Trademarks Journal

2025-10-29 — Vol. 72 No. 3705

Trademarks Journal

Vol. 72 No. 3705

General Information

The *Trademarks Journal* (the “*Journal*”) is published on the website of the Canadian Intellectual Property Office (<http://cipo.gc.ca>). The *Journal* lists trademark applications advertised under subsection 37(1) of the *Trademarks Act* (the “*Act*”), public notices of prohibited marks under section 9 of the *Act*, statements of the Minister in respect of geographical indications under subsection 11.12(2) of the *Act*, as well as erratums to previous volumes.

Electronic *Trademarks Journal*

The *Journal* is available in PDF format and can be downloaded free of charge and viewed and printed with Adobe Acrobat Reader. The *Journal* is also available in a printable HTML format as an alternate official version that contains a search function to narrow and customize the content. The electronic form of the *Journal* is the official version.

Official Languages

The *Journal* is available in English and French. The details displayed for each application are based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the *Journal* are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the *Journal* have been translated. Any registration resulting from the application will be restricted to these goods or services as described in the language of the application.

Filing Dates

The filing date of each trademark application (including those to extend the statement of goods or services of an existing registration) is shown in the YYYY-MM-DD format.

Nice Classification

Where applicable and required, the *Journal* lists the goods or services of each application grouped according to the classes of the Nice Classification, each group being preceded by the number of the class of the Nice Classification to which that group of goods or services belongs and presented in the order of the classes of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Journal* may file a statement of opposition with the Registrar of Trademarks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Class 09

(1) Wakeboard helmet; sports helmets; sun glasses; eyeglass frames; prescription spectacles; spectacles; eye glass cords; spectacle and sunglasses cases; eyeglass cases and sunglass cases; spectacle lenses; optical goods, namely, optical glasses, optical frames, optical sunglasses; glasses for optical use; optical glass; spectacle chains; clothing for protection against accident or injury for water sports (in particular, diving suits, life jackets, safety jackets and clothing for protection against the sun, low temperatures and moisture); sports spectacles; safety spectacles (protection); life jackets; spectacle cases; scuba masks; diving equipment, namely, diving boots, diving gloves, diving goggles, diving helmets, diving masks, diving regulators, diving snorkels, diving suits and air tanks for scuba diving

Class 12

(2) Kayaks; canoes; rigid inflatable boats (RIBS); personal watercrafts; keels for boats; structural parts for boats, namely, toe rails (low upright sides), clamping joints, connection clips

Class 14

(3) Watches; timepieces; regatta watches; watch bands; cases for watches

Class 16

(4) Paper, cardboard and products made from these materials, namely, packaging materials; printed matter, namely, books, magazines, brochures, flyers, textbooks, manuals, leaflets,

posters, booklets; bookbinding materials; prints, namely, art prints, color prints, graphic prints, lithographic prints, photographic prints, and silkscreen prints; stationery, namely, writing stationery, paper stationery sets; adhesives for office use or for household purposes, namely, adhesive tapes and adhesive labels; material for artists, namely, paint brushes, painters' easels, canvas panels for artists, artists' pencils; artists' drawing brushes, paint brushes and writing brushes; typewriters and office supplies, namely, business card holders, stationery agendas, calendars, pens, pencils, permanent markers, notepads, notebooks, writing pads, stickers, decals, pen and pencil boxes, binders, pen and pencil cases, bookmarkers (excluding furniture); teaching aids and teaching materials, namely, educational books, trivia cards being teaching materials; plastic materials for packaging, namely, plastic bags and plastic film for packaging

Class 18

(5) Leather and imitations of leather, and goods made of these materials, namely, bags, rucksacks, sports bags, shopping bags, satchels, duffle bags, beach bags, drawstring bags, backpacks; trunks and travelling bags; reusable shopping bags; rucksacks; handbags; travelling bags; sports bags; satchels; textile shopping bags; parasols; bags for carrying surfboards

Class 20

(6) Furniture, namely, lounge furniture and outdoor furniture; beach chairs

Class 22

(7) Accessories for watercrafts, namely, ropes and cords made of textile fibres; Accessories, namely, sails, ropes and cables in the nature of cords made of textile fibres and tow lines for sail vehicles, sail boards and surfboards; snare nets, tents, awnings; padding and stuffing materials, namely, animal hair for stuffing and padding purposes, cotton flock for padding and stuffing and wadding for padding and stuffing (excluding rubber or plastic materials); raw textile fibers

Class 24

(8) Cotton towels; water sports towels; bath towels; beach towels

Class 25

(9) Clothing and headgear for protection against the sun, low temperatures and moisture, namely, shirts, pants, caps, hats, t-shirts, sweatshirts, mittens, balaclavas, scarves, gaiters, underwear, socks, shorts, vests, hoodies, beanies, facemasks, layer pants, union suits, thermal underwear, swimsuits, bandanas, skirts, surfing suits, suits, swim trunks, swim tights, polo shirts, bucket hats, fedoras, tunics, athletic tops, dresses, beach cover-ups, skorts, beach wraps, parkas, booties, hoodies; sports and leisure wear, namely, clothes for water sports in particular clothing for bathing and for surfing in the nature of bathing suits and swimwear, clothing for skiing, tracksuits, bathrobes; rashguards

Class 27

(10) Carpets, rugs, floor mats and matting being rush mats, linoleum for covering existing floors; non-textile wall hangings; Bath mats; beach mats

Class 28

(11) Paddles for stand-up paddle boarding; boards for stand-up paddle boarding; kites; kites for kitesurfing; parts and fittings for kite boards, wakeboards, and stand-up paddle boards; boards for kitesurfing; boards for wave boarding; surfboards; windsurf boards; longboards; skateboards; skegs (fins), namely, surfboard fins, wakeboard fins, paddleboard fins, ocean kayak fins, masts for sailboards and windsurfing boards, booms for sailboards, hand grips for sailboards, deck grips for

body boards, paddle boards, surfboards, pumps for inflatable stand-up paddle boards, leash lines for bodyboards, sailboards, surfboards, and windsurf boards; bags especially designed for surfboards; sail boards

Services

Class 35

(1) Retail and online retail store services featuring sun glasses, eyeglass frames, prescription spectacles, spectacles, eye glass cords, spectacle and sunglasses cases, eyeglass cases and sunglass cases, spectacle lenses, optical glasses, optical frames, optical sunglasses, glasses for optical use or adapted to protect the eyes, optical glass, spectacle chains, kayaks, canoes, rigid inflatable boats, personal watercrafts, watches, timepieces, regatta watches, watch bands, cases for watches, paper, cardboard and products made from these materials, namely, packaging materials made of paper or cardboard, printed matter, namely, namely, books, magazines, brochures, flyers, textbooks, manuals, leaflets, posters, booklets, book binding materials, art prints, color prints, graphic prints, lithographic prints, photographic prints, and silkscreen prints, writing stationery, paper stationery sets, stationery products, typewriters and office supplies, arts and crafts supplies, adhesives for stationery and household purposes, teaching aids and teaching materials, namely, educational books, trivia cards being teaching materials, plastic materials, namely, plastic bags and plastic film for packaging, leather and imitations of leather, bags, furniture, string, snare nets, tents, awnings, sail boards, surfboards, clothing, footwear, headgear, carpets, rugs and mats, linoleum for covering existing floors, non-textile wall hangings, bath mats, sporting equipment and sporting accessories

Class 41

(2) Sporting and cultural events, namely organization and staging of water sports competitions; Organisation of sporting events, namely, organization of exhibitions for cultural or educational purposes in the fields of surfing, sailing and windsurfing

Colour Claim

Colour is claimed as a feature of the trade-mark. The colour dark blue is claimed as a feature of the mark. The mark consists of the word Draslovka in dark blue.

Goods

Class 01

(1) Caustics and chemicals for use in mining and metal industry, agriculture, horticulture, forestry and photography; chemicals for use in agriculture for regulating the growth of agricultural products and protection of plants, except fungicides, herbicides, insecticides and parasitocides; fertilizers; unprocessed artificial resins; adhesives for finishing and priming; butyl methacrylate-based adhesives, chemical products for the manufacture of coatings and adhesives; mordants for metals, mordants for dressing skins; oil putty, glaziers' putty and grafting mastic for trees; leather sealants; sealants for tires; chelating agents; chemical substances for the treatment of metals; unprocessed plastics; vulcanization accelerators; chemical additives to fungicides, herbicides, insecticides, algicides, pesticides and parasitocides; hazardous chemicals used in industry and used professional and toxic compositions being toxic gas chemicals for use in the manufacture of fumigants;

Class 02

(2) floor, windows and furniture finishing coatings; mordant lacquers, namely, lacquers with mordant dye that are uv and chemical resistant, weather resistant, quick-drying, anti-aging, and improves shine and color fastness; wood mordants; stains for leather; dyestuffs; mordant, lacquer, and paint thinners; mastic; agglutinants for paint ; preservatives against rust and deterioration of wood; impregnating, namely, varnish coating and anti-corrosive coatings; coatings and spray coatings, namely, decorative spray coatings, cardboard, gypsum and aggregates coatings in the nature of stains, and concrete moisture barrier coatings; chemical substances for the treatment of wood, stone, concrete, cardboard, plaster and aggregate; binders for the production of paints and lacquers; raw natural resins; dyestuffs ; colours for printing;

Class 05

(3) preparations for destroying noxious animals, insect, vermin and microorganisms; cleaning agent preparations for medical purposes and disinfectants; black and brown rats and mice poisons; herbicides; insecticides; algicides; fungicides; pesticides; fumigation preparations for destroying plants, bacteria, insect and vermin;

Services

Class 35

business intermediary services relating to the matching of potential private investors with entrepreneurs needing funding, retail and wholesale services relating to caustics and chemicals for use in industry, science, agriculture, horticulture, forestry and photography, chemicals for use in agriculture for regulating the growth of agricultural products and protection of plants, fertilizers, unprocessed artificial resins, adhesives for industrial purposes, adhesives for finishing and priming, butyl methacrylate-based adhesives, chemical products for the manufacture of coatings and adhesives, mordants for metals, mordants for dressing skins, oil putty, glaziers' putty and grafting mastic for trees, leather sealants, sealants for tires, chelating agents, chemical substances for the treatment of metals, unprocessed plastics, vulcanization accelerators, chemical additives to fungicides, herbicides, insecticides, algicides, pesticides and parasiticides, hazardous chemicals and toxic compositions, paints, coatings, lacquers, mordants, wood mordants, stains for leather, dyestuffs, thinners, varnishes, mastic, agglutinants, preservatives against rust and deterioration of wood, impregnating and anti-corrosive coatings, coatings and spray coatings, chemical substances for the treatment of wood, stone, concrete, cardboard, plaster and aggregate, binders for the production of paints and lacquers, raw natural resins, dyestuffs and materials for coating purposes, colours for printing, pigments and powder paints , preparations for destroying noxious animals, insect, vermin and microorganisms, sanitary preparations and disinfectants, poisons, herbicides, insecticides, algicides, fungicides, pesticides, fumigation preparations for destroying plants, bacteria, insect and vermin, fumigation preparations for medical purposes, pharmaceuticals, medical preparations and veterinary preparations; Marketing for caustics and chemicals of others for use in industry, science, agriculture, horticulture, forestry and photography; Advertising for caustics and chemicals of others for use in the industry, science, agriculture, horticulture, forestry and photography

Goods

Class 05

(1) Cannabis extracts for medical purposes, namely, hashish, resins and oils; cannabis oil for medicinal purposes; cannabis-derived resins and oils for medical use, for smoking and for vaporizing; cannabis salves for medicinal purposes; medicated skin care and toiletry preparations containing cannabis, namely, oils, ointments, serums, salves, balms, creams, lotions, gels, toners, cleaners, peels, roll-on sticks, butters, hashes, waxes, tinctures, tonics, and sprays; medicated cosmetics containing cannabis; cannabis extracts for medical purposes; nutritional supplements containing cannabis derivatives for medicinal purposes and for recreational purposes; medicated cosmetics containing cannabis derivatives; and topical skin creams containing derivatives of cannabis for medicinal purposes.

Class 34

(2) Dried cannabis; dried marijuana; pipes, namely, smoking pipes, electronic smoking pipes, hookah pipes, and shisha pipes; bongs; vaporizers; water pipes used for smoking marijuana; rolling papers; cigarette papers; grinders, namely, cannabis grinders, marijuana grinders, and smoking herb grinders; electronic cigarettes; lighters, namely, cigarette lighters, and lighters for smokers; cigarettes containing cannabis not for medical purposes, namely, cannabis cigarettes, marijuana cigarettes, electronic cigarettes containing cannabis oil, and electronic cigarettes containing marijuana oil; herbs for smoking containing cannabis; cannabis extracts for recreational use; cannabis extracts for smoking and vaping; cannabis for smoking; and cannabis oil for electronic cigarettes.

Services

Class 35

Retail sale and online sale of medical marijuana and cannabis, cannabis seeds, cannabis extracts, and tinctures, pastes, salves, oils and food products containing cannabinoids; operation of

cannabis dispensaries, namely, retail sale of cannabis, retail sale of derivatives of cannabis, retail sale of dried marijuana and cannabis for smoking and for recreational consumption, retail sale of cannabis products for smoking, and providing business administration and management of cannabis dispensaries.

Class 01

(1) Chemical preparations for use in industry, namely, acetylene for industrial purposes, ethylene, industrial chemicals for use in the manufacture of polyurethane, industrial chemicals for use in the manufacture of varnish, nitrogen, oxygen for industrial purposes, propylene, sodium hydroxide for industrial purposes, sulphuric acid, and waste water treatment chemicals for industrial purposes; chemical preparations used in science, namely, chemical preparations for facilitating the alloying of metals, chemical preparations for preserving foodstuffs, chemical preparations for the manufacture of paints, ion-exchange resins in the form of chemical preparations, leather processing chemical preparations, chemical preparations for preventing scale formation, chemical preparations for use in the manufacture of corrosion inhibitors, chemical preparations for use in the manufacture of pharmaceuticals, and chemical preparations, namely, silica based density centrifugation media, to be used in biochemical and clinical research; chemical preparations for use in photography; chemicals for use in agriculture; chemicals used in horticulture; chemicals used in forestry; chemical preparations and materials for films, photography and printing, namely, chemical additives for printing inks, chemical compositions for printing photographs, chemical oxidants for use in the manufacture of printed circuits, chemicals for X-ray film processing, gelatine for the manufacture of printing paper, and photographic chemicals; detergents for industrial use; detergents for industrial use as part of manufacturing operations; chemical substances, chemical materials and chemical preparations, namely, polymethylmethacrylate, blends and compounds with polymethylmethacrylate in the form of granules, films, and sheets; plastic molding compounds for the manufacture of moulded and extruded plastic articles; fire extinguishing and fire prevention compositions; chemicals and materials, namely, active chemical ingredients, additives, antioxidants, chemical additives, emollients, emulsifiers, pigment dispersants, preservatives, unprocessed synthetic resins, wetting agents for use in the manufacture of cosmetics; chemical compositions for use in construction, namely, adhesives for use in the construction industry, chemical additives for use with concrete, chemical compounds for curing concrete, epoxy resins, and self-leveling chemical compounds for use in building construction; chemical compositions for

water treatment; chemical and organic compositions and substances for treatment of leather and textile, namely, chemical preparations for glazing leather, chemical preparations for protecting leather, chemical preparations to repel water from leather, emulsifiers for use in the manufacture of leather, and oils for currying leather; salts for industrial purposes, namely, toning salts for photography, salts of alkaline metals, salts for galvanic batteries and cells, raw salt, nickel salts, ammoniacal salts, alkali-metal salts, halides and halogen acid salt; starches for use in manufacturing and industry, namely, potato starch for industrial purposes, sago palm starch for industrial purposes, starch for manufacturing washing preparations, starch for use in the manufacture of paper, starch for use in the manufacture of textiles, and starch paste for industrial purposes; putties, fillers and pastes for use in industry, namely, fillers for automobile body repair, fillers for cardboard, glazing putty, molding compound in the nature of a synthetic putty for use in the manufacture of printing inks in the printing industry, paste fillers for automobile body repair, putty for use by plumbers for affixing toilets, starch paste for industrial purposes, and unprocessed artificial resins as raw materials in the form of powders, liquids or pastes; fillers for vehicle body and tyre repair; synthetic resins, unprocessed; unprocessed plastics; unprocessed and synthetic resins, namely, thermoplastic synthetic resins, unprocessed, unprocessed acrylic resins, unprocessed artificial resins for industrial purposes, and unprocessed synthetic resins for use in the manufacture of plastic molding compounds; filtering materials, namely, activated aluminium material in particulate form for use as filtering media, carbon for filters, manganese dioxide material in particulate form for use as filtering media, microglass filter media for removing particulates in industrial in-plant equipment, lube systems and return line hydraulic systems, mineral filtering materials for the sewage treatment industry, mixed-media filtering material in particulate form being activated and catalytic carbon, mixed-media filtering material in particulate form being copper and zinc carbonate particles, and mixed-media filtering material in particulate form being synthetic resins and catalytic carbon; growing media for plants, fertilizers and chemicals for use in agriculture, horticulture and forestry; tempering and soldering preparations; chemical substances for preserving foodstuffs; chemical and organic compositions for use in the manufacture of food and beverages, namely, antioxidants for use in the manufacture of beverages, bacteria for use in the manufacture of food, biological preservatives for the food industry, chemical additives for use in the manufacture of food, chemical preservatives for food, enzyme preparations for the beverage industry, enzyme preparations for the food industry, lactic acid bacteria for use in food manufacture, probiotic bacteria for the food industry, proteins for use in the manufacture of food and beverages, and whey proteins for use in the manufacture of beverages; tanning substances, namely, enzymes for use in the tanning of leather, leather tanning agents, oils for tanning leather, substances for tanning animal skins and hides, sumac for use in tanning, and tanning oils for animal skins; adhesives for use in industry, namely, adhesives for the building industry, adhesives for use in the automobile industry, adhesives for use in the construction industry, adhesives for use in the consumer packaging industry, adhesives for use in the furniture industry, adhesives for use in the textile industry, adhesives for plastics manufacturing industry, and adhesives for plastic processing industries.

