Dear Sirs/Mesdames:

**Re: Canada Gazette, Part I, November 30, 2010, Consultation on a Policy and Technical Framework for the 700 MHz Band and Aspects Related to Commercial Mobile Spectrum (SMSE-018-10) (the "Consultation")**

Shaw Communications Inc. (Shaw) is pleased to provide its comments in response to the Consultation.

The documents are being sent in Adobe Professional Version 9; Operating System: Microsoft Windows XP Professional Version 2002.

Shaw's responses to questions 4-2 through and including 4-5 are provided in a separate confidential Appendix "A". Those responses are proprietary and contain (i) trade secrets of Shaw, (ii) financial, commercial and technical information that is confidential information of Shaw and is treated consistently as confidential by Shaw, (iii) information the disclosure of which would prejudice the competitive position of Shaw; and (iv) information the disclosure of which would interfere with contractual or other negotiations of Shaw, all within the meaning of subsection 20(1) of the *Access to Information Act*. For these reasons, Shaw claims confidentiality with respect to Appendix "A" and respectfully requests that the Department refuse all requests for disclosure under the Act in relation to all information contained in "Appendix A".

Yours very truly,
