# Trademarks Journal

## Vol. 66 No. 3392

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

### Colour Claim

Colour is claimed as a feature of the trademark. The color(s) green, red, black and white is/are claimed as a feature of the mark. The mark consists of the following: two Farsi characters which appear in black, but the dot on top of each character is red. This wording is surrounded by a red polygon with rounded sides. The words appear against a white background enclosed within the red polygon. There is a green line which outlines the bottom half of the red polygon; the line does not touch the polygon as there is a small amount of space between the green line and red polygon.

### Foreign Character Translation

The translation provided by the applicant of the Farsi word(s) CHIN CHIN is CHEERS!.

### Foreign Character Transliteration

The transliteration provided by the applicant of the Farsi character(s) is CHIN CHIN.

### Goods

#### Class 07

(1) Machines and machine tools for treatment of materials and for manufacturing, namely cutting machines for metal working, die-cutting machines, die-stamping machines, drilling machines for metal working, electroplating machines, extruding machines for metals, extrusion machines for plastic, extrusion moulding machines, forging machines, grinding machines for metalworking; Pumps, compressors and fans as parts of machines, motors and engines; Cutting, drilling, abrading, sharpening and surface treatment machines and apparatus, namely cutting machines for metalworking, diamond-pointed metal-cutting tools, die-cutting machines, die-stamping machines, gear cutting and finishing machines; Compressors as parts of machines, motors and engines; Clutches for industrial machinery; Agricultural, earthmoving, construction, oil and gas extraction and mining equipment, namely extractors for mines, pile-extractors; Driving chains for machines;

Pressing machines, namely drill presses, industrial machine presses, mechanical presses for metal working, metal extrusion presses, oil hydraulic presses for metal working, press dies for metal forming; Ironing machines for commercial use; Power drill bits, namely tool bits for metal working machines, bits for mining machines, centering drilling bits being parts of machines, core drilling bits, drill bits for rock drilling, mining bits, power drill bits; Current generators; Moulds, namely forging moulds; Pumps, namely pneumatic pumps, positive displacement pumps, pumps as part of machines, motors and engines; Winching machines, namely winches, winch motors; Machines for manufacturing joints, namely metal jointing machines, plywood jointing machines, thread milling cutters for machines; Machine knives, namely electric knives, knife grinding machines; Wheels for industrial machinery; Brakes for industrial machines; Roller chains being parts of machines; Milling machines; Milling cutters for milling machines; Blowing machines for the compression, exhaustion and transport of gasses; Reduction gears being parts of machines; drills, namely air drills, drill presses, drilling machines for metal working, drilling rigs; Industrial robots; Steam engine boilers; Shaping and moulding machines, namely extrusion moulding machines, forging moulds, injection moulding machines, compression moulding machines; Sweeping, cleaning, washing and laundering machines, namely sand cleaning machines, steam cleaning machines, vacuum cleaners, cleaning machines for aviation engines, wringing machines for laundry; Industrial robots for use in manufacture; Machines for burnishing and polishing metal; Vending machines; Routing machines; 3D printers; Housings, namely bearing housings for machines; Industrial robots for use in the handling of workpieces; Machines for shaping, namely shaping machines for metal working; Transferring machines, namely conveyors; Sanders; Gear cutters for use as a machine tool; Milling machines; Axles for machines

### **Class 09**

(2) Checking (supervision) apparatus and instruments, namely tape measures, cameras for monitoring and inspecting equipment at an automotive assembly facility; infrared thermometers for checking electrical equipment; Monitoring instruments, namely photosensors, pressure sensors, proximity sensors, thermal sensor, sensors for determining acceleration, sensors for determining velocity, timing sensor, cameras; Testing apparatus not for medical purposes, namely battery testers, brake fluid testers, circuit testers, continuity testers, ductility testers, metal compression testing machines, metal strength testing machines, plastic testing machines, surface roughness testing machines and instruments; Mechanical engineering software, namely software for computer aided mechanical design; Analysis instruments for photogrammetric purposes; Photographic developing apparatus, namely photograph developing machines; 3D scanners; Image capturing and developing devices, namely image scanners, computer software for image processing

