Goods

Class 06

(1) Substrates primarily of metal for supporting solar cells, photovoltaic cells and solar collectors; metal structures for supporting solar panels, photovoltaic modules, and photovoltaic cells; metal structures for supporting solar panels, photovoltaic modules, and photovoltaic cells, namely, solar tracking systems; photovoltaic systems comprised of metal mounting structures for photovoltaic modules for production of solar energy;

Class 07

(2) Solar tracker, namely driving motors, other than for land vehicles, for positioning of photovoltaic modules relative to the sun and replacement parts therefor; solar photovoltaic power generators using solar trackers; solar-tracking systems consisting of machine motors and gears for automatically positioning of photovoltaic modules relative to the sun ;solar-tracking systems comprised of electric motors for machines for positioning of photovoltaic modules relative to the sun to maximize collection of solar energy; solar photovoltaic power generation systems using solar trackers, namely, solar-powered electricity generators; solar trackers for solar photovoltaic electric power generation systems comprised of motors, gears, and drives for orienting solar panel; sun-tracking system comprising of a machinery for calculating and sensing the position of the sun, automatically tracking the sun, and repositioning solar panels to track the sun;

Class 09

(3) Photovoltaic system comprised primarily of electronic apparatus for positioning photovoltaic modules towards the sun and also mounting structures specially adapted for photovoltaic modules; electricity energy supply controller, namely, programmable controllers and actuators that track the sun enabling concentrating optics to maximize solar energy input; photovoltaic systems in the nature of solar trackers comprised of automatic solar tracking sensors that track the sun to maximize collection of solar energy; downloadable computer software for controlling movement and positioning of solar trackers; computer hardware and downloadable software for controlling movement and positioning of solar trackers; downloadable computer software and programs for controlling, regulating and monitoring of photovoltaic modules and solar trackers; solar trackers in

the nature of photovoltaic solar modules for production of electricity that track the sun in order to optimize the production of energy from the solar light; solar-tracking systems comprised of automatic solar tracking sensors for automatically tracking the sun and positioning of photovoltaic modules relative to the sun; solar panels for electricity generation; power inverters; photovoltaic inverters; photovoltaic solar modules; power converters used in solar power generation; solar cell modules for photovoltaic power; solar energy storage devices for generating electricity; solar cells.

Class 19

(4) Photovoltaic systems comprised of non-metal mounting structures for photovoltaic modules for production of solar energy

Services

Class 35

(1) Wholesale store services featuring substrates primarily of metal for supporting solar cells, photovoltaic cells and solar collectors; retail store services featuring substrates primarily of metal for supporting solar cells, photovoltaic cells and solar collectors; wholesale store services featuring metal structures for supporting solar panels, photovoltaic modules, and photovoltaic cells; retail store services featuring metal structures for supporting solar panels, photovoltaic modules, and photovoltaic cells; wholesale store services featuring metal structures for supporting solar panels, photovoltaic modules, and photovoltaic cells, namely, solar tracking systems; retail store services featuring metal structures for supporting solar panels, photovoltaic modules, and photovoltaic cells, namely, solar tracking systems; wholesale store services featuring photovoltaic systems comprised of metal mounting structures for photovoltaic modules for production of solar energy; retail store services featuring photovoltaic systems comprised of metal mounting structures for photovoltaic modules for production of solar energy; wholesale store services featuring solar tracker, namely driving motors, other than for land vehicles, for positioning of photovoltaic modules relative to the sun and replacement parts therefor; retail store services featuring solar tracker, namely driving motors, other than for land vehicles, for positioning of photovoltaic modules relative to the sun and replacement parts therefor; wholesale store services featuring solar photovoltaic power generators using solar trackers; retail store services featuring solar photovoltaic power generators using solar trackers; wholesale store services featuring solar-tracking systems consisting of machine motors and gears for automatically positioning of photovoltaic modules relative to the sun ; retail store services featuring solar-tracking systems consisting of machine motors and gears for automatically positioning of photovoltaic modules relative to the sun ; wholesale store services featuring solar-tracking systems comprised of electric motors for machines for positioning of photovoltaic modules relative to the sun to maximize collection of solar energy; retail store services featuring solar-tracking systems comprised of electric motors for machines for positioning of photovoltaic modules relative to the sun to maximize collection of solar energy; wholesale store services featuring solar photovoltaic power generation systems using solar trackers, namely, solar-powered electricity generators; retail store services featuring solar photovoltaic power generation systems using solar trackers, namely, solar-powered electricity generators; wholesale store services featuring solar trackers for solar photovoltaic electric power generation systems comprised of motors, gears, and drives for orienting solar panel; retail store services featuring solar trackers for solar photovoltaic electric power generation systems comprised of motors, gears, and drives for orienting solar panel; wholesale store services featuring sun-tracking system comprising of a machinery for calculating and sensing the position of the sun, automatically tracking the sun, and repositioning solar panels to track the sun; retail store services featuring sun-tracking system comprising of a machinery for calculating and sensing the position of the sun, automatically tracking the sun, and repositioning solar panels to track the sun; wholesale

store services featuring photovoltaic system comprised primarily of apparatus for positioning photovoltaic modules and also mounting structures specially adapted for photovoltaic modules; retail store services featuring photovoltaic system comprised primarily of apparatus for positioning photovoltaic modules and also mounting structures specially adapted for photovoltaic modules; wholesale store services featuring electricity energy supply controller, namely, programmable controllers and actuators that track the sun enabling concentrating optics to maximize solar energy input; retail store services featuring electricity energy supply controller, namely, programmable controllers and actuators that track the sun enabling concentrating optics to maximize solar energy input; wholesale store services featuring photovoltaic systems in the nature of solar trackers comprised of automatic solar tracking sensors that track the sun to maximize collection of solar energy; retail store services featuring photovoltaic systems in the nature of solar trackers comprised of automatic solar tracking sensors that track the sun to maximize collection of solar energy; wholesale store services featuring downloadable computer software for controlling movement and positioning of solar trackers; retail store services featuring downloadable computer software for controlling movement and positioning of solar trackers; wholesale store services featuring computer hardware and downloadable software for controlling movement and positioning of solar trackers; retail store services featuring computer hardware and downloadable software for controlling movement and positioning of solar trackers; wholesale store services featuring downloadable computer software and programs for controlling, regulating and monitoring of photovoltaic modules and solar trackers; retail store services featuring downloadable computer software and programs for controlling, regulating and monitoring of photovoltaic modules and solar trackers; wholesale store services featuring solar trackers in the nature of photovoltaic solar modules for production of electricity that track the sun in order to optimize the production of energy from the solar light; retail store services featuring solar trackers in the nature of photovoltaic solar modules for production of electricity that track the sun in order to optimize the production of energy from the solar light; wholesale store services featuring solar-tracking systems comprised of automatic solar tracking sensors for automatically tracking the sun and positioning of photovoltaic modules relative to the sun; retail store services featuring solar-tracking systems comprised of automatic solar tracking sensors for automatically tracking the sun and positioning of photovoltaic modules relative to the sun; wholesale store services featuring solar panels for electricity generation; retail store services featuring solar panels for electricity generation; wholesale store services featuring inverters; retail store services featuring inverters; wholesale store services featuring solar modules; retail store services featuring solar modules; wholesale store services featuring power converters used in solar power generation; retail store services featuring power converters used in solar power generation; wholesale store services featuring solar cell modules for photovoltaic power; retail store services featuring solar cell modules for photovoltaic power; wholesale store services featuring solar energy storage devices for generating electricity; retail store services featuring solar energy storage devices for generating electricity; wholesale store services featuring solar cells; retail store services featuring solar cells; wholesale store services featuring photovoltaic systems comprised of non-metal mounting structures for photovoltaic modules for production of solar energy; retail store services featuring photovoltaic systems comprised of non-metal mounting structures for photovoltaic modules for production of solar energy; arranging for repair of solar tracking systems pursuant to service agreements;

