

CB Notice 2014-05

ADVANCED PUBLICATION NOTICE - SMSE-008-14

TO: Certification Bodies recognized by Industry Canada

RE: Revision of RSS-111

The purpose of this notice is to announce that Industry Canada will publish the following standard on September 04, 2014:

Radio Standards Specification RSS-111, Issue 5, *Broadband Public Safety Equipment Operating in the Band 4940-4990 MHz*, sets out the certification requirements for radio transmitters in the band 4940-4990 MHz for public safety purposes.

Important information

This standard will come into force as of September 04, 2014. Applicants for equipment certification including Certification Bodies must ensure compliance with the new issue of this standard.

Certification Bodies have one year from the date of publication to amend their recognized scope of accreditation to reflect the new issue of these standards in accordance with Industry Canada procedures for conformity assessment bodies.

Enquiries may be directed to the Manager, Regulatory Standards at the following e-mail address: res.nmr@ic.gc.ca

This standard is available electronically on the Spectrum Management and Telecommunications Web site at www.ic.gc.ca/spectrum under official publications.

Hughes Nappert