### **Class 12**

(3) Parts and fittings for aerial vehicles and space vehicles, namely airplane landing gear wheels, airplane propellers, airplane seats, airplane spoilers, airplane propellers; Parts and fittings for vehicles, namely structural parts for automobiles, wheel rims for automobiles, air pumps for automobiles; Parts and fittings for water vehicles, namely boat bumpers, boat canopies, boat fenders, boat hooks, boat rigs, boat tillers, booms for boats; Vehicles and conveyances, namely airplanes, space vehicles, railway passenger cars, automobiles

### **Services**

#### **Class 40**

(1) Printing, and photographic and cinematographic development, namely design printing for others, pattern printing, photographic printing, blueprinting services; Design printing for others; Custom construction of machines, namely custom manufacture of automobiles, custom

manufacture of boats, custom manufacture of airplanes; 3 D reproduction services, namely art reproduction

### **Class 42**

(2) Engineering services relating to data processing, namely development and creation of computer programmes for data processing; Design of computer hardware; Engineering services relating to computer programming, namely computer programming and maintenance of computer programs; Engineering services for the analysis of machinery, namely computer programming services for commercial analysis and reporting; Design of instruments, namely computer design services; Research and development services in the field of engineering, namely research pertaining to mechanical engineering, research pertaining to electrical engineering, research pertaining to materials engineering, research pertaining to chemical engineering; Design of computer peripherals; Design services relating to computer hardware and to computer programmes; Development of computer hardware for the manufacturing industries; Technological engineering analysis, namely product design consulting services, aircraft design; Industrial engineering design services; Engineering consultancy services, namely technical consulting in the field of automotive parts, technical consulting in the field of aerospace engineering, consultancy relating to consumer product safety testing; Computer aided design services; Computer hardware development; Automotive design; Image processing software development; Design of printed material, namely graphic design, packaging design, tool design, prostheses design; Design of vehicles and vehicle parts and components; Computer design services; Development of word processing software; Graphic arts design; Software development, programming and implementation; Development of computer programs; Mechanical engineering; Product design consulting services; Research and development of new products for others; Quality control of building materials, namely providing quality control of automobile parts; Computer system design; Tool design; advisory services in the field of product development and quality improvement of software; Software design for others; Design of cars; Software design and development; Testing the functionality of machines, namely material testing and evaluation, testing of computers, design and testing of new products for others, laboratory testing of materials; Design services for parts of motor vehicles; Analysis of the structural behaviour of building materials, namely structural and functional analysis of motor vehicle parts; Design of motor vehicle parts

### Goods

#### Class 07

(1) Machine tools for the automotive industry; motors and engines (except for land vehicles), namely electric motors for machines, motors and engines for industrial machinery; non-electric machine coupling and transmission components (except for land vehicles), namely transmission belts and transmissions for machines and industrial machinery; compressed air motors and engines; filters for cleaning cooling air for engines; carburetor supply lines; spark plugs for electric-ignition motors and engines; ignition devices for electric-ignition motors engines; alternators for motor vehicles; shock absorber pistons (machine parts); anti-pollution devices for motors and engines, namely anti-pollution catalytic converters for motors and engines, engine injectors for injecting cooled exhaust gases back into the engine to reduce CO2 emissions, exhaust heat recovery systems, electrically heated catalysts, CO2 emission reduction systems consisting of a metal substrate, an electric gas-heating system, a catalyst for accelerating the processing of pollutants and an exhaust gas particulate filter for reducing CO2 emissions, storage tanks for pure ammonia in solid form for reducing nitrogen oxide emissions, injectors for adding ammonia in fuel to reduce nitrogen oxide emissions; ball rings for bearings; glow plugs for diesel engines; protective caps as machine parts; fuel economizers for engines, namely fuel injectors and fuel pumps for engines; carburetors; U-joints; crankcases for machines, motors and engines; pneumatic controls for machine tools used in the automotive industry and machine tool motors for the automotive industry; hydraulic controls for machine tools used in the automotive industry and machine tool motors for the automotive industry; fan belts for motors and engines; belts for motors and engines; cylinder heads for engines; pistons for cylinders; motor and engine starters; mufflers

for motors and engines; filters, namely air and oil filters for motors and engines, membrane filters for use as parts of machines; engine injectors; gaskets for motors and engines; engine cylinders; ignition magnetos for engines; pistons for motors and engines; speed regulators for motors and engines; cooling radiators for motors and engines; catalytic converters; automotive exhaust pipes; crankcases for automobile parts, clutch housings, gearbox housings.