Class 17

(2) Unprocessed and semi-processed rubber, gutta-percha, gum, asbestos, mica and substitutes for all these materials; plastics for use in manufacture [in extruded form]; packing, stopping and insulating materials, namely, fiberglass insulation for buildings, fiberglass electrical insulating tape, foam sheeting for use as building insulation, foils of metal for building insulation, glass wool for building insulation, insulating foam for use in buildings, insulating varnish, insulating paints, insulating waterproofing membranes, polymeric sheets and foils for insulation; flexible hoses, not of metal, namely, flexible plastic hoses for use with ventilation systems, fuel oil hoses, not of metal,

hoses for air conditioners, hoses for pneumatic tools, hoses of plastic for agricultural purposes, hoses of rubber for agricultural purposes, hoses of rubber for air conditioners, hydraulic hoses of rubber, and plastic plumbing hoses; flexible pipes, tubes, hoses, and fittings therefor, including valves, non-metallic, namely, extruded plastics in the form of tubes for use in manufacture, flexible plastic hoses for use with ventilation systems, flexible plastic pipes for conveying natural gas, flexible plumbing pipes of plastic, pipe couplings of rubber, artificial resins in the form of tubes for use in manufacture, hoses for air conditioners, hoses of rubber for air conditioners, hoses for pneumatic tools, fuel oil hoses, not of metal, hoses of plastic for agricultural purposes, hoses of rubber for agricultural purposes, hydraulic hoses of rubber, plastic plumbing hoses, and rubber valves; seals, sealants and fillers, namely, acrylic resins, semi processed, adhesive sealants, bonded seals, composite seals, dynamic seals, encapsulated seals, not of metal, expansion joint fillers, general purpose sealants, pipe joint sealants, sealants for repairing leaks, other than paste fillers, for automobile body repair, and seals of metal for pipes; insulation and barrier articles and materials, namely, acoustical insulation barrier panels, aluminium foils being insulating materials, bamboo fibres for insulation, bark coverings for sound insulation, electric, thermal and acoustic insulators, glass fiber insulation materials for use in construction, and insulating foam for use in building and construction; unprocessed and partially processed materials, namely, spun polyester fiber, other than for textile use, asbestos fibres, elastomers for bonding to articles used for shot-blasting, elastomers for bonding to articles used for shot-peening, thermoplastic elastomer resins in pellet form for use in manufacture, semi-worked polymer resins in the form of fibres; synthetic and composite materials, namely carbon fibres, semi-processed cellulose acetates, glass fibres and glass wool for insulation; nylon fabric used in composite manufacturing; bamboo fibres for insulation, glass fibre filtering materials; microporous synthetic sheets of plastic for the manufacture of protective clothing and for use in manufacture; microporous synthetic strips of plastic for the manufacture of protective clothing; self-lubricating cast nylon in the form of sheets, rods, tubes and blocks for use in manufacture; polypropylene films, other than for wrapping; viscose sheets for packing; asbestos yarn, rubber thread and covered rubber yarn; semi-processed synthetic resins; semi-processed plastics; shock-absorbing buffers of rubber and plastic; vibration damping materials of rubber; filtering materials of semi-processed films of plastic, filtering materials of semi-processed foams of plastic, glass fibre filtering materials; adhesive anti-slip tapes for flooring applications, adhesive elastomeric tape for placement onto electronic devices to prevent slipping, adhesive elastomeric tape for placement onto motorcycles, all-terrain vehicles, and bicycles to prevent riders from slipping, cellulose acetate film used as packing material; clutch and brake linings; tire restoration and repair materials, namely, rubber material for recapping tires; foam supports for flower arrangements; fixation films, namely, adhesive polymer films for use in commercial or industrial manufacturing, anti-glare films for windows, biodegradable plastic film for agricultural use, laminated plastic films for use on windows, polymer films for use in manufacture; floor marking tapes; rubber pouches for packaging; protective asbestos screens; rubber door handles, rubber handle grips, rubber stands for chairs; threads of plastic for soldering; statues and works of art, namely decorative articles [badges] made of mica, decorative articles [badges] made of rubber, figurines made from rubber; decorative plastics films being semi-finished products.

Class 19

(3) Building and construction materials and elements, not of metal, namely, building stone, building timber, cement partitions for buildings, concrete slabs for building, concrete structural columns for building, concrete walls for building, glass bars for building, marble used as building material, mineral pellets for use in the building industry, sandstone for building, wooden partitions for building, wall claddings, not of metal, for building, construction timber, thermoplastic polycarbonate

sheets for building and construction, plastic sheets for use as windows, plastic sheets for use as panels in greenhouses and bus shelters; doors, gates, windows and window coverings, not of metal, namely, fiberglass doors, vinyl doors, plastic doors, wooden doors, glass sliding doors, garage doors, not of metal, folding doors, not of metal, fence gates not of metal, security gates, not of metal, casement windows, not of metal, interior window shutters, not of metal, nylon window screens, wooden window shutters, window screens, not of metal; rigid pipes, not of metal, for building, namely, non-metal drain pipes, pipes of cement, earthenware and sandstone, concrete pipes, rigid plastic pipes for building; asphalt; pitch; bitumen; unprocessed and semi-processed materials namely pitch, tar, bitumen and asphalt, artificial stone, natural stone, rock, clay slabs, fire clay, pottery clay, non-metallic minerals for building and non-metallic minerals for construction; greenhouses, transportable, not of metal; transportable buildings, namely barns made of wood; transportable buildings, namely cabins made of plastic and wood; transportable precast concrete buildings, namely cabins; transportable buildings, namely sheds made of wood and plastic; transportable non-metal shelters for use in providing emergency temporary housing; statues and works of art made of materials such as stone, concrete and marble, included in the class.

Computer networking and communications equipment, namely, network control, administration and configuration equipment in the nature of remote network systems, site security systems, automated broadcast systems, CCTV systems, autonomous systems, traffic management systems, infrastructure management systems, audiovisual systems, automation hubs, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), and for operating internet-enabled and connected appliances and security systems, modems, switches, routers, mobile modems, mobile switches and mobile routers; telecommunications equipment, namely, telecommunications base station equipment for cellular and fixed networking and communications applications, telecommunication towers, transceiver stations, transmission lines, fiber-optic cables, telecommunication devices, mainframe computers, servers, desktop computers, notebook computers, smart phones, portable media players, and GPS receivers, and satellite communication equipment, namely transmitters and receivers, amplifiers, translators, frequency converters; radios, namely, broadcast radios, voice radios, long term evolution signal radios, wireless local area network and voice over IP radios; downloadable software for control and management of computer networking, communications and telecommunications equipment; downloadable software for control of computer and communications networks; downloadable software for routing signals on computer and communications networks; downloadable software for producing software defined networks; downloadable software for control of long term evolution and wireless local area network radios and transceivers; downloadable software for administration and configuration of computer networking and communications equipment, namely, user equipment, terminals, stations, and clients; downloadable software for providing operational programs, procedures, and routines for use with modems, routers, switches, mobile modems, mobile routers and mobile switches; cameras, video and CCTV equipment, namely, broadcasting and video transmission equipment; power cables; high frequency cables for electrical or optical signal transmission; radio frequency cables for electrical or optical signal transmission; aerials and antenna for signal receipt and transmission

Services

Class 35

(1) Online retail store services and online wholesale store services both featuring computer networking equipment, communications equipment, namely, network control, administration and configuration equipment in the nature of remote network systems, site security systems, automated broadcast systems, CCTV systems, autonomous systems, traffic management systems, infrastructure management systems, audiovisual systems, automation hubs, computer hardware, and downloadable software for controlling networked devices in the internet of things (IoT), and for operating internet-enabled and connected appliances and security systems, modems, switches, routers, mobile modems, mobile switches, mobile routers, radio frequency cables, connectors, software and aerials, telecommunications equipment, namely, telecommunications base station equipment for cellular and fixed networking and communications applications, telecommunication towers, transceiver stations, transmission lines, fiber-optic cables, telecommunication devices, mainframe computers, servers, desktop computers, notebook computers, smart phones, portable media players, and GPS receivers, and satellite communication equipment, namely transmitters and receivers, amplifiers, translators, frequency converters; long term evolution and wireless local area network radios, power cables; on-line data processing services in the fields of telecommunications, oil and gas, mining, defense and Government.

Class 38

(2) Telecommunications services, namely, mobile cellular voice, video and data communications services, namely, text data, image data, voice data and video data, satellite voice, video and data transmission communications services, private long term evolution services being mobile telephone services and secure voice, video, CCTV and data transmission communications network services, namely, secure mobile cellular and secure satellite voice, video, CCTV and data transmission communications network services

Class 42

(3) Design of computer and communications networks, namely, LTE, WiFi, CCTV, surveillance and security networks; engineering advice and consultancy in relation to software, and computer and communications networks and equipment, namely, LTE, WiFi, CCTV, surveillance and security networks; maintenance and technical support in the nature troubleshooting of software problems; technical support services, namely, computer hardware, software and peripherals advisory and technical information services; technical support services, namely, software programming and software installation, repair and maintenance services; computer security services, namely, design and development of secure computer hardware, software and systems being surveillance and security networks; computer security services, namely, software programming and software installation repair and maintenance services; computer software, computer and communications network services, namely, technical support therefor being monitoring technological functions of computer software and computer network systems, and intervening on behalf of users to rectify operation thereof; development, production, maintenance and technical support of software

(2) Installation, maintenance, troubleshooting and repair services for telecommunications hardware, namely wireless, fiber, broadband, distributed antenna, radio frequency (RF) network and radio access network (RAN) hardware; antenna installation, maintenance and repair services.

Class 38

(3) Telecommunications services, namely, electronic mail and voice over internet protocol (voip) services, wireless digital messaging services, wireless telephone services, wireless voice mail services, providing Internet access via wireless broadband networks, point to point wireless digital messaging services provided via distributed antenna systems, mobile radio telephony services, radio broadcasting, telecommunications routing and junction services for telephone calls and digital messages, electronic data transmission in the nature of data switching services for use in transmitting voice, data, graphics, images, audio and video, and telecommunications consulting services in the field of wireless telephony and wireless broadband communications services for the transmission of voice and data.

Class 42

(4) Design and engineering of telecommunications networks and systems, namely wireless, fiber, broadband, distributed antenna, radio frequency (RF) and radio access networks (RAN), cellular transmission towers and telecommunications infrastructure, namely nodes, switches, routers, servers and data centres for wireless, fiber, broadband, distributed antenna, radio frequency (RF) and radio access networks (RAN); telecommunications hardware and network integration services for wireless, fiber, broadband, distributed antenna, radio frequency (RF) and radio access networks (RAN); optimization and provisioning services for telecommunications networks, namely analyzing performance parameters of wireless, fiber, broadband, distributed antenna, radio frequency (RF) and radio access networks (RAN) and improving the efficiency and quality of the

network; radio frequency (RF) network optimization services, namely analyzing network performance parameters and improving the efficiency and quality of the network; technical support services, namely, telecommunications infrastructure, network and system technical support services in the nature of troubleshooting of computer software problems, monitoring technological functions of telecommunications infrastructure, networks and systems; consulting services in the field of telecommunications hardware and software engineering.

Goods

Class 07

(1) Machines and machine tools for waste treatment and recycling, namely, waste crushing machines, waste material conveying machines, shredding devices for recycling; waste packaging machines; waste compacting machines

Class 11

(2) Waste incinerators; Bioreactors for use in the treatment of waste and wastewater; Waste disposal furnaces.

Services

Class 35

(1) Advisory services for the organization and management of business, office work and commercial administration in relation to waste and recycling plants. Retail services in trade, wholesale trade and sale through computer networks of waste recycling machines and tools, as well as waste shredding machines and equipment.

Class 37

(2) Installation, assembly and maintenance services for waste treatment and recycling plants, as well as waste shredding machines and equipment. Provision of information on the repair and maintenance of waste shredding machines and equipment and waste recycling plants. Installation, assembly and maintenance of waste treatment plants and recycling thereof.

Class 39

(3) Waste transport; Waste removal; Waste storage; Transport of medical and special waste; Collection of commercial waste; Waste storage services. Transfer and transport of waste.

Class 40

(4) Waste destruction; Waste incineration; Waste recycling; Chemical waste treatment; Sorting of waste and recyclable material; Waste and residue incineration; Treatment of waste in the field of environmental pollution control. Rental of waste compacting and crushing machines.

Class 42

(5) Scientific and technological research in the field of waste treatment and recycling equipment; development of computer hardware; software development; research in the field of environmental protection; technical consultancy in the field of environmental science; provision of technological information on environmentally friendly and ecological innovations; engineering services in the field of environmental technology; design of equipment for waste transport; environmental monitoring of waste treatment areas;

HIGH-DENSITY HYDRO

Trademark Type

Standard Characters

Goods

Class 01

(1) High density fluids for use in the generation of electricity, namely, hydraulic fluids and drilling fluids; high density fluids for use in energy storage, namely, hydraulic fluids and drilling fluids; high density fluids for hydraulic turbines, namely, hydraulic fluids and drilling fluids; chemical substances in the nature of chemical preparations, chemical additives, chemical oxidants for use in the manufacture of high density fluids, namely, hydraulic fluids, drilling fluids, and heat transfer fluids for use in generation of electricity and energy storage; chemical substances, namely, chemical preparations, chemical additives, chemical oxidants for use in the manufacture of high density fluids, namely, hydraulic fluids, drilling fluids, and heat transfer fluids, for hydraulic turbines.

Class 07

(2) Turbine blades for power generation; turbines for power generation; hydropower turbines; fluid pumps, namely, hydraulic pumps for fluids; fluid pumps for high density fluids, namely, hydraulic pumps for high density fluids being hydraulic fluids, drilling fluids, and heat transfer fluids for use in the generation of electricity; fluid pumps for use in the generation of electricity; fluid pumps for use in energy storage, namely, hydraulic pumps for fluids; pump control valves, namely, valves to control hydraulic fluid pumps; parts and fittings for the aforesaid goods.

Class 09

(3) Computer hardware; downloadable computer software for data processing, data transmission, and operating computer hardware systems in the field of electricity generation; data processing equipment, namely, computers, computer hardware, computer servers, and storage devices used for data collection, data storage, data retrieval, and data transmission, namely network-attached storage devices being external hard drives and cloud storage gateways; telecommunications equipment, namely, telecommunications transmitters and telecommunications cables for satellite internet and cellular phone data, and telecommunications multiplexers; measuring, detecting and monitoring instruments, indicators and controllers, namely, rheometers for measuring the viscosity and viscoelasticity of fluids; electrical and electronic components, namely, circulators in the nature of electronic components for computer hardware, over-voltage protection relays, electric contactors; apparatus and instruments, namely, permanent magnet synchronous generators,

doubly fed induction generators, and power conversion electronics being variable frequency drives for conducting, switching, transforming, accumulating, regulating or controlling manufactured electricity using high density fluids; electrical and electronic circuitry, being electric and electronic circuits in use for the generation of electricity through high density fluids; power supply units in the nature of uninterruptible electrical power supplies; energy storage apparatus, namely, supercapacitors, ultracapacitors and lithium-ion batteries for energy storage; electricity storage apparatus, namely, lithium-ion batteries and supercapacitors for electrical energy storage; downloadable computer software for conducting, switching, transforming, accumulating, regulating and controlling electrical power and electrical power distribution units; computer hardware for conducting, switching, transforming, accumulating, regulating or controlling electricity; downloadable computer software for monitoring, optimising and regulating the storage, transmission and discharge of energy to and from energy storage systems namely supercapacitors and ultracapacitors for energy storage; computer hardware for monitoring, optimising and regulating the storage, transmission and discharge of energy to and from energy storage systems; downloadable computer software for operating electricity power grid data communication networks, namely software used to monitor, control, manage and secure data communication across electric power grids; downloadable computer software for the remote management of energy storage systems namely to monitor, control and optimize battery systems, namely supercapacitors and ultracapacitors for energy storage over the internet and wireless communications networks; downloadable computer software for the remote management of control systems and power conversion systems in the field of renewable energy storage; remote control and monitoring apparatus in the nature of electronic apparatus for the remote control of industrial operations and remote video monitoring systems consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; remote control and monitoring apparatus for the remote management of energy storage systems, namely, remote electric control devices for energy management, electronic monitors and monitor modules for remote monitoring electric current and electrical voltage; remote control and monitoring apparatus for the remote management of electric apparatus and systems in the nature of electric control devices for electric energy management and electronic monitors and monitor modules for remote monitoring electric current and electrical voltage; apparatus for monitoring electrical energy consumption, namely, electronic energy meters for tracking and monitoring energy usage, electrical energy utilization metering devices; parts and fittings for the aforesaid goods.

Services

Class 37

(1) Installation, maintenance and repair of computers, computer hardware and computer software; installation, maintenance and repair of electrical and electronic equipment namely energy generation equipment; installation, maintenance and repair of apparatus for supplying electricity, namely electrical control panels and electrical systems used in the field of renewable energy generation; installation, maintenance and repair of apparatus, namely power conversion systems and control systems being programmable logic controllers (PLC) and human-machine interfaces (HMI) for generating electricity in the field of renewable energy generation; installation, maintenance and repair of apparatus, namely permanent magnet synchronous generators, doubly fed induction generators, and power conversion electronics being variable frequency drives and synchronous systems for distributing electricity in the field of renewable energy generation; installation, maintenance and repair of energy generating installations, namely, electrical and electronic equipment and electrical and electronic equipment parts and fittings used to generate electricity in the field of renewable energy generation; pump installation, maintenance and repair; pump repair and maintenance; information and advisory services related to the aforementioned.

Class 39

(2) Electricity storage; electricity supply services; electricity distribution services; renewable energy distribution services; renewable energy storage; renewable energy supply services; information and advisory services related to the aforementioned.

Class 40

(3) Production of electrical power; production of hydroelectric power; production of electrical power using high density fluids; energy generation; energy production; energy generation services; energy production services; processing and transforming of energy in the nature of generation of electricity from high density fluids; rental of renewable energy generating equipment in the nature of generation electricity from high density fluids; leasing of renewable energy generating equipment in the nature of generation electricity from high density fluids; production of energy by turbines; production of energy by high density fluids; production electrical energy from renewable sources; information and advisory services related to the aforementioned.

