Trademarks Journal

Vol. 71 No. 3618

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

(1) 3D printers; 3D printing pens; AC generators; DC generators; Japanese style wooden clogs [Geta] shaping machines; Sugar making machines; abrasive belts for power-operated sanders; abrasive discs for automotive use; abrasive discs for power operated grinders; abrasive discs for power operated sanders; abrasive disks for power-operated sanders; adhesive bands for pulleys; adhesive tape dispensing machines; aerated beverage making machines; aerated beverage-making machines; aerating pumps for aquaria; aerocondensers; aeronautic engines; aeronautical engines; aeroplane engines; aeroplane motors; agitators for chemical processing; agricultural aircraft spray nozzles; agricultural balers; agricultural cultivators; agricultural elevators; agricultural equipment for seeding; agricultural land fertilizing equipment; agricultural plows; agricultural reaper machines; agricultural seed planting machine; agricultural seed planting machines; air brushes for applying make-up; air compressors; air compressors for vehicles; air drills; air filters for automobile engines; air filters for engines; air filters for motors; air hammers; air screwdrivers; airplane engines; airplane motors; alternating current servo motors; alternators for airplanes; alternators for boats; alternators for motor vehicles; alternators for trains; angle valves for use with machines; anti-friction bearings for machines; anti-friction pads for machines; anti-pollution catalytic converters for motors and engines; aquarium pumps; asphalt mixers; asphalt paving machines; autogenous soldering machines; automatic door openers; automatic electrostatic-paint sprayers; automatic floor scrubbers; automatic grapnels for marine purposes; automatic looms; automatic sprayers for electrostatic painting; automatic tire removing and installing machines; automatic vending machines; automotive exhaust pipes; automotive hoists; automotive parking lifts; aviation drive trains; axial flow blowers; axial flow compressors; axial flow pumps; axles for industrial machinery; axles for machines; back hoes; bakery mixing machines; balers for agricultural use; balers for industrial use; ball bearings for hard drives; ball bearings for turntables; ball rings for bearings; ball thrust bearings for turntables; ball valves being parts of machines; band brakes for machines; band saws; barking machines; barley polishing machines; barley press rollers; barley splitting machines; basket presses; bearing brackets for machines; bearing housings for machines; bearing inserts for machines; bearings as machine parts; bearings for transmission shafts; beating machines; beer pumps; belt conveyors; belt sanding machines; belts for conveyors; belts for farm vehicle

machines; belts for machines; belts for motors and engines; belts for power-operated sanders; bending machines for metalworking; bicycle assembling machines; bicycle dynamos; bits for mining machines; bitumen making machines; blanking presses; blending machines for chemical processing; blowing machines for the compression, exhaustion and transport of gases; blowing machines for the compression, sucking and carrying of grain; blowing machines or fans for the compression, sucking and carrying of grain; boat engines; boat hoists; boat motors; bobbins for sewing machines; bobbins for weaving looms; bookbinding laminating machines; bookbinding machines; bookbinding machines for industrial purposes; boring machines for metalworking; bottle capping machines; bottle capping machines for food and beverages; bottle filling machines; bottle sealing machines; bottle stoppering machines; bottle washing machines; bottling machines; braiding machines; brake linings for machines; brake segments for machines; brake shoes for machines; brakes for industrial machinery; brakes for industrial machines; bread cutting machines; bridge cranes; broaching machines for metalworking; brushes for vacuum cleaners; bulldozer tractors; bulldozers; bushings for use as parts of machines; butter machines; butterfly valves being parts of machines; cable cranes; cables for lifts; cake-fodder crushing machines; calcining machines for chemical processing; calenders; cam shafts; cams being parts of machines; camshafts for vehicle engines; canning machines; capping machines; capstans; car lifts; car washing installations; carburetors; carburetter feeders; carburetters; carding machines; cargo lifting derricks; carpet cleaning machine parts; carpet cleaning machines; carriages for knitting machines; cartoning machines; catalytic converter units for vehicle exhausts; catalytic converters; cemented carbide cutting tools; cemented carbide tips; centering drilling bits being parts of machines; central vacuum cleaning installations; centrifugal compressors; centrifugal mills; centrifugal pumps; centrifuges; cereal processing machines; chaff cutter blades; chaff cutters; chain conveyors; chain saws; chainsaws; chaser machine tools; check valves; cheese making machines; chemical fiber spinning machines; chick brooders; chisels for machines; chucks for power drills; churns; cigarette machines for industrial purposes; cigarette making machines; circular saw benches; circular saws; circular saws for woodworking; circulating pumps; cleaning machines for aviation engines; cleaning machines for ponds; clothes washers; clothes washing machines; clutches for industrial machinery; coal loaders; coal plough; coal-cutting machines; coalcutting machines; coffee extracting machines; coin-operated washing machines; collating machines; combine harvesters; commercial and industrial vacuum cleaners; compressed air guns for the extrusion of mastics; compressed air pumps; compression moulding machines; compressors as parts of machines, motors and engines; compressors for air conditioners; compressors for dehumidifying machines; compressors for industrial machinery; compressors for inflating tires; compressors for motor vehicles; compressors for recovering and recycling refrigerant gases; compressors for refrigerators; compressors for scuba diving; concrete construction machines; concrete finishing machines; concrete mixers; concrete paving machines; concrete placing machines; concrete vibrators; condensed milk making machines; cone brakes being parts of machines; connecting rods for machines, motors and engines; construction rammers; continuous casting machines; continuous metal casting machines; continuous scouring and bleaching machines; conveyer belts; conveyor lines; conveyors; cooling radiators for motors and engines; core drilling bits; corn and grain husking machines; corn husking machines; corrugated cardboard manufacturing machines; corrugated paperboard making machines; couplings for machines; cranes; crank shafts; crankcases for components for motor cars; crankcases for machines; crankcases for motors and engines; crawler cranes; crawler-mounted bulldozers; crawler-tracked loaders; cream separators; current generators; cutting machines for metalworking; cyclone dust collectors; cyclones; cylinder heads for engines; cylinders for engines; cylinders for industrial machinery; cylinders for mills; cylinders for motors; cylinders for motors and engines; cylinders for use in the manufacture of chocolate; cylinders for use in the manufacture of