Class 37

(2) Installation, maintenance, and repair of solar-tracking systems consisting of solar-tracking hardware; construction of solar-tracking systems, namely, construction of solar power energy plants; construction of solar power plant; installation of photovoltaic power generation installations; maintenance of photovoltaic power generators;

Class 42

(1) Measuring apparatus, namely computer hardware for the collection of human biometric data using sensors for medical use, biometric sensors for the monitoring and tracking of neural impulses and muscle activity, ultrasonic sensors, heat sensors, position sensors, pressure sensors, temperature sensors, hygrometric sensors, optical sensors; downloadable software for the collection of human biometric data using sensors for medical use, biometric sensors for the monitoring and tracking of neural impulses and muscle activity, ultrasonic sensors, heat sensors, position sensors, pressure sensors, temperature sensors, hygrometric sensors, optical sensors; diagnostic apparatus, other than for medical use, namely ultrasonic imaging apparatus, thermal cameras, infrared cameras for research and laboratory use in the detection of skin disorders, muscle tension and deep tissue disorders, for non-medical use; apparatus and instruments for supervising, monitoring and checking electricity for non-medical use, namely thermal cameras, ultrasonic cameras, biometric sensors for measuring biological tissue impedance, biometric sensors for heart rate monitoring; software, namely downloadable computer software applications for accessing skin care information, software for accessing information in the field of skin care, downloadable mobile application for setting, tracking and monitoring health and wellness goals of users, downloadable mobile application for the provision of a dashboard featuring personalized health and wellness information, downloadable software application that applies artificial intelligence programming for robotic massage therapy, software for monitoring, checking, collecting and recording data from a robotic massage system; image recording apparatus, namely video cameras, infrared cameras, video recorders; downloadable database management software, downloadable computer software for accessing and operating databases in the field massage therapy.

Class 10

(2) Medical apparatus, namely electric skin measuring devices for use as parts of esthetic massage apparatus, skin moisture analyzers for cosmetic use, electronic muscle stimulation (EMS) machines, muscle stimulators; massage apparatus, namely body massagers, electric vibrating massagers for treating the skin, electric vibrating massagers for stimulating the skin,

electric vibrating massagers for toning the skin, deep tissue massage balls; massage chairs with built-in massage apparatus; chairs for medical use and medical examination tables; diagnostic apparatus for medical use, namely medical devices for use in the detection of skin conditions, muscle tensions and conditions, and deep tissue conditions.

Services

Class 35

(1) Retail services for beauty and health care machines, apparatus, namely electric skin measuring devices for use as parts of esthetic massage apparatus, skin moisture analyzers for cosmetic use, electronic muscle stimulation (EMS) machines, muscle stimulators, body massagers, electric vibrating massagers for treating the skin, electric vibrating massagers for stimulating the skin, electric vibrating massagers for toning the skin, deep tissue massage balls, massage chairs with built-in massage apparatus, care robots for massage therapy, apparatus and measuring equipment for diagnosis and massage, namely body massagers, electric vibrating massagers for treating the skin, electric vibrating massagers for stimulating the skin, electric vibrating massagers for toning the skin, deep tissue massage balls, ultrasonic sensors, heat sensors, position sensors, pressure sensors, temperature sensors, hygrometric sensors, optical sensors; retail of software.

Class 37

(2) Installation, repair and maintenance services for body massagers, electric vibrating massagers for treating the skin, electric vibrating massagers for stimulating the skin, electric vibrating massagers for toning the skin, care robots for massage therapy, massage apparatus.

Class 41

(3) Training, education, namely training in the field of beauty care, provision of online courses in the field of massage therapy, general health and wellness; organization of conferences in the field of general health and wellness, beauty care and massage therapy; training in the field of artificial intelligence-based robotic technology applied to massage therapy robots, training in the field of artificial intelligence-based 3D vision and multi-sensoriality applied to massage therapy robots.

Class 42

(4) Research and product development services for others; design and development of computer hardware and downloadable software for the collection of human biometric data using sensors for medical use, biometric sensors for the monitoring and tracking of neural impulses and muscle activity, ultrasonic sensors, heat sensors, position sensors, pressure sensors, temperature sensors, hygrometric sensors, optical sensors for massages; development of software; rental of software; installation, repair and maintenance of software.

Class 44

(5) Skin care services, namely laser skin rejuvenation services, health care services in the field of esthetic body and skin care, esthetic skin care services, cosmetic skin treatments using radio frequency; beauty salons; skin care centres, namely health centres, namely operation of a wellness centre providing esthetic body and skin care services; cosmetic surgery; massage services; hygiene and beauty care for humans and animals, namely health and beauty care services provided by saunas, beauty salons and massage parlours; rental of skin care and massage therapy equipment for humans and animals; provision of information and advice in the field of massage via a website, provision of information and advice in the fields of skin care, use of skin care products and beauty care for the skin; professional advisory services related to health care, namely dispensing of professional advice relating to skin care and massage therapy; carrying out diagnostics prior to health and beauty care, namely medical diagnostic consultations provided via telephone, videoconferencing and online chat, medical examinations for diagnostic purposes.

Services

Class 35

(1) Assistance, advisory services and consultancy with regard to business management; commercial assistance services in the field of business management; compilation of statistics for business or commercial purposes.

Class 37

(2) Building construction advisory services; historic building refurbishment advisory services; civil engineering consultancy [construction]; civil engineering relating to the prevention of inundation of buildings by flood water; civil engineering relating to the prevention of inundation of land by flood water; consultancy and advisory services relating to building construction, building refurbishment, building demolition, building alteration, building maintenance and building repair; consultancy services relating to asbestos removal; consultancy and advisory services relating to the installation of lighting systems, electricity systems, fire alarm systems, uninterruptible power supplies, intruder alarms, closed circuit television systems (CCTV), security systems, telecommunications networks, hardware and wiring, wireless telecommunications equipment and wireless local area networks, computer networks, data networks; consultancy and advisory services relating to the installation of satellite dishes, radio aerials, microwave signal transmission systems, access control systems, energy management systems, building management systems, teleconferencing systems, local area networks and wide area networks, heating systems, ventilation systems, air conditioning systems, heat recovery systems, combined heat and power systems, biomass heating systems; consultancy and advisory services relating to the installation of solar power systems, wind power systems, refrigeration systems, domestic water systems, rainwater collection systems, above ground drainage systems, hot and cold water systems, gas supply systems, air supply systems, vacuum systems, fire extinguishing systems and medical gas delivery apparatus and extraction systems; consultancy services relating to the construction of railways and bridges.

