OPIC CIPO

Trade-marks Journal
Vol. 62 No. 3173

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

GOODS

Computer software and hardware for posting, facial recognition, uploading, downloading, transmitting, receiving, editing, extracting, encoding, decoding, storing, organizing, showing, displaying, tagging, blogging, sharing and providing photography on mobile phones, smart phones and tablets; computer software and hardware for use with positioning systems and satellite systems for navigation, route trip planning, direction searching, electronic mapping, public transport information, location information, parking information, weather information, traffic information, determining the location of goods, objects, people, places, events, buildings and points of interest, display of location-based advertisements, displaying and sharing user location information on mobile phones, smart phones and tablets; computer software and hardware to be used for viewing, posting, uploading, downloading, transmitting, receiving, editing, extracting, encoding, decoding, storing, organizing, showing, displaying, tagging, blogging, sharing and providing electronic maps on mobile phones, smart phones and tablets; computer software and hardware for the provision and rendering of travel and tourism advice and for providing information about hotels, landmarks, museums, public transportation, restaurants, entertainment, weather, health, fitness, employment, shopping, sporting and cultural events on mobile phones, smart phones and tablets; computer software and hardware for digital diaries, online blogging, digital photo albums and social messaging to enable authoring, facial recognition, posting, uploading, downloading, transmitting, receiving, editing, extracting, encoding, decoding, playing, storing, organizing, showing, displaying,

tagging, blogging, sharing and providing electronic media and information over the internet and wireless communications networks for digital diaries, online blogs, digital photo albums and social messaging on mobile phones, smart phones, and tablets; Computer software and hardware in the field of photography, global positioning systems, maps, public transport, traffic and travel, namely software for providing, updating, displaying and manipulating roadway, geographic, map, direction, travel, public transport and traffic data, for use on mobile phones, smart phones and tablets; Computer software in the field of maps, namely software for creating, viewing, downloading and providing digital maps and digital map databases, for use on mobile phones, smart phones and tablets; Computer software in the field of photography, global positioning systems and maps, namely software for the location and identification of shops, restaurants, people, places, buildings, events, objects, employment opportunities, shopping opportunities, best prices opportunities and points of interest based on visual recognition and geo-localisation, for use on mobile phones, smart phones and tablets; Computer software in the field of entertainment, namely software for processing and playing digital music files, for use on mobile phones, smart phones and tablets; Computer software in the field of entertainment, food and drink, sporting and cultural events, namely software for remote payment or online payment for entertainment, food and drink, sporting and cultural events, for use on mobile phones, smart phones and tablets; Computer software in the field of photography, global positioning systems and maps, namely faces recognition software for enabling users to identify people, for use on mobile phones, smart phones and tablets; Computer software in the field of photography, global positioning systems and maps, namely location recognition software for enabling users to identify shops, restaurants, people, places, buildings, objects, events and points of interest, for use on mobile phones, smart phones and tablets; Computer software in the field of photography, global positioning systems and maps, namely buildings recognition software for enabling users to identify shops, restaurants, places, buildings and points of interest, for use on mobile phones, smart phones and tablets; Computer software in the field of global positioning systems and maps, namely maps-driven and location-based computer software and software applications, mapping computer software and software applications, computer software for location-based services, computer software for mapping services, for use on mobile phones, smart phones and tablets; Computer software in the field of positioning systems and maps, namely computer software and software applications enabling its user to obtain location-based information, for use on mobile phones, smart phones and tablets; Computer software in the field of travel, namely computer software allowing the monitoring, remote control and command of vehicles parameters prior to a travel, for use on mobile phones, smart phones and tablets; computer software in the field of photography, global positioning systems and maps, namely computer software and software applications for use with location-aware and context aware mobile devices, for use with location-aware and context aware wearable computers to be worn on and into the body, wearable computers to be worn on and into the body, and wearable computers to be incorporated into clothing, footwear, headgear and travelling bags, for operating global positioning system (GPS) receivers, global positioning system (GPS) transmitters and for operating navigational instruments, namely, compasses, GPS-enabled mobile devices, GPS-enabled wearable computers and GPS-enabled wearable computers to be incorporated into clothing, footwear, headgear and travelling bags; Computer software in the field of maps, namely software-development software to create and use digital maps, map databases and map-based software applications for mobile phones, smart phones and tablets; Computer software in the field of maps, namely computer software in the form of application program interfaces (APIs) to create and use digital maps, map databases and map-based software applications for mobile phones, smart phones and tablets; computer hardware in the field of photography, namely optical and motion sensors and sensors for measuring speed, light, weight, rotation, pressure, humidity, height, incline, distance, time, sound, temperature, density, and resistance for use with mobile phones,