### **Class 09**

(2) Scientific (other than for medical use), nautical, surveying, photographic, cinematographic, optical, weighing, measuring, signalling, checking (supervision), life-saving apparatus and instruments, namely electronic sensors for collecting physiological data from vehicle occupants, namely sensors for detecting the temperature and light levels inside vehicles, sensors for detecting motion sickness, stress, discomfort, drowsiness in vehicle occupants, sensors for checking whether a driver is able to regain control of a vehicle, all of which are used to ensure the thermal, postural, audio and light comfort and safety of vehicle occupants, temperature sensors, thermal and motion sensors for human presence detection in vehicles, electronic, thermal and optical detectors for checking the physical condition of vehicle passengers, fuel cells, batteries for hybrid vehicles and electric vehicles (rechargeable), automotive batteries and electronic charging modules for automotive batteries including cases, covers, exchangers, structural beams and shock absorbers for automotive batteries, automotive battery management and measuring systems consisting of voltmeters, ammeters, temperature sensors and thermocouples, as well as various components consisting of an electronic control unit (ECU), namely vehicle navigation apparatus in the form of on-board calculators and solenoid valves; electronic controls for machine tools used in the automotive industry and machine tool motors and engines used in the automotive industry.

### **Class 11**

(3) Lighting, heating, ventilation and water supply apparatus for vehicles, namely fog lights; air filters for air conditioning, air conditioning installations for vehicles, light bulbs for directional signals for vehicles, heating apparatus for defrosting vehicle windows, anti-glare devices for vehicles (fittings for lights) in the nature of lamp reflectors, heating apparatus for defrosting windows of vehicles, heaters for vehicles, air conditioners for vehicles, defrosters for vehicles, vehicle lights, vehicle headlights, vehicle reflectors, heat reclaimers; lighting installations for vehicles, in the nature of vehicle dynamo lamps, map lights for vehicles.

### **Class 12**

(4) Vehicles, apparatus for locomotion by land, air or water, namely automobiles, trucks, light trucks, minivans, buses, motor coaches, all-terrain vehicles, tractors, ships; shaft couplings for land vehicles; inner tubes for pneumatic tires; shock absorbing springs for vehicles; suspension shock absorbers for vehicles; anti-glare devices for vehicles, namely sun visors for automobiles; anti-theft devices for automobiles; headrests for vehicle seats; transmission shafts for land vehicles; trailer hitches for vehicles; shock absorbers, hoods, bodies, chains, chassis, bumpers for automobiles; automotive blinds (sun visors); anti-theft alarms for vehicles, reversing alarms for vehicles; vehicle horns; valves for vehicle tires; solid tires for vehicle wheels; anti-skid textile covers for vehicle tires; torsion bars for automobiles; gearboxes for land vehicles; gas tank caps for vehicles; windshields; hoods for vehicles; hoods for vehicle motors and engines; seat belts for vehicle seats; driving chains for land vehicles; transmission chains for land vehicles; vehicle chassis; tracks for tracked vehicles; hydraulic circuits for vehicles; torque converters for automobiles; horns for vehicles, namely reversing alarms for vehicles and vehicle horns; inflatable air bags for use in vehicles for the prevention of injury in the event of an accident; turn signals for vehicles; electric motors for land vehicles; electric motor vehicles; clutches for land vehicles; speed-change gears for land vehicles; brake linings for vehicles; brake shoes for vehicles; brake

segments for vehicles; vehicle brakes; vehicle wheel rims; electric motors, gasoline and diesel for land vehicles; vehicle bumpers; vehicle wheel spokes; vehicle suspension springs; rearview mirrors; wheels for motor vehicles; vehicle seats; vehicle covers; air, gas, steam and hydraulic turbines for land vehicles; vehicle windows; steering wheels for vehicles; doors for vehicles; covers for vehicle seats; vehicle alarms; door panels for land vehicles; automotive structural parts; cigar lighters for automobiles; pneumatic pumps for automobile seats.