Class 40

(3) Decontamination of hazardous materials; paper recycling; plastic recycling; recycling of waste and trash; recycling of household and office material made of glass; recycling of household and office material made of paper; recycling of household and office material made of plastic; treatment of chemical waste; treatment of waste water; treatment of radioactive waste; treatment of contaminated waste; consultancy services and advice relating to the recycling of waste and trash; consultancy and advisory services relating to the recycling of minerals; consultancy and advisory services relating to waste management; consultancy and advisory services relating to waste water treatment; consultancy and advisory services relating to the sorting of waste and recyclable material; consultancy and advisory services relating to waste classification; information, consultancy and advisory services relating to the generation of electricity from waste; information, consultancy and advisory services relating to the generation of energy from waste; consultancy and advisory services relating to environmental remediation services [soil, waste or water treatment]; consultancy and advisory services relating to soil treatment services; land remediation services, namely treatment of soil; environmental remediation services, namely, treatment of soil, waste and water.

Class 41

(4) Education and training services, namely, conducting classes, seminars, conferences and workshops in the field of sustainability initiatives, decarbonisation, energy management, engineering services and environmental managements systems.

Class 42

(5) Scientific and technological services, namely, scientific research, analysis and testing, in the field of sustainable technologies and research and design relating thereto; industrial analysis and industrial research services in the field of sustainable technologies; design and development of computer hardware and software; consulting in the field of electrical engineering; consulting in the field of mechanical engineering; consulting in the field of structural engineering; consulting in the field of industrial engineering; engineering project management services in the field of environmental engineering; engineering services in the field of energy supply systems; land surveying; topographical surveying; road surveying; engineering surveying; technical surveying; geological surveying; industrial building inspection services; land and road surveying; technical consultancy services relating to environmental permits; environmental auditing services in the nature of environmental testing and inspection services; arboricultural surveying services; asbestos surveying services; computer assisted engineering design services; computer aided design services relating to building projects; consultancy services relating to mechanical engineering; consultancy services relating to electrical engineering; electrical engineering design services; technical consultancy services relating to structural engineering; structural engineering design services; civil engineering design relating to flood prevention; technical consulting in the field of environmental engineering; environmental impact assessment services; ecological impact assessment services; scientific research information in the field of wildlife preservation; flood risk assessment services in the nature of calculating and simulating flood flows, modeling of areas likely to be inundated, and preparing related reports and technical documentation; civil engineering structural design services; architecture services; engineering services relating to architecture; design services for architecture; urban planning services; consultancy in the field of urban planning services; architectural design services in the fields of traffic and transportation; engineering surveying services; structural assessment services in the nature of testing, analyzing and evaluating the structural properties of structures; certification services for the energy efficiency of buildings; building design services; high rise building design services; consultancy and advisory services relating to building design; consultancy services relating to quality control of completed buildings; contaminated land surveying and assessment services; energy auditing; consultancy

relating to environmental testing; environmental hazard assessment; environmental consultancy services; environmental monitoring services; environmental assessment services; environmental testing of vibration; environmental testing of noise pollution; air quality assessment services; technical consultancy services relating to air quality; consultancy services relating to environmental planning, urban planning and town planning; civil engineering planning services; technical consultancy in the field of pollution detection; advisory services relating to environmental protection; engineering services in the field of environmental technology; technical consultancy in the field of environmental science; noise and vibration impact assessment services; vibration analysis services; design of road networks; highway planning and design services; bridge design and assessment services; blast design services; acoustic surveying, consultancy and design services; consultancy and surveying services relating to dust monitoring; sustainable building design services; technical consultancy services relating to building design; thermal modelling services relating to building design and planning; light modelling services relating to building design and planning; energy modelling services relating to building design and planning; renewable energy assessment services; renewable energy surveying services; land quality assessment services; design and consultancy services relating thereto in the field of landfill engineering, reclamation and restoration; design and consultancy services relating thereto in the field of waste treatment facilities; design and consultancy services relating thereto in the field of waste water treatment facilities; consultancy services relating to geotechnical and earthworks engineering; consultancy services relating to the design of railways and bridges; consultancy and design services relating to river and marine civil engineering; inspection, assessment and design of quay walls, sea defences, locks and other hydraulic structures for use in the river or marine environment; technical design and planning of sewerage systems; design and consultancy services relating thereto in the field of electrical distribution systems; public health engineering design; consultancy services relating to the quality control of building materials; pavement design services; design and consultancy and information services relating thereto in the field of lighting systems, electricity systems, fire alarm systems, uninterruptible power supplies, intruder alarms, closed circuit television systems (CCTV), security systems, telecommunications networks, hardware and wiring, wireless telecommunications equipment and wireless local area networks, computer networks, data networks; design and consultancy and information services relating thereto in the field of satellite dishes, radio aerials, microwave signal transmission systems, access control systems, energy management systems, building management systems, teleconferencing systems, local area networks and wide area networks, heating systems, ventilation systems, air conditioning systems, heat recovery systems, combined heat and power systems, biomass heating systems; design and consultancy and information services relating thereto in the field of solar power systems, wind power systems, refrigeration systems, domestic water services, waste water systems, sewerage systems, rainwater collection systems, above ground drainage systems, drainage systems, hot and cold water services, gas supply services, air supply systems, vacuum systems, fire extinguishing systems and medical gas delivery apparatus and extraction systems; technical consultancy services relating to landfill leachate and landfill gas management, including the containment, measurement, treatment, processing and storage of these by-products; scientific and technological services, namely, mining surveying, mining engineering, mining exploration and research and design relating to mining; advisory and consultancy services relating to mining and mineral exploration services; conducting feasibility studies relative to mineral exploitation; mine waste engineering services; geotechnical engineering services; conducting of technical feasibility studies; conducting research and technical project studies relating to the use of natural energy; conducting research and technical project studies relating to the use of wind, solar and geothermal to generate power; professional consultancy relating to fluid dynamics; modelling services relating to pedestrian wind comfort and snow conditions; wildlife habitat assessment services; wildlife

surveying services; forestry surveys and assessments; aquatic habitat surveys and assessments; research and studies in the field of ecology; technical environmental consultation in the field of environmental science; natural sciences services; soil analysis services; soil testing services; consultancy services relating to geology; technological consultancy in the field of geology; research relating to mineral resources; subsea and offshore engineering services; advisory and consultancy services relating to subsea and offshore engineering services; engineering feasibility studies; road planning services; oil spill contingency planning services; analytical and testing services for oil workings.

Class 44

(6) Landscape architecture services.

Class 45

(7) Consultancy and information services relating to public safety; consultancy in the field of workplace safety; workplace risk assessment services; health and safety risk assessment services; fire risk assessment services; fire risk audit and inspection services; fire risk information and consultancy services; legionella risk assessment services; infection risk assessment services.

