Colour Claim

Color is claimed as a feature of the trademark "LockGenics." The colors included in the trademark are: True Blue applied to the part of the logo that resembles the shackle of a lock, symbolizing security, trust, and reliability. Black applied to the letters that identify the logo, representing strength, sophistication, and clarity.

Goods

Class 06

(1) accordion doors of metal; aluminium doors; armored doors of metal; armoured doors of metal; bicycle locks; bicycle locks of metal; bump keys of metal for locksmithing; cabinet door catches of metal; cat doors of metal; chain door guards of metal; cylinder locks of metal; deadbolts of metal; door fasteners of metal; door fittings of metal; door flaps of metal; door frames of metal; door frames of metal for refrigerating rooms; door handles of metal; door hinges of metal; door jambs of metal; door kick plates of metal; door knobs of common metal; door knockers of metal; door latches of metal; door leaves of metal; door locks of metal; door locks of metal, non-electric; door nameplates of metal; door openers of metal, non-electric; door panels; door panels of metal; door runners of metal; door scrapers; door springs of metal, non-electric; door stops of metal; door surrounds of metal; door weather stripping seals made of metal; doors and windows of metal; doors of metal; doors of metal for indoor use; doors of metal for safes; doors of metal for strong boxes; extruded aluminium sections for doors and windows; fire doors of metal; folding doors of metal; foot-operated door openers of metal; frames of metal for sliding doors; garage door rollers of metal; garage doors of metal; handles of metal for doors; hardware nails; hardware springs;

hinge pin door closers of metal; hinges of metal for doors and windows; inner doors of metal; insulated doors of metal; insulating bars made of steel for the thermal insulation of windows and doors; ironwork for doors; key blanks; key cylinders for doors; key cylinders of metal; keys; keys of metal; lock cylinders of metal; locks of metal for doors; metal bump keys for locksmithing; metal chains for keys; metal cylinders for compressed gas or liquids, sold empty; metal door hardware being keys and key cylinders; metal garage doors; metal hardware bolts; metal hardware for luggage; metal hardware for mountaineering equipment; metal hardware for use in descending ropes, namely, belay devices; metal hardware for use in descending ropes, namely, descenders; metal hardware for windows and doors; metal hardware nuts; metal hardware screws; metal hardware, namely, double-end swivels; metal hardware, namely, spacers used in the installation of flooring; metal hardware, namely, springs; metal hinges for windows and doors; metal insect screens for doors; metal key blanks; metal keys for locks; metal locks for doors; metal nameplates and door nameplates; metal padlocks; metal patio doors; metal runners for sliding doors; metal safety doors; metal screen doors; metal sliding doors; metallic armoured doors; metallic doors for strong boxes; metallic doors for strongboxes; metallic doors, windows, shutters and slatted shutters; metallic doors, windows, shutters, slatted shutters; metallic fire doors; metallic frames for sliding doors; metallic letter combination locks in the shape of a cylinder; non-electric door chimes; non-electric door closers of metal; non-electric metal door bells; non-electric metal door closers; outer doors of metal; padlocks; padlocks of metal; padlocks of metal, other than electronic; patio doors of metal; pet doors of metal; prefabricated aluminum ventilating ducts for installation in residential and commercial garage doors; profile steel for doors and windows; profiled slab doors of metal; revolving doors of metal; roller doors of metal; runners of metal for doors; runners of metal for sliding doors; safety doors of metal; screen doors of metal; security lock cylinders of metal; sliding doors of metal; split rings of common metal for keys; spring-loaded door closers of metal; swing doors of metal; washers being metal hardware; washers of metal for hardware

Class 07

(2) automatic door openers; door closers, electric; door closers, hydraulic; door closers, pneumatic; door openers, electric; door openers, hydraulic; door openers, pneumatic; drives for elevator cabin doors; electric door closer; electric door openers; electric garage door openers and closers; electromechanical drive devices for opening and closing vehicle doors; electronic door closing systems; electropneumatic drive devices for opening and closing vehicle doors; elevator doors; hydraulic cylinders; hydraulic door closers; hydraulic door openers; key cutting machines; key making machines; lift doors; motorized door locks; pneumatic door closers; pneumatic door openers; pneumatic door openers and closers; rolling mill cylinders; shock absorbing cylinders being parts of machines

Class 08

(3) door openers being hand-operated forcible entry tools; hand tools for avoiding skin contact with surfaces in the nature of small, hooked devices for opening doors, pressing buttons, and touching other surfaces

Class 09

(4) biometric locks; digital door lock; digital padlocks; electronic devices for reading, encoding and programming transponder keys; electronic key fobs being remote control apparatus; electronic keys for automobiles; electronic keys for vehicles; encoded key cards; encoded key cards, namely, encoded identity cards, identification cards with embedded chips, identification smart cards; fingerprint padlocks; hotel room key smart card; lock out and tagout safety devices and locks, namely, lockout padlocks; magnetically encoded hotel room key cards; magnetically encoded key cards; padlocks, electronic; USB computer access control key; USB computer security key; USB

web keys; USB web keys for automatically launching pre-programmed website URLs; wireless devices being electronic peer-to-peer key finders

Class 14

(5) decorative key fobs made of metal; decorative key rings; decorative key rings and chains of metal; fancy key chains of precious metal; fancy key rings; fancy key rings of precious metal; key chain tags; key chain tags of plastic; key chains; key chains for use as jewellery; key chains for use as jewelry; key chains of common metal; key chains of imitation leather; key chains of leather; key chains of metal; key chains of plastic; key chains of precious metal; key chains with trinkets or decorative fobs; key fobs made of common metal; key fobs made of imitation leather; key fobs made of leather; key fobs made of metal; key fobs of common metal; key fobs of imitation leather; key fobs of leather; key fobs of precious metal; key rings; key rings of common metal; key rings of imitation leather; key rings of leather; key rings of metal; key rings of plastic; key rings of precious metal; key rings with trinkets or decorative fobs; key tags; key tags of plastic; lanyards for holding badges of precious metal and keys; lanyards for holding keys; lanyards for keys; leather key chains; leather key fobs; leather key rings; metal key chains; metal key fobs; metal key rings; necklaces, rings, bracelets, pendants, tie pins, tie clips, clocks and watches, key rings; plastic key chain tags; plastic key tags; promotional key chains; retractable key chains; retractable key rings; split rings of precious metal for keys

Class 15

(6) drum keys for tuning drums

Class 18

(7) cases for keys

Class 20

(8) bicycle locks, not of metal; key cabinets; key hooks; key racks; keyboards for hanging keys; padlocks, not of metal, other than electronic; plastic key cards, not encoded and not magnetic; plastic keys; split rings of plastic for keys; split rings, not of metal, for keys

Class 07

(1) Robots, namely industrial robots, collaborative industrial robots (cobots), automatic production machines being industrial robots and automatic machine tools being industrial robots for industrial automation for use in automated warehouses; structural parts and replacement parts for industrial robots, namely, robot modules, namely axis modules, joint modules, distributor modules, toothed belt modules for robots, namely, modular industrial robots, industrial robots, collaborative industrial robots (cobots), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots for industrial automation for assembly installations, manufacturing equipment, packing systems, material handling systems and material transport systems; stands, namely, robot stands specially adapted for holding industrial robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobots), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots for industrial automation for assembly installations, manufacturing equipment, packing systems, material handling systems and material transport systems; end-effectors, namely, end attachments for use on robotic arms for use with robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobots), automatic production machines being industrial robots and automatic machine tools being industrial robots, structural parts and replacement parts for industrial robots, namely, end effectors; motors, in particular servomotors, DC motors, stepper motors, torque motors for robots, namely modular robots, industrial robots, collaborative robots (cobots), automatic production machines and automatic machine tools; drive mechanisms, namely, electrical drives for machines, electric motors for machines, electromagnetic motor drive for positioning movers; gears, in particular planetary gears, harmonic drives and cycloids for robots, namely modular robots, industrial robots, collaborative robots (cobots), automatic production machines and automatic machine tools; connecting elements being rods for robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobots), automatic production machines being industrial robots and automatic machine tools being industrial robots.