smart phones and tablets and computer software in the field of photography for operating and interacting with optical and motion sensors and sensors for measuring speed, light, weight, rotation, pressure, humidity, height, incline, distance, time, sound, temperature, density, and resistance for use with mobile phones, smart phones and tablets; computer hardware in the field of global positioning systems and maps, namely location, motion, positioning and distance measuring sensors and sensors for measuring speed, light, weight, rotation, pressure, humidity, height, incline , distance, time, sound, temperature, density, and resistance for use with mobile phones, smart phones and tablets and computer software in the field of global positioning systems and maps, namely software for operating and interacting with location, motion, positioning and distance measuring sensors and sensors for measuring speed, light, weight, rotation, pressure, humidity, height, incline, distance, time, sound, temperature, density, movements, physiological and biometric parameters, and electrical activity for use with mobile phones, smart phones and tablets; Computer software in the field of entertainment and sporting events, namely software for use in relation to audio, tactile, pressure and weighing sensors for entertainment and sporting activities for use with mobile phones, smart phones, and tablets and computer hardware in the field of entertainment and sporting events, namely audio, tactile, pressure and weighing sensors for entertainment and sporting activities, for use with mobile phones, smart phones and tablets; Computer software and hardware in the field of photography, global positioning systems, maps, public transport, traffic, travel, entertainment and sporting events, namely sensor emulators for use in the field of photography, global positioning systems, maps, public transport, traffic, travel, entertainment and sporting events, together with software that stimulates said sensor emulators, for mobile phones, smart phones and tablets; Computer software in the field of global positioning systems and maps, namely software for providing web-based access to location-based and map-based software applications, for mobile phones, smart phones and tablets; Computer software in the field of photography, namely computer software and software applications for taking, touching up, organizing and sharing still and moving pictures for mobile phones, smart phones and tablets; computer software and software applications for operating, interacting with and sharing information on social networking websites; computer software and software applications enabling users to view electronic messages, to chat and to browse on the Internet.

SERVICES

(1) Mobile telecommunications services, namely, wireless digital messaging services, wireless telephone services, personal communication services, wireless communication services to deliver location content, location platform and location applications to mobile devices, these services not being cable and satellite television broadcasting services and not being transmission of movies and television series and programs via the Internet, mobile devices, or similar technology.

(2) Global positioning system navigation services; transport, traffic and travel information services; tourist information services.

CLAIMS

Colour is claimed as a feature of the trade-mark. The colour red (Pantone 199)* is applied to the inside of the rectangular box, where the letters BAE SYSTEMS are set in white. *Pantone is a registered trademark.