colorants; darning machines; degreaser machines for motor vehicles; diamond-pointed metal-cutting tools; die-cutting and tapping machines; die-cutting machines; die-stamping machines; dies for use with machine tools; diesel airplane engines; diesel boat engines; diesel engines for concrete mixers; diesel engines for industrial machinery; diesel-engine heating plugs; diffusion pumps; dip-dyeing machines; direct current motors; disc brakes being parts of machines; dish washing machines for household purposes; dish washing machines for industrial purposes; dishwasher fittings; dishwasher racks being parts of a dishwasher; dishwashers; disintegrators for chemical processing; dispensing valves being machine parts; dissolving machines for chemical processing; drain cocks; dredging machines; drill bits for rock drilling; drill chucks for power drills; drill presses; drilling machines for metalworking; drilling rigs; drills for the mining industry; drop-forging machines; dust collecting machines for chemical processing; dust filters and bags for vacuum cleaners; dynamo belts; dynamo brushes; dynamos; dynamos for bicycle; earth augers; earth compacting machines; earth moving scrapers; edible kelp processing machines; egg brooders; egg incubators; electric and pneumatic hoists; electric arc welders; electric arc welding machines; electric brooms; electric carpet sweeper; electric chaff-cutters; electric chain saws; electric coffee mills; electric compressors; electric concrete vibrators; electric door closer; electric door openers; electric fan units for vacuum cleaners; electric food blenders; electric food blenders for household purposes; electric food choppers; electric food processors; electric food slicers; electric fruit presses for household use; electric fruit squeezers for household purposes; electric generators; electric graters; electric hammers; electric hand drills; electric hand-held drills; electric hedge shears; electric ice crushers; electric ice crushing machines; electric jacks; electric juice extractors; electric juicers; electric knives; electric lawn trimmers; electric lawnmowers; electric meat grinders; electric milk frothers; electric mixers for household purposes; electric motors for machines; electric nail guns; electric parquet wax-polishers; electric pepper mills; electric planers; electric planes; electric power generators; electric power generators for emergency use; electric power generators for ships; electric pulley blocks; electric rotary hammers; electric salt mills; electric screwdrivers; electric shearing machines; electric shoe polishers; electric soldering apparatus; electric soldering irons; electric starter motors; electric vacuum cleaners; electric vacuum cleaners and their components; electric washing machines for industrial purposes; electric welding machines; electric window closers; electric window openers; electrical coffee grinders; electrical drills; electrical juice extractors for fruit; electrical squeezers for fruit and vegetable; electrically operated curtain drawing machines; electrically powered windlasses; electricity generators; electricity winding wires; electrodes for welding machines; electrolysis apparatus for electroplating; electronic ignitions for vehicles; electroplating machines; electrostatic generators; elevator belts; elevator buckets; elevator chains being parts of machines; elevator doors; elevator gears; elevator lifts; elevator motors; elevators; elevators and parts of elevators; embossing printing machines; embroidery machines; emergency power generators; emulsifying machines for chemical processing; engine bearings; engine cooling radiators; engine cylinders; engine fuel pumps; engine injectors; engine timing components, namely, cam chains; engine timing components, namely, cam sprockets; engine timing components, namely, cam sprockets and chains; engines and motors for model vehicles, aircraft and boats; engines and motors for the generation of electricity; engines for air cushion vehicles; engines for boats; engines for industrial machinery; engines for model vehicles; engraving machines; envelope feeders; envelope stuffing and inserting packaging machines; envelope-inserting machines; erg (exhaust gas recirculation) valves; escalators; etching apparatus for use in manufacturing display panels; excavating machines; excavators; exhaust manifold for engines; exhaust mufflers for motors; exhaust pipes for land vehicles; exhaust silencers for engines; extracting machines for chemical processing; extractor hoods for household purposes; extractors for mines; extruding machines for metals; extrusion machines for plastic; extrusion moulding machines; fan belts; fan belts for motors and

engines; fans for motors and engines; fans for the compression, sucking and carrying of grain; feed mills; feed mixers; felt carding machines; felt milling machines; felting machines; fertilizer distributing machines; fiber blowing and scutching machines; fiber blowing machines; fiber cutting machines; fiber scutching machines; filter presses for chemical processing; filter rod making machines; filters for cleaning cooling air for engines; fish paste making machines; fish-netting machines; fittings for engine boilers; fixed and mobile cranes; flap discs for power-operated grinders; flexographic printing machines; floating cranes; floating drilling rig; floor buffing machines; floor cleaning machines; floor polishers; floor polishing machines; floor sanders; floor sanding discs; floor washing machines; flour mill machines; flues for engine boilers; fluid couplings being parts of machines; fodder cutting machines; fodder mixing machines; fodder presses; food chopping machines for commercial use; food cutting machines for commercial use; food garbage disposals; food mixers; food mixing machines for commercial use; food peeling machines for commercial use; food slicing machines for commercial use; food vending machines; food waste disposals; forage crushers; forge bellows; forging machines; forging moulds; franking machines; free-form forging machines; front-end loaders; fuel and air mixture regulators being parts of internal combustion engines; fuel dispensing pumps for service stations; fuel injection systems for engines; fuel injector parts for land and water vehicle engines; fuel injectors; galvanizing machines; gantry cranes; garbage disposal machines; garbage disposal units; garbage disposals; garbage grinders; gas compressors; gas filters for engines; gas filters for motors; gas operated cutting blow pipes; gas operated power generators; gas pumps; gas turbines for airplanes; gas welding machines; gas-operated blow torches; gas-operated cutting blow pipes; gas-operated welding machines; gasifiers; gaskets for engines; gaskets for motors; gasoline lawn mowers; gear cutters for use as a machine tool; gear cutting and finishing machines; gears for weaving looms; generators for boats; generators for industrial machinery; generators for motor vehicles; generators for wind turbines; generators of electricity; glassware manufacturing machines; glaziers' diamonds being parts of machines; glow plugs for diesel engines; glue guns; graders; grain augers; grain elevators; grain husking machines; grain scourers; grain separating machines; grain separators; grain storage dust collectors; granulating machines for chemical processing; grating machines for vegetables; grinding machines for metalworking; grinding machines for the treatment of ceramics and metal; grinding mills for chemical processing; grinding tools for grinding machines; grissini; ground surface finishing and compacting machines; gumball machines; hair clipping machines for animals; hair cutting machines for animals; hair shearing machines for animals; hand cranked spin dryers; hand mixers; hand weaving looms; hand-held electric drills; hand-held electric hammers; hand-held pneumatic drills; hand-held pneumatic hammers; hand-held power driven grinders; hand-held vacuum cleaners; harrows; hay balers; hay binding machines; hay crushers and forage crushers; hay making machines; hay tedders; heel-making machines; hemming machines; high pressure washers; high pressure water jetting system for the gas and oil industry; high-pressure pumps for washing appliances and installations; high-voltage generators; hoisting drums; horning machines for metalworking; hoses for vacuum cleaners; hosiery looms; hot adhesive guns; hydraulic accumulators being parts of machines; hydraulic conveyors; hydraulic cylinders; hydraulic door closers; hydraulic door openers; hydraulic excavators; hydraulic hammers; hydraulic hoists; hydraulic intensifiers being parts of machines; hydraulic jacks; hydraulic lift tables; hydraulic motors for excavators; hydraulic presses for metalworking; hydraulic pumps; hydraulic torque converters for machines; hydraulic turbines; hydraulic window closers; hydraulic window openers; hydrogen dispensing pumps for service stations; ice-resurfacing machines; idling pulleys being parts of machines; ignition coils; ignition devices for motors of land vehicles; ignition magnetos for engines; ignitions for vehicles; impact wrenches; incubators for eggs; industrial balers; industrial machine presses; industrial robots; industrial sewing machines; industrial steam engine boilers for power generation for machinery;

