## Vol. 73 No. 3719

---

### General Information

---

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

---

### Electronic *Trademarks Journal*

---

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

---

### Official Languages

---

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

---

### Filing Dates

---

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

---

## Nice Classification

---

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

---

## Opposition

---

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

downloadable software and firmware used for controlling and interfacing with microprocessors and semiconductor devices; computer hardware and downloadable software and firmware for use in artificial intelligence, text analysis, data processing, text processing, model training, inference, machine learning, and deep learning processing; computer hardware and downloadable software and firmware for use in signal processing; computer hardware and peripheral devices for data communication, namely optical transceivers and ethernet controllers; computer servers; network servers; transceivers; personal computers; network telecommunication cables, namely fibre optic cables; network interface cards; computer network adapters; Ethernet and fibre-channel adapters; electronic computer network switches; computer network switches; Ethernet and fibre-channel switches; electronic telephony integrated circuits; modems; network gateways and routers; downloadable software and firmware used for controlling and interfacing with networks for network management; computer hardware for data processing equipment; data storage devices, components, or circuits, namely, computer disk drives, magnetic disks, USB flash drives, computer hard drive controllers, preamplifiers, and read channels being parts of computer hard disk drives; computer hardware and downloadable software and firmware for setting up, configuring, managing, operating, and securing local and wide-area computer networks and network products; computer hardware and downloadable software and firmware for use in enabling autonomous driving vehicles, connected vehicles, and components of autonomous driving vehicles and connected vehicles; computer hardware and downloadable software and firmware for use in storing, monitoring, and managing data, namely, audio, video, voice, images, text, graphics, and streams of bits in network attached storage (NAS hardware); computer hardware and downloadable software and firmware for use in operating cameras, printers, dongles, handsets and video conferencing systems, and components of the aforesaid goods; computer hardware and downloadable software and firmware for use in operating and managing wireless network devices being computer network interfaces, computer network servers, network routers, and ethernet controllers; wireless communication devices, namely, semiconductors and integrated circuits in the nature of system on a chip (SoC) processors for the transmission of data, namely, voice, data, images, audio, video, and multimedia content, namely, electronic mail, and digital audio and video media content; digital electronic devices being digital signal processors (DSPs) capable of providing access to the internet and for the sending, receiving, and storing telephone calls, electronic mail, and digital audio and video media content; computer hardware for playing, organizing, downloading, transmitting, manipulating and reviewing audio files and media files; television setup boxes in the nature of television decoders; data storage devices, namely, hard disk drives, USB flash drives, and solid state drives; printer devices, namely, ink jet printers, laser printers; audio- and video receivers; digital audio tape players and video recorders; computer network switching devices being network switches; downloadable software and firmware used for controlling and interfacing with computer networks; computer hardware and downloadable software and firmware for use in computer and network security, data and identity verification, and encryption; computer hardware and downloadable software and firmware for use in monitoring, transmitting and receiving telecommunications using broadband wireless equipment, namely, telecommunications base station equipment for cellular and fixed networking and communications applications; computer hardware and downloadable software and firmware for use in managing and monitoring data centers; computer hardware and downloadable software and firmware for providing cloud computing services; computer hardware and downloadable software and firmware for connecting, operating, controlling, and managing networked devices and systems in the internet of things (IoT), namely, hubs, switches, routers, bridges, gateways, modems, repeaters, and local area network (LAN) access points

## Services

**Class 38**

(1) Telecommunications services, namely, providing computer network access via fiber optic networks; electronic and digital transmission of documents, and audio and video, namely, voice, images, paging messages, facsimiles, and data, namely, audio, video, voice, images, text, graphics, and streams of bits over the internet and via wireless and cellular networks; multimedia communications and digital communications services, namely, the broadcast, transmission, and receipt of interactive and non-interactive audio, video, and digital signals, namely, voice, images, paging messages, and facsimiles; electronic transmission and receipt of interactive and non-interactive voice, images, paging messages, and facsimiles; network telecommunications consulting services; network telecommunication services, namely, providing access to the Internet; wireless communication services in the nature of operating a wide-area network (WAN) via terrestrial and satellite; providing third party users with access to telecommunication infrastructure in the nature of global computer information networks for the transfer and dissemination of a wide range of information; providing access to a website containing information in the field of telecommunications and telecommunications information relating to communications, namely in the field of networking solutions and data storage solutions for data centres

