Trademarks Journal

Vol. 68 No. 3459

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Certification Mark Standard

The certification mark is intended to indicate that the production of the said goods have been supervised under Orthodox Rabbinical supervision of the applicant. All ingredients used in a plant or in all other facilities where food is prepared, are submitted for review of the Kosher status by the applicant. An approved list of ingredients is then established. The production facility is then inspected to determine if any Kosher concerns are present. The facility is then visited regularly to verify compliance with the standards. The standard ascribed by the applicant is in accordance with Orthodox Jewish Kosher dietary laws as defined in the Code of Jewish Law (also known as Shulchon Oruch). The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those listed in the application.

and parts and fittings of the aforesaid; Humidifiers for respiration and parts and fittings of the aforesaid; Humidification chambers being parts of mechanical ventilators and parts and fittings of the aforesaid; Connectors, namely, medical screw connections, slide ring joints, lip seals and compression gaskets for humidifiers, humidification chambers and nebulisers being parts for medical apparatus and parts and fittings of the aforesaid; Metal fasteners for humidifiers and nebulisers being part of medical apparatus and parts and fittings of the aforesaid; Humidifiers for medical purposes and medical treatments and parts and fittings of the aforesaid; Humidifiers for use with respiratory apparatus and parts and fittings of the aforesaid; Humidifiers for use in medical treatment and parts and fittings of the aforesaid; Humidifiers for use with respiratory therapy apparatus and parts and fittings of the aforesaid; Water refill tubes for humidification chambers for medical purposes and medical treatments and parts and fittings of the aforesaid; Water refill tubes for humidifiers for use with respiratory treatment apparatus and parts and fittings of the aforesaid; nasal prongs, all being for medical purposes and parts and fittings of the aforesaid; Nose masks for artificial respiration for medical purposes and parts and fittings of the aforesaid; Respiratory masks for artificial respiration and parts and fittings of the aforesaid; Respiratory masks for respiratory assistance for medical purposes and parts and fittings of the aforesaid; Masks for non-invasive respiration and parts and fittings of the aforesaid; Nasal prongs for newborns and adults and parts and fittings of the aforesaid; Face masks for medical use and parts and fittings of the aforesaid; Sets of respiratory tubes for respiratory apparatus and parts and fittings of the aforesaid; Single-use sets of respiratory tubes for respiratory apparatus and parts and fittings of the aforesaid; Autoclavable sets of respiratory tubes and parts and fittings of the aforesaid; Breathing tubes, in particular tubes being accessories for respiration and anaesthesia; Respiratory tubes and parts and fittings of the aforesaid; Surface-heated respiratory tubes and parts and fittings of the aforesaid; Endotracheal tube cuffs for medical purposes and parts and fittings of the aforesaid; Inflatable endotracheal tube cuffs for artificial respiration for medical purposes and parts and fittings of the aforesaid; Cuff pressure monitors and parts and fittings of the aforesaid; Pressure sensors and monitors for measuring, monitoring and adjustment of pressure in endotracheal tube cuffs for medical purposes and parts and fittings of the aforesaid; Apparatus and devices for measuring and monitoring transpulmonary pressures, namely, plethysmographs for measuring breath pressure and parts and fittings of the aforesaid; Valves for respiration apparatus and parts and fittings of the aforesaid; Expiration valves being part of medical apparatus and parts and fittings of the aforesaid; Expiration valves for medical respiratory apparatus and parts and fittings of the aforesaid; Expiration valves for maintaining lung pressure and parts and fittings of the aforesaid; Peep activators being parts of medical ventilators for maintaining pressure and parts and fittings of the aforesaid; Pressure reducing valves for use with medical ventilators and parts and fittings of the aforesaid; Pressure reducers for medical respirators and parts and fittings of the aforesaid; Measuring cuvettes for medical purposes for determining the carbon dioxide content of the air exhaled by a human, and for analysis of the air flow and parts and fittings of the aforesaid; Sensors for medical purposes, namely, temperature sensors, optical sensors, timing sensors, electrochemical sensors, gas sensors and parts and fittings of the aforesaid; Sensors for measuring respiratory flow and breath pressure and parts and fittings of the aforesaid; Sensors for measuring oxygen saturation in the blood and parts and fittings of the aforesaid; CO₂ sensors for medical purposes and parts and fittings of the aforesaid; Fraction of inspired oxygen (FiO₂) sensor and parts and fittings of the aforesaid; Blood oxygen saturation (SpO₂) sensors for medical purposes and parts and fittings of the aforesaid, Gas flow sensors for medical purposes and parts and fittings of the aforesaid; Sensors for respiratory mechanisms and parts and fittings of the aforesaid; Sensors for measuring the pressure in inflatable endotracheal tube cuffs for artificial respiration for medical purposes and parts and fittings of the aforesaid; Sensors for measuring transpulmonary pressure for medical purposes and