Class 42

(4) Electrical engineering; electrical engineering services; design and development of electrical systems; engineering services in the field of electrical power production; engineering services in the field of renewable energy production; creation of control programs for electric operation control and drive modules; design and development of energy and power management systems; design and development of energy distribution networks; scientific and industrial research services in the field of electrical engineering and energy production; scientific and industrial research services in the field of electrical power production; scientific and industrial research services in the field of renewable energy production; remote monitoring and management of electrical apparatus and systems in the nature of metering and monitoring electric power consumption by third parties for electric power providers; remote monitoring and management of energy storage systems; software as a service (SaaS) featuring online, non-downloadable software for remote monitoring of energy storage systems, operating computer hardware systems for energy generation systems; software as a service (SaaS) for software for conducting, switching, transforming, accumulating, regulating or controlling electrical power and electrical power distribution units; software as a service (SaaS) for monitoring energy flow, optimising energy usage and regulating the storage, transmission and discharge of energy to and from energy storage systems namely supercapacitors and ultracapacitors for energy storage; software as a service (SaaS) featuring software for operating electricity power grid data communication networks used to monitor, control, manage and secure data communication across electric power grids; software as a service (SaaS) featuring software for the remote management of energy storage systems namely to monitor, control and optimize battery systems, namely supercapacitors and ultracapacitors for energy storage over the internet and wireless communications networks; software as a service (SaaS) featuring software for the remote management of electric apparatus and systems in the nature of electric control devices for electric energy management and electronic monitors and monitor modules for remote monitoring electric current and electrical voltage; information and advisory services related to the aforementioned.

printers, scanners, speakers, microphones and webcams; diving suits, divers' masks, ear plugs for divers, nose clips for divers and swimmers, gloves for divers, breathing apparatus for underwater swimming; computer programs for use in financial management, financial planning, business management, customer relationship management (CRM), inventory management, sales force management, planning and management of personal and business finances and marketing information management, all in the field of e-commerce and business and authenticating the identity of a payer; software for processing electronic payments to and from others; authentication software for verification of online payment and transfer of funds; downloadable computer software for posting information, creating electronic product catalogs, responding to requests and placing and fulfilling orders for products, services and business opportunities via local and global computer networks, for use in document management, for searching, browsing and receiving transmissions of text, electronic documents, graphics and audiovisual information on local and remote area networks and global computer networks, on intranets, or on directories of information available on computer networks, for use in software development and web authoring, for use in exchanging information via global computer networks and online from a computer database and the internet, for business use for financial management, financial planning, business management, customer relationship management (CRM), inventory management, sales force management, planning and management of personal and business finances, and marketing information management, for data mining, for high-speed massive e-commerce data processing, and for data customization, all of the foregoing for use by third parties in connection with an interactive website in the field of e-commerce; computer software in the form of an application for mobile devices and computers, for use in database management, for use as a spreadsheet, for word processing, for recording, collecting, organizing, storing, archiving, reproducing, searching, retrieving and displaying digital data in the field of e-commerce, data management, customer relationship management, entertainment, education and telecommunications provided via the Internet; computer software for interactive entertainment, which allows users to customize the viewing, listening, and playing experience by selecting and arranging the display and performance of audio, video and audiovisual elements; instant messaging software; file sharing software for electronically exchanging data, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips via computer, mobile, wireless and telecommunications networks; computer software for electronically exchanging text messages, photographs, graphics, music, audio books, podcasts, voice messages via an application for mobile devices and computers; computer software for processing images, graphics, audio, video, and text; downloadable computer software to facilitate the electronic transmission of information and data, namely, data collected from public opinion polls, customer transaction records, membership records, product inventory records, customer preference, customer credit rating and sellers' credit rating, in the field of electronic commerce, namely, operation and management of online retail stores and wholesale stores, online trading services in which seller posts products to be auctioned and bidding is done via the Internet, user generated documents, voice messages, and photographs namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips to mobile phones and computers over the Internet; downloadable computer software which allows users to participate in web-based meetings and classes, with access to data, documents, images and software applications through a web browser; downloadable computer software for accessing, viewing and controlling remote computers and computer networks; downloadable cloud-computing software for deploying virtual machines to a cloud computing platform, managing virtual machines on a cloud computing

platform for users' participation in web-based meetings and classes, with access to data, documents, images and software applications through a web browser, for accessing, viewing and controlling remote computers and computer networks for general storage of data, database management and internet security; downloadable cloud-based software for general storage of data, database management, accessing databases and internet security; downloadable cloud-computing software for deploying virtual computer systems to a cloud computing platform, managing virtual computer systems on a cloud computing platform for general storage of data, database management, accessing databases and internet security in the field of business management, e-commerce, retail store and wholesale store services, transportation, accommodation, and travel agency services; downloadable computer software for accessing, viewing, and controlling remote computers and computer networks; computer software applications for streaming audio materials, video materials, videos, music and images, namely, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, via computer, mobile, wireless, and telecommunication networks, namely, radio, telephone, cable and satellite communication networks; downloadable games, pictures, motion pictures, movies and music; digital music (downloadable from the Internet); downloadable audio, visual, and audiovisual files and recordings, featuring multimedia entertainment programs, namely video files, audio files, films, movies and television programs featuring children's entertainment, family entertainment, drama, action, adventure and fantasy; online downloadable electronic publications in the nature of magazines, articles, brochures, leaflets, datasheets, informational materials, instructional materials in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management; downloadable electronic publications, namely, newspaper and magazine articles, essays and academic papers, and instructional books, charts, diagrams and video files in the fields of telecommunications, namely, television and radio broadcasting, navigating the Internet, training, namely, arranging and conducting of instructional courses, computer training, correspondence courses, conferences, workshops, seminars, webinars, business assistance, namely, facilitating business transactions via an electronic marketplace for the buyers and sellers and goods and services via local and global computer networks, sales methods, sales management, social selling, sales improvement, developing sales promotional campaigns for others, lead generation sales, sales training, and marketing in the field of business management and e-commerce in the field of retail store and wholesale store services; computer software for image, graphics and word processing, semi-conductors; semi-conductor integrated circuits; semi-conductor memory chips; semi-conductor memory controllers; semi-conductor memory integrated circuits; semi-conductor processor chips; semi-conductor processors; microcontrollers; microcontroller units; low power microcontrollers; circuit chips, namely, integrated circuits; computer chips; CPU (central processing unit); RISC-V computer chips and central processing units; computer chips and central processing units with instruction set architecture; notebook computers; laptop computers; portable computers; handheld computers; tablet computers; personal digital assistants; personal media players, namely, portable and handheld audio and video players, namely, MP3 players, MP4 players, CD players and DVD players; mobile telephones; smart phones; digital cameras; batteries and battery chargers for notebook computers, laptop computers, portable computers, personal digital assistants, personal media players, namely, portable and handheld audio and video players, namely, MP3 players, MP4 players, CD players, DVD players, mobile telephones, smart phones and digital cameras; computer workstations, comprised of computer, monitor and printer; computer servers; computer and telecommunications networking hardware namely, computer network adaptors, switches, routers and hubs; computer network adaptors, switches, routers and hubs; wireless and wired modems

and communication cards and devices, namely, cable modems, computer fax modem cards, external modems, internal modems, modem cables, modems; cases adapted for laptop computers and computers; computer hardware and computer firmware for controlling large overhead variable message signs on highways, computer firmware for database management, namely, assuring accuracy and stability of data information, namely, customer transaction records, membership records, product inventory records, customer preference, customer credit rating, sellers' credit rating, in the field of electronic commerce in the field of retail store and wholesale store services, online trading and data management, namely, processing, updating, storing, retrieving and maintenance of data in computer databases, computer firmware for programming of function of hardware and network of computers and remote monitoring of function of hardware and network of computers; compact discs containing music; telecommunications apparatus, namely, network telephone, electronic facsimile machines, handheld computers, personal digital assistants and mobile phones; mouse mats; mobile phone handsets; mobile phone parts and fittings; alarm systems, namely, personal security alarms, burglar alarms, fire alarm systems; security cameras; mobile radio and television broadcasting units; television broadcasting equipment, namely, transmitters, amplifiers, television cameras and monitors, camcorders, namely, video camera recorders and video teleprompters; cameras; video cameras; headphones; telephone earpieces; stereo and computer speakers; Global Positioning System (GPS) apparatus and equipment, namely, computer software, transmitters, receivers and hand held units, for automotive, aviation and marine uses and vehicle tracking; computer, electronic and video games programs and software (including software downloadable from the Internet); liquid crystal displays for telecommunications and electronic equipment; set top box; remote controls, namely, remote controls for televisions, remote controls for home audio sets, remote controls for video players, namely, CD players, DVD players and MP4 players; data storage programs, namely, downloadable software used for the storage of electronic data and documents in the nature of computer utility file storage programs, and blank hard discs, compact discs, tapes and optical discs for storage of computer data; fire extinguisher; spectacles and sunglasses; outdoor signboards of metal (luminous); encoded or magnetic bank credit, debit, cash and identification cards; automatic teller machines, cash dispensers; electronic book readers; toner cartridges, unfilled, for printers and photocopiers; baby monitors; video baby monitors; lens hoods; encoded key cards; 3D spectacles; memory cards for video game machines; digital media streaming devices, namely, set-top boxes, digital video recorders, MP3 players, MP4 players, computers, laptops, tablets, smart phones.

Services

Class 42

Scientific and technological services and research and design relating to semi-conductor, semi-conductor integrated circuits, semi-conductor memory chips, semi-conductor memory controllers, semi-conductor memory integrated circuits, semi-conductor processor chips, semi-conductor processors, microcontrollers, microcontroller units, low power microcontrollers, circuit chips, computer chips, CPU (central processing unit), RISC-V computer chips and central processing units, computer chips and central processing units with instruction set architecture and consultancy, information and advisory services relating to the aforesaid services; industrial analysis and research services in the field of computer hardware and software systems of others and consultancy, information and advisory services relating to the aforesaid services; technical project studies in the field of troubleshooting of computer hardware and software problems provided online, by email and by telephone and consultancy, information and advisory services relating to the aforesaid services; hosting a website featuring technology that enables users to share information and advice and consultancy, information and advisory services relating to the

aforesaid services; design and development of computer hardware and software and consultancy, information and advisory services relating to the aforesaid services; research and development relating to semi-conductor, semi-conductor integrated circuits, semi-conductor memory chips, semi-conductor memory controllers, semi-conductor memory integrated circuits, semi-conductor processor chips, semi-conductor processors, microcontrollers, microcontroller units, low power microcontrollers, circuit chips, computer chips, CPU (central processing unit), RISC-V computer chips and central processing units, computer chips and central processing units with instruction set architecture and consultancy, information and advisory services relating to the aforesaid services; software as a service (SaaS) provider, namely, computer software applications for others for facilitating business transactions in the field of electronic commerce software for retail store services, wholesale store services and online trading services in which seller posts products to be auctioned and bidding is done via the Internet, software as a service (SaaS) provider featuring software for providing end users technical support in the form of troubleshooting of computers, servers and computer software problems, and troubleshooting to diagnose problems of telecommunications equipment, namely, satellite network, wireless computer network, telephone communications network, cable network and cellular network, electronic billing and payment processing services, providing virtual computer systems and virtual computer environments through cloud computing, namely, management of cloud computing systems and applications for others, cloud design and architecture maintenance and software for cloud storage and network management and consultancy, information and advisory services relating to the aforesaid services; computer support services [programming and software installation, repair and maintenance services] in connection with transmitting information, data, documents, and images over the Internet and consultancy, information and advisory services relating to the aforesaid services; application service provider (ASP) services, namely, hosting computer software applications of others and consultancy, information and advisory services relating to the aforesaid services; web portal services, namely, hosting an internet website portal containing an interactive computer database featuring movies programming, previews, trailers, sports, concerts, celebrity and entertainment news and other related information and consultancy, information and advisory services relating to the aforesaid services; application service provider (ASP) services for providing software in the fields of web-based conferencing, audio conferencing, electronic messaging, document collaboration, video conferencing, and voice and call processing and consultancy, information and advisory services relating to the aforesaid services; providing online non-downloadable software for facilitating the interoperability of multiple software applications within the same computer environment in the field of business, e-commerce, information technology, cloud computing, telecommunications, the Internet, business and e-commerce training, business, sales, marketing and financial management and consultancy, information and advisory services relating to the aforesaid services; technical support services, namely, providing temporary use of online non-downloadable computer programs for online backup of electronic files and off-site data backup facilities, troubleshooting of computer software problems to end users by means of telephone and global computer network and consultancy, information and advisory services relating to the aforesaid services; computer support services [programming and software installation, repair and maintenance services] in relation to creating an online community for registered users to participate in discussions, get feedback from their peers, form virtual communities, engage in social networking, and exchange documents and consultancy, information and advisory services relating to the aforesaid services; computer technology advice on programming and software installations, repair and maintenance provided to Internet users by means of a support hotline and consultancy, information and advisory services relating to the aforesaid services; computer support services [programming and software installation, repair and maintenance services] relating to creating indexes of information, sites and resources on computer

networks and consultancy, information and advisory services relating to the aforesaid services; providing search engines and consultancy, information and advisory services relating to the aforesaid services; design of computers, notebook computers, laptop computers, portable computers and handheld computers and consultancy, information and advisory services relating to the aforesaid services; design of personal digital assistants and personal media players and consultancy, information and advisory services relating to the aforesaid services; design of mobile telephones and smart phones and consultancy, information and advisory services relating to the aforesaid services; design of digital cameras and consultancy, information and advisory services relating to the aforesaid services; information technology (IT) services in the field of troubleshooting of computer hardware and software problems provided online, by email and by telephone and consultancy, information and advisory services relating to the aforesaid services; computer support services, namely, programming and software installation, repair and maintenance services in connection with transmitting information, data, documents, and images over the Internet, in relation to design, maintenance and updating of computer system software and consultancy, information and advisory services relating to the aforesaid services; computer programming and consultancy, information and advisory services relating to the aforesaid services; computer system integration services and consultancy, information and advisory services relating to the aforesaid services; computer analysis services and consultancy, information and advisory services relating to the aforesaid services; computer programming in relation to the defence against virus and consultancy, information and advisory services relating to the aforesaid services; programming, installation, repair and maintenance of computer system software and consultancy, information and advisory services relating to the aforesaid services; computer network services for exchanging of data and consultancy, information and advisory services relating to the aforesaid services; computer software design and consultancy, information and advisory services relating to the aforesaid services; computer system design and consultancy, information and advisory services relating to the aforesaid services; design and development of webpages and consultancy, information and advisory services relating to the aforesaid services; hosting webpages for others and consultancy, information and advisory services relating to the aforesaid services; hosting computer application software for searching and retrieving information from databases and computer networks and consultancy, information and advisory services relating to the aforesaid services; cloud computing provider services for general storage of data and consultancy, information and advisory services relating to the aforesaid services; providing on-line non-downloadable computer software and computer applications for streaming audio materials, video materials, videos, music and images and consultancy, information and advisory services relating to the aforesaid services; providing technical information in the field of computer software, computer hardware and computer programming at the specific request of end-users by means of telephone and global computer network and consultancy, information and advisory services relating to the aforesaid services; consultancy services in relation to computer software and consultancy, information and advisory services relating to the aforesaid services; design and development of search engines and consultancy, information and advisory services relating to the aforesaid services; design of computer codes and consultancy, information and advisory services relating to the aforesaid services; development of computer codes and consultancy, information and advisory services relating to the aforesaid services; coding of messages and consultancy, information and advisory services relating to the aforesaid services; conversion of physical data and documents into electronic media format and consultancy, information and advisory services relating to the aforesaid services; material testing and evaluation services and consultancy, information and advisory services relating to the aforesaid services; information services, namely, providing information via a website in the fields of Internet, world wide web, computer technology, and computerized communication network security and the secure transmission of data and

information, namely, email messages, text messages, photographs, graphics, music, audio books, podcasts, voice messages and video in the nature of movies, music videos, television programs, clips of movies and television programs, video messages and user uploaded video clips, via radio, telephone lines, satellite, cable network and wide area network and consultancy, information and advisory services relating to the aforesaid services; computer security services (testing and risk assessment of computer programs) and consultancy, information and advisory services relating to the aforesaid services; computer security services (testing and risk assessment of computer networks) and consultancy, information and advisory services relating to the aforesaid services; providing quality assurance services in the field of computer and data security and consultancy, information and advisory services relating to the aforesaid services; computer technological services in relation to the verification of online business transactions and consultancy, information and advisory services relating to the aforesaid services; computer security services relating to providing access control to computers, electronic networks and databases and consultancy, information and advisory services relating to the aforesaid services; data security services (firewalls) relating to data transmission and of transactions via computer networks and consultancy, information and advisory services relating to the aforesaid services; consultancy in the field of computer security and consultancy, information and advisory services relating to the aforesaid services; technological consultancy in the field of computer security relating to securing computer network communications by means of a global computer network and consultancy, information and advisory services relating to the aforesaid services; computerized communication network security services and consultancy, information and advisory services relating to the aforesaid services; providing information in the fields of computerized communication network security and computer security for the electronic transmission of data and information, namely, email messages, text messages, photographs, graphic images, music, audio books, podcasts, voice messages and digital videos, via the Internet and world wide web and consultancy, information and advisory services relating to the aforesaid services; consulting services in the fields of computerized communication network security services, information security services, computer security for the transmission of data and information via the internet and world wide web and consultancy, information and advisory services relating to the aforesaid services; authentication services for computer security and consultancy, information and advisory services relating to the aforesaid services; online authentication of electronic signatures and consultancy, information and advisory services relating to the aforesaid services; off-site data backup and consultancy, information and advisory services relating to the aforesaid services; electronic data storage, namely, archiving business documents, personal documents and corporate documents and consultancy, information and advisory services relating to the aforesaid services; providing information on computer technology and programming via a website and consultancy, information and advisory services relating to the aforesaid services; cartography services and consultancy, information and advisory services relating to the aforesaid services; rental of entertainment software and consultancy, information and advisory services relating to the aforesaid services; architectural design services and consultancy, information and advisory services relating to the aforesaid services; interior designing of buildings, offices and apartments and consultancy, information and advisory services relating to the aforesaid services.