**Class 42**

(2) Designing semiconductors, semiconductor chips and chip sets, integrated circuits, integrated circuit chips, integrated circuit chip sets, and software for others; Wireless communications network engineering services; providing on-line information about the design of digital, analog and media content hardware, software, peripherals and accessories relating to content sharing, information exchange, and audio and video devices; providing technological advisory and consulting services in the field of the design and function of circuits, chips, and software; providing technological information and consulting in the field of the design and function of circuits, chips, and software, provided via websites, social media, and online forums; providing testing, analysis, and evaluation of the semiconductors, semiconductor chips and chip sets, integrated circuits, integrated circuit chips, integrated circuit chip sets, and software of others to determine conformity with certification standards; field service management services, namely, repair and maintenance of software

(4) Plastic parts for medical apparatuses, namely medical drainage tubes, artificial tympanic airbursts and trochars; parts of and accessories for the aforesaid goods.

#### **Class 11**

(5) Heating cartridges; heating elements; cooling domes; cooling evaporators; electric heating filaments; heat exchangers, other than parts of machines; heat exchangers for chemical processing; rotor elements being parts of heat exchangers, other than parts of machines; heat regenerators for heat exchangers; heating plates; tubular heating radiators; plastic parts for the construction of machines and apparatuses and for the construction of motors, engines and gears (with the exception of the construction of engines, motors and gears for vehicles), namely heating elements.

#### **Class 12**

(6) Attachments for motors, engines and gears for vehicles, made of metal and of plastics, namely, automotive engine mounts and hoods for vehicle engines; plastic components for the construction of motors, engines and gears for vehicles, in particular heating elements, groove rings, friction bearings and bearing rings; housings for transmissions and for couplings of vehicles; covers for the underbody protection of vehicles; engine hood absorbers for the acoustical and thermal insulation of vehicle engine hoods; front inner panels for the front wall of the passenger compartment of a vehicle; heat insulating covers for vehicles; heat insulating linings for vehicles; electric motors for motor vehicles; transmissions for motor vehicles; transmissions for electric motors for land vehicles; thermal shieldings for vehicles, namely, thermal barriers being parts of motors and engines for land vehicles.

#### **Class 17**

(7) Plastic sheetings for general industrial and manufacturing use, other than for wrapping; non-metallic seals for preventing leakage of fluids; non-metallic seals for preventing leakage of gases; rotary shaft seals; seals for pipe connections; static seals; dynamic seals; rings of rubber for use as pipe connection seals; insulation and insulating materials, in particular for construction purposes and as non-adapted form parts for thermal and acoustical protection and as heat shields, including those made partly of metal; non-metallic joint packings for pipes and electrical insulation, in particular for combustion engines, intake manifolds and exhaust lines; sealing rings; non-metallic sealing strips for vehicles; sealing adhesive tapes for industrial use; hoses made of plastic material for vehicle fuel injectors; air hoses made of plastic material; plastic in tube form for general industrial use; goods made of plastic material (semi-finished products), namely, thermoplastic heat shrink tubings for covering electrical wire, insulating covers for industrial machinery, namely, rollers, corrugated hoses in the nature of corrugated plastic pipes; clutch and brake linings made of plastic material; insulating coatings made of fluoroplastics; semi-finished goods made of fluoroplastics, in particular in the form of plates, rods and sheetings for general industrial and manufacturing use; semi-finished products made from polytetrafluoroethylene, in particular in the form of plates, rods and sheetings for general industrial and manufacturing use; heating elements made of plastics; sheathings made of plastics for heating elements; sliding ring seals; rotary shaft seals; plastic parts for the construction of machines and apparatuses and for the construction of motors, engines and gears (with the exception of the construction of motors, engines and gears for vehicles), namely membranes being semi-processed polymeric filtering materials in the nature of films, electric insulators in the nature of electrical insulation and thermal

insulators in the nature of thermal insulation; heat protection components and sound protection components for motor vehicles, in particular heat shields; heat shields as parts of motor vehicles.