Class 09

(2) Electrical and electronic devices, apparatus and instruments, namely control modules being control panels, control devices and integrated electrical control systems, namely, electronic controllers for industrial robots and component parts therefor, manipulators for the remote operation of industrial robots, robotic teach pendants, computers, laptops, tablets, smart phones and programmable logic controllers (PLC) devices which can be connected directly and remotely to industrial robots, terminal modules with integrated electronics, namely electrical terminal blocks, safety modules being video monitors and contacting modules with solenoid-controlled valves, in particular solenoid directional control valves, for robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobots), automatic production machines being industrial robots and automatic machine tools being industrial robots; electrical control operating panels, namely, personal computer module being an all-in-one panel personal computer, key modules being a USB computer security key, teaching modules being downloadable digital content in the form of electronic publications of handbooks for for operating and controlling robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobot), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots; electronic voltage monitor modules, connector modules being electrical connectors for junction boxes, supply modules being computer power supplies and output modules being voltage surge suppressors for supplying and outputting supply voltages and for communication of robots, namely, modular industrial robots, industrial robots, collaborative industrial robots (cobot), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots; electrical, electronic and optical connection elements, namely transmitter modules being transmitters of electronic signals and receiver modules being optical receivers for robots, namely, modular industrial robots, industrial robots, collaborative industrial robots (cobot), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots; data cables, electric cables for robots, namely modular robots, industrial robots, collaborative robots (cobot), automatic manufacturing machines and automatic machine tools; downloadable software for controlling, programming, manufacturing, processing, transporting and assembling robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobot), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots for industrial automation for assembly installations, manufacturing equipment, packing systems, material handling systems and material transport systems; downloadable software for use in relation to running cloud computing based applications and data storage, namely, for the electronic storage of business data in the cloud in the fields of business process automation and business data automation; cameras with image sensors for robots, namely modular robots, industrial robots, collaborative robots (cobot), automatic manufacturing machines and automatic machine tools; electronic sensors for robots, robot parts and accessories, in particular electronic sensors for measuring distance, position, torque and proximity; display units with LCD monitors for attachment to robots, namely modular robots, industrial robots, collaborative robots (cobot), automatic manufacturing machines and automatic machine tools.

Services

Class 42

Installation, repair and maintenance of computer software in the field of robotics; development of computer software in the field of robotics; provision of virtual computer systems in the field of robotics through cloud computing; programming of operating software in the field of robotics to access and use cloud computing networks; Software as a Service [SaaS] featuring software for the control, programming, manufacturing, processing, transport and assembly of industrial robots and rental of software for the control, programming, manufacturing, processing, transport and assembly of industrial robots, robot parts, accessories and robot arm modules; Platform as a

Service [PaaS] featuring computer software platforms for the transmission of voice, data, image, sound, video and information for the control, programming, manufacturing, processing, transport and assembly of robots, robot parts and accessories for industrial automation for assembly installations, manufacturing equipment, packing systems, material handling systems and material transport systems; Infrastructure as a Service [IaaS], namely, hosting servers for use by others in the field of robotics; computer software programming and updating of virtual environments, namely, for the configuration of robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobot), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots; design and development of electrical, electronic and optical components, namely, electric connectors, sensors and optical sensors to detect the presence of products on assembly lines for industrial automation for robots, namely modular industrial robots, industrial robots, collaborative industrial robots (cobot), automatic manufacturing machines being industrial robots and automatic machine tools being industrial robots.

Trademark Description

The trademark consists of the word IMMERGAS written in fantasy block capitals with 3d shading; next to the wording, there is drawn a circular shape consisting of two circles arranged eccentrically, the smaller one surrounding the stylized image of a flame.

Goods

Class 09

(1) Anti-theft alarms, other than for vehicles; smoke detectors; sensors namely, temperature sensors, timing sensors, and optical sensors; diagnostic instruments namely, diagnostic apparatus for the detection of pathogens for laboratory or research use; signalling and alarm instruments namely, surveying instruments namely, signalling whistles, signalling buoys, and burglar and fire alarms; electricity generating apparatus utilising solar power namely, solar cells, solar energy collectors, and solar panels for the production of energy; solar panels; solar roof tiles and panels; solar energy apparatus, electric and electronic namely, radios and telephones; sensors, electronic, for measuring solar radiation; photovoltaic solar modules; photovoltaic cells; photovoltaic roof elements; photovoltaic covering panels; photovoltaic hybrid solar-thermal modules; solar batteries; solar battery chargers.

Class 11

(2) Apparatus and installations for heating, steam generating, cooking, refrigerating, drying, ventilating, water supply and sanitary purposes, namely, electric space heaters, steam generators, cooking stoves, refrigerators, clothes dryers, ventilating, high-velocity fixed exhaust fans for commercial use; safety accessories for water and gas apparatus and water and gas pipes namely, flashback arrestors and reverse flow check valves; solar energy powered heaters for residential and commercial buildings; solar energy water heater; solar powered torches; solar energy lamps; solar heating panels; heating elements; heat pumps; heating boilers and parts therefor namely, boiler pipes for heating installations.

Services

Class 37

Installation and repair of boilers and heating apparatus namely, heating equipment, heating elements, heating systems, heat pumps, and heating installations; installation and repair of solar installations for generating power and photovoltaic installations.

Class 09

Apparatus and instruments for weighing, measuring, signaling, checking, lifesaving and teaching, namely, emergency signal transmitters, cables for optical signal transmission, signal amplifiers, lifesaving capsules for natural disasters, custom designed teaching robots for use in user-defined fields, measuring apparatus, namely, video digitizers, angle finders and laser distance meters for manufacturing processes, product functionality and life cycle assessments; testing apparatus for checking electronic devices and electronic equipment and the quality thereof namely probes for testing integrated circuits, calibrating devices for testing the calibration of computer components; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely electric current control devices; optical, electronic and magnetic data media in the nature of blank digital audio discs, blank digital versatile discs, blank secure digital (SD) memory cards, blank tapes for storage of computer data, blank optical discs, blank magnetic discs; phonograph records; computer hardware and peripheral devices thereto; downloadable and recorded computer software, namely, software for operating probes for testing integrated circuits and computer operating software for operating database servers; electronic publications in the nature of downloadable publications and publications recorded on computer media, namely, manuals featuring descriptions of electronic products and electronic components; apparatus, instruments and cables for electricity, namely, electromechanical relays, electromechanical controls for motors and engines, electric wires, electric connectors, circuit breakers, electric cables, electrical contactors, electric current switches, photoelectric sensors, alarms in the nature of proximity and pressure alarm sensors and burglar alarm monitoring systems, electronic control systems for engines and machines for use in transportation, namely, trains, vessels and special purpose vehicles, solar cells, pump control systems in the nature of controlled volume pumps for use in renewable energy, infrastructure, clean technology, transportation, construction and pharmaceutical industries; electrical circuits and circuit boards, including printed circuit boards and parts and accessories for the aforesaid; navigation, guidance, tracking, targeting and map making devices, namely, car navigation computers, satellite navigation systems, instrument landing system for aircrafts, automatic solar tracking sensors, vehicle mounted GPS sensor for tracking

vehicle journeys, downloadable electronic maps, downloadable electronic geophysical maps, downloadable electronic road maps, and global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; electrical and electronic components, namely, microchips, electrical microcontrollers, electrical contactors, electric wires, circuit breakers, electric connectors, electromechanical relays, electromechanical controls for motors and engines, electric wires, electric cables, electric current switches, electric resistors, capacitors, electrical inductors, transistors, electrical circuits, Insulated-gate bipolar transistor; electronic computer components and parts therefor, namely structural replacement parts of computers; electrical cables and wires and parts therefor.