parts and fittings of the aforesaid; Thermometers for medical use and parts and fittings of the aforesaid; Electronic temperature recorders for medical use and parts and fittings of the aforesaid; Temperature sensors for medical use and parts and fittings of the aforesaid; Sensors for measuring the temperature of breathing air for use in medical respiratory apparatus and parts and fittings of the aforesaid; Temperature probes for medical purposes and parts and fittings of the aforesaid; Optical temperature measuring instruments, namely, infrared thermometers for medical inspection purposes and parts and fittings of the aforesaid; Optical sensors for water level detection in humidification chambers for medical respiratory apparatus and parts and fittings of the aforesaid; nasal cannula and parts and fittings of the aforesaid; Portable nebulisers for respiration therapy and parts and fittings of the aforesaid; Infusion pumps for medical purposes and parts and fittings of the aforesaid; vacuum pumps for medical purposes and parts and fittings of the aforesaid; Filters for medical purposes for purifying breathing air and parts and fittings of the aforesaid; Membranes for filtration, namely, air filters for medical ventilators and parts and fittings of the aforesaid; Bacteria filters for medical ventilators and parts and fittings of the aforesaid; Water traps being parts of medical ventilators and parts and fittings of the aforesaid Mechanical filters for respiration apparatus and parts and fittings of the aforesaid; Airway adapters being parts of medical ventilators and parts and fittings of the aforesaid; Filters for respiration systems and parts and fittings of the aforesaid; Connectors for filters for respiration systems and parts and fittings of the aforesaid; Tube extensions for breathing tubes and parts and fittings of the aforesaid; Test lung for testing, setting and gauging medical ventilators and parts and fittings of the aforesaid; Tube heaters being part of medical apparatus and parts and fittings of the aforesaid; Adapters for tube heaters being part of medical apparatus and parts and fittings of the aforesaid; Tube clips being part of medical apparatus and parts and fittings of the aforesaid; Tube connections being part of medical apparatus and parts and fittings of the aforesaid; Compressed air installations and systems for medical purposes, consisting of apparatus and fixed devices, namely, medical and surgical air compressors for preparing, checking and providing medical compressed air and parts and fittings of the aforesaid; Gas supply installations and systems for medical purposes, consisting of apparatus and fixed devices, namely, respirators, ventilators and compressors for preparing, checking and providing gases for medical purposes and parts and fittings of the aforesaid; spirometers for medical use and parts and fittings of the aforesaid; Medical tubing and parts and fittings of the aforesaid; Compressed air tubes for medical purposes and parts and fittings of the aforesaid; Tube systems, consisting of tubes for medical purposes, in particular tubes for anaesthesia, respiratory tubes and tubes for medical suction, tube adapters, valves, connections and parts and fittings of the aforesaid; Surface-heated respiratory tube systems and parts and fittings of the aforesaid; Patient monitors and patient sensors for monitoring and measuring blood properties and respiratory events and parts and fittings of the aforesaid; Infant incubators and parts and fittings of the aforesaid; Respirators for the artificial respiration of newborns and infants and parts and fittings of the aforesaid; Air inlet filters for incubators and parts and fittings of the aforesaid; Patient monitoring instruments, namely, heart, oxygen and pulse rate monitors, respiratory monitors Patient monitoring alarms and patient monitoring sensors and parts and fittings of the aforesaid, Patient monitoring alarms and patient monitoring sensors and parts and fittings of the aforesaid; Alarm management systems for patient monitoring, consisting of patient monitoring apparatus, namely, heart, oxygen and pulse rate monitors, respiratory monitors, and patient monitoring alarms and parts and fittings of the aforesaid; Clinical information systems for monitoring patients, consisting of patient monitoring apparatus, namely, heart, oxygen and pulse rate monitors, respiratory monitors, and patient monitoring alarms and parts and fittings of the aforesaid; Systems for monitoring patient data, consisting of patient monitoring apparatus namely, heart, oxygen and pulse rate monitors, respiratory monitors, and patient monitoring alarms and parts and fittings of the aforesaid; Precision instruments for medical purposes, namely, surgical

instruments, medical instruments for cutting tissue and parts and fittings of the aforesaid; Heating plates for humidifiers for use with medical respiratory apparatus and parts and fittings of the aforesaid; Probes for medical purposes, namely, cardiac probes, surgical probes, urethral probes and parts and fittings of the aforesaid

(8) Artificial noses for medical purposes; Protective nose masks for medical use; Anaesthesia face masks; Soda lime cartridges for use in anaesthetic delivery machines and masks and medical ventilators; Heat and moisture filters for respiratory apparatus; Neuromuscular Transmission (NMT) sensors for medical purposes; Temperature indicator labels for medical purposes; Temperature scanners for medical use; Temperature monitors for medical use; Electronic temperature monitors for medical use; Temperature regulation instruments, namely, medical incubators for medical purposes, temperature controllers, temperature regulators being part of respiratory gas humidifiers; Medical skin sensors and disposable sensors for temperature measurement; Sensors for measuring the humidity of breathing air for use in medical respiratory apparatus; Optical fibre temperature probes for medical diagnostic use; Optical scanners for medical inspection purposes; Electrodes for use with medical apparatus; Electrodes for medical use; Electrodes for medical use for picking up biological parameters; Non-selective electrodes being chemically sensitive probes [for medical use]; Electrocardiograph (ECG) electrodes; Disposable and reusable Electrocardiograph (ECG) cables; Neuromuscular Transmission (NMT) adapters for medical purposes; Neuromuscular Transmission (NMT) electrode cables for medical purposes; Atomizers sold empty for medical purposes; Compressors for medical use, namely, surgical compressors; breathing bags; Manual respiration bags; Humidification chambers for breathing tube systems; Vacuum regulators for medical respirators; Micropipettes, multichannel pipettes, hand dispenser pipettes and dropping pipettes for medical purposes; Medical syringes; Medical syringe needles; Syringe pumps for medical purposes; Apparatus for use in medical or veterinary analysis for conducting analyses of blood and urine of human or animal origin, namely, blood glucose meters, medical devices for the qualitative detection of antibodies in human and animal specimens collected as plasma or dried blood spots; Testing instruments for medical purposes, namely, blood testing instruments in the nature of apparatus for taking blood samples, blood collection tubes and devices for measuring blood sugar, breathing gas testing instruments in the nature of breath gas analyzers for medical diagnostics; Sphygmomanometers; Blood pressure monitors; Heart rate monitors for medical purposes; Heart rate counters for medical purposes; Manual probe heads for medical purposes, namely, probe heads for cardiac probes, surgical probes and urethral probes; Air temperature sensors for incubators; Oxygen (O₂) distributors for incubators; Magnetic resonance imaging [MRI] apparatus for medical purposes, medical image processors, x-ray apparatus for medical use, magnetic resonance CT apparatus; Respiratory monitor holders being accessories for medical apparatus and medical furniture

