all for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; electronic scientific apparatus, namely, automated nucleic acid sequencers for sequencing DNA, RNA, proteins and polynucleic acids for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; electronic scientific apparatus, namely automated instruments for the analysis of nucleic and

polynucleic acids, namely, microarrays being DNA chips and silicon chip based arrays for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; electronic scientific apparatus, namely automated instruments for the analysis of proteins namely, microarrays being DNA chips and silicon chip based arrays for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; apparatus and instruments for the analysis of genetic information, genomic information and proteomic information, namely, automated electronic devices for the sequencing of DNA and RNA for use in detecting the presence, properties and identity of analytes, comprising of cartridges, microarrays, silicon chip based arrays, ASICS (application specific integrated circuits), and networked computer hardware and software for performing and controlling the analysis of scientific data, and for processing, displaying and storing the information obtained from the analysis of scientific data; computer hardware for the analysis and recordal of scientific data obtained from scientific tests and experiments; silicon chips; DNA chips for scientific and research use; microarray chips for scientific and research use; biosensor chips for use in the analysis and testing of chemical, biochemical, biological and bacteriological test samples for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; apparatus and instruments for use in laboratory analysis, namely, empty cartridges for test samples, namely, cartridges for use with concentrates and solutions in solid and liquid form samples for use in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; Electronic scientific apparatus, namely, automated nanopore sensors for measuring changes in the flow of electrical currents through nanopores for scientific testing and research purposes; Electronic scientific apparatus, namely, automated nanopore sensors for measuring changes in the flow of electrical currents through nanopores for medical testing, diagnosis and research purposes.

### **Class 10**

(4) Diagnostic apparatus for medical and veterinary purposes, namely, automated nanopore sensors for measuring changes in the flow of electrical currents through nanopores for the purposes of detecting pathogenic, infectious, psychiatric, oncogenic, metabolic, genetic, respiratory, genitourinary, digestive, inflammatory, autoimmune, reproductive, hepatic, central nervous system, degenerative and cardiovascular diseases or conditions; medical apparatus and instruments, namely, empty cartridges for test samples namely, cartridges for use with concentrates and solutions in solid and liquid form samples for medical and veterinary testing, diagnosis and research purposes.

### **Services**

#### **Class 42**

(1) Scientific and technological consultation services and research and design of automated scientific and laboratory instruments, computer hardware and computer software for measuring changes in the flow of electrical currents through nanopores, computer hardware and computer software for detection and analysis of molecules for use in the fields of genomics, protein analysis, molecular analysis, life sciences, health care, security and defence; industrial analysis and research services in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, security and defence; scientific research in the fields of biology, chemistry, biochemistry, bacteriology, medicine and veterinary science; biological, chemical, biochemical, bacteriological, DNA, RNA, protein, polynucleic acid and molecular analysis services, namely, biological, chemical, biochemical, bacteriological DNA, RNA, protein, polynucleic acid and molecular analysis in the fields of genomics, protein analysis, molecular analysis, life sciences, healthcare, national security and military defence; DNA and RNA and polynucleic acid sequences

services; protein sequencing services; design and development of instruments and apparatus for biological, chemical, biochemical, DNA, RNA, protein and molecular analysis; DNA and polynucleic acid testing for scientific research purposes; genome sequencing services for scientific research purposes.

**Class 44**

(2) DNA and polynucleic acid testing for medical purposes; Genome sequencing services for medical purposes.