Services

Class 40

(1) Treatment and processing of materials and articles, namely machining parts for others; customized manufacturing and assembly, namely custom assembling of materials for others; customized production and assembly of electronic products and components; assembly of products for others, including assembly of cables; custom manufacture of cables; shaping of metal components; custom manufacture of molded components; custom manufacture of electronic and electromechanical components; treatment and coating of metal surfaces; welding services; millworking; metal pressing; metal stamping; treatment and processing of materials, namely recycling and waste treatment, including treatment of hazardous waste; advice and information relating to the aforesaid.

Class 42

(2) Design and development of computer hardware and software; industrial design; engineering services, namely in relation to electronics manufacturing services (EMS) for electrical components; research and development of new products for others; consultancy and advisory services relating to the development and design of products based on electronics, including electronic components; design services, including design of electrical circuit boards and design of electronic products and components as well as parts and accessories for the aforesaid; product development; technical consultancy relating to product development; custom design of prototypes, namely in relation to electronic and electrical components; design and testing for new product development; development, updating and maintenance of software and database systems; advice and information relating to the aforesaid; none of the aforesaid services in relation to new and existing products for providing financial services as brokerage and organization of trading of shares, bonds and other financial instruments and commodities.

Colour Claim

Colour is claimed as a feature of the trademark. The colours dark green, light green, and dark blue are claimed as a feature of the mark. The upper portion of the chevron design is in light green (PANTONE* 334C), the lower portion of the chevron design is dark green (PANTONE* 336C), and the letters GPV are in dark blue (PANTONE* 546C). *PANTONE is a registered trademark.

Goods

Class 09

Apparatus and instruments for weighing, measuring, signaling, checking, lifesaving and teaching, namely, emergency signal transmitters, cables for optical signal transmission, signal amplifiers, lifesaving capsules for natural disasters, custom designed teaching robots for use in user-defined fields, measuring apparatus, namely, video digitizers, angle finders and laser distance meters for manufacturing processes, product functionality and life cycle assessments; testing apparatus for checking electronic devices and electronic equipment and the quality thereof namely probes for testing integrated circuits, calibrating devices for testing the calibration of computer components; apparatus and instruments for conducting, switching, transforming, accumulating, regulating or controlling electricity, namely electric current control devices; optical, electronic and magnetic data media in the nature of blank digital audio discs, blank digital versatile discs, blank secure digital (SD) memory cards, blank tapes for storage of computer data, blank optical discs, blank magnetic discs; phonograph records; computer hardware and peripheral devices thereto; downloadable and recorded computer software, namely, software for operating probes for testing integrated circuits and computer operating software for operating database servers; electronic publications in the nature of downloadable publications and publications recorded on computer media, namely, manuals featuring descriptions of electronic products and electronic components; apparatus, instruments and cables for electricity, namely, electromechanical relays, electromechanical

controls for motors and engines, electric wires, electric connectors, circuit breakers, electric cables, electrical contactors, electric current switches, photoelectric sensors, alarms in the nature of proximity and pressure alarm sensors and burglar alarm monitoring systems, electronic control systems for engines and machines for use in transportation, namely, trains, vessels and special purpose vehicles, solar cells, pump control systems in the nature of controlled volume pumps for use in renewable energy, infrastructure, clean technology, transportation, construction and pharmaceutical industries; electrical circuits and circuit boards, including printed circuit boards and parts and accessories for the aforesaid; navigation, guidance, tracking, targeting and map making devices, namely, car navigation computers, satellite navigation systems, instrument landing system for aircrafts, automatic solar tracking sensors, vehicle mounted GPS sensor for tracking vehicle journeys, downloadable electronic maps, downloadable electronic geophysical maps, downloadable electronic road maps, and global positioning system (GPS) consisting of computers, computer software, transmitters, receivers and network interface devices; electrical and electronic components, namely, microchips, electrical microcontrollers, electrical contactors, electric wires, circuit breakers, electric connectors, electromechanical relays, electromechanical controls for motors and engines, electric wires, electric cables, electric current switches, electric resistors, capacitors, electrical inductors, transistors, electrical circuits, Insulated-gate bipolar transistor; electronic computer components and parts therefor, namely structural replacement parts of computers; electrical cables and wires and parts therefor.

Services

Class 40

(1) Treatment and processing of materials and articles, namely machining parts for others; customized manufacturing and assembly, namely custom assembling of materials for others; customized production and assembly of electronic products and components; assembly of products for others, including assembly of cables; custom manufacture of cables; shaping of metal components; custom manufacture of molded components; custom manufacture of electronic and electromechanical components; treatment and coating of metal surfaces; welding services; millworking; metal pressing; metal stamping; treatment and processing of materials, namely recycling and waste treatment, including treatment of hazardous waste; advice and information relating to the aforesaid.

Class 42

(2) Design and development of computer hardware and software; industrial design; engineering services, namely in relation to electronics manufacturing services (EMS) for electrical components; research and development of new products for others; consultancy and advisory services relating to the development and design of products based on electronics, including electronic components; design services, including design of electrical circuit boards and design of electronic products and components as well as parts and accessories for the aforesaid; product development; technical consultancy relating to product development; custom design of prototypes, namely in relation to electronic and electrical components; design and testing for new product development; development, updating and maintenance of software and database systems; advice and information relating to the aforesaid; none of the aforesaid services in relation to new and existing products for providing financial services as brokerage and organization of trading of shares, bonds and other financial instruments and commodities.

Downloadable software for use in data analytics, data analysis, data manipulation, data extraction, data management, and data visualization for businesses operating in the fields of banking and capital investments, business management and marketing, health and life sciences, insurance, manufacturing and logistics management, retail store services, information technology, entertainment media, telecommunications, and public utilities services; downloadable software for processing, evaluating, analyzing, and compiling business data for businesses operating in the fields of banking and capital investments, business management and marketing, health and life sciences, insurance, manufacturing and logistics management, retail store services, information technology, entertainment media, telecommunications, and public utilities services; downloadable software for use in business information management, business administration, business auditing, automation of business operations and processes for enterprises, business research, analyzing business process data for business management intelligence used to automate and improve business processes, business risk analysis to identify and mitigate business risks, analyzing the productivity of employees, tracking the status of business projects, business client relationship management, quality control testing of the user's business products, managing revenue cycle management (RCM), workflows and utilization management (UM) workflows, business customer experience management by gathering customer data and offering insights into customer preferences and behavior, analyzing the performance of businesses and customer satisfaction, business management advisory and business outsourcing in the field of analytics, and managing content extraction tools for PDF scraping, database querying, document parsing, and optical character recognition; downloadable computer software for database monitoring, quality control, and management; downloadable software for use in pricing, issuing, underwriting, administering, and maintaining insurance policies and annuities; downloadable software for processing subrogation claims, administering and processing life and health insurance products, administering and managing health care plans and payments, submitting and exchanging medical requests and authorizations, and performing administrative and care-planning functions for managed care and health care; downloadable software that allows computer users to submit and exchange medical

and insurance claim requests, medical and insurance claim inquiries, and messages via the internet; downloadable software that allows for the calculating of industry indicators for defined populations; downloadable software for digital transformation, namely, developing and implementing digital technologies in the nature of Artificial Intelligence (AI), machine learning, natural language processing, cloud engineering, advanced automation and analytics software for use in the field of business data analytics; downloadable software for speech recognition; downloadable software for object oriented programming; downloadable software for logic programming, word processing, and database monitoring, quality control, and management; downloadable software for use in controlling the operation of computer hardware, computer software, computer systems, computer programs, and computer networks in the field of business data analytics; downloadable software for use in connecting disparate computer networks and systems, servers and storage devices; downloadable computer software platform for centralized information sharing, namely software that integrates all of the user's information into a single, sharable source, namely, databases and data warehouses; downloadable software for use in financial data attestation, retail and commercial credit risk modeling and monitoring, regulatory compliance in the field of banking, fraud monitoring and fraud system augmentation, and management of credit application approvals, credit line decisions, and rewards provisioning

