Senior Director, Spectrum Management Operations
Industry Canada
300 Slater Street
Ottawa, Ontario K1A 0C8

Dear Senior Director,

Thank you for this opportunity to present our comments in response to Canada Gazette Notices DGSO-001-10 and SMSE-013-10, regarding Part B of “Decisions on the Transition to the Broadband Radio Service (BRS) in the Band 2500-2690 MHz and Consultation on Changes Related to the Band Plan”.

Our comments are in two attachments. The first is our response to the specific questions raised by the Department in Part B. The second is our submission on the important matter of whether and how we should align with the U.S. and other countries, prepared by Dr. Martyn F. Roetter, a senior associate of our practice who is based in Boston. Dr. Roetter’s biography is also attached.

We are submitting this material on our own initiative and at our own cost, and are not acting on behalf of any third party commercial or other interests in this matter.

We enjoyed preparing this material and are ready to answer any questions about it.

Yours truly,

Roger Hay