**Class 17**

(5) Acoustic insulating materials; acoustic insulating panels: insulating materials made of polyethylene foam, polyurethane foam.

**Services****Class 42**

Technical research in the field of materials used in the automotive sector and for acoustic and thermal insulation; material testing; consulting related to energy savings; decoration of vehicle interiors; technical project studies in the fields of automobiles and acoustic and thermal insulation; expertise, namely engineering work in the nature of evaluations, statistics, estimates, research and reports in the fields of automobiles and acoustic and thermal insulation; mechanical and computer engineering; mechanical research; industrial research services regarding materials in the automotive sector; research and development of new products for others.

### Correspondence Procedures

Publication date: May 10, 2017

Amendment date: October 30, 2019

#### On this page:

1. [Physical Delivery of Correspondence and Written Communications to CIPO](#)
2. [Electronic Correspondence](#)
3. [Details Concerning the Electronic Formats Accepted](#)
4. [General Information](#)
5. [Time period Extensions](#)
6. [Procedures in Case of an Unexpected Office Closure at CIPO](#)
7. [Procedures when CIPO is Open to the Public but Clients are Unable to Communicate with the Office](#)
8. [Intellectual Property Acts, Rules and Regulations](#)

This notice is intended to clarify the practice of the Canadian Intellectual Property Office with respect to correspondence procedures and written communications and replaces all previous notices.

Please note that all correspondence procedures regarding communicating with the Commissioner of Patents or the Patent Office under the Patent Act and the Patent Rules are detailed in Chapter 2 of the Manual of Patent Office Practice ("MOPOP"), entitled "Communicating with the Patent Office".

### 1. Physical Delivery of Correspondence and Written Communications to CIPO

For the purposes of subsection 10(1) of the Trademarks Regulations, section 2 of the Copyright Regulations, section 4 of the Industrial Design Regulations and section 3 of the Integrated Circuit Topography Regulations, the Office of the Registrar of Trademarks, the Copyright Office, the Industrial Design Office, and the Office of the Registrar of Topographies (hereinafter sometimes collectively referred to as "CIPO") is:

Canadian Intellectual Property Office  
Place du Portage I  
50 Victoria Street, Room C-114  
Gatineau QC K1A 0C9

In accordance with subsection 10(2) of the Trademarks Regulations, subsections 2(2) and (3) of the Copyright Regulations, subsection 5(1) of the Industrial Design Regulations and subsections 3(2) and (3) of the Integrated Circuit Topography Regulations, correspondence and written

communications delivered to the above address between 8:30 a.m. to 4:30 p.m. (Eastern Time) Monday to Friday is deemed to have been received on the actual date of their delivery if they are delivered when CIPO is open to the public.

Correspondence delivered at a time when CIPO is closed to the public will be deemed or considered to have been received on the day on which CIPO is next open to the public.

Please be advised that once correspondence is received by CIPO it cannot be returned to the sender, even if the sender states that the correspondence was sent by mistake.

The Fee Payment Form should always be submitted as a covering document and should be the only document submitted to CIPO that contains financial information, such as credit card numbers.

Download the [Fee Payment Form](#).

### 1.1 Designated Establishments

For the purposes of subsection 10(1) of the Trademarks Regulations, subsection 2(4) of the Copyright Regulations, section 4 of the Industrial Design Regulations and subsection 3(4) of the Integrated Circuit Topography Regulations, the following are the designated establishments or designated offices to which correspondence addressed to the Registrar of Trademarks, the Copyright Office, the Industrial Design Office or the Registrar of Topographies may be delivered **in person**. Please note that documents, payments and payment instructions delivered to the addresses listed below **must be enclosed in a sealed envelope** and that **no in person payment transactions** are processed on site. The ordinary business hours for each designated establishment are listed below.