Class 11

(9) Electric freezers for medical laboratory use

Class 16

(10) Magazines, brochures, pamphlets, journals in the fields of medicine and clinical laboratory research; Paper for writing; Prospectuses; Operating manuals, technical writing books and technical drawing books

(11) Stationery, namely, writing stationery, office paper stationery, pens, pencils, paper clips; Periodicals; Books; Calendars; Writing tablets; Notebooks; Note pads; Garbage bags of paper or of plastics

Class 20

(12) Stacking trays of plastic

Services**Class 35**

(1) Advertising the goods and services of others, advertising agency services, preparing advertisements for others, conducting marketing studies, provision of marketing reports; Business management consulting; Advice relating to the organisation and management of business; Business management analysis, business risk assessment services, market analysis, consumer research, market research, information concerning business accounting, providing business information in the field of social media; Organisation of exhibitions and trade fairs, in the fields of laboratory technology and healthcare for business and promotional purposes, namely, advertising the goods and services of others; Product demonstrations and presentations of apparatus for artificial respiration and medical ventilators in live shows via the Internet; Commercial services and consumer information, namely, business consulting in the field of business networking, procurement of contracts for the purchase and sale of goods, negotiation and conclusion of commercial transactions for third parties; Compilation and systemisation of data and information into electronic databases; Business project management; Retailing and wholesaling, and online and catalogue mail order, all of the aforesaid for the following goods: motors and engines (except for land vehicles) and parts and fittings of the aforesaid, compressors and parts and fittings of the aforesaid, pumps and parts and fittings of the aforesaid, valves operated by changes in pressure and parts and fittings of the aforesaid, power-operated valves and parts and fittings of the aforesaid, mechanical valves for regulating fluid flow and parts and fittings of the aforesaid, motorised valves and parts and fittings of the aforesaid, pneumatically controlled automatic valves and parts and fittings of the aforesaid, valves for pumps and parts and fittings of the aforesaid, blowing machines for the compression and parts and fittings of the aforesaid, exhaustion and transport of gases and parts and fittings of the aforesaid, self-regulating pumps, other than for dispensing fuels at service stations and parts and fittings of the aforesaid, apparatus, instruments and cables for electricity, namely, electricity conduits, electricity meters, electricity distribution consoles, electrical cables and transformers, electrical storage batteries, rheostats and junction boxes, electric control panels, control panels for security alarms, electronic industrial controls for digital timers, electric control apparatus in the nature of electronic controls for sensors, electronic control apparatus, control units and control systems for sensors, electric control apparatus in the nature of electronic controls for respirators, electronic control apparatus, control units and control systems for respirators, automatic time switches and timing sensors, scientific, optical, analytical, measuring, dosing diagnostic and checking (supervision) apparatus and instruments, namely, measuring, detecting and monitoring instruments, indicators and controllers, namely, gauges and sensors for measuring, testing and checking the temperature, pressure, quantity, composition and concentration of gasses and liquids, and for the purpose of compensation of temperature-dependent and pressure-dependent measurement errors, temperature display apparatus, temperature recording apparatus, temperature measuring apparatus for scientific purposes, interfaces for computers, life-saving apparatus and equipment, namely, CPR equipment, calculating machines, computer hardware, computer network servers and routers, computer motherboards, computer, mobile computers, sensors for measuring instruments, sensors for touch screens, optical sensors, optical sensors for water level detection, water level detection apparatus, water level indicators, electronic sensors, housings for patient monitors and patient sensors for monitoring and measuring blood properties and respiratory events and sensors, electronic touchpads, computer touchpads, computer touchscreens, screens, displays, monitors for computers, touchscreen monitors, computer operating programs, computer programs for document management, computer programs for connecting to remote computers and computer networks, network operating system programs, downloadable application software for wireless and