Services

Class 35

(1) Business management services; development of business management systems for others; business management consulting and advisory services; business consultation in the field of business statistical analysis and reporting; business risk management consultation; business managed care services, namely, health care utilization review and health care pre-certification services; management of health care clinics for others; business risk assessment services; outsource service provider in the field of business analytics, namely outsourcing services in the field of business analytics; business consulting and data processing services, namely, electronic reporting of business data information; business auditing; business project management services; business information management; business information services and data ingestion services, namely, business data processing services, business data analysis and business data compilation for businesses operating in the fields of banking and capital investments, business management and marketing, health and life sciences, insurance, manufacturing and logistics management, retail store services, information technology, entertainment media, telecommunications, and public utilities services; information services relating to business matters, namely provision of business management information; business research; data processing services, namely computer database management, statistical analysis and reporting services for business purposes, and computerized file management; business data analysis for the compilation of Big data for use in machine learning; business data analysis in the field of website analytics and website traffic; business data analysis in the field of financial investments; business management services relating to business data analyzing and compiling; systemization of data in computer databases; business data management services, namely, information and data compiling and analyzing relating to business management; operational business assistance to enterprises; business billing support services in the field of insurance; business management support services, namely, review of business data for analysis purposes, assessment of business risk, and business advisory services regarding regulatory compliance, engagement, collaboration, market and marketing, sales force and sales acquisition, and program implementation for business purposes; business data verification, namely, business record-keeping for regulatory compliance; data services, namely, analyzing business data to assess how to improve or optimize advertising, marketing, and sales processes; marketing analysis services; providing marketing strategies for businesses; accounting

services; operation of business for others, namely, operation as a third-party administrator for insurance providers

Class 36

(2) Financial analysis consulting; financial data analysis; financial risk management consultation; property and real estate survey, valuation, and appraisal services; property underwriting services; financial services, namely, tracking, management, processing, and synchronization of financial, debt, collections, and receivables data and information; collection and analysis of financial data; financial analysis and management; administration of medical insurance claims and employee benefit plans; insurance claim evaluation and analysis services; insurance services, namely, underwriting, issuing and administration of life insurance, annuities, health insurance, and property and casualty insurance; claims administration services in the field of life insurance and annuities, health insurance, and property and casualty insurance; evaluation of credit bureau data

Class 42

(3) Data mining services, namely, data automation and collection service using proprietary software to evaluate, analyze and collect service data for the purposes of annotating, transcribing, validating, and improving data to optimize the accuracy of information; providing online non-downloadable software for use in data analytics, data analysis, data manipulation, data extraction, data management, and data visualization for businesses operating in the fields of banking and capital investments, business management and marketing, health and life sciences, insurance, manufacturing and logistics management, retail store services, information technology, entertainment media, telecommunications, and public utilities services; providing online non-downloadable software for processing, evaluating, analyzing, and compiling business data for businesses operating in the fields of banking and capital investments, business management and marketing, health and life sciences, insurance, manufacturing and logistics management, retail store services, information technology, entertainment media, telecommunications, and public utilities services; providing online non-downloadable software for business information management, business administration, business auditing, automation of business operations and processes for enterprises, business research, analyzing business process data for business management intelligence used to automate and improve business processes, business risk analysis to identify and mitigate business risks, analyzing the productivity of employees, tracking the status of business projects, business client relationship management, quality control testing of the user's business products, managing revenue cycle management (RCM) workflows and utilization management (UM) workflows, business customer experience management by gathering customer data and offering insights into customer preferences and behavior, analyzing the performance of businesses and customer satisfaction, business management advisory and business outsourcing in the field of analytics, and managing content extraction tools for PDF scraping, database querying, document parsing, and optical character recognition; providing online non-downloadable software for database monitoring, quality control, and management; providing online non-downloadable software for use in pricing, issuing, underwriting, administering, and maintaining insurance policies and annuities; providing online non-downloadable software for processing subrogation claims, administering and processing life and health insurance products, administering and managing health care plans and payments, submitting and exchanging medical requests and authorizations, and performing administrative and care-planning functions for managed care and health care; providing online non-downloadable software that allows users to submit and exchange medical and insurance claim requests, medical and insurance claim inquiries, and messages; providing online non-downloadable software that allows for the calculating of insurance, health, banking, financial, retail, transportation and logistics, and utilities industry indicators for defined populations; providing online non-downloadable software for digital

transformation, namely, developing and implementing digital technologies in the nature of Artificial Intelligence (AI), machine learning, natural language processing, cloud engineering, advanced automation and analytics software for use in the field of business data analytics; providing online non-downloadable computer software for speech recognition; providing online non-downloadable software for object oriented logic programming; providing online non-downloadable software for logic programming, word processing, and database monitoring, quality control, and management; providing online non-downloadable software for use in controlling the operation of computer hardware, computer software, computer systems, computer programs, and computer networks in the field of business data analytics; providing online non-downloadable software for use in connecting disparate computer networks and systems, servers and storage devices; providing online non-downloadable computer software for centralized information sharing, namely software that integrates all of the user's information into a single, sharable source, namely, databases and data warehouses; providing online non-downloadable software for use in financial data attestation, retail and commercial credit risk modeling and monitoring, regulatory compliance in the field of banking, fraud monitoring and fraud system augmentation, and management of credit application approvals, credit line decisions, and rewards provisioning; providing online non-downloadable software to facilitate team and employee collaboration and communication, via social media, and intra-team communications; providing online non-downloadable computer software workforce planning platforms for management and diagnosis of physical, mental and behavioral health and social well-being via a workforce planning platform; providing online non-downloadable software to assess and report on computer software controls and policies for third party businesses for regulatory compliance and data governance, for cybersecurity, for providing vendor financial due diligence reports, and for data security risk assessment and mitigation; information technology consulting services relating to computer software and information technology architecture and infrastructure; information technology analysis services, namely, computer security threat analysis for protecting data; information technology advisory and information services relating to computer software and information technology architecture and infrastructure; technical support services, namely, troubleshooting of computer software problems; computer technology support services, namely, help desk services; computer software consultancy, computer security consultancy, computer technology consultancy; computer programming for others; design, development, programming, maintenance, customizing computer software and operation of computer software and computer databases for third parties; cloud services, namely, providing virtual computer systems and virtual computer environments through cloud computing; computer services for others, namely, software programming, design, development, update, and maintenance; computer services, namely, remote and onsite management for technical support of the information technology systems relating to the computer software and information technology architecture and infrastructure of others; providing a web hosting platform for end customers' computing infrastructure; outsource service providers in the field of information technology, namely computer software and hardware technical support services and troubleshooting in the nature of diagnosing computer hardware and software problems and finding a resolution; development of customized software for others for use in business management; personal property and real estate surveying

(1) Software for use in calculating, transferring and storing data relating to the diagnosis and treatment of eye disorders; software for smartphones for inducing ocular light stimulation for treating eye disorders; virtual reality software for inducing ocular light stimulation for treating eye disorders; virtual reality headsets.

Class 10

(2) Medical apparatus for diagnosing and treating eye disorders, namely, eye testing machines to be used in connection with smartphones, mobile computers, tablet computers and virtual reality headsets; medical light stimulating apparatus for diagnosing and treating eye disorders; virtual reality headsets for medical use for diagnosing and treating eye disorders; headsets for diagnosing and treating eye disorders; light sources for medical use, namely, for inducing therapeutic light stimulus on the eyes; computer controlled training apparatus for therapeutic use, namely, training apparatus for inducing light stimulus on the eyes.

Services

Class 42

(1) Scientific research regarding prevention and treatment of eye disorders; medical research; providing online non-downloadable software and software as a service (SaaS) featuring software for use in calculating, transferring and storing data relating to the diagnosis and treatment of eye-disorders; on-line provision of non-downloadable software and provision of non-downloadable software over a worldwide computer network, all for use in the calculation, transmission and storage of data relating to the diagnosis and treatment of eye diseases.

Class 44

(2) Medical services for diagnosing and treating eye disorders; therapy services for treating the eyes with computer-induced light stimulus; online therapy services for treating the eyes with computer-induced light stimulus.