Colour Claim

Colour is claimed as a feature of the trademark. The rounded square background of the design appears in beige. The vertical design elements directly to the left and right of the letter M appear in darkest blue. The "V" shape formed between the middle valley and the beige background appears in lightest blue. The partial yellow hexagon emanating from the bottom middle portion of the letter "M" appears in green. The design portion surrounding the partial green hexagon and extending to the lower horizontal portion of the beige background appears in medium blue. The "M" portion of the design comprises a lower element in light yellow, a middle element in medium yellow, and a higher element in a gradient of dark yellow at the left- and right-most portions transitioning to purple at the centre.

Goods

Class 09

Web browser software and computer search engine software; downloadable web application and server software used to operate browsers and to minimize tracking and fingerprinting; computer search engine software; computer software for web browsers for accessing and searching the

Internet and private networks; web browsers, namely computer software for web browsing and for interacting with data on the global data network and private security networks; software for accessing, browsing and searching online databases; computer software to enable browsing on global computer networks.

Services

Class 38

(1) Communication by computer terminals, namely, email transmission; providing access to the Internet; provision of access to Internet based content, websites and portals, namely, providing internet access, provision of access to electronic sites, and providing access to databases; e-mail transmission services; transmission of messages by telephone; transmission of text via cellular telephones; transmission and delivery of digital photos via the internet; transmission of subscription video on demand; transmission of movies via the Internet; transmission of images over the internet; transmission of digital photos, and video via cellular telephones; providing user access to search engine software and web browsers; providing of access, in relation to the following goods: search engine software, web browsers and web pages.

Class 42

(2) Advice relating to the design of computer software; advisory services in the field of cloud computing networks and applications; communications system design; computer design services; computer software design; hosting computer websites, software as a service (SaaS) featuring software used to provide Internet access, and rental of software; providing of online non-downloadable search engine software; providing of non-downloadable web browsers; design of search engine software and web browsers; creation, design and maintenance, in relation to the following goods: computer search engine software and web browsers; software as a service (SaaS) featuring online non-downloadable computer search engine software and software as a service [SaaS] featuring non-downloadable web browsers; software as a service (saas) featuring software for sharing of music and sounds; IT services, namely, providing search engine services and consulting regarding website design; hosting online web facilities for others for sharing online content; providing search engines for obtaining data on a global computer network.

Class 09

(1) Kits for building science, technology, engineering, art and mathematics (STEAM) teaching robots for educational, hobby or personal use comprised of electrical and mechanical componentry, namely, electric input sensors being proximity sensors, optical position sensors, infrared sensors, speed sensors, motion sensors, and sensors for determining acceleration and velocity, indicator lights, electronic display interfaces being touch screens, integrated display screens, display monitors, flat panel display screens, flat screens, and electronic touch screens, electric toggle switches, laser distance sensors, electric smart motors for machines being electrical conductors for electric motors, vision systems composed of cameras, LED position sensors, light-emitting diodes [LED], lighting controls, optical lenses, electric CMOS image sensors, and image data processing equipment being central processing unit (CPU) processors, graphic processing unit (GPU) processors, programmable logic controller (PLC) processors, parts of machines in the nature of modular truss composed of plastic mechanical snap and plate connectors, gears, pulleys, axles, and bearings, and downloadable software for designing, programming and operating science, technology, engineering, art and mathematics (STEAM) robots, sold as a unit; Kits for modifying science, technology, engineering, art and mathematics (STEAM) teaching robots for educational, hobby or personal use comprised of electrical and mechanical componentry, namely, electric input sensors being proximity sensors, optical position sensors, infrared sensors, speed sensors, motion sensors, and sensors for determining acceleration and velocity, indicator lights, electronic display interfaces being touch screens, integrated display screens, display monitors, flat panel display screens, flat screens, and electronic touch screens, electric toggle switches, laser distance sensors, electric smart motors for machines being electrical conductors for electric motors, vision systems composed of cameras, LED position sensors, light-emitting diodes [LED], lighting controls, optical lenses, electric CMOS image sensors, and image data

processing equipment being central processing unit (CPU) processors, graphic processing unit (GPU) processors, programmable logic controller (PLC) processors, parts of machines in the nature of modular truss composed of plastic mechanical snap and plate connectors, gears, pulleys, axles, and bearings, and downloadable software for modifying, programming and operating science, technology, engineering, art and mathematics(STEAM) robots, sold as a unit; Educational apparatus, namely, blocks used as teaching aids for visualization of science, math, engineering, and computer science literacy concepts; Educational apparatus, namely, manipulative blocks used as teaching aids for the visualization of science, math, engineering, and computer science concepts.

Class 28

(2) Mechanical toys; Construction toys; Interlocking construction toys; Toy construction sets; Mechanical action toys; Toy scale model kits; Children's educational toys for developing cognitive skills for science, math, engineering, and computer science.

Goods

Class 09

Computers; handheld computers; tablet computers; computer hardware; telecommunications apparatus and instruments, namely, computer hardware for telecommunications; mobile telephones; smartphones; wireless communication devices, namely, mobile phones, smart phones, videophones, personal digital assistants, handheld computers, computers, tablet computers, electronic notepads, and electronic organizers, for providing access to the Internet and sending, receiving, and transmitting data, images, audio, video, and multimedia content; handheld digital electronic devices, namely, digital music players, mobile phones, tablet computers, laptop computers, computers, and personal digital assistants, for providing access to the Internet and sending, receiving, and storing telephone calls, voice messages, electronic mail, data, images, audio, video, and multimedia content; wearable computer hardware, namely, smart watches, wearable activity trackers, digital music players, digital video players, headphones, earphones, wearable video display monitor; wearable computers, namely, smartwatches, wearable activity trackers, and controllers for operating networked devices in the internet of things (IoT) and internet-enabled and connected home automation systems; wearable activity trackers; smartwatches; smart rings; smartglasses; telecommunication apparatus, namely, wireless receivers, in the form of jewelry; connected bracelets in the nature of wearable computers, namely, smartwatches, wearable activity trackers, and controllers for operating networked devices in the internet of things (IoT); virtual reality helmets; sound transmission and reproducing apparatus, namely, sound processors and amplifiers; audio speakers; smart speakers; smart home hubs; electronic voice recognition apparatus, namely, electronic voice command and recognition home automation hubs comprised of voice-activated speakers, computer hardware, and software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms, appliances, thermostats, heating and air conditioning systems, alarm