Class 06

(1) Common metals and their alloys; metal construction materials in the form of panels, metal construction materials for use in the construction of barriers against the penetration of water or any other liquid; metal flood barriers; metal brackets for use in the construction of barriers against the penetration of water and any other liquids; metal flood barriers.

Class 09

(2) Instruments for measuring water levels, water mass, retention ponds and all industrial and chemical liquids; electric apparatus for measuring water levels, water mass, retention ponds and all industrial and chemical liquids; sensors, detectors and monitoring instruments, namely liquid level sensors, temperature sensors, electromagnetic measuring detectors, pressure sensors, laser sensors, movement sensors, turbidity sensors and sensors for calculating the flow velocity of a liquid; level indicators for water and any other liquid; quantity indicators, namely electronic instruments for measuring environmental parameters, in particular humidity, water levels, motion, debris shock and impact and the liquid stream; luminous, mechanical or digital safety signals; pressure meters, namely water level pressure sensors; observation instruments, namely monitoring computer software for detecting the presence and levels of water; electric and electronic alarms for detecting the presence and levels of water or any other liquids, namely alarms sensitive to rising water levels, electronic controllers with digital display for water level pressure sensors; remote control for automatic electronic control valves for regulating the flow of liquids.

Class 17

(3) Packing, stopping and insulating materials for repelling water, mud or any other liquid; caulking materials and coatings for repelling water, mud or any other liquid namely plastic, waterproof and insulation materials; sealing materials namely seals.

Class 19

(4) Prefabricated building kits, not of metal, namely portable freestanding safety barriers, not of metal, transportable buildings, not of metal namely devices for use in preventing water and any liquids from penetrating in buildings via freestanding barriers, non-metal construction materials, namely, construction materials in the form of plastic composite coatings, plastic composite construction panels, polymeric bitumen emulsions for waterproofing buildings, flood protection systems and apparatus, being construction elements, not of metal, namely transportable absorbent flood barriers, not of metal, devices for preventing water and any liquids from entering buildings, namely plastic conduits for drainage, plastic gutter pipes, ceramic water pipe valves, construction elements, not of metal, namely temporary flood and infiltration protection devices, namely waterproofing membranes and flood and infiltration protection tarpaulins, semi-permanent flood barriers, not of metal and portable flood barriers, namely portable plastic levees and freestanding barriers, transportable buildings, not of metal, namely mobiles plastic flood and infiltration protection barriers, namely portable levees and freestanding barriers, not of metal, transportable buildings, not of metal, namely flexible modular protective barriers for quick installation to protect from flooding, namely perimeter barriers, transportable absorbent flood dams, not of metal, namely freestanding perimeter barriers, constituent parts and pieces for all of the aforesaid goods.

Services

Class 37

(1) Construction, installation, repair and maintenance of flood protection systems, installation, repair and maintenance of flood warning systems, civil engineering relating to the prevention of land and building flooding, namely information and consulting regarding construction, the installation of flood prevention equipment, the repair and maintenance of flood protection systems, advisory services related to the installation of flood prevention equipment, consulting, advisory and information services for all of the aforesaid services.

Class 42

(2) Design and development of flood protection systems, design and development of engineering work to prevent flooding, advisory services related to flood prevention, technical consulting services related to civil engineering, research into flood detection and prevention methods, design and development of computers and software, design and development of computer hardware and software for flood warning systems, provision of the temporary use of non-downloadable software for the monitoring of floods and warning in relation to floods and industrial fluids, platform as a service (PaaS) software provider enabling users to communicate with professionals in the fields of flood monitoring and warning in relation to floods and industrial fluids, information, consulting, and assistance services in all of the aforesaid fields.

Class 45

(3) Security services for the protection of property and individuals; security services for buildings; security threat analysis for protecting individuals and property; legal advice for responding to calls for tenders related to environmental risks.

Trademark Description

The mark consists of the word: POLYTEKNIK followed by a figurative element resembling a sun or a star, which is consisting of a circle with 16 lines of varying length protruding from it.

Colour Claim

Colour is claimed as a feature of the trademark. The color dark blue (hex #212153) is claimed as a feature of the mark. The mark consists of the word "POLYTEKNIK" followed by a figurative element resembling a sun or a star, which is consisting of a circle with 16 lines of varying length protruding from it, all in the color dark blue (hex #212153).

Goods

Class 07

Cutting, drilling, abrading, sharpening and surface treatment machines and apparatus, namely, cutting machines for metal working, drilling machines for metal working, power drills for metal working, grinding machines for metal working and floor polishing machines; coating machines, namely, PVD (Physical Vapor Deposition) coating machines, electrostatic coating machines, electromagnetic coating machines, reflective and mirror coating machines, electron beam evaporation coating machines used in the thin-film deposition process to apply a coating of material onto a surface, namely glass, metal, or plastic; surface treatment machines, namely, grinding and polishing machines, machines for blast cleaning a surface used in the thin-film deposition process to apply a coating of material onto a surface, namely glass, metal, or plastic; machines for the preparation of surfaces for electrical and electronic components, namely, coating machines and polishing machines used in the thin-film deposition process to apply a coating of material onto a surface, namely glass, metal, or plastic.

Services

Class 40

(1) Application of coatings using chemical vapor deposition techniques; application of coatings using physical vapor deposition techniques; chemical vapour deposition coating services; sputter coating namely thin-film deposition process used to apply a coating of material onto a surface, namely glass, metal, or plastic; application of surface coatings to machines, sensors, tools, containers for storage purposes, and food storage containers; treatment and coating of metal surfaces namely thin film deposition coating.

Class 42

(2) Advisory services relating to industrial engineering; research and development of thin film deposition coatings namely the process of creating and depositing thin film coatings onto a substrate material; research relating to construction machinery, and coatings namely thin film deposition coatings namely the process of creating and depositing thin film coatings onto a substrate material.

Goods

Class 06

(1) Common metals and their alloys; metal construction materials in the form of panels, metal construction materials for use in the construction of barriers against the penetration of water or any other liquid; metal flood barriers; metal brackets for use in the construction of barriers against the penetration of water and any other liquids; metal flood barriers.

Class 09

(2) Instruments for measuring water levels, water mass, retention ponds and all industrial and chemical liquids; electric apparatus for measuring water levels, water mass, retention ponds and all industrial and chemical liquids; sensors, detectors and monitoring instruments, namely liquid level sensors, temperature sensors, electromagnetic measuring detectors, pressure sensors, laser sensors, movement sensors, turbidity sensors and sensors for calculating the flow velocity of a liquid; level indicators for water and any other liquid; quantity indicators, namely electronic instruments for measuring environmental parameters, in particular humidity, water levels, motion, debris shock and impact and the liquid stream; luminous, mechanical or digital safety signals; pressure meters, namely water level pressure sensors; observation instruments, namely monitoring computer software for detecting the presence and levels of water; electric and electronic alarms for detecting the presence and levels of water or any other liquids, namely alarms sensitive to rising water levels, electronic controllers with digital display for water level pressure sensors; remote control for automatic electronic control valves for regulating the flow of liquids.

Class 17

(3) Packing, stopping and insulating materials for repelling water, mud or any other liquid; caulking materials and coatings for repelling water, mud or any other liquid namely plastic, waterproof and insulation materials; sealing materials namely seals.

Class 19

(4) Prefabricated building kits, not of metal, namely portable freestanding safety barriers, not of metal, transportable buildings, not of metal namely devices for use in preventing water and any liquids from penetrating in buildings via freestanding barriers, non-metal construction materials, namely, construction materials in the form of plastic composite coatings, plastic composite construction panels, polymeric bitumen emulsions for waterproofing buildings, flood protection systems and apparatus, being construction elements, not of metal, namely transportable absorbent flood barriers, not of metal, devices for preventing water and any liquids from entering buildings, namely plastic conduits for drainage, plastic gutter pipes, ceramic water pipe valves, construction elements, not of metal, namely temporary flood and infiltration protection devices, namely waterproofing membranes and flood and infiltration protection tarpaulins, semi-permanent flood barriers, not of metal and portable flood barriers, namely portable plastic levees and freestanding barriers, transportable buildings, not of metal, namely mobiles plastic flood and infiltration protection barriers, namely portable levees and freestanding barriers, not of metal, transportable buildings, not of metal, namely flexible modular protective barriers for quick installation to protect from flooding, namely perimeter barriers, transportable absorbent flood dams, not of metal, namely freestanding perimeter barriers, constituent parts and pieces for all of the aforesaid goods.

Services

Class 37

(1) Construction, installation, repair and maintenance of flood protection systems, installation, repair and maintenance of flood warning systems, civil engineering relating to the prevention of land and building flooding, namely information and consulting regarding construction, the installation of flood prevention equipment, the repair and maintenance of flood protection systems, advisory services related to the installation of flood prevention equipment, consulting, advisory and information services for all of the aforesaid services.

Class 42

(2) Design and development of flood protection systems, design and development of engineering work to prevent flooding, advisory services related to flood prevention, technical consulting services related to civil engineering, research into flood detection and prevention methods, design and development of computers and software, design and development of computer hardware and software for flood warning systems, provision of the temporary use of non-downloadable software for the monitoring of floods and warning in relation to floods and industrial fluids, platform as a service (PaaS) software provider enabling users to communicate with professionals in the fields of flood monitoring and warning in relation to floods and industrial fluids, information, consulting, and assistance services in all of the aforesaid fields.

Class 45

(3) Security services for the protection of property and individuals; security services for buildings; security threat analysis for protecting individuals and property; legal advice for responding to calls for tenders related to environmental risks.

Colour Claim

Colour is claimed as a feature of the trademark. The colours white, green, orange, pink, purple, red, blue, and yellow are claimed as a feature of the mark. The word "Microbiome" is white on a green oblong shape with the upper left and lower right corners being rounded and the upper right and lower left corners being squared. The word "friendly" is green on a white oblong shape with a green bottom border, and with the upper left and lower right corners being squared and the upper right and lower left corners being rounded and is positioned within the lower right of the green oblong shape. To the left of the wording in the green oblong shape appears an orange and green circular swirl with pink, green, orange, purple, red, blue, and yellow circles and oblong shapes resembling microbes.

Goods

Class 03

(1) Soaps for body care; soaps for household use; soaps for laundry use; soaps for personal use; soaps for toilet purposes; liquid soaps for dish washing; shower soaps; deodorizing soaps; hand cleanser and hand washes; cosmetics; perfumery; fragrances; cosmetic creams; after sun creams; after-shave creams; anti aging creams; anti-wrinkle creams; anti-freckle creams; aromatherapy creams; bath creams; BB creams; beauty creams; body scrub creams; CC creams; cleansing and moisturizing creams; creams for the hair; hand creams; hand-washing cream; lip creams; make-up removing creams; cosmetic massage creams; moisturizing creams; nail creams; peeling creams; perfumed creams; self tanning creams; shaving creams; shower creams; skin care creams; skin cleansing creams; skin whitening creams; skin exfoliants; exfoliant creams; exfoliating scrubs for cosmetic purposes; non-medicated exfoliating preparations for hair; non medicated exfoliating preparations for the face; non-medicated exfoliating washes; after-shave balms; beard balms;

facial balms; foot balm; hair balms; shaving balms; skin care preparations, namely, body balm; beauty serum; facial serum; hair serum; non-medicated anti-aging serum; non-medicated skin serums; baby oils; bath oils; cleansing and moisturizing oils; cosmetic oils; essential oils for cosmetic purposes; essential oils as fragrances for laundry purposes; essential oils as perfume for laundry purposes; essential oils for use as a room fragrance; hair oils; non-medicated massage oils; nail oils for cosmetic purposes; oils for perfumes and scents; oils for toilet purposes; oils for toiletry purposes; perfume oils; skin oils; sun protection oils; eye creams; eye gels; eye lotions; eye serum; facial cream; facial mask; facial emulsions; facial lotions; facial oil; cosmetic facial care preparations; facial washes; body creams; body oil; body lotion; lotions for the body; facial serum; beauty serums; hand creams; hand lotion; foot cream; non-medicated foot care preparations; lip care preparations; lip balm; balms for lips; deodorants for personal use; deodorants for pets; antiperspirants for personal use; body washes; hair wash preparations; non-medicated feminine hygiene wash; non-medicated vaginal washes; facial washes; non-medicated mouth washes for pets; shower gel; non-medicated cleansing lotion; shower oil; cleansing milk; non-medicated cleansing oil; skin cleansing foam; cleansing pads impregnated with cosmetics; cleansing pads impregnated with toilet preparations; disposable baby wipes impregnated with personal cleansing preparations; disposable face and body wipes impregnated with cleansing compounds; disposable wipes impregnated with cleansing chemicals or compounds for cleansing the skin; disposable wipes impregnated with cleansing chemicals or compounds for cosmetic use; disposable wipes impregnated with cleansing chemicals or compounds for household use; disposable wipes impregnated with skin cleansers for feminine personal hygiene, namely external vaginal cleansing; facial wipes pre-moistened with personal cleansing and cosmetic lotions; bath powder; powder shampoos; soap powder; tooth powder; dry shampoos; bath lotion; face cleaning wipes; make-up removing preparations; cleansing lotions; facial cleansing gel; sunscreen creams and lotions and sun-tanning creams and lotions; sunscreen; cosmetic sun oils; sun creams; sun lotions; hair care and hair washing preparations; hair shampoos; hair masks; hair conditioners; scalp care preparations; shampoos; expedite hair masks; hair oil; dry shampoos; dentifrices in the form of chewing gum; non-medicated mouthwash; non-medicated mouth rinse; dentifrices; cosmetic tooth whiteners; toothpaste; tooth cream.

Class 05

(2) Sanitary preparations for medical purposes, namely, for the treatment of acne, oily skin, eczema, hives, psoriasis, rosacea, sunburns and severe dry and itchy skin; anti-microbial mouth washing preparations; disinfectants and antiseptics for use on the skin; disinfectant soaps; disinfectants for contact lenses; aerosol antiseptic sprays for use on the skin; anti-aging medicated skin care preparations; anti-friction skin preparations for preventing blisters; anti-friction skin preparations for preventing chafing; medicated cleansers for skin and wounds; medicated creams for hydrating the skin; medicated creams for moisturising the skin; medicated bath preparations for the treatment of irritated, itching and inflamed skin; medicated pads and cleansers for the treatment of acne and oily skin; medicated protective and moisturizing creams and ointments for severe dry and itchy skin; medicated skin care preparations for treating, reducing, and preventing lines, pores, and loss of skin firmness; medicated topical skin preparations for the treatment of acne; medicated topical skin preparations for the treatment of actinic keratosis; medicated topical skin preparations for the treatment of eczema; medicated topical skin preparations for the treatment of hives; medicated topical skin preparations for the treatment of psoriasis; medicated topical skin preparations for the treatment of rosacea; medicated topical skin preparations for the treatment of severe dry and itchy skin; medicated topical skin preparations for the treatment of sunburns; medicated topical skin preparations for the treatment of vitiligo; medicated topical tattoo numbing skin creams; medicated topical tattoo skin lotions; mosquito repellents for application to

the skin; natural medicines for improving skin health; pharmaceutical preparations for the treatment of bacterial skin infections, fungal skin infections, viral skin infections and parasitic skin infections; pharmaceutical preparations for the treatment of damaged skin and tissue namely bee stings, sunburn, rashes, sores, corns, calluses and acne; pharmaceutical preparations for the treatment of dermatitis, eczema, skin pigmentation diseases and psoriasis; pharmaceutical preparations for treating and preventing skin and nail diseases; pharmaceutical products and preparations for hydrating the skin during pregnancy; hair growth preparations; hair growth shampoo; medicated topical hair care preparations for the treatment of alopecia, cradle cap, dandruff, head lice, hirsutism, lichen planus, psoriasis and dermatitis; all purpose disinfectants; disinfectant soaps; disinfectants for household purposes; medicated soaps for the treatment of dermatitis, acne, eczema, skin pigmentation diseases, rosacea and psoriasis; anti bacterial soap; medicated antiperspirant soap; medicated soap for foot perspiration; medicated soaps for babies; hand-sanitizing soaps; surface-sanitizing soaps; antibacterial detergents; detergents for medical purposes; detergents for veterinary purposes; germicidal detergents; dietetic foods and dietetic substances adapted for medical use for the prevention and treatment of gastrointestinal diseases and disorders in humans; dietetic food and substances adapted for medical use for the prevention and treatment of iron deficiency and anaemia in humans; dietetic food and substances adapted for medical use for the prevention and treatment of cardiac disease in humans; dietetic beverages for babies adapted for medical purposes; dietetic foods and dietetic substances adapted for medical use for the prevention and treatment of gastrointestinal diseases and disorders in animals; dietetic food and substances adapted for medical use for the prevention and treatment of iron deficiency and anaemia in animals; dietetic food and substances adapted for medical use for the prevention and treatment of cardiac disease in animals; infant formula; dietary supplements and dietetic preparations for improving nail strength, supporting healthy skin and maintaining shiny hair; dietary supplements for animals for skin and coat health, bone and joint health, stress reduction, and digestive health; medicated anti-cavity dental rinses; medicated dental cleaning gels; medicated dental rinses; medicated toothpaste, toothpowder and toothgel; medicated mouth rinse; air deodorizers and air purifying preparations; pharmaceutical preparations for the treatment of dental and oral diseases; pharmaceutical preparations for the prevention and treatment of autoimmune diseases and disorders; pharmaceutical preparations for medical use, namely, for the prevention and treatment of diseases and disorders of the immune system; pharmaceutical preparations and substances for the prevention of diabetes; pharmaceutical preparations and substances for the treatment of gastro-intestinal diseases; pharmaceutical preparations for the relief of insect bites; pharmaceutical preparations for the treatment of acne; pharmaceutical preparations for the treatment of allergies; pharmaceutical preparations for the treatment of alopecia and androgenic alopecia; pharmaceutical preparations for the treatment of bacterial skin infections, fungal skin infections, viral skin infections and parasitic skin infections; pharmaceutical preparations for the treatment of damaged skin and tissue namely bee stings, sunburn, rashes, sores, corns, calluses and acne; pharmaceutical preparations for the treatment of dandruff; pharmaceutical preparations for the treatment of dental and oral diseases; pharmaceutical preparations for the treatment of dermatitis, rosacea, eczema, skin pigmentation diseases and psoriasis; adhesive bandages for skin wounds; antiseptic preparations for wound care; liquid bandages for skin wounds; medical cleansers for wounds; wound healing salves; and natural medicines for improving digestion; natural medicines for improving skin health; natural medicines for increasing general energy levels; natural medicines for promoting weight loss; natural medicines for reducing levels of harmful cholesterol in blood; natural medicines for treating allergy symptoms; medical dressings and plasters.