wired data transmission apparatus, software for medical purposes, electronic controls for automatic valves, apparatus for recording, transmission or reproduction of sounds, images and data, namely, microphones, audio tape recorders, audio speakers, sound projectors and amplifiers, sound recording and playback machines, data carriers for recording images, sound and data, namely, blank USB drives, blank compact discs, blank optical discs, blank memory cards, computer network apparatus, computer networking equipment, mobile and wired communications terminals namely, mobile phones, smart phones, tablet computers, smart watches, smart glasses, data communications receivers namely, audio receivers, audiovisual receivers, radio receivers, telephone receivers, wireless and wired receivers, data transmission networks, namely, network routers, network servers, computer network switches, computer network hubs, computer network bridges, computer networking hardware, computer hardware, USB keys, recorded data on USB drives, compact discs, optical discs, and memory cards, namely, computer operating software, operating manuals and e-learning materials in the fields of medical ventilation and laboratory automation, audio-visual and information technology equipment, namely, audiovisual receivers, computer monitors, electric control panels, power supply aggregates, electric mains apparatus namely, connections for electrical lines, electric adapter cables, electric capacitors, electric converters, electric fuse boxes, electric relays, cables for data synchronization, cables for data transmission, cables for electric signal transmission, connections for electric cables, software, software for monitoring and controlling respirators and respiratory support apparatus, computer software and computer firmware, namely operating system programs and data synchronisation programs, database synchronisation software, computer software for the synchronization of data between a remote station or device and a fixed or remote station or device, USB operating software (universal serial bus), application software, touchpads (electric), electronic touchpads, computer touchpads, computer touchscreens, screens, displays, monitors for computers, touchscreen monitors, medical, dental, veterinary, medical electric and surgical apparatus and instruments, medical respiratory apparatus, anaesthetic apparatus, respirators for artificial respiration, respiratory apparatus for patients, respiratory apparatus for intensive care units, respiratory apparatus for newborns for prevention of asphyxiation, humidifiers for respiration, humidification chambers for respiratory apparatus, connectors for humidifiers, humidification chambers and nebulisers being parts for medical apparatus, fasteners for humidifiers and nebulisers being parts of medical apparatus, humidifiers for medical purposes and medical treatments, humidifiers for use with respiratory apparatus, humidifiers for medical treatments, humidifiers for use with respiratory therapy apparatus, nasal cannulas for medical purposes, nose masks for artificial respiration for medical purposes, respiratory masks for artificial respiration, respiratory masks for respiratory assistance for medical purposes, masks for non-invasive respiration, anaesthesia face masks, nasal prongs for newborns and adults, face masks for medical purposes, sets of respiratory tubes for respiratory apparatus, single-use sets of respiratory tubes for respiratory apparatus, autoclavable sets of respiratory tubes, breathing tubes, in particular tubes being accessories for respiration and anaesthesia, respiratory tubes, surface-heated respiratory tubes, cuff pressure monitors, apparatus and equipment for measuring, monitoring and adjustment of pressure in endotracheal tube cuffs for medical purposes, heat and moisture filters for respiratory apparatus, valves for respiratory apparatus, expiration valves in the form of parts for medical apparatus, expiration valves for medical respiratory apparatus, expiration valves for maintaining lung pressure, positive endexpiratory pressure activators, being parts for respiratory apparatus for maintaining pressure, pressure reducers for medical purposes, pressure reducers for medical respirators, measuring cuvettes for medical purposes for determining the carbon dioxide content of the air exhaled by a human, and for analysis of the air flow, sensors for medical purposes, sensors for measuring respiratory flow and breath pressure, sensors for measuring oxygen saturation in the blood, carbon dioxide sensors for medical purposes, fraction of

inspired oxygen (FiO₂) sensors, blood oxygen saturation (SpO₂) sensors for medical purposes, flow sensors for medical purposes, Sensors for respiratory mechanisms, sensors for measuring the pressure in inflatable endotracheal tube cuffs for artificial respiration for medical purposes, temperature measuring apparatus for medical purposes, temperature monitors for medical purposes, electronic temperature monitors for medical purposes, electronic temperature recorders for medical purposes, temperature sensors for medical purposes, sensors for measuring the temperature of breathing air for use in medical respiratory apparatus, temperature probes for medical purposes, optical temperature measuring instruments for medical examination purposes, temperature-sensitive test instruments and test apparatus for medical purposes, nasal cannulae, portable nebulisers for medical purposes, pumps for medical use, compressors for medical purposes, filters for medical purposes for purifying breathing air, membranes for filtration, namely, air filters for medical ventilators, bacterial filters, namely, air filters for medical ventilators, water traps being parts of medical ventilators, intravenous feeding tubes, infusion pumps, mechanical filters for respiratory apparatus, airway adapters, filters for respiration systems, connectors for filters for respiratory systems, tube extensions for breathing tubes, test lungs, humidification chambers for breathing tube systems, tube heaters in the form of parts for medical apparatus, tube heater adapters in the form of parts for medical apparatus, tube clips in the form of parts for medical apparatus, tube connectors in the form of parts for medical apparatus, compressed air installations and systems for medical purposes, namely, medical and surgical air compressors for preparing, checking and providing medical compressed air, monitoring and providing medical compressed air, Gas supply installations and systems for medical purposes, consisting of apparatus and fixed devices for preparing, checking and providing gases for medical purposes, spirometers for medical purposes, spirometry apparatus, tubing for medical purposes, medical compressed air tubes, tube systems consisting of tubes for medical purposes, in particular tubes for anaesthesia, respiratory tubes and tubes for medical suction, tube adapters, valves, connectors and accessories, all for the use with respirators for artificial respiration and medical ventilators, surface-heated respiratory tube systems, filters for medical purposes, analysers for medical use, namely, oxygen monitors, spirometers, measuring devices for medical purposes, measuring instruments adapted for medical use, patient monitors and patient sensors for measuring cardiac, circulatory, respiratory and pulmonary functions, testing instruments for medical purposes, apparatus for measuring body signals in connection with patient analysis, patient monitoring apparatus, patient monitoring alarms and patient monitoring sensors, apparatus and instruments for monitoring patients, in particular patient monitoring apparatus, patient monitoring sensors and alarms, alarm management systems for patient monitoring, consisting of patient monitoring apparatus, patient monitoring alarms and software for patient monitoring apparatus and patient monitoring alarms, gas emergency signal monitors for monitoring medical gases and gas installations in hospitals, clinical information systems for monitoring patients, consisting of patient monitoring apparatus and patient monitoring alarms, systems for monitoring patient data, consisting of patient monitoring apparatus and patient monitoring alarms, test systems, consisting of testing apparatus for testing the function of medical apparatus and analysis or diagnostic apparatus for medical apparatus, medical analysis apparatus for use in laboratories, precision instruments for medical purposes, heating plates for humidifiers for use with medical respiratory apparatus, probes for medical use, magazines, brochures, pamphlets, journals in the fields of medicine and clinical laboratory research; prospectuses, operating instructions and technical documentation, valves, not of metal, containers, and closures and holders therefor, not of metal, drains of plastic, fixing materials, connectors and holders for tubes, not of metal