and home security and surveillance systems, smoke and carbon monoxide detectors, door and window locks and latches, and home automation systems; microphones; personal digital assistants; earbuds; earphones; headphones; headsets; earpieces for remote communication; ear pads for headphones; digital media streaming devices, namely, smart phones, set top boxes, computers, and tablet computers; set top boxes; computer hardware for transmitting and enabling the viewing of audio, video, television, movies, digital images and other multimedia content; electronic book readers; network communication apparatus, namely, mobile and wearable digital electronic devices, namely, devices for the sending and receiving of text, data, audio, image, and video files across networks; portable media players, namely, smart phones, set top boxes, computers, and tablet computers; computer peripheral devices, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards; peripheral devices for computers, namely, computer monitors, display screens, head mounted display screens, headsets, cameras, cable connectors, audio speakers, printers, computer mice, microphones, and keyboards for use with computers, smartphones, smartwatches, smartglasses, smart rings, smart speakers, smart home hubs, headphones, earbuds, headsets, televisions, handheld digital electronic devices for use as a telephone and handheld computer, and digital audio players, namely, portable digital music players, and digital video players; wearable peripherals, namely, wearable computers, wearable activity trackers, wearable touch screens, and wearable computer cameras, for use with computers, smartphones, smartwatches, smartglasses, smart rings, smart speakers, smart home hubs, headsets, televisions, set top boxes, handheld digital electronic devices, and audio and video players; virtual reality headsets, goggles, glasses, controllers, remotes and displays; augmented reality headsets, goggles, glasses, controllers, remotes and displays; wearable peripherals for playing video games; controllers for use with interactive digital multimedia content; 3D spectacles; eyewear; eyeglasses; sunglasses; optical glass; optical goods, namely, optical disc drives, optical scanners, and optical readers; optical apparatus and instruments, namely, optical sensors, infrared sensors, dot projectors, and computer hardware used for capturing and displaying gesture, face, and voice; optical lenses; eyeglass cases; eyeglass cords; eyeglass frames; eyeglass lenses; contact lenses; containers for contact lenses; correcting lenses; eyepieces, namely, virtual and augmented reality goggles; instruments containing eyepieces, namely, microscopes; video monitors; computer monitors; computer display screens; head-mounted augmented reality displays; wearable computer, namely, smartwatches, wearable activity trackers, and controllers for operating networked devices in the internet of things (IoT) and internet-enabled and connected home automation systems, display screens; televisions; television receivers and monitors; interactive touchscreen terminals; interface boards and cards for computers, smartphones, smartwatches, smartglasses, televisions, and handheld digital electronic devices for use as a telephone and handheld computer; electronic display screens for computers, smartphones, smartwatches, smartglasses, televisions, handheld digital electronic devices for use as a telephone and handheld computer, and digital audio players, namely, portable digital music players, and digital video players; keyboards; mice; mouse pads; printers for computers; computer stylus; electronic pens; wireless tracking devices, namely, electronic tags for use in locating and tracking the location of objects and individuals; electronic tags for goods; near field communication [NFC] enabled devices, namely, radio transmitters and receivers, technology-enabled readers, tags, cards, and stickers; blank smart cards; encoded identification bracelets; encoded key cards; electronic key fobs being remote control apparatus; lanyards for computer peripherals used to locate, monitor, and track items; cameras; mobile phone cameras; smartphone camera lens; flashes for smartphones; computer chips; integrated circuits; biometric identification and authentication apparatus, namely, biometric fingerprint scanners and facial scanners; fingerprint examination machines, namely, fingerprint scanners; face recognition apparatus, namely, optical

character recognition apparatus; fingerprint scanners; biometric scanners; biometric iris scanners; biometric locks; remote controls for controlling computers, mobile telephones, wearable peripherals, namely, wearable computers, wearable activity trackers, wearable touch screens, and wearable computer cameras, smartwatches, smart speakers, smartglasses, earphones, headphones, headsets, audio and video players, televisions, set top boxes, handheld digital electronic devices for use as a telephone and handheld computer, digital audio players, namely, portable digital music players, and digital video players, and home entertainment systems; disk drives for computers; hard drives for computers; computer memory devices, namely, computer memory boards; data storage apparatus, namely, blank USB cards; data processing apparatus, namely, computers and mobile phones; magnets for industrial purposes; humanoid robots with artificial intelligence; analog-to-digital converters; internet servers; encoding and decoding devices, namely, magnetic encoders; security tokens; 3D scanners; digital input and output scanners; radio transmitters and receivers; global positioning system (GPS apparatus), namely, global positioning system (GPS) consisting of computers, computer software, transmitters, receivers, and network interface devices; user interfaces, namely, computer display screens, for on-board motor vehicle computers; navigation apparatus for vehicles, namely, car navigational computers; hands-free kits for telephones; head-up displays for motor vehicles; in-car telephone handset cradles; dashboard mats adapted for holding mobile telephones and smartphones; motor vehicle audio apparatus, namely, car speakers, car stereos; voice command and recognition apparatus, namely, computers, smartphones, smart watches, headphones, and smart home hubs; satellite navigation devices; satellite communication apparatus, namely, satellite receivers and satellite phones; equipment, namely, mobile phones, smart phones, videophones, personal digital assistants, handheld computers, computers, tablet computers, electronic notepads, and electronic organizers, for receiving, processing and transmitting voice, video, data and location information, namely, global positioning and geographic location data comprising navigation, geographic mapping, and point-of-interest information, through satellites; electric batteries for vehicles; charging stations for electric vehicles; keyless vehicle entry and ignition apparatus, namely, keyless entry and ignition switch systems for automotive vehicles; parts and accessories for computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, mobile electronic devices, namely, tablet computers, laptop computers, computers, personal digital assistants, and electronic book readers, mobile telephones, smartphones, smartwatches, smartglasses, smart speakers, smart home hubs, earphones, earbuds, earphones, headphones, headsets, digital audio players, namely, portable digital music players, and digital video players, and wearable computer hardware, namely, smart watches, wearable activity trackers, digital music players, digital video players, headphones, earphones, wearable video display monitor; solar batteries; rechargeable batteries for use with computers, tablet computers, mobile phones, handheld computers, digital music players, digital video players, and digital video cameras; batteries and battery chargers for use with computers, tablet computers, mobile phones, handheld computers, digital music players, digital video players, and digital video cameras; portable power chargers for use with computers, tablet computers, mobile phones, handheld computers, digital music players, digital video players, and digital video cameras; wireless battery chargers for use with computers, tablet computers, mobile phones, handheld computers, digital music players, digital video players, and digital video cameras; battery chargers for computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, mobile phones, smartphones, smartwatches, smartglasses, smart speakers, smart home hubs, earphones, earbuds, headphones, headsets, handheld digital electronic devices for use as a telephone and handheld computer, and digital audio players, namely, portable digital music players, and digital video players; wireless chargers

for computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, mobile phones, smartphones, smartwatches, smartglasses, smart speakers, smart home hubs, earphones, earbuds, headphones, headsets, handheld digital electronic devices for use as a telephone and handheld computer, and digital audio players, namely, portable digital music players, and digital video players; charging apparatus for computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, mobile phones, smartphones, smartwatches, smartglasses, smart speakers, smart home hubs, earphones, earbuds, headphones, headsets, handheld digital electronic devices for use as a telephone and handheld computer, and digital audio players, namely, portable digital music players, and digital video players; charging mats and charging cases adapted for computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, mobile phones, smartphones, smartwatches, smartglasses, smart speakers, smart home hubs, earphones, earbuds, headphones, headsets, handheld digital electronic devices for use as a telephone and handheld computer, and digital audio players, namely, portable digital music players, and digital video players; power adapters for computers; electrical and electronic connectors, couplers, wires, cables, chargers, docks, docking stations, and adapters for use with computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, wearable electronic devices, namely, wearable activity trackers, mobile telephones, smartphones, smartwatches, smartglasses, smart home hubs, earphones, headphones, headsets, digital audio players, namely, portable digital music players, and digital video players, televisions, and set top boxes; chargers for electric batteries for use with computers, tablet computers, mobile phones, handheld computers, digital music players, digital video players, and digital video cameras; chargers for electronic cigarettes; stands for computer monitors, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, tablet computers, laptops, mobile telephones, smartphones, smartwatches, smartglasses, smart speakers, smart home hubs, earphones, headphones, televisions, set top boxes, handheld digital electronic devices, and digital audio players, namely, portable digital music players, and digital video players; bags, covers, cases, sleeves, straps, lanyards and holders for computers, computer peripherals, mobile telephones, smartphones, smartwatches, smartglasses, smart rings, smart speakers, smart home hubs, earphones, earbuds, headphones, headsets, handheld digital electronic devices, and audio and video players; screen protectors for computer monitors, computer screens, mobile telephones, smartphones, smartwatches, smartglasses, televisions, and handheld digital electronic devices; protective films for computers, mobile telephones, smartphones, smartwatches, smart glasses, televisions, and handheld digital electronic devices; selfie sticks; selfie lenses; selfie ring lights for smartphones, computers, laptop computers, and tablet computers; cooling pads for laptop computers; computer hardware for use in controlling home automation systems, including lighting, appliances, heating and air conditioning, door bells and security alarms; electronic voice activated and voice recognition apparatus for controlling consumer electronics devices and residential systems, namely, electronic voice command and recognition smart home hubs comprised of voice-activated speakers, computer hardware, and software for controlling networked devices in the internet of things (IoT), operating internet-enabled and connected lighting apparatus and home security alarms, appliances, thermostats, heating and air conditioning systems, alarm and home security and surveillance systems, smoke and carbon monoxide detectors, door and window locks and latches, and home automation systems; climate control systems consisting of heating control

devices, namely, climate control digital thermostats; thermostats; monitors, sensors, and controls for air conditioning, heating, and ventilation devices and systems, namely, electric space heaters, air conditioners, thermostats, humidifiers, dehumidifiers and electric fans; lighting control apparatus, namely, lighting control panels; electrical outlets; electrical and electronic light switches; alarms, alarm sensors, and alarm monitoring systems, namely, personal alarms, personal security alarms, and alarm horns; smoke and carbon monoxide detectors; electric locking mechanism and electronic locks and latches for security purposes for doors and windows; electronic keypads and remote control units for operating garage door openers; residential security and surveillance apparatus and systems, namely, control panels for security alarms and downloadable software for the home automation of electric control systems for home security systems; computer software, namely, database management software, electronic mail, text messaging, and instant messaging software, operating system software for computers, mobile phones, tablet computers, handheld computers, and smart watches, computer software for synchronizing data between hand-held and portable computers, mobile phones, smart watches, tablet computers and host computers, computer software for use in providing multiple user access to a global computer information network for searching, retrieving, transferring, manipulating and disseminating a wide range of information, computer software for use as an application programming interface for gathering market data, computer software for matching, correction, and reproduction of color for use in graphic designing, computer software for use in video editing, computer software for use in enhancing text and computer graphics, computer software for use in typeface font justification and enhancing font quality, computer search engine software for use to navigate and search a global computer information network and organize and summarize the information retrieved, computer software for use in word processing and database management, computer software for use in authoring, downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, storing and organizing audio, namely, music and voice messages, video, namely, television programs, video clips, and movies, and other digital data, namely, photographs, computer software for analyzing and troubleshooting to diagnose computer software problems, computer graphics software, namely, computer software for graphic designing and editing; computer software for setting up, configuring, operating, and controlling computers, computer peripherals, namely, cameras, cable connectors, audio speakers, earphones, earphones, scanners, computer printers, computer mice, microphones, and computer keyboards, smartphones, smartwatches, smartglasses, smart rings, smart speakers, smart home hubs, earbuds, headphones, headsets, handheld digital electronic devices for use as a telephone and handheld computer, televisions, set top boxes, digital audio players, namely, portable digital music players, and digital video players, and home entertainment systems; gesture recognition software; voice recognition software; image recognition software; facial recognition software; downloadable biometric identification software for use with biometric access control systems; application development software; computer software for use as an application programming interface (API) for building software applications; downloadable software for processing, transmitting and displaying multimedia content, namely, text, business and personal data, images, audio, and audio visual content files; downloadable software for sending and receiving electronic messages, namely, text messages and emails, alerts, notifications and reminders; computer game software; video game programs; virtual reality computer software, namely, software for setting up, operating, configuring, and controlling virtual reality wearable computer peripherals and hardware; augmented reality computer software, namely, software for setting up, operating, configuring, and controlling virtual reality wearable computer peripherals and hardware; downloadable software for use in computers, smartphones, and computer peripherals, namely, wearable cameras, wearable touch screens, wearable activity trackers, wearable digital electronic devices, namely, glasses, and wearable video display monitors, for integrating electronic data with real world environments and navigating virtual reality

and augmented reality environments; software for use in enabling computers, mobile devices, and mobile telephones to provide virtual reality and augmented reality experiences; downloadable virtual goods, namely, computer programs featuring electronics, headphones, eyewear, clothing, footwear, headwear, jewelry, cosmetics, beverages, sporting equipment, vehicles, and toys for use in online virtual worlds; computer software for providing geographic information, interactive maps and satellite and aerial images; downloadable e-wallets; computer software for facilitating commercial transactions through mobile telecommunication devices, namely, mobile phones, smart phones, videophones, personal digital assistants, handheld computers, computers, tablet computers, electronic notepads, and electronic organizers; downloadable audio files, image files, video files, music files and multimedia content featuring musical, video, and audio video entertainment; downloadable audio and visual recordings featuring musical performances and music videos, podcasts, books, periodicals, musical recordings, movies, films and television shows; downloadable screen savers for computers, telephones, and smart watches; downloadable emoticons; downloadable computer graphics; downloadable ring tones; downloadable typeface fonts; electronic agendas; apparatus to check stamping mail; cash registers; mechanisms for coin-operated apparatus, namely, coin-operated mechanisms for arcade games; dictating machines; hemline markers; voting machines; prize selection machines; holograms; facsimile machines; weighing apparatus and instruments, namely, electronic weighing scales for personal use; tape measures; electronic notice boards; measuring apparatus, namely, electronic distance meters; wafers [silicon slices]; light conducting filaments [optical fibers]; lightning arresters; ionization apparatus, namely, mass spectrometers, not for the treatment of air or water; fire extinguishers; radiological apparatus for industrial purposes, namely, electromagnetic wave generators; animated cartoons; egg-candlers; dog whistles; decorative magnets; electrified fences; portable remote-controlled car retarders, namely, electronic control systems for automobile brakes; sports whistles.