GOODS

(1) Computer software, computer hardware, flight controls panels and flight control sticks, flight instruments and electronic displays for operating, controlling, guiding, monitoring, locating, navigating and testing aircraft and weapons for aircraft; aircraft cockpit control panels, aircraft cockpit control modules; throttles and control sticks for aircraft; data display systems and apparatus , namely, head-up displays (HUD) for aircraft; computer software, computer hardware and radar sensors and thermal sensors for aircraft for communications, radar, combat and navigation purposes; radio transmitters and receivers for use with aircraft; computer software and computer hardware for ground-based flight training exercises; computer software, computer hardware and radar sensors and thermal sensors for in-flight training exercises, in-flight simulation of air-to-air and air-to-ground combat, and in-flight simulation of emergency situations; computer software, computer hardware and radar sensors and thermal sensors for aircraft communications systems training, aircraft weapons training, military missions training, military missions planning and in-flight and post-flight analysis; aircraft simulators for training personnel in the operation of communications, radar, navigation and weapons systems for aircraft; apparatus and instruments, namely compact disc recorders, data logers, digital camcorders, digital video recorders, tape recorders, tape players, video recorders, video players, video cameras, cameras, compact disc recorders, radio transmitters and receivers, electrical cables, fibre optic cables, loudspeakers, display screens and monitors for capturing, recording, processing, communicating, reproducing and transmitting data, sound and images, all for use in relation to aircraft and in the provision of aircraft-related training; flight data recorders; audio data storage devices for aircraft, visual data retrieval devices for aircraft, flight data transmission devices for aircraft and pre-recorded digital media for aircraft, namely, aircraft manuals; computer software, computer hardware for use in flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, avionics systems, armament systems, removal role equipment and ground handling equipment, all being for aircraft; power management systems for aircraft, namely, networks of components, namely, wires, cables, circuit boards, connectors, transformers and electrical control panels which monitor and regulate the generation, supply, transmission, distribution and use of power and fuel; ground-based computer software and computer hardware for pre-flight preparation of data required during in-flight and post-flight analysis of operational and maintenance data collected during flight; support and test equipment, namely, diagnostic equipment for the support, testing, operation and maintenance of aircraft; covers for aircraft diagnostic equipment; protective helmets, protective eyewear, protective clothing for air crew and ground crew, namely, flights suits, flight jackets, flight trousers, protective gloves and coveralls; protective footwear for air crew and ground crew, namely, protective boots and protective overboots for air crew and ground crew; parts and fittings for all of the aforesaid goods; publications and training materials, namely, training videos, training manuals, instruction manuals, user guides, technical manuals and maps in electronic or downloadable form, all relating to or being for aircraft and/or the provision of aircraft-related training; aircraft; prototype aircraft; training aircraft; fast jet training aircraft; military aircraft; aircraft for aerial and acrobatic display purposes; mechanical parts for use in airframes, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, avionics systems, armament systems, removal role equipment and ground handling equipment, all being for aircraft; diagnostic equipment for the supporting and testing of aircraft; covers for aircraft, covers for aircraft engines, covers for aircraft tyres, covers for aircraft cockpits, covers for aircraft cockpit controls, covers for aircraft seats; parts and fittings for all of the aforesaid goods.

(2) Helmet-mounted displays for use with aircraft; night vision instruments, namely, night vision goggles, night vision cameras and night vision display screens, for use on board aircraft; radar detectors; radar transmitters; radar jamming apparatus, namely, computer software, computer hardware, electronics, chaff [strips of metal] and pyrotechnics for the purposes of electronic and mechanical radar jamming to enable an aircraft to avoid detection; computer software, computer hardware and sensors for air traffic collision avoidance and ground proximity detection purposes; aircraft simulators for training personnel in the flying and navigating of aircraft; computer software, computer hardware and radar and proximity sensors to seek, locate, survey, and track targets; infrared devices for aiming and guiding weapons; parts and fittings for all of the aforesaid goods; combat aircraft; parts and fittings for combat aircraft.