(2) Business consultancy services relating to manufacturing; Business merchandising display services; Retailing and wholesaling, and online and catalogue mail order, all of the aforesaid for the following goods: diagnostic preparations for medical laboratory use, diagnostic preparations for

clinical laboratory use, in vitro diagnostic preparations for medical purposes, clinical diagnostic reagents, pharmaceutical preparations, chemical preparation for medical or pharmaceutical purposes, reagents for providing diagnosis in medicine or veterinary medicine, adhesive tapes for medical purposes, medical diagnostic test strips, medical diagnostic reagents and tests for testing bodily fluids, reagents for in-vitro laboratory tests for medical and veterinary purposes, electrolyte solutions for medical use, sterile solutions for medical purposes, machine coupling and transmission components (except for land vehicles), robots for laboratory use, robotic filling machines, vacuum controllers, pumps being machine parts, hydraulically controlled automatic valves, electrical controllers for robots, temperature regulating and temperature monitoring instruments, temperature regulating apparatus, temperature measuring apparatus for scientific use, temperature feedback units, digital cameras, wireless and wired transmitters, wireless and wired receivers, wired and wireless communication devices namely, mobile phones, smart phones, tablet computers, smart watches, smart glasses, wireless and wired two-way communications systems namely, mobile phones, smart phones, tablet computers, smart watches, smart glasses, wireless and wired communications apparatus for the transmission of data, namely, network routers, modems, GPS receivers, radio receivers, laboratory instruments for use in clinical, analytical and biopharmaceutical laboratories, printers, tablet computers, micro-pumps, analysers for liquids, namely, analysers for liquids, namely, liquid-level sensors, liquid-level gauges, flasks for laboratory use, stills for laboratory experiments, Barcode readers, Electrodes, electrodes for sensors, cathodes, sensors and detectors, electro-optical sensors, optical fibre sensors, water gauges, holding devices for patient monitors and patient sensors for monitoring and measuring blood properties and respiratory events and sensors, protective sleeves and protective films for patient monitors and patient sensors for monitoring and measuring blood properties and respiratory events and sensors, protective cases and protective films for touchpads (electric), diaphragms for scientific apparatus, apparatus and instruments for checking (supervision) respirators for artificial respiration, analysis robots not for medical purposes, WLAN apparatus, blank computer storage media, USB cables, USB card readers, readers for memory cards, adapter for memory card, memory card readers, optical memory cards, flash memory cards, secure digital storage cards, computer software for wireless and wired network communications, computer software for wireless and wired content transmission, software for telephone-based queries and hardware for telephone-based queries, namely, computer hardware and telephones, application software for mobile telephones, application software for wireless and wired apparatus, downloadable software applications for use with mobile and wired apparatus, computer peripherals and accessories and replacement parts for the aforesaid goods, wired and wireless computer peripherals and replacement parts for the aforesaid goods, water refill tubes for humidification chambers for medical purposes and medical treatments and replacement parts for the aforesaid goods, water refill tubes for humidifiers for use with respiratory treatment apparatus and replacement parts for the aforesaid goods, artificial noses for medical purposes and replacement parts for the aforesaid goods, protective nose masks for medical purposes and replacement parts for the aforesaid goods, endotracheal tube cuffs for medical purposes, inflatable endotracheal tube cuffs for artificial respiration for medical purposes and replacement parts for the aforesaid goods, apparatus and devices for measuring and monitoring transpulmonary pressure and replacement parts for the aforesaid goods, soda lime cartridges and replacement parts for the aforesaid goods, neuromuscular transmission (NMT) sensors for medical purposes and replacement parts for the aforesaid goods, sensors for measuring transpulmonary pressure for medical purposes and replacement parts for the aforesaid goods, temperature indicators for medical purposes and replacement parts for the aforesaid goods, temperature scanners for medical purposes and replacement parts for the aforesaid goods, temperature regulation instruments for medical purposes and replacement parts for the aforesaid goods, medical skin sensors and disposable