seals of elastomer and gaskets and seals of soft material; gaskets and seals for piston rings; gaskets and seals for sealing areas containing media in vehicle drive trains, in particular in motors and engines, in gearboxes, in exhaust systems and in all power transmission elements and torque transmission elements up to the wheel, in particular gaskets and seals of metal, gaskets and seals of metal and soft material, gaskets and seals of metal and elastomer, gaskets and seals of coated metal layers, gaskets and seals of elastomer and gaskets and seals of soft material; gaskets and seals for sealing areas containing media in internal combustion engines, in particular gaskets and seals of metal, gaskets and seals of metal and soft material, gaskets and seals of metal and elastomer, gaskets and seals of coated metal layers, gaskets and seals of elastomer and gaskets and seals of soft material; bearing housings being parts of machines and bearing housings being parts of motors and engines; cooling fan housings for motors and engines; piston rings; valves being parts of machines, motors and engines; mechanical gaskets and seals being parts of machines; gaskets and seals being parts of motors and engines; gaskets and seals for internal combustion engines; thermal shieldings for exhaust gas installations of motors or engines, namely, thermal barriers being parts of exhaust gas recirculation (EGR) valves for motors and engines; heat exchangers being parts of machines; shaft seals for machines, motors and engines; parts of transport machines, namely shaft seals; mechanical seals for commercial and industrial purposes, in particular shaft seals and rotary feed-through seals; electric motors for machines; electric motors for water vehicles being boats and ships; electric motors for air vehicles being air crafts and airplanes; electric motors having a gear box for water vehicles; electric motors having a gear box for air vehicles; electric motors having a gear box for machines; transmissions for machines; oil pans for automobiles; oil pans as parts of vehicle transmissions, other than for land vehicles; gaskets and seals for the construction of motors, engines and gears for vehicles, made of metal and/or of soft materials and/or of elastomer materials and/or of plastics, in particular cylinder head gaskets, rotary shaft seals, valve stem sealings, oil pan seals, intake manifold seals, exhaust gas manifold seals, turbo charger seals, water pump seals, chain case gaskets and crankcase gaskets; gaskets and seals for the construction of motors, engines and gears for vehicles, made of metal and/or of soft materials and/or of elastomer materials and/or of plastics, in particular cylinder head cover seals, carburetor air filter sealings, cylinder head cap seals, camshaft carrier seals, ramming chamber sealings, O-ring seals and profile rings; gaskets and seals for transmissions and for couplings of vehicles; gaskets and seals for sealing areas containing media in vehicle steering mechanisms and steering systems, in particular gaskets and seals of metal, gaskets and seals of metal and soft material, gaskets and seals of metal and elastomer, gaskets and seals of coated metal layers, gaskets and seals of elastomer and gaskets and seals of soft material; gaskets and seals for motor vehicles.

### **Class 09**

(3) Accumulators being electrical storage batteries; accumulators being electrical storage reloadable batteries; batteries for electric vehicles; electric cells for accumulators being electrical storage batteries; battery systems comprised of accumulators being electrical storage batteries; components of battery systems comprised of accumulators being electrical storage batteries; cell contacting systems for accumulators being electrical storage batteries; housings for accumulators being electrical storage batteries; housings for electric cells for accumulators being electrical storage batteries; parts of housings for electric cells for accumulators being electrical storage batteries.

### **Class 10**

(4) Plastic parts for medical apparatuses, namely medical drainage tubes and trochars; parts and components for all the aforesaid goods.

**Class 11**

(5) Heating cartridges; heating elements; cooling domes; cooling evaporators; electric heating filaments; heat exchangers, other than parts of machines; heat exchangers for chemical processing; rotor elements being parts of heat exchangers, other than parts of machines; heat regenerators for heat exchangers; heating plates; tubular heating radiators; plastic parts for the construction of machines and apparatuses and for the construction of motors, engines and gears (with the exception of the construction of engines, motors and gears for vehicles), namely heating elements.

**Class 12**

(6) Attachments for motors, engines and gears for vehicles, made of metal and of plastics, namely, automotive engine mounts and hoods for vehicle engines; plastic components for the construction of motors, engines and gears for vehicles, in particular heating elements, groove rings, friction bearings and bearing rings; housings for transmissions and for couplings of vehicles; covers for the underbody protection of vehicles; engine hood absorbers for the acoustical and thermal insulation of vehicle engine hoods; front inner panels for the front wall of the passenger compartment of a vehicle; heat insulating covers for vehicles; heat insulating linings for vehicles; electric motors for motor vehicles; transmissions for motor vehicles; transmissions for electric motors for land vehicles; thermal shieldings for vehicles, namely, thermal barriers being parts of motors and engines for land vehicles.