Goods

Class 01

(1) Alginates for the food industry; alginates for industrial purposes; alginates for use in chemicals; alginates for use in biopolymers; fertilizing preparations; seaweeds for use as a fertilizer; raw materials in the form of fiber and non-fiber components extracted from macroalgae; active biological ingredients for use in the manufacture of pharmaceuticals.

Class 05

(2) Dietary supplements for human beings and animals, namely alginate dietary supplements for human beings, alginate dietary supplements for animals; alginates for pharmaceutical purposes, namely alginates as a pharmaceutical; nutritional supplements for animal foodstuffs; animal feed supplements for veterinary purposes; mineral nutritional supplements; amino acid preparations for medical purposes; amino acids for veterinary purposes; amino acids for medical purposes.

Services

Class 40

(1) Processing of marine raw materials for use in foodstuffs, pharmaceutical preparations and preparations for agricultural purposes, fertilizers, biopolymers and chemicals, namely treatment of macroalgae and seaweed for the manufacture of pharmaceutical preparations, treatment of macroalgae and seaweed for the manufacture of agricultural fertilizers, treatment of macroalgae and seaweed for the manufacture of foods, pet foods, edible pet treats and dietary supplements for others; processing of macro algae and seaweed; treatment of waste materials, namely environmental remediation services being treatment of waste produced in industry to reclaim usable materials.

Class 42

(2) Product research and development, namely biotechnological research relating to macroalgae and seaweed, development of new technological products for others in the field biotechnology;

consultancy relating to scientific and industrial research in the field of biotechnology; consultancy in the field of quality control testing of microalgae and seaweed; laboratory research and analysis; research in the field of environmental conservation and protection.

Class 01

(1) Starches for industrial purposes, namely corn, potato, and tapioca starch for use in the manufacture of foods and beverages; carbohydrates used as an ingredient in the manufacture of food, beverages, food supplements, and nutraceuticals; raw protein for use in the manufacture of food and beverages; proteins for use in the manufacture for food for human consumption; protein for use in the manufacture of foodstuffs and beverages; starch ingredients and additives for use in the manufacture and preservation of food and beverages, namely, emulsifiers, texturants and stabilisers, and thickening, bulking, binding and gelling agents, all for use in the food and beverage industries; naturally-derived food additives, namely glucose, fructose and dextrose for use in the industrial manufacture of food and beverages; glucose for the food industry; polyols; erythritol; oligosaccharides as additives for use in the manufacture of food and beverages; artificial sweeteners for the food and beverage industry, namely, chemical sweeteners, artificial sweeteners, and low calorie sweeteners, erythritol-based sweeteners; starch for use in the

manufacture of adhesives, paper, packaging materials, laundry washing preparations, cosmetics, personal care preparations, and textiles; corn, potato and tapioca starch for use in the manufacture of building materials; corn, potato and tapioca starch for industrial purposes.

Class 05

(2) Dietary fibre for aiding digestion, alleviating constipation, reducing cholesterol, and assisting with weight management; soluble dietary fibre for aiding digestion, alleviating constipation, reducing cholesterol, and assisting with weight management; dietary fibre supplements for use as ingredients in the manufacture of foodstuffs; dietary fibre for use as an ingredient in the manufacture of dietary supplements; dietary fibre as a food additive; artificial sweeteners adapted for diabetics; artificial sweeteners adapted for medical purposes starch for dietetic purposes; starch for pharmaceutical purposes, namely for promoting general health and well-being; protein supplements, namely, protein preparations for use as additives to foodstuffs for human consumption, for dietetic use; nutritional additives for medical purposes namely for promoting general health and well-being, used in foods and dietary supplements for human consumption.

Class 30

(3) Starch for food; corn starch; tapioca starch; potato starch; locust bean flour for use as a starch for food; chickpea flour; natural sweeteners; sugar; glucose, fructose and dextrose for food.

Class 31

(4) Animal feed for livestock, cattle, poultry, pigs, fish, and pets.

Class 32

(5) Concentrates, powders and syrups for making non-alcoholic fruit-based and fruit-flavoured beverages; concentrates, powders and syrups for making non-alcoholic non-carbonated soft drinks and carbonated beverages; syrups and syrup powder for use in beverages.

Services

Class 42

Scientific research in the field of nutritional science; research relating to foodstuffs, food products, beverages and ingredients for food and beverages; professional advisory services relating to food and beverages technology; information and advisory services relating to selection of ingredients in the food and beverage industries.

Class 01

(1) Reagents for scientific and research use for collection and detection of biomarkers; diagnostic chemical tests and chemical test kits composed of reagents for determination of genomic and transcriptomic information for scientific and research purposes; diagnostic testing kits for medical, scientific, and research use and laboratory assays kits for medical, scientific, and research use in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, lung cancer, breast cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; biological diagnostic reagents for medical, scientific, and research use, laboratory assays kits, enzymes for in vitro use in clinical chemistry, nucleotides for in vitro use in clinical chemistry, chemical buffers solutions, chemical preparations for in vitro use in the clinical chemistry, and biological tissue specimens for medical, scientific, and research use; diagnostic reagents and preparations for medical, scientific, and research use, other than for veterinary use; biological kits comprised of biological reagents for use in fields of biological and diagnostic testing for medical, scientific, and research use; biological tests designed to isolate and extract cells for genetic analysis comprised of reagents for use in fields of biological and diagnostic testing for medical, scientific and research use; active chemical reagents and molecule and cell markers for scientific research purposes for use in fields of biological and diagnostic testing.

Class 05

(2) In vitro diagnostic testing kits comprised of reagents and materials for collecting or detecting medical biomarkers; clinical diagnostic reagents for medical use; molecular diagnostic assays for testing of body fluids and tissues; medical preparations and substances for collecting or detecting biomarkers; diagnostic test reagent kits for medical purposes for detecting biomarkers; medical diagnostic test reagent kits for detecting pathogens for medical purposes; clinical medical diagnostic reagents, medical diagnostic assays for medical and diagnostic purposes for testing genetic material; reagents for use in diagnostic tests for medical purposes; reagents for use in

medical testing for biomarkers; medical diagnostic reagents, and kits comprised of medical diagnostic reagents, collection tubes, buffers, tube holders, transport bags; diagnostic testing kits comprising diagnostic agents, preparations and substances for detecting biomarkers in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, lung cancer, breast cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; genetic tests comprised of reagents designed to isolate and extract cells for genetic analysis for medical diagnostic use.

Class 09

(3) Laboratory diagnostic biomolecule and nucleic acid sequence detection devices for scientific research, diagnostic, and clinical purposes; in vitro diagnostic devices for the detection of pathogens for laboratory and research use; downloadable and recorded computer software for scientific data collection, management, and analysis of genetic sequences for use in the fields of diagnostic and clinical research and for clinical diagnostic purposes; computer hardware and downloadable and recorded computer software for use in data analysis in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; downloadable electronic publications in the nature of articles in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; downloadable personal medical reports in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases.

Class 10

(4) Medical devices, namely, diagnostic biomarker testing apparatus for use in the field of oncology, endocrinology, urology, pulmonology, and mastology; clinical and medical diagnostic biomarker testing instruments for use in the field of endocrinology, urology, pulmonology, and mastology; testing sample collection kits for bodily fluids and tissues; testing medical apparatus and instruments for identification of biomarkers for use in medical diagnosis and in medical treatment.

Services

Class 41

(1) Educational services, namely, providing seminars, workshops, customer trainings and tutorials in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology,

oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; providing online non-downloadable electronic publications in the nature of articles in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; publishing of syndicated research reports via a website in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases.