Class 12

(4) Boats; Canoes; Carriers for transporting watercraft on vehicles; Foot-propelled boats; Kayaks; Pedal-boats; Small boats; Water pedal boats; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely anchor kits comprising anchors and line, backrests, boat pontoons, canopies, crank shafts, dashboards, dashboard mounting plates, elastic cords, thwarts, motor mount, mounting kits to mount watercraft on vehicles, oars, padded chairs, paddle leashes, paddle holders, paddle tie downs, paddles, rudders, seat swivel mechanisms, skegs, splash guards, spray skirts, stand up paddles, storage hatches, storage pouches, thigh braces,; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small

boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely molded plastic components of boats, namely seats, end caps and bulkheads; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely covers, namely cockpit covers, sit-in cockpit covers, modified v hull boat covers, semi-fitted modified v hull boat cover, mooring covers, hatch covers; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely cushions, namely cushion sets specially adapted for use with watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles), padded seat cushions, folding seat cushions, seat cushions; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely bags, namely deck bags, thwart bags, underseat bags, boat flotation bags; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely pads, namely foot pads, knee pads; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely Metal hardware namely screws and nuts; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely pumps, namely air pumps, bilge pumps; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely repair kits comprising plastic patches and glue; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely repair kits to patch holes or cracks going through a hull comprising polyethylene pieces; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely seats, namely folding seats, molded plastic seats, stadium seats; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely security kits consisting of buoyant heaving line, bailer, whistle, watertight flashlight;

Class 16

(5) Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely glue for general bonding and repair purposes,

Class 17

(6) Boat accessories, namely, marine drain plugs of rubber and transom drain plug of rubber;

Class 18

(7) Dry bags; Boat accessories namely : dry bags; Boat accessories namely storage pouches; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled

boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely dry bags

Class 20

(8) Boat accessories namely seat swivel mechanisms; Boat accessories namely folding seat; Boat accessories namely folding seat cushions; Boat accessories namely seat cushions for canoes; Boat accessories namely canoe padded chairs; Boat accessories namely stadium seats; Boat accessories namely pedal boat cushion sets; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely scrub sponges, work tables; Boat accessories namely folding seat; Boat accessories namely folding seat cushions; Boat accessories namely seat cushions for canoes; Boat accessories namely canoe padded chairs; Boat accessories namely stadium seats; Boat accessories namely pedal boat cushion sets;

Class 21

(9) sponges, namely, cleaning sponges for watercraft; Boat accessories, namely security kits consisting of bailer, side organisers;

Class 28

(10) Boat accessories namely flush mount fishing rod holders ; Boat accessories namely swivel rod holders; Stand-up paddle boards; Stand up paddle boards; Accessories or structural parts or components for watercraft (namely boats, canoes, foot-propelled boats, kayaks, pedal boats, small boats namely stand up paddling boats, stand up paddle boards, water pedal boats, water vehicles) namely rod holders, namely flush mount fishing rod holder, swivel fishing rod holders;

Services

Class 35

Wholesale, Retail and Internet sales services for Boats, Canoes, Foot-propelled boats, Kayaks, Pedal-boats , Small boats, Stand up paddle boards , Water pedal boats, Water vehicles, Watercraft, Carriers for transporting watercraft on vehicles; Wholesale, Retail and Internet sales services for anchor kits, anchors, boat pontoons, Canopies for watercraft, carrier straps for watercraft, crank shafts, Dashboards for watercraft, dashboard mounting plates for watercraft, elastic cords, electric male plugs, glue, marine drain plugs of rubber and transom drain plug of rubber, motor mount for watercraft, mounting kits for watercraft, oars, padded chairs for watercraft, paddle leashes, paddle holders, paddle tie downs, paddles, repair kits for watercraft, rudders, seating for watercraft, watercraft seat back bucks, watercraft seat brackets and hardware, watercraft seat swivel mechanisms, side organizers for watercraft, skegs, splash guards for watercraft, scrub sponges, cleaning sponges for watercraft, spray skirts for watercraft, spray skirts (table spray skirts) for watercraft, spray skirts standard cockpit for watercraft, stand up paddles, storage hatches for watercraft, storage pouches for watercraft, thigh braces for watercraft, transom drain plugs, work tables; Wholesale, Retail and Internet sales services for molded plastic components of boats, namely seats, end caps and bulkheads; Wholesale, Retail and Internet sales services for covers, namely cockpit covers for watercraft, sitin cockpit covers for watercraft, , modified v hull boat covers, semi-fitted modified v hull boat cover, mooring covers, hatch covers, hatch covers for watercraft; Wholesale, Retail and Internet sales services for cushions, namely cushion sets specially adapted for use with watercraft, padded seat cushions, folding seat cushions, seat cushions; Wholesale, Retail and Internet sales services for Accessories, structural parts, components for watercraft (namely boats, canoes, foot-propelled boats; kayaks, pedal boats, small boats; stand up paddling boats, stand up paddle boards, water pedal boats; water

vehicles) namely bags, namely deck bags, dry bags, thwart bags, underseat bags, boat flotation bags; Wholesale, Retail and Internet sales services for pads, namely foot pads for watercraft, knee pads for sports use; Wholesale, Retail and Internet sales services for hardware namely screws and nuts; Wholesale, Retail and Internet sales services for pumps, namely air pumps, bilge pumps; Wholesale, Retail and Internet sales services for repair kits for watercraft comprising plastic patches and glue; Wholesale, Retail and Internet sales services for repair kits to patch holes or cracks going through a hull comprising polyethylene pieces; Wholesale, Retail and Internet sales services for fishing rod holders, namely flush mount fishing rod holder, swivel fishing rod holders; Wholesale, Retail and Internet sales services for seats, namely folding seats, molded plastic seats, stadium seats; Wholesale, Retail and Internet sales services for security kits for watercraft consisting of buoyant heaving line, bailer, whistle, watertight flashlight

The right to the exclusive use of the word Ceramics is disclaimed apart from the trademark.

Goods

Class 14

(1) Jewellery, jewellery boxes, beads for jewellery making, jewellery charms, cuff links and clocks.

Class 21

(2) Bowls, plates and dinnerware, namely cereal bowls, soup bowls, fruit bowls, mixing bowls, salad bowls, dipping bowls, condiment bowls, rice bowls, ramen bowls, dinner plates, side plates, saucers and dessert plates; Serving dishes, namely serving plates, serving bowls, serving platters, cheese boards, butter dishes, candy dishes, vegetable dishes, cake stands, champagne buckets, ice buckets and wine buckets; Food and beverage containers for household use, and food storage containers, namely canister sets, cookie jars, cruet sets for oil and vinegar, garlic keepers, salt and pepper shakers, colanders, juice reamers, pitchers, tea pots, sugar bowls, beverage containers, cups, mugs, coffee drippers and coffee mugs and travel mugs; Ovenware and bakeware, namely baking dishes, casserole dishes, pie plates, and egg poachers; Countertop and tabletop holders, namely soap holders, toothbrush holders, liquid soap and lotion dispensers, sponge holders, spoon rests, compost jars, table place card holders, napkin holders, napkin rings, trivets, ceramic coasters, pillar candle plates, candlesticks, candle holders, and incense burners; Containers for plants and animal food, namely flower vases, flower urns, and planters for flowers and plants; pet bowls, bird feeders, and bird baths; and Works of art, statues and figurines made of ceramic; and decorative plates.

Services

Class 35

Online retail store services featuring bowls, plates, dinnerware, serving dishes, food and beverage containers for household use, food storage containers, ovenware, bakeware, soap holders, toothbrush holders, liquid soap and lotion dispensers, sponge holders, spoon rests, compost jars, table place card holders, napkin holders, napkin rings, trivets, ceramic coasters, pillar candle

plates, candlesticks, candle holders, incense burners, flower vases, flower urns, and planters for flowers and plants; pet bowls, bird feeders, bird baths, works of art, statues and figurines, decorative plates, jewellery, jewellery boxes, beads for jewellery making, jewellery charms, cuff links and clocks.

Goods

Class 09

Computer game software; Computer games for use on mobile and cellular phones; downloadable computer software applications featuring software for playing computer games, software for playing video games, instant messaging software, and telecommunications software for providing user access to a global computer network; Pre-recorded computer software featuring software for playing computer games, software for playing video games, instant messaging software, and telecommunications software for providing user access to a global computer network; computer programs, namely, downloadable software featuring software for playing computer games, software for playing video games, instant messaging software, and telecommunications software for providing user access to a global computer network; video game cartridges; downloadable electronic publications, namely, newsletters, books, brochures, periodicals, reports, magazines, journals and manuals in the field of computer games, video games and esports; downloadable music files; downloadable image files, namely, pictures and photographs in the field of computer games and video games; computer hardware; computer peripheral devices, namely, computer mouse, computer keyboard, computer monitor, computer speakers, electronic smart pens, computer microphones, computer webcams and computer printers; computer keyboards; computer mouse; mouse pads; wrist rests for use with computers; laptop computers; sleeves for laptops; tablet computers; covers for tablet computers; blank smart cards; memory cards for video game machines; joysticks for use with computers, other than for video games; Security tokens to authenticate users, namely, encryption devices; USB flash drives; mobile telephones; cases for smartphones; protective films adapted for smartphones; cell phone straps; humanoid robots with artificial intelligence; virtual reality headsets; wearable video display monitors; headphones; materials for electricity mains namely, electric wires and electric cables; wires, electric; electric batteries for mobile phones, computer game consoles, computer game console controllers and computer hardware; battery chargers for mobile phones, computer game consoles, computer game console controllers and computer hardware; decorative magnets; video discs recorded with animated cartoons and downloadable digital video recordings featuring animated cartoons; cinematographic film, exposed; Earphones; cameras [photography]; portable power source,

namely, portable battery chargers for mobile phones, computer game consoles, computer game console controllers and computer hardware.

Services

Class 41

(1) Providing online non-downloadable computer games and video games from a computer network; publishing of computer games; organization of computer game and video game competitions; organization of cosplay entertainment events; providing on-line non-downloadable electronic publications, namely, newsletters, books, brochures, periodicals, reports, magazines, journals and manuals in the field of computer games, video games and esports; organization of exhibitions for cultural or educational purposes in the field of computer games, video games and esports; arranging and conducting of educational congresses in the field of computer games, video games and esports; presentation of live esports tournaments, computer game and video game performances; television entertainment, namely, production and distribution of television programmes, entertainment in the form of television shows and animated cartoons and providing television programmes, not downloadable, via video-on-demand services; film production, other than advertising films; providing on-line music, not downloadable; providing on-line non-downloadable videos featuring TV shows, animated cartoons and movies; providing films, not downloadable, via video-on-demand services; providing television programmes, not downloadable, via video-on-demand services; entertainment information in the field of computer games, video games and esports via computer networks and the internet; amusement park services; providing amusement arcade services; toy rental; games equipment rental.

Class 42

(2) Computer software design; rental of computer software; technical support services for the downloading of video games; hosting website and web based services for online management of personal computer game software; software as a service, namely, software for recording time in computer games and video games, software for displaying in-game data and scores, software for recording computer game and video game footage, software for taking screenshots of computer games and video games, software for computer game and video game enhancers; software as a service [SaaS] provider in the field of computer games, video games and esports; platform as a service [PaaS] featuring computer software platforms for use in the field of computer games, video games and esports; software development in the framework of software publishing; information technology [IT] consultancy, namely, computer software consultancy, computer security consultancy and internet security consultancy; installation of computer software; computer software consultancy; computer virus protection services; providing search engines for the internet; monitoring of computer systems by remote access; web site design consultancy; cloud computing, namely, cloud computing provider services for general storage of data, cloud computing web hosting services, cloud computing software for database management; computer technology consultancy; computer security consultancy; graphic arts design; industrial design.

Colour Claim

Colour is claimed as a feature of the trademark. The mark consists of one curved gray band and one curved red band intersecting to the left of the black wording "NOLATO".

Goods

Class 09

(1) Peripherals adapted for use with computers and other electronic devices and smart electronic devices, namely, headsets, scanners, readers, printers and speakers; point-to-point communications equipment, namely, cell phones, optical data links consisting of optical transceivers and optical transmitters and receivers, optical fibers and optical amplifiers, and communication transmission endpoints and nodes, in the nature of computers, computer hardware, and computer, network, internet, and cloud servers; covers for mobile phones; cases and covers for mobile phones and other electronic equipment, namely, electronic communication and telecommunication equipment, apparatus and instruments, namely, optical fiber telecommunications devices, digital transmitters, namely, microprocessors and digital signal processors, and computer storage devices, in the nature of hard drives, memory cards, and flash memory cards for computers, electronic data processing equipment in the nature of computers and computer hardware, test equipment for electronic apparatus, namely, computer hardware testing and calibrating equipment, electronic control and process control apparatus and instruments for use with computers and computer hardware, namely, electronic controllers for controlling drives and motors, electronic controls for motors, electrical charge controllers and charge regulators, and electronic controllers for use with power converters, electronic navigation and positioning

apparatus and instruments, electric and electronic security apparatus and instruments and electronic monitoring instruments, and for electronic components; electrical and electronic systems consisting of electrical charge controllers and charge regulators for controlling electric charge, torque and current; anti-interference devices for electric current, namely electric current control devices; filters for radio interference suppression; scientific research and laboratory apparatus, namely, laboratory balances and scales, centrifuges for laboratory use, laboratory hotplates and stirrers, laboratory incubators, microscopes, recirculating chillers and shakers; tubes for scientific use; test tubes; microtubes; plates for laboratory use; deep well plates; pipettes; pipette tips; vials for laboratory use; vial plugs; probes for scientific purposes; measuring spoons, measuring cups; vials for laboratory purposes.

Class 10

(2) Medical apparatus, namely, evasive and non evasive medical ventilators, medical devices for monitoring respiratory breathing patterns and events; therapeutic and assistive devices adapted for persons with disabilities, namely, medication tablet applicators, implants and long-term implants, namely cochlea implants, hip implants, ocular implants, orthopaedic implants, silicone prosthetic implants, spinal implants made from artificial materials, auto injectors and jet injectors for medical purposes, catheters, medical catheters, uretral catheters and urine catheters, infusion and drug delivery systems, namely infusion pumps; polymer-based products and components in the field of medical technology, being used for treatment or improvement of function or condition of persons, namely, medical gloves, dipped latex gloves for medical purposes, medical tubing, bulb syringes for medical use and for delivery of suture glue, medical bladders, medical bags and medical containers for concentrates and solutions in solid or liquid form for medical use; respiratory masks and apparatus for artificial respiration; respiratory masks for medical purposes; respiratory masks for artificial respiration; breathing bags; catheter balloons.

Class 17

(3) Semi-finished plastics materials; packing materials of rubber and plastics, insulating materials of rubber, plastics and silicone all for medical and pharmaceutical packaging; non-metallic seals for use in electromagnetic interference (EMI) shielding, plastic seals, molded gaskets of metal, extruded gaskets of metal, connection seals of rubber for pipes, non-metal flexible pipes, pipe couplings and joints, and pipe gaskets; adhesive bands, self-adhesive tapes, insulating tapes and bands; rubber and silicone rubber; thermal insulation articles and materials; acoustic insulation articles and materials; electric, thermal and acoustic insulation articles and materials; acoustic insulation barrier articles and materials; electromagnetic interference shields; electromagnetic interference shielding gaskets; electromagnetic interference articles and materials; thermally conductive insulating materials; thermal interface materials; silicone pads for thermal conduction; thermal fillers.

Class 20

(4) Non-metal containers, for storage and transport, and closures, not of metal, for containers; containers made of plastics for packaging; moulded plastic products and plastic components, namely, capsules, non-metallic carrying containers, non-metallic transport containers, non-metallic protecting containers, tubs and plastic containers for commercial packaging in the nature of jars; lids for jars, not of metal, sampling squeeze tubes, non-metal storage boxes, plastic squeeze tubes, empty, collapsible tubes of plastic, stoppers and crates of plastic; plugs not of metal.

Services

Class 37

(1) HVAC installation, maintenance and repair; installation of clean room systems; installation of clean room environmental control systems; installation of air conditioning apparatus for use in clean rooms; interference suppression in electrical apparatus; interference suppression services for electrical apparatus.

Class 40

(2) Custom manufacturing of molded components, thermoplastic components, elastomeric components, and of semiconductor components, devices and circuits, and assembly services, namely custom assembling of materials for others, custom assembling of electronic components for communication devices, mobile telephones and medical devices; custom manufacture of industrial tools for others; moulding services, namely, custom manufacturing of metal and plastic mouldings; injection moulding of plastics; injection moulding of silicone; injection blow moulding; ceramics injection moulding; dip moulding; micro moulding; compression moulding; treatment and finishing of materials, namely treatment and heat treatment of metals, electrochemical treatment and treatment and processing of plastics; ultrasonic welding; hot stamping; plating; pattern printing; dry mounting; treatment of metal, namely punching; flat bed punching; printing; laminating; milling, namely, machining using rotary cutters to remove material by advancing a cutter into a workpiece; embossing; abrasion, namely, abrasive polishing of metal surfaces; cutting, namely pattern cutting and metal cutting; die cutting; bonding of plastic products or rubber products; laser activated bonding; extruding services, namely moulding and hot moulding of metal, metal alloys and plastics; extruding of metal and metal alloys; extruding of plastics; silicone sponge extrusion; prototype fabrication of new products for others; virtual prototyping, virtual prototyping, namely, prototype fabrication of new products for others, by creating and combining computer generated geometrical shapes or parts and testing different mechanical motions, fit and function.

Class 42

(3) Development of polymer products and rubber products; industrial design; technological consultation services in the field of industrial design; industrial design services; product design consulting services; design and development of new industrial design products; design of manufacturing methods; product design in the field of industrial engineering; design of electrical and electronic systems; design of electric circuit boards; industrial tool design; design of clean rooms; layout design services for clean room environments; consultancy services relating to industrial design; material testing.

