Dear Sir,

I support the RAC request for the 5 Mhz band frequencies plus frequencies for Canadian domestic use only.

I cite the *Canada Gazette*, Part I, date of publication June 12, 2012, under the title "Consultation on Changes to the Canadian Table of Frequency Allocations and to RBR-4 to Allow for Amateur Radio Service Use in the 5 MHz Band", notice reference number (SMSE-010-12).

The frequencies would enhance our emergency communications capability in a band ideally suited to local and regional communications. It would also parallel the frequencies granted in the United States.

Sincerely,

Alden Bushman