sensors for temperature measurement and replacement parts for the aforesaid goods, sensors for measuring the humidity of breathing air for use in medical respiratory apparatus and replacement parts for the aforesaid goods, optical fibre temperature probes for medical diagnostic purposes and replacement parts for the aforesaid goods, optical scanners for medical examination purposes and replacement parts for the aforesaid goods, optical sensors for water level detection in humidification chambers for medical respiratory apparatus and replacement parts for the aforesaid goods, electrodes for medical apparatus and replacement parts for the aforesaid goods, electrodes for medical use and replacement parts for the aforesaid goods, electrodes for recording biological parameters and replacement parts for the aforesaid goods, non-selective electrodes as chemically sensitive probes (for medical purposes) and replacement parts for the aforesaid goods, electrocardiograph (ECG) electrodes and replacement parts for the aforesaid goods, disposable and reusable electrocardiograph (ECG) cables and replacement parts for the aforesaid goods, neuromuscular transmission (NMT) adapters for medical purposes and replacement parts for the aforesaid goods, neuromuscular transmission (NMT) electrode cables for medical purposes and replacement parts for the aforesaid goods, Sprayers for medical purposes and replacement parts for the aforesaid goods, breathing bags and replacement parts for the aforesaid goods, manual respiration bags and replacement parts for the aforesaid goods, vacuum regulators for medical purposes and replacement parts for the aforesaid goods, pipettes for medical purposes and replacement parts for the aforesaid goods, syringes for medical purposes, medical syringe needles and replacement parts for the aforesaid goods, syringe pumps for medical purposes and replacement parts for the aforesaid goods, septa for medical purposes and replacement parts for the aforesaid goods, sphygmo-tensiometers and replacement parts for the aforesaid goods, blood pressure monitoring devices and replacement parts for the aforesaid goods, heart rate monitors for medical purposes and replacement parts for the aforesaid goods, heart rate counters for medical purposes and replacement parts for the aforesaid goods, manual probe heads for medical purposes and replacement parts for the aforesaid goods, medical apparatus and instruments for primary care and stabilisation of newborns and replacement parts for the aforesaid goods, air temperature sensors for incubators and replacement parts for the aforesaid goods, air inlet filters for incubators and replacement parts for the aforesaid goods, oxygen (O₂) distributors for incubators and replacement parts for the aforesaid goods, dispensers for administering and selecting reagent instruments for medical use and replacement parts for the aforesaid goods, medical imaging devices and replacement parts for the aforesaid goods, monitor holders being accessories for medical apparatus and medical furniture and replacement parts for the aforesaid goods, analysis robots for medical purposes and replacement parts for the aforesaid goods, containers for medical waste and replacement parts for the aforesaid goods, containers especially designed for disposing of medical instruments and replacement parts for the aforesaid goods, syringes and other contaminated medical waste and replacement parts for the aforesaid goods, freezing installations for medical purposes and replacement parts for the aforesaid goods, writing supplies and replacement parts for the aforesaid goods, sanitary pads, garbage bags of paper or of plastics, books, newsletters, magazines, pamphlets, and brochures, greeting cards, containers for storage purposes, other than for household or kitchen use and replacement parts for the aforesaid goods, flexible containers of plastic for storing and transporting liquids, stackable filing boxes of plastic, and replacement parts for the aforesaid goods; Collection of data, namely, database management in the field of scientific laboratory research; Collection of data, namely, database management in the field of scientific laboratory research for use in scientific research

Class 37

(3) Installation, maintenance and repair of surgical, medical, dental and veterinary and scientific laboratory apparatus and instruments; Installation, maintenance and repair of respiratory apparatus

(4) Installation, maintenance and repair of apparatus for measuring body signals in connection with patient analysis; IT consultancy and information in the fields of repair of computer hardware

Class 38

(5) Operation of an information, complaint and emergency hotline in the field of customer relationship management, including online, namely receiving, recording and forwarding customer queries or customer complaints, electronically or by telephone

Class 41

(6) Publication of printed documents other than publicity texts; Publishing books, magazines, operating instructions and technical documentation; Production of films for educational purposes

(7) Publication of printed documents other than publicity texts; Publishing books, magazines, operating instructions and technical documentation

Class 42

(8) Computer software technical support services; IT services, namely, development, programming services, installation, implementation, updating, maintenance and repair of software; Development and implementation of computer hardware; Hosting of computer sites (websites); Software as a service [SaaS] namely, software as a service (SAAS) provider in the field of providing customer relations management, software as a service (SAAS) provider in the field of software for controlling and managing laboratory equipment and laboratory automation, software as a service (SAAS) provider in the field software for controlling and managing of medical ventilation; IT consultancy and information in the fields of computer programming, computer software design and computer and internet security, and IT security, protection and repair, namely, computer network security, design and development of electronic data security systems, repair of computer software; computer virus protection services, Document data transfer and conversion from one media to another; IT services, namely, data coding, namely, evaluation and quantifying of data as a preparation for further analysis of data, all in the field of medicine and clinical laboratory research; Computer analysis and diagnostics; Research and development, and implementation of computers and computer systems; Computer programming; Computer project management; Updating the memory banks of computer systems; Data migration services; Development of new products and technologies, for others; Product development for medicine goods