- Innovation, Science and Economic Development Canada  
C.D. Howe Building  
235 Queen Street, Room S-143  
Ottawa ON K1A 0H5  
Tel.: 343-291-3436

8:30 a.m. to 4:30 p.m. (local time) Monday to Friday, except statutory holidays

- Innovation, Science and Economic Development Canada  
Sun Life Building  
1155 Metcalfe Street, Room 950  
Montreal QC H3B 2V6  
Tel.: 514-496-1797  
Toll-free: 1-888-237-3037

8:30 a.m. to 4:30 p.m. (local time) Monday to Friday, except statutory holidays

- Innovation, Science and Economic Development Canada  
151 Yonge Street, 4th Floor  
Toronto ON M5C 2W7  
Tel.: 416-973-5000

8:30 a.m. to 4:30 p.m. (local time) Monday to Friday, except statutory holidays

- Innovation, Science and Economic Development Canada  
Canada Place  
9700 Jasper Avenue, Suite 725  
Edmonton AB T5J 4C3  
Tel.: 780-495-4782  
Toll-free: 1-800-461-2646

8:30 a.m. to 4:30 p.m. (local time) Monday to Friday, except statutory holidays

- Innovation, Science and Economic Development Canada  
Library Square  
300 West Georgia Street, Suite 2000  
Vancouver BC V6B 6E1  
Tel.: 604-666-5000

8:30 a.m. to 4:30 p.m. (local time) Monday to Friday, except statutory holidays

In accordance with subsection 10(3) of the Trademarks Regulations, subsections 2(4) and (5) of the Copyright Regulations, subsection 5(2) of the Industrial Design Regulations and subsections 3(4) and (5) of the Integrated Circuit Topography Regulations, correspondence delivered to a designated establishment on a day when CIPO is open to the public will be deemed or considered to be received on the day on which they are delivered to that designated establishment. If CIPO is closed to the public, correspondence will be deemed or considered to be received on the day on which CIPO is next open to the public. For example, if correspondence intended for CIPO is delivered to the designated establishment in Toronto on June 24, it will not be considered to be received on June 24 as CIPO is closed on that day (St-Jean-Baptiste Holiday in Quebec). It will be deemed received on the day on which CIPO is next open to the public.

## **1.2. Registered Mail™ and Xpresspost™ services of Canada Post**

For the purposes of subsection 10(1) of the Trademarks Regulations, subsection 2(4) of the Copyright Regulations, section 4 of the Industrial Design Regulations and subsection 3(4) of the Integrated Circuit Topography Regulations, the Registered Mail™ and Xpresspost™ services of Canada Post are designated establishments or designated offices to which correspondence addressed to the Registrar of Trademarks, the Copyright Office, the Industrial Design Office or the Registrar of Topographies may be delivered.

CIPO considers that correspondence delivered through the Registered Mail™ and Xpresspost™ services of Canada Post is received by CIPO on the day indicated on the mailing receipt from Canada Post, provided that CIPO is open to the public on that day. If CIPO is closed to the public on that day, correspondence is deemed or considered to be received on the day when CIPO is next open to the public.

## **2. Electronic Correspondence**

For the purposes of subsection 64(1) of the Trademarks Act, subsection 24.1(1) of the Industrial Design Act and in accordance with subsection 10(4) of the Trademarks Regulations, subsection 2

(6) of the Copyright Regulations, subsection 5(3) of the Industrial Design Regulations, and subsection 3(6) of the Integrated Circuit Topography Regulations, correspondence addressed to the Registrar of Trademarks, the Copyright Office, the Industrial Design Office or the Registrar of Topographies may be sent by facsimile, online or on an electronic medium only as provided in the current notice.

Subsection 10(5) of the Trademarks Regulations specifies certain categories of correspondence to which the provisions of subsection 10(4) do not apply.

Correspondence sent by facsimile or online to the Registrar of Trademarks, the Copyright Office, the Industrial Design Office or the Registrar of Topographies constitutes the original, therefore a duplicate paper copy should not be forwarded.