injection molding machines; injection moulding machines; injection plastic molding machines; inking apparatus for printing blocks; inking apparatus for printing machines; intaglio printing machines; intake manifolds for internal combustion engines; internal combustion engines for boats; ironing machines for commercial use; jet engines; jib cranes; journal boxes that are parts of machines; juice extractors; key cutting machines; kick starters for motorcycles; kneading machines; kneading machines for chemical processing; knife grinding machines; knife sharpening machines; knitting machines; knives for mowing machines; label guns; lace making machines; lace making machines and parts thereof; laminated leaf-springs being parts of machines; laminating machines for industrial use; lapping machines; lapping machines for metalworking; laser engraving machines for woodworking; laser welding machines; lathes; lathes for metalworking; lattice mast cranes; lawn mower blades; lawnmowers; leather paring machines; leather tanning machines; line haulers; linear motors; lineman's pliers; locomotive cranes; loom shafts; looms; lumbering band saws; machine bearings; machine bellows; machine belt pulleys; machine coupling and belting; machine couplings; machine couplings and transmission components; machine fly-wheels; machine parts, namely, bearings; machine propellers; machine pulleys; machine tool for broaching; machine tools for breaking up road surface material; machine tools for breaking up road surfaces; machine tools for removing waste material; machine tools for the automotive industry; machine tools for the metalworking industry; machine tools for the textile industry; machines for banknote cleaning; machines for dyeing textiles; machines for flaking dried fish meat [kezuri-bushi making machines]; machines for making pasta; machines for molding plastics; machines for separating recyclable materials; machines for the mineralisation of drinking water; mangles; manufacturing machines for liquid crystal display devices; marine engines and parts and fittings thereof; marine mounted dock cranes; material handling buckets; matrices for use in printing; mechanical escalators; mechanical lawn mowers; mechanical presses for metalworking; mechanical railed lifting conveyors; mechanical seals; mechanical spreaders; mechanical winders and machines for forming coils with pipes made of plastic materials; mechanized livestock feeders; membrane filters for use as parts of machines; memory chip manufacturing machines; metal engine gaskets for vehicles; metal extrusion presses; metal forming machines; metal laminated leaf-springs for machinery; metal pulleys being parts of machines; metal sanding discs; metal sawing machines; metal working machines; metalworking machine tools; milk filtering machines; milk homogenizing machines; milking machines; milling cutters for milling machines; milling cutters machine tools; milling grinding motors; milling machines; milling machines and grinding machines for the treatment of ceramics and metal; milling machines for metalworking; milling machines for the treatment of ceramics and metal; millstones; mine borers; mineral water making machines; mining bits; mining drill sharpeners; miso making machines; mobile cranes; mobile dock cranes; mobile electric power generators; motors and engines used in industrial applications; motors for boats; moving sidewalks; moving staircases; moving walkways; mud dredging machines; mufflers for engines; mufflers for motors; mufflers for motors and engines; mulberry leaf chopping machines; multi-phase screw pumps; multi-purpose steam cleaners; nail guns; nailing machines; net hauling machines; nickel plating machines; noodle making machines; oil centrifuges; oil coolers for engines; oil filters; oil filters for engines; oil filters for motors; oil filters for motors and engines; oil hydraulic presses for metalworking; oil separators; oil well boring machines; oil well bridge plugs; oil well derricks; oil-well pumping machines; ore treating machines; outboard motors; overhead travelling cranes; oxy-acetylene welding and cutting machines; packaging machines; packaging machines for food; packing machines; paint guns; paint mixing machines; paint spray guns; painting machines; paper bag making machines; paper bags for vacuum cleaners; paper calendering machines; paper coating machines; paper cutting machines; paper reeling machines; paper sack making machines; passenger elevators; pedal drives for sewing machines; pedal-powered spin dryer; perforating machines for metalworking; photo-engraving machines;

photogravure printing presses; pigs for cleaning pipes; pile drivers; pile-drivers; pile-extractors; piston rings; piston rings being engine parts; piston rings for motors; piston segments; pistons; pistons for cylinders; pistons for engines; plaiting machines; planetary gear motors; planing machines for metalworking; planographic printing machines; plastics molding machines; ploughshares; plunger pistons; plywood clipping machines; plywood finishing machines; plywood gluing machines; plywood jointing machines; plywood presses; pneumatic conveyors; pneumatic door closers; pneumatic door openers; pneumatic grease guns; pneumatic hammers; pneumatic hoists; pneumatic jacks; pneumatic nail guns; pneumatic pumps; pneumatic screwdrivers; pneumatic shears; pneumatic transporters; pneumatic tube conveyors; pneumatic waste oil drainers; pneumatic window openers; portable electric spin dryer; portable saw mills; positive displacement pumps; potters' wheels; power blowers for lawn debris; power chain saws; power drill bits; power hammers; power jacks; power looms; power operated boat lifts; power operated cultivators; power operated hedge trimmers; power operated jacks; power operated potters' wheels; power saws; power shovels; power tillers; power tool motors; power tools; power transmission belts for industrial machinery; power transmission belts for machines; power transmission belts for machines, motors and engines used in industrial applications; power transmissions and gearing for machines; power winches; power-operated flour mills; power-operated lifts for moving, parking and storing land vehicles; power-operated meat mincers; power-operated ski sharpening machines; power-operated sprayers for insecticides; power-operated tire removing and installing machines; press dies for metal forming; pressure washers; printing cylinders; printing machines for textile; printing machines for use on sheet metal; printing plates; printing presses; printing presses for ceramic material; printing rollers; printing rollers for machines; puddling machines; pulp making machines; pulp processing machines; pulp refining machines; pump diaphragms; pump impellers; pump seals; pumps and compressors as parts of machines, motors and engines; pumps as parts of machines, motors and engines; pumps for counter-current swimming; punching presses for metalworking; push rods for engines; rack and pinion jacks; racket stringing machines; racquet stringing machine; radial drills; radiators for motors and engines; radiators for vehicles; rail-laying machines; railway wagon lifts; raising machines for textile treating; ramie barking machines; ramie brushing machines; ramjet engines for airplanes; reamers being machine tools; reapers; reapers and binders; reapers and threshers; rechargeable hedge cutters; reciprocating vacuum pumps; recoil starters for engines for generators; recoil starters for engines for lawn mowers; reduction gears being parts of machines; reels for weaving looms; refrigerator compressors; refuse crushing machines; rice grain sorting machines; rice huskers; rice husking machines; rice polishing machines; rivet guns; road paving machines; road rollers; road sanders; road scrapers; road sweepers; robotic controlled mechanical parking lifts for multi-layered parking; robotic vacuum cleaners; rock drills; rocker arms for engines; rocker arms for motors; rocket engines; rocket engines for spacecraft; roller bearings for conveyor belts; roller bearings for industrial machinery; roller bearings for machines; roller bridges; roller chains being parts of machines; roller chains for engines; roller conveyors; rollers for rotary printing machines; rolling machines for rolling metals; rolling mill cylinders; rolling mills; rolling mills for metalworking; root slicing machines; rope making machines; rotary blowers; rotary brushes for machines; rotary lobe pumps; rotary presses for textiles; rotary printing presses; rotary pumps; routing machines; roving machines; rubber forming machines; rubber mixing machines; rubber mixing rolls being parts of rubber mixing machines; rubber tracks being parts of crawlers on agricultural machines; rubber tracks being parts of crawlers on construction machines; rubber tracks being parts of crawlers on mining machines; rubber tracks being parts of crawlers on snow ploughs; safety valves; sand cleaning machines; sand sorting machines; sand-blasting apparatus; sanders; sanding machines for woodworking; sausage machines; sausage making machines; saw machines; saw-tooth setting machines for lumbering or woodworking saws; scale collectors for