**Class 17**

(7) Plastic sheetings for general industrial and manufacturing use, other than for wrapping; non-metallic seals for preventing leakage of fluids; non-metallic seals for preventing leakage of gases; rotary shaft seals; seals for pipe connections; static seals; dynamic seals; rings of rubber for use as pipe connection seals; insulation and insulating materials, in particular for construction purposes and as non-adapted form parts for thermal and acoustical protection and as heat shields, including those made partly of metal; non-metallic joint packings for pipes and electrical insulation, in particular for combustion engines, intake manifolds and exhaust lines; sealing rings; non-metallic sealing strips for vehicles; sealing adhesive tapes for industrial use; hoses made of plastic material for vehicle fuel injectors; air hoses made of plastic material; plastic in tube form for general industrial use; goods made of plastic material (semi-finished products), namely, thermoplastic heat shrink tubings for covering electrical wire, insulating covers for industrial machinery, namely, rollers, corrugated hoses in the nature of corrugated plastic pipes; clutch and brake linings made of plastic material; insulating coatings made of fluoroplastics; semi-finished goods made of fluoroplastics, in particular in the form of plates, rods and sheetings for general industrial and manufacturing use; semi-finished products made from polytetrafluoroethylene, in particular in the form of plates, rods and sheetings for general industrial and manufacturing use; heating elements made of plastics; sheathings made of plastics for heating elements; sliding ring seals; rotary shaft seals; plastic parts for the construction of machines and apparatuses and for the construction of motors, engines and gears (with the exception of the construction of motors, engines and gears for vehicles), namely membranes being semi-processed polymeric filtering materials in the nature of films, electric insulators in the nature of electrical insulation and thermal insulators in the nature of thermal insulation; heat protection components and sound protection components for motor vehicles, in particular heat shields; heat shields as parts of motor vehicles.

**Services****Class 42**

Counseling, planning, constructing and carrying out of engineering calculations, in particular of FEM calculations, for others in the field of the construction of vehicle motors, engines and gears; electrical engineering services in relation to accumulators being electrical storage batteries, battery systems comprised of accumulators being electrical storage batteries and components of battery systems comprised of accumulators being electrical storage batteries; advisory services in the field of product development in relation to accumulators being electrical storage batteries, battery systems comprised of accumulators being electrical storage batteries and components of battery systems comprised of accumulators being electrical storage batteries; advisory services relating to industrial engineering; construction planning; research and development of new products for others; providing quality control of automobile parts; testing of the goods of others to assure completeness; leak testing in the nature of inspection services, namely, detection of leaks in accumulators being electrical storage batteries, automotive engines; vibration testing of new products for others; long-term durability testing of new products for others; industrial, electrical, and mechanical engineering, namely, carrying out of FEM (finite element method) analyses for others; carrying out of material flow analyses for injection molding processes for others; advisory services in the field of technical product development of tools for others.

(1) Installation, repair and maintenance of wired and wireless electric power supply apparatus, namely, battery chargers for direct powering of portable and stationary devices, namely, mobile and electronic devices, namely, mobile phones, smartwatches, portable computers, laptops, tablet computers, portable audio speakers, display screens, wearable fitness activity trackers, cameras, televisions, computer workstations comprising computers, computer monitors, computer keyboards, and computer mice, alarm monitoring systems, head mounted augmented reality displays, earphones, headphones, batteries, game controllers, vehicles of all types, laboratory robots, teaching robots, telepresence robots, security surveillance robots, humanoid robots with artificial intelligence, automatic solar tracking sensors, electronic sensors for measuring solar radiation, gas sensors, hydrophones, magnetometers, optical sensors, pressure sensors, surface acoustic wave sensors, temperature sensors, thermal sensors, water level sensors, camera sensors, heat sensors, fire sensors, motion sensors, water current sensors, salinity sensors, electronic keypads, digital door locks, motor vehicle power locks, electronic vehicle components, electronic medical devices, Optical Network Terminals, computer routers, wireless routers, fiber routers, DSL and LTE routers, electric power switches, timer switches, infrared sensor switches, and radios; repair and maintenance of power generators; testing, monitoring and inspection of wired and wireless electric power supply apparatus, namely, battery chargers for direct powering of portable and stationary devices, namely, mobile and electronic devices, namely, mobile phones, smartwatches, portable computers, laptops, tablet computers, portable audio speakers, display screens, wearable fitness activity trackers, cameras, televisions, computer workstations comprising computers, computer monitors, computer keyboards, and computer mice, alarm monitoring systems, head mounted augmented reality displays, earphones, headphones, batteries, game controllers, vehicles of all types, laboratory robots, teaching robots, telepresence robots, security surveillance robots, humanoid robots with artificial intelligence, automatic solar tracking sensors, electronic sensors for measuring solar radiation, gas sensors, hydrophones, magnetometers, optical sensors, pressure sensors, surface acoustic wave sensors, temperature sensors, thermal sensors, water level sensors, camera sensors, heat sensors, fire sensors, motion sensors, water current sensors, salinity sensors, electronic keypads, digital door locks, motor vehicle power locks, electronic vehicle components, electronic medical devices, Optical Network Terminals, computer routers, wireless routers, fiber routers, DSL and LTE routers, electric power switches, timer switches, infrared sensor switches, and radios; technical support services, namely, troubleshooting in the nature of repair, evaluation, maintenance and repair of wireless power