Class 42

(2) Clinical research in the field of oncology, endocrinology, urology, pulmonology, and mastology; laboratory research in the field of oncology, endocrinology, urology, pulmonology, and mastology; medical research laboratory services; laboratory testing of materials; laboratory testing and reporting services for use in research and development for oncology, cancers, and diseases; scientific and medical research and development services in the field of oncology, endocrinology, urology, pulmonology, and mastology; biomedical research and product development services for others in the field of diagnostic tests, chemicals, compounds and devices; research and development of new diagnostic tests, clinical products, diagnostic agents and assays; nucleic acid sequencing, screening, and analysis services for medical research purposes; genomic and transcriptomic sequencing, screening, and analysis services for medical research purposes; genetic analysis and reporting services for medical research purposes; providing technical diagnostic services for others in the fields of medicine, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; chemical screening analysis and diagnostic services for others; biochemical research and diagnostic analysis services; advisory, consultative and telephone helpline services relating to the use of assays and reagents for use in biochemical analysis and medical diagnostics; scientific information and advisory services in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; providing non-downloadable computer software for medical diagnostics and research; providing non-downloadable software for data collection, management, and analysis of genetic information for use in the fields of diagnostic and clinical research and for clinical diagnostic purposes; providing non-downloadable software for use in data analysis in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast

cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; medical research services.

Class 44

(3) Medical services in the field of oncology, endocrinology, urology, pulmonology, and mastology; medical diagnostic testing services; medical testing for diagnostic or treatment purposes; medical analysis services in the field of oncology, endocrinology, urology, pulmonology, and mastology; medical diagnostic testing services in the fields of oncology, cancer, and diseases; genetic analysis and reporting services for medical diagnostic purposes; medical diagnostic testing, monitoring and reporting services in the fields of diagnostics, medical diagnostics, clinical diagnostics, companion diagnostics, medical treatment, medical research, clinical research, medical laboratory research, laboratory medicine, genetic testing, nucleic acid sequencing, genetics, genotyping, life sciences, biology, oncology, cancers, thyroid cancer, breast cancer, lung cancer, prostate cancer, bladder cancer, kidney cancer, colon cancer, interstitial lung diseases, lymphoma, diseases, infectious diseases, and related diseases; nucleic acid sequencing and analysis services for medical diagnostic and treatment purposes; genomic and transcriptomic sequencing and analysis services for medical diagnostic and treatment purposes; genetic analysis and reporting services for medical diagnostic and treatment purposes.

Trademark Description

The mark consists of a futuristic owl face representing camera vision and data recording of different ADAS sensors, like LiDAR, RADAR capability.

Goods

Class 09

Computer hardware; computer hardware for autonomous, self-driving and driverless vehicles; lidar; lidar apparatus; radar object detector for use on vehicles; downloadable software and electronic instruments, namely, computer hardware, downloadable software, cameras, sensors, radars, scanners, displays, connectors and transmitters for vehicle performance testing, recording, and analysis; safety and driving assistance system for vehicles comprised of electronic proximity sensors and switches, high resolution cameras, integrated circuits for the purpose of imaging processing, and display monitors; sensors, actuators and controllers for advanced and automated driver assistance systems; downloadable software for collecting and analyzing data from sensors for autonomous vehicles; downloadable computer software for use in object detection, image recognition, and motion tracking in video and photographic surveillance systems; downloadable

software for measuring, recording and transmitting vehicle and driver data; downloadable software platforms for gathering data, mapping the area around a vehicle, gathering driving conditions and driver actions, and creating a database; downloadable software platforms for optical sensors for obstacle detection, mapping, navigation of autonomous vehicles; integrated circuits for the purpose of imaging processing, and display monitors; electronic sensors for perception, navigation, manipulation and control of vehicles; electronic sensors for optical character recognition; electronic sensors for driver-assisted vehicle monitoring, positioning, tracking, steering, and control; electronic sensors for vehicle subsystem monitoring and control, object detection, lane detection, semantic segmentation for vehicle control, multi-object tracking, decision-making for vehicle control, navigation and mapping generation, facial analysis, and image recognition; downloadable software featuring artificial intelligence algorithms and computer hardware that control the movement and operation of vehicles, manipulators for the control of vehicles, and sensors; downloadable application programming interface (api) for use in building software applications for autonomous vehicles; downloadable application programming interface (api) for use in building software applications for autonomous vehicles monitoring, positioning, tracking, steering, and control; downloadable application programming interface (API) for use in building software applications for autonomous vehicle subsystem monitoring and control, object detection, lane detection, semantic segmentation for vehicle control, multi-object tracking, decision-making for vehicle control, navigation and mapping generation, facial analysis, and image recognition; downloadable software for use in driver assistance, vehicle operation and vehicle-to-vehicle communication of vehicle operation and status information; computer hardware for development, deployment, operation, management, simulation, navigation and control of autonomous, self-driving and driverless vehicles; downloadable software for vehicle navigation; software for processing images, graphics and text; downloadable computer software platforms for three-dimensional range sensing for running computer software for processing and analyzing three-dimensional data captured by visual sensors installed in vehicles; simulators for the steering and control of vehicles; downloadable mobile application software that enable secure communication between vehicles; downloadable software for connecting, operating, and managing autonomous vehicles; self-driving and autonomous vehicle electronic computing platform consisting of software for artificial intelligence, machine learning, deep learning, natural language generation, statistical learning, supervised learning; downloadable software development kit (sdk) and downloadable software featuring algorithms for developers to train and test autonomous machines; downloadable software for safety and driving assistance system for vehicles comprised of electronic proximity sensors and switches; downloadable computer software for use in data analytics, machine learning, and artificial intelligence, namely, computer software using neural network algorithms for analyzing data, making predictions, and automating decision-making processes; downloadable software for automotive technology comprised of artificial intelligence and systems for autonomous navigation of vehicles; downloadable software for autonomous control of vehicles and assisted driving; downloadable software for development of machine learning and deep learning algorithms, pattern recognition, and modeling technologies for autonomous vehicles; downloadable computer software for processing images and signals using digital machine perception technology; downloadable software for training and deploying machine learning and machine perception models; downloadable software for developing and implementing artificial intelligence (ai) applications; artificial intelligence (ai) software for driver-assisted vehicle monitoring, positioning, tracking, steering, and control; downloadable artificial intelligence (ai) software for autonomous vehicle monitoring, positioning, tracking, steering, and control; downloadable artificial intelligence (ai) software for vehicle subsystem monitoring and control, object detection, lane detection, semantic segmentation for vehicle control, multi-object tracking, decision-making for vehicle control, navigation and mapping generation, facial analysis, and image recognition; downloadable

artificial intelligence (ai) software and accelerator computer hardware for visual recognition of objects and lanes; downloadable artificial intelligence (ai) software for the autonomous driving of vehicles, autonomous navigation, autonomous control of vehicles and assisted driving; downloadable software featuring artificial intelligence algorithms for perception, navigation, manipulation and control of autonomous vehicle and virtual simulation environments; downloadable software for automotive technology, namely, software comprised of artificial intelligence and systems for autonomous navigation of motor vehicles.

Services

Class 35

(1) Updating and maintenance of data in electronic computer databases for others, namely, data related to vehicle operations, diagnostics, and performance; analyzing and collecting data for measuring the performance of artificial intelligence and machine learning computer software for use in vehicles; analyzing and collecting data for measuring the accuracy of calibrating devices and coordinate-measuring machines for use in vehicles.