Correspondence delivered to the Registrar of Trademarks or the Industrial Design Office by electronic means of transmission, including facsimile, is deemed to have been received on the day on which CIPO receives it (Eastern Time).

## 2.1 Facsimile

Black and white facsimile correspondence addressed to the Registrar of Trademarks, the Copyright Office, the Industrial Design Office or the Registrar of Topographies may be sent to the following facsimile numbers:

- (819) 953-CIPO (2476) or
- (819) 953-OPIC (6742)

Colour facsimile correspondence addressed to the Registrar of Trademarks or the Industrial Design Office **must** be sent to the following facsimile number:

- (819) 934-3833

Note that the model of facsimile is a Xerox C505/X and that this information may be needed to ensure a successful colour transmission.

Facsimile correspondence that is sent to any facsimile number other than those indicated above, including those of a designated establishment, will be considered not to have been received.

Evidence submitted by facsimile in respect of an opposition or section 45 proceeding **will not be accepted** due to issues such as the often-poor quality of transmission, the risk of incomplete transmission and the voluminous nature of the documents.

The electronic transmittal report returned to you following your facsimile transmission will constitute your acknowledgment receipt. Confidentiality of the facsimile transmission process cannot be guaranteed. Please note that CIPO strongly discourages the use of a computer facsimile interface or internet-based facsimile services due to technical issues with reception.

When submitting by facsimile a document that also has a fee requirement, notification of the preferred mode of payment to be applied must be prominently displayed on the Fee Payment Form to ensure expedient processing.

## 2.2 Online

Correspondence addressed to the Registrar of Trademarks, the Copyright Office, the Industrial Design Office or the Registrar of Topographies may be sent electronically using the relevant links below.

### Trademarks

For the purpose of subsection 10(4) of the Trademarks Regulations, the following correspondence addressed to the Registrar of Trademarks may be sent electronically by accessing the following pages:

- [filing a new or revised trademark application](#);
- [renewal of a trademark registration](#);
- [request to enter a name on the list of trademark agents](#);
- [annual renewal of a trademark agent](#);
- [requesting copies of trademark documents](#);
- [registration of a trademark application](#);

For the purpose of subsection 10(4) of the Trademarks Regulations, correspondence addressed to the Registrar of Trademarks in the context of opposition and section 45 proceedings may be sent electronically by accessing the [Trademarks Opposition Board's online web application](#):

### Opposition proceedings before the Trademarks Opposition Board

- filing a statement of opposition;
- filing of a counter statement;
- submission of the opponent's evidence, or statement;
- submission of the applicant's evidence, or statement;
- submission of the opponent's reply evidence;
- submission of the opponent's written representations, or statement;
- submission of the applicant's written representations, or statement;
- filing a request for a hearing; and
- requesting an extension of time.

### Section 45 proceedings before the Trademarks Opposition Board

- filing a request for a section 45 notice;
- submission of the registered owner's evidence;
- submission of the requesting party's written representations, or statement;
- submission of the registered owner's written representations, or statement;
- filing a request for a hearing; and
- requesting an extension of time.

### Copyright

For the purpose of subsection 2(6) of the Copyright Regulations, the following correspondence addressed to the Copyright Office may be sent electronically, by accessing the following pages:

- [application for registration of a copyright in a work](#),
- [application for registration of a copyright in a performer's performance, sound recording or a communication signal](#);
- [filing a grant of interest](#);
- [request for certificate of correction](#);
- [ordering copies in paper, or electronic form of a document](#); and
- [general correspondence relating to copyright](#).

## Industrial Designs

For the purpose of subsection 24.1(1) of the Industrial Design Act, the following correspondence addressed to the Industrial Design Office may be sent electronically, by accessing the following pages:

- [application for registration of an industrial design](#);
- [ordering copies in paper, or electronic form of a document](#);
- [general correspondence relating to industrial designs](#); and
- [payment of industrial design maintenance fees](#).

## Integrated Circuit Topographies

For the purpose of subsection 3(6) of the Integrated Circuit Topography Regulations, the following correspondence addressed to the Registrar of Topographies may be sent electronically, by accessing the following page:

- [general correspondence relating to integrated circuit topographies](#).