based charging systems, namely, wireless electric power supply apparatus, namely, battery chargers for direct powering of portable and stationary devices, namely, mobile and electronic devices, namely, mobile phones, smartwatches, portable computers, laptops, tablet computers, portable audio speakers, display screens, wearable fitness activity trackers, cameras, televisions, computer workstations comprising computers, computer monitors, computer keyboards, and computer mice, alarm monitoring systems, head mounted augmented reality displays, earphones, headphones, batteries, game controllers, vehicles of all types, laboratory robots, teaching robots, telepresence robots, security surveillance robots, humanoid robots with artificial intelligence, automatic solar tracking sensors, electronic sensors for measuring solar radiation, gas sensors, hydrophones, magnetometers, optical sensors, pressure sensors, surface acoustic wave sensors, temperature sensors, thermal sensors, water level sensors, camera sensors, heat sensors, fire sensors, motion sensors, water current sensors, salinity sensors, electronic keypads, digital door locks, motor vehicle power locks, electronic vehicle components, electronic medical devices, Optical Network Terminals, computer routers, wireless routers, fiber routers, DSL and LTE routers, electric power switches, timer switches, infrared sensor switches, and radios.

### **Class 42**

(2) Technology consultation and research in the field of power transfer, namely, wireless transmission of electricity; development of technologies in the field of power transfer, namely, wireless transmission of electricity; Design and development in the field of wireless power and energy supply; Design of wireless charging pads; Design of capacitive and inductive wireless power transfer systems; Design of mobile and electronic devices with integrated wireless electrical charging systems; Design of mobile and electronic devices with wireless electrical direct powering and charging systems; Design of integrated circuits, application specific integrated circuits, application specific integrated circuits for power transfer, application specific integrated circuits for capacitive or inductive wireless power transfer; Developing wireless power transfer technology for use in direct powering or charging vehicles.

### **Class 45**

(3) Licensing of intellectual property relating to wireless electrical direct powering or charging systems; licensing of intellectual property relating to wireless charging pads for rechargeable equipment; Licensing of intellectual property relating to capacitive or inductive wireless power transfer systems; Licensing of intellectual property relating to mobile or electronic devices with integrated wireless electrical direct powering or charging systems; licensing of intellectual property relating to mobile or electronic devices with wireless electrical charging systems; Licensing of intellectual property relating to integrated circuits, application specific integrated circuits, application specific integrated circuits for power transfer, application specific integrated circuits for capacitive or inductive wireless power transfer.

Computer software for use in storing, managing, searching, retrieving, and sharing information relating to research, namely policy documents, research papers, experimental data, scientific papers, grant applications and grant information, patents, patent applications and patent information, chemical information and sequence data, and teaching materials in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable computer software for searching, analyzing and uploading research publications in the field of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software in the field of electronic publishing, namely desktop publishing in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, non-downloadable electronic publications in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable electronic publications in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, electronic databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, electronic files being policy documents, research papers, experimental data, scientific papers, grant applications and grant information, patents, patent applications and patent information, chemical information and sequence data, and teaching materials in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, instructional and teaching apparatus and instruments, namely multimedia software for teaching in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable instructional and teaching materials not for children, namely educational books in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable computer software for analyzing molecular and clinical data for research

in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software for assisting developers in creating program code in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, for use in multiple application programs, downloadable computer software development programs for creating and developing computer mobile applications for others to be used on cloud-based servers in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software development tools, namely, computer software for use in the evaluation and analysis of data utilizing machine learning, compiling of research data into databases, electronic publishing of educational journals, downloadable teaching materials in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, software for product development, namely customizing computer software for data analysis, data visualization and machine learning in the fields of academic research and scientific research, cloud computing providing software for database management in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software for use in producing testing data and reports in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable electronic reports, in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable computer software for use as an application programming interface (API) in the fields of database integration and database management in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, non-downloadable computer software for use as an application programming interface (API) in the fields of database integration and database management, recorded application programming interface [API] software for managing databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable computer programs using machine learning for data analysis of research papers, experimental data, scientific papers, grant applications and grant information, patents, patent applications and patent information, chemical information and sequence data in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, downloadable computer programs using artificial intelligence for data analysis of research papers, experimental data, scientific papers, grant applications and grant information, patents, patent applications and patent information, chemical information and sequence data in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, software for use in the evaluation and analysis of data utilizing machine learning in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software for accessing databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer search engine software, software for search engine optimization, software for searching and retrieving information, namely, scientific papers, across a computer network in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer programs for accessing, browsing and searching online databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer programs for searching remotely for content on computers and computer networks in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software in relation to customised reporting of scientific and medical research, computer platform in relation to customised reporting of scientific and medical research, parts and fittings for all the aforesaid goods, none of the above in relation to toys, games, or video games, all of the aforesaid goods excluding musical entertainment, children's entertainment and animated cartoons, software for use with vehicles and Global