(9) Research and development in the medical and pharmaceutical sector; Scientific research for medical purposes in the field of pulmonary diseases; Scientific research for medical purposes in the field of artificial respiration; Engineering, for others, in relation to medical respiratory apparatus, and parts and fittings therefor; Technical planning and consultancy in relation to medical respiratory apparatus, and parts and fittings therefor; Chemical and manufacturing engineering project management services; Technical project management in relation to the installation, use and maintenance of medical respiratory apparatus, and parts and fittings therefor; Computers and computer software design engineering consultancy in the field of data processing, namely, database management; Technical project studies in the field of laboratory equipment; Rental of computer hardware and facilities, namely, computers, computer modems and routers, computer keyboards; Data mining namely, collecting and analyzing operational and maintenance data received from computers, namely, data decryption services, data encryption and decoding services, data migration services, digital compression of computer data; Computer network services namely, computer network design, computer network security and computer network configuration services; Technical consultancy in relation to medical respiratory apparatus, and parts and fittings therefor; Monitoring of computer systems by remote access; Technical surveying; Chemistry services, namely, chemical engineering, chemical analysis and laboratory research in the field of chemistry, in relation to medical respiratory apparatus and parts and fittings therefor;

Physics (research) in relation to medical respiratory apparatus, and parts and fittings therefor; Technical consultancy in relation to product development for medical products; medical research laboratory services

Class 44

(10) Medical services relating to the diagnosis and treatment of respiratory diseases, disorders and infections; Medical consultancy relating to respiratory diseases, disorders and infections; Medical consultancy relating to respiratory diseases, disorders and infections; Medical services for the diagnosis of conditions of the human body

(11) Medical testing services relating to the diagnosis and treatment of disease; Medical services in the field of treatment of chronic pain; Provision of pharmaceutical information; Pharmacy advice; Consultancy and information services relating to biopharmaceutical products; Medical diagnostics, namely conducting of tests and analysis; Rental of medical equipment, machines and apparatus; Medical laboratory services for the analysis of blood samples taken from patients; medical analysis services for diagnostic and treatment purposes provided by medical laboratories

Class 45

(12) Licensing authority services; Licensing of computer software [legal services]; Licensing industrial property rights; Industrial property consultancy; Legal services in the form of exploitation of intellectual property rights and copyright through licensing

(13) Licensing of computer software [legal services]

Goods

Class 05

(1) Medicinal cannabis; medicinal preparations, namely topicals made with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes absorbed through the skin for localized relief of pain, soreness, and inflammation; personal sexual lubricants infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes; capsules sold empty for pharmaceuticals

Class 09

(2) Electronic publications, namely newsletters and brochures about benefits of medical cannabis and research related to medical cannabis; weighing scales

Class 11

(3) Dispensing units for room deodorant

Class 16

(4) Printed publications, namely newsletters and brochures about benefits of medical cannabis and research related to medical cannabis

Class 18

(5) Bags namely carry-all bags, knapsacks and tote bags

Class 25

(6) Clothing, namely casual clothing, shirts, sweatshirts, hats, dresses, skirts, pants, jackets, scarves, toques, lab coats, undergarments, belts, tank tops, and gloves

Class 29

(7) Cannabis oil for food; peanut butter spreads infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes, cannabis sauces, cannabis spices, cannabis honey; yogurt infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes; hazelnut spreads infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes

Class 30

(8) Edibles made with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis gum, cannabis mints, cannabis cotton candy, cannabis waxes, namely, cookies, brownies, granola bars, chocolates, pies, muffins, bread and buns, biscuits, pastries, candies, gummy candies

Class 31

(9) Pet food infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes; pet beverages infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes; edible treats for pets infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes; sowing seeds; plant clones; live cannabis plants; cannabis seeds for planting

Class 32

(10) Non-alcoholic beverages infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis tinctures, cannabis waxes, namely, beer-flavoured beverages, fruit-flavoured beverages, carbonated beverages, honey-based beverages, protein-enriched sports beverages, smoothies; bottled water; flavoured waters; glacial water; mineral and carbonated waters; sparkling water; spring water; bottled water, flavoured water, glacial water, mineral water, carbonated water, sparkling water and spring water infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes; non-alcoholic beverages infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes, namely, chocolate-based beverages, coffee-based beverages, tea-based beverages, honey-based beverages

Class 33

(11) Alcoholic beverages infused with cannabis, cannabis extracts, cannabis resins, cannabis oils, cannabis waxes, namely, chocolate-based beverages, coffee-based beverages, fruit beverages, tea-based beverages

Class 34

(12) Dried cannabis; cannabis extracts namely, resins, oils and waxes; cannabis paraphernalia, namely, pipes, bongs, bowls, hookah, rolling papers, blunts, roach clips, pill bottles, oral vaporizers for smokers, lighters, torches, ashtrays, grinders

Services**Class 35**

Certification Mark Standard

The use of the certification mark is intended to indicate that the services in association with which it is used are of the following defined standard: The certification mark, as intended to be used by authorized persons, is intended to certify that the services offered by those authorized persons and the manner in which such services are performed comply with the guidelines and standards promulgated by the certifier and its affiliates relating to workplace health and safety. Further particulars concerning the guidelines and standards promulgated by the certifier can be viewed on the CD filed with this application, which are available for review by the public at CIPO, or obtained from the <http://Agsafebc.ca> website. Also enclosed herewith are digital copies of a Policies and Procedures Manual, a Large Employer Audit Tool and a Small Employer Audit Tool available to the public through the website <http://agsafebc.ca/cor/audit/>, and which specify the standards that must be met by authorized persons in order to be authorized to display the certification mark. More particularly, the certification mark, as intended to be used by an authorized person, is intended to certify that the authorized person has an established occupational health & safety program in place, has had its occupational health & safety program audited by a safety professional, and has