Magnetic data carriers, namely, blank magnetic recording discs; Blank compact discs, blank DVDs and other digital recording media, namely, blank optical discs; Cash registers, calculating machines, data processing computer hardware, computers; Computer security software; Computer software for data security, software platform governance, data compliance, and data backup and recovery, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Downloadable computer security software for use as an application programming interface (API); Downloadable computer software for use as an application programming interface (API), all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Downloadable and recorded computer software for backing up and archiving electronic data; Downloadable computer security software for use in connection with data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; Downloadable computer software for use in connection with data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Computer security software platforms for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and

data analytics; Computer software platforms for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Computing and operating platforms, namely, computer operating systems comprising networks and gateways for collection, sharing, management, interpretation, backup, recovery, security, and analysis of data; Computing and operating platforms, namely, computer operating systems comprising network and gateways for data-driven applications; Downloadable cloud computer security software for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; Downloadable cloud computer software for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Computer software for application database integration; Downloadable computer software development programs and downloadable computer software development tools being programs, all for creating and developing business applications for others

Services

Class 38

(1) Electronic transmission of messages, images and business data over the internet; Providing access to Internet platforms, web portals, databases and websites in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Providing access to databases; Electronic network transmission of sounds, images and data signals over the internet in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Telecommunications services, namely, providing access to a global computer network; Electronic transmission, broadcasting and reception of audio, video, still and moving images, text and data over the internet in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents

Class 42

(2) Scientific and technological services, namely, research and design in the field of computer software; Industrial analysis and research services in the field of computer software; Design and

development of computer hardware and software; Software as a service (SAAS) services featuring computer security software; Software as a service (SAAS) services featuring computer software for data security, software platform governance, data compliance, and data backup and recovery, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Application service provider featuring application programming interface (API) security software for data management; Application service provider featuring application programming interface (API) software for data management in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Software as a service (SAAS) services featuring software for backing up and archiving electronic data; Remote computer backup services; Remote online backup of electronic computer data; Electronic data back-up services, namely, back-up services for SAAS platform data; Data mining; Software as a service (SAAS) services, namely, hosting virtual environments for use by others for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; Providing temporary use of non-downloadable security analytics software; Providing temporary use of non-downloadable analytics software in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Custom design and development of computer software; Custom development and creation of computer programs for data processing and analysis; Software as a service (SAAS) services featuring security software for storage, computation, analysis, processing, backup, recovery, security, and database services; Software as a service (SAAS) services featuring software for storage, computation, analysis, processing, backup, recovery, security, and database services in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Computer services, namely, assisting others with the implementation, use and operation of computer software by providing search platforms to allow users to index, integrate, warehouse, mine, process, share, collect, backup, recover, interpret, research, query, visualize, and analyze data; Platform as a service (PAAS) services featuring computer security software platforms for use in data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; Platform as a service (PAAS) services featuring computer software platforms for use in data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Providing temporary use of on-line non-

downloadable cloud computing security software for big data processing; Providing temporary use of on-line non-downloadable cloud computing software for big data processing in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Providing temporary use of on-line non-downloadable cloud computing security software for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics; Providing temporary use of on-line non-downloadable cloud computing software for data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics, all in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; Application service provider, namely, providing, managing, developing, maintaining, and hosting virtual environments featuring computer software applications, computer software, and databases in the field of business, marketing, advertising, brand development, sales, customer service, cloud computing, cloud architecture, customer information, customer relationship management, employee efficiency, security and authentication, big data for business data analytics, artificial intelligence, machine learning, and artificial intelligence (AI) agents; electronic data storage for archiving business records and personal records and computer systems design for the scaling of shared computing capacity; Providing temporary use of on-line non-downloadable software development programs and on-line non-downloadable software development tools being programs, all for creating and developing business applications for others for use in data integration, data warehousing, data security, data integrity verification, data anonymization, data selection, data recovery, data backup, data encryption, data mining, data processing, data sharing, data collection, data interpretation, data queries, data visualization, and data analytics

Colour Claim

Colour is claimed as a feature of the trademark. The letters VANIUX are in the colour cream/light yellow (PANTONE* 7401C). The flower petals on the 'i' are bright yellow (PANTONE* 101C), except for the top right petal, which is in green (PANTONE* 368C). The centre of the flower and the two "LL" in the word vanillux are in brown (PANTONE* 7526C). *PANTONE is a registered trademark.

Goods

Class 30

barley coffee pods, filled; black pepper powder; cinnamon; cinnamon powder; coffee; coffee based fillings; coffee beans; coffee concentrate; dried chili peppers for use as a seasoning; hot pepper powder; mint for confectionery; mint sauce; mint water for culinary purpose; pepper; pepper powder; vanilla; vanilla based beverages; vanilla beans; vanilla extract; vanilla flavorings; vanilla flavorings for culinary purposes; vanilla flavourings for culinary purposes; vanilla pods; vanilla sauces; vanilla sugar; vanilla wafers; vanillin being a vanilla substitute

Class 09

Educational apparatus and virtual reality motion simulators, namely, for visualizing and simulating aerial platforms in work and fire and rescue environment; simulators for the steering and control of vehicles; simulators for simulating the operation of land vehicles; detectors, namely, electronic automotive radar detectors and electronic position indicators for determining the speed, position of vehicles, and the proximity of a vehicle to other vehicles; sensors, namely, sensors for determining acceleration, sensors for determining position, sensors for determining velocity, and the proximity of a vehicle to other vehicles; electronic data loggers and electronic data recorders for aerial platforms; tachographs; data communications apparatus, namely, remote video monitoring system consisting primarily of a camera monitor for recording and transmitting images to a remote location; structural parts and fittings for the aforementioned goods; downloadable and recorded computer software for use in organizing, transmitting, receiving, storing, and analyzing fleet management and aerial platform operation data; downloadable and recorded computer application software for use in organizing, transmitting, receiving, storing, and analyzing fleet management and aerial platform operation data; downloadable mobile software applications for use in organizing, transmitting, receiving, storing, and analyzing fleet management and aerial platform operation data; downloadable and recorded computer software for database management; downloadable and recorded cloud computing software for use in organizing, transmitting, receiving, storing, and analyzing fleet management and aerial platform operation data; downloadable and recorded education software for use in organizing, transmitting, receiving, storing, and analyzing fleet management and aerial platform operation data; downloadable and recorded computer software for use in testing data and reports in the field of fleet management and aerial platform operation; downloadable and recorded teaching software for use in organizing, transmitting, receiving, storing, and analyzing fleet management and aerial platform operation data; downloadable software for managing, maintaining, administering, processing, organizing, monitoring, collecting, providing, and analyzing fleet management and aerial platform operation data; software for the integration of artificial intelligence and machine learning in the field of fleet management and aerial platform operation; virtual reality software for visualizing and simulating

aerial platforms in work and fire and rescue environment; downloadable educational software containing topics of instruction in fleet management and aerial platform operation; downloadable educational software for storing research and development information in the fields of fleet management and aerial platform operation.