Positioning Systems, and in the fields of sales and management training, interpersonal communication and human relations.

## **Services**

### **Class 35**

(1) Advertising the goods and services of others in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, compilation and systemization of information into databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, database management in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, compilation of statistical information and data, computerised file management, compilation of statistical information and data for use in the measurement of contribution to a research process, data search in computer files for others in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, compilations of data in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, data search in computer files for others in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, business data management consultancy in information analysis, records management services, namely, document indexing for others in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, updating and maintenance of data in computer databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, preparation of market reports and studies in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, data processing, namely collecting, analyzing, processing research data in the in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, automated data processing, namely collecting and analyzing research data in the in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, data retrieval services, namely analyzing and processing research data in the in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, compilation of statistical data for use in scientific research, advisory and consultancy services relating to the aforesaid services, all of the aforesaid services excluding musical entertainment, children's entertainment and animated cartoons, software for use with vehicles and Global Positioning Systems, and in the fields of sales and management training, interpersonal communication and human relations.

### **Class 41**

(2) Education services not for children provided online, namely online classes and seminars in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, publication of educational texts in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, publication of scientific information and scientific content online, namely documents, research papers, experimental data, scientific papers, patents, patent applications and patent information, grant applications and grant information and databases of chemical information and sequence data, online library services relating to data and documents stored and retrieved by electronic means in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, organising and arranging of conferences, seminars and symposia in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, educational consultancy services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, online research library

services and library services provided by means of a computerised database containing information extracted from newspapers in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, publication of material which can be accessed from databases and from the internet, namely policy documents, research papers, experimental data, scientific papers, grant applications and grant information, patents, patent applications and patent information, chemical information and sequence data, and teaching materials in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, electronic library services for the supply of electronic information (including archive information) in the form of text, audio and video information in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, electronic publishing services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, publishing of scientific papers, publishing, reporting, and writing of texts in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, arranging and conducting of workshops and seminars in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, providing educational courses in the field of material science, publication of educational teaching materials not for children, namely course materials in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, video production in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, audio and video editing services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, Providing on-line training seminars in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, Providing online publications, not downloadable in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, Providing online information in the field of education in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, providing training in the field of data processing, namely, training services in the field of development and creation of computer programs for data processing, education in the field of scientific research, education in the field of statistical studies, advisory and consultancy services relating to the aforesaid services, all of the aforesaid services excluding musical entertainment, children's entertainment and animated cartoons, software for use with vehicles and Global Positioning Systems, and in the fields of sales and management training, interpersonal communication and human relations.

### **Class 42**

(3) Scientific and technological services and research and design in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, industrial analysis and industrial research and industrial design services all in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, quality control and authentication services, namely authentication of electronic documents in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, provision of scientific information in relation to medical and pharmaceutical testing, provision of information relating to scientific research in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, provision of technological information relating to scientific apparatus and instruments for research in laboratories, pharmaceutical preparations and products, and scientific and medical research, provision of scientific information relating to social sciences and social sciences research, preparation of reports relating to scientific research in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, preparation of