machine boilers; screw conveyors; screw grinding machines; screw pumps; sealing machines for industrial packaging; self-oiling bearings; self-regulating fuel pumps; semiconductor making machines; semiconductor wafer processing equipment; separating machines for chemical processing; servo-valves; servomotors; sewage pulverisers; sewage pulverizer machines; sewage pulverizers; sewage pulverizers being machines; sewing machine attachments; sewing machine parts; sewing machines; sewing machines for household purposes; sewing robots; shaft couplings; shaping machines for japanese style wooden clogs [geta]; shaping machines for metalworking; sheaf-binding machines; shearing machines for animals; shearing machines for metalworking; sheet-continuity sequencing machines; sheet-inserting machines; shock absorbers for industrial machinery; shock absorbers for machines; shoe making machines; shredder machines for industrial use; shredders for industrial use; sidewalks; silencers for motors and engines; silk screen printing machines; silk yarn bundling machines; silk yarn re-reeling machines; silk yarn reeling machines; silkworm egg washing machines; sintering machines for chemical processing; sizing machines; skate blade sharpeners; sliders for knitting machines; slides for knitting machines; slotting machines for metalworking; snow blowers; snow grooming equipment; snow ploughs; snow plows; snowblowers; soda-pop making machines; soldering irons; soldering lamps; soldering machines; soldering torches; sorting machines for chemical processing; soy sauce making machines; spark plugs; spark plugs for aircraft; sparking plugs for internal combustion engines; speed change gears being parts of machines; speed governors for machines, engines and motors; spinning boxes for open-end rotor spinning machines; spinning frames; spinning wheels; spray damping machines for textile treatment; spray guns for paint; spring shock absorbers for machines; staged and segmented conveyors; stair lifts; stamping machines; staple fiber cutting machine; starter alternators; starters for engines; starters for motors; starters for motors and engines; stators for machines; steam cleaners for household purposes; steam cleaning machines; steam engine boilers; steam engines; steam marine engines; steam mops; steam operated power generators; steam pressure variation engines; steam traps; steamrollers; stereotype machines; strapping machines; straw bale tightening machines; straw rope finishing machines; straw rope making machines; suction cups for milking machines; suction nozzles for vacuum cleaners; sump pumps; swaging machines; swimming pool pumps; tambours for embroidery machines; taps for use with machine tools; tea leaves sorting machines; tea processing machines; teat cups for milking machines; tedding machines; tenoning machines; textile calendering machines; textile scutching machines; textile tentering machines; textile washing machines for industrial purposes; thermostatic control valves for machines; thread milling cutters for machines; threading machines; threshing machines; thrusters for industrial machinery; tile removal and cutting machines; tilling machines for agricultural purposes; tilt hammers; timber harvesting machinery; timing belts for engines for land vehicles; timing belts for industrial motors; timing belts for machines used in industrial applications; timing belts for motors and engines used in industrial applications; tobacco processing machines; tool bits for metalworking machines; tool grinding machines; toolholder machine parts for metalworking machines; top drives for oil well drilling; torque converters; tower cranes; tractor towed harrows; tractor-towed fertilizer distributors; tractor-towed harrows; transmission belts for machines; transmission gears for industrial machinery; transmission shafts for boats; transmissions for industrial machinery; transmissions for machines; trash compacting machines; trash compactors; trawl winches; tree stump cutters; trench cutters; truck cranes; truck lifts; truck mills for mining purposes; trussing apparatus for hay; tubing mills for metalworking; tunnel boring machines; turbine generators; turbines for generation of electricity; turbines for jet engines; turbines for steam plants; turbocompressors; turboprop engines for aircraft; turf removing ploughs; turntable drive belts; type-setting machines; typecasting machines; typesetting machines; typographic machines; typographic presses; unloading cranes; vacuum cleaner attachments; vacuum cleaner bags; vacuum cleaner hoses; vacuum cleaner nozzles; vacuum cleaners; vacuum

cleaners for household purposes; vacuum cleaners for industrial purposes; vacuum packing machines; vacuum pumps; vacuum shredders for clearing debris; valves as machine components; valves being parts of machines; valves for industrial machinery; vegetable grating machines; vehicle washing installations; vehicle washing machines; vending machines; veneer manufacturing machines; waggon lifts; washing machines; washing machines for household purposes; waste and trash conveying machines; waste and trash separator machines; waste compacting machines; waste crushing machines; waste material conveying machines; water well boring machines; welding electrodes; welding machines; welding torches; well drilling machines; wet decatizing machines; wet scrubbers; wheelchair lifts; wheels for industrial machinery; winch motors; winches; wind turbines; windlasses; wine presses; winnowers; wire drawing machines; wire extruding machines; wire forming machines; wire hoists; wire welding machines; wire-coiling machines; wood beating machines; wood chipping machines; wood cutting machines; wood drilling machines; wood grinding machines; wood lathes; wood milling machines; wood planing machines; wood sawing machines; woodworking dust collectors; woodworking saw-tooth setting machines; wringing machines for laundry; yarn drawing frames; yarn reeling machines; yarn singeing machines; yarn slivering and combing machines; yarn spinning machine; yarn spinning machines; yarn stretching machines; yarn twisting machines; yarn warping machines; yarn winding machines

(1) downloadable computer software for medical and health purposes, namely for assessing, testing and monitoring the mental and psychological health and well-being of others, downloadable software applications for medical and health purposes, namely for assessing, testing and monitoring the mental and psychological health and well-being of others, downloadable software applications for health support, namely for assessing, testing and monitoring the users mental and psychological health and well-being, downloadable software applications for providing users advice in the field of psychological health and well-being, electronic display screens for viewing digital images and information in the fields of mental and psychological health and well-being, downloadable electronic educational materials, namely books and handbooks in the fields of mental and psychological health and well-being, computer application software for mobile phones, desktop computers, and handheld computers, namely software to treat and reduce stress, mobile electronic devices, namely smartphones, portable computers, downloadable digital audiovisual recordings featuring information in the fields of general health and well-being, audiovisual recordings featuring information in the fields of general health and well-being provided on DVDs and memory storage devices, namely USBs and RAM (random access memory cards), software for teaching psychological well-being programs and techniques, and parts and fittings for any of the foregoing; apparatus and instruments for recording, transmitting, reproducing and processing sound, namely audio recorders, audio speakers, headphones, radios, record turntables, FM transmitters, apparatus and instruments for recording, transmitting, reproducing and processing images, namely cameras and digital cameras, and instruments for recording, transmitting, reproducing and processing electronic data, namely downloadable computer software in the fields of mental and psychological health and general health and well-being; pre-recorded downloadable digital media content being images, music audios, photos and videos in the fields of mental and psychological health and well-being; storage media, namely USBs and RAM (random access memory cards), secure digital (SD) memory cards; computers; computer peripheral devices, namely audio and video receivers and transmitters, video monitors, microphones, computer

speakers, computer keyboards; apparatus for detecting and reporting psychological stresses, namely wearable activity trackers

Class 28

(2) electronic or mechanical stress relief toys, namely fidget toys

Services**Class 44**

medical services, namely mental health services, conducting of psychological assessment and examinations, personal care services, namely, medical nursing, health, personal hygiene and beauty care provided by saunas, beauty salons, sanatoriums, hairdressing salons and massage parlors, psychological advisory services, developing individual and group therapy programs to improve mental health and general health and well-being provided through an app or via a website, providing information for improved behaviour in the field of general health and wellbeing, vocational health advisory services, namely providing workplace testing and support programs for general health and well-being, and advisory, consultancy and information services thereon provided via a website, through mobile smartphones or wireless computer networks, or cloud server; medical services, namely mental health services and psychological care services provided through an app; psychological support and advisory services provided through an app; allied health services in the fields of mental health and well-being; behavioural health services, namely behavioural analysis for medical purposes and provision of information relating to behavioural modification and stress management; counselling in relation to general health and well-being; behavioural analysis for medical purposes; health care consultancy in the field of general health and wellbeing; occupational therapy; mental health services

Colour Claim

Colour is claimed as a feature of the trademark. The colors red, black, and white are claimed as a feature of the mark. The mark consists of a black horizontal line that begins straight in the bottom left of the mark, then curves up, and continues straight toward a red and white circle above the wording "PINTSCH" in black and "SAFETY FOR RAIL" in red.