Software for creating searchable databases for information and data, for database and document management and for authorizing access to databases, for wireless delivery of data, digital files and information related to the operation of automated industrial machines and machine-to-machine networks, for administration of computer networks and local area networks, for computer access control and for controlling and managing access server applications, for monitoring and controlling communication between computers and automated industrial machine systems, software for use as an application programming interface (API) for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to the operation of automated industrial machines and machine-to-machine networks, and for use in the safeguarding of digital files related to the operation of automated industrial machines and machine-to-machine networks, software for image content analysis, database management and database integration, for remotely monitoring and controlling environmental conditions within a building, facility, grounds and designated spatial area, and for connecting, operating and managing network devices in the Internet of Things [IoT] being components of automated industrial machines, machine tools, building environmental access and security systems, and sensors for monitoring environmental conditions within buildings and industrial machinery; application software for creating searchable databases for information and data, for database and document management and for authorizing access to databases, for wireless delivery of data and information related to the operation of automated industrial machines and machine-to-machine networks, for administration of computer networks and local area networks, for computer access control and for controlling and managing access server applications, for monitoring and controlling communication between computers and automated industrial machine systems, computer software for use as an application programming interface (API) for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to the operation of automated industrial machines and machine-to-machine networks, computer software for use as an application programming interface (API) for use in image content analysis, database management and database integration, and for use in the safeguarding of digital files related to the

operation of automated industrial machines and machine-to-machine networks, for remotely monitoring and controlling environmental conditions within a building, facility, grounds and designated spatial area, and for connecting, operating and managing network devices in the Internet of Things [IoT] being components of automated industrial machines, machine tools, building environmental access and security systems, and sensors for monitoring environmental conditions within buildings and industrial machinery; downloadable software applications using artificial intelligence for use in software development and machine learning of software for monitoring and controlling industrial automation of machines and industrial automated machines systems and software using artificial intelligence for or use in the evaluation and analysis of data utilizing machine learning; simulation software for monitoring, analysing, controlling and running physical world operations for use with automated industrial machines and machine-to-machine networks; communications and information software that enables communication between computers, computer hardware, and automated industrial machines and machine-to-machine networks for monitoring, analysing, controlling and running industrial network operations; communications software for the monitoring of computer operating systems; communications and information software for remote monitoring and analysis of the performance and operation of automated industrial machines and machine-to-machine networks; computer hardware for the control of industrial automation; industrial automation software for monitoring and controlling industrial machines and machine tools and for use in the calculation of operational and status data and for optimizing the use and efficiency of the aforesaid industrial machines and machine tools; factory automation software, namely, software to integrate manufacturing machine operations, track problems and generate production reports for industrial machines and machine tools; Robotic Process Automation [RPA] software for developing, implementing, monitoring and managing the automation of business operations and processes for enterprises and for automating personal information management for business and personal use; computer and computer network operating system software and computer and computer network operating system support software; telecommunications and data networking hardware, namely, computer networking hardware, computer hardware for network access, LAN and WAN hardware and computer hardware for managing networks for transporting and aggregating voice, data and video communications across multiple network infrastructures and communications protocols; data communication computer software and network management computer software for connecting networked computers, computer networks and networked automated industrial machines via a wireless computer network; communication software for connecting global computer networks and computer network users; computer networking servers, adaptors, bridges, hubs, switches and routers, and computer communications hardware and computer hardware for wireless communication for transmission of electronic messages, images and audio and video signals; computer network performance monitoring and traffic monitoring software, and computer software for monitoring computer network access and activity; computer network performance monitoring and traffic monitoring hardware and computer hardware for monitoring computer network access and activity; digital tablets; digital tablets with built-in computer network performance monitoring and traffic monitoring software; measuring, detecting, monitoring and controlling devices, namely, electronic measuring devices and measuring apparatus, namely, diagnostic tools, resistance and laser measuring instruments and systems, namely, ohmmeters, and laser distance meters, voltage meters, conductivity meters and multimeters, testing equipment for measuring the temperature, pressure, position or form of workpieces in a machine tool, measuring tools having a pattern in the micrometer or nanometer ranges, namely, micrometer screw gauges, micrometer calipers, nanometer displacement measuring instruments in the nature of laser interferometers, indentation testers, and nano positioning and nano measuring instruments, namely, electronic instruments for use in remote inspection and measurement of industrial components using remote visual devices,

namely, remotely operated cameras, borescopes, video borescopes and fibre-optic borescopes, videoscopes and fibrescopes, and force measurement products, namely, force transducers, digital force gauges and digital torque gauges, electromagnetic measuring detectors, infrared detectors, instruments for detecting and measuring two-dimensional distribution of force and pressure, namely, force mapping systems and pressure mapping systems comprised of sensors to capture the magnitude and distribution of forces and pressures exerted on surfaces, monitoring devices for monitoring battery performance characteristics, battery monitors and battery performance monitors, voltage monitor modules, electronic monitors for monitoring flowmeters, electronic monitors and monitor modules for monitoring electric current and electrical signals, temperature switches and pressure switches and sensors for monitoring, controlling and switching hydraulic or pneumatic systems, electronic monitors, namely, programable electronic data acquisition and control apparatus to collect operational data and settings, namely, temperature data and settings, from industrial machinery to ensure proper functioning, hardware for industrial process control, namely, automated process control system comprised of logic based hardware used to monitor the status of industrial machinery, wireless electronic controllers to remotely monitor and control the function and status of other electrical, electronic and mechanical devices or systems, namely, automated industrial machine systems and computer hardware for factory manufacturing processes, electrical controlling devices and electrical controllers for controlling automated industrial machine systems and factory manufacturing processes, namely, power controllers, ethernet controllers, industrial automation controls, programmable logic controllers, remote controls for motors, electronic control systems for industrial machines, computer controls for the operation and optimization of performance efficiency and use of machine tools, electric converters for signal conditioning and communication devices for industrial process control, for manipulation of sensor output signals for processing, electric installations and electronic apparatus, namely, remote controllers for the remote control of industrial operations, level switches and flow switches for monitoring and controlling flow and levels of gases and liquids, modules for monitoring and controlling electric current, pressure controllers for the pressure of liquid and gaseous substances in industrial processes, pneumatic and hydraulic directional control valves for use in automated production machinery, electronic interface cards, boards and circuits, for machine tools to input or output CNC data, power and data network switch ports for use with electrical panels for connecting multiple data and electrical devices, for use in industrial machine automation technology and automated industrial machines systems technology; monitoring apparatus and instruments being sensors for monitoring, diagnosing and controlling communication between computers, for environmental monitoring and control in industrial buildings, and for monitoring and control of automated industrial machine systems and factory manufacturing processes; measuring and monitoring instruments in the nature of network hardware for use in functionality inspection, remote functionality inspection and measurement of functionality in industrial machines and machine tools networks; electric and electronic monitoring apparatus in the nature of network hardware for monitoring, diagnosing and controlling communication between environmental monitoring and control sensors and devices, automated industrial machine systems and automated machine systems in industrial networks, and for monitoring and control of repetitive factory manufacturing and continuous process manufacturing processes; optical sensors, electric sensors, infrared sensors, industrial calibration sensors, sensors for use in automation, industrial automation and factory automation, detectors and infrared detectors for use in automation, industrial automation and factory automation, all for use in collecting information of pressure, temperature, motion, and device status of industrial equipment and apparatus; computer network monitoring interface devices being computer network routes, servers, and switches; electronic touch display screens; electronic indicator panels; testing and quality control devices, namely, printed circuit board (PCB) testing devices, electrical test devices for creating signals and recording responses from electronic

devices, network protocol test devices, devices for checking protocol information and network test checking devices all for use with automated industrial machines; electricity measuring instruments, namely, meters and multimeters for measuring values of electrical parameters; oscilloscopes; integrated oscilloscopes; computer buses; data bus interfaces and data bus interface units, namely, data buses, address buses, control and communication buses, system buses, expansion buses, input and output buses, internal and external buses, all of the foregoing being universal serial bus [USB] hardware; bus monitors, in the nature of universal serial bus [USB] hardware, for monitoring and remotely monitoring data communication between computers; data processing software for use in creating graphic representations; software for use in network topology mapping; reporting software for reporting data and information from a computer network monitoring system; computer hardware for data processing; computer hardware for data processing, namely, couplers; computer hardware for data processing, namely, fiber optic coupler modules; network gateways for collection and management of data and information, gateway routers in the nature of computer control hardware; IoT network gateways for collection and management of data and information in an IoT system, IoT gateway routers in the nature of computer control hardware; electric converters; cable-wireless and wireless-cable electronic converters; wireless network repeaters and ethernet repeaters; wireless network repeater modules and ethernet repeater modules; fiber optic connectors and couplings, namely, fiber optic modules; fiber optic connectors and couplings, namely, fiber optic rings; fiber optic connectors and couplings, namely, fiber optic ring modules; slave modules, namely, modules for communication with and control of computers, computer hardware, and computer networks; wireless network modular repeaters and ethernet repeaters; web application and server software for use in wireless delivery of data, digital files and information related to the operation of automated industrial machines and machine-to-machine networks, for administration of computer networks and local area networks, for computer access control and for controlling and managing access server applications, for monitoring and controlling communication between computers and automated industrial machine systems, for use as an application programming interface (API) for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to the operation of automated industrial machines and machine-to-machine networks, for use in image content analysis, database management and database integration, for remotely monitoring and controlling environmental conditions within a building, facility, grounds and designated spatial area, and for connecting, operating and managing network devices in the Internet of Things [IoT] being components of automated industrial machines, machine tools, building environmental access and security systems, and sensors for monitoring environmental conditions within buildings and industrial machinery; web server software for use in wireless delivery of data, digital files and information related to the operation of automated industrial machines and machine-to-machine networks, for administration of computer networks and local area networks, for computer access control and for controlling and managing access server applications, for monitoring and controlling communication between computers and automated industrial machine systems, for use as an application programming interface (API) for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to the operation of automated industrial machines and machine-to-machine networks, for use in image content analysis, database management and database integration, for remotely monitoring and controlling environmental conditions within a building, facility, grounds and designated spatial area, and for connecting, operating and managing network devices in the Internet of Things [IoT] being components of automated industrial machines, machine tools, building environmental access and security systems, and sensors for monitoring environmental conditions within buildings and industrial machinery; web servers; network servers; network server software for use in wireless delivery of data, digital files and information related to the operation of automated industrial

machines and machine-to-machine networks, for administration of computer networks and local area networks, for computer access control and for controlling and managing access server applications, for monitoring and controlling communication between computers and automated industrial machine systems, for use as an application programming interface (API) for the collection, editing, organizing, modifying, book marking, transmission, storage and sharing of data and information related to the operation of automated industrial machines and machine-to-machine networks, for use in image content analysis, database management and database integration, for remotely monitoring and controlling environmental conditions within a building, facility, grounds and designated spatial area, and for connecting, operating and managing network devices in the Internet of Things [IoT] being components of automated industrial machines, machine tools, building environmental access and security systems, and sensors for monitoring environmental conditions within buildings and industrial machinery; network access server hardware; network access server software; network condition indicators; digital input modules, namely computer memory expansion modules; electrical and electronic components, namely, electrical protection relays, electric contactors, electrical circulators, optical receivers, optical transmitters, transceivers and electronic components for computers, namely computer hardware; computer chips, silicon chips, semiconductor chips; computer chip sets, silicon chip sets, semiconductor chip sets, all for use in transmitting data to and from a central processing unit; fiber optics; fiber optic couplings; fiber optic modems; optical fibers; electrical connectors; optical fiber connectors; electrical plugs, sockets and other contacts, being electrical plugs, sockets and electrical circuit components in electrical switches, relays, connectors and circuit breakers; electric contact screws for plug sockets; plug cage clamp connectors; backplanes; tap connectors; electric and electronic cables; bus cables; electricity conduits; USB hubs; computer network communication hubs; computer network hubs; electrical current switches; telecommunication ethernet switches; computer network switches; wireless computer ethernet switches; computer network hub power units; electrical terminators; software for diagnostics, troubleshooting and remote diagnostics of network operation for computers, computer networks and computer systems and computer communication systems; computer utility programs for performing computer systems diagnostics; computers, computer networks and systems and computer communication fault detectors; training apparatus and simulators, namely, electronic training devices being electronic simulators and simulation software for educational and testing environments in the field of computers, computer hardware, computer networks, automated industrial machines and factory manufacturing processes.

Services

Class 37

(1) Installation of automation equipment, namely, installation of automation sensors, automation network devices, automation networks and automated network systems all for use in buildings, automated industrial machinery and machine-to-machine networks; installation of industrial automation equipment, namely, installation of industrial automation sensors, industrial automation network devices, industrial automation networks and automated industrial network systems, all for use in buildings, automated industrial machinery and machine systems networks; advisory services relating to installation of automation equipment, namely, advisory services related to installation of automation sensors, automation network devices, automation networks and automated network systems, all for use in buildings, automated industrial machinery and machine-to-machine networks; advisory services relating to installation of industrial automation equipment, namely, advisory services related to installation of industrial automation network sensors, industrial automation network devices, industrial automation networks and automated industrial network systems, all for use in buildings, automated industrial machinery and machine-to-machine networks; installation, maintenance and repair of computers, computer hardware and peripherals;

installation, maintenance and repair of telecommunications computer hardware; installation, maintenance and repair of computer network and information technology hardware in the nature of computer hardware; maintenance and repair of computer communications hardware and networks, telecommunications computer hardware and networks and data communications computer hardware and networks; maintenance and repair of industrial machinery and industrial electronic production equipment in the nature of factory automation equipment, namely, robots.

Class 38

(2) Telecommunication access services, namely, providing computer network access via fiber optic networks, wireless networks, and cable networks; computer communication over electronic communication networks, namely transmission of data and information collected from the operation of automated industrial machines networks over electronic communications networks.

Class 41

(3) Education in relation to computers, computer systems and networks and computer use; IT training services, training in the field of communication technologies; training courses relating to computer communications, telecommunications and computer data communications systems, software, software packages, networks, and computer hardware; providing education examination in the field of computer communications, telecommunications and computer data communications systems, software, software packages, networks, and computer hardware; provision of educational courses relating to automation of industrial machines; arranging and providing instruction and training relating to automated industrial machinery; arranging and providing instruction and training relating to computer communications, telecommunications and computer data communications systems, software, software packages, networks, computer hardware; arranging and providing instruction and training relating to installation and use of networked industrial automation machines.

Class 42

(4) Design of automated network machinery for use in the industrial sector; technical research relating to automated processes in automated machinery for use in the industrial and manufacturing sectors; technical research relating to computer programs designed for use with industrial machinery in the field of automated manufacturing processes in industrial machinery; technical research relating to the computerized automation processes in automated machinery for use in the industrial and manufacturing sectors; technical research relating to the computerized automation of technical processes in automated machinery for use in the industrial and manufacturing sectors; technical research relating to the computerized automation of decision making, task assignment, information gathering and resource allocation in the field of industrial automation; creation, development, programming, implementation and adaptation of software for administration of computer networks and local area networks, for computer access control and for controlling and managing access server applications, for monitoring and controlling communication between computers and automated machine systems, for use in the safeguarding of digital files, for remotely monitoring environmental conditions and controlling devices within a building, facility, grounds or designated spatial area, and for connecting, operating and managing network devices in the Internet of Things [IoT]; troubleshooting in the nature of diagnosing computer hardware and software problems; troubleshooting in the nature of diagnosing of software problems in relation to automation and industry automation; troubleshooting in the nature of diagnosing computer software and hardware problems relating to automation processes and industrial automation machinery; computer programming and installation, maintenance, updating and upgrading of computer programs; consultancy and information services relating to the design, programming and maintenance of computer software; monitoring and remote monitoring of computer systems; electronic data collection, namely, industrial machine monitoring and industrial machine condition

monitoring; monitoring of networks and network systems; computer software support services, online support services for computer program users, computer support services being installation, repair, maintenance and programming of software, technical support services being monitoring of computer systems to detect breakdowns and troubleshooting of computer systems to detect breakdowns, technical support related to computers being installation and configuration of databases; software technical support services; technical support services relating to computer software and applications; provision of technical support in the operation and supervision of computer networks; software support and maintenance services; testing of computers, computer software, computer performance, computer systems, computer peripherals devices, network machines and networks, authentication of digital certificates and quality control of services in the field of industrial repetitive factory manufacturing and continuous process manufacturing processes and for others; technical testing services for industrial machinery, computers, computer software, computer performance, computer systems, industrial network devices, machines and networks; quality control testing of computers, computer software, computer performance, computer systems, industrial devices, machines and networks; quality control testing of computer systems, industrial manufacturing machinery, and industrial machinery and machine-to-machine networks; testing the functionality of industrial machinery; testing of computing equipment and computer systems, software and hardware; testing of computer systems, software and hardware for electronic data processing; testing, analysis and evaluation of the goods and services of others to determine conformity with certification standards; certification of educational services, namely, testing, analysis and evaluation of educational services of others to determine conformity with certification standards; testing of products for others in the field of electrical engineering for certification purposes; machine and equipment commissioning services, namely, testing, analysis and evaluation of network communication conformity of devices, machines and systems for others.

Goods

Class 07

(1) Industrial robots, unmanned industrial robots for conveying food and beverages, unmanned industrial robots for dispensing food and beverages, unmanned industrial robots for preparing meals and cooking food, robots and robotic arms for food chopping for commercial use, robots and robotic arms for food cutting for commercial use, robots and robotic arms for food peeling for commercial use, robots and robotic arms for food slicing for commercial use, food chopping machines for commercial use, food cutting machines for commercial use, food mixing machines for commercial use, food peeling machines for commercial use, dishwashers, autonomous dishwashers, smart dishwashers, and parts and fittings therefor.