Class 42

(2) Design and development of computer hardware; software and hardware development and product development consulting in the field of autonomous, self-driving and driverless vehicles; development of computer hardware for autonomous, self-driving and driverless vehicles; development of computer hardware for development, deployment, operation, management, simulation, navigation and control of autonomous, self-driving and driverless vehicles; research and development of computer software in the field of vehicle automation, monitoring, and control; vehicle roadworthiness testing; development, installation, consultancy, and maintenance of computer software and systems for the monitoring and control of autonomous, self-driving, driverless, and driver-assisted vehicles; research and design in the field of autonomous vehicles, namely, product research, mechanical research, and design services, namely, design of autonomous vehicles; design and development of computer hardware and software in the fields of self-driving and autonomous land vehicle electronic computing platforms and systems; design and development of computer software for vehicle simulation; design and development of software for fine-tuning, development, diagnostics for vehicles, calibration, configuration and diagnostics of electronic systems; research and design in the field of vehicle technology, vehicle simulation and vehicle testing; software consulting and development for others in the fields of signal processing; providing online non-downloadable software for autonomous vehicle simulation; designing and developing artificial intelligence software, deep learning software, machine learning software and deep neural networks software; software as a service (saas) featuring software for developing and supporting vehicle automation; software as a service (SaaS) featuring computer software for providing interactive maps, GPS navigation services, route planning and location tracking; providing online non-downloadable software featuring technology enabling users to view and interact with automobiles and automotive content, namely, videos, graphics and information; hosting web sites that allow users to access status information of motor vehicle operating systems; providing online non-downloadable software that enables users to view and analyze vehicle generated data, user identifiable data, and aggregated anonymized data for use in autonomous vehicle simulation, analysis and testing via a website; industrial analysis and research services in the field of vehicle technology, vehicle simulations and vehicle test stands; providing online non-downloadable software for others to use for the development of software for self-driving and autonomous land vehicle electronic computing platforms and systems; providing online non-downloadable software for the operation, control, maintenance, and management of land vehicles, self-driving and autonomous vehicles and vehicle components, for vehicle navigation, for travel

and trip planning, for communications and for collecting, tracking, analyzing, and reporting data and information in the field of self-driving and autonomous land vehicles; platform as a service (PaaS) featuring non-downloadable computer software in training computers to predict user behaviour, object detection and recognition, and artificial intelligence applications in vehicles; software as a service (saas) featuring computer software for others to use for the development of software for self-driving and autonomous vehicles electronic computing platforms and systems; software as a service (saas) featuring software in the field of electronic control systems for vehicle; software as a service (saas) featuring software in the field of self-driving and autonomous land vehicle and self-driving and autonomous land vehicle component operation, control, maintenance, management and communication.

CAC METHAFUEL

Trademark Type

Standard Characters

Goods

Class 07

(1) Chemical processing machines namely oil and gas refining, extraction, generating, liquefying, separating and conversion machines and apparatus; coal liquefaction and gasification machines; chemical processing machines for the production of basic chemicals, in particular fuels (including motor fuels), alcohols, gasoline, kerosene, diesel, synthetic fuels, alcohol-based fuels or fuels based on renewable raw materials; industrial chemical reactors for the production of basic chemicals, in particular fuels (including motor fuels), alcohols, gasoline, kerosene, diesel, synthetic fuels, alcohol-based fuels or fuels based on renewable raw materials.

Class 09

(2) Laboratory chemical reactors; scientific apparatus for determining the water content in petroleum products; hydrothermal liquefaction reactor apparatus; anodes for use in water electrolyzers; cathodes for use in water electrolyzers; diaphragm separators for use in water electrolyzers; hydrogen electrolyzers; parts and fittings for hydrogen electrolyzers; specially adapted parts for hydrogen electrolyzers; water electrolyzers; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment for chemical processing; portable proton exchange membrane (PEM) fuel cells; portable proton exchange membrane for hydrogen fuel cells; programmable electronic data acquisition and control apparatus for environmental monitoring, environmental control, energy management, alarm monitoring and alarm event management for the production of basic chemicals, alcohols, kerosene, synthetic kerosene, alcohol-based fuels or fuels based on renewable raw materials; membranes for filtration used for scientific purposes being laboratory filters for use in laboratory equipment for chemical processing; laboratory chemical reactors; gas analyzers for hydrogen generators; gas chromatography apparatus for laboratory use; gas flow monitors; gas mixers for laboratory use; gas sensors; ignition controls for gas-fired equipment; residual gas analyzers; automated fuel cell test stations; electronic conductors for fuel cells; fuel cells; fuel storage cells as structural parts of vehicles; hydrogen fuel cells; hydrogen reactors for generating hydrogen fuel; integrated fuel cell stacks; modules for fuel cell power generation; parts and fittings for fuel cells; power controllers for fuel cells; test stations for fuel cells; distillation columns for laboratory use; separation funnels for

laboratory use; gasifiers for laboratory use; gas mixers for laboratory use; incubators for laboratory use; chemical laboratory apparatus and instruments for oil and gas processing, coal liquefaction and gasification, waste gas purification and desulfurization.

Class 11

(3) Chemical apparatus and instruments for oil and gas processing and waste gas purification and desulfurization namely distillation, drying, purifying and evaporating apparatus; chemical and gas generation plants for industrial purposes for oil and gas processing and waste gas purification and desulfurization; chemical processing equipment namely apparatus and instruments for the production of basic chemicals, in particular fuels, motor fuels, alcohols, gasoline, kerosene, diesel, synthetic fuels, alcohol-based fuels and fuels based on renewable raw materials, namely, fuel processors, hydrogen fuel processors, gas purifiers, hydrogen purifiers, gas purification machines, distillers for chemical processing, steam generators, steam reformers for use in generating hydrogen gas, separators for the cleaning and purification of liquids, heat exchangers for chemical processing, evaporators for chemical processing, hydrogen generation plants for industrial purposes, hydrogen generators, recuperators for chemical processing, filters for waste gas purification, gas liquid separators, gas scrubbers, oil purifying installations, foam fractionators for chemical processing, chillers for industrial process cooling, acetylene generators, liquefaction plants for the natural gas industry, water treatment tanks for industrial use.

Services

Class 37

(1) Construction, maintenance, cleaning and repair of chemical installations and plants, installations and plants for the production of petrol, kerosene, diesel, synthetic fuels, synthetic kerosene, fuels based on alcohol or fuels based on renewable raw materials; installation, repair work, including renovations of chemical plants for optimization of processes in the chemical industry, in particular in terms of improving their economic viability.

Class 42

(2) Construction planning, exterior and interior building design, architectural consultancy services and technical consultancy services for chemical plants, plants for the gas and petroleum industry; preparing of technical expert reports relating to chemical equipment and plants, plants and apparatus for the production of kerosene or synthetic kerosene; chemical process engineering and technical monitoring of production processes in the chemical industry; chemical process engineering and technical monitoring in particular technical consultancy services for the transfer of technical know-how for the manufacture of kerosene or synthetic kerosene; technical inspection of equipment and plants of the chemical industry for the production of kerosene or synthetic kerosene for the purpose of their placing into operation; engineering services in the fields of planning and construction of chemical plants, refineries, as well as the construction of equipment and plants for the production of kerosene or synthetic kerosene, fuels based on alcohol or fuels based on renewable raw materials.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of the stylized wording "BANNO", shaded in a yellow gradient (PANTONE* 1215 C and PANTONE* 7407 C) with a black (PANTONE* Process Black C) outline, with the stylized wording "SULSON" appearing above the upper-right corner of the word "BANNO". A design of a curved bar in a green gradient (PANTONE* 347 C and PANTONE* 7489 C) is shown curving over the word "SULSON", and the letter "O" in the word "SULSON" is replaced by a design of a circle, shaded in a green gradient (PANTONE* 347 C and PANTONE* 7489 C), housing a white diagonal line with two white side-by-side vertical lines placed above it. The letters "SULS" and "N" in the word "SULSON" are in black (PANTONE* Process Black C). *PANTONE is a registered trademark.

Colour Claim

Colour is claimed as a feature of the trademark. The colours dark teal, light teal, dark navy blue, light navy blue, dark salmon and light salmon are claimed as a feature of the mark. The mark consists of eight lines of varying lengths with rounded ends emanating from a single point. The first line appears in dark teal and the second and third lines appear in light teal, the fourth line is dark navy blue and the fifth line is light navy blue, the sixth and seventh lines are in dark salmon and the eighth line is in light salmon. The first line has an overlapping dot at the end in light teal. The second, third, fourth and eighth lines each have a dot at the end separated by a space in the same color as the line except for the dot at the end of the eighth line which is in dark salmon.