Goods

Class 07

(1) Transporting machines, namely shunting equipment for railway wagons; motors and engines used for rail infrastructure and rolling stock, electric propulsion mechanisms for machines consisting of electrical motor and gearing, power-driven mechanical control mechanisms for machines, and for engines and motors and railway points, drives, namely electric drives, in particular for barriers, doors and parts thereof, platform screen doors and railway points, auxiliary power supply units for supplying electrical power for tunnel safety light, electric motors for drives for machines used for rail infrastructure and rolling stock, mechanical conveyor belts and belts for conveyors, rope winches, and conveying machines, in particular all the aforesaid for shunting equipment and automatic train washing installations, emergency power supply units for tunnel safety lighting, parts and fittings for the aforesaid goods.

Class 09

(2) Apparatus and instruments for conducting, switching, transforming, accumulating, regulating and controlling electricity, namely, level crossings signals, contactless electrical switches consisting of magnets and metal detectors; computer hardware for data processing, downloadable computer software for diagnostics for rail transport infrastructure equipment, visualization, control and diagnosis software recorded on computer media, in particular for rail transport infrastructure

equipment and for platform screen door systems, electric control panels; network management control apparatus, namely, computers and network routers; microprocessors for controlling railway infrastructure; electronic communications devices, namely, wireless transceiver radio, wireless telephones, ethernet, mobile radio, LAN, radio transmitters and receivers; downloadable software for deployment on web servers for monitoring, controlling and diagnosing for railway infrastructure; file servers, network access server hardware; electrodynamic apparatus for the remote control of railway points, railway signals, level crossings, railway couplings, and testers for axle clearance, magnetic, level and proximity sensors; display, measuring, counting, recording, monitoring, testing, control, regulating and commutation apparatus, namely, electronic sensors for voltage, temperature sensors, current testors, humidity sensors, electric resistors, sensors for determining position of trains, route control, axle counting, track clear detection, and for indication of position of railway points; railway signals, electrodynamic apparatus for the remote control of railway points; railway signaling installations comprising electronic control apparatus for the manually and train-triggered operation of level crossings and signal box technology; apparatus for railway signaling technology and installations composed thereof, in particular installations for railway line and safety technology, level crossing technology and signal box technology, namely, emergency signal transmitters, control units, gate mechanisms, road side signals, track signals, manual switch boxes, activation and deactivation equipment, interface boxes, electro-dynamic apparatus for the remote control of railway points, double wheel sensors, in particular for rail transport; computer software and computer hardware for collecting, processing, extracting and analysing data in the field of railway traffic, namely computer monitors and proprietary software therefor; chargers for electric batteries for rail vehicles, electro-technical and electro-mechanical components in the nature of plugin connectors, electric relays; computer software for collecting, processing, extracting and analysing data in the field of railway transport, computer hardware for data processing in the field of railway transport, computer display monitors, electronic detectors and indicators of the speed, direction and position of rail vehicles, electronic controllers for rail vehicles locking systems, devices for visualizing and monitoring system states in the nature of computer monitors, indicator lights; electronic detectors and indicators of the speed, direction and position of rail vehicles; electronic controllers for rail vehicles locking systems, and for signaling installations; apparatus for receiving, processing and displaying information in rail vehicles, namely, computers, liquid crystal displays; electro-technical devices for passenger coaches and railcars, namely, converters; snow detector sensor; temperature controllers and heating controllers for warming and cooling rooms and buildings; computer software for the remote control and remote diagnosis of railway points heating systems, remote controls for railway signals; electricity generating apparatus utilising solar power, namely solar cells, solar battery chargers, solar modules; software for process control and process visualisation in tunnels; network interface controller; electronic command and control systems for railways, in particular in marshalling yards and at level crossings; computer software for centralised and decentralised route control in shunting equipment, electrical controllers for level crossings and interlocking systems, axle clearance and wheel sensors, in particular for rail transport, parts and fittings for the aforesaid goods.

Class 11

(3) Lighting installations namely electric track lighting units, electrical lighting fixtures for tunnel safety, LED lighting fixtures, heaters for automobiles, hit-air space heaters for railway infrastructure, for railway cars, for railway tracks, parts and fittings for the aforesaid goods.

Class 19

(4) Doors and sliding doors, not of metal, and doors of glass, platform screen doors, partitions, doors and sliding doors, not of metal, for platform screen door systems, in particular automatically operated doors, doors with an emergency opening function, parts and accessories for all the aforesaid goods.

Services

Class 37

(1) Building construction, maintenance and repair, refurbishment and renovation to accommodate installations for railway line and safety technology and level crossing technology.

Class 42

(2) Technological services, namely, research, optical, electronical, electrical and software design and testing in the field of railway signals and level crossings; industrial analysis and research services in the field of railway signals and level crossing; technical consultancy, in particular relating to platform screen door systems and relating to control engineering and safety technology, in particular the aforesaid including level crossing technology and signal box technology; design and development of computer hardware and software; project planning and construction drafting for control engineering and safety technology installations, in particular the aforesaid including level crossing technology and signal box technology, and for platform screen door systems; development and feasibility studies relating to platform screen door systems and relating to control engineering and safety technology installations, in particular the aforesaid including level crossing technology and signal box technology; photometric testing laboratory services, namely, taking measurements in lighting laboratories; technological planning of railway points heating, track lighting and tunnel safety lighting systems featuring control engineering, remote control technology, control apparatus for network management, and electrical and communications engineering installations in the rail transport technology sector.

Class 09

(1) Apparatus for breathing, excluding those for artificial respiration, namely breathing apparatus for underwater breathing; oxygen respirators other than for artificial respiration, namely self-contained breathing apparatus [SCBA].

Class 10

(2) Surgical, medical, dental and veterinary apparatus and instruments, namely apparatus and instruments for the stimulation of a core muscle; medical apparatus and instruments, namely apparatus and instruments for transcutaneous electrical nerve stimulation, mechanical ventilators, non-invasive ventilators, patient ventilation apparatus, apparatus and instruments for artificial respiration; veterinary apparatus and instruments, namely apparatus and instruments for transcutaneous electrical nerve stimulation, non-invasive ventilators, patient ventilation apparatus, apparatus and instruments for artificial respiration; transcutaneous electromagnetic nerve stimulators for medical use; apparatus and devices for transcutaneous electromagnetic neurostimulation for medical use; transcutaneous electrical nerve stimulators for medical use; apparatus and devices for transcutaneous electrical nerve stimulation for medical use; high and low frequency electromagnetic therapy apparatus for the treatment of respiratory conditions and training of respiratory muscles; physical therapy equipment for medical use in the nature of an exercise simulation apparatus for medical use, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; rehabilitation apparatus for medical use in the nature of exercise apparatus for medical rehabilitation, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; apparatus and devices for the electrical stimulation of muscles; apparatus and devices for the electromagnetic stimulation of muscles; exercise resistance machines for medical use; apparatus for the training of heart muscles for medical use; apparatus for the electrical stimulation of muscle groups; apparatus for the therapeutic stimulation of muscles; apparatus for electrotherapy stimulation in the nature of electrical nerve and muscle stimulators; instruments for respiratory therapy in the nature of medical instruments for respiratory