SERVICES

(1) Construction, testing, servicing, maintenance, repair, re-fitting, refurbishment, renovation and upgrading of aircraft and of parts, fittings for aircraft (excluding computer software); design, development, installation, integration, testing, maintenance, repair and upgrading of computer hardware, electronic displays, sensors, avionics, namely, flight control sticks, flight control panels, flight instruments and display screens, electronics and electronic systems (excluding computer software), namely, wires, cables, circuit boards, connectors, transformers and electrical control panels; weapons systems, namely, missile, rocket and machine gun weapons systems, cockpit control panels, cockpit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles and control sticks, all being for aircraft; provision of training, education, workshops, seminars and courses in relation to the use, operation, deployment and maintenance of aircraft, and of airborne systems and ground-based systems for aircraft; provision of training, education, workshops, seminars and courses in relation to the use and operation of computer software, computer hardware, sensors, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems, weapons systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, removal role equipment and ground handling equipment, all being for aircraft; provision of computer-based training in relation to aircraft; provision of in-flight and ground-based training for pilots, navigators, air crew and ground crew; provision of mission planning training for pilots, navigators and ground crew in the field of mission planning; provision of training for instructors in the field of the operation and flying of aircraft, the use of flight controls and flight instruments, the use of aircraft simulators, mission planning, aircraft care and maintenance, and emergency procedures for aircraft; provision of training for flight instructors; publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for aircraft; publication of training materials, training manuals, instruction manuals, user guides and technical manuals for avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems and weapons systems, all being for aircraft; publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for the purposes of providing aircraft-related training; production of printed and electronic training materials, namely, audio and video recordings, all relating to aircraft, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, weapons systems, life support systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment systems for aircraft; design and development of

aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; design and development of components, parts and fittings for aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; design, development and testing of computer software, computer hardware, electronic displays, sensors, avionics, flight instruments, flight controls, electronics, electronic systems, weapons and weapons systems, cock-pit control panels, cock-pit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles, control sticks, radar systems, navigation systems, life support systems , communications systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment, all being for aircraft; design and development of apparatus and instruments for capturing, recording, processing, communicating, reproducing and transmitting data, sound and images, for use in relation to aircraft and/or the operation of aircraft; design and development of flight data recorders, data storage devices, data retrieval devices, data transmission devices and pre-recorded digital media for aircraft; aircraft testing and aircraft certification services; design, development and testing of aircraft ground support and test equipment; design, development and operation of support systems for aircraft, namely, systems for monitoring and advising on aircraft availability, for conducting logistic support analysis, and for generating maintenance policies and definition documentation; generation of reports.

(2) information, advice and consultancy relating to the construction, testing, servicing, maintenance, repair, re-fitting, refurbishment, renovation and upgrading of aircraft and of parts, fittings and support systems for aircraft (excluding computer software); information, advice and consultancy relating to the design, development, installation, integration, testing, maintenance, repair and upgrading of computer hardware, electronic displays, sensors, avionics, flight instruments, flight controls, electronics, electronic systems (excluding computer software), weapons and weapons systems (excluding computer software), cockpit control panels, cockpit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles and control sticks, all being for aircraft; information, advice and consultancy relating to the design, development, installation, integration, testing, maintenance, repair and upgrading of aircraft simulators (excluding computer software) and of computer hardware for aircraft simulators; information, advice and consultancy relating to contracting for availability services, namely, maintenance, servicing and preparatory services for aircraft so that the aircraft are always available, fit and ready for use; information, advice and consultancy relating to the provision of training, education, workshops, seminars and courses in relation to the use, operation, deployment and maintenance of aircraft, and of airborne systems and ground-based systems for aircraft; information, advice and consultancy relating to the provision of training, education, workshops, seminars and courses in relation to the use and operation of computer software, computer hardware, sensors, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems, weapons systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems, removal role equipment and ground handling equipment, all being for aircraft; information, advice and consultancy relating to the provision of computer-based training in relation to aircraft; information, advice and consultancy relating to the provision of in-flight and ground-based training for pilots, navigators, air crew and ground crew; information, advice and consultancy relating to the provision of mission planning training; information, advice and consultancy relating to the provision of training for instructors and flight instructors; information, advice and consultancy relating to the publication of training materials, training manuals, instruction manuals, user guides, technical