Colour Claim

Colour is claimed as a feature of the trademark. Blue, white, red, burgundy, grey, green, golden yellow. The mark consists of a blue circle, inside which are two curved red bands. The upper band contains the term BLANCHE in white, each letter of the word BLANCHE having a burgundy shadow at its base. The lower band contains the term BRUXELLES in white, each letter of the word BRUXELLES having a burgundy shadow at its base. The term "White" is grey, and appears to the left in the circle, between the two red bands. The word "Witte", is grey, and appears to the right in the circle between the two red bands. At the centre of the circle is a grey design representing the statue of Manneken-Pis, above a design of light green hops with green leaves, and designs of golden yellow wheat on either side of the green design, with a curved golden yellow line under the designs of wheat. The background of the blue circle is white.

Foreign Character Translation

The French translation provided by the applicant for the words "Bruxelles Witte" is BLANCHE BRUXELLES.

Colour Claim

Colour is claimed as a feature of the trademark. The colour(s) black, yellow, blue, white, red are claimed as a feature of the mark. The mark consists of a black outlined eagle head with a yellow beak which sits in front of a shield outlined in blue. The top quarter of the shield is blue with white stars and the remaining portion of the shield includes vertical red stripes. A red banner is placed horizontally across the shield and extending beyond the shield. The word "HEROES" is white and centered on the banner. The word "CLUB" is blue and centered below the banner on a white background over the vertical red stripes.

NEDFON 绿岛风

Trademark Description

The mark contains the stylized English wording "NEDFON" and on its right side three Chinese characters. The letter "O" of "NEDFON" is formed by two semi-circles arranged in a circle. The non-Latin characters in the mark transliterate to "LU", "DAO" and "FENG", which respectively mean "GREEN", "ISLAND" and "WIND" in English.

Foreign Character Translation

The translation provided by the applicant of the word(s) LU, DAO and FENG is GREEN, ISLAND and WIND.

Foreign Character Transliteration

The transliteration provided by the applicant of the foreign character(s) is LU, DAO and FENG.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of an elliptical design composed of two interlocking, curved shapes. The top shape transitions from green to blue then to yellow, while the bottom shape transitions from blue to green then to yellow, creating a gradient effect. The two shapes overlap in the center, forming an ellipse. The color white represents background and is not claimed as a feature of the mark.

TRADEMARK DETAILS

Trademark Type

Design

Visual Representation

The logo for CHAMPIONX, featuring the word "CHAMPION" in a bold, sans-serif font, followed by a stylized "X" that is composed of two intersecting lines forming a cross shape.

Trademark Description

The mark consists of the word "CHAMPIONX". The top half of the letter "A" is depicted slightly separate from the bottom half. The prongs in the letter X are slightly separated with spacing.

Goods

Class 01

(1) Chemicals and catalysts for use in the oil processing industry, chemical fracturing fluids for use in the oil and gas industry, chemical preparations for controlling oil production and processing of oil, chemicals for the separation of crude oil from various materials including aqueous solutions, chemicals for use in oil drilling, chemicals and catalysts for use in the oil refining industry, petrochemical industry, chemical additives for drilling cement slurry; all of the aforementioned being for use on, or in relation to, oil and gas drills, oil and gas well pumps, oil rigs, and oil and gas pipelines and none of the aforementioned being for use in automobiles, fuel for automobiles, internal combustion engines, or engine oil.

Class 04

(2) Lubricants for use with tools, namely, rods, used in downhole applications in the oil and gas industry, drilling lubricants, all of the aforementioned being for use on, or in relation to oil and gas drills, oil and gas well pumps, oil rigs, and oil and gas pipelines, and none of the aforementioned being for use in automobiles, fuel for automobiles, internal combustion engines, or engine oil.

Class 09

(3) Downloadable and recorded computer software for automation of artificial lift systems, monitoring of artificial lift systems, and control of artificial lift systems for use in the oil and gas industries, network communication devices in the nature of monitoring and predictive diagnostic instrumentation for the oil and gas industries consisting primarily of computer hardware and recorded computer software for monitoring and diagnosing problems with industrial machinery and reciprocating and rotating machinery, electronic apparatus and instruments for controlling

production of oil and gas well installations and for controlling, adjusting and testing of oil and gas well equipment of an artificial lift system, namely, electrical submersible pumps, drives and motors, power cables that provide power to motor extension cords for artificial lift systems used in oil and gas wells, pneumatic and electric liquid level switches, pressure controllers for controlling the pressure of liquid, semi-liquid, and gaseous substances in industrial processes, temperature controllers for controlling the temperature of liquid, semi-liquid, and gaseous substances in industrial processes, electric controllers for an oil and gas producing well and associated recorded software used therewith for enabling control of the oil and gas producing well, electronic sensors for sensing proximity of oil well apparatus being plungers, computer hardware and recorded computer software to send and receive data to monitor and automate single or multi-well oil and gas assets to provide advance alarming, diagnostics, data analysis, performance prediction and control, products for use in oil and gas well deliquification and production optimization, namely, recorded computer firmware, and recorded and downloadable computer software for enabling automation of the operation of oil and gas wells, artificial lift systems, surface facilities, and operation devices at a well site, namely, operations at the wellhead, pumps, and compressors, and other peripheral well site devices, namely, valves, scientific and electrical apparatus for use with parts for lifting liquids from hydrocarbon wells, namely, electronic controllers, plunger proximity sensors, and sensors for measuring, signaling and verifying depth, pressure, and other well production parameters, all for plunger lift gas and oil wells, electronic controlling devices, namely, positioners for control valves for regulating the flow of gases and liquids; downloadable mobile application software for the remote monitoring and control of oil well equipment, downloadable software for determining a correct size valve based on the fluid flow characteristics of the use environment in which the valve will be used, all of the aforementioned being for use on, or in relation to, oil and gas drills, oil and gas well pumps, oil rigs, and oil and gas pipelines and none of the aforementioned being for use in automobiles, fuel for automobiles, internal combustion engines, or engine oil.

Services

Class 42

Software development in the field of automation, monitoring and control software for the oil and gas industries; providing a non-downloadable, web-based software for controlling one or more parameters in the design, documentation, storage, or reports related to electrical submersible pump applications or other applications in the upstream oilfield market; software as a service (SaaS) featuring software for automating and managing chemical injections into well sites or pipelines; software as a service (SaaS) featuring software for use in the oil, gas, and energy industries, namely, for auditing, simulating, assessing, monitoring, managing, and optimizing resources used in the oil and gas industry, such as chemicals, energy, water, and human resources; software as a service (SaaS) featuring software for ensuring business compliance with environmental regulations in the oil and gas industry; software as a service (SaaS) featuring software for auditing, simulating, assessing, managing, and optimizing water supply, water consumption, and water quality in industrial and manufacturing processes in the oil and gas industry, software as a service (SaaS) featuring software that allows users to conduct, monitor, manage, track, and analyze business activities in the oil and gas industry, namely, software for tracking documents, preparing invoices, payment management, order tracking, order fulfillment, and order shipping integration, software as a service (SaaS) featuring software that allows users to conduct, monitor, manage, track, and analyze business activities in the oil and gas industry, namely, software for risk assessment, information security, business analysis, audit and audit planning, and sales management, software as a service (SaaS) featuring software for database management, sales and customer tracking and management, inventory management, order

management, and for generating reports all for use in the oil and gas industry, software as a service (SaaS) featuring software for collecting, aggregating, and analyzing operational functions of oil wells from remote sensors, laboratory results, geographic surveys, and weather reports for use in the operation and maintenance of oil wells, software as a service (SaaS) featuring software that allows users to receive reports, alerts, and notifications related to industrial oil and gas processing operations, including drilling, pumping, separation activities, and refining processes, software as a service (SaaS) featuring software for project management, software as a service (SaaS) featuring software for monitoring and managing the operation of industrial cooling water systems, industrial boiler systems, waste water treatment systems, and industrial water systems, all of the aforementioned being for use on, or in relation to, oil and gas drills, oil and gas well pumps, oil rigs, and oil and gas pipelines and none of the aforementioned being for use in automobiles, fuel for automobiles, internal combustion engines, or engine oil.