assistance; computer-operated training apparatus for therapeutic use, namely computer-operated physical exercise apparatus for therapeutic and medical use, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; computer-operated exercise apparatus for therapeutic use in the nature of muscular stimulation apparatus; low frequency electric apparatus for therapeutic use, namely electrotherapy apparatus for the electrical stimulation of muscles; physical exercise apparatus for therapeutic and medical use, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; devices for maintaining physical fitness (for medical use) in the nature of exercise simulation apparatus for medical use, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; current stimulation apparatus for therapeutic treatments in the nature of transcutaneous electromagnetic nerve stimulators; common therapy instruments for the treatment of respiratory problems, namely medical apparatus for predicting and preventing respiratory dysfunction during respiratory assistance and for the training of respiratory muscles; apparatus for artificial respiration; medical devices for monitoring, measuring and displaying breathing patterns; portable devices used for endogenous breathing exercises and for respiratory muscle training; transcutaneous electrical muscle stimulators; transcutaneous electromagnetic nerve stimulators; electrodes for transcutaneous electrical nerve stimulation; electrodes for transcutaneous electromagnetic nerve stimulation; exercise apparatus for medical therapy in the nature of exercise apparatus for medical rehabilitative use, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; devices for breathing exercises in the nature of analysis apparatus for medical use and diagnostic apparatus for medical use for testing respiratory muscle stimulation; exercise machines for medical rehabilitation, namely cross-country skiing machines, elliptical exercise machines, rowing machines, stair climbers, stationary bicycles, treadmills, resistance exercise bands, resistance exercise tubes; medical apparatus, namely analysis apparatus for medical use or diagnostic apparatus for medical use, namely analysis apparatus for medical use and diagnostic apparatus for medical use for testing respiratory muscle stimulation; medical apparatus for delivering drugs intravenously; implantable drug delivery devices; resuscitation apparatus; apparatus for artificial respiration; respirators for artificial respiration; respiratory masks for artificial respiration; respiratory masks for medical use.

Services

Class 35

(1) Retail and wholesale of pharmaceutical, veterinary and medical preparations, namely retail services for pharmaceutical, veterinary and sanitary preparations and medical supplies; online retail services for pharmaceutical, veterinary and medical products, namely online sale of pharmaceutical, veterinary and sanitary preparations and medical supplies.

Class 41

(2) Preparation and facilitation of conferences, conventions, seminars, symposia, lectures, training workshops and lessons and training courses, all in the fields of medical training and education, in particular in relation to respiratory therapy and critical care and muscle stimulation; preparation and facilitation of conferences, conventions, seminars, symposia, lectures, training workshops and lessons and training courses in the fields of medical equipment and therapies; education, training, provision of online training, in particular in the fields of medicine, chemistry, pharmacy, medical therapies, medical equipment and health care, namely respiratory therapy and intensive care and

respiratory muscle stimulation; sporting activities, namely sports camps and fitness centres; teaching in the fields of respiratory therapy and critical care and respiratory muscle stimulation; provision of information relating to education and training in the fields of medical training and education, in particular in relation to respiratory therapy and critical care and muscle stimulation; preparation, facilitation and organization of training workshops all in the fields of medical training and education, namely related to respiratory therapy, critical care and muscular stimulation; provision of online non-downloadable electronic publications, namely articles in magazines and newspapers, and business publications in the form of manuals, periodicals and publications in the nature of newsletters in the fields of respiratory therapy and critical care and respiratory muscle stimulation; online provision of non-downloadable videos in the fields of respiratory therapy and critical care and stimulation of the respiratory muscles; organization and conduct of non-virtual educational forums in the fields of respiratory therapy and critical care and stimulation of the respiratory muscles; consultant services related to education and training, in particular for medical and health care professionals.

Class 42

(3) Design and development of apparatus and instruments for artificial respiration in the fields of respiratory therapy and critical care and respiratory muscle stimulation; scientific and technological services as well as research and design relating thereto in the fields of respiratory therapy and critical care and respiratory muscle stimulation, namely basic and clinical research in the fields of respiratory science and medicine; design and development of computers and software; design and writing of computer software; chemistry services, namely chemical analysis and research; chemical research services; scientific laboratory services, namely medical research laboratory services; provision of technical information regarding the use of computers, computer hardware, software and computer programs, in particular online, in particular in the fields of medicine, chemistry, pharmacy, medical therapies, medical facilities and healthcare; hosting of customized web pages, in particular for the standard preparation of customer-specific information, including blog entries and multimedia content as well as online links to other websites; provision of information related to medical and scientific research in the field of pharmaceutical preparations; software programming for portals on the Internet, discussion spaces, chat lines and forums on the Internet, in particular in the fields of medicine, chemistry, pharmacy, medical therapies, medical facilities and health care; hosting of platforms on the Internet and hosting of web portals, in particular in the fields of medicine, chemistry, pharmacy, medical therapies, medical facilities and health care.

Class 44

(4) Therapy services, namely physiotherapy services; medical services in the fields of respiratory therapy and intensive care and stimulation of respiratory muscles and veterinary medicine; medical information, namely provision of information related to health and raising awareness of health issues for physicians, health care professionals and patients in the fields of respiratory therapy and critical care and respiratory muscle stimulation.

(1) Import-export agencies in the field of energy; wholesaling and retailing, including online, of gas, in particular biogas; providing a service that allows customers to purchase energy, namely, electricity and thermal; in-store wholesale and online wholesale of accumulators used in production of electricity and thermal energy; wholesaling and retailing in relation to electromobility, in particular charging stations, charging columns, electric accumulators, chargers for electric batteries, automatic machines for distributing and providing electricity for charging electrically driven vehicles and bicycles, checking (supervision) and monitoring systems for securing vehicles; wholesaling and retailing in relation to electromobility, in particular data processing apparatus in the nature of computer hardware, computers computer software and application software (apps) for connecting electric vehicles to the energy system of a house, car park or service station, and for leasing electric vehicles; wholesaling and retailing in relation to parts for renewable energy production plants; concluding of contracts, including online, in connection with the generation of electricity and electricity supply; commercial and professional business services in connection with the trading of electricity and gas, including biogas, namely in connection with gas and electricity connection communities, marketing consultancy and/or energy connection management, load course optimisation, portfolio management, demand pooling and price negotiations; commercial consultancy in relation to the supply of gas and electricity; commercial consultancy in relation to the use of renewable energy, including consultancy in relation to the optimisation of energy generation with wind power, solar power and biogas plants; business and organisational consultancy for producers in the field of renewable energy, in particular with regard to location analysis, logistics, grid connection and network supply; arranging of energy contracts, in particular power purchase agreements, for others; arranging contracts with electricity suppliers, for others; concluding gas connection contracts, for others; market research and advertising services to promote public awareness on energy issues; arranging, organizing and conducting exhibitions for promoting public awareness of clean energy production and initiatives, business management and advice in the running of establishments as franchises in the field of energy projects; assistance,

advisory services and consultancy with regard to business management to franchises in the field of energy projects; business administration and management services to franchises in the field of energy projects, business administration, professional business and organisational consultancy regarding the management, controlling and monitoring of companies; professional business planning and consultancy in the field of energy and heat supply; business consultancy, in particular professional business management, for others, in the field of energy supply; business management and enterprise organization consultancy to third-party local businesses in the field of energy projects; business services, namely business administration, management, organization to third-party local businesses in the field of energy projects; administrative management of wind farms and wind power plants; business management of solar parks and biogas plants; compilation of data and statistics relating to the operation of wind power plants and wind parks, solar power plants and solar parks as well as biogas plants; risk management consultancy [business] and business risk analysis, in particular, analysis and compilation of data to assist in identifying business risks.