achieved the following scores on an audit conducted by a safety professional, scored according to the enclosed Audit Tools: (i) for large employers (20 or more workers), a 'TOTAL SCORE' of at least 80% on the scale defined in the enclosed Large Employer Audit Tool and a score of no less than 50% on each of the eight (8) Elements on the scale defined in the enclosed Large Employer Audit Tool; and (ii) for small employers (19 or fewer employees), a 'TOTAL SCORE' of at least 80% on the scale defined in the enclosed Small Employer Audit Tool and a score of no less than 50% on each of the eight (8) Elements on the scale defined in the enclosed Small Employer Audit Tool. The Policies and Procedures Manual, the Large Employer Audit Tool, and the Small Employer Audit Tool refer to standards including the existence and content of policies and programs; exemplary versions of such policies and programs can be viewed on the CD filed with this application and are available for review by the public at CIPO. The applicant is not engaged in the manufacture, sale, leasing or hiring of goods or the performance of services such as those listed in the application.

(1) Installation of power generating apparatus, namely, installation of electrical and generating machinery comprised of rechargeable electrical storage batteries, rechargeable electrical storage batteries containing integrated electrolyzers, and uninterruptible power supplies containing integrated electrolyzers for others; maintenance, reconditioning and repair of electrical power generating machinery comprised of rechargeable electrical storage batteries, rechargeable electrical storage batteries containing integrated electrolyzers, and uninterruptible power supplies containing integrated electrolyzers; providing information relating to the repair of maintenance

storage materials, namely, providing information about the maintenance and repair of electrical power generating and storage apparatus and installations comprised of rechargeable electrical storage batteries, rechargeable electrical storage batteries containing integrated electrolyzers, and uninterruptible power supplies containing integrated electrolyzers via a website; providing information in the fields of repair and maintenance of integrated battery-electrolyzers and battery electrolyser technology, namely, rechargeable electrical storage batteries, rechargeable electrical storage batteries containing integrated electrolyzers, and uninterruptible power supplies containing integrated electrolyzers;

Class 40

(2) Treatment of materials for the conversion, generating, regulating, control and storage of electric current, namely, custom production of hydrogen and oxygen for others by means of electrolysis with an integrated electrical storage battery and electrolyser, generation of electricity for others by means of integrated electrical storage battery and electrolyzers; treating materials for the conversion of electric power to separate gas streams of hydrogen and oxygen, namely, generation of electricity for others by means of integrated electrical storage battery and electrolyser, custom production of hydrogen and oxygen for others by means of electrolysis; providing information about the treatment of materials, namely, providing technical advice about the generation of electrical power by means of electrical storage batteries containing integrated electrolyzers and uninterruptible power supplies containing integrated electrolyzers; consultancy services relating to the generation of electrical power; custom gas processing of hydrogen and oxygen gas for others generated by electrode materials for integrated battery-electrolyzers;

Class 41

(3) Education and training for industrial research in the field of conduction, generating, conversion and storage of electric power, namely, training in the use and operation of electric power generation equipment and batteries and devices for storing such electric power, training in the use and operation of rechargeable electrical storage batteries containing integrated electrolyzers and uninterruptible power supplies containing integrated electrolyzers for the generation of electricity, hydrogen and oxygen; education in the field of power supply, namely, conducting classes, seminars, conferences and workshops in the field of electricity, hydrogen and oxygen generation by means of rechargeable electrical storage batteries containing integrated electrolyzers and uninterruptible power supplies containing integrated electrolyzers; arranging of presentations and seminars for educational purposes, namely, conducting seminars, conferences and workshops in the field of electrical power generation by means of rechargeable electrical storage batteries containing integrated electrolyzers and uninterruptible power supplies containing integrated electrolyzers, conducting seminars, conferences and workshops in the field of electricity, hydrogen and oxygen generation by means of rechargeable electrical storage batteries containing integrated electrolyzers and uninterruptible power supplies containing integrated electrolyzers; training courses on strategic planning in the fields of promotion, marketing and business in the field of electricity storage and conversion; teaching and educational seminars on electricity storage and conversion;

Class 42

(4) Science and technology services, and research and design services, namely, conducting scientific research for others in the field of electrical power generation produced via electrolysis, electrical storage batteries containing integrated electrolyzers and uninterruptible power supplies containing integrated electrolyzers, design and development of new products for others featuring pressurized or ambient pressure alkaline electrolyzers combined or integrated with rechargeable electrical storage battery devices; industrial analysis and research services, namely, conducting

industrial research for others in the field of electrical power generation produced via electrolysis, electrical storage batteries containing integrated electrolysers and uninterruptible power supplies containing integrated electrolysers, design and development of new products for others featuring pressurized or ambient pressure alkaline electrolysers combined or integrated with rechargeable electrical storage battery devices; design and development of computer systems and software programs for others for use with power generation equipment featuring electrical storage batteries containing integrated electrolysers and uninterruptible power supplies containing integrated electrolysers; consultancy and information services in the field of computer software, namely with regard to providing software and software maintenance for the operation of rechargeable batteries and electrolysers and integrated batteries and electrolysers; consultancy services in the field of technological development, namely, providing scientific research information about electrical power produced via electrolysis, electrical storage batteries containing integrated electrolysers and uninterruptible power supplies containing integrated electrolysers; technical consultancy services relating to the design and development of electrical power storage and conversion using rechargeable electrical storage batteries containing integrated electrolyser technology;