## 2.3 Electronic medium

**Note:** all electronic media must be free of worms, viruses or other malicious content. Files with malicious content will be deleted.

## Trademarks and Industrial Design

The Office of the Registrar of Trademarks and the Industrial Design Office will accept the following types of electronic media: CD-ROM, CD-R, DVD, DVD-R, and USB stick.

## 3. Details Concerning the Electronic Formats Accepted

### Trademarks

For the purposes of subsection 64(1) of the Trademarks Act, the acceptable file formats for documents submitted electronically using the relevant links set out in [section 2.2](#) of these correspondence procedures are: PNG, TIFF, JPEG, GIF, MP3, MP4, PDF, BMP and Doc.

### Industrial Design

For the purposes of subsection 24.1(1) of the Industrial Design Act, the acceptable file formats for documents, other than a representation of a design, submitted electronically are WPD, DOC,

DOCX and PDF. The acceptable file formats for the representation of a design are PDF, JPEG, TIFF and GIF. The file size limit is of 60MB for PDF, 10MB for the other file formats. The scanned /stored images should be of a resolution of at least 300 dpi and the dimensions must be of 21.59 cm by 27.94 cm (8.5 in by 11 in).

Note that the conversion of files to an acceptable format may result in a change to the quality of the drawings.

#### 4. General Information

General information may be obtained by communicating with CIPO's [Client Service Centre](#).

#### 5. Time Period Extensions

- [Time period extensions under the Trademarks and Industrial Design Acts](#)
- [Time period extensions under the Copyright and Integrated Circuit Topography Acts](#)
- [Time period extensions under the Madrid Protocol and the Hague Agreement](#)

#### Time period extensions under the Trademarks and Industrial Design Acts

For the purposes of subsection 66(1) of the Trademarks Act, and subsection 21(1) of the Industrial Design Act, any time period fixed under those Acts and ending on 1) a prescribed day set out in the list below or 2) a designated day on account of unforeseen circumstances, will be extended to the next day that is not a **prescribed day** or a **designated day** and where CIPO is open to the public.

**Designated days** are those days that are designated by the Registrar, or the Minister, on account of unforeseen circumstances and if they are satisfied that it is in the public interest to do so. If a day is designated, the public will be informed of that fact on CIPO's website.

**Prescribed days** under the Trademarks Act and Industrial Design Act are as follows:

- Every Saturday and Sunday;
- New Year's Day (January 1);
- Good Friday;
- Easter Monday;
- Victoria Day: First Monday immediately preceding May 25;
- St. Jean Baptiste Day (June 24) or if June 24 falls on a Saturday or Sunday, the following Monday;
- Canada Day (July 1), or if July 1 falls on a Saturday or Sunday, the following Monday;
- The first Monday in August;
- Labour Day: First Monday in September;
- Thanksgiving Day: Second Monday in October;
- Remembrance Day (November 11 or if November 11 falls on a Saturday or Sunday, the following Monday);
- Christmas Day (December 25) and Boxing Day (December 26) or if December 25 falls on a Friday, that Friday and the following Monday and if December 25 falls on a Saturday or a Sunday, the following Monday and Tuesday.

- Any day on which CIPO is closed to the public for all or part of that day during ordinary business hours.

\*Please note that CIPO is open on the first Monday in August.

Extensions for prescribed days occur regardless of place of residence or of the establishment to which documents are delivered.

Please be aware that not all provincial and territorial holidays are days where deadlines are extended. It is recommended that clients be mindful and ensure that all deadlines are respected.

### **Time period extensions under the Copyright and Integrated Circuit Topography Acts**

In accordance with section 26 of the Interpretation Act, any person choosing to deliver a document to CIPO or a designated establishment (including the Registered Mail™ and Xpresspost™ services of Canada Post) where a federal, provincial or territorial holiday exists, is entitled to an extension of any time limit for the filing of the document that expires on the holiday, until the next day that is not a holiday. It is to be noted, in respect of provincial and territorial holidays, that the entitlement to the extension is dependent on the establishment to which the document is delivered and not on the place of residence of the person for whom the document is filed or of their agent. For this purpose, documents transmitted to CIPO by electronic means, including by facsimile, would be considered to be delivered to CIPO's offices in Gatineau, Quebec.