manuals and maps, all relating to or being for aircraft; information, advice and consultancy relating to the publication of training materials, training manuals, instruction manuals, user guides and technical manuals for avionics, electronics, communications equipment, navigation systems, radar systems, information systems, life support systems and weapons systems, all being for aircraft; information, advice and consultancy relating to the publication of training materials, training manuals, instruction manuals, user guides, technical manuals and maps, all relating to or being for the purposes of providing aircraft-related training; information, advice and consultancy relating to the production of printed and electronic training materials, namely, audio and video recordings, all relating to aircraft, avionics, electronics, communications equipment, navigation systems, radar systems, information systems, weapons systems, life support systems, flying control systems, fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment systems for aircraft; information, advice and consultancy relating to the provision of simulator training in relation to aircraft; information, advice and consultancy relating to the organising, arranging and conducting of conferences and exhibitions relating to aircraft and aircraft-related training; information, advice and consultancy relating to the production of aircraft mission simulations; information, advice and consultancy relating to the provision of simulator training in relation to aircraft; information, advice and consultancy relating to the production of aircraft mission simulations; engineering services relating to aircraft; information, advice and consultancy relating to aircraft engineering; information, advice and consultancy relating to the design and development of aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; information, advice and consultancy relating to the design and development of components, parts and fittings for aircraft, prototype aircraft, training aircraft, fast jet training aircraft, military aircraft, combat aircraft and aircraft for aerial and acrobatic display purposes; information, advice and consultancy relating to the design, development and testing of electronic displays, sensors, avionics, flight instruments, flight controls, electronics, electronic systems, weapons and weapons systems, cock-pit control panels, cock-pit control modules, head-up displays, helmet-mounted displays, night vision instruments, throttles, control sticks, radar systems, navigation systems, life support systems, communications systems, flying control systems , fuel systems, hydraulic systems, landing gear systems, air conditioning systems, crew escape systems, oxygen systems, electrical power systems, brake parachute systems, pitot-static systems, external lighting systems, propulsion systems and removal role equipment, all being for aircraft; information, advice and consultancy relating to the design and development of apparatus and instruments for capturing, recording, processing, communicating, reproducing and transmitting data , sound and images, for use in relation to aircraft and/or the operation of aircraft; information, advice and consultancy relating to the design and development of flight data recorders, data storage devices, data retrieval devices, data transmission devices and pre-recorded digital media for aircraft; information, advice and consultancy relating to aircraft testing and aircraft certification services; information, advice and consultancy relating to the design, development and testing of aircraft ground support and test equipment; information, advice and consultancy relating to the design, development and operation of support systems for aircraft, namely, systems for monitoring and advising on aircraft availability, for conducting logistic support analysis, and for generating maintenance policies and definition documentation; information, advice and consultancy relating to the generation of reports; information, advice and consultancy relating to the design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of aircraft simulators, of computer software for aircraft simulators, and of computer software for aircraft; information, advice and consultancy relating to the preparation of maps in digital form.

(3) Design, development, installation, integration, testing, maintenance, repair and upgrading of aircraft simulators (excluding computer software) and of computer hardware for aircraft simulators; contracting for availability services, namely providing maintenance, servicing and preparatory services for aircraft so that the aircraft are always available, fit and ready for use; provision of simulator training in relation to aircraft; organising, arranging and conducting of conferences and exhibitions relating to aircraft and aircraft-related training; production of aircraft mission simulations; design, development, installation, integration, testing, maintenance, support, repair, updating and upgrading of aircraft simulators, and of computer software for aircraft simulators; preparation of maps in digital form.

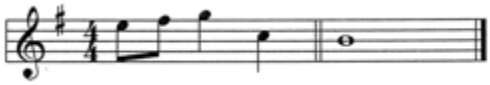
Sound Mark
Listen to sound file



Index Headings
SOUND MARK

Trademark Description
The mark consists of the theme played by acoustic guitar as follows: Two consecutive eighth notes, E5 and F#5. This is followed by two consecutive quarter notes, G5 and C5. This is followed by a whole note, B4 which is held and allowed to fade. An acoustic piano may also play the mark, both in the guitar octave and additionally in the octave just below. A tonal underpinning of the tonic G major supports the lower end. This may occur on the downbeat occurring one beat before the first guitar note sounds. A drawing that represents the mark is set out below. A CD containing a recording of the sound mark was filed.