Class 11

(2) Cooking grills, autonomous cooking grills, smart cooking grills, fridge-freezers, autonomous fridge-freezers, smart fridge-freezers, freezers, autonomous freezers, smart freezers, refrigerators, autonomous refrigerators, smart refrigerators, ovens, namely convection ovens, induction ovens, cooking ovens for household purposes, commercial cooking ovens and toaster ovens, and autonomous ovens, namely convection ovens, induction ovens, cooking ovens for household purposes, commercial cooking ovens and toaster ovens, and smart ovens, namely convection ovens, induction ovens, cooking ovens for household purposes, commercial cooking ovens and toaster ovens, and microwave ovens, autonomous microwave ovens, smart microwave ovens, ranges, autonomous ranges, smart ranges, beverage dispensing machines, temperature-controlled food dispensers and dispensing units, and parts and fittings therefor.

Class 21

(3) Non-electric pots and pans, cooking utensils.

Services

Class 35

(1) Sale of commercial kitchen equipment, autonomous technology, namely machinery for the food industry, and robots and robotic arms for the food industry, smart kitchen equipment, cooking grills,

autonomous cooking grills, smart cooking grills, fridge-freezers, autonomous fridge-freezers, smart fridge-freezers, freezers, autonomous freezers, smart freezers, refrigerators, autonomous refrigerators, smart refrigerators, ovens, autonomous ovens, smart ovens, microwave ovens, autonomous microwave ovens, smart microwave ovens, ranges, autonomous ranges, smart ranges, dishwashers, autonomous dishwashers, smart dishwashers, food and beverage dispensing machines, pots, pans, cooking utensils.

Class 37

(2) Installation of commercial kitchens; installation of autonomous technology, namely machinery for the food industry; installation of smart kitchens; installation of robots and robotic arms for the food industry; installation of cooking grills, autonomous cooking grills, smart cooking grills, fridge-freezers, autonomous fridge-freezers, smart fridge-freezers, freezers, autonomous freezers, smart freezers, refrigerators, autonomous refrigerators, smart refrigerators, ovens, autonomous ovens, smart ovens, microwave ovens, autonomous microwave ovens, smart microwave ovens, ranges, autonomous ranges, smart ranges, dishwashers, autonomous dishwashers, smart dishwashers, food and beverage dispensing machines.

Class 40

(3) Custom manufacture of commercial kitchen equipment, autonomous technology, namely machinery for the food industry, and robots and robotic arms for the food industry, smart kitchen equipment, cooking grills, autonomous cooking grills, smart cooking grills, fridge-freezers, autonomous fridge-freezers, smart fridge-freezers, freezers, autonomous freezers, smart freezers, refrigerators, autonomous refrigerators, smart refrigerators, ovens, autonomous ovens, smart ovens, microwave ovens, autonomous microwave ovens, smart microwave ovens, ranges, autonomous ranges, smart ranges, dishwashers, autonomous dishwashers, smart dishwashers, food and beverage dispensing machines, pots, pans, cooking utensils.

Class 42

(4) Design and development of commercial kitchen equipment, autonomous technology for the food industry, robots and robotic arms for the food industry, smart kitchen equipment, cooking grills, autonomous cooking grills, smart cooking grills, fridge-freezers, autonomous fridge-freezers, smart fridge-freezers, freezers, autonomous freezers, smart freezers, refrigerators, autonomous refrigerators, smart refrigerators, ovens, autonomous ovens, smart ovens, microwave ovens, autonomous microwave ovens, smart microwave ovens, ranges, autonomous ranges, smart ranges, dishwashers, autonomous dishwashers, smart dishwashers, food and beverage dispensing machines, pots, pans, cooking utensils; Software as a Service (SAAS) for providing information and updated information on how to use robots, machines, equipment and appliances for the preparation, dispensing, storage, cooking, conveying of food and beverages, and how and when to maintain, upgrade, replace and repair; electronic data collection, analysis and reporting on the performance of networked robots, machines, equipment and appliances used in the food industry through Internet of Things (IoT) communication; platform as a service (PaaS) featuring computer software platforms for use in developing, interpreting and managing IoT (Internet of Things) devices, systems and applications relating to robots, machines, equipment and appliances used in the food industry.

(1) Machine tools for the metalworking industry; die-casting machines; gravity die casting machines; low-pressure casting machines; mobile elevating work platforms; foundry machines, namely, casting machines; metalworking machine tools; metalworking machines; industrial machine presses; die-stamping machines; die-casting moulds being parts of machines; mechanical discharge hoppers

Class 09

(2) Scientific apparatus and instruments for measuring, detecting, testing and inspecting metalworking equipment quality of machine tools for the metalworking industry, metalworking machines, industrial machine presses, die-stamping machines, die-casting moulds being parts of machines, mechanical discharge hoppers, die-casting machines, gravity die casting machines, pressure casting machines, mobile elevating work platforms, metalworking machine tools and foundry machines, namely, casting machines; computer software for monitoring, recording, collecting, analyzing and managing operational and status data and efficiency performance of machine tools for the metalworking industry, metalworking machines, industrial machine presses, die-stamping machines, die-casting moulds being parts of machines, mechanical discharge hoppers, die-casting machines, gravity die casting machines, pressure casting machines, mobile elevating work platforms, metalworking machine tools and foundry machines, namely, casting machines; computer software for industrial process control

Services

Class 37

(1) Installation, maintenance, overhaul and repair services and technical support in the nature of maintenance and repair, in relation to the following goods: machine tools, foundry machines, metalworking machines, presses [machines for industrial purposes], die-stamping machines, moulds (parts of machine), hoppers [mechanical discharging], casting machines, die-casting,

gravity casting and low-pressure casting machines and automated working platforms, and metalworking machine tools

Class 40

(2) Custom manufacture of machine tools, foundry machines, metalworking machines, presses [machines for industrial purposes], die-stamping machines, moulds (parts of machine), hoppers [mechanical discharging], casting machines, die-casting, gravity casting and low-pressure casting machines and automated working platforms, and metalworking machine tools

Class 42

(3) Research, development, designing and engineering in relation to the following goods: machine tools, foundry machines, metalworking machines, presses [machines for industrial purposes], die-stamping machines, moulds [parts of machines], hoppers [mechanical discharging], machines for casting, die-casting, gravity casting and low-pressure casting machines and automated working platforms, and metalworking machine tools; industrial analysis and research in relation to the following goods: machine tools, foundry machines, metalworking machines, presses [machines for industrial purposes], die-stamping machines, moulds [parts of machines], hoppers [mechanical discharging], machines for casting, die-casting, gravity casting and low-pressure casting machines and automated working platforms, and metalworking machine tools; design and development of computers and computer software programs for machine tools, foundry machines, metalworking machines, presses [machines for industrial purposes], die-stamping machines, moulds [parts of machines], hoppers [mechanical discharging], casting machines, die-casting, gravity casting and low-pressure casting machines and automated working platforms, and metalworking machine tools; research and development of new products for others in relation to the following goods: machine tools, foundry machines, metalworking machines, presses [machines for industrial purposes], die-stamping machines, moulds [parts of machines], hoppers [mechanical discharging], machines for casting, die-casting, gravity casting and low-pressure casting machines and automated working platforms, and metalworking machine tools

(3) Floor cleaning machines; steam cleaning machines; high pressure cleaning machines namely high pressure washers; carpet cleaning machines; industrial cleaning machines namely carpet shampooers; industrial cleaning machines namely vacuum cleaners; vacuum cleaners; electric machines and apparatus namely steam cleaning machines, shot blasting machines, dry-cleaning machines, floor scrubbing and polishing machines; parts and fittings for floor cleaning machines, steam cleaning machines, high pressure cleaning machines namely, machines for cleaning surfaces using high-pressure water, carpet cleaning machines, industrial cleaning machines, namely electric machines for carpet shampooing, industrial cleaning machines namely, vacuum cleaners; vacuum cleaners, electric machines namely steam cleaning machines, shot blasting machines, dry-cleaning machines, floor scrubbing and polishing.

Class 09

(4) Scientific, research and laboratory apparatus namely, pipettes and droppers for laboratory use and their storage units, vials for laboratory use, laboratory glassware for laboratory use, laboratory tools for collecting, storing, processing samples namely, laboratory burettes, laboratory flasks, laboratory incubators, laboratory racks, laboratory scales and balances, laboratory slides, laboratory stirrers, laboratory storage tubes, laboratory swabs, laboratory thermometers, laboratory transfer pipettes, laboratory trays and laboratory instrument for the detection of pathogens and biomarkers in blood, body fluids, blood derivatives and body fluid derivatives for clinical research and scientific purposes, the aforesaid not including goods being or goods related to automated chemistry analyzers to be used in laboratories; downloadable software applications for recording, tracking and collating medical test results.

Class 10

(5) Diagnostic apparatus and instruments for medical purposes namely diagnostic biomolecule and DNA sequence detection devices for clinical medical purposes, Rapid Antigen Test (RAT), namely test apparatus for diagnosing the presence of drugs in blood and urine samples; Medical instruments for collecting blood, urine, fecal and saliva samples for use in molecular analytics and genetic, proteomic, metabolomic and microbiomic testing and for testing human infectious diseases; testing instruments and probes for medical diagnostic purposes in the nature of medical testing apparatus for testing bodily fluid, and for identifying human infectious diseases or immune deficiencies, namely, body fluids analyzer for medical purposes; diagnostic testing apparatus for use in immunoassay procedures namely immunoassay kits containing immunological reagents for medical diagnostic use; medical apparatus and instruments for use in medical procedures, namely personal protective equipment namely disposable protective clothing for medical purposes, disposable protective footwear for medical purposes, disposable protective headgear for medical purposes, ace masks being sanitary masks for protection against viral infection, face shield for protective breathing masks for medical purposes, protective gloves for medical use, syringes for medical purposes, surgical equipment namely disposable surgical gowns, disposable surgical caps, disposable surgical masks, elastic stockings for surgical use, latex gloves for surgical purposes, reusable surgical caps, reusable surgical gowns, reusable surgical masks; surgical instruments, electric cauteries for surgical use, electric scalpels for surgical use, knives for surgical use, lasers for surgical use, medical and surgical laparoscopes, surgical blades, surgical bougies,

surgical breathing masks; suture materials; personal protective equipment for medical and healthcare use, namely disposable gloves, face masks, gowns and aprons, overalls, face shields, caps, shoe coverings; respiratory masks for medical use; thermometers for medical purposes.

Services

Class 35

Retail and wholesale services in relation to the sale of cleaning, fragancing and deodorizing preparations in the nature of chemical sprays, namely, biotechnological chemical spray cleaners for industrial, institutional, commercial facilities and household use, cleaning, fragancing and deodorizing preparations other than for personal use, namely all purpose water based cleaning preparations, spray cleaners for household purposes, multi-surface cleaner, glass cleaners, grout cleaner, oven cleaners, laundry additives namely scent boosters, multi-surface cleaner, glass cleaners, upholstery cleaners, floor, carpet and curtain cleaners, all-purpose stain removers for household purposes, laundry stain removers, upholstery cleaners, floor, carpet and curtain cleaning preparations, carpet shampoos, toilet descaler; retail and wholesale services in relation to the sale of diagnostic preparations and materials for medical use namely medical diagnostic reagents and assays for testing of body fluids, medical diagnostic reagents and assays namely medical diagnostic reagents and assays for testing of body fluids, medical diagnostic test strips for use in detecting human infectious diseases, blood glucose, pH level in human bodies, allergic reactions, iron deficiency, vitamin deficiency, hypothyroidism, stomach ulcer, cancer, infections, COVID-19, coronavirus, flu, bacterial vaginosis, fertility, ovulation, pregnancy and the presence of drugs in test samples, diagnostic substances for medical use namely, diagnostic reagents and contrast media for medical use, diagnostic media for bacteriological cultures, diagnostic biomarker reagents for medical purposes, diagnostic reagents for medical use in in vitro diagnosis, chemical products for use with molecular diagnostic testing apparatus for human infectious diseases, for medical use, namely diagnostic reagents for medical diagnostic use, sanitary preparations and articles, namely alcohol based antibacterial skin sanitizer gels, hand-sanitizing preparations, sanitizing preparations for medical use namely hand-sanitizing preparations in the nature of liquids, gels, lotions, wipes and sprays, sanitizers for household, industrial or office use, surface sanitizing preparations, sanitizing wipes namely impregnated antiseptic wipes, disposable wipes impregnated with sanitizing chemicals and compounds for use in hospitals, disposable sanitizing wipes, disposable hand sanitizing wipes, disposable sanitizing wipes, all-purpose disinfectants and antiseptics, all-purpose disinfectants for hygiene and sanitary purposes, anti-bacterial and anti-viral preparations namely antiseptic sprays, anti-bacterial soap, surgical dressings, tissues and cotton wool for surgical use, cleaning preparations, namely cleaners for sterilising surgical instruments; retail and wholesale services in relation to the sale of floor cleaning machines, steam cleaning machines, high pressure cleaning machines namely high pressure washers, carpet cleaning machines, industrial cleaning machines namely carpet shampooers, industrial cleaning machines namely vacuum cleaners, vacuum cleaners, electric machines and apparatus namely steam cleaning machines, shot blasting machines, dry-cleaning machines, floor scrubbing and polishing machines, parts and fittings for floor cleaning machines, steam cleaning machines, high pressure cleaning machines namely, machines for cleaning surfaces using high-pressure water, carpet cleaning machines, industrial cleaning machines, namely electric machines for carpet shampooing, industrial cleaning machines namely, vacuum cleaners, vacuum cleaners, electric machines namely steam cleaning machines, shot blasting machines, dry-cleaning machines, floor scrubbing and polishing; retail and wholesale services in relation to the sale of scientific, research and laboratory apparatus namely, pipettes and droppers for laboratory use and their storage units, vials for laboratory use, laboratory glassware for laboratory use, laboratory tools for collecting, storing, processing samples namely, laboratory burettes, laboratory flasks, laboratory incubators,

laboratory racks, laboratory scales and balances, laboratory slides, laboratory stirrers, laboratory storage tubes, laboratory swabs, laboratory thermometers, laboratory transfer pipettes, laboratory trays and laboratory instrument for the detection of pathogens and biomarkers in blood, body fluids, blood derivatives and body fluid derivatives for clinical research and scientific purposes, the aforesaid not including goods being or goods related to automated chemistry analyzers to be used in laboratories, downloadable software applications for recording, tracking and collating medical test results; retail and wholesale services in relation to the sale of diagnostic apparatus and instruments for medical purposes namely diagnostic biomolecule and DNA sequence detection devices for clinical medical purposes, Rapid Antigen Test (RAT), namely test apparatus for diagnosing the presence of drugs in blood and urine samples, medical instruments for collecting blood, urine, fecal and saliva samples for use in molecular analytics and genetic, proteomic, metabolomic and microbiomic testing and for testing human infectious diseases, testing instruments and probes for medical diagnostic purposes in the nature of medical testing apparatus for testing bodily fluid, and for identifying human infectious diseases or immune deficiencies, namely, body fluids analyzer for medical purposes, diagnostic testing apparatus for use in immunoassay procedures namely immunoassay kits containing immunological reagents for medical diagnostic use, medical apparatus and instruments for use in medical procedures, namely personal protective equipment namely disposable protective clothing for medical purposes, disposable protective footwear for medical purposes, disposable protective headgear for medical purposes, ace masks being sanitary masks for protection against viral infection, face shield for protective breathing masks for medical purposes, protective gloves for medical use, syringes for medical purposes, surgical equipment namely disposable surgical gowns, disposable surgical caps, disposable surgical masks, elastic stockings for surgical use, latex gloves for surgical purposes, reusable surgical caps, reusable surgical gowns, reusable surgical masks, surgical instruments, electric cauteries for surgical use, electric scalpels for surgical use, knives for surgical use, lasers for surgical use, medical and surgical laparoscopes, surgical blades, surgical bougies, surgical breathing masks, suture materials, personal protective equipment for medical and healthcare use, namely disposable gloves, face masks, gowns and aprons, overalls, face shields, caps, shoe coverings, respiratory masks for medical use, thermometers for medical purposes; administration of a database for recording, tracking and collating medical test results.

(1) Chemical, biological and biochemical preparations for scientific and research purposes, namely in vitro diagnostic reagents for use in industry and science; chemical preparations for analysis in laboratories, namely, in vitro diagnostic reagents for characterizing antibody proteins in a biological sample for scientific and research purposes; reagents for in-vitro laboratory use, namely, diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; chemical solutions in the nature of reagents for the calibration and monitoring of the accuracy and function of laboratory apparatus and test results in the field of in vitro testing for scientific use.

Class 05

(2) Chemical, biological and biochemical preparations for medical purposes, namely clinical diagnostic reagents for medical purposes; in vitro diagnostic reagents for medical use; chemical substances for analyses in laboratories for medical purposes, namely diagnostic chemical reagents for medical purposes; reagents for in-vitro laboratory use for medical purposes.

Class 09

(3) Scientific apparatus and instruments, namely, consolidated laboratory systems comprised of automatic chromatography apparatus for laboratory use, laboratory centrifuges, incubators for laboratory use, magnetic agitators for laboratory use all for use in the fields of HIV, drug abuse, therapeutic drug monitoring, hepatitis, infectious diseases, oncology, cardiology, gynecology and women's health, neurology; laboratory instruments for use in research, namely, analyzers for processing and evaluating blood, blood plasma, urine, tissue, saliva, sputum, stool, amniotic fluid, bone marrow and cervical samples for biomarker detection, molecular diagnostics and chemical analysis for scientific and medical research use; laboratory instruments for research and diagnostic purposes, namely, analyzers for processing and evaluating blood, blood plasma, urine, tissue, saliva, stool, amniotic fluid, bone marrow and cervical samples for molecular testing, immunoassay screening, and chemical analysis for laboratory and research use; laboratory equipment, namely automated sample handling equipment comprising laboratory liquid handling robots and recorded operating software for automating diagnostic laboratory processes, namely

sorting of open and closed barcoded, centrifuged, and non-centrifuged sample tubes, decapping of sample tubes, liquid level detection and sample quality assessment, barcode printing, aliquoting of primary and secondary tubes, all not for medical purposes; computer software for interpreting, displaying, managing, and sharing healthcare information about test results from in vitro diagnostic devices for medical and diagnostic purposes, for use in the fields of scientific, diagnostic and clinical research; computer software for the provision of automated diagnostic laboratory processes capabilities between laboratory instrumentation, for use in the fields of scientific, diagnostic and clinical research; Downloadable computer software for use with laboratory instruments, namely, for use in providing remote automated control, connection, data analysis, and data management capabilities between laboratory instrumentation, namely electronic pipettes and liquid handling automated pipetting systems for DNA extraction, biological sample preparation, and cell cultures, all for use in the fields of scientific, diagnostic and clinical research; computer software for use with laboratory instruments, namely, for use in providing remote automated control, connection, data analysis, and data management capabilities namely, downloadable computer software for process optimization between laboratory instrumentation by automating the pooling and archiving of blood test results and blood and plasma samples and generating reports thereof, all for use in the fields of scientific, diagnostic and clinical research; computer systems and software for collecting, storing, analyzing and reporting clinical, molecular, genetic, proteomic and metabolic information related to biological samples, and for sample tracking and managing projects, laboratory workflow and analytical results, for use in the fields of scientific, diagnostic and clinical research and for clinical diagnostic purposes.