CIPO has no practical way of keeping track of the establishment to which documents are delivered. Accordingly, where a person has a time limit for the filing of a document that expires on a provincial or territorial holiday but only delivers the document on the next day that is not a holiday, CIPO will assume that the document was delivered to an establishment that would justify an extension of the time limit. In such circumstances, it will be the responsibility of the person filing the document to ensure that he or she is properly entitled to any needed extension of the time limit.

### **Time period extensions under the Madrid Protocol and the Hague Agreement**

If a period within which a communication must be received by the International Bureau of the World Intellectual Property Office would expire on a day on which the International Bureau is not open to the public, it will expire on the next subsequent day on which the International Bureau is open. Likewise, if the period within which a communication (such as a notification of refusal of protection) must be sent by CIPO to the International Bureau would expire on a day on which CIPO is not open to the public, it will expire on the next subsequent day on which CIPO is open.

A list of the days on which the International Bureau is closed to the public during the current and the following calendar year is available on the [WIPO website](#).

## **6. Procedures in Case of an Unexpected Office Closure at CIPO**

In case of unforeseen circumstances, CIPO will attempt to remain open to the public and ensure that essential service to our clients continues with the least possible disruption or delay.

In accordance with paragraph 15(n) of the Trademarks Regulations and paragraph 36(n) of the Industrial Design Regulations, whenever CIPO is closed to the public, for all or part of a day during

ordinary business hours, including closures due to extraordinary circumstances, time periods will be extended to the next day that is not a prescribed or a designated day and where CIPO is open to the public.

For Copyright and Integrated Circuit Topography, if CIPO is closed to the public due to extraordinary circumstances, CIPO considers all time limits to be extended until the next day that it is open to the public. In such situations, mail delivered to CIPO or to designated establishments will be considered to be received on the date that CIPO re-opens to the public, with the exception of correspondence addressed to the Registrar of Topographies.

In view of the date-sensitive nature of intellectual property (IP), clients are advised to address important deadlines ahead of time to minimize the risk of affecting their IP rights. For the purposes of such deadlines, unless otherwise notified, clients should assume that all due dates remain in effect.

When possible during an emergency, information and search systems will continue to be available on our website; however, services provided through the Client Service Centre and other support areas within CIPO may be temporarily unavailable. Should an emergency occur, CIPO will post information with respect to [service interruptions](#) on our website as it becomes available and as circumstances permit.

Clients are strongly encouraged to send date-sensitive material through Canada Post by Registered Mail™ or Xpresspost™ or to use electronic means using the relevant links set out in [section 2.2](#) of these correspondence procedures. Documents may continue to be faxed to CIPO at 819-953-CIPO (953-2476). Date-sensitive material requiring fee payment that is sent by fax must be accompanied [by a VISA™, MasterCard™, or American Express™ credit card number, or CIPO deposit account number](#).

Please note that there may also be instances in which the designated offices may be temporarily closed, yet CIPO remains open to the public. In such situations, it remains the responsibility of CIPO's clients to ensure that all deadlines are respected.

## **7. Procedures when CIPO is Open to the Public but Clients are Unable to Communicate with the Office**

### **Industrial Design, Copyright and Integrated Circuit Topography**

The legislative framework in relation with the abovementioned types of intellectual property does not provide CIPO with the flexibility to extend deadlines when it is open to the public but clients are unable to communicate with the Office.

In these situations it remains the responsibility of clients to ensure that all deadlines are respected.

### **Trademarks**

The Trademarks Act and Regulations allow clients to request a retroactive extension of time when a due date has been missed due to a force majeure type situation. In order for a retroactive

extension of time to be granted, the Registrar of Trademarks must be satisfied that the failure to do the act or apply for an extension of time before the original due date was not reasonably avoidable. A prescribed fee is required in certain cases.