Class 36

(2) Analysis and consultancy concerning financing of energy projects; financial analysis consultation services to third-party local businesses in the field of energy projects; financial solutions to counter climate change; financial analysis in the energy sector and in the field of e-mobility; financial information management in the field of energy sector and e-mobility; consultancy relating to corporate finance in the energy sector and in the field of e-mobility; financial management in the energy sector and in the field of e-mobility; financial planning in the energy sector and in the field of e-mobility; financing and funding in the energy sector and in the field of e-mobility; financial investment advisory services in the energy sector and in the field of e-mobility; capital investment consultancy in the energy sector and in the field of e-mobility; investment services in the energy sector and in the field of e-mobility; project financing in the energy sector and in the field of e-mobility; financing energy projects; providing of loans in the energy sector and in the field of e-mobility, in particular for the purchase of energy installations, electrical installations, heating installations or installations operated by renewable energies, including for energy saving; loan services in the energy sector and in the field of e-mobility, in particular for the new construction of energy-efficient and environmentally-friendly buildings; purchase and sale of electricity quotas on the energy exchange; brokerage services for buying and selling of electricity; brokerage services for trading of electricity; commodity trading services for electricity; financial clearing and settlement services, all relating to the generation, supply, distribution and transmission of electricity; electronic commerce relating to energy stock exchange; financial consultancy in the energy sector; energy brokerage; brokerage relating to financial investment in renewable energy; financial consultancy relating to investment in renewable energy; planning of investments relating to real estate in the energy sector and in the field of e-mobility, including in apparatus for the generation of renewable energy; investment in and consultancy relating to investment in renewable energy; consultancy with regard to investment in installations for generating energy from renewable energy carriers, and brokerage of such investments; financial information, data, advice and consultancy in the energy sector and in the field of e-mobility, in particular share orientation advisory services, in particular in relation to firms in the bioenergy, renewable energy sectors; stock trading in the energy sector and in the field of e-mobility; venture capital funding to emerging and start-up companies in the energy sector and in the field of e-mobility; venture capital services in the energy sector and in the field of e-mobility, namely, providing financing to emerging and start-up companies; financial investment brokerage in specialist companies in the field of energy; equity research assistance for businesses, establishments and research centres in the energy sector and in the field of e-mobility; financial

evaluation [insurance, banking, real estate] in the energy sector and in the field of e-mobility; financial and monetary assessment services in the nature of providing financial assessment services and financial assistance to third-party local businesses in the field of energy, environment, wind power, geothermal, hydropower, thermal energy, wind energy, bioenergy, renewable energy, biomass energy, geothermal energy and solar energy projects; financial consultancy in relation to optimising energy consumption, energy generation and energy storage; financial and budgetary estimates in the energy sector; financial analysis and financial reports in the energy sector and in the field of e-mobility; financial risk management in the energy sector and in the field of e-mobility; brokerage of emission rights; lease-purchase of photovoltaic roof systems; lease-purchase of plants for the production of renewable energy.

Class 37

(3) Construction of solar thermal panels structures; installation, maintenance and repair of energy generation equipment; installation, maintenance and repair of solar collectors; installation, maintenance and repair of solar installations for generating power; maintenance and repair of heating installations; installation of wind and solar power installations and of plants for generating renewable energy, including plant-related measuring apparatus; installation of geothermal energy based power plants for the production of renewable energy, heating equipment installation and repair; installation and maintenance of solar energy based power plants; installation and maintenance of solar thermal installations; Installation and maintenance of wind parks; repair and maintenance of wind power plants; installing, servicing and repairing of fuel cell systems; installation, maintenance and repair of windmills and wind turbines; installation, maintenance and repair of electric generators, heat transport and heat distribution plants and cogeneration plants and combined heat and power plants, including plant-related measuring apparatus; pipeline laying; installation of electrical systems for generating renewable energy; installation of electrical and generating machinery for solar power and thermal energy, heating construction technology, air conditioning technology and ventilation construction technology, in the form of installation, maintenance and servicing; building, installation, repair, servicing, maintenance, inspection prior to maintenance and repair of plants for generating renewable energy, of systems and machines for generating renewable energy in the field of renewable energy, solar collectors and solar modules for generating electricity [photovoltaic installations] and parts therefor; construction work for erecting installations for generating energy and gas, in particular installations for generating electrical and thermal energy from renewable energy sources, including wind energy, hydropower, solar energy, geothermal heat and biomass, and installations for generating biogas from biomass and recyclable materials; providing information in relation to the construction of wind power plants and plants for generating renewable energy, including powered by biomass, biogas (including being obtained from organic waste), geothermal heat, solar-thermal plants, solar collectors and solar modules for generating electricity [photovoltaic installations] and hydropower plants; building construction supervision in relation to wind and solar power plants and in relation to plants for generating renewable energy, including powered by biomass, biogas (including being obtained from organic waste), geothermal heat, solar-thermal plants, solar collectors and solar modules for generating electricity [photovoltaic installations] and hydropower plants; installation of computer systems [hardware] for IT and data security for wind and solar parks and renewable energy production plants; installation, maintenance and repair of computer hardware and telecommunications equipment for IT and data security for wind and solar parks and renewable energy production plants; rental and leasing of charging stations for electric vehicles and electric bicycles; services of charging stations; maintenance and servicing of electric vehicles and electric bicycles, in particular charging, replacement and maintenance of batteries; maintenance of computer hardware, including for capturing, compiling, interpreting, evaluating, storing, transmitting

of sensor-captured measurement data for the field of smart household technology, and for networking, programming, controlling, remotely controlling, monitoring and regulating gas, power, district heating, local heating and water lines, air conditioning, heating and thermal plants, surveillance systems and access control systems.

Class 39

(4) Electricity storage service; transportation and storage of waste; Rental of installations for distribution of electrical energy and natural gas to residential and commercial users; transport, distribution, storage and providing of energy, in particular electricity, gas, biogas, heat, biomass, solar energy, wind energy, thermal energy and water; transportation consultancy to transport equipment for solar thermal panel installations; distribution of electrical energy and natural gas to residential and commercial users; energy supply and energy distribution in connection with electricity, gas, water and steam, for others; energy supply for motor vehicles and electric bicycles, in particular by means of conveying, transporting and distributing electrical energy via supply networks; providing (distribution) of electrical energy by means of fuel cells.

Class 40

(5) Generating energy, in particular electricity and heat, and energy carriers from renewable energy sources, including generating plant oil from agricultural products, including rapeseed or sugar; generating biogas, including being obtained from organic waste; rental of heat generating thermal panel installations; Rental of biogas generating installations, including being obtained from organic waste, water, electricity and steam; generation of electricity from solar, water and wind power; production of electrical power from renewable sources.