reports relating to social sciences research, computer programming for analysis and annotation of information in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, providing temporary use of software for the compilation of research data for measurement of contributions to a research process in the field of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, generation and analysis of metrics of research data for measurement of contributions to a research process, namely assessing the quality and impact of the research in the field of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, design and development of computer software in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, updating of computer software in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, providing search engines for searching online information and content, namely policy documents, research papers, scientific papers, patents, patent applications and patent information, grant applications and grant information and databases of chemical information and sequence data, software as a services [SaaS], namely providing computer software for storing, managing, tracking, analyzing, and reporting data in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, software as a service [SaaS] for creating, opening, editing, collaborating upon, writing, publishing, finding, searching, retrieving, managing, organising, analysing, parsing, reading, annotating, linking, recommending, reviewing, exchanging, converting, formatting, typesetting, compiling, commenting upon, visualising, sharing and connecting chemical information, patent information, experimental data, text, documents being grant applications and grant information, patents, patent applications, articles, research reports, research papers, scientific papers, posters, templates and photographic images in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, programming of software for market research purposes in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, providing scientific research information in the field of pharmaceuticals, clinical trials, biochemistry and biotechnology, providing on-line scientific information in the form of technological research in the field of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences from a computer database and the internet, providing information about industrial analysis and research services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, providing scientific research information and results from an online searchable database, in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, design and development of electronic database software in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, design and development of data display systems in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, design and development of data processing systems in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, design and development of data retrieval software in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, infrastructure as a service [IaaS] provider for hosting servers for use by others in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, scientific research conducted in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences using electronic databases, hosting of databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, electronic storage services for archiving databases in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, installation

of database software in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, programming of software for database management in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, platform as a service [PaaS] featuring computer software enabling users and systems to collaborate (view and change) on data across applications in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, scientific and technological research relating to patent mapping, providing information about the results of clinical trials for pharmaceutical products, hosting of software for use in library management, preparation of reports in the biotechnology field, preparation of reports relating to scientific research in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, preparation of reports relating to chemical research, preparation of reports relating to technical research in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, database development services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, maintenance of software and database systems in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, leasing of computer database software, in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, updating of software databases, consultancy relating to computer database programmes in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, consultancy relating to technical and scientific analysis in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, design and development of search engines and providing search engines for obtaining data on a global computer network in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, search engine design services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer and software consultancy services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, consultancy services relating to technological research in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, consultancy services relating to computer systems in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, consultancy relating to the updating of software in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, consultancy relating to software maintenance in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, consultancy in the field of scientific research in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, social sciences, information technology consulting in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, software customisation services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, computer software design, installation, maintenance and consultancy services in relation to customised reporting in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, information, advisory and consultancy services relating to the aforesaid services in the fields of material science, biology, chemistry, biochemistry, physics, mathematics, medicine, and social sciences, all of the aforesaid services excluding musical entertainment, children's entertainment and animated cartoons, software for use with vehicles and Global Positioning Systems, and in the fields of sales and management training, interpersonal communication and human relations.

(3) Hand operated tools and implements, wrenches, screwdrivers, non-electric, vices, clamps for craftsmen, wood splitters, saws [hand tools], axes, crow bars, chisels; lawn mower [hand instruments]; hand operated hedge and pruning shears; pruning scissors; hand sprayers for thermal and chemical weed control; hand operated scrapers, namely, floor scrapers and paint scrapers; shovels [hand tools]; scrapers for floors and windows; knife sharpeners; squares [hand tools]; builders' squares [hand tools]; sliding squares [hand operated tools]; trowels; cable cutters; fish tapes [hand tools]; terminal crimpers [hand operated tools]; cable tie tools; lifting jacks, hand operated.

### **Class 09**

(4) Protractors [measuring instruments], being protractor gauges; site radios; meters for measuring values of electrical parameters, meters for measuring voltage, meters for measuring electric current, meters for measuring gaseous flow, measuring rods, measuring rulers; measuring apparatus (lasers), namely laser measuring tapes, and laser distance meters; digital callipers and protractors [measuring instruments], in particular being attachments for saws; protective and safety

equipment, especially, eye protection, namely, safety goggles; hard hats; dust masks; breathing masks; welding goggles; welding helmets; welding masks; protective clothing, namely, protective face masks for the prevention of injury; protective shoes [against accident or injury], namely footwear for protection against accidents, irradiation and fire; protective suits [against accident or injury], namely biohazard suits, fire protective suits; cable locators; current-meters; multimeters; accumulator units and charging apparatus, namely, battery packs and battery chargers for power operated tools, accumulators being electrical storage batteries; hand operated measuring apparatus, namely, feeler gauges and electronic sliding callipers.