Services

Class 38

(1) Communication services, namely, wireless mobile telephone services; interactive telecommunications services, namely, providing secure remote access via the internet to private computer networks; electronic transmission of operational data and diagnostics from aerial platforms to remote users via the internet; digital data network communication services, namely, providing computer network access and data communication between aerial platforms and remote users via digital fiber optic networks; providing access to a web-based online portal for customers to view the electronic transmission of operational data and diagnostics from aerial platforms; provision of access to on-line databases; provision of access to databases; consultancy and advisory services relating to all of the above-mentioned services.

Class 41

(2) Education and instruction services, namely, arranging and conducting classes, seminars, conferences, and workshops in the field of fleet management and operation of aerial platforms; arranging and conducting courses, seminars, and workshops in the field of fleet management and operation of aerial platforms; training services, namely, computer-based simulation instruction via simulators in the field of fleet management and operation of aerial platforms; providing on-line training courses in the field of fleet management and operation of aerial platforms; providing on-line courses of instruction in the field of fleet management and operation of aerial platforms; organizing and conducting of instructional courses, namely, webinars in the field of fleet management and operation of aerial platforms; educational testing services, namely, preparing, administering, and analyzing qualifying examinations in the field of fleet management and operation of aerial platforms; consultancy and advisory services relating to all of the services listed above.

Class 42

(3) Scientific and technological research in the field of fleet management software and aerial platform operation; scientific industrial design services; technological industrial design services; scientific research and development in the fields of fleet management software and aerial platforms; industrial analysis and research services in the field of fleet management software and aerial platforms; testing, analysis and quality control of fleet management software and aerial platforms; software design and development; design and development of computers; server hosting services; software as a service (SaaS) featuring software for use in database management in the field of fleet management and aerial platform operation; rental of computer software; platform as a service (PaaS) featuring software for the database management in the field of fleet management and aerial platform operation; cloud computing web hosting services; hosting of computer software, namely, web portals in the field of fleet management and aerial platform operation; providing virtual computer systems through cloud computing; engineering services in the field of fleet management software and aerial platform operation; engineering project management services in the field of fleet management software and aerial platform operation; provision of scientific information, advice and consultancy in relation to carbon offsetting; consultancy and advisory services relating to all of the services listed above.

Trademark Description

The mark consists of a design of a gold star with a circle border made up of an inner green circle and outer red circle, with a white space between the same. In the center of the star and circle design is the term NEGRONI in red letters. The bottom of the letter "i" circles beneath the letter and underlines the term, completing the star at the bottom-left point. All between the curved wordings "CRAFTED SINCE 1907" and "BY PIETRO NEGRONI" showed over and under the star.

Colour Claim

Colour is claimed as a feature of the trademark. The colors red, yellow, green, and black are claimed as a feature of the trademark. The word "NEGRONI" is red, the star logo around it is yellow and the bottom edge is red and connected to the letter "i" at the end of the word "NEGRONI". The word "NEGRONI" and the star logo overlap a double circle, consisting of a green circle inside a red circle. The words "CRAFTED SINCE 1907" above the entire image are black.

with a green dot to the left of the sentence and a red dot to the right of the sentence. Below the entire image are the words "BY PIETRO NEGRONI". To the left of the sentence is a green dot and to the right of the sentence is a red dot.

Goods**Class 29**

Visual Representation

The image shows the word 'mollo' in a stylized, black, gothic-style font. The letters are tall and narrow, with decorative flourishes. The 'm' has a large, ornate loop. The 'o's are also stylized with vertical lines. The overall appearance is that of a trademark logo for a musical instrument brand.

Goods

Class 15

Pianos; stringed musical instruments; guitars; electronic musical instruments; violins; strings for musical instruments; cases for musical instruments.

Visual Representation

The logo for Flexxcord features the word "Flexxcord" in a bold, sans-serif font. The letters "Flexx" are in a solid dark grey color, and the letters "cord" are in a gradient color transitioning from bright pink to bright purple and fading towards the end of the word into a pale lavender color. The two "x" letters are overlapping so that only half of the first "x" letter is visible. The left-side of the second "x" letter is white with grey margins.

Colour Claim

Colour is claimed as a feature of the trademark. The design consists of the word "Flexxcord". The letters "Flexx" are in a solid dark grey color and the letters "cord" are in a gradient color transitioning from bright pink to bright purple and fading towards the end of the word into a pale lavender color. The two "x" letters are overlapping so that only half of the first "x" letter is visible. The left-side of the second "x" letter is white with grey margins.

Colour Claim

Colour is claimed as a feature of the trademark. The image appears to be a logo for a brand called "GRAINORA." Here's a description of its elements and colors: Central Element: A traditional pot (possibly a clay or earthenware design) is depicted. The pot has intricate patterns and is filled with white rice, with some spilling over the edges. Stalks of rice plants with golden-yellow grains and green leaves sprout from the pot. Around the base of the pot, red chilies and rice grains are scattered, adding a decorative touch. Background: The central element is set against a golden-yellow circular background, enhancing the earthy and traditional feel of the design. Border: The circular background is enclosed by a red scalloped border, giving the logo a rich and festive look. Text: Below the central element, the word "GRAINORA" is displayed in uppercase letters. The font is bold and yellow, set against a deep red rectangular banner with decorative edges. Overall, the colors used are: Golden yellow for the rice grains and the background. Green for the rice stalk leaves. Red for the chilies, the scalloped border, and the text banner. White for the rice. Brown and earthy tones for the pot. The design conveys a theme of traditional agriculture and food, emphasizing natural and cultural elements.

Colour Claim

Colour is claimed as a feature of the trademark. The trademark features the colours black, dark purple, light purple, pink, yellow, orange, red and green. The background transitions from black at the top to dark purple and then light purple towards the bottom. At the top, there is a stylized flame design in shades of purple, pink, and yellow. In the lower portion there is a swirling flame pattern in shades of yellow, orange, and red that encircles a whole red pepper, slices of red pepper, and a green lime wedge.

Colour Claim

Colour is claimed as a feature of the trademark. The colours purple and yellow-green are claimed as a feature of the mark. The mark consists of a bright purple stylized spade facing sideways from left to right with the two-dimensional yellow-green base partially folded forward over the rounded top; the colour white is meant to designate transparent areas and is not a part of the mark.

Goods

Class 05

Pharmaceutical preparations for the prevention and treatment of the central nervous system, namely central nervous system infections, brain diseases, central nervous system movement disorders, ocular motility disorders, spinal cord diseases; pharmaceutical preparations for the prevention and treatment of immunological diseases, namely autoimmune diseases, immune deficiency syndromes; pharmaceutical preparations for the prevention and treatment of cardiovascular diseases; pharmaceutical preparations for the prevention and treatment of diabetes; pharmaceutical preparations for the prevention and treatment of metabolic disorders, namely diabetes, obesity, hyperlipidemia, insulin resistance, metabolic syndrome; anti-inflammatories; pharmaceutical preparations for the prevention and treatment of respiratory