Class 42

(6) Technical consultancy services in the fields of energy consumption and usage conservation to improve energy efficiency; design and development of energy management software; providing technology information field of alternative energy generation; research and development in the field of wind energy; drafting and development of photovoltaic systems and wind turbines; engineering in the field of solar energy projects and wind power projects; research and development in the field of photovoltaic solar energy and wind turbines; research and development in the field of solar thermal energy; ; technical development, technological consultancy and control of projects (project management) in the field of renewable energies, including wind, solar and bioenergy; technical consultancy in the field of production of renewable energy offered to franchises; technological consulting services in the field of alternative energy generation, technological consultancy relating to environmentally friendly energy, consultancy relating to energy saving, engineering, in particular relating to energy saving, measuring and control engineering in the field of heating technology; technical planning of energy supply concepts, for others, including designing of stations for networking and converting renewable energy; design of renewable energy transmission lines; providing technological information for operators of renewable power installations; engineering in the field of the production, transformation, storage, installation of solar electrical energy devices, of hybrid or non-hybrid renewable energy devices powered by conventional energy, of wind energy devices or biomass energy devices; conducting technical project studies for plants for generating renewable energy, in particular from wind and solar power, as well as biogas, in particular of site appraisal; industrial analysis and research services, in particular feasibility and design studies in the field of construction, repair, operation, installation and management of permanent plants, in particular plants for generating renewable energy as wind and solar power and biogas; technical project studies and technological consultancy in authorisation procedures for the construction of plants for generating renewable energy, in particular wind energy, solar energy and bioenergy; technical planning and

technological consultancy in the field of energy and heat supply, technical development of equipment in the nature of designing equipment used in the renewable energy field, construction drafting; design and development of software for control, regulation and monitoring of solar energy and wind power systems; Monitoring parameters of solar thermal power generators, and cogeneration power plants and combined heat and power plants, including measurement apparatus; engineering services, namely conducting studies and technical projects in the fields of energy technology, renewable energies, in particular solar, hydro and wind energy, biomass, biogas, including being obtained from organic waste, geothermal heat, solar collectors and solar modules for generating electricity [photovoltaic installations] and solar-thermal installations; technological consultancy in relation to the design, installation, operation, management and monitoring of plants for generating renewable energies, including from solar, hydro and wind energy, biomass, biogas, including being obtained from organic waste, geothermal heat, solar collectors and solar modules for generating electricity [photovoltaic installations] and solar-thermal installations; design and development of computer software for use in relation to the monitoring of plants for generating renewable energies, including from solar, hydro and wind energy, biomass, biogas, including being obtained from organic waste, geothermal heat, solar collectors and solar modules for generating electricity [photovoltaic installations] and solar-thermal installations; research and development for others in the field of renewable energy; computer system analysis for use in connection with monitoring installations for generating renewable energy; digitization of documents; software as a service [SaaS] for use in connection with monitoring installations for generating renewable energy; cloud computing for use in connection with monitoring installations for generating renewable energy; consultancy in the field of computer data security; computer software design; programming of energy management software; IT security services in the nature of protection and recovery of computer data; engineering project management services in the field of fuel cells and solar energy and wind energy systems; data security services [firewalls]; data security consultancy; design and development of electronic data security systems; installation, maintenance and repair of software for computers for IT and data security for wind and solar parks and plants for the generation of renewable energy; monitoring of computer systems, including via the internet, for IT and data security for wind and solar parks as well as plants for the production of renewable energies to detect unauthorised access and data breaches; configuration of computer software for IT and data security for wind and solar parks; computer software support and IT consulting in the field of cloud computing networks and applications; IT services, namely development, programming and implementation of software for IT and data security for wind and solar parks and plants for the production of renewable energies; development of IT and data security for wind and solar parks, rental of software and computer hardware and systems for IT and data security for wind and solar farms; computer analysis and diagnostics; computer programming, in particular programs in the field of energy optimisation, energy saving by means of energy efficiency and building automation in the field of smart power networks, smart building technology and smart energy meters; installation and maintenance of application software (apps), technical development, technological consultancy and control of projects (project management) in the field of mobile energy supply and e-mobility, and with regard to electric service stations and charging stations for electric vehicles and bicycles; development of software for the management of charging stations for charging electric vehicles; research and development of technology in the field of electric vehicle energy storage and distribution; scientific and industrial research in the field of photovoltaics and solar collectors; research and development in the field of hydroelectric energy; research in the area of semiconductor processing technology; providing technological information for environmentally-conscious and green inventions in the field of solar powered vehicles; technological consultancy and project planning in relation to site development, planning, construction and installation of electric vehicle charging stations and charging stations and

associated infrastructure, in particular in relation to supplying energy from a supply network and generating energy from renewable energy sources; rental of control and monitoring hardware and software for capturing and storing data relating to a wind power plant, a wind park, and a solar installation, solar park, and the surroundings thereof; computer software rental; rental of software for risk management and analysis; rental of software for it and data security for wind and solar parks.

(2) Railroad track maintenance equipment, namely, grinding machines, grinding wheels, ballast maintenance machines for cleaning railway ballasts and trench diggers; machines for removing railway ties and replacing them with new ties and power-operated chain-type trenching machines for digging trenches; railroad equipment, namely, a hydraulic conversion kit consisting primarily of hydraulic lift cylinders, air-to-hydraulic amplifier and hydraulic control valves, the foregoing being machine parts for converting air-operated side dumping railroad cars; wayside railroad wheel lubricator; machines for applying lubricant and friction modifiers to the head of a railroad rail.; lubrication machines for lubricating the gauge face of railways; railroad equipment, namely, conversion kits consisting primarily of hydraulic actuators and control valves powered by a solar charged battery array to automate actuation of gates on rail cars delivering ballast to convert manual ballast gates of a railroad ballast car into remote controlled ballast gates having the electrical system recharged by solar energy.

Class 17

(3) Polymeric material, namely, polyethylene geomembranes used as barriers for containment of water, waste, chemical and soil pollutants along railroad tracks.

Services

Class 35

(1) Providing information relating to the planning and scheduling of railroad track maintenance for business purposes via an online computer database.

Class 37

(2) Railroad services, namely, material excavating services using an excavator and a series of endless gondola rail cars without bulkheads; railroad maintenance services, namely, repair and maintenance of railways; railroad maintenance services, namely, material excavation using an excavator and a series of endless gondola rail cars without bulkheads; railroad maintenance services, consisting primarily of material excavation around railroads, also including the pick-up and transportation of resulting debris, the foregoing performed with an excavator and a series of endless gondola rail cars without bulkheads; providing information relating to the inspection in the course of construction and maintenance of railroad tracks via an online computer database.

Class 39

(3) Railroad services, namely, aggregate cargo handling services using a continuous belt and boom to offload the aggregate cargo from railroad trains and aggregate cargo handling aggregate cargo from railroad trains; railroad maintenance services, namely, freight and cargo loading and unloading using ballasts at desired locations along the bed of a railroad track using remote controlled gates on railroad ballast cars; material handling, namely, pick-up and transportation of excavation debris from railroad maintenance sites, the foregoing performed with an excavator and a series of endless gondola rail cars without bulkheads.

Class 42

(4) Railroad track inspection services, namely, providing 3D scan of railroad ties yielding a condition assessment for the purpose of inspecting railroad and an inspection of the ballast profile of a track bed using light detection and ranging technology, videography, and a wheel encoder; quality management services, namely, quality evaluation and analysis, quality assurance, and quality control, in the field of railroad track measurement, track maintenance and track repair; engineering consultation services in the field of railroad track geotechnics and railroad track maintenance; non-downloadable software as a service (SAAS) services, namely, hosting software for use by others for scheduling, planning, inspecting, reporting, and tracking maintenance and conditions of railroad track; providing temporary use of non-downloadable, web-based software applications is used to view, store, interpret, analyze and access railroad track condition and inspection data; providing information related to scheduling, planning, inspecting, reporting, and tracking maintenance and conditions of railroad tracks for quality control purposes via an online computer database.

The logo for Temple Curls features the brand name in a black, cursive script. The word 'Temple' is in a standard cursive font, while 'Curls' is written in a more fluid, flowing cursive. The letter 'L' in 'Curls' is stylized to resemble a peach-colored ponytail, with a thin orange line extending from the top of the 'L' to form the tail.

Colour Claim

Colour is claimed as a feature of the trademark. The text color is black and the L in Curls looks like a peach color ponytail (hairstyle).
