Re: Gazette Notice SLPB-004-18: Consultation on Revisions to the 3500 MHz Band to Accommodate Flexible Use and Preliminary Consultation on Changes to the 3800 MHz Band

Access to broadband connectivity is critical to rural households in Canada. The vitality of rural and remote communities depends on our ability to participate in the digital economy and engage with friends, family, educational opportunities, and government services over the internet. Fixed wireless spectrum is crucial to rural connectivity. Our rural communities rely on this service for safety and / or essential communications for their safety and security.

As the Member of Parliament for Cariboo-Prince George, I am deeply concerned about the proposed reduction of spectrum described in Option 1 (paragraph 46). Reducing the spectrum available for rural broadband networks will adversely affect broadband services in rural communities across Canada.

I urge ISED to choose Option 2 (paragraph 48), which does not reduce the spectrum holdings of small rural service providers. Better yet, I urge ISED to not reduce any spectrum holdings that are currently used for providing service in rural communities, and to make more spectrum available for providing fixed wireless services in rural communities.

I appreciate ISED's ongoing efforts to support rural broadband connectivity in Canada through funding programs and I encourage ISED to leverage these investments by ensuring that adequate spectrum will be available for last-mile broadband services.

Thank you for your consideration and I would be happy to discuss further if needed.

Yours Sincerely,

Todd Doherty, M.P.  
Cariboo-Prince George