Class 10

(4) Medical apparatus and instruments for medical purposes and diagnostic purposes, namely analyzers for in-vitro diagnostic testing for medical purposes; medical diagnostic apparatus, namely automated clinical blood chemistry and immunology analyzers.

Services

Class 41

(1) Education services relating to medicine; training and tuition in connection with medical diagnostic and medical technology instruments in the field of medicine; organization of conferences in the field of medical science; arranging, organizing and conducting of conferences, congresses, symposiums, workshops in the field of medical and laboratory apparatus, equipment and instruments and in the field of services for healthcare providers; publishing of medical publications; publication of medical periodicals, books and manuals (handbooks).

Class 42

(2) Research and design, for others, in the field of computer software for medical applications, medical technology, and chemistry; consultancy in the fields of computer software development, medical technology, laboratory workflow optimization, and chemistry; technical support, namely monitoring technological functions of computer software for medical applications; medical research; writing of computer programs for medical applications; software as a service (SaaS) offering computer software for accessing online databases containing patient's medical and health information; development and design of computer software in the medical field; provision of non-downloadable computer software in the medical field, namely for use in database management for clinical decision support and operational decision support; provision of non-downloadable software for interpreting, displaying, managing, and sharing databases containing health care information; provision of non-downloadable software for use in capture and analysis for medical records to improve patient care; providing temporary use of non-downloadable computer software featuring application programming interfaces (API) software for analyzing molecular and clinical data for

scientific and medical research; cloud computing services namely computing services to enable network integrating computer hardware and software for interpreting, displaying, managing, and sharing healthcare information about test results from in vitro diagnostic devices for medical and diagnostic purposes; development and design of databases in the medical field; medical research services; technical support, namely monitoring technological functions of computer network systems for use with medical devices and equipment and clinical facilities with the support of the Internet; computer technology consultancy services for medical facilities and clinics; design planning for medical facilities and clinics; medical research laboratory services; clinical laboratory services; medical research laboratory services, analysis, namely, preparation of biological samples for testing and analysis in research laboratories, and laboratory testing of materials; design of laboratory and medical apparatus and instruments.

Goods

Class 01

(1) Chemical, biological and biochemical preparations for scientific and research purposes, namely in vitro diagnostic reagents for use in industry and science; chemical preparations for analysis in laboratories, namely, in vitro diagnostic reagents for characterizing antibody proteins in a biological sample for scientific and research purposes; reagents for in-vitro laboratory use, namely, diagnostic reagents for in vitro use in biochemistry, clinical chemistry and microbiology; chemical solutions in the nature of reagents for the calibration and monitoring of the accuracy and function of laboratory apparatus and test results in the field of in vitro testing for scientific use.

Class 05

(2) Chemical, biological and biochemical preparations for medical purposes, namely clinical diagnostic reagents for medical purposes; in vitro diagnostic reagents for medical use; chemical substances for analyses in laboratories, for medical purposes, namely diagnostic chemical reagents for medical purposes; reagents for in-vitro laboratory use for medical purposes.

Class 09

(3) Scientific apparatus and instruments, namely, consolidated laboratory systems comprised of automatic chromatography apparatus for laboratory use, laboratory centrifuges, incubators for laboratory use, magnetic agitators for laboratory use all for use in the fields of in the fields of HIV, drug abuse, therapeutic drug monitoring, hepatitis, infectious diseases, oncology, cardiology, gynecology and women's health, neurology; laboratory instruments for use in research, namely, analyzers for processing and evaluating blood, blood plasma, urine, tissue, saliva, sputum, stool, amniotic fluid, bone marrow and cervical samples for biomarker detection, molecular diagnostics and chemical analysis for scientific and medical research use; laboratory instruments for research and diagnostic purposes, namely, analyzers for processing and evaluating blood, blood plasma,

urine, tissue, saliva, stool, amniotic fluid, bone marrow and cervical samples for molecular testing, immunoassay screening, and chemical analysis for laboratory and research use; laboratory equipment, namely automated sample handling equipment comprising laboratory liquid handling robots and recorded operating software for automating diagnostic laboratory processes, namely sorting of open and closed barcoded, centrifuged, and non-centrifuged sample tubes, decapping of sample tubes, liquid level detection and sample quality assessment, barcode printing, aliquoting of primary and secondary tubes, all not for medical purposes; computer software for interpreting, displaying, managing, and sharing healthcare information about test results from in vitro diagnostic devices for medical and diagnostic purposes, for use in the fields of scientific, diagnostic and clinical research; computer software for the provision of automated diagnostic laboratory processes capabilities between laboratory instrumentation, for use in the fields of scientific, diagnostic and clinical research; Downloadable computer software for use with laboratory instruments, namely, for use in providing remote automated control, connection, data analysis, and data management capabilities between laboratory instrumentation, namely electronic pipettes and liquid handling automated pipetting systems for DNA extraction, biological sample preparation, and cell cultures, all for use in the fields of scientific, diagnostic and clinical research; computer software for use with laboratory instruments, namely, for use in providing remote automated control, connection, data analysis, and data management capabilities namely, downloadable computer software for process optimization between laboratory instrumentation by automating the pooling and archiving of blood test results and blood and plasma samples and generating reports thereof, all for use in the fields of scientific, diagnostic and clinical research; computer systems and software for collecting, storing, analyzing and reporting clinical, molecular, genetic, proteomic and metabolic information related to biological samples, and for sample tracking and managing projects, laboratory workflow and analytical results, for use in the fields of scientific, diagnostic and clinical research and for clinical diagnostic purposes.

Class 10

(4) Medical apparatus and instruments for medical purposes and diagnostic purposes, namely analyzers for in-vitro diagnostic testing for medical purposes; medical diagnostic apparatus, namely automated clinical blood chemistry and immunology analyzers.

Services

Class 41

(1) Education services relating to medicine; training and tuition in connection with medical diagnostic and medical technology instruments in the field of medicine; organization of conferences in the field of medical science; arranging, organizing and conducting of conferences, congresses, symposiums, workshops in the field of medical and laboratory apparatus, equipment and instruments and in the field of services for healthcare providers; publishing of medical publications; publication of medical periodicals, books and manuals (handbooks).

Class 42

(2) Research and design, for others, in the field of computer software for medical applications, medical technology, and chemistry; consultancy in the fields of computer software development, medical technology, laboratory workflow optimization, and chemistry; technical support, namely monitoring technological functions of computer software for medical applications; medical research; writing of computer programs for medical applications; software as a service (SaaS) offering computer software for accessing online databases containing patient's medical and health information; design and development of computer software in the medical field; provision of non-downloadable computer software in the medical field, namely for use in database management for clinical decision support and operational decision support; provision of non-downloadable software

for interpreting, displaying, managing, and sharing databases containing health care information; provision of non-downloadable software for use in capture and analysis for medical records to improve patient care; providing temporary use of non-downloadable computer software featuring application programming interfaces (API) software for analyzing molecular and clinical data for scientific and medical research; cloud computing services namely computing services to enable network integrating computer hardware and software for interpreting, displaying, managing, and sharing healthcare information about test results from in vitro diagnostic devices for medical and diagnostic purposes; development and design of databases in the medical field; medical research services; technical support, namely monitoring technological functions of computer network systems for use with medical devices and equipment and clinical facilities with the support of the Internet; computer technology consultancy services for medical facilities and clinics; design planning for medical facilities and clinics; medical research laboratory services; clinical laboratory services; medical research laboratory services, analysis, namely, preparation of biological samples for testing and analysis in research laboratories, and laboratory testing of materials; design of laboratory and medical apparatus and instruments.

Goods

Class 01

(1) High density fluids for use in the generation of electricity, namely, hydraulic fluids and drilling fluids; high density fluids for use in energy storage, namely, hydraulic fluids and drilling fluids; high density fluids for hydraulic turbines, namely, hydraulic fluids and drilling fluids; chemical substances in the nature of chemical preparations, chemical additives, chemical oxidants for use in the manufacture of high density fluids, namely, hydraulic fluids, drilling fluids, and heat transfer fluids for use in generation of electricity and energy storage; chemical substances, namely, chemical preparations, chemical additives, chemical oxidants for use in the manufacture of high density fluids, namely, hydraulic fluids, drilling fluids, and heat transfer fluids, for hydraulic turbines.

Class 07

(2) Turbine blades for power generation; turbines for power generation; hydropower turbines; fluid pumps, namely, hydraulic pumps for fluids; fluid pumps for high density fluids, namely, hydraulic pumps for high density fluids being hydraulic fluids, drilling fluids, and heat transfer fluids for use in the generation of electricity; fluid pumps for use in the generation of electricity; fluid pumps for use in energy storage, namely, hydraulic pumps for fluids; pump control valves, namely, valves to control hydraulic fluid pumps; parts and fittings for the aforesaid goods.

Class 09

(3) Computer hardware; downloadable computer software for data processing, data transmission, and operating computer hardware systems in the field of electricity generation; data processing equipment, namely, computers, computer hardware, computer servers, and storage devices used for data collection, data storage, data retrieval, and data transmission, namely network-attached storage devices being external hard drives and cloud storage gateways; telecommunications equipment, namely, telecommunications transmitters and telecommunications cables for satellite internet and cellular phone data, and telecommunications multiplexers; measuring, detecting and monitoring instruments, indicators and controllers, namely, rheometers for measuring the viscosity and viscoelasticity of fluids; electrical and electronic components, namely, circulators in the nature

of electronic components for computer hardware, over-voltage protection relays, electric contactors; apparatus and instruments, namely, permanent magnet synchronous generators, doubly fed induction generators, and power conversion electronics being variable frequency drives for conducting, switching, transforming, accumulating, regulating or controlling manufactured electricity using high density fluids; electrical and electronic circuitry, being electric and electronic circuits in use for the generation of electricity through high density fluids; power supply units in the nature of uninterruptible electrical power supplies; energy storage apparatus, namely, supercapacitors, ultracapacitors and lithium-ion batteries for energy storage; electricity storage apparatus, namely, lithium-ion batteries and supercapacitors for electrical energy storage; downloadable computer software for conducting, switching, transforming, accumulating, regulating and controlling electrical power and electrical power distribution units; computer hardware for conducting, switching, transforming, accumulating, regulating or controlling electricity; downloadable computer software for monitoring, optimising and regulating the storage, transmission and discharge of energy to and from energy storage systems namely supercapacitors and ultracapacitors for energy storage; computer hardware for monitoring, optimising and regulating the storage, transmission and discharge of energy to and from energy storage systems; downloadable computer software for operating electricity power grid data communication networks, namely software used to monitor, control, manage and secure data communication across electric power grids; downloadable computer software for the remote management of energy storage systems namely to monitor, control and optimize battery systems, namely supercapacitors and ultracapacitors for energy storage over the internet and wireless communications networks; downloadable computer software for the remote management of control systems and power conversion systems in the field of renewable energy storage; remote control and monitoring apparatus in the nature of electronic apparatus for the remote control of industrial operations and remote video monitoring systems consisting primarily of a camera and video monitor for recording and transmitting images to a remote location; remote control and monitoring apparatus for the remote management of energy storage systems, namely, remote electric control devices for energy management, electronic monitors and monitor modules for remote monitoring electric current and electrical voltage; remote control and monitoring apparatus for the remote management of electric apparatus and systems in the nature of electric control devices for electric energy management and electronic monitors and monitor modules for remote monitoring electric current and electrical voltage; apparatus for monitoring electrical energy consumption, namely, electronic energy meters for tracking and monitoring energy usage, electrical energy utilization metering devices; parts and fittings for the aforesaid goods.

Services

Class 37

(1) Installation, maintenance and repair of computers and computer hardware.

Class 40

(2) Production of electrical power; production of electrical power using high density fluids; energy generation; energy production; energy generation services; energy production services; processing and transforming of energy; rental of energy generating equipment; leasing of energy generating equipment; production of energy by turbines; production of energy by high density fluids; production electrical energy from renewable sources; information and advisory services related to the aforementioned.

Class 42

(3) Installation, maintenance and repair of computer software; electrical engineering; electrical engineering services; design and development of electrical systems; engineering services in the

field of electrical power production; engineering services in the field of renewable energy production; creation of control programs for electric operation control and drive modules; design and development of energy and power management systems; design and development of energy distribution networks; scientific and industrial research services in the field of electrical engineering and energy production; scientific and industrial research services in the field of electrical power production; scientific and industrial research services in the field of renewable energy production; remote monitoring and management of electrical apparatus and systems in the nature of metering and monitoring electric power consumption by third parties for electric power providers; remote monitoring and management of energy storage systems; software as a service (SaaS) featuring online, non-downloadable software for remote monitoring of energy storage systems, operating computer hardware systems for energy generation systems; software as a service (SaaS) for software for conducting, switching, transforming, accumulating, regulating or controlling electrical power and electrical power distribution units; software as a service (SaaS) for monitoring energy flow, optimising energy usage and regulating the storage, transmission and discharge of energy to and from energy storage systems namely supercapacitors and ultracapacitors for energy storage; software as a service (SaaS) featuring software for operating electricity power grid data communication networks used to monitor, control, manage and secure data communication across electric power grids; software as a service (SaaS) featuring software for the remote management of energy storage systems namely to monitor, control and optimize battery systems, namely supercapacitors and ultracapacitors for energy storage over the internet and wireless communications networks; software as a service (SaaS) featuring software for the remote management of electric apparatus and systems in the nature of electric control devices for electric energy management and electronic monitors and monitor modules for remote monitoring electric current and electrical voltage; information and advisory services related to the aforementioned.

Goods

Class 09

(1) Computer hardware and recorded computer software for analysis of biomechanical motion data from motion capture technologies; computer hardware and recorded computer software used for 3-dimensional motion tracking and character animation and industrial process control and stabilization; motion capture systems, consisting of motion tracking devices in the nature of inertial measurement units comprised of gyroscopes, accelerometers and magnetometers and recorded software for analysing and visualizing position, orientation and body posture for use in connection with computer animation and special effects for film, advertisement, broadcasting, game development, simulation, events animation, robotic control, industrial design, ergonomics, biomechanics, sports studies, movement science, and rehabilitation; inertial measurement units comprised of gyroscopes, accelerometers and magnetometers, and recorded software for use therewith for analysing and visualizing position, orientation and body posture for use in connection with computer animation and special effects for film, advertisement, broadcasting, game development, simulation, events animation, robotic control, industrial design, ergonomics, biomechanics, sports studies, movement science, and rehabilitation; systems for measurement of joint angles, consisting of inertial measurement units comprised of gyroscopes, accelerometers and magnetometers and recorded software for use therewith for analysing and visualizing position, orientation and body posture for use in connection with computer animation and special effects for film, advertisement, broadcasting, game development, simulation, events animation, robotic control, industrial design, ergonomics, biomechanics, sports studies, movement science, and rehabilitation; systems for measurement of motion, orientation and position, consisting of inertial measurement units comprised of gyroscopes, accelerometers and magnetometers, and recorded software for use therewith for analysing and visualizing position, orientation and body posture for use in connection with computer animation and special effects for film, advertisement, broadcasting, game development, simulation, events animation, robotic control, industrial design, ergonomics, biomechanics, sports studies, movement science, and rehabilitation; systems for measuring body posture, consisting of measuring devices in the nature of inertial measurement

units comprised of gyroscopes, accelerometers and magnetometers and recorded software for computation and editing of biomechanical body posture data from motion capture technologies; systems for measuring of motion, orientation and position, namely systems for measuring joint angles consisting of measuring devices in the nature of inertial measurement units comprised of gyroscopes, accelerometers and magnetometers and recorded software for computation and editing of biomechanical body posture and joint angle data from motion capture technologies; recorded software for computation of biomechanical body posture data from motion capture technologies; recorded software for editing of biomechanical body posture data from motion capture technologies; recorded software for analysis of body posture data from motion capture technologies; recorded software for visualization of body posture data from motion capture technologies; recorded software for the analysis of biomechanical data obtained during sports training activities from motion capture technologies; recorded software for assisting in the design of sports equipment; electronic sports training simulators, namely, tennis training simulators, golf training simulators, running training simulators, speed skating training simulators, trampoline training simulators.

Class 10

(2) Surgical, medical, biomechanical and orthopedic apparatus and instruments in the nature of medical force and range of motion testing apparatus for physical training and rehabilitation, namely, measuring devices for tracking body motion and position for use in medical diagnostics and medical treatment; surgical, medical, biomechanical and orthopedic apparatus and instruments in the nature of medical force and range of motion testing apparatus for physical training and rehabilitation, namely, motion, angle and posture measurement devices for tracking body motion, angle and position for use in medical diagnostics and medical treatment; surgical, medical, biomechanical and orthopedic apparatus and instruments in the nature of medical force and motion testing apparatus for physical training and rehabilitation, namely, displacement measurement devices, and measurement devices and systems for tracking body motion, angle and posture measurement.

Services

Class 42

(1) Conducting scientific, technological and medical scientific studies and research, product design and development and consultancy related to scientific, technological and medical scientific studies, all in the field of motion capture, measurement of motion, orientation and position, computation of body posture, editing of body posture, analysis of body posture and visualization of body posture, all of the forgoing for research purposes; research and development of computer software and mobile device software applications used to track body movement.

Class 44

(2) Conducting studies for medical purposes in the field of motion capture, measurement of motion, orientation and position, computation of body posture, editing of body posture, analysis of body posture and visualization of body posture, for medical diagnostic and treatment purposes.