### **Class 11**

(5) Gas lamps; led lamps; inspection lamps; lighting apparatus, especially electric lamps and luminaires, light fixtures; tap water purification units for household purposes; water conduits installations, namely faucets, corner taps, shower faucets, bathtub faucets, syphons; water conditioning units; wash-hand basins, shower trays, bathtubs, toilet bowls and urinals being parts of sanitary installations, and sanitary installations in the nature of steam rooms; fittings for sanitary purposes, namely bathroom fixtures; terminal water supply fittings; fittings for the draining of water; irrigation installations, specifically drip irrigation systems; sewerage installations being waste pipes for sanitary installations; steam generating installations; unit heaters, specifically site, outdoor, terrace and party heaters; steam generating apparatus, specifically wallpaper strippers; cooking appliances, namely cooking stoves, cooking ovens being baking ovens for household purposes, commercial cooking ovens, industrial cooking ovens, convection, conventional, and induction ovens, cooking ranges, microwave ovens for cooking, steam ovens for cooking, cooking grills, electric cooking pots and pans; refrigerating apparatus, namely refrigerators and freezers, wine refrigerators, refrigerating counters and refrigerating cabinets; drying installations, specifically dehumidifiers and building dryers; apparatus for ventilating, namely ventilating fans, ventilation hoods, and energy recovery ventilators; air conditioners; barbecues; gas grills; electric broilers; barbecue grills; barbecue smokers; roasting spits; grill heating plates; water purification units being domestic water jug filters and drinking water filter cartridges.

### **Class 12**

(6) Electrically operated goods handling carts; wheelbarrows, with and without motors and engines; dollies [hand trucks]; carts for garden hoses; two-wheeled trolleys; tool trolleys; workshop vans; camera drones;

### **Class 20**

(7) Furniture for garages, namely workshop counters, work benches, working tables, axle stands, boxes for ironmongery and small items of metal hardware; tool cabinets [empty]; tool chests [furniture]; racks being fishing rod racks and freestanding tool racks; trestles [furniture]; saw horses; holders for storing tyres and tools; furniture for courtyards being outdoor and patio furniture, empty tool boxes of plastic; empty tool boxes of wood, non-metal tool boxes; plastic inserts [trays] for tool boxes; vice benches [furniture]; storage boxes of wood; storage boxes of plastic; furniture for camping; garden furniture; clips made of plastics for cables; vice benches of metal; covers for garden furniture;

### **Class 22**

(8) Plastic sheet materials [tarpaulins]; garden nets; garden tarpaulins; covering tarpaulins made of textile; tarpaulins; covers in the nature of tarpaulins for vehicles; ropes.

### **Class 25**

(9) Clothing, in particular work clothing; footwear, in particular work shoes; headgear, namely hats and caps.

**Services****Class 35**

Retail and wholesale services, and online via the internet, featuring DIY articles and garden articles, machine tools, machines for woodworking, metal working, plastics processing, soil cultivation, agriculture and forestry industries, construction industry, gardening and road maintenance services; retail and wholesale services, and online via the internet, featuring hand-operated, mechanical machines for woodworking, metal working, plastics processing, soil cultivation, agriculture and forestry industries, construction industry, gardening and road maintenance services, tools, measuring devices, industrial safety equipment being safety helmets, safety clothing for protection against accident or injury, safety harnesses, masks (protective), metal goods, building articles, compost boxes, toolboxes, buffer boxes; retail and wholesale services, and online via the internet, featuring textile goods, ropes and chains, tarpaulins, garden tarpaulins, sacks, bags, industrial oils and greases, lubricants, dust controlling compositions, fuels (including motor spirit), and illuminants, candles and wicks for lighting, apparatus for lighting, sanitary installations, water conduits installations, apparatus for heating purposes, namely central heating installations, steam generating apparatus, namely steam cleaning machines, cookers, refrigerating apparatus, namely refrigerators and freezers, wine refrigerators, refrigerating counters and refrigerating cabinets, drying apparatus, namely building dryers, laundry drying machines and drying ovens, ventilation installations, namely ventilating fans, ventilation hoods, and energy recovery ventilators, air conditioners; retail and wholesale services, and online via the internet, featuring workshop furniture, tool cabinets, racks [furniture], tool trolleys, jacks, saw horses, holders for storing tyres and tools, garden and camping furniture, barbecues and barbecue accessories, wheelbarrows, drones, clothing, footwear, headgear.

### Colour Claim

Colour is claimed as a feature of the trademark. Red, white, khaki and black. The trademark consists of the word Finura in red; below it is the phrase DE IBÉRICO in white. At the top center of the mark, there is a khaki-colored rectangle containing the stylized letters "VC" in khaki, along with the words "Vall Companys GRUPO" in khaki below it. The lower portion of the mark features wave-like patterns in khaki. The entire mark is set on a black background and is framed by a thin khaki-colored rectangular outline.

### Foreign Character Translation

The translation provided by the applicant of the word(s) Finura de Ibérico is IBÉRICO REFINEMENT.
